A Farmer's Wife Pi'ed, Etc.

BY MISS HUNKELEN.

I am a laughing girl, just turned of "sweet sixteen,"
As full of fun and mischief, as any you have seen;
And when I am a woman grown, no city beaux for me;
They'll marry in my life, a farmer's wife I'll be.

I love a country life—I love the joyous breeze—
I love to hear the singing birds among the leafy trees;
The lowing herds, the bleating flocks, make music sweet for me;
If e'er I marry in my life, a farmer's wife I'll be.

I love to feed the chickens—I love to feed the pigs now—
I love to hear the farmer's boy, go whistling at his plow,
And fields of corn and waving grain, are pleasing sights to me;
If e'er I marry in my life, a farmer's wife I'll be.

I love to see the orchards, where the golden apples grow,
I love to walk in the meadows, where the bees do make the flow;
And fairest banks, and shady nooks, have many charms for me;
If e'er I marry in my life, a farmer's wife I'll be.

Let other girls, who love it best, enjoy the gloomy town,
Mid dusty walks and dusty streets, to ramble up and down;
But flowery fields, and shady woods, and sunny skies for me;
If e'er I marry in my life, a farmer's wife I'll be.

Appalling Burning of a Ship.

The following details of a horrible case of piracy and burning of a ship at Macao, have been received at Lloyd's:

"The Dutch ship Banco, Capt. Heymans, 700 tons burden, with between 300 and 400 emigrants (coolies) for Havana, put back to Macao, about a month since (the dispatch is dated at Hong Kong, August 10,) with her water casks leaking and cargo shifted, having encountered boisterous weather, and on reaching the outer roads brought up to an anchor. There she remained repairing, her officers exercising strict vigilance in preventing the coolies going ashore, for fear they should make their escape. For the three weeks, whatever discontent may have prevailed, no fears of an outbreak would seem to have been entertained, until a Chinese doctor warned the captain that mischief was brewing. In preparing for such a contingency as a rising of the coolies the small arms were placed on the poop, and two guns were loaded with grape, and pointed forward. About 9 o'clock of the night of the 5th, the disturbance commenced, and the crew took refuge on the poop. The Captain first fired a shot or two overhead, but, as that had no effect, and the coolies advanced toward them, yelling frightfully, armed with belaying-pins, broke torn from the cooking-places, &c., the captain gave orders to his men to fire, and immediately a volley was poured in o the infuriated mass from the two guns, and also from the small arms. This had the effect of checking and putting down the fray, and the coolies were driven below, but they sought revenge by setting fire to the ship, and in a few minutes the captain was appalled by seeing flames issuing up from the fore-hatch. A frightful scene of carnage followed; the coolies rushed upon deck, and no doubt murdered all the officers of the ship. The ship was soon in a blaze; one-half of it. In about an hour the mainmast fell with a crash, then the fore and mizen, and about mid-night the magazine blew up with a tremendous explosion. The ship was instantly buried in fragments, and a vast number of poor creatures, who were clinging to the chains, perished with her. Of the number who were on board, including crew and passengers about 500; only 150 escaped with their lives; the remainder were either burned in the ship or drowned. The affair has produced a great sensation in Hong-Kong.

The Mistress of Louis Napoleon.—The Inverness (Scotland) *Advertiser* says:

Amongst the gay equipages which may be seen traversing Strathspey at present, is one containing a visitor of some celebrity. That fair lady with the clear and beautiful English complexion, who is sitting in the carriage along with the smart looking gentleman, has a history of romantic interest, and is even now a personage than Miss Howard, the *ci-devant* mistress and should have been the wife of Louis Napoleon, Emperor of the French. Her name is now Mrs. Trelawney, but in that Mr. Trelawney, and her companion, who is said to be his lawful wedded English family, is her husband. Her maiden name is Jameson, and in the immediate vicinity of Strathspey, of which they have a lease for some years. Days have changed since the rope and a special constable of London took her to Nancy to the clergyman, that girl, who accompanied him to Paris, and who, according to report, acted as his "guide, philosopher and friend," besides the position of the daughter of the presidential and the consul *d'état*. The man about town is now an Emperor, a husband, and the father of a legitimate prince; while his former mistress has companion in her lonely seclusion, separated from her husband, and all the splendors of the Tuilleries. Louis Napoleon or Mrs. Trelawney—we wonder which is the happier of the two—rather, might we not ask, which is the more miserable!

Plain Preaching.

The Rev. John Jones, formerly Vicar of Llansoy. was an eccentric but earnest preacher. After ministering many years among his parishioners, he was impressed with the idea that they made little way in spiritual life; so one morning he opened his discourse to them in the following fashion: "My friends, I have been for many years your minister, with the awful reflection at this moment, that were I to ask my heart the question, here I been the instrument of saving one single soul, I could not answer it to my satisfaction. See, then, how either I or you shall stand in the great day of account—I, if I have not done my duty by you in teaching, if you have not profited by my advice. For myself, unless you show more signs of spiritual life, I shall disown you on that great day. When the books are opened, and the angels call out the names in the face of the countless multitude, 'John Jones,' I shall not answer, for there are many John Joneses. He will then call on the Welsh John Jones,' but still I shall not answer, for there are many more Reverend John Joneses than me. He will then the third time cry out, 'John Jones, V-car of Llansoy,' and then my friends I cannot help answering, and I will reply, 'here am I.' And then the question will be put to me: 'John Jones, where are the sheep I gave you to tend?' and then I fear I must reply, 'Sheep, I have none, Lord, for all proved to be goats.'"

Lost Books of the Bible.

The following books are referred to in the Bible, but are now lost—the number is greater than is generally supposed. The Prophecy of Enoch; see Epistle to Jude, 14. The Book of the Wars of the Lord; see Numbers xxi. 14. The Prophetical Gospel of Pire, which relates to the Ancient Wars of the Sons of God with the Daughters of Men; see Origen cont. Celsum, Jeritullian, &c. The Book of Jeshur; see Joshua x. 13, and 2 Samuel i. 18. The Book of Iddo the Seer; see 2 Chron. ix. 29, and xii. 15. The Book of Nathan the Prophet; see as above. The Acts of Rehoboam, in the Book of Shemaiah; see 2 Chron. xii. 15. The Book of Jehu the Son of Hanani; see 2 Chron. xx. 34. The Five Books of Solomon, treating on the nature of trees, beasts, fowls, serpents and fishes; see 1 Kings iv. 34.

An exchange says, on the authority of Miss Dix, the celebrated philanthropist, that upwards the hundreds of crazy people with whom her sacred missions have brought her into companionship she has met not one individual however fierce and turbulent, that could not be calmed by Scripture and prayer, uttered in low and gentle tones. The power of religious sentiments over these shattered souls seems miraculous.

Liquors, &c.

Lacour's Improved Process,

For manufacturing Liquors, Cordials, Effervescing Beverages, Vinegar, Bitters, Syrups, Essences, Wines, &c.

