Marriages and Deaths inserted without charge; when the latter is accompanied by obituary notices, and tributes of respect, $1 will be charged for less lines or less, and 10 cents for each additional line.

Payment for advertisements due when they are left for insertion; and PAY IN ADVANCE is required unless specially agreed to to be credited. Regular annual advertisers to pay half yearly in advance.

All loaded and displayed advertisements, and those with cuts larger than five lines in width, to be charged *extra*.

"God of News from Home"

A more pathetic song than the following has never been sung by minstrel, or swelled the throat of human songster:

Good news from home, good news for me,
Has come across the deep blue sea,
From friends that I have left to love,
From friends that I have not seen for years;
And since we parted, long ago,
My life has been one scene of woe:
But now a joyful hour has come,
For I have heard good news from home.

No father's near to guide me now,
No mother's love to soothe my brow,
No brother's voice to give me cheer;
But though I wander far away,
My heart is full of joy to-day,
My friends across the ocean foam,
Have sent to me good news from home.

When shall I see that cottage door,
Where I've spent years of joy before!
I'was then I knew no grief or care—
My heart was always happy there;
Though I may never see it more,
Around upon my native shore;
Where'er on earth I'm doomed to roam,
My heart will always cling to home.

The Difference in Men.

We witnessed a scene yesterday morning in coming through the market, which illustrated forcibly the difference in men. The market was pretty well crowded, as usual at the hour of eight o'clock. Among the purchasers was a woman, whose scant dress of common fabric, well-worn shawl, and cheap bonnet, showed her poverty; while hard, brown hands, and care-worn face were a sure indication of the toil with which she gained all the comforts of her life. She was buying liberally, but at the same time of the most nourishing and economical food, and it was plain that the many months she hoped to feed were not filled with useless luxuries. She fidgeted buying, and searched in her sleeve for the money she had tucked in there, with which to pay. It was not there. The distressed woman thrust her hands into her bosom, her pocket, her shoe, where she sometimes no doubt made deposits, but closed the search with another examination of the sleeve. In vain; the money was gone; before her lay her wholesome and savory purchases; her children were waiting for her at home; the food provided for several days would have to be relinquished; it was too much for her to bear quietly, and she burst into sobs as she wandered around the stand, revealing her loss in various ways and looking for the money upon the floor.

"Have you dropped a bill?" inquired a gentleman near her; "I saw one of those men in that group pick one up just now."

"Oh yes Sir; I have lost all my money; which one of them, sir, picked it up?"

"I could not say certainly which one, but one of them did, and no one has gone out since, so whoever it was, is here now."

The woman moved toward the group in hopes that she could tell by some power of divination who had her money, but she could not; at every boy she saw making purchases, she began to sob again and wring her hands. The gentleman who had directed her there went after her, and said in the hearing of all, "This poor woman has dropped a bill, and I saw some one that came into this group pick one up, probably the arm. I hope whoever it was will have the honesty and humanity to return it to her."

"It was not I!" "nor I!" said one after another until all had spoken but one, and all eyes turned upon him.

"Well I pick!" said the first speaker, of that man.

"I—picker—up—a paper—just now—that I dropped myself!" said he, at first hesitingly, "and the more I apologize, and pretend to grow angry at the suspicious looks resting upon him.

"O, Dear! what shall I do!" sobbed the distressed woman, wringing her hands. "My children must beg or starve, for 'twas all I had. O, Dear! O, Dear!" and she started for her home in despair, where a moment before she expected to go with so much gladness. Everybody in the market but the man that had "picked up the paper" was moved with sympathy as she went to and the door.

"Here!" called out the first speaker, again, "come back my good woman—you are not going home sobbing in that way. How much money did you lose?"

"O, Dear! 'twas two dollars, sir."

"Two dollars. Well, now, that isn't worth crying for."

"Indeed, it isn't sir, I'm didn't take me so long to earn it sometimes; and what will we do for victuals?"

"Well, well, don't cry any more; here is two dollars; go take your things home with you. Stop, stop—one of those men has it, I know; I believe your two dollars is in this house now, and we does every one around me. One man, at least; knows it is here; and may it prove a curse to him."

