sep27 J. W. JOHNSTON & SON.

Removed and Re-Established.

WOOD & DAVIS,

RESPECTFULLY inform their old friends and the community in general, that they have gathered up the goods and wares they were able to save from the fire, and have removed them temporarily to the Commission Warehouse of CHARLES W. FRANKLIN, on Second street, nearly opposite the Presbyterian Church, where they will be glad to wait upon all wanting any thing in their line.

They design establishing themselves permanently in the new three story double-warehouse of Otho H. Davis, now erecting on *Wall street*, a few doors above their old stand, as soon as the same shall be completed. With many thanks for the generous patronage they have received, they would again invite purchasers to their assortment, and will endeavor to suit them with the articles they may want, in any quality or quantity.

They will be compelled to call upon their friends for a little seasonable assistance, and trust that when their accounts shall be presented, they will not have to "turn away *empty*," but will receive the "good cheer" they desire. sep24

New and Interesting Books.

Margaret Graham, by J. P. R. James,
Captain Donnovan's adventures in Mexico;
Ingleborough Hall and Lord of the Manor, by H. W. Herbert;

Bargains! Bargains!!

HAVING determined to close out our present stock of Dry Goods entirely, by the 1st of January next, we are now willing to dispose of them on terms entirely favorable to the buyer, whether he be a merchant or consumer. The stock is composed chiefly of the best staple and fancy Goods in common use, and has a very large proportion of *good* Goods, bought for the retail trade of this place and vicinity. Give us a call.

sep27 G. WORTHINGTON & CO.

Look at this.

WE have, since the first of January, paid for losses on the River $7316,00, and for losses by Fire $13900,00 amounting to $21216,00. We are still taking risks against Fire, on Life, and Marine risks either on Keel, Flat or Steam boats.

We would call the attention of those wishing insurance to the amount paid at this agency alone, as the recommendation for their promptness in settling all losses. ARTUS & METCALFE,

Agents Lexington Fire, Life & Marine Insurance Company.

TANNER'S OIL—Six casks Tanner's Oil, very superior, received and for sale by

aug9 SEATON & SHARPE.

New and Good!

I HAVE just received from Cincinnati, a lot of "Green's Patent Cooking Stoves," four sizes of which I now offer for sale at Cincinnati prices, for cash in hand. These stoves come highly recommended by *one hundred and sixty-one* citizens of Cincinnati and Kentucky, in the following language, viz—"We, the undersigned, have used most, if not all, the popular Cooking stoves, and have now in use Green's Patent, which we by far give a decided preference. In point of covenience, dispatch in cooking, heat of plate and economy of fuel, in baking we believe it can have no equal. We cheerfully recommend the above stove to all who may wish to purchase, as we believe it far superior to any now in use."

N. B. Any one who shall purchase the above named Green's Patent, after giving it a fair trial, and believe it not to come up the above recommendation, may return the same and I will refund the money. JNO. C. REED.

Mr. F. M. Weedon, of this place, has one of Green's Patent Cooking Stoves now in use, to whom would refer all house-keepers, for any information hey may want, with regard to its reputation.

JNO. C. REED,

FLETCHER'S

"NE PLUS ULTRA" VEGETABLE COMPOUND

CATHARTIC AND DEOBSTRUENT PILLS.

These Pills, now for the first time offered to the Public, have been used in private practice upwards of Forty Years, by a celebrated Physician, formerly a member of the Royal College of Surgeons of London and Edinburg, and Licentiate of Dublin University.

The proprietors deem it unnecessary to enter into any lengthened discussion as to the merits of these Pills—neither will they say, that they "will cure all the ills that human flesh is heir to"—but they lay claim to one *great fact*, and that is this; they are the very best pills ever invented, not merely as a simple CATHARTIC, as their properties are various. They are a *Compound Cathartic*, and *Deobstruent Pill*. They cleanse the *Stomach* and *Bowels* without pain or griping; they act specifically upon the *Liver* and *Kidneys*, and as a Diuretic, they cause an *increased discharge of Urine*—restoring a healthful and proper action to the URINARY ORGANS. For monthly complaints, to which *Females* are liable, they will be found most efficacious in removing obstructions and restoring them to perfect health. It is perhaps needless to add, that if the STOMACH and BOWELS are kept in a proper state, no fears should be entertained in reference to the welfare of the body.

We need only say to those who have tried all other Pills, of whatever name, to give the "Ne Plus Ultra's," one trial, and we feel perfectly confident, that they will satisfy *all* that *they are* THE PILLS! unequalled as well as unapproachable!!

AGUE AND FEVER.

FLETCHER'S

CELEBRATED IMPERIAL

AGUE AND FEVER OR TONIC PILLS.

THE proprietors of this invaluable remedy for Ague and Fever or Intermittent Fever, deem it unnecessary to enter into a long dissertation, relative to the disease for the radical cure of which, the remedy now offered stands universalled. The universal prevalence of the Ague and Fever, and Intermittent Fever, throughout most of the states of the Union, and the thousands who annually suffer from it, unhappily render it so well known, that to dilate on its symptoms or pathology, seems wholly unnecessary. It may, however, with propriety be observed, that the neglect to cure what is too often called "only the Ague and Fever," often leads to diseases more fatal in their nature—among which may be classed, diseases of the Liver and enlargement of the Spleen, commonly called *Ague Cake*, which in too many cases proves fatal.

Thousands of certificates might be published in reference to the efficacy of the Pills now offered to the public, which the proprietors deem unnecessary to publish. Suffice it to say, they have never been known to fail in a single instance. ONE BOX, when taken according to directions, is warranted to cure any case of Ague and Fever, or Intermittent Fever. The ingredients being PURELY VEGETABLE, and entirely free from any deleterious substance, they are confidently recommended as the safest, as well as the most efficacious article ever offered to the Public! The form in which these Pills are put up, (small tin boxes,) renders them more convenient than any other, as a man can carry them in his vest pocket without the slightest inconvenience.

FLETCHER'S

"NE PLUS ULTRA" VEGETABLE COMPOUND

CATHARTIC AND DEOBSTRUENT PILLS.

These Pills, now for the first time offered to the Public, have been used in private practice upwards of Forty Years, by a celebrated Physician, formerly a member of the Royal College of Surgeons of London and Edinburg, and Licentiate of Dublin University.

The proprietors deem it unnecessary to enter into any lengthened discussion as to the merits of these Pills—neither will they say, that they "will cure all the ills that human flesh is heir to"—but they lay claim to one *great fact*, and that is this; they are the very best pills ever invented, not merely as a simple CATHARTIC, as their properties are various. They are a *Compound Cathartic*, and *Deobstruent Pill*. NAUTILUS (Mutual Life) INSURANCE COMPANY, 58 WALL STREET, NEW YORK.

After mature deliberation, the Trustees have become convinced, and the experience of old established companies fully warrant the conclusion, that the advantages of Life Insurance on the *Mutual* plan, may be extended and diffused with great convenience to a large class of contributors, and will equal security to all the assured, by requiring no greater amount of the premium to be paid in cash than the company will require to meet its engagements with promptitude and fidelity.

It has accordingly been determined that in all cases where the annual premium shall amount to $50, and 60 per cent thereof shall have been paid in cash, an approved note may be given for the remaining 40 per cent, payable twelve months after date, bearing six per cent interest. The interest to be paid annually, but the principal not to be called in unless the exigencies of the company require it, giving sixty days notice, and then only by assessments prorata to the extent that may be required to meet the engagements of the company.

It is confidently anticipated that a system, the operation of which is so fair and equitable, so well calculated to place the benefits and blessings of Life Insurance within the reach of all, and at the same time enable each contributor to share equally and fully not only in its beneficient security, but also in its profits of accumulation, will meet, as it is believed to deserve the favor and confidence of the public.

The particular advantages offered by this company are:

1. A guarantee capital.
2. An *annual* participation in the profits.
3. No individual responsibility beyond the amount of premium.
4. Those who insure for a less period than life, participate equally in the annual profits of the company.

The *Nautilus* company confines its business *exclusively* to insurance on Lives, and all Insurance appertaining to Life.

The Saratoga Fair.

We make the following extract from a letter that appeared in the *Washington Union* on Wednesday evening last, in relation to the State Agricultural Fair at Saratoga.—It is from the pen of one the best of our newspaper writers:

"There were fine horses at the fair; one of the Eclipse blood obtained the first premium. Black-Hawk, the famous Northern trotter, obtained the first premium; Black-Hawk is pronounced by Mr. Skinner to be one of the finest horses in America. His merits will be made known to the world through the report of a committee, of which my friend Zadock Pratt was chairman.—He is a splendid animal, and out-trots anything under the sun.

"The Fair was attended by a number of Southern gentlemen, and among those who took an interest in the exhibition I noticed some residents of Washington—Maj. Heiss, Col. Knox, Walker, Mr. Hulseman, of the Diplomatic Corps, Mr. Blagden—the last of whom, selected for purchase, a pair of Devonshires, that I admired more than any on the field.