ALL KINDS OF LIQUOR CAN BE MANUFACTURED FOR 12 to 50 cents a gallon.

AN OUTLAY OF $2 WILL FURNISH THE Apparatus for converting Whisky and Water into strong Brandy, in 36 hours, at a cost of two to three cents per gallon.

The only vessels necessary for this purpose are Water and Whisky barrels. The ingredients with which they are filled, for the purpose of making Vinegar, can be found in any of the forests of America.

Persons without the slightest knowledge of this business are led imperceptibly into the process of manufacture, which is by no means complicated.

This work is to be found at No. 90 Camp street, and at the book store, No. 46 St. Charles street, opposite the St. Charles. Price $2 per copy. This amount (two dollars) can be sent per mail in gold, and the work sent per return mail.

☞ Purchasers must inclose 30 cents in stamps to prepay and register the book. Address

HENRY WALTER & CO., Publishers,

No. 46 St. Charles, New Orleans, Louisiana.

☞ The great value of this work has been sufficiently proved by its adoption as a text book by the various liquor manufacturers of the city of New York.

RECOMMENDATIONS OF THE PRESS.

This work will be found to supply the dealer in liquors, wines, vinegar, &c., with a thorough teacher and guide amid all the varied and intricate processes of this branch of trade.—*N. O. Picayune.*

It were a work of supererogation to praise a book of Mons. Lacour's writing. The volume before us, published for the complacence and the exact practical directions which it gives. Old manufacturers will find all of the old modes completely superseded by the old fashioned, but would appear as the "foam of folly" in the presence of the new ones suggested in this work. One out of the principal objects appears to be to avoid, as far as possible, the use of apparatus or expensive (to the operator) appliances of any kind in the manufacture of liquors.—*New York Times.*

This volume contains the art of preparing and putting up the choicest of drinkables, from a choice pipe of Guard Depuy, of the vintage of 1795, to a simple and economical manner of making cider without sugar. A friend of ours, a friend has applied the recipe for converting 23 gallons of whisky into 40 gallons with the most satisfactory results. The latter quality does not possess an equal amount of intoxicating properties to the former, though the 40 gallons was of a much finer color, taste, and odor.—*New York Mechanic.*

This much talked of book is at hand. It contains a mass of information that is perfectly astonishing, and could only have been acquired from actual observation. If you wish to see information, look in a copy of Lacour on Liquor. Practitioners at bars to have been the design of the author. No delays are necessary to secure the results of his application of a recipe. We speak from actual observation.—*Phil. Sun.*

This work will revolutionize the present style of manufacturing liquors.—*New York Times.*

Lacour's book for instructing in the art of making and bottling effervescing temperance beverages, liquors, wine, and pure vinegar for the table, should be in the hands of every home-keeper in the country. The copyright forbids, or we would give the most astonishing extracts out of the most valuable receipts that ever appeared in print. How so much information can be given for two dollars is the most astonishing feature connected with the book.—*New York Times.*

Lacour's work is the most complete work on the manufacture of liquors that we have met with; it contains an immense number of formulas, which, if followed, will enable any one to manufacture liquors, syrups, vinegar, &c. The work is published for the accommodation of the submerchants, dealers and importers of liquors in this city. This alone would speak more in favor of the reliability of the work than could be otherwise made.—*N. O. Delta.*

LACOUR'S OIL OF RYE changes common Rectified Whisky to Monongahela Rye Whisky, old Rye, Scotch Whisky, Bourbon Whisky, &c.

OIL OF CEDRAT changes common Rectified Whisky to old Irish Malt Whisky, and a superior article of Scotch Whisky.

OIL OF PEACH changes common Whisky to Virginia Peach Brandy, &c. Oil of Peach and Oil of Cognac will convert common Whisky to Apple Brandy.

OIL OF GIN converts the poorest Whisky to Holland Gin, Schiedam Schnapps, Rose Gin, Swan Gin, English Gin, &c.

LACOUR'S CONCENTRATED ACID will, in five minutes, after being mixed, change five gallons of good Vinegar and twenty-five gallons of water, to thirty gallons of the most acid Vinegar that can be found in the market. By the use of Lacour's Concentrated Acid, Vinegar can be made for one dollar and sixty cents per barrel.

FOR SALE BY THE PARISH OF JEFFERSON, Lacour's Oils required no preparation—only pouring the Oil into Whisky and shake well. The Liquids thus made will have a fine color being mixed, a fine rich taste—a beautiful transparent color and a fine bead. Decour's Oils exert three distinct properties in converting common spirit into a good liquor. The first property combines with and subsides in the form of Flocculent particles the whole of the Oil, which is the cause of its being so much deprived of the peculiar irritating and burning taste, and becomes a neutral spirit; the second property combines with the Oil, which is then imparted to the Liquor, which renders it mellow, and imparts an appearance of great age; the third property is exhibited in the odor, taste, and color that is imparted to the Liquor, which renders distinction from the Genuine Brands impossible.

☞ These Oils are put up in convenient size, each bottle contains sufficient Oil for making 300 gallons of liquor. Full and comprehensive directions accompany the bottle, which is plain and brown.

☞ One bottle of these Oils (five in number) will be securely packed and shipped (with bill of lading) free of charge to any part of the country, upon the receipt of $10, to the address of

☞ The First Page.

The Election.

It passing of quietly and orderly, although great interest is being manifested in the progress. Both party votes have been challenged by both parties, and quite a number rejected—some of them clearly illegal and which should not have been offered, while others were of such doubtful character that even the judges hesitated.

Poll every Vote!

If a legal vote remains unpolled at noon, it should be brought in. Every man should vote, and particularly every Fillmore man. A death struggle is being made by the Democrats to carry Kentucky for Buchanan and Breckinridge, and they are boasting that they will do it by 5,000 majority. But if the friends of Fillmore throughout the State are true to the cause, there is no danger. Not even with the aid of all the imported and illegal votes they can crowd into the strong Democratic counties can they beat us, if our friends work as they ought.

Vote of Maysville.

At the two precincts in this city, at the time of going to press, ½ before 11 o'clock, the vote stood as follows:

	Fillmore	Buchanan
Maysville No. 1	178	162
Maysville No. 2	133	97
	311	259
	259	
	52 maj.	

This is already a larger majority at the lower precinct than was given at the close, in August 1855, but not so large at the upper precinct. There is every encouragement to the friends of Fillmore to work. Let that be their watch cry. WORK!

The telegraph line is down in every direction around us; and we could not hear anything in reference to the voting elsewhere in the State.

We are satisfied that if every Fillmore man does his duty we have carried the State handsomely.

The Special Election.

By the lamented death of our late Mayor, the City is left without a chief executive officer, and without any power to elect one except upon ten days notice and an election by the people. The Council, at a called session on yesterday, ordered such an election for Saturday of next week, the 15th instant. In the meantime, any disturbances or breaches of the peace will be tried before the Justices of the Peace.