A curse. Yes it will, indeed. The man who picked up that poor widow's money and withheld it against all her pleading distress, is one of those who sow the wind and shall reap the whirlwind, while the other belongs to those who cast bread upon the waters.

A veritable 'knick knack', (so says 'Armosick,') occurred at a recent camp-meeting, at Porchester, N. Y., which is well worth a place in the Editor's Table of the Knickerbocker Magazine. One afternoon during religious services, and while a 'preacher' was in full blast in the middle of an exhortation, a plump middle aged 'brother' stepped up to the 'stand' or pulpit, and after telling the preacher to 'stand up' for a moment, he made the following announcement, in a clear, ringing tone, but with the usual Methodist twang: "I'll give Sixpence! is in tent No. 45, and if brother Roberts is on the ground, she wants the key of her trunk!"—Brother Roberts immediately arose and proceeded to the tent; a loud shouting and the preacher resumed his exhortation, as if nothing unusual had happened.—*Knickerbocker Magazine.*

FIVE WORDS IN SEASON.—About two centuries and a half ago the Legislature of Scotland enacted that "A GOOD AND SUFFICIENT SCHOOL" should be erected and maintained in every parish. To these five words, "a good and sufficient school," introduced into an act of Parliament not larger than a man's thumb, is Scotland indebted at this day for nearly every solid glory she possesses.

A DESIRABLE CHARGE.—In view of several munificent gifts for Agricultural purposes, recently made in the Old Dominion, the Richmond *Dispatch* says:

"The 'First Families' have abandoned the sober contemplation of their own 'blood,' and are looking to the improvement of their horses and stock, and soon F. F. V., instead of being a subject to be laughed at, will be a little worthy any man's ambition, as it will mean *First-rate Virginia Farmer.*"

BEDINGER, McCORMICK'S & FALLS,

CELEBRATED

Premium Churn.

(Patented by Jacob Boyer in 1855.)

The Simplicity of its Construction, Ease of Operation, and the best-ever invented for making Butter with

EASE AND SPEED.

Every one WARRANTED to be what it is represented.

We do not present this to the people of Kentucky merely as a good Churn—for the best experience prove that quick-made butter is not the best, and is also not thorough-work. Much of the battery matter is not extracted from the milk. This Churn, when used as it was at exactly the right temperature, has made butter in *five minutes!* The time usually occupied is about 15 minutes—quite fast enough for any reasonable purpose.

The Churn is very simple, and can be readily worked by a child of ten years old.

We will sell Rights to make and vend this Churn in any County in Kentucky, for from $50 to $300 each, according to the wealth of the County. All orders for Rights or for single Churns should be addressed to

BEDINGER, McCORMICK & FALLS,

April 15, 1856. Maysville Ky.

GREAT INVENTION!

BEDINGER, McCORMICK & FALLS,

HAVE purchased Caleb H. Williams' (assignee of Joel R. Bonsall) Patent (Reissue) patent for improvement in Double Acting Force and Lift PUMP, for the State of Kentucky.

The Pump has the rolling or ball valve. Some of the advantages that this Pump possesses over all others are—Exemption from friction; non-liability to color; requisite weight; simplicity; facilities of repair or inspection; and durability.

By a simple but ingenious device, a single ball valve is made to serve both discharge openings of a Double Acting Lift and Force Pump. The action of the ball valve serves to keep the Pump always primed and to keep a constant flow of water. There are no screws or bolts about the valve to get out of order, and they are rapid and manner in which it can be taken apart and put together, in case of repair or accident, make it superior to all others in this respect.

It is a plain, substantial, cast-iron pump—with very little work in its construction, cheap and durable—and will throw water well many feet, and throw it as high if not higher than any other Pump now in use. It is because of its freedom from friction, that its working is so remarkably easy in using. It is adapted to any kind of machinery, for cold or hot water, oils, &c., and for family purposes; is both a Pump to supply water and at the same time a Fire Engine, and can be converted from one into the other in an instant. Is warranted to stand the test of time as well as any. They are made of sizes from two inches to twelve inches in diameter, and will throw from four to ten thousand gallons of water per minute.