Mr. J. S. Skinner has a prescriptive title to the regards and to the honors of all agricultural associations. He was the father of them in this country, and has been their zealous and stedfast promoter. He appeared, on this occasion, merely as a visiter, though now a citizen of this State. Mr. Skinner was acquainted with all the stock on the ground, and with everything else that constituted the exhibition. Mr. Skinner has done more to promote a taste for agriculture, horticulture, and the improvement of stock, than any man in this country. He started the first agricultural paper in this country, five-and-twenty or thirty years ago, and now conducts the most useful one—the "Farmers' Library."

It is not generally known, but it is somewhat remarkable, that Mr. Skinner imported and made known the Peruvian guano, twenty-five years ago. He distributed it, in small parcels, to agriculturists for experiments, with directions for its use, compiled from Humboldt and other Spanish writers; but the article attracted no attention in this country, until the British agriculturists had learned to appreciate it, and had carried off whole islands of it.

By the way, we need very much from some of these societies, a report from a committee of competent persons, upon the application of guano, as tested by a series of well-managed experiments, extending through a number of years. Gov. Hill, of New-Hampshire, assures me that he has used it for two years past with great success in the culture of corn and potatoes. He considers it a very valuable manure in Northern climates, where the summers are short; and the effects of it he has found to be durable."

The correspondent of the Union, in the kindness of his regards for Mr. Skinner, might have added, as to the *Alpaca* and all the other Sheep, peculiar to Peru, about the recent introduction of which into England, so much has been said, and for the importation of which a company has been formed in this State—that as far back as *twenty-six years ago*, Mr. Skinner caused them all to be engraved and published, besides their portraits, full Memoirs of their Natural History and qualities as adapted to the United States. More than twenty years ago he imported the first improved Short-Horn Cattle into Maryland, merely to let the public see what they really were, and for the late General Van Rannsalaer, whose friendship and correspondence he enjoyed to the day of his death, he imported three cattle of the same breed into this State which cost $1,000 in Liverpool.

Mr. S. was, more than twenty years ago, at the instance of Governor Clinton, elected, along with the late Judge Buel, a Corresponding Member of the great London *Horticultural Society*, when, it is believed, these three gentlemen were the only persons who enjoyed that distinction in this country.—More than twenty years ago he was in correspondence with the late great Norfolk Farmer, Mr. Cooke, Earl of Leicester, and with Sir John Sinclair, from whom he received, with his autograph marginal notes, a copy of his celebrated "Code of Agriculture." It was to Mr. S. that Sir John first imparted for publication his Agricultural Correspondence with General Washington on the Agricultural Capabilities of the several States of the Union.

All these things appeared in the pages of the American Farmer—commenced without a single subscriber in April, 1819—more than twenty-eight years ago—so that if honorary membership, resolutions of thanks, and presentations of plate and other testimonials, from Agricultural Societies in every State where they have been formed, can give claim to admission on Cattle show-grounds, our friend, the Editor of The Farmers' Library would appear to be entitled to the run of them all. We happen to know that he has lately had invitations to attend to address such associations, from Washington County, Pennsylvania, to Boston, in Massachusetts—well directed then was the kind notice of the correspondent of the Union.

There is an old proverb that "beggars must not be choosers." The following incident which occurred lately goes to show it is not always true:

A beggar applied at the house of a country friend of his, somewhere about Christmas time, for something to eat. According to the hospitable custom of the neighborhood, he was invited into the kitchen, and a pie placed before him. Just as the good lady of the house was about to cut the pie, the fellow looked up at her with the most provoking assurance in the world, and said, in an inquisitive tone, "Is it Mince?" Upon the lady's informing him that it was not, he indignantly rose, and said he did not care anything about eating it, *if it wasn't mince!*

HARD NAMES.—We learn from the New York Mirror that the following names occur in the Rochester city directory: Schmoernhocks, C. Ymnutzzchlcffenhoffer, Bauenrouff Czarski, Koplocksteinski.

The Depth of Jacob's Well.

The Rev. Dr. WILSON, of England, who has recently travelled through the Holy Land and published the results of his travel under the title of "The Land of the Bible Visited and Described," presents the following relation of his visit to Jacob's Well:

"At Sheehem, Dr. Wilson found a remnant of the Samaritans still, and had some interesting conversation with one of their priests. In the immediate neighborhood is Jacob's Well, where our Lord encountered the woman of Samaria, and with simplest images instructed her in the sublime mysteries of spiritual truth. The well is situated amid the ruins of a church which once surrounded it. The mouth was covered with two large stones. Rolling away these, the travellers, with their attendants, swung themselves down to a kind of platform, where they kindled a light, and commenced preparations for ascertaining the depth of Jacob's Well.

"It was now time to disclose our plan of operation to our native attendants. 'Jacob,' said we, 'a friend of ours, an English traveller and minister, (the Rev. Andrew Bonar, of Collace,) dropped the five books of Moses and the other inspired records into this well about three years ago, and if you will descend and bring them up we shall give you a handsome *bakshish*.' 'Bakshish!' said the Arabs, kindling at the sound; if there is to be a bakshish in the case, we must have it, for we are the lords of the land.' 'Well down you go,' said we, throwing the rope over their shoulders, 'and you shall have the bakshish.' 'Nay, verily,' said they, 'you mean to hang us; let Jacob do what he pleases.' Jacob was ready at our command; and, when he had tied the rope round his body below the shoulders, he received our parting instructions. We asked him to call out to us the moment that he might arrive at the surface of the water, and told him that we should so hold the rope as to prevent him from sinking, if there was any considerable depth of the element. We told him also to pull out one of the candles with which he had stored his breast, and to ignite it when he might get below. As he looked into the fearful pit on the bank of which he stood, terror took hold of him, and he betook himself to prayer in the Hebrew tongue.—We of course gave him no interruption in his solemn exercise, as, in the circumstance of the case, we could not but admire the spirit of devotion which he evinced. On a signal given we let him go. The Arabs held with us the rope, and we took care that he should descend as gently as possible.

"When our material was nearly exhausted, he called out, 'I have reached the bottom, and it is at present scarcely covered with water.' Forthwith he kindled his light; and, that he might have every advantage, we threw him down a quantity of dry sticks, with which he made a blaze, which distinctly showed us the whole of the well, from the top to the bottom.

"We saw the end of the rope at its lower part; and we put a knot upon it at the margin above, that we might have the exact measurement when Jacob might come up. After searching for about five minutes for the Bible among the stones and mud at the bottom, our friend joyfully cried out: 'It is found! it is found! it is found!' We were not slow, it may be supposed, in giving him our congratulations. The prize he carefully put into his breast, and then he declared his readiness, with our aid, to make the ascent. * * * * * * *

"We found it no easy matter to get him pulled up, as we had to keep the rope from the edge of the well lest it should snap asunder. When he came into our hands he was unable to speak, and we laid him down on the margin of the well that he might collect his breath. 'Where is the bakshish?' were the first words which he uttered on regaining his faculty of speech. It was immediately forthcoming, to the extent of a sovereign, and to his fullest satisfaction. A similar sum we divided among our Arab assistants. The book, from having been so long steeped in the water and mud below, was, with the exception of the boards, reduced to a mass of pulp. In our effort to recover it we had ascertained the depth of the well, which is exactly seventy-five feet. Its diameter is about nine feet. It is entirely hewn out of the solid rock, and is a work of great labor. It bears marks about it of great antiquity. 'The well is deep,' was the description of it by the woman of Samaria to our Lord. It still, as now noticed, has the same character, although to an extent it is perhaps filled with the stones which are thrown into it to sound it by travellers and pilgrims.

"The adventure which I have now noticed being over, we emerged from the well, and, sitting down at its mouth, we could not but think of the scenes and events of other days. We were near to the very parcel of ground that Jacob gave Joseph.' Jacob's Well was here! Here Jesus, the Saviour, sat, wearied with his journey, suffering from the infirmities of that lowly human nature he had assumed, when he came from heaven to accomplish the work of our redemption, which his Father had given him to do.—Here he spake with inimitable simplicity and majesty as never was spake, setting himself forth as the Source and Giver of the copious and satisfying waters of Eternal Life."

Wesley tells a curious story of the arrest of a whole score of Methodists who were put into a wagon and dragged before a justice. The accusers were asked to state the grounds of complaint; and seemed at this to be struck dumb. At last one of them cried out—"they pretend to be better than other people, and prayed from morning till night." The Magistrate asked if they had done nothing else. "Yes sir," said an old man, "they have converted my wife, an' it please your worship. Till she went among them she had such a tongue And now she is as quiet as a lamb." "Carry them back," said the Magistrate, "and let them convert all the scolds in town."

The Madison and Indianapolis railroad has been completed, and cars passed through the entire route on Friday last.

From the Boston Atlas.

Foreign Intelligence.

