Enviable Distinction.

In the midst of a general, and in many instances not unmerited prejudice against nearly all the medical remedies of the day, Dr. W. EVANS' Pills have the enviable distinction of an universal approbation. They are perhaps the only medicine publicly advertised, that has the full and unreserved testimony of medical men in its favor. It is the only one which has given full satisfaction to its inventor. Dr W. Evans has the satisfaction of knowing that his CAMOMILE or TONIC PILLS are not only regularly recommended and prescribed by the most experienced physicians in their daily practice, but also taken by most respectable members, whenever they find symptoms of those diseases in which they will know them to be efficacious. He has also the satisfaction of hearing the case in New York, Philadelphia, Albany, Boston, and other large cities in which they have an extensive sale. That they should thus conquer medical prejudice and interested opposition, and secure the agency of the public press, and the interest of physicians in the country to render them useful to all classes, can only be fairly ascribed to their undeniable and unusual excellent virtues.

It is plain, however, as this distinction is, it may be accounted for from the intrinsic superiority of the medicine itself. The cases are too many, and too much, and it accomplishes all that it promises. Dr. Evans does not present, "a panacea," or, rather, he does not claim for Antibilious Pills will cure all diseases by merely purifying the blood, but he certainly, and very plainly, and has the authority of thousands, positively asserting that these medicines, taken as recommended, will cure a great variety of the diseases of the Stomach, Liver, and the Liver, by which impurity of the blood is occasioned. The blood is the source of the nourishment of the body, and color and vitality given to it by the action of the lungs, and as it performs its duty in conducting the nourishment to the system, it is yellow or bilious excrement, which may be termed its refuse or worn out refilment, Must be discharged by the liver. These causes, then, are the anatomical mechanism of separates by which the blood is manufactured and preserved; and it is therefore obvious that the state of these should be the first consideration of the physician. Now there are numerous causes that will affect and impede these organs with which the blood has nothing whatever to do. Thus the stomach, which is the laboratory, is also accessible to cold, grief, disappointment, heat of the weather, or any other nervous action, and the body, possible to be affected. Is it, then, a wonder

of which he pretends to be a rival

Yes, for God's sake,

Agreeably to a public notice, many of the citizens of Lawrence county, Ky. met at the court house in Louisa. G. V. Goble Esqr. being called to the chair and S. F. Carrie appointed Secretary. The object of the meeting was explained in an address from the chair; after which, Messrs. S. F. Carrie, George F. Hatcher, and James P. Burns, were appointed a committee, to draft a preamble and resolutions, expressive of the sense of this meeting in the election of a suitable person to represent this district in the next Congress of the United States.

The Committee, after retiring for half an hour, returned and offered the following Preamble and Resolutions which were received and unanimously adopted.

Whereas by union of effort and concert of action all great and important measures are achieved; whether in war, politics or religion, the result is the same. By it, the weak become powerful and the few formidable. It was so in the achievement of our national independence, the attainment of which, cost the blood and toil of our heroic forefathers. It behooves us then as the representatives of departed heroes to stand up to the defence of our liberty and suffer none to pass its sacred portal but those whose character and political principles have under gone the most rigid scrutiny. Therefore, as we will soon be called on to exercise the inestimable privilege and important duty of selecting from among ourselves, a person qualified to serve us in the councils of the nation, and having learned that our distinguished fellow citizen, Genl. Thompson Ward has a candidate to represent the democracy of the Eleventh Congressional District in the next Congress of the United States, and entertaining, as we do, the highest regard for Genl. Ward, not only as an honorable and high minded man, but as a sound politician and undeviating republican—entertaining, too, the highest regard for the important services Genl. Ward has rendered the State for many years in both branches of her Legislature; for the patriotic zeal he has uniformly manifested for the public good—for the promptitude with which he has always obeyed the country's call when her liberty was in danger.

Resolved, therefore, that Gen. Ward is worthy of our greatest confidence and that we will unite in effecting his election by all honorable means in our power.

Resolved, That the citizens of Blain, in this county, and those of the whole District, be, and the same are hereby requested to join with us in supporting the election of Genl Ward.