The death of Dr. Dorr ss is the second that has occurred in the Mayoralty of our City—Charles Ere Wolf, Esq., the *first* incumbent of the office, died in office, and his unexpired term had half expired. A vacancy occurred, also, just two years ago, by the resignation of Wm. T. Casto, Esq. In the last case, however, there was no interregnum—as his resignation was prospective, and did not take effect until Dr. Dorr ss was elected and ready to be sworn in as his successor. Would it not be well to have the City Charter so amended as to give the City Council the power to elect a Mayor *pro tem*, or else to make the President of the Council the successor in case of a vacancy. A contingency might occur in which some such *provision* would prove important.

A Nuisance.

About dusk, last even-ng, the fire-bells began ringing—at first, in a manner that indicated a summons of the fire companies to a regular meeting, after supper. But in a few minutes, they rang quick and fast, as if sounding an alarm of fire. We did not believe there was an alarm intended, or that there was any cause for one—but we found in the lower end of the city some gentlemen, and quite a number of ladies and children, who were made uneasy by this false alarm. They could see no signs of fire, but they had faith the bells would not deceive them, and imagined they heard the cry of fire on the street.

We have taken pains to inquire, and cannot hear that there was any fire or even an alarm of fire—to justify such a ringing of the bells and such consequent uneasiness. Such ringing is a nuisance—and the fire companies should prevent their mischievous and fun-loving members from thus cruelly and needlessly exciting the public. We call upon the City Council to make some order that will prevent a recurrence of such things in the future. It is all wrong and should be *stopped*. The Council owe it to themselves and the citizens generally to have it stopped. Let it be attended to, at the meeting to-morrow night. The order and quiet of the city requires it.

☞ We take pleasure in calling public attention to the advertisement of Messrs. Antes & Bergeman, in another column. Rev. Mr. Antes is the pastor of the Lutheran Church in our city, which worships in the Council Chamber. His attention to business for a portion of his time enables him to preach to a very worthy congregation, who are too poor to support a minister unaided. His partner, Mr. Bergeman, is known to many of our citizens from his long engagement at Henderson & Brother's, where he gave great satisfaction as a cutter and workman. Two such worthy and industrious gentlemen deserves success; and we are quite confident that they will receive it. Their stock is well selected, and they manufacture in excellent style.

☞ Gov. Morehead has set apart Thursday, the 20th inst., as a day of general thanksgiving and prayer. We will publish his proclamation in our next.

City Election.

☞ We are authorized to announce Zachariah Gulbernson, as a candidate for *Mayor* at the ensuing annual election, 5th January next.

☞ We are authorized to announce Joseph W. Bruce as a candidate for City Marshal at the next City election.

Mass Meeting in Bracken.

After a speech of two hours, by Hon. Thos. Marshall, Mayor, Dr. Rice, Judge Cox, Gov. Dorr ss, &c., the meeting adjourned, at half past 4 o'clock last evening. His death had been expected for several days, and the community was thereby prepared to hear it. For men had many friends, or more devoted friends than he, for few possessed the social qualities and fine conversational powers that distinguished Dr. Dobyns. His death has left a void in our city that none can fill. His warm-hearted generosity, his prompt liberality, his kind and accommodating nature, his keen perception of the right, and his singularly just but eccentric administration of the laws as our municipal chief magistrate, will never be forgotten by our citizens. He was three times elected Mayor by the people, each time receiving an almost unanimous vote. He was, we believe, just forty-four years of age.

As we go to press, his funeral sermon is being preached to a large crowd; who have stopped aside from the excitement of the Presidential election to pay the last tribute of regard for departed worth. It was an earnest wish of Dr. Dobyns to be carried to the polls to record his vote for Fillmore; but instead, many voters of both parties left the polls to follow his corpse to the grave. So true it is, that "we know not what a day or an hour may bring forth."

The following are the resolutions passed by the City Council:

Testimony of Respect to Dr. Dobyns.

At a called meeting of the City Council, held at the Council Chamber on Monday last, the Hon. R. H. Stanton announced the death of the Mayor, Dr. R. G. Dobyns, and offered the following preamble and resolutions, which were unanimously adopted:

The City Council of Maysville having received with the deepest sensibility, intelligence of the death of Richard Gaham Dobyns, Mayor of the City, and penetrated with a sense of profound sorrow at an event which has not only deprived the City of an officer distinguished for ability and fidelity in the public service, but bereaved society of a member of unbounded benevolence and usefulness, and his family of its manly head and affectionate protector, therefore

Resolve, That the members of the City Council and Officers of the City, will wear the usual badge of mourning, for 30 days, as a testimony of the profound respect entertained for his memory.

Resolved, That the members of the City Council and officers of the City government, will attend the funeral of the deceased in a body, and they respectfully recommend the same to the citizens generally.

Resolved, That the proceedings of the City Council in relation to the death of the late Mayor, be communicated by the President of the Council, to the family of the deceased as a testimony of their sincere condolence felt by the members of the Council in their mournful bereavement.

Resolved, That the Clerk of the Council furnish a copy of these proceedings to each of the city papers for publication.

HARRY DAVIS, President.
J. G. Spalding, Clerk.

American Mass Meetings in Kentucky.

The American Mass Meeting in Carroll county, on Wednesday last, was a rousing affair. The number present was rated at from 5,000 to 7,000. There was a procession, with music and banners. Speeches were made by Gen. John M. Harlan and E. P. Norton, Esq.

There was an American Mass Meeting in Trimble county on Saturday last. The Madison Courier, anti-Fillmore, says "it is conceded to have been the largest political gathering ever held in Trimble county."

Intermarriage of Cousins.—The Norfolk *Reflector* says that the Assessor's Return of Huron county show 11 blind, 12 deaf and dumb, 12 insane and 12 idiotic persons in the county. The parents of five of these were by relation cousins before marriage. Three of the five, (2 blind and 1 idiotic) were so afflicted from birth, and one, (idiotic from infancy.) The fifth was deaf and dumb for a short time not ascertained—probably from birth. It is probable that the number of parents so related to each other is larger, as there was no information obtained as to part of them.

A man named Amos Morehead was arrested in Covington on Friday, on the charge of attempting to pass a forged check for $100 at the counter of the Northern Bank of Kentucky.

Among the births announced in late California papers is the following: "At San Francisco, Sept. 19, Mrs. Julia Dean Hayne, of a son."

A farmer residing near Morrow, Ohio, was cut to pieces by one of the cars on the Little Miami R. R., on Thursday night. It is supposed that he was intoxicated and stretched himself on the track.

Parker H. French.—This gentleman, says the Shakopee (M. T.) *Advocate*, has formed a stock company in Illinois, for the purchase of real estate in Minnesota, and has already made investments at Walsh and Crow Wing.