It is the intention of Bedinger, McCormick & Fallis to supply all orders that may be made on them for Rights, and to warrant all furnished to perform as represented. These will be sold RIGHTS OF COUNTIES, if such offers shall be made as will compensate them for their outlay. They have put a very large number of pumps for the past; believing it to be superior to all other Pumps ever invented, and the very thing for the whole country, for family use and all for machinery requiring the largest amount of water. They intend to introduce the Pump to the notice of the people of each County in the State of Kentucky.

Stands in Kentucky Flour.

We learn from the Cincinnati *Gazette* that the question with reference to short weight in Flour is likely to be agitated again. It appears that a large proportion of the Ohio and Kentucky Flour shipped to Baltimore has been found to fall short in weight, or in other words, and more properly speaking, fraudulently tared. This is a species of imposition that has been practiced upon consumers for years, and, like all other frauds, it has increased with time, and now has become an evil of great magnitude. We are therefore pleased to find that stringent measures have been adopted in Baltimore to detect and punish frauds of this character, that will lead to action here that will prevent such practices.

The following is an extract from a private letter from Baltimore, dated 13th instant, to a Cincinnati merchant, on this subject:

"It is important that we should advise you that our inspectors, during the past week, have determined rigidly to enforce the inspection laws on Ohio and Kentucky flour, requiring the actual tare of barrels properly cut, or marked upon each, that fraud, if any, may be detected, and when detected, the fine is extremely heavy. It would be well to give this publicity early as practicable, as most of the flour comes tared, and upon examination heavy deficiencies of flour have been found in several brands."

Another letter states that barrels tared eighteen pounds, weighed, when tested, from *twenty-six to thirty pounds.*

The law of Kentucky is tolerably severe upon this kind of fraud, and it is well for all millers to know the law. The Revised Statutes state what shall be merchantable flour, how packed, &c., but do not positively require inspection, although they provide for it when requested by the buyer and seller. Any deficiency in weight is liable ten cents per pound for fifty or less pounds, and twenty cents per pound for all over three. Whosoever shall sell or offer to sell any barrel or package of flour, knowing the same not to be of the weight required by law, or that is marked or branded thereon, shall be fined $10 for each barrel or package so sold or offered for sale.

Mr. Enyeon—You will please announce James T. Little as a candidate for *City Marshal*, at the ensuing January election.

☞ We are authorized to announce Frank. McCleanahan, as a candidate for *City Collector*, at the ensuing January election.

The diabolism in Baltimore still continues. On Thursday evening, James Dengle, an inoffensive and good citizen, was coolly shot on the street—the ball penetrating to the brain. The assassin was arrested and lodged in the watch-house.

The Mayor of Augusta, Ga., has appointed twenty three delegates from that city to the Southern Commercial Convention to be held in Savannah on the 8th of the next month.

Among the latest contributions from the East, for the Free State people of Kansas, we notice chronicled a donation of woolen underguarments, *knitted by a blind lady 85 years old.*

The whole number of literary work published in Russia, during the year 1856 was 1,200.

☞ We are authorized to announce Robert McNeely as a candidate for re-election as *Wharf Master* of the City of Maysville, at the ensuing election.

The Lake Superior *Journal*, published at Marquette, Mich., is published weekly in summer, but only monthly in winter. It is too cold up there in winter to read, not to say anything about setting type, or working hand presses.

In Watertown, Ct., at the late election, every voter in the town was at the polls, except three. One of these has a broken leg, and the other two were too unwell to move. There is patriotism worth studying.

A telegraph dispatch from New York reports that the notes of the Lancaster Bank of Pennsylvania have been thrown out. This, however, may not be caused by a failure of the bank. Notes are sometimes thrown out in that city for other reasons.

The Dry Goods import at New York is yet on the decline. The figures for last week were $889,633 against $1,200,601 for the corresponding week last year.

Killed in Nicaragua.—Among the Americans who are supposed to have perished in Nicaragua, while serving under Walker, is Major C. W. Wether of Boston, author of "Old Hicks the Guide," the "Gold Mines of the Gila," and other popular works. There is every reason to fear that he was killed by a band of stragglers.