Resolved, that a copy of the foregoing Preamble and Resolutions be forwarded to the Editor of the Maysville Monitor for publication.

After which, on motion of Mr. Thompson, the meeting was adjourned.

G. V. GOBLE.
SAMUEL F. CARRIE, Sec'y.

R H STANTON, Sec.

The London Morning Post thus alludes to the omission of the city of Mobile to make provision for the regular payment of the interest due on its bonds held in England. A failure of this character, we are compelled to add, is not only discreditable to the community which permits it to occur, but is calculated to inflict excessive injury on the country at large, by the distrust which it is likely to create in future use to American securities generally. We hope, for its own credit's sake, that Mobile will speedily make good its delinquency in the premises, and thus avert the other consequences to which we have referred:

From the London morning Post.

We regret to have to make known to our readers a breach of its pecuniary engagements on the part of one of the American cities, the liabilities of which are held, and we should hope, rather extensively held, by the capitalists of this country. The city of Mobile borrowed a sum of money on bonds dated 1st February, 1836, to bear interest at the rate of 8 per cent per annum, for ten years, pursuant to an act of the state of the Legislature of the State of Alabama. The interest on those securities was made payable half yearly, but we learn on good authority, that the last August dividends have been discharged in part only, and that the February dividend is now unpaid, a circumstance which, whatever arrangement may hereafter be made by the city authorities of Mobile, in order to extricate themselves from their liabilities, cannot fail to be attended with much present inconvenience to the holders of the bonds. It is appointed, we are sorry to add, that but little exertion was made to provide for the payment of the obligations in question at maturity, for through the financial embarrassment of the last year been perhaps but partially overcome, yet there are few of the leading banks that had not resumed payment in specie prior to February last, and that not escaped obs ervation that the capital of the pound, the stock of cotton in the port of Mobile amounted, to little short 90,000 bales.

The omission of any important city, or any State of the republic, to prepare for the discharge of its dividends, is most unusual. It is, indeed, an occurrence which we do not remember to have taken place at any former period of its history, and with an abundance of produce at hand, or in commerce with which the means should have been procured, had the city of Mobile only been really solicitous to preserve its credit, it must be considered a great reproach to the inhabitants to allow so wealthy and flourishing a place to be in circumspect, in this particular, than the various other cities of the Union, which have likewise contracted loans for the purpose of effecting local improvements.—It seems, however, that Mobile owes considerably more money than was raised by the issue of the above bonds in 1835, and it is taken for granted that the interests upon this is equally in arrear. If lapses of this character be allowed and are not for the future very carefully guarded against by the people of America, it is easy to foresee that their securities in Europe will be held in by no means the high estimation, and command the high prices that they do at present

The Senate of this State will be seen, are at their old tricks again. They are not wanted of their ancient habit of passing obedient to the desires of corporations. They have just given their consent to the renewal of the charters of two banks, —The Long Island Bank, and Rochester Bank. In fact, after the passage of the small bill they were not entitled to expect nothing better from them. There is too much of the old leaven in that body yet; too much of the fatal taint to which we owe it that the democratic party was thrust down from its ascendancy in this State—too much of the disposition to make a distinction between their own favorites and the rest of the community—too much of a disposition to grant special favors, and to legislate money into the pockets of their friends. Such practices make us doubt whether the period of whig rule is not to be prolonged. If the members who represent the democratic party in our legislature, do not distinguish themselves from the whigs by their regard to the rights of the people, and their opposition to all legislative distinctions between classes of men, we shall have no right to complain if the people do not give our party the preference.

Equal members are glad to see had the firmness and integrity to oppose the renewal of those charters and to record their votes against them. Their names will be found in the account of the proceedings of the Senate where they stand in an honorable minority.