GREECE AND TURKEY.—Although the difficulties between Greece and Turkey have lost much of their interest, they are far from being adjusted. The appearance of Grivas and his band, at Preveza—the more than friendly reception given him by the English Consul—and the steps to which Hafiz Pacha has been driven, by the firmness of the French Consul at Janina—and the disarming of the men who sought to carry revolt into Greece—have somewhat complicated these difficulties. The disagreements that have arisen between the representatives of France and England, at Constantinople, are much to be regretted. In this diplomatic conflict, a favorable occasion has been presented for Russia to act, which she has not failed to avail herself of, and has employed every imaginable means of awakening the zeal of her partisans. Her machinations procured the dismissal of Mehemet Ali. But the grounds for rejoicing, on the part, of the enemies of progress, are not as great as they suppose. If Mehemet Ali no longer has charge of the Naval Department, he still retains the good will of the Sultan.

That his dismissal from office was not intended as a disgrace, is shown by his appointment as member of the Council of Ministers. His intelligent and enlightened patriotism is not, therefore, to be lost to the country. Only it is to be feared that the Ottoman navy, which has been so admirably improved by this young minister during the twenty-three years of his administration, distinguished by its activity and intelligence, may suffer from his retirement from that post. His successor, Halil Pacha, is too much under the influence of Russia to do anything towards elevating the Turkish navy—an interest so antagonist to those of Russia.

The Livornese Courier describes as intense the feeling of indignation on the part of the inhabitants of Ferrara, on the iniquitous violation of the right of nations perpetrated by Austrian Generals. It is rumored, moreover, that four thousand Austrian soldiers are on their way from Milan, and that their place of destination is the Roman States. It is a fact, that preparations are making for lodging several thousand troops. The same journal states that the troops already in possession let no opportunity pass to prove that they are in very fact the masters of the place, and that liberty of action is denied to the local authorities. They have just refused to permit an unoffending huntsman to leave the city, probably being afraid of the fowling-piece on his shoulder. The soldiers do not seem full at ease as to their own safety. They never venture out into the streets, except in companies, and then armed to the teeth. A deputation of the citizens has been to thank the Pope's legate for his admirable conduct under such trying circumstances, and has prayed him to continue to be the true interpreter of the wishes of the people. "The men of Ferrara," said the orator of this deputation, "would rather see their whole city utterly destroyed, than have it fall under the yoke of Austria."

On the other hand the citizens of Rome are not behind them in the manifestation of energetic and patriotic resolution. Subscription lists for the defence of the territory already contain several thousand names. In a recent meeting of the citizens, Count Ferretti, brother of the Cardinal, expressed himself with his usual frankness in relation to the intentions of government. "It is ready," said he, "to maintain its rights by every possible means, and to the last extremity." "Pius IX.," says *l'Italia*, "on leaving a recent Council meeting, and hearing of this assembly, exclaimed: 'Make your arrangements, entreat the people to keep tranquil, and our enemies shall be confounded.' Austria has counted too much upon the seeds of discord which she has sought to sow among the Roman States. They have proved a miserable failure. She can no longer depend upon the retrogressive party, for it no longer exists, or is represented only by a few unhappy conspirators, confined in the castle of St Angelo, and a few members of the administration, who have gone to conceal their powerlessness afar from the Roman States. Austria, therefore, is brought face to face with a united people, an army inspired by the loftiest patriotism, ready to rise up as one man to defend its independence, adoring the sovereign in whom it confides, and must now be made to feel that she has undertaken no trifling task in the oppression of this people. The times have changed. It is no longer a handful of scattered rebels, their own government against them, with a powerful party and foreign bayonets."

FOLLOWING THE PRESCRIPTION.—A respectable German of Philadelphia, some time ago, twice took laudanum at short intervals, apparently to destroy his life, but on both occasions his stomach was pumped out, and the man restored. The second time the physician was called in, he remonstrated with the pretended suicide on the folly of his conduct, and told him he did it to worry his wife; but that if he really wanted to kill himself, he could do it most effectually by drawing his breath with a well charged pistol. There would then be no afterclaps.

The surprise and mortification of the doctor, however, were great when, about two weeks after, the wife again made her appearance at his office, exclaiming, "Well, Doctor he's tone it—Jake's tone it."

"Done what?" hastily inquired the doctor.

"Vy, he's tone shust as you tolt him—he blowt his brains out mid a bistol shust now, and he's kilt dis time."

Which turned out to be the fact.—*Germantown Telegraph.*

A HOPEFUL YOUTH.—"Zephania," asked a country schoolmaster the other day, as he was interrogating a scholar concerning the names of the soverigns of the various kingdoms of the world, "can you tell me who is the Emperor of Russia?"

"Wigtoria," was the reply.

"And who is the Dey of Algiers?"

"Thunder and Mars," cried the astonished boy, grinning from ear to ear "I've heerd tell of the Judgement day, and the day of Pentecost, but I'm darned if I ever heerd tell on the day of Algiers afore."

☞ The New Orleans Picayune gives the following as the *ultimatum* offered by Mexico, in the late abortive attempt at negotiation:

ART. 1. Is merely an expression of a desire that there may be a firm and lasting peace between the two Republics.

ART. 2. Stipulates that all prisoners taken by land are sea shall be given up after the treaty is signed, and any Mexicans who may be prisoners of the savage tribes of Indians within the limits of the United States, shall be given up by the Government of the United States and returned to their homes.

ART. 3. All the forts, towns, or territory and artillery taken by the forces of the U. States shall be returned to Mexico.

ART. 4. The dividing line between the two Republics shall commence in the Gulf of Mexico, three leagues from land, in front from the southern mouth of the Bay of Corpus Christi, to run in a straight line through said bay to the mouth of the Rio de las Nueces; to follow thence the course of that river to its source; from the source of the river Nueces a straight line will be traced until it meets the actual frontier of New Mexico, in the east northeast part.—It will thence follow the actual frontier of New Mexico for the east, north and west of New Mexico, until it meets latitude 37, which will serve as the boundary of the two Republics, from the point at which it touches the frontier of New Mexico to the Pacific. The Government of Mexico agrees not to found any new establishment or colonies in the space of land which lies between the Rio Grand and the Nueces.

ART. 5. In consideration of this extension of the territorial limits of the United States, the Government of the United States agree to pay to the Government of the United States of Mexico $——, at the city of Mexico, on the day of the exchange of ratifications of this treaty.

ARTS. 6 AND 7. By these articles the United States agree to release the Mexican Government from all claims of the Government or citizens of the United States.

ART. 8 provides for the settlement of claims in the same manner as is provided in the proposition of Mr. Trist.

ART. 9 stipulates that the Catholic religion and the property belonging to that persuasion shall be respected in the territory ceded to the United States.

ART. 10. Citizens of Mexico who may happen to be in the United States to have the privilege of returning to Mexico, without any tax being exacted from them.

ART. 11. All grants of land made by the Mexican Government previous to this cession of territory are to be respected by the Government of the United States.

ART. 12. The Republic of the United States binds itself solemnly not to admit heneeforward the annexation of any district or territory comprised within the limit assigned by the present treaty to the Mexican Republic. This solemn compromise is one of the conditions under which Mexico makes a cession of territory to the Republic of North America.

ART. 13. All goods now in the ports occupied by the American troops will pay the duties established by the Republic, unless they have been pre-paid; otherwise they will be confiscated.

ART. 14. The Government of the United States will satisfy justly the claims of Mexican citizens for the damage the American troops have done them.

ART. 15 merely relates to the ratification of the treaty.

Dickery Duckworth.

During the rain that took place on Thursday last, the River Police arrested a shot, duck-like personage who was just about to bath himself in one of the slips near the river, in the Second Municipality. He was so angry at being checked in his ablutory enjoyment, that, "accoutred as he was," —being, with the exception of a pair brogans, in a state of nudity—he took up a piece of rock and flung it at one of the officers. After performing this Titan like feat, he put on a short-tailed check shirt, and a pair of tarry trousers, and allowed himself at be conducted, like a lamb to be sacrificed at the altar, to the police-office. Yesterday morning he cut a most woeful figure—for during the night it seems he had got into a row with one of his fellow prisoners, and during the altercation, got a purple horizon round both of his optics, and his nose smashed as flat as a pancake.

Recorder.—Duckworth; you were in the act of exposing yorself indecently last evening. What have you to say for yourself?

Duckworth.—I aint got nothin, to say.—I was bathing, which is perscribed by scriptur' and the water-doctor, when I was tuk up an' put in this 'ere dock. Summertime was comin' on an' I wanted to keep from ketchin' the yaller fever an' the Chollery so I shed my duds, and adout to plunge in the watery helment wen I was nabbed.

Recorder.—But, Duckworth, I am told that you make a regular habit of thus exposing yourself. Whilst attending to yor own comfort, you should have some regard to public decency.

Duckworth.—Sir, I acknowledge the corn. I am in the habit of bathin wherever I kin get a chance. It's a nat'ral misfortune, that I have. You see, yer honor, jest afore I was born, my mother was reading' a werry interestin book on pearl fishery of Ceylon, an' divin' bells, an' all that sort o' thing.—My daddy was on a whalin' voyage, and when he come home the first thing he done was to whale me, 'cause he believed my features waren't the picture of his'n. I got acquainted with a Newfoundland dog, and we used to go in a swimmin together, an' I never could get over the habit since. I'am a believer in old Pithyraghorse, and think afore I come into world I must have been a mullet or a cat fish, or somethin of that sort. Why, sir, I dream' sometimes, that I'm webfooted, that I've got fins on my sides scales on my back, and a fish's tail. I can't live without swimmin', I aint got money to go to any of the big baths, and I take the Mississippi when the swimmin fit comes on me.