The Reading Qualification.—It is said that 400 persons in Connecticut were disfranchised this month, by the new Constitutional provision requiring that they should know how to read and write in order to vote. There are few, if any other States of the Union, that should the same rule be made universal, would show so small a population of ignorant men.

Minnesota—The St. Paul *Pioneer* of the 6th instant, gives a list of the members elected to the Legislature of that Territory, from which it appears that both branches are Democratic. The Council (Senate) stands—6 Democrats to 5 Republicans; the House, 19 Democrats to 15 Republicans, and 4 Independent.

Kentucky.

We publish below the official vote from 95 counties in this State and the estimated vote or majorities in the remaining 9 counties. We have the telegraphed vote in Frankfort, but the full official returns are not yet received there.—The vote in Louisville will probably be less than 7,200, and may possibly not exceed 7,000—the least 9,200 last year, and 8,000 in 1854.

33d Congress.

The Senate of the United States that will meet and organize on the 4th of March next, will probably stand as follows:

Buchanan members	37
Opposition	23
Uncertain	2

Total 62, and a clear Democratic Administration majority of 12 or 14.

The Senate has been Democratic for a number of years past, and the hope that the Republican party of the North cherished so fondly, of an anti administration majority in 1859, seems now likely to be greatly disappointed. The recent elections have rendered it almost certain that the friends of Buchanan will have large enough majority in both houses for all practical purposes.

The House of Representatives of the (New or) Thirty-fifth Congress will be about as follows: Buchanan 123, opposition 102; probably Democratic majority 28. The figures may vary a little from the above, but a fair working majority must be conceded to the Democrats. There have been already chosen to the 35th Congress 66 Democrats and 86 opposition, giving the latter 20 majority.

Elections are yet to be held in Alabama, Georgia, Louisiana, Mississippi, North Carolina, Tennessee, Texas, and Virginia—all probably Democratic; in Kentucky and Maryland, partly Democratic; while Rhode Island, New Hampshire, and Connecticut will probably elect opposition members. From the above named States in the 34th Congress, there are 43 Democrats and 39 opposition; present majority for the former 4.

The Hog Market.

At Louisville on Tuesday, the 18th, the prevailing rates were $5.50@5.75 net—the outside prices usually paid by packhouse owners to secure the killing. The market was steady at these figures, as but few had come in.

Pork shows 2,000 had been killed up to Monday, 20th, inclusive, and in noticing the market, remarks that "during the summer contracts were made at figures which cannot now be obtained. The heavy stocks of old provisions on hand, in the West as well as in the East, and the dullness of the European market, which have been so much overstocked that purchases made here by the French Government last fall for the use of her army have been actually returned to her a market in this country, have thrown a damper on prices.—Last year the markets were down here of stock, with a war in Europe when the season commenced; this year they are overstocked.—Competition last year ran prices up to a high figure, and most of the operators suffered. Experience has taught them a lesson. Packers here as well as at other places are determined not to be allured again in that way."

The Cincinnati *Gazette* of Tuesday says that Hogs sold on the day previous, at from $5.65 to $5.80—$5.75 the leading price. The market has not yet assumed a firm tone, packers being indisposed to operate, owing to the dullness and low prices of products. Green Meats sold to a limited extent at 4½, 6½ and 7½ for Shoulders, Sides and Hams. Some drovers are packing hogs in preference to selling at present prices. Beef Cattle are in fair demand at prices ranging from $5 to $6.50 per 100 lbs net, for packing qualities.

The Richmond (Ky.) *Messenger* says:

The price at which our farmers have sold their hogs, the fall, has generally been $4.50 per hundred gross weight. A few lots of large hogs have been sold at $4.62. They have been, as heretofore, chiefly bought for the Ohio River market, although more have crossed the mountains for the South than were driven there last fall.

The *Tribune* says that the Bank of the Republic at Providence, the failure of which was announced a few weeks since, appears to be a bad wreck.

The Columbus (Ga.) *Enquirer* states that an investigation of affairs of the suspended Manufacturers' and Mechanics' Bank was made last week by a receiver appointed for that purpose, and that the resources available for the redemption of its liabilities were found to be very scant. It is said that the amount outstanding is about $20,000. Some sales of its paper has been made as low as 25 cents on the dollar.