Ten righteous would have saved a city once, says Cowper, but unfortunately the votes on the question of rechartering these banks do not show so large a number.—*N. Y. Evc. Post*

The policy of establishing founding hospitals has been doubted by many benevolent and well judging individuals, on the ground that they render parents less solicitous about the charge of their offspring. Whatever may be said of this question in our own country, where the facilities of earning a subsistence are so very great, and where the laboring classes can always command good wages, the institutions above named have certainly, in the thickly populated countries of Europe, been the means of preventing a vast deal of suffering and crime. At Moscow, in Russia, there is an establishment of the kind on a most magnificent scale, founded by the Empress Catharine. Buildings are very spacious, affording comfortable accommodation to four thousand persons, young and old. In the year 1824 the number of children supported by the house was 12,000; in 1829 the number had increased to 23,783; and at the time when Mr. Bremner made his excursions to the interior of Russia, of which he has lately published an interesting account, there were 30,000 dependent on the funds of the institution. The annual expense is stated to be 20,000,000 roubles or £300,000. Of course by far the greater portion of the children connected with the establishment are boarded out in the neighbourhood. The majority of children does not depend on their being foundlings, as all who are unable or unwilling to bring up their offspring may send them there.—These are nurses regularly employed, who take charge of the infant sent, and are instructed in the art of being, strictly speaking, a foundling hospital, it has become a sort of national nursery. The philanthropy which dictated the foundation of such an institution will be held in foul remembrance when some of the secret acts of royalty performed by the foundress will only be remembered with feelings of antipathy.—*Baltimore American.*

MARRIED, In Flemingsburg, on Tuesday morning last, by the Rev David Todd, Mr. N. S. ANDERS, to Miss ELIZABETH A. ALEXANDER, both of that place.

A Card.

We, the subscribers, passengers on board the steamboat "North Star," from Cincinnati to St. Louis, having been eye witnesses to the conflagration and destruction of the steamer "Omaha, belonging to Mr. Brown, Agent, fifteen miles from the mouth of the Ohio, would respectfully represent, that, in our opinion, during the tremendous and heart rending catastrophe, Capt. LEYMAN, and other officers of the Omaha, by their exertions to rescue the crew on board the consuming wreck, made very great sacrifices, and placed their boat in imminent danger, by approaching alongside the Glasgow, and taking on board her passengers, and using her engine and hose to extinguish the fire, until forced by the flames and safety of their boat to abandon her.

The sight of the burning boat at that time was distressing, yet, knowing that it was a great many left on board, who (except a few who got ashore by the yacht,) were left with but the alternative of jumping into the river. Fortunately, so far as we can learn, there was but one man drowned. The highest praise is due to the officers of the Glasgow, for their humanity and kindness, exhibited towards the sufferers, who were most of them left destitute, having lost their all, clothes and money! by taking them on board, and doing every thing that could consistently be done for their comfort.

We would likewise state, that so far as we could observe, every assistance was rendered, and every attention made that could be shown by the Captain of the Glasgow, to save the lives of his passengers.

St. Louis Bulletin, April 26.

A Card.

The undersigned, passengers on board the steamboat "Wm. Gaston," on her last down trip from Pittsburgh to St. Louis, take this method of tendering their grateful acknowledgements to the Captain of the North Star, for the very kind and gentlemanly course he pursued towards us during our unpleasant period.—And, when we take into consideration the distressed situation in which we perished those on board the Glasgow—the peril that you exposed yourself, your passengers, your property, &c. we deem it our duty to give publicity to your disinterested kindness and humanity, with a hope that others may be stimulated to imitate your noble example.

We wish to express our thanks to Capt. Littleton and the crew of the Glasgow, for their unbefeigned exertions in delivering the passengers, baggage, &c., on shore, as soon as the fire was discovered, and our approbation of his conduct as an officer during our passage. The conflagration we are disposed to ascribe to the highly combustible material of a portion of the cargo, viz. the boxes, and not to any want of vigilance or attention, on the part of the officers or crew.

In conclusion, it gives us pleasure to say, that we have found Capt. Lewis and Capt. Littleton during our passage, both to be gentlemen with confidence in him as an officer, and to impart a high esteem for him as a man.