The Recorder was charitable enough to allow Duckworth to depart, and told him to "go and sin no more."—*N. O. Delta.*

GEN. PILLOW AGAIN.—The following is given as one of the suppressed passages in a letter published (in part) in the New Orleans Delta, purporting to be from its army correspondent:

I must relate an interesting and exciting incident that occurred during the rage of the battle. A Mexican officer being seen by one of Gen. Pillow's aids to leave the enemy's lines, and to advance several yards nearer our position, the general, as soon as he heard of the impudent rashness of the Mexican, put spurs to his charger and galloped at full speed towards him. As soon as he got near to the Mexican, the general called out in Spanish, *Saque su sabel para defenderse*—let the honor and prowess of our respective countries be determined by the issues of this combat. Straightway the Mexican drew his sword with one hand and balanced his lance in the other, and rushed towards our general, who, with a revolver in one hand and his sabre in the other, waited the onset of the Mexican. The combat was a long and severe one. The Mexican was a large, muscular man, and handled his arms with great vigor and skill, but our general was his superior in dexterity and coolness. At last the Mexican made one terrible charge at our general with his lance, which the latter evaded with great promptitude and avidity, using his sword, tossed the weapon high into the air, and then quietly blew his brains out with his revolver. Both the American and Mexican armies witnessed this splendid effort.

THE "LEONIDAS" HOAX.—The New Orleans Picayune, of the 21st, says it has ascertained from a reliable source that the "suppressed" passage in the letter of "Leonidas", to the New Orleans Delta, about Gen. Pillow's martial achievments at Churbusco, as recently given in the Picayune and Bulletin (and thence transferred to our columns) are indeed spurious; and adds that—to use its own language—"the infamy of the transactions rests either with Mr. Joseph Grant, of Camp street, or Judge Alexander Walker, of the Delta, or with both of them." According to the Picayune, Mr. Grant had furnished it with the "suppressed" passages, positively declaring that they were genuine, and that he had them in Walker's own hand writing, etc. and other details are added which apparently prove Mr. Walker to have been privy to (if not the originator of) the whole affair.

Our readers will bear in mind that the "suppressed" passage *alone* turns out to be spurious, as given in the Picayune, and that the remainder of the "Leonidas" letter is undoubtedly genuine (besides being silly enough to last Gen. Pillow a life-time.)—And by the way, the Picayune hae learned from the same undoubted source that "the true surpressed passages were scarcely inferior to the 'imaginative' ones in 'richness' and in their fulsome and extravagant laudation of Gen. Pillow's militiary prowess."

From an editorial article in the Washington Union, of Friday night, we make the following extracts:

The propositions said to be made by Mr Trist must be grossly misrepresented. He could never have stooped to ask for the privilege of establishing two factories in Upper California for eight years. He could never have assumed the responsibility of stripping off his official powers, and departing from his direct instructions. He could scarcely have asked 45 days for any purpose—much less to consider a proposition to limit our boundary to the Nueces. No agent of the Government would have dared to entertain such a proposition for one moment; and we hope that no American would listen to such a demand. He might as well have listened to a proposition to cede a portion of the old thirteen United States, or of any other sovereign State of our confederacy, to the Mexican government. All this, of course, is out of the question. They are all idle speculations and bungling blunders. We may add however, that if Mexico still has the folly to claim to the Nueces, we hope there is not an American who will not now, and for all time, repel it with indignation.

The armistice being thus ended, and hostilities recommenced, no man can mistake our duty or our policy. We must put forth all our strength. The Administration have not relaxed for a moment, but they are sending on fresh reinforcements to Gen. Scott. He will soon have a formidable force under his banners. We must now change the character of the war. We must bear down upon Mexico with all our force, and wage a war that is more like a war and less like a peace. We must cause it to be more felt by Mexico, levy requisitions upon her, and make it bear the expense of her peace. In a word, we must go on, and the energies of the country are to be exerted to a greater degree than ever.

AN IRON MAN—SINGULAR PETRIFICATION.—On Saturday last, a gentleman brought into Portsmouth, from the Bloom Furnace, Scioto county, a part of an iron man, found in the *ore bed!* The part we saw was the foot and a part of the leg. Having been converted into iron by a gradual process, the minutest divisions, as between the toes, &c., were not visible; but the general outline of the foot and ankle was palpable. The spreading across the toes—the general outline of the toes—the heel—ankle, &c., were perfectly plain. We were told that the head and arms were equally perfect! There could not be the least doubt of its having been a man. Nor is there much doubt of the manner in which it came into this condition. The body must originally have been petrified in lime; but of this there remains now only the outside incrustation, which will crumble off. What was the man, is now iron. By some natural process the iron must have grown out of the lime, and here is a theme for geologists. How did this change take place? If we are right, and the facts seem to leave no room for doubt, this iron man would afford one of the most beautiful subjects for a geological lecture. The iron ore in which it is found, called the calcareous formation, would be an instructive study.—*Cin. Chron.*

JOHN P. DOBYNS & CO.,
Wholesale Grocer, Produce, and Commission Merchant,

School and Miscellaneous Books.

THE undersigned have lately completed an arrangement with the extensive Book Establishment of *Harper & Brothers*, for the Agency of their Books, whereby we can sell them at the New York prices. Teachers and Libraries can be furnished, gratis, with catalogues containing the names and prices of all Books published by the above firm.

A package of new Books will be received every week, thereby opening a constant communication with the above firm, which will enable us to answer orders, however small, (if not on hand) at very short notice, and not only the publications of Messrs Harpers, but those of any other publishing establishment in the Eastern Cities. H. H. COX & CO.
September 20, '47. [Eagle copy.]

THE LATEST
FALL AND WINTER DRY GOODS!

THE subscriber has just received from the Eastern cities, a large and general assortment of seasonable Dry Goods, much more extensive and various than he has ever had; comprising the latest styles of Goods of all kinds, for ladies or gentlemen, &c., &c., to which he invites the attention and inspection of his friends and the public generally; and offers them for sale at the *lowest* market rates, by the piece or at retail—and wishes at any rate to show his Goods and let them "speak for themselves."

He now occupies the house lately occupied by Messrs. Lawes & Brodrick, one door above and South of Messrs. J. P. Dobyns & Co., Market st.
sep24tf ELY D. ANDERSON.

Benefit of Insurance.

THIRTY-TWO Thousand Dollars saved by insurance on the fires that occurred in this city, all within 90 days. The above fact should induce every person who has property to loose to come forward and Insure their property, as a very small amount paid annually may save many families from ruin. This Agency has paid out $10307,54, other agencies have paid Twenty-two Thousand Dollars, all of which has been promptly adjusted and paid according to the terms of the policy on losses in this city during the present summer. Farmers can have their dwelling houses insured at the rate of $5 per thousand on brick houses and $7 50 per thousand on Frame houses. The City property insured at about ¾ to 1 per cent, according to location. So that all can be protected.

JOHN B. McILVAIN, Agent
For the Protection Insurance Company.

TRI-WEEKLY HERALD.

J. SPRIGG CHAMBERS, EDITOR.

Maysville, October 8, 1847.

MORSE'S TELEGRAPH.

Maysville on the Line!

We are happy to learn from those of our citizens who conversed with Mr. Kendall, while in this city, that he has contracted for the erection of the Telegraphic lines mentioned below; the main line of which, as we are informed, will pass through this place.

The Stock of the Company who have contracted for the work, will be in common, and as the main line from the East and North, to the Southern Cities, will concentrate the correspondence of the various branches, no doubt is entertained that the stock will be very profitable; and that Telegraphic communication will almost entirely supersede the mail, in the transmission of important political and commercial news.

Our citizens, some of whom have already announced their determination to subscribe for Stock, may now do so, as much with a view to its profits, as to the commercial advantages to be derived from conversing by lightning, with the business men of all the principal cities of the Union. We extract the following on the subject from the Frankfort Yeoman, of yesterday:

MORSE'S TELEGRAPH.—We are happy to state, that an arrangement has been made by which our citizens may, in a very short time, avail themselves of the facilities afforded by this wonderful invention. Contracts have been entered into for building a line from Lexington through Nashville to New Orleans with branches from Lexington through Maysville to Wheeling, through Georgetown to Cincinnati, and through Frankfort to Louisville, all to belong to one Company and be under one management. Messrs Gholson, Davis, and Shaffner of Louisville, who had commenced the construction of lines of House's Telegraph from Louisville to Lexington and to New Orleans, have abandoned those projects and in conjunction with E. Case, Esq., late of Cincinnati, have entered into engagements to raise the funds and build the portion of the main line from Lexington to Nashville and also the branches from Lexington to Louisville and Cincinnati. Another gentleman has undertaken the line from Nashville to Tuscumbia in Alabama, and another from that point through Jackson and other Mississippi towns to New Orleans. By the contracts, these lines are all to be finished by the first day of February next.