The Democrats and the Clergy — The Clergy are undergoing insults at the hands of the Buchaniers. A correspondent of the *Boston Journal* says that on the morning after the late election, several young Democratic politicians of Dover, N. H., called up the Rev. E. Hutchings from his bed, and attempted to insult him by giving cheers for Buchanan, and by shouting "freedom shrieker," "political priests," &c. They after words called at the residence of Rev. J. M. Durgin, and gave "three cheers for old Durgin."

A "No Nothing."—A chap applied at a police station in Boston for lodgings on Saturday night, who elucidated the question of parentage in this way: "You see, Cap'n, first my father married, and then my mother married agin, and then my mother died and my father married agin, and somehow or other I don't seem to have no parents at all, nor no home or no nothing."

Mormon Propagandism in England.—English papers state that the Mormons are making many converts in that country, by exaggerated pictures of life in Utah. They now openly teach their doctrines of polygamy, but it seems no impediment to converts from the fair sex. The annual emigration of converts is about eight thousand.

Ancestry of the English Peerage.—An extract of the English printed peerage shows that out of 249 noblemen, the number of 35 claim to having traced their descent beyond the conquest; 49 prior to the year 1066; 29 prior to the year 1200; 32 prior to the year 1300; 26 prior to the year 1400; 17 prior to the year 1500; 26 prior to the year 1600; and 30 but little prior to the year 1700.

Importation of Scythian.—The New York *Spirit of the Times* notices the arrival of this great English race-horse, and says:—"R. A. Alexander, of Woodford co., Ky., has purchased the celebrated horse Scythian, by Orlando, brother of the Derby (by Touchstone) one of the best stallions England ever produced, whose pedigree and performances are well known in the sporting world. He was winner of the following prizes:—Newmarket Stakes, £350; Dee Stakes, £750; Goodwood Stakes, £950; the Newmarket Royal Stakes, £1,240; the Chester Cup, £2,775; Stockton, £530; Goodwood, £539. This valuable horse for which Mr. Alexander gave 1,500 guineas, was brought here under the charge of Mr. Beck, and is consigned through the Messrs. Tattersall."

Hon. John Appleton, of Maine, who was with Mr. Buchanan while Minister at the Court of St. James, is rumored to be the man likely to succeed Judge Nicholson in editing the Washington *Union*.

Total Eclipses for the next Fifty Years.—Calculations have been made at the Observatory of Paris, that from the present time to the nineteenth century there will be only six total eclipses of the sun, not one of which will be visible in France, viz: In 1860, in 1861, in 1870, in 1887, in 1896, and 1900; so that from the year 1000 to 1900 there will have been 225 eclipses of the sun, with only one total for Paris, on Aug. 12, 1824.

The Freemoters of New Hampshire had an excellent organization, and ascertained with a very near approach to accuracy, some days before the election, how the vote would stand. Here is their estimate:

Whole number of votes for Fremont	37,542
" " " for Buchanan	30,236
" " " doubtful votes	3,188
	70,196
Whole number of votes	
And here is the actual vote:	
Whole number of votes for Fremont	38,068
" " " for Buchanan	32,210
" " " for Fillmore	281
	70,679
Whole number of votes	

Intoxicating Cows in Barnstable Land.—It has been generally supposed hitherto, that there was no liability on the part of a Note Broker to any person to whom he sells forged paper—that the broker is merely the medium of communication between the holder or seller of the paper and the buyer—and that no guarantee of genuineness is given by such broker. This view was generally entertained, both in this country and England, until the recent case against Gurney, the celebrated bill broker in London, tried in the Court of Queen's Bench, in which it was decided by Lord Campbell, "that the vendor of a bill of exchange, *though no party to the bill*, is responsible for its genuineness, and if it turns out that the money of any of the parties to it are forged, he is responsible to the vendees."