It the present Season

It is of the greatest importance to CLEANSE and PURIFY the body, as not only health, but LIFE depends upon its purity. The application of the principle of purgation being allowed to be one of the greatest utility in the cure and prevention of disease, it is of the greatest consequence to ascertain what medicine is capable of producing the desired effect, in the easiest, and at the same time in the most effectual manner.

It has no longer to contend with the blind prejudices of the greater portion of the public; it is only with those few who are still determined to be "killed according to rule," ill- the people of old who "would have" a "King to rule over them" But, thanks to the circulation of newspapers—thanks to the general diffusion of knowledge, which enables nineteen twentieths of THE PEOPLE to read and to judge for themselves—now we no longer believe in swallowing that deadly mineral, MERCURY, professing to cure—but universally leaving us in a worse condition after its use.

We no longer believe in the absurd notion, that inflammation of any kind can be cured by abstracting our life—OUR BLOOD. It is now well understood that an inflamation is a wise OMNIPANCE OF NATURE; a signal that she requires the assistance of purgative medicine to ease her of the oppressive burden which she groans by the effects of some disease, that she wanted to be removed. In other words, the body calls for a vegetable cleansing.

BRANDRETH'S VEGETABLE UNIVERSAL PILLS require no skill in their administration; the printed direction only has to be observed, and they prescribe the just proportion of the dose, to the magnitude of the disease to be cured.

Let all persons read the following opinion of a gentleman who well knows the qualities of these Pills.

BRANDRETH'S PILLS.

This medicine is acknowledged to be one of the most valuable ever discovered, as a purifier of the blood and fluids. It is superior to Sarsaparilla, whether as a sedorific or alterative. It stands infinitely before all the preparations or combinations of Mercury. Purgative properties are alone of incalculable value—for improper diet, it has been daily NOT FEARED, and instead of weakening by the cathartic effect, they add strength by taking away the cause of weakness. Take a good MERCURY does, which these Pills do not likewise. But they have none of the miserable effects of that drastic cancer. The trains are not injured;—the bone and limbs are not paralyzed—the constitution is not thrown into wasting, nervous, new life and consequence attenuation is evident in every movement of the body. Brandreth's Pills are a TRUE UNIVERSAL REMEDY, for they cure opposite diseases; they cure INFLAMMATORY AND CHRONIC RHEUMATISM, GOUT, FEVERS and STRANGULATIVE. They cure DYSENTARY AND CONSTITUTIONAL COSTIVENESS! They will cure all those agonizing complaints, BILIOUS COLIC, they CLEANSE and PURIFY the blood, provided, however, nature is not beyond all human ASSISTANCE. Four years this medicine has now been before the public of the United States; wherever it has been introduced it has superseded all other remedies.

25 cents per box with directions.

Beware of counterfeits.

Druggists Never made agents.

Each of Dr. Brandreth's Agents have an engraved certificate. The certificates are renewed regularly; therefore when over twelve months old they no longer guarantee the genuineness of the medicine.

Remember druggists are never made agents.

D. CARROLL.

An Excellent Medicine,

For sale by S. Stevenson, Concord, Ky.

GOELICKES'
MATCHLESS SANATIVE;

A MEDICINE of more value to man than all the vast mass of matter, the united treasures of our globe! a medicine, obtained purely from the vegetable, animal and mineral kingdom, and that, in a *three fold* power—a medicine, which, though designed as a remedy for consumption solely, is possessed of a mysterious influence over every disease of the human system—a medicine which begins to be used by Physicians, who are daily witnessing its astonishing cures of many whom they had resigned to the grasp of the inevitable grave.

Door of the Sanative for Adults, one drop for children a half drop; and for infants a quarter drop; the directions explaining the manner of taking a half or quarter drop.

Price—Two dollars and fifty cents per *half ounce.*

Louis Offen Goelicke, M. D. of Germany, the illustrious benefactor of man, is entitled to the gratitude of the Europeans, for his invention of the *Matchless Sanative*—whose healing, but may justly claim for it such a title, since it has so totally triumphed over our great common enemy CONSUMPTION, both in the first and last stages—a medicine which has thoroughly filled its essence in the Materia Medica, and thereby proved itself the Consummate of Physicians—a medicine, for which all mankind will have abundant cause to bless the benificent hand of a kind Providence—a medicine, whose wondrous virtues have been so gloriously portrayed even by some of our clergy in their pastoral visits to the sick chamber, by which means they have snatched from the happy instruments of changing despondency into hope, sickness into health, and sadness of friends into joyfulness.