Ex-Governor Sprague, of Rhode Island, died last week. He was formerly U. S. Senator, and was the largest manufacturer in Rhode Island. Gov. Sprague was at the head of the Fillmore ticket in that State.

The Rev. T. M. Eddy, of Indianapolis, has been elected editor of the *North-Western Christian Advocate*, at Chicago, in place of Dr. Watson, deceased.

Thanksgiving in Ohio.

Gov. Chase has issued a proclamation appointing Thursday, November 20.h, as a day of public thanksgiving to Almighty God. This makes eleven States in which Thanksgiving will be observed on the 20th of November.

Grasshopper Politicians.—Hon. Alexander H. H. Stuart, of Virginia, Secretary of the Interior under Mr. Fillmore's administration, in a recent speech in New York city, thus happily hit off a class of petty politicians who make a great deal of noise and trouble:

The grasshopper makes more noise in the field, than an ox; and so the little politicians of the day, who profess to represent the sentiment of the South, make more noise than the true men of the South—viz: those men who value the integrity of the Union; those men who value the Constitution which has been bequeathed to us by our fathers, and all the blessings which we inherit from them.

Gubernatorial.

We learn from the Cincinnati *Gazette* that Mr. J. H. Hayes of this city, (formerly Elder Hayes of the Reform Church on Third street,) was ordained in St. Paul's (Episcopal) Church, Newport, on Sunday last, by Bishop Smith of Kentucky.

Mass Meeting in Fleming.

The attendance at the Buchanan meeting in this place is truly surprising. We publish in another column a list of *seventy four* names of voters in Berrien county, who repudiated slavery-driving Democracy, and declare for John C. Fremont. This makes one hundred and seventy four—one voter in Berrien county alone! and yet with such demonstrations before them, the bogus Democracy talk about carrying Michigan! Here is a correct our list:

62 Democrats from Detroit,
100 Democrats in Berrien co., (first list,)
74 Democrats in Berrien co., (second list,)
20 Democrats in Van Buren county,
24 Democrats in Ingham county,

making a grand total of 474 Democrats, who support the free-soil Republican candidate John C. Fremont, and who reject the attenuation, disunion, Ostend-filibuster candidate, James Buchanan.—*Detroit Tribune.*

☞ We commend the following article to the Henry Clay Whigs who now support James Buchanan:

A Strange Animal.—The present canvass for the Presidential office has revealed a new species of animal that we don't recollect to have seen described in history, a tale, or song—a sort of

"Lawless, liney-woolsey brother,
Half one order, half another;
A creature of amphibious nature;
A beast on land, a fish in water."

The varmint to which we allude is call'ed an "Old Line Henry Clay Democrat and Whig!" and we venture to say no such creature was ever before heard of in this or any other country.—Alluding to the biped, a few days ago, we undertook to tell a friend of ours, (a native of Anson county, remarked that he had heard of many strange animals such as the Woolly Horse, the Kangaroo, the Gyraffe, and the great Boo Hoo that it took two yoke to bring from the Feejee Islands, but never before had the world produced such a zoological wonder as the "Old Line Henry Clay Democrat and Whig!"

The nearest approximation to the new order that we recollect to have heard anything about, is presented in the person of one Caleb Cushing, now Attorney General of the United States, and an Influential member of the Pierce-Cabinet. He is described by one who knows him well as double-eared (hermaphrodite) in politics, with a single tongue in the lower bends when thrift is likely to follow fawning.

Fayette Argus.

Goods in Indianapolis.

Messrs. Charles Babcock and Orborne Reilly returned Saturday evening from a trip in search of detained goods. The number of car loads scattered along Bellefontaine Road and switched off at way places is almost incredible. At Indianapolis the freight trains cannot get nearer the Union Depot than seven miles! On Friday night a train came in consisting of forty-two cars loaded with goods for the Western markets. Our merchants in common with those in Illinois, have been seriously inconvenienced by these unavoidable detentions. Mr. Babcock succeeded in getting about nine tons of his goods, and Mr. Reilly only found eight cases. They report the employees of the Indianapolis roads as kind and gentlemanly, but that the rush is so great as to make it impossible to forward the goods immediately. Heretofore, nearly all the dry goods received at Evansville have come by the way of the river, from Pittsburgh and Cincinnati.—*Evansville Journal.*

Maj. A. M. Hancock.—We are gratified to be able to announce to our readers that this able and eloquent advocate of American principles, has arrived safely at his home in this county during the present week. He may be expected here on Friday or Saturday. He has appointments in Lewis, running up to that time, when, we are assured, he will render efficient service.—*Elizabethtown Intelligencer.*

Trenton, N. J., Oct. 28.

The Republicans and Americans met here to-day for the purpose of forming a union electoral ticket. A respectable number of both parties were present. They met in separate conventions. The Republicans proposed to the Americans to withdraw similar to that made in Pennsylvania, but a difficulty arose, about the terms of the proposition. A second proposition was then made by the Republicans, to which the Americans answered that no arrangement could be made. The Republicans then directed their executive committee to prepare a statement of the matter. Both conventions adjourned sine die, without effected.

The Ocean Telegraph

The *Journal of Commerce* gives some interesting facts concerning this novel important undertaking:

The arrangements for laying the wire are not yet complete. Mr. Field being at present in England with reference to this matter; but we learn that the contract for a submarine between this port and St Junus, N. F., is very nearly completed. An unexpected delay arose from a miscalculation as to the length of the wire required for the shore. Mr. Frank Sevalia, occasioned by inaccurate surveys, so that it was necessary to return to England, and to procure some 40 miles more. The length of the whole length of atmospheric wire is 25 miles. This portion is nearly finished, and the two sub-marine cables between St. John's and Prince Edward's Island, and across the Gulf of St. Lawrence—one over fifteen miles in length, and the other eighty-five—are found to be complete, and in the best working order. The entire expenditure on this important enterprise, up to the present time, is between $600,000 and $700,000. The cost of the ocean survey is defrayed by the United States Government.

Couldn't Wait until Morning.

The cars on the Covington and Lexington Railroad, on Wednesday night, shot one o'clock, brought among other passengers a lady and gentleman to the Spencer House. They were both single, but the supposition is that they left home for the purpose of consummating matrimony, as the sequel will show. On being shown into the parlor the gentleman sought out Mr. Pratt and told him he desired to get married immediately—the case was urgent—they could not wait until morning. Pratt started off after a minister to tie the knot and Metcalf went in pursuit of the clerk of the Bath County to obtain a license. Fortunately both were secured, and about half-past ten o'clock the twain were made happy, in the presence of several of the boarders—we mean those of the company. We have since learned that it was what we suspected, a runaway match.—*Cincinnati Enquirer.*

The beautiful banner, enclosing a life-size portrait of Millard Fillmore in an elegant gilt frame and handsomely surrounded with wreaths of flowers, was presented on a barbecue given in Cincinnati on Wednesday to the young ladies of Scott, who representing the thirty-one States of the Union, and who came to the city in a most magnificently decorated carriage, made by enterprise, up to the present time, is between $600,000 and $700,000. The cost of the ocean survey is defrayed by the United States Government.