The defendants in that case were bill brokers, who received the bill to be discounted, and took it to the plaintiffs, who were money lenders. The defendants did not disclose their principals, and were themselves regarded as principals, the paper having been forged. A case of a similar kind was decided a few days since before the Superior Court of Baltimore city. Mr. William Fisher, a note broker, negotiated a promissory note, which afterwards proved a forgery, for $861; and upon discovery of the fraud, Messrs. H. Reisen & Sons, the purchasers, claimed the amount of Mr. F. Upon a trial of the case before Judge Lee, of the Superior Court, he instructed the Jury to the effect:

"That if they had from the evidence that the defendant sold to the plaintiffs, the paper offered in evidence by the plaintiffs, purporting to be the promissory note of Edward Dunn, in favor of and endorsed by J. P. Kridler, and also purporting to be endorsed by Henry Shirk; and if they further find that the names of Edward Dunn and Henry Shirk as drawer and endorser of said notes were forgeries, that then the plaintiffs are entitled to recover such sum as they may find the defendant acted as an agent in said sale, unless they also find that the defendant at the time of such sale disclosed the name of the person or persons for whom he acted as agent in such transactions."

A verdict was rendered for the plaintiffs accordingly. This is a very important case as a precedent and should be duly considered both by brokers and bankers.

Diabolical Cruelty among the Chinese.—The *Chinese Repository* tells of a strange kind of death punishment which was inflicted on a Chinese criminal who had committed a dreadful murder. He was wound with cotton, saturated with tallow, places being left for him to breathe. He was then dipped like a monster candle, until he presented a mass of tallow. In this way he was stuck up on his father's grave, lighted, and kept burning until his body was consumed by slow degrees.

The Philadelphia *North American* notices the singular fact that, while most of the commercial cities of the North have given Buchanan large pluralities at the recent election, the Southern cities have nearly all voted tremendously against Buchanan.

W. F. Randolph, an old and respected farmer of Logan county, Ohio, committed suicide on the 12th inst. by hanging himself to his wagon-shed. A scrap of paper pinned to his breast, stated that "he was prompted to commit suicide by a wicked heart."

The next Legislature of Delaware, in which there will be a majority of Democrats, will elect two U. S. Senators—one in place of Mr. Bayard, a Democrat, whose term expires on the 4th of March next, and the other to supply the vacancy caused by the death of Mr. Clayton.

To be Executed.—John Conly, convicted at the last term of the Garrard Circuit Court for the murder of Stephen G. Spratt, in the postoffice in Lancaster, on the 6th day of August, 1855, will be hung in Garrard county on the 21st of this month.

The late mail from California brought back Mr. Buchanan's Pacific Railroad letter. The letter was written so that it might be published in California in time to influence the election there, but too late for its return to the Atlantic States before the election. This is one of the tricks of the campaign, which is anything but creditable to a candidate for the Presidency of the United States.

The Providence *Journal* shrewdly remarks:—"We have known Democratic Presidents to turn out worse than they promised; but we never knew one of them to turn out better.—We do not expect to find the first example in Mr. Buchanan.

It is estimated that over $150,000 worth of property was destroyed by the recent gale on Lake Ontario. Twenty or thirty vessels have received more or less damage.

Wheat.—It is stated that 500,000 bushels of wheat have accumulated within the last sixty days at Milwaukee and its neighborhood.

The Oyster Trade of Baltimore.—Strangers have little idea of the extent of the oyster trade in the Monumental city. There are now upwards of three hundred vessels employed in the trade, and it is calculated that they bring weekly to the city upwards of 100,000 bushels, the larger portion of which are shipped to the West within twenty-four hours after their arrival. A single one of the establishments shells, packs and ships 4,000 bushels per day or more than 1,080,000 bushels per year, excluding the three months in which the law prohibits their being brought to the city. During the same time upwards of 400,000 bushels of lime are burned. There are a large number of establishments engaged in the various modes of preserving the bivalves for transportation, and the whole trade far exceeds $2,000,000 per year.

John M. Clayton, U. S. Senator from Delaware, recently deceased, was elected to the Senate three times—first from 1829 to 1837, secondly from 1845 to 1851, and the last time for the term beginning March 4, 1853, which would not expire until March 3, 1859.