Such is the demand for this mighty health restorer in Germany, that Mr Anthony Stonner, one of our booksellers, sold in one month, 147 phials, being more than six packages for E. P. Manhattan, grocer, 138; Mr. Jas. Secier, insurance agent, 108; and one other man who has made returns of money to the depository, has sold less than 199 per month since he received his appointment.

An association of gentlemen with Mr. Manhattan at its head, and comprising 29 agents, recently offered Dr. Goelicke $5000 for his original receipt for preparing the Sanative, but this was refused.

Of most medicines offered to the public, the method is directed to take five or six bottles, and if these do not cure, recourse is the one of five or even fifteen put up by the Matchless Sanative.

It is here worthy of remark, that almost every instance where the Sanative has failed by this remedy, less than a pint has removed the disease—and, in no other case, where it has failed fifteen or twenty bottles, but the patient used two whole phials.

The Sanative is above all estimate, as a general preventive of consumption, and by many it is said to be a never failing antidote, though the inventor does not claim it with such infallibility.

All persons who live in unhealthy climates, whether hot or cold—all operatives and others connected with manufactories, and all who lead sedentary and inactive lives, are exposed to various insidious malies lies which may be silently preying upon their constitution, while their countenances wear the glow of health, and while they suspect no danger ARISE—maladies which an occasional dose of the Sanative would check in the bud.

The patient while using the medicine, should eat and drink (in kind not quantity) whatever the appetite dictates, and not be compelled to force food against nature's wishes, and which the tender-hearted friends and kinder nurses often impulsively recommend

MARS THERAPEUTICAL PHYSICIAN, (the doctor and nurse only her servants) asks if we would profit by her advice, we must adhere strictly to the following receipt. Take order for the patient water, porter, or hock, obey her; if the direct fish, fowl, eggs, or a beef steak, be required, let it be served; let the patient should eat and drink whatever his appetite craves, not forgetting to be temperate in all things.'

In burning fevers mock not the patient's insinctive call for cold drink, by simply moistening (?) his parched lips; but plant by his bedside a vessel of water, put into his hands a cup, and let him slake his thirst at pleasure

This is nature.

From Timothy George, Esq. Orrington, Me.

"My wife has been considered a consumptive habit for twenty-two years, attended with a severe cough, but has always or generally attended to her domestic concerns. Last February of last winter, when she had a sudden and severe attack of pain in her side, and difficulty for breath, immediately fell upon one of her bed Physicians, should advise carefully attend her, and I was well satisfied with his treatment of her case, though her disease was partially alleviated, there was no hope of her recovery, her doctor told him she had left the consumption, and that her LUNG WAS PARTIALLY CONSUMED and seemed to despair of her recovery. He recommended the Sanative, but I not continue but a short time, he said her nothing but sleeping powder to command her rest, and consequently probability I feel in this Sanative Drops, and though she was altogether hopeless, the first dose she took gave her some relief, she continued taking them strictly according to the direction, her appetite was soon restored to a child's appetite, and she continued to gain in health, that I do not know but her health is as good as it has been since we married, say ten years.

N. B. She has taken about one half bottles when she called herself well.

Orrington, Me., April 29, 1839.

TIMOTHY GEORGE.

THE MATCHLESS SANATIVE (sold by DUTTON & CARLISLE, Druggists, Brattleboro,) VI) has effected many cures of diseases so obstinate as to resist the skill of Physicians and the power of other remedies. The following are few of the Testimonials of the efficacy of this medicine, which they now cheerfully lay before the public. Many more individuals can be referred to by them as having been greatly benefitted by using the Sanative—*Fremont Phenix.*

☞*Certificate from Thomas Crosby of Brattleboro'.*

This certifies that my daughter has for a long time been in a decline, and has tried many medicines without effect. She has made use of the Matchless Sanative, which has greatly relieved her. It restored her appetite and sleep, which she had not before enjoyed for a long time. I would therefore recommend it to all suffering with consumptive complaints.