Hon. Thos. Corwin for Fremont.

The following letter, addressed by the Hon. Thos. Corwin to a Committee of the Young Men's Republican Association, in reply to an invitation to speak at the Fremont demonstration on Monday evening, in Cincinnati settles the question as to his position with reference to the Presidential question:

Cincinnati, Oct. 31st Oct., 1856.

Gentlemen:—Your letter inviting me to address a meeting of the Republican party in Cincinnati, on Monday evening next, was received yesterday. You are not mistaken in supposing that I prefer the election of John C. Fremont to that of Mr. Buchanan. This has been my position from the beginning of the present contest. I certainly do, and do still, very much prefer Mr. Fillmore to either—believing and (as I think) knowing his opinions and principles—sustaining the rights and interests of both North and South to be such as are prescribed by the Constitution, I still believe his election would do more than any event now possible to quiet the sectional and perhaps dangerous agitation of the public mind. The late election in Ohio, however, has, I think, shown that our national ticket for Mr. Fillmore cannot be voted for with any hope of success in this State, and I feel bound by every obligation of duty to choose between the two remaining candidates, and to the other of whom must obtain the vote of Ohio. Kentucky cannot give my assent to all the doctrines professed by the Republican party in Ohio, I do not believe that the sectional interests of the Republic may be more safely confided to a party who opposed the repeal of the Missouri Compromise, and who have been and are still anxious to put an end to all the unhappy consequences flowing from that ill-judged measure, than to such as advocated the adoption of that policy and still approve it.

I do not know that I will be in my power to attend the proposed meeting, nor do I suppose that my presence on that occasion would add at all to the effect it is designed to produce.—Business calls me from the city this evening, and may detain me for two or three days hence.

My vote will be governed by the same principles which I have always heretofore adhered to. Where two candidates are presented, neither of which are my first choice, I deem it my duty to select and vote for the least objectionable of the two. Were I a voter in Kentucky, where the contest is between Mr. Fillmore and Mr. Buchanan, I should certainly vote the Fillmore ticket—in Ohio, where the choice is limited to Mr. Buchanan and Col. Fremont, I shall vote for the latter.

Your obedient servant,
THOMAS CORWIN.
J. C. Belman, I. E. West, W. J. Perkins.

Mr. Botts on Darling.

Mr. Botts, of Virginia, has written a very sensible and manly letter in reply to Mr Pryor, of the Richmond Enquirer, who has been filling his pages with Ethiopian abuse of Mr. Botts, without succeeding in attracting his attention. The invalid son of Mr. Botts, it will be remembered, challenged Mr. Pryor, and the parties met near Washington, but were prevented from fighting by the police.—Whereupon Mr. Pryor notified the latter that he was ready to fight him. Mr. Botts replies, assigning some of the most obvious reasons why a man should not fight him merely because he has been blackguarded by him, and adds:

"Your life could not be the value of a pin's point to me, and I am sure I would derive no comfort from making your wife a widow or your children fatherless. Life is what I do desire to take it; while my own life is not only of value to me but indispensable to the support and happiness of my family, and I hope to make it useful to my country and friends, I am but disposed to place it at your disposal."

"In the seventh place, I am free to say the case must be extraordinary, and of unpardonable crime, that would induce me to subject my family to the torture they have endured for the last six days, and to expose my reputation to what was then transpiring. I may have the right to trifle with my own life and happiness, but the right to sport with, or sacrifice the happiness and honor of others, I deny. I have no other to look up to for their comfort or support, and that for a light and frivolous cause is rather more questionable. This may be what is called a false opinion, but it is one which sentiments I have long entertained, and therefore I have always been careful to avoid giving the first offence, and have borne with much patience, and other circumstances, I should have, At a more youthful period of life I might have been actuated by a less cultivated feeling.

In the eighth place, you have said, and written, published, and thought anything of me that gives me one moment's disturbance, (whatever cause I may have to complain,) for the truth sake, it is proper that I say as to lose its sting, and, therefore, I leave you to indulge your taste, to your heart's content.

Finally, For these reasons, and without the least hesitation, I distinctly and unequivocally decline your invitation to the field, and thereby facilitate the accomplishment of an object apparently desired by many—of having it in their power to say that they have put me a challenge which I refused to accept. And, as I have frequently been informed that there is a concerted movement among some of your political friends to persecute my family and connexions, I would be glad if the gentlemen would consider their challenges as all delivered and declined, on the same ground and for the same reasons herein assigned, which I hope will prove satisfactory to all."

JOHN M. BOTTS.

Irish Colonization Society—Large Business Being our business.

A gentleman from Lawrenceburg, Ind., informs us that a heavy business has been doing recently in the way of transporting votes over the railroad from Indianapolis to Indiana. The same accounts reach us from other points of the State. Will our friends in Indiana allow this shameful swindling to be practiced again on next Tuesday? We think the most stringent measures will be adopted in every town in the State, to prevent these villainies from being re-enacted.—*Cincinnati Gazette.*

Jone Shackelford, Jr., will speak in the Christian Church, on Third street, next Sunday morning, at 10 o'clock.

Fremont, The Mustang Candidate!

If Col. Fremont has any friends as the Mustang Battalion, the opposition would need no corporal's guard. Mr. Fremont remarked, in his disquisition, that "Mustangs, while transporting horses and cattle over the plains of Mexico, *"That if the Government would send on a liberal supply of Mustang Lassoes, he would give 25 per cent. of his losses."* This is very important for Farmers and Livery men to know. The Mustang Lassoes are a wonderful article for man or beast. It should always be used for Sores, Swellings, Bad Joints, Burns, Bruises, Rheumatic Pains, &c., and for Loads, Sprains, Stiffness, Stagnation, &c., upon horses. *Beware of imitations.* The Mustang is sold by all respectable dealers everywhere.

Warner's Tri-Metal Sewing Machines have been tested by the public for two years, and have to be one of the most simple, compact and effective labor-saving machines of the age. It is a ten dollar sewing machine—neat and tasteful in its appearance—invented and patented by Watson. If the inventor is entitled to the thanks of the sewing world, he is entitled to it, it is difficult to imagine how the thanks of the community can be due to any inventor. While we have had an infinite amount of talent and labor expended upon other great improvements, and while the minds of many ingenious inventors have been directed to improvements of the sewing machine—the price of which are a complete obstacle to their general introduction—it does not appear that the invention of a machine which could be afforded at the low price of ten dollars, has hitherto been considered by them—and it is strange, if we find that an ingenious mechanic has an simplified his invention, as to bring it within the reach of almost every family. We have seen this machine in operation, and have examined some beautiful specimens of its work, and hesitate not to say that it is entirely practical in character, and will, in our judgment find its way into general use. We cannot, we think, do the public a greater favor than to direct their attention to this invention.—*Chicago Democratic Press.*

DEATHS.