Misrepresentations Corrected.

A writer in the *Kentucky Yeoman* of yesterday, who signs himself X, in a letter addressed to the editor of that paper, has done gross injustice to the Directors of the Lexington and Maysville Turnpike Road Company, by giving a false coloring to a simple business transaction, which nothing but malice, could have tortured into an evidence of a want of patriotism or liberality, on the part of the very respectable gentlemen who compose the board. X states in substance, that upon application by Gov. Metcalfe, for permission to the Nicholas Volunteers, their baggage wagons, &c., to pass free of toll over the turnpike road to Maysville, the board of Directors refused it. He then launches out into a strain of censure amounting almost to abuse, with sundry inuendoes about their letting "their political friends pass free to political Barbecues," &c., which it is not our purpose to notice further, than to say that we have no doubt the board feel for them and for their author, the contempt they deserve.

The facts as we have ascertained them, are simply these: Gov. Metcalfe did make the application referred to, and was promptly answered by the President of the board of Directors that no charge would be made if it had to come out of the pockets of the Volunteers, but that if the Government paid it the usual toll would be required. The President did not know, or perhaps did not reflect, that the Volunteers were not yet in the service of the Government, otherwise his answer would have been a simple affirmative.

Upon ascertaining that the toll would have to be paid by the Volunteers themselves, the money paid by Capt. Metcalfe for tolls, was promptly refunded to him, and the amount necessary to pay the returning tolls of the baggage wagons, &c., handed to W. Norvell, Esq., of Carlisle, to be applied to that purpose, he being one of the treasurers as we understand it, of the fund, subscribed for equipping the Volunteers from Nicholas.

This is the whole story, and it is scarcely necessary to say, that the board have acted in the matter, in strict accordance with the patriotic and liberal feeling, which prompted the City Council (of which some of the board are members,) to tender to the Nicholas Volunteers and others, the hospitalities of the city,—making them its guests while they should remain within its limits.

The fling at Capt. Donovan is perfectly harmless. In the discharge of his duties as Superintendent he has made enemies no doubt. He has also made many friends, as his continuance in office for a series of years satisfactorily proves.

☞ We have been shown by Mr. J. STEELE, of Missouri, a full set of artificial teeth, on spiral springs, prepared by Dr. H. MARSHALL, Dentist, of this city, which for perfect finish, "accuracy of fit," and close resemblance to nature, we have never seen surpassed.

MR. TRIST'S PROPOSITION TO MEXICO.

The New Orleans Delta, publishes at length the "*project* of a Treaty." proposed by Mr. Trist, the American Commissioner, to the Mexican Commissioners, appointed by Santa Anna and his cabinet. It is too long for publication in our paper to-day, but we give the following synopsis, as containing the substance of the proposition, stripped of diplomatic verbiage:

Art. 1. Stipulates that there shall be a universal peace between the two countries and every part thereof, and that hostilities shall cease as soon as the treaty is ratified.

Art. 2. Provides for the exchange and release of all prisoners of war; the United States agreeing to compel the Camanchee Indians, to release any captive Mexicans they may have in possession.

Art. 3. Provides that the land and naval forces of both countries shall be speedily informed of the treaty, and all places occupied by our troops given up, without injury to the property of the citizens or government of Mexico.

Art. 4. The dividing line between the two Republics shall commence in the Gulf of Mexico, three leagues from land in front of the mouth of the Rio Grande; thence along the middle of said river to a point where it touches the southern line of New Mexico; thence westward along the southern limit of New Mexico, to the southwest angle of the same; thence northward along the western line of New Mexico to where the same is cut by the first branch of the river Gila; it if be not cut by any branch of said river, then to a point in said line nearest the said branch; and thence in a direct line to the same, and downward by the middle of said branch and of the said river Gila, until it empties into the Rio Colorado; and thence downward by the middle of the Colorado and by the middle of the Gulf of California to the Pacific Ocean.

Art. 5. Declares that for this extension of Territory, the United States Army abandon all claims for expenses of the war, and further agree to pay to the United Mexican States the sum of $——

Art. 6. Is an assumption by the United States Government of all the indebtedness of Mexico to our citizens, heretofore ascertained to be due, or which may hereafter be ascertained by a Commission, to be appointed by the United States Government, not exceeding $3,000,000.

Art. 7. Binds Mexico to send books, registers, or other documents necessary in ascertaining correctly the amount, &c., of said claims, to the United States Commission, (to be appointed as aforesaid,) when asked for by our Secretary of State.

Art. 8. Provides that the United States shall forever have the right of way, across the Isthmus of Tehuantepec, from Sea to Sea, by any means of travel, now existing or hereafter to be constructed; free from toll or other charges beyond the amount charged citizens of Mexico; and stipulates further, that the right of transportation, free of duty, shall also be forever guaranteed to our citizens.

Art. 9. Provides for exempting from confiscation or duty, any or all property, introduced by either party, or by any neutral, into the ports, harbors, or on the coast of the contracting parties; and authorizes them to dispose of the same as they may think proper.

Art. 10. Continues for eight years the treaty made between the two Governments, April 5th, 1831; with the exception of the *additional* articles. Each party having the right to terminate said agreement, by giving one year's previous notice to the other party.

Art. 11. Provides for the exchange of ratifications in the City of Washington.

NARROW ESCAPE.—The steam boat Hibernia, No. 2, narrowly escaped destruction, while descending the river above this city, on yesterday. The fire caught in the hole, injuring many packages of goods, some of which, we regret to learn, belonged to Messrs. Hunter & Phister, (Hardware,) and Messrs. Miner & Cruttenden, (Shoe Merchants,) of this city.

The boat was run ashore, and the passengers jumped overboard; and for a while her destruction seemed inevitable. All the courage and energy of the crew were brought into requisition, & besides the imminent destruction of the boat by fire, the presence of a considerable quantity of powder amongst the freight, was by no means an agreeable circumstance, to those who remained on board for the purpose of extinguishing the fire.

David Summers and Joseph Reisinger, Engineers, and David Caldwell, Mate, are greatly praised by the passengers, for their courage, coolness and truly wonderful efforts, to subdue the fire.

☞ We have received no further news from the seat of war, since our last. The public mind is anxious and eager for news, and a general impression seems to prevail, that the details of the late battles will be of the most distressing and gloomy character as regards the number and rank of the gallant spirits who have fallen.

SPLENDID MICROSCOPE.—Mr. James Kennedy, whose unequalled Oxy-Hydrogen Microscope we brought to the notice of our readers, a few days since in connexion with an extract from a Pittsburg paper, is now in this city, and as will be seen by reference to our advertising columns, will exhibit its wonderful powers at the City Hall.

No student of Nature, will suffer this opportunity to enter into fields of creation, which else were secrets forever, to pass unnoticed. There is no study so interesting, none so improving as Nature—leading the heart and the understanding up to God, the Author of its wonderful works. We take pleasure in commending Mr. Kennedy's exhibition to the patronage of our citizens, the more willingly as he has with him numerous testimonials from the Press and from learned Professors, of the very superior character of his microscope, and the absorbing interest produced by its wonder working power.

☞ We have received the first number of the Tri-Weekly *Commonwealth*, edited by J. W. FINNELL, Esq., Frankfort, Kentucky. Its typography well sustains the character of the office, and we wish MR. FINNELL entire success in his new enterprize. The Capital of Kentucky ought not to be dependent upon other cities for "late news," and if the citizens of Frankfort and its vicinity, will properly support Mr. FINNELL, it will not be.

☞ We learn from the Eagle of yesterday, that the following Preachers have been appointed by the Kentucky Conference, to the Maysville District:

MAYSVILLE DISTRICT:—J. STAMPER, P. E. *Maysville Station*—G. W. Smiley.
Minerva and Germantown—D. Welburn, and J. Minor.
Shannon—J. H. McGhee, J. S. Sullivan.
Flemingsburg—W. Mc. D. Abbott, S. Kelly.
Orangeburg—W. C. Dandey.
Lewis—J. Foster.
Grangeville—L. Scruggs.
Morefield—W. B. Kavanaugh.
Highland—E. M. Johnson.

THE NEXT PROVISION SEASON.—The St. Louis Era of the 27th ult., has the following remarks with reference to the opening prices and quantity of Hogs the present season, and the scarcity and prices of Beef Cattle.

Pork—We have made some inquiries on the subject of the prices which Pork is likely to command during the common season, but as yet we are unable to learn the precise figures at which the market will open. It is, however, the general impression of dealers and others interested in this branch of business, that the range will be from $3 to $3:50 per 100 lbs in the early part of the season. There has been a good deal of conversation and surmising, but we believe that no contracts have been entered into as yet. The stock of Hogs throughout the country is said to be large, and the number fattening greater that last year we are told several of our Packers are begining to make preparation for an early commencement, and it is more than probable that a much larger number will be packed in this city this season than was ever done before. The *Beef* trade, as usual will open first; we hear of several contracts being made at $4a4:50 per lbs. for Cattle weighing 600 lbs and over, deliverable in December. Good Cattle it is said will be uncommonly scarce this season, on account of a large portion of the Stock having been driven to Fort Leavenworth and Santa Fe. In the early part of the spring too a very large number were bought up and driven by Graziers to Indiana and Ohio. These causes have rendered profitable fattening Stock were scarce, and therefore a scarcity is presumed this fall for packing.