THOMAS CROSBY.

Brattleboro, March 13, 1838.

Certificate from Henry Clarke, Esq., of Brattleboro.

This certifies that I had suffered for many months from an obstinate cough which resisted a great variety of medicines, until I used a bottle of the Matchless Sanative, which removed it *entirely* in the course of two or three weeks and restored me to perfect health.

HENRY CLARK.

Brattleboro, March 13, 1839.

Certificate from Samuel Cutting, Boy of Guilford, Vt.

I, Samuel Cutting, of Guilford, Vt. would certify that I have suffered for more than two years past from a severe lung complaint, attended with a severe pain in my side and back, and with general debility. I was so weak and great variety of medicines from various Physicians in this vicinity, and received obtained from the same Physicians, but I was not cured without the best benefit. I am now using the 4 bottle of the Matchless Sanative which medicine has greatly relieved me. My health is my side is comparatively well, and my strength has gained very much. I feel confident that the Sanative alone, has effected the relief, and I would cheerfully recommend it to all who are suffering with lung complaints and advise them to try the medicine without delay.

SAM'L CUTTING.

Guilford, March 19, 1839.

NOTES.

1. Each route must be bid for separately.—The route, the sum the mode of service, and the residence of the bidder, should be distinctly stated in each bid.

2. No proposal will be considered unless it be accompanied by a guarantee, signed by one or more responsible persons, in the following form, viz:

"The undersigned guaranty that if his bid for carrying the mail from

be accepted by the Postmaster General, shall enter into an obligation prior to the 1st day of September next, with good and sufficient sureties to perform the service proposed.

"Dated 1839."

This guarantee must be accompanied by the certificate of a postmaster, or other equivalent testimony, that the guarantors are men of property and able to make good their engagements.

(☞This guarantee being required by law, no exception can be allowed in favor of individuals, or incorporated companies, or any other companies or persons whatsoever.

2. The distances, as stated in this advertisement, are believed to be substantially correct; but the bidder will inform himself on that point, as no increased pay will be allowed for any difference between the places are named correctly.

4. The Postmaster General may alter the schedule, and alter the route, he allowing a *pro rata* increase of compensation for any additional service required, and for any increased speed, when the improvement of additional stock or carriers is rendered necessary.

5. He may discontinue the route, or curtail it at a pro rata reduction of pay, whenever he shall consider it expedient to do so, he allowing one month's extra pay on the amount dispensed with.

6. He may impose fines for failure to take or deliver a mail, or any part of a mail, at any post office which is or may be established on the route; for refusing or neglecting to perform his other stipulations in the contract; for suffering the mail to be injured, wet, lost, or destroyed; and may exacts forfeiture of the pay of the trip in which the trip is lost, or the mail arrives so far behind schedule time as to lose connection with a depending mail.

7. He may annul the contract for repeated failures to perform any of the stipulations; for refusing to discharge a carrier when required; for violating the Post Office laws; for disobeying the instructions of the Department, or assigning a contract without the previous consent of the Postmaster General.

8. If the contractor shall run a stage or other vehicle more rapidly or more frequently than he is required by the contract to carry the mail, he shall give the same increased celerity and frequency to the mail, and without increase of compensation.

9. Contractors on stage and coach route shall convey, free of charge, all agents of the Department, and mail messengers of their credentials; also, mail bags and post office blanks.

10. The Postmaster General is prohibited, by law, from making any allowance for the transportation of the mail with any person who shall have entered into any contract, or agent, or proposed to enter into any combination, to prevent the making of any bid for a mail contract by any other person or persons, or who shall have made any agreement, or shall have given or performed, or promised to give or perform, any consideration to induce any person to bid, or whatever to induce any other to bid for a mail contract.