Died, at Sylvania, Fleming county, Kentucky, on the 29th day of October, 1856, Samuel S. Fitch, son of Elisha S. Fitch, Esq., and Amanda Fitch, aged two years, four months and eleven days.

This green earth with its variegated scenery had just begun to be unfolded to paternal beauty in the eye of the young bereaved—when he was suddenly removed to another state of being. How intensely sanctified was the infantile form of this child, in the lovely picture of earthly goodness and delight, as he gazed upon the bright smiles of maternal love, and as a delighted listener to parental hope, as the guardians of infantile helplessness watched with exquisite emotion the first dawnings of intellectual light. Here unconscious, too, was the little victim of the dark and fatal purpose of death! The approach of the grim King of Terrors was unheeded by the timid heart of smiling childhood; and although the great debt of nature and the penalty for transgression was paid by the sinless sufferer, yet unconscious of the laws of the penal struggle his undefiled spirit obeyed the dread fiat summons and submissively passed through "the valley and shadow of death." But the part which the accomplished parents of this lovely child were called to act in this scene of the drama of life, was more painful than the death of their offspring by stranger hearts. To see the flower blighted just in its bloom is to unfold the sweet beauties in the parents' view—to witness the fierce and unequal struggle of disease and pain with the timid and inexperienced spirit of infantile innocence—and at last to behold the triumph of these evils over their blooming boy, and his surrender to the dark mansion of the grave—are the bitterest and most painful incidents in human life.

True it is that, "the heart knoweth its own bitterness, and a stranger doth not intermeddle with its joy." Nor can words of friendly condolence soothe the stern w' hearts bereft of the dearest objects of affection. "If this world alone we had hope, then, indeed, were we most miserable." But although the accents of human sympathy cannot remove the dark gloom which hangs over the grave, nor lift the veil which separates the spirits of departed innocence from the weeping eyes and bleeding hearts of surviving parents; yet the voice of Christianity can cheer the melancholy mind, and the hand of faith in the resurrection can point to the blissful fields of immortality, where soon shall be congregated all the good, to live forever in the delights of eternal life. There, sorrowing parents, you shall soon meet your loved one! That little spirit who has been taken from this world before his soul became soiled with the pollutions of sin, he will be your guardian angel, to entice his heart with the fruits of earthly lusts, nor to come under condemnation for actual transgression. The Lord Jesus will place his own mantle to remove the imperfections of human nature; and his Heavenly Father will receive him as a new jewel in the diadem of redeeming love.

The voice of Christianity whispers to his parents—"Yet a little while and you shall see him, and you have no hope: but receive this bereavement as the chastening of One who made you and who loves you—and whose love prompts you from the things of this world, and place your affections more firmly on those above."

These are the reflections of a friend, who has likewise drank of the cup of affliction.

SECOND SALE OF LOTS,

BY THE

Emporium Real Estate and Manufacturing Company!

PULASKI, ILL.

EMPORIUM REAL ESTATE

PULASKI COUNTY, ILLINOIS,

Commencing Wednesday, November 19, 1856.

THE Emporium Real Estate and Manufacturing Company will hold a SECOND SALE OF LOTS, at Emporium, Pulaski county, Illinois, commencing on WEDNESDAY, November 19th, 1856, and continuing from day to day, on which occasion there will be offered a number of Lots of various grades and locations, suitable for persons of every degree.

The Town of Emporium offers advantages to Mechanics, Business Men and Capitalists unequaled at this time by any location in the West; being situated upon a high, bluff bank of the Ohio, six miles above its confluence with the Mississippi, affording excellent facilities for shipping, and an extremely productive country adjacent; having an limited command of materials for every branch of manufacture, and consequently increasing demand springing up in every direction around it for manufactured articles of every description.

It is also connected by Railroad with the North, East and West, and with the South and West by River, having an open and constant outlet for all manner of production, and is upon the great highway of the commerce of the West and South.

Many and valuable improvements are going up; such as Saw-mill, Machine Shops and Foundry, Marine Railway and Ship-yard, &c., &c., all of which either are now or will be in active operation within a very short time.

The first sale of Lots by this Company took place in July last, and continued two days, when over one hundred Lots were sold, which have since sold, thus indicating the estimation in which the place is held.

Since the first sale an additional portion of the place has been laid out into lots, embracing locations peculiarly adapted for house for mechanics and laboring men, being more remote from the center of business, but in the immediate neighborhood of the manufacturing district, where the ground can be had at low rates, as also near the Business and Manufacturing Stands—all of which will be sold to the highest bidder, without reserve.

No by-bidding will be permitted. Every article upon which a bid is made will be sold, the Board of Directors reserving to themselves the privilege of discontinuing the sale, if their opinion, the interests of the Company require it.

The health of this spot is equal to any point on the Ohio River. The climate is mild and genial, being equally removed from the withering blasts of the North and the scorching heats of the South.

In a word, in its facilities for all mechanical and business operations, we may safely challenge any other location in the Valley of the Mississippi.

Terms of Sale.—One-fourth cash in hand; the balance in three equal annual installments, bearing 10 per cent. interest payable annually. On the Sale A certificate of purchase, executed on the day of sale, entitling the purchaser to a warrantee deed upon the full and final payment of the purchase-money.

Any purchaser of lots who shall erect, or cause to be erected, upon any lot purchased, a substantial frame house, and finish the same after the style of modern architecture, not less than two stories high, and paint the same neatly, or a brick, stone, or marble house, of like style, within twelve months from the date of the sale, the purchaser shall be relieved from the interest upon the purchase-money of said lot, and be entitled to an additional abatement of 10 per cent. on the principal thereof, or if built upon in the manner aforesaid within eighteen months from the day of sale, then such purchaser shall be released from all interest upon the purchase money thereof.

For further information, maps, plans, &c., apply to the Secretary, at Mount City, Pulaski county, Ill.; or to H. K. Lindsey, Covington, Ky.; C. E. Nourse & Co., No. 40 Sun Third street, Cincinnati; J. W. Cochran & Co., Lexington, Ky.; M. Muney, No. 60 South Fourth-street, Philadelphia; M. W. Wilmore, Nashville, Tenn.; W. H. Stokes, Louisville, Ky.; J. B. Sheridan, No. 46 Clark-street, Chicago, Ill.

By order of the Board of Directors.

H. HAINER, President.

J. Griswold, Secretary.

General Intelligence.

England remains in a state of suspense as to money matters; but the day of agitation is yet to of the Stock Exchange. The commercial wants can be supplied, though at extreme rates.

The detailed accounts of the Spanish Ministry had not yet come to hand further than the official announcement that there is no political crisis, and that the Queen made the change from O'Donnell to Narvaez solely on personal grounds.