A correspondent of the St. Louis Reveille, writing from Syracuse, N. Y., tells a good anecdote of *Morra*, the dancing accompaniment of *Senora Ciocca*. He says:

Here I met Morra, the dancer, in great distress, because the rail-road people wouldn't take pay for his passage through to Boston. I explained to him that he could pay for his passage to Albany, and from *that* city to Boston. "Oh, mon Dieu," he exclaimed, "me shall not nevere understand dis country! I want to go to Bosting, vich is in de east, and, by dam, dey send me from San Louis out to de west, to Gigago! I ask dem de distance from St. Louis to Bosting, and dey say six hundred mile; I travel four hundred mile, and dey tell me to Bosting it is sixteen hundred miles! For what is dis? Why it is for dat dey make me go vest, ven I want to go east? And now I want to pay to go to Bosting, and dey say no, you shall pay to All-bonny! I suppose I go through some more lakes, ha? I sal tell you one thing, mine friend: If Madame Ciocca and myself do not get to Bosting by-and-by directly, Monsieur Shippendale vill get no Sylphide in his Teatre not soon immediately."

A LEOPARD CHANGING HIS SPOTS.—Some years ago a leopard escaped from a menagerie, in the neighborhood of Penn's Valley, Centre co., Pa., and after going about from one spot to another, has recently turned up in the vicinity of Adamsburgh, where he has been committing sad havoc among the sheep. One day last week, he suddenly sprang upon two young men named Isaac Snook and Mr. Knep, who succeeded in avoiding him, and with the help of the neighbors and their dogs, pursued him for some time, until he turned upon them, and seized the foremost dog, tearing him in pieces. The rest of the party executed an immediate scatteration, and the leopard went on his way.

"DEMOCRATIC REVIVAL," is the epithet bestowed by the Boston Post on the nomination of Mr. CUSHING for Governor and Mr. CUSHMAN for Lieut. Governor of Massachusetts by the Locos. Two apostate Whigs to revive democracy!

BOLD AND SUCCESSFUL ROBBERY.—A bold and successful robbery was committed in the vicinity of this city, on Thursday, under the following circumstances: An old gentleman named Stephen Savage, was coming West on the packet. Arriving at the locks east of this city, he concluded to walk a short distance. He was soon joined by a person who represented himself as a merchant from Spencerport. He proposed walk through the fields to another point on the canal at the end of a curve. The old gentleman readily assented. They soon came to a drunken man who was seated on the ground, pretending to count a large sum of money. The Spenderport merchant entered into conversation with him, and examined a bundle which lay near him on the ground. This bundle contained a ring which the merchant took good care that the old gentleman should see. He then told the drunken man that he had better take care of his bundle, as it contained a ring of some value.

The man swore it contained no ring and offered to bet $1,000 that it did not. The merchant took the bet, and while counting out the money turned to the old man and asked him how much he had, saying, that as he had seen the ring, there could be no risk in betting. The unsuspecting old man immediately drew forth his wallet containing $637 to lend him the balance, which the pretended drunkard snatched and made for the woods with the merchant close in his rear. Mr. Savage came to this city; and the police are now on the search with little hope of success. $400 of the money was on Oneida Bank, fives, newly issued, and $247 in old tens on the same Bank.—*Rochester Democrat.*

THE PRINTING OFFICE.—The Hon. Simon Cameron, himself a printer, sent the following to the Columbia Typographical Society of Washington at its recent celebration.

The Poor Boy's College.—The Printing Office.—Industry, intelligence, integrity, and perseverance, will ensure distinction and honors to its graduates.'

There is more truth than poetry in this sentiment. "The Printing Office," says the N. Y. Globe, has indeed proved a better "college" to many a "poor boy," than graduated more useful and conspicuous members of society—has brought out more latent intellect and turned it into practical and useful channels—has waked up more minds, generated more active and elevated thought than any of the literary colleges of our country. How many a drone or dolt has passed thro' one of these colleges with no tangible proof of his fitness to graduate, other than his inanimate piece of parchment! himself if possible more inanimate than his diploma.—There is something in the very atmosphere of a printing office calculated to wake up the mind, and inspire a taste for knowledge. A boy who commences in such a school will have his ideas brought out, if he has any; if he have no mind to be drawn out, the boy himself will be driven out.

CLAIRVOYANCE.—In the Newark (N. J.) Advertiser of the 13th of September appeared the following:

NEWS BY CLAIRVOYANCE.—A friend of ours being put in the clairvoyant state last night, ascertained that the armistice was violated on the part of the Mexicans, and that Gen. Scott was constrained to take the city by assault, much blood being shed. We state our faith in clairvoyance upon the truth of the vision. If it turns out to be a mere 'vision of the night,' then let clairvoyance be written down a humbug.

It is, to say the least, a very singular coincidence, that such facts should have been so announced at very near the time they actually happened, as has been shown by recent news, which did not reach us for more than two weeks after this announcement was made.—*Cin Atlas.*

Female lips are but the glowing gateways of so much beef and cabbage.
B-a-h—Stuff.

MARRIAGES.

On the 30th of September, by Elder John Young, Mr. HENRY W. RYS to Miss MARY ANN RYS, of East Maysville.

Messrs. Kennedy & Scott,
WILL exhibit the "Oxy Hydrogen Microscope," at the City Hall, on Saturday and Monday evening. This magnificent instrument was made by the celebrated Plossel, of Vienna; and was exhibited before the Emperor of Austria, as a *chef d'oeve* of the maker's skill.

The myriads of animalcula which swarm in a drop of water, will be exhibited, together with an infinite variety of microscopic objects. The process of chrystalization will then be shown. The whole to conclude with the famous "Dissolving Colors," never before exhibited West of the Alleghenies.

As several hundred beautiful and interesting Microscopic specimens, prepapared under the superintendence of the celebrated Professor Struve, of Vienna, accompany the Instrument, the objects will be changed every night.

Doors open at 7, exhibition to commence at 7½. Price of admission 25 cents. oct8

Rainy Weather—Extraordinary Swimming.

Cutlery.
JUST opened, a large lot of *Pocket and Table Cutlery*, of styles and prices to suit every body. ALSO—A large lot of *Butcher Knives*. Country dealers will do well to call at the Hardware house of oct6 HUNTER & PHISTER.

50 BRLS superior Family Flour, for sale by oct4 JNO. P. DOBYNS & CO.

Dry Goods, Wholesale and Retail.

LAREW & BRODRICK,

Are now in the receipt of the latest and best assorted stock

OF SEASONABLE DRY GOODS!

WHICH they have ever opened, selected by an experienced buyer, from the stocks of the principal importing merchants of the Eastern and Northern cities.

THE LOOMS OF EVERY MANUFACTURING NATION!

In Commercial intercourse with the United States, are represented in the various and beautiful fabrics which they offer to merchants and consumers upon the best terms usually afforded to such, and they fearlessly enter the arena of competition, with all the legitimate emulation of fair traders, whether, as regards the styles, the textures or the prices of their goods.

Domestics, Prints, Woolens, Worsteds, Linens, Cotton and Silk Goods, and their various mixtures, by every name, and of different qualities, make up the stock, which has all the varieties afforded by any Western House.

HATS, CAPS, BOOTS AND SHOES,

In great variety, and of all qualities desirable for this market.

TO COUNTRY MERCHANTS,

We offer the inducement of a fine stock of goods, whose styles need no eulogy from us, and will require none from them when offering them at their counters. Our prices will be the lowest figures which will cover a legitimate profit. Our terms the same as are usual in western houses.

TO OUR RETAIL CUSTOMERS,

We will only say, that we expect to see them as hereofore, and to draw them still nearer as the attractions are greater—promising them our best efforts to meet their wants—and with an abiding confidence that we can supply their necessities or even their whims, satisfactorily and fully, from our present truly beautiful and various stock.

☞ Our present location is the house recently occupied by E. D. Anderson—nearer the river than formerly. [September 6, 1847.]

Strayed or Stolen.
FROM the subscriber, on the night of the 28th ult. a *grey Horse*, about 15 hands high, 7 years old last Spring, shod all round, walks trots and paces. A liberal reward will be paid to any one who may return said horse, or give such information as to enable me to get him.
W. F. THOMAS,
oct6$1* Lewisburg, Mason co. Ky.