11. The post coach and stage routes, where that kind of transportation is sometimes difficult, proposals will be received for carrying the mails on horseback, in wagons, or carts, for a specified number of months, weeks, or days in each year; but no dispensation of post coach or carrier service will be tolerated, unless it be stipulated for in the proposal and embraced in the contract.

12. The proposals should be sent to the Department, sealed, endorsed "Mail proposals in the State of ," and addressed to the First Assistant Postmaster General, S. R. Hobbie.

GOELICKES' MATCHLESS SANATIVE,

A MEDICINE of more value to man than the vast mines of Austria, or even the mental treasures of our globe; a medicine obtained *equally* from the vegetable, animal and mineral kingdoms, and thus possesses a *three fold power*—a medicine, which, though designed as a remedy for consumption solely, is possessed of a mysterious influence over many other diseases, equally fatal to mankind which begins to be valued by *Physicians*, who are daily witnessing its astonishing cures of many months lingering, reluctant cases, of the *inevitable grave*.

Dose of the Sanative for Adults, one drop; for children a half drop; and for infants a quarter drop; the directions explaining the manner of taking a half or quarter drop.

Price—Five dollars and fifty cents per *half ounce*.

Louis Otto Goelicke, M. D. of Germany, the illustrious benefactor of man, is entitled to the gratitude of the world, for the invention of the *Matchless Sanative*—whose healing virtues have been so well tested by the *Faculty* of Europe, and which will be found, if the question of the Sanative as soon as convenient.

Respectfully, &c.

JOHN B. CROSBY, P. M.

Haverhill, Mass. March 26, 1839.

Dear Sir—Having received a knowledge in which the Sanative has proved beneficial—and *one* case in particular where it performed a wonder. I can present you with the certificate from the patient if you wish. Please credit me with the enclosed money, and forward me more of the Sanative by the best Yours truly,

THO. G. FARNSWORTH.

Cornwall Post office, Vt., April 1, 1835:

Dear Sir—The Matchless Sanative is very *highly esteemed* in this quarter, and is getting into general use.

SAM'L EVERETS, P.M.

Westfield Post Office, N. Y. Feb 16, 1838

Dear Sir—Several pressing cases demand the Sanative at whatever expense it can be sent to me. It is now in great demand and use here already, and I cannot wait for the package you say is one the way. I wish you would send a half dozen by mail, if it will cost you will put the extra price of postage on the Sanative. Dont fail to send it by mail, as it will be a dollar per ounce, including postage, and I shall expect it in 12 days from date.

Yours &c. ORRIS NICHOLS, P. M.

Dear Sir—My daughter, who had a *distressing cough*, raised a great deal of matter, and who was afflicted with *palpitation of the heart*, from which she was in great danger, is now WELL. Others also bear testimony to its good effects.

Yours respectfully,
C. R. COMSTOCK

Plymouth, Mass. Feb. 6. 1838.

Dear Sir—The Sanative has proved so well, tell you concerning the Sanative, where it has performed cures when those who have bought it had scarcely any faith in its efficacy. Many have one person now able to attend to her domestic concerns, who was at the time she commenced taking it, *confined to her bed and unable to prostraigd on her bed* I will tell you more when I see you. Respectfully, &c.

ISAAC MUCH.

This medicine is for sale by GARRET CHORDE, Agent at Elizaville, Ky.

Biggers & Clement,

MERCHANT TAILORS,

No. 6, FRONT STREET, MAYSVILLE, KENTUCKY.

HAVE just received, and are now opening a fine assortment of Clothing, Cloth, Cassimeres, and Vestings, and trimmings, of every description, to which they invite the attention of the public, suitable for the season. They have gone to the Eastern cities and have selected with great care, and they flatter themselves that they will be able to furnish as good bargains as any house in the city.

They intend to keep always on hand, a complete supply of ready made clothing, of all kinds, and will also continue to make any job with which they may be favored. Work entrusted to their care will be done in the most expeditious manner, and in the neatest and most approved mode, at reasonable prices. They will also continue to use every exertion to please, and hope to receive a generous share of public favor.