The new minister's first act was to conclude Senor Gael, husband of the Infanta Josephe, for wife, pleasing to the Queen. Senor Gael challenged Narvaez, who accepted it, but the Queen forbade, and the meeting did not come off.

The Neapolitan difficulty is without much change. It was the general impression that the Anglo-French ultimatum would be presented to King Ferdinand on the 15th, and failing to receive an immediate and favorable answer the Ambassadors would be withdrawn, but it was not supposed that the fleets would immediately appear.

The English squadron had sailed from Ajaccio, and its destination was supposed to be Malta. The French fleet was still at Toulon. The Vienna papers still anticipate a peaceful issue. It is stated that in consequence of the growing importance of the European complications, the Congress at Paris will consist of first and second rate Plenipotentiaries, and that it will soon meet.

The affairs of the Danubian Principalities engage attention, and the French papers are opposing the Austrian occupation of them.

Denmark is without a ministry, the last attempt having failed.

LONDON, Oct. 18—A. M.

It is reported that both the Austrian and French fleets have orders to approach Naples.

It is also rumored that suspicions are awakened in Vienna that Russia and France are engaged in negotiating a secret alliance.

The free trade project in France has been postponed until July, 1st 1857.

A dispatch received here to-day states that in consequence of a pressing note from France, Austria has commenced evacuating the principalities.

The Queen of Spain has revoked the constitution of 1845, and republished the ancient regime.

The Liverpool papers state that Mr. Kavanagh, of Chicago, is a candidate for one of the vacant assistantships at New York, Philadelphia or Cincinnati.

A dispatch from Constantinople states that Lefer Pacha has gained two important victories over the Russians in Circassia.

The pressure on the Paris Bourse is still very severe, but a suspension of specie payments by the Bank is not anticipated so strongly as before. The amount of the contract with the Rothschilds for the purchase of specie is not known, but large orders have gone out for the purchase of all the Gold that can be obtained in London, Germany or the United States.

Walewski has answered the Russian circular of September 2d, repelling the reproaches of Prince Gortschakoff in regard to the conduct of England and France in the Neapolitan affair, and asserting that the action of France towards Naples will be purely of a diplomatic character.

Washington Items.

WASHINGTON, October 31.

Secretary Dobbins has resumed his duties at the Navy Department. His health has been much improved by his recent visit to North Carolina. The Department has been receiving an unusually large number of resignations by army officers. It is alleged that these resignations are in consequence of the inadequacy of the pay for the support of themselves and their families.

It has been ascertained from several of the gentlemen whose names that the contracts for the supply of Indian Goods has been awarded as follows: Cowin, Hurlbut and Sears, N. Y., for blankets, blankets, cloth and dry goods; Bradley Bro., and Steer, N. Y., for hardware and agricultural implements. Henry F. Lemon, Lancaster, Pa., northwest guns. The contracts are for the largest ever made by the Indian Department.

The number of Land Warrants issued under the act of March, 1855, during October, is 5,601, covering more than 742,000 acres. The total number of applications is 260,000. The total number of warrants issued is 178,513, to satisfy which 81,501,250 acres are necessary.

Presidential Voting in Philadelphia.

PHILADELPHIA, October 31.

John Cooney has been arrested in this city on a charge of furnishing forged naturalization papers. Four witnesses were examined who testified that they voted in the last election, though they had never declared the intention of becoming citizens, nor been at court to obtain papers. They received the papers in a mysterious manner, and refused to tell from whom. One will be found them in his coat pocket, another that they were left at his home, another that the papers were thrown into his house. The foregoing facts were ascertained through an investigation instituted by Mann, the Union candidate for District Attorney, who is contesting the election of Lewis C. Cassidy, the Democratic candidate.

Letter from Gov. Wise.

BALTIMORE, October 31.

Gov. Wise has written a long letter in reply to the inquiry made by the Raleigh *Register*, as to the purpose of his recent visit to Raleigh. He charges the inquiry to be rude and impertinent. He declares that he went to Raleigh of his own motion, and throws himself on his constitutional right to go there when he pleases.

The residence of the letter is devoted to a discussion of the slavery question.

Steamboat Accident.

NEW YORK, Nov. 1.

The steamer Bay State, bound for Fall River last evening, when off Huntington Light broke her walking-beam, and blew off the head of the cylinder.

A daughter of Mr. Blanchard, of Brooklyn, was killed, and two others slightly scalded.

The passengers were taken off by the steamer Worcester, and landed at Norwich.

PITTSBURGH, Nov. 1—M.

ELMIRA, N. Y., Nov. 1.

The Philadelphia express train on the Williamsport & Elmira Railroad ran off the track near Crescent, killing Thomas Fish, the baggage master, and injuring the mail agent. Several passengers were also injured. The express car attached to the train caught fire and was consumed.

Steamboat Burned—Six Passengers Lost.

CHICAGO, Nov. 1.

The steamer Lady Franklin, on the Upper Mississippi boat, sunk at Warren's landing, two hundred miles below St. Paul. She had three hundred passengers on board, six of whom are supposed to be lost.

From Mexico.

BALTIMORE, October 31.

Vera Cruz dates to the 19th instant, state that a portion of Vidaurri's force in Nuevo Leon has surrendered to the Government troops.

Mr. Forsyth, the American Minister, was to leave Vera Cruz for the city of Mexico the next day.

By the Southern Mails.

BALTIMORE, Nov. 1.

The New Orleans papers of the 26th have been received. They furnish the details of the late news from the Northern frontier of Mexico.

Vidaurri took possession of Mier without resistance.

The government troops stationed there were returning to Camargo on the 19th ult.

Vidaurri commenced an attack on Camargo, but at the latest dates neither party was successful.

Carvarajal had gone to Camargo on the invitation of Garza to take command of the government forces.

Accounts from the Rio Grande state that Vidaurri was popular on both sides of the river, and had at his command men and means sufficient to operate success.

OSWEGO, Nov. 1.

Several attempts were made yesterday afternoon to rescue the crew of the schooner John P. Hale, which could be seen from shore. But owing to the heavy sea, the life-boat could not be launched.

This morning, the gale having abated, the rescue of the crew was effected.

The vessel is badly damaged, and her cargo of wheat soaked with water. It is fully insured.

The Canadian schooner Sultan went ashore last night below Fort Ontario.

Hog Market.

CINCINNATI, Oct. 31.

Hogs—Two houses have commenced packing, but not on a large scale, and the market cannot yet be reported as fairly opened; though the weather is excellent, yet there is not that certainty that it will continue so to justify extensive operations. 550 head sold to-day at $6.25 net, which may be considered the opening price.

Provisions—Some contracts making for new Middles, boxed, and the English market—to what extent we are not positively advised. The price is understood to be about 6c. In old Bacon there is nothing of consequence doing, and prices must be regarded as entirely nominal. We understood that sales of prime City-cured Sides were made to-day at 8c. Lard 7½c per keg—there is no Mess Pork, and prices are nominal at $16.50@19 Louisville Mess is offered at $17.