New Establishment.
Ellis & Parrow,
(Successors to W. H. McGrenaghan.)
OFFER their services to the citizens of Maysville and vicinity, in cutting and making gentlemen's clothing of every description. They ask a share of patronage, and promise their utmost efforts to give satisfaction. Shop on Front St. formerly occupied by Mr. McGrenaghan. oct4tf

Hemp in the Straw.
WE are paying for Hemp in the Straw, well saved, the market price, for Dew Rotted Hemp, *minus* the estimated cost of breaking by the usual way, delivered at our establishment at East Maysville. This, at present prices, will be about $4 the cwt. of clean Hemp, or $15 to $16 per ton of straw, (if dry) varying according to the amount of leaves or grass with the Hemp, 5 to 5½ tons of straw being requisite to a ton of clean hemp. It may be either weighed in the straw, or the amount estimated upon the field.
Office on Market, next door to Parker's Hotel.
J. T. CROOK & CO.
Maysville, Oct. 4, 1847—ay

Executor's Sale.
I WILL sell as Executor of Richard Parker, at the residence of Abner Hord, of Mason county, Ky. on the 5th day of November next, to the highest bidder, on a credit of twelve months, the purchaser giving bond with approved security, to bear interest from the date, SIX NEGROES, viz: two men, one woman and child, a boy and girl, aged about 12 years. Sale to commence at 10 o'clock.
A. S. PARKER, *Executor*,

To our Friends and Customers.
WE have just received our regular supply of Goods, and our stock of HARDWARE, CUTLERY, &c. &c. is again full and complete. We solicit the attention of Merchants, Mechanics and others, to our present *Stock of Goods*, as we know we can offer them, both as to variety and price, greater inducements than we have been able heretofore to do.
Our stock of Goods is large, and the variety unusually complete, and as we are constantly receiving goods from the East, we will take great pleasure in ordering for our customers any article that we may not happen to have in the house when called for COBURN, REEDER & HUSTON,
oct6 Market street.

Fresh Arrivals.
JUST received directly from the East, at S. Shockley's on Front St. a large and well selected stock FALL AND WINTER GOODS, consisting in part of fine French and English black and fancy Cloths, plain and fancy Cassimeres, in great variety and at reduced prices; Satinetts, of all kinds of the latest style; Vestings, in great abundance; Plain black and fancy Satins, Plaids; &c.
Also, a few dozen fine Moleskin Hats, of the most approved eastern fashion; Ringgold, Rough and Ready, Storm, Navy, Mohair and fine comfortable Caps; Shoes and Boots.
The greatest variety possible of ready-made clothing, kept constantly on hand, all of which will be sold at prices to suit the times. All descriptions of clothing made to order upon the shortest notice. Those wishing to purchase will find it to their interest to give me a call.
oct4tf S. SHOCKLEY.

WE are buying HEMP at the market price.

The Greatest Medicine of the Day.
DR. SWAYE'S
Compound syrup of Wild Cherry.
THE universal celebrity which this valuable medicine is gaining throughout the United States, and the many astonishing cures it is constantly performing, has proved it to be beyond all doubt the only safe and certain cure for Pulmonary Consumption, Coughs, Colds, Asthma, Spitting Blood, Liver Complaint, Nervous Debility, Tickling or Rising in the Throat, Bronchitis, Difficulty of Breathing, or any symptoms of Consumption.
If the bowels are costive, a mild purgative should be resorted to occasionally. Dr. Swayne's Sarsaparilla Pills will prove a valuable acquisition to the Wild Cherry, and will prove a valuable medicine where an aperient is required. Dr. Swayne's Compound Syrup of Wild Cherry is a medicine which has stood the test of experience, and if used according to the directions, (as described in Dr. Swayne's Guide to Health,) seldom fails. The above pumph' let is well worth a perusal.
CAUTION! CAUTION!!—Avoid all spurious preparations of Wild Cherry, such as Balsams, Bitters, Syrups of wild cherry, Pills purporting to contain wild cherry, &c. &c. as they are all *fictitious and counterfeit*, and contain none of the virtues of the original and *genuine preparation*, as prepared by Dr. H. Swayne, and the first ever prepared in this country. *Dr Swayne's Compound Syrup of Wild Cherry* is composed of vegetable ingredients, the wild cherry, and other medicinal substances, equally so efficacious, if not more so; the whole are so effectually concentrated as to render it beyond all doubt the most pleasant, strengthening, and effectual remedy ever discovered for the cure of Pulmonary Consumption, and all diseases of the Lungs and Breast. The very fact, from its having such a train of spurious imitators, stands to prove its great curative properties. Therefore, invalids, inquire for the original prepation, each bottle of which is enveloped in a beautiful wrapper, with a likeness of Wm. Penn engraved thereon; also bearing the signature of Dr. H. Swayne, the counterfeiting of which will be punished as forgery.
Prepared only by Dr. H. Swayne, N. W. corner of Eighth and Race street, Philadelphia.
For sale, wholesale or retail, by Wm. R. Wood and Seaton & Sharpe, Maysville, Ky. [sep29

Tan Yard for Sale.
I WILL sell on liberal terms, my Tan Yard in the town of Flemingsburg, Ky. It has 38 vats and all the buildings necessary for carrying on the work. There are four acres of land attached to the yard, on which are a dwelling house with 5 rooms, with the necessary out buildings. Also, a slaughter house, making it a desirable property, situated in the heart of a wealthy country. I will sell the above on a liberal credit for the greater part of the purchase money, and at a very low price: or if not sold sooner, I will rent the whole on the 10th of March next, at which time possession will be given either to buyer or renter. Those wishing to buy or rent, will please apply to the undersigned, living near Orangeburg, in Mason county.

DR. SMITH'S GREAT NATIONAL PILLS.

Dr. G. Benj. Smith's

Improved Indian Vegetable [Sugar Coated] Pills,

ARE the medicine of the United States, and their superiority over all others for entire efficiency and pleasantness has won for them a pre-eminence of fame which needs no foreign influence to perpetuate. Almost unheralded they have silently worked their way, and have gained a permanent hold on the approbation of the people which no other medicine or opposition can relax. For about four years they have triumphed over disease; and brought joy and gladness to many an anxious bosom. Their purity, as a medical compound, commends them to the most delicate, and even the more hardy, who have suffered from the effects of impure properties in the stomach, will at once be pleased with the delightful operation of these Pills. They have the rare merit of the most carefully selected ingredients are always safe, and there can be no danger of taking them improperly at any time. A single trial will manifest their excellence in relieving the body of many precursors of alarming diseases, keeping the bowels gently open, thereby ensuring the continuance of health. The most eminent chemist in New York has given his certificate that these Pills are purely vegetable, or Nature's own remedy.

The great principle recognized by the inventor of this invaluable medicine is, that every part of the body, whether in health or disease, is brought under the influence of the digestive organs. This plain and rational doctrine forms the only ground on which a good family medicine can be recommended. Operating according to this principle, Dr. S's Pills strengthen the stomach, promote the secretions of the liver, skin and kidneys, and regulate the bowels, thereby adopting the only rational and consistent method of restoring the *life blood pure*, by correcting the vitiated humors of the whole system. It is impossible to give every particular in this brief notice, but these Pills are earnestly recommended as a means of preventing so much misery and disease, which grow out of constipation of the bowels, neglected colds, slight attacks, &c., and which it is in the power of all to prevent. These pills do not palliate but *they cure* most all the diseases of the Western Country, and in all bilious disorders, they stand alone, unparalleled—the sick man's friend. Among the complaints for which these pills are highly recommended, are the following, viz:

Fevers, Dyspepsia, Indigestion, Costiveness, Headache, Bad Appetite, Diarrhea, Dysentary, Liver Complaint, Heartburn, Bilious Cholic, Foul Stomach, Jaundice, Pain in the Breast, Scrofula, Bad Blood, Obstructions, Female Complaints, Rheumatism, Whooping Cough, Weak Nerves, Hysterics, Coughs Colds, Influenza, Pimples, Low Spirits, Hives, &c.

By following the simple directions which accompany every box of genuine pills, a permanent cure will be effected. Most of the hospitals in New York have given these pills the preference over more than 20 kinds that have been tested, and several eminent physicians in New York and elsewhere use them in their practice.

Beware of Imposition!

The demand for Dr. Smith's Pills being every where great, several unprincipled persons have made Pills of the most miserable and dangerous stuff, and palm them off for genuine, have put on a "coating of sugar." Therefore, *beware*, and always look for the written signature of G. Benj. Smith, on the bottom of every box, to counterfeit which is *forgery!*

More than 1000 certificates have been received at the principal office, and the people are referred to Smith's Herald & Gazette, where they can read of the most important cures. We give, for want of room, but a few

Testimonials.

Dr. Smith's Pills are purely vegetable, operate well, and produce a good result. L. LEE.
Editor of the True Wesleyan.

My wife has taken Moffit's Morrison's, and many others, but she has received more benefit from Dr. Smith's Pills than all others. She believes they may be used by females with perfect safety, without changing their employment or diet, and at any season. JOHN KELLETT,
127 Myrtle Avenue, Brooklyn.

Dr. G. Benj. Smith's Pills have entirely cured me of dizziness in my head, and general weakness of my system. My family use them with the best results. I would not be without them.
P. H. NASH, 99 Forsyth st.

Dr. Smith's Pills are free from the objections to which other Pills are liable, and are the best medicine that I have yet seen. J. GREENE.

Voice of the Press.

At the request of Dr. G. Benjamin Smith's agent we cheerfully state that we visited the office of Dr. Smith in September last, while in New York, and found him carrying on a very extensive business with the Indian Vegetable Pills. The extent of his establishment would astonish any one not initiated in the Mysteries of the Pill trade.—*Louisville Jour.*

Dr. G. Benj. Smith's Sugar Coated Pills are all the rage in Boston now. Children cry for them.
Boston Post.

Very much so in Rochester. The dear little "responsibilities" won't believe they are medicine, no how.—*Rochester Daily Advertiser.*

They sell well at Carbondale—and so they ought to. Purchase them of Sweet & Ensign, or of Dr. A. P. Gardner, who are duly authorized agents for the sale of Dr. G. Benj. Smith's Sugar Coated Pills. Give them a trial and they must stand as high in your estimation as they now do in ours.—*Carbondale (Pa.) Reporter.*

Voice from Kentucky.

I have been afflicted with dyspepsia in the most aggravated form for three years past, and I found no relief until I used Dr. G. Benj. Smith's Improved Indian Vegetable Pills. After using sixes boxes I said valuable pills. I am entirely cured. They are a general remedy. J. K. LEEMAN.
Paducah, Ky. Nov. 19, 1845.

We certify to the above facts. Dr. Smith's pills are universally esteemed in this vicinity.
HODGE, GIVENS & CO., Merchants.

Smithland, Ky., Feb. 24, 1846.

Dr. G Benj Smith—Dear Sir: Nothing has ever been introduced that has sold so well and given such general satisfaction, as your Improved Indian Vegetable Pills. Yours, F. S. SINGLETON.

Louisville, Feb. 13, 1846.

Dr. Smith—Dear Sir: About two weeks ago we bought two gross of your Indian Vegetable Sugar Coted Pills. Though business is dull here at this time, but we have sold them all. You will please send us ten gross through Messrs Lawrence & Keese of your city, who will forward them to us via Pittsburgh. Yours respectfully,
WILSON, STARBIRD & SMITH.

LUMBER! LUMBER!! LUMBER!!!

THE subscriber has just purchased and is now putting up a splendid lot of Boards and Shingles—300,000 FEET OF BOARDS and 600,000 SHINGLES, known as the No 1 *Foxton Lumber.*—Thankful for past patronage, he would still hope to merit a share in future, by selling as good an article and on as liberal terms as can be obtained in the city for Cash, or to punctual men on a reasonable credit.

Yard and Office on 2nd street below Wall, and nearly opposite J. B. McIlvain's Warehouse.
CHARLES PHISTER.

Maysville, jo 23 1847 ay

The Best Anti-Bilious Medicine Known.

PROOF is everything; and the best proof that *Dr. Clarke's Vegetable Anti-Bilious, Health Restorative Pills* are the most superior pills now before the public, is that the proprietor is continually receiving certificates by scores, and that he is selling through all parts of this country and South America, over

Five Thousand Boxes Daily.

The reader will say that this is an immense sale, and, perhaps, doubt the truth of our assertion; but we can convince all who choose to investigate the matter, that we have not exaggerated, if anything, the success of this most excellent medicine.—Bilious complaints are the most dangerous, most insidious, and *most obstinate of all disorders*;—no Kentuckian doubts this,—and if you would be relieved quickly, thoroughly and at small cost, call on the undersigned, and the result will prove your wisdom.
PETER SKEAN.

Maysville, Feb 24, 1847

Pospectus of the Maysville Herald,

TRI-WEEKLY AND WEEKLY.

The undersigned proposes to publish a *Tri-Weekly* and *Weekly* paper in the city of Maysville, to be called "THE MAYSVILLE HERALD," which will be devoted, in its political department, to the advocacy of the great principles of National Policy professed by the Whig party.

Relying mainly for support, upon a Commercial and Trading people, the Editor will seek to bring prominently into view, the advantages which Maysville affords to the surrounding country, as a market, for the products of the South, the manufacturers of the North and East, and the productions of the agriculture and domestic industry and skill of Northern Kentucky and Southern Ohio.

The HERALD will contain the latest Political and Commercial News, foreign and domestic, and keep its readers well advised of the state of those markets most frequented by the Merchants and Traders of that section of country in which it is published. It will also contain the usual amount of Literary and Miscellaneous matter to be found in papers of its class.

The subject of facilitating intercourse between the City and surrounding country, so important to the prosperity of both, will receive such attention as may be necessary to place it properly before those most interested in the result.

We shall foster and encourage, by all the means in our power, the Manufacturing and Mechanical interest, from a conviction that no town or country can prosper greatly, whose citizens neglect to give to their surplus products all the value which reproductive industry can bestow, before making them the subject of her commerce.

So soon as the necessary arrangements can be made, we intend to publish, for the benefit of our Farmers, such information upon the subject of their noble pursuit, as experience and the application of the principles of science have developed, or may hereafter make known.

In short, we will aid, to the utmost of our power, by all legitimate means, in bringing into action the springs of prosperity, upon which the happiness of those most interested in our labors depends.

TERMS:

For Tri-Weekly paper *four dollars* in advance, *four fifty* within the year, *or five* at the expiration of the year.

The Weekly Herald on a large double-medium sheet, *two dollars* in advance, *two fifty* within the year, *or three* at the end of year.

J. SPRIGG CHAMBERS.

2-4, 7-8, and 4-4 *Brown Cottons* of approved brands.
Bleached Cottons, from common to superfine,
Prints, over 1200 pieces of every variety.
Canton Flannels, Brown Drillings, Tickings, Plain and Plaid Linseys, Jeans and Sattinetts, Tweeds, Flannels, red, white and yellow Apron Checks, Domestic Ginghams and Plaids, Blankets, over 500 pairs, from common to fine; Alpaccas, very cheap; Earlston Ginghams; California Plaids; Silk and Woolen Plaids; British and French Chintz; Cashmeres, Merinos, Cloths and Cassimeres; Serges; colored Cambrics, White Goods, a complete stock; 1,000 Shawls, in great variety and of every price and quality; *Notions* of all descriptions, and entirely too numerous to mention in an advertisement.

HATS, OVER 200 DOZEN:

Of all qualities, from the lowest price Wool to the finest Castor.

CAPS, OVER 300 DOZEN:

Of Mens and Boys. hair, glazed, velvet, cloth and fur; the best stock ever opened in Maysville, and the cheapest.

BOOTS AND SHOES, a fair Stock.

To *Merchants* who intend buying in the Western country, we would say, call and *examine*, our stock before you go elsewhere, as we will charge nothing for *showing* our Goods; nor will we think the less of you if we cannot make a bill with you. We *know* we *buy* Goods as low as *any house*, and that our *expenses* are much less than many who do a much *smaller* business, and this combined with our experience, warrant us in saying, that we can sell as *cheap* as the *cheapest*. Whether we will do so, remains to be tested by an examination, to which we invite you.

To our retail customers, especially the Ladies, we can say, that we believe we can show a better stock of both Staple and Fancy Goods, than can be found in any other house in the city; and of our prices, you must be the judge.
L. C. & H. T. PEARCE.

Received this day per Harkaway, and for sale by
m21 POYNTZ & PEARCE.

Farm for Sale.

THE undersigned wishes to sell her farm in Lewis county. It lies immediately upon the road leading from Maysville and Washington to Clarksburgh and Kanahaqua, near the line between Mason and Lewis counties, and adjoining Gen. Marshall's farm. It contains 100 acres about 80 of which is cleared and in excellent repair. It is as well watered as any farm in the county, and as well timbered. The soil is equal to any in the neighborhood, almost all of it being newly cleared. The dwelling is very comfortable. It has upon it a good barn, together with all the other necessary outhouses good. Upon the farm is a great variety of choice fruit trees, that are just beginning to bear. Any person can see the farm by calling upon the gentleman who is now living on it, and for further particulars apply to Dr. Duke in Washington
R. WILSON.

aug18 *Market St.*

A Farm for Sale.

I WILL sell my farm—the former residence of Gen. C. Hamilton—adjoining the town of Washington, on favorable terms, and give possession this fall to the purchaser, if sold before that time. This Farm is one of the most desirable in the county. It contains about **247 Acres** of fine tillable land, the different portions of which, are abundantly supplied with water. The improvements are numerous, and their aggregate cost was greater than he sum which I ask for the farm. The homestead, which is large and handsomely situated, is a frame building, surrounded by all the out buildings necessary to make it a desirable home. The fruit and ornamental trees, are numerous and of great variety.

Besides the out buildings about the homestead, there are on the farm, two other good frame dwelling houses and a Rope Walk 600 feet long, with Warehouses attached; and the machinery necessary for the manufacture of the various kinds of cordage.

A large portion of the land lies on the turnpike road, between Maysville and Washington, and would make one or more delightful country seats, for persons residing in Maysville, which I would sell seperately if desired.

It has great advantages for a market or dairy farm. For particulars apply to the undersigned on the farm. JNO. B. MILVAIN.