Pork St. Louis Inspection of Saturday says:

Yesterday, on Change, the first transaction of the season, in hogs, took place. There was a sale of one thousand head of good corn fed, to average two hundred pounds, for Eastern delivery, and the seller to pack at $5 per 100 lbs. net. Packers state that they are willing to pay the same for similar lots during the month of December.

This sale is somewhat below the anticipations of many and cannot fairly be considered the legitimate opening price. Hogs are plenty in the West, but the farmers are reported as entertaining large and exaggerated ideas in regard to the price which their pork shall bring them. The profits of last season and good or pa have made them sassy. However, all sorts and speculations must give way to the real facts which will develope themselve at this point, at the first cold snap that visits us. We think our receipts should be greater though for figures a little ahead of those quoted above.

CINCINNATI, Nov. 3—P. M.

Flour—Flour was again dull to-day, and prices settled down to $5.50, and even at this rate the market closed dull. Sales consisted of 250 bbls extra at $5.25@5.50; 150 do. at $5.50@5.60; and 600 do. at $5.50. The imports during the last twenty-four hours were 2,371 bbls.

Whisky—The market is without change; sales of 800 bbls. at 27½c and 175 do. from wagons at 27½c.

Grain—Sales of 400 bozes at 10@10½c. The market continues firm, with a fair demand.

Sugar—Sales of 30 hhds fair and prime at 1¾@8½c—an advance of ½c.

Molasses—The market is firm, with sale of 60 brls. at 34c.

Coffee—The market is unchanged, with a moderate demand.

Rice—The stock is exhausted; small sales at 5¾@5¾c.

Hog—The weather is too warm for slaughtering. Now the only transaction we heard of to-day was 500 head, for Eastern delivery, at $6.25 net.

Wheat—Has been in very light supply, and, with a continued brisk demand, prices are very firm. We quote red at $1.10 and white at $1.25 on receipts during the week amount to 16,108 bush.

Corn—Continues in fair request and the market at say; sales of 6,000 bush. to arrive, at 55c. The receipts of Corn during the week foot up 39,401 bush.

Barley—The market continues unsettled, and prices are nominally $1.45@$1.50 for prime. The receipts in this city are very light, and the receipts for the week amount to 31,584 bush.

Rye—The supply is very light and the market firm at 76@78c, with an upward tendency.

Oats—Are in good demand, and prices show no variation from yesterday's quotations.

Hay—The stock in the city is quite limited, and the daily receipts not equal to the demand. The market is very firm at $23 for prime Timothy on arrival, and $20@21 for fair.

Potatoes—The receipts for the week, foot up 8,117 bush. The demand is brisk at 40@45c for Peachblows, and 35@40c for others at these figures. The demand is principally from the interior of Kentucky and Indiana.

NEW YORK, Nov. 1.

Cotton quiet; sales of 500 bales. Sugar steady at $6,50@6,60 for State; the sales foot up 16,000 brls. Wheat has a declining tendency, with sales of 31,000 bush. at $1.60@1.62 for white, and $1.58@1.60 for red. Corn firm at 74c for Western mixed; sales of 26,000 bush. Pork steady at $21.25 for mess. DR. J. R. MARCHISI'S

CELEBRATED CATHOLICON,

For the Relief and Cure of Suffering Females.

It stands pre-eminent for its curative powers in all the diseases for which it is recommended, usually called FEMALE COMPLAINTS, Whether Arising from Falling Down, or falling of the womb, Fluor Albus, or Whites; Chronic Inflammation and Ulceration of the Womb; Incidental Hemorrhage, or Profuse Menstruation, Scirrhous Tumors, and Irregular Menstruation, &c., with all their accompanying evils, (Cancer excepted,) no medicinal preparation has ever been so universally and popularly also be sustained by any medicine but its merits and the application of the public.

REFERENCES.

The Medicine is now well known and appreciated, and will speak for itself, and speak for itself. I know of no preparation that can compare with it for the particular complaints for which it is designed. I am satisfied from the low price of it in my own family, and by almost every day's evidence of its benefits to others, that it justly merits the warmest recommendations the best friends have given of it.

E. B. PERKINS, M. D., Marietta, Ohio.

Having now used the remedy for four years in my practice, I feel *wholly* on it for the cure of almost all female complaints.

With many regards for yourself, I remain yours

H. P. BENNETT, M. D., Cincinnatus, N. Y.

Thus far, it has given entire satisfaction in all cases where it has been used, and I do not hesitate to recommend it to every case for which it is designed. I consider it an invaluable medicine, and suffer should know of it.

L. BROWNE, M. D., Claremont, N. H.

I am prescribed, after trying it in a great many cases, that it surpasses all other remedies within my knowledge for that class of difficulties for which it is recommended. It has proved to me very extreme cases under my observation, which have resisted all other treatment.

L. D. LEGG, M. D.,
Avon Springs, N. Y., (late of Rochester.)

* * * I would be glad to have further supply, as the medicine is becoming very popular, and I think will continue, as it has given relief in every instance where it has been used.

THOMAS NEWMAN, M. D.,
Mount Vernon, Indiana.

The Catholicon is doing good service here. All the patients that have tried the medicine have been so delighted that one patient, who is a widow, will begin.

W. M. LAIRD HAZLETT, M. D.
New-Philadelphia, Ohio.

The claims of this medicine to the confidence of the public are strengthened by the fact of its having received the approbation and liberal patronage of many prominent members of the Medical Faculty in the United States, some of whom have voluntarily given letters of commendation, (see pamphlet,) containing all that is claimed not as a secret remedy.

Pamphlets containing much useful information touching the nature and symptoms of the complaint, (whether it be contracted from ladies of the highest respectability, as certified by the most distinguished physicians, or from the infirmities of ladies and females here is respectfully invited to the Catholicon, which is put up in the most elegant style and best workmanship.

SINGER'S SEWING MACHINES.

THESE Celebrated Machines are in practical and profitable use in all parts of the civilized world. All the various fabrics, and for every kind of fabric, either of cloth or leather, they have been fully tried and approved. Sewing Machines of other manufacturers have failed to work, but the SINGER'S MACHINES ALWAYS OPERATE PERFECTLY, being strong, durable and complete in every respect. Instead of being a fatiguing machine, kept employed affords a clear profit of $1,000 a year; but an imperfect one is a cause of constant vexatious and loss. The superiority of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING, of a fail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, but not to do useful work. The truth is, family sewing machines ought to be strong and durable, because they go to lose skillful hands than those sold to manufacturers, and are used for a greater variety of work. The machines made by Singer, for family purposes must be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

If New machines of the latest improved style will be exchanged for old machines of Singer's Manufacture, or any other make, or for operative machines of other manufacturers. Local agents want and will be well supplied.

N. B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I. M. Singer & Co.'s Gazette," sent per demand entirely to the subject. It will be sent gratis.