The Arctic Exploration.—The demand for Dr. Kane's Arctic Exploration, it is stated, has been so great that the publishers have been unable until the present week to supply the booksellers. Twenty five thousand subscribers have received it. The booksellers have been run down by demands for it. Lippincott & Co., of Philadelphia, Ledger agents, have ordered copies to the amount of $20,000; and Phillips, Sampson & Co., of Boston, to the amount of $35,000.

From the Louisville Journal.

The Americans in most of the cases in Kentucky where the Democratic party is in the minority have nobly conducted themselves in the recent contest. Their steadfast adherence to principle in the midst of violent and, in many instances, very large Democratic majorities is worthy of great admiration. They have bravely stood their ground and have even given a large vote for Fillmore than was given in Morehead, and have only lost ground where the peculiar facilities of the Democracy in possessing unaspected means of obtaining an increase of votes.

We give the following examples of the steadfastness of Americans in counties in which there were large Democratic majorities last year. It will be seen that the falling off in the American vote has been very slight, and, in many cases, that vote has been largely increased, as in Clay, Fulton, and Hickman counties. The table includes the vote for Morehead last year, the vote for Fillmore, and the increase of the Democratic vote in the November election over the vote for Clark last year:

	Morehead.	Fillmore.	Dem. inc.
Adair,	431	455	91
Caldwell,	436	465	59
Calloway,	585	306	229
Clay,	308	431	
Clinton,	286	261	
Crittenden,	450	506	50
Edmondson,	188	161	31
Fulton,	198	340	123
Hancock,	416	425	56
Hickman,	173	244	115
Johnson,	36	16	103
Kenton,	1278	1246	351
Lyon,	255	253	88
Marion,	433	418	
Marshall,	104	104	200
Nelson,	819	793	15
Owen,	575	554	206
Owsley,	319	393	
Powell,	159	167	
Simpson,	437	427	4
Trigg,	504	501	131
Trimble,	275	275	95
Union,	694	653	156
Washington,	467	441	95

In Clay county the American vote was increased 113 and the Democratic vote decreased 111, showing that the increase of the American vote was taken from the Democrats. The American of Marshall, Owen, and Trimble counties are a truly gallant band. They have given precisely the same vote for Fillmore as for Morehead, and there can be no doubt that the poll books will show that there has been scarcely a single change from the American party in these counties since last year. The Americans of Marshall county deserve the highest meed of honor for their unflinching devotion to their principles, for the majority against them is nearly two to one. An examination of the returns shows that the Democrats in Clay Kentucky has stood firm. There has been no abandonment of their principles. They are still staunch and unswerving in their devotion to the cause of the Union, and have not lost the victory by the unfair means employed by their opponents.

The case of several members of the General Council against Mr. Kean, of the Louisville Hotel, came up before the Jefferson Circuit Court, yesterday. This case grew out of the *mandamus* issued from the Circuit Court on application of M. Kean, directing the city Council to grant a license to him. The Council refused to grant a license, and members who voted against the granting of license were arrested and imprisoned for contempt of Court. These members brought suit against Mr. Kean for false imprisonment, laying their damages at $50,000.

W. W. *Fry, Esq.*, presided in the case. On the calling of the cause, the counsel for defendant moved a demurrer, on the ground that there was no just cause for libel. The motion was argued by Messrs. Caldwell and Speed for defendants, and Messrs. Riley and Muir for Plaintiffs. The Court then sustained the demurrer. We understand that the plaintiffs will take an appeal.—*Louisville Courier.*

Novel Arrest.—Many of our citizens have doubtless seen a hand-bill circulated, signed by Miss Eliza Cammel, which reflects severely on several well-known citizens. On application of the city attorney a warrant was issued for her arrest, on the ground that the hand bill contained libellous matter, which was calculated to disturb the peace of the Commonwealth. The warrant was placed in the hands of Deputy Marshal Badgett, who met Miss Cammel on Walnut street last evening. Having introduced himself, Mr. B. informed Miss C. of his errand, and by her request read the warrant to her. He then invited her to take a seat in his buggy, which she readily acceded to. Mr. B., by request of Miss Cammel, drove to the house of several of her friends to inform them of her arrest, and then to jail.

Mr. Henry Thomas, assistant jailor, and a widower in his prime, received Miss Cammel very courteously, and with his usual gallantry placed in rooms at her disposal and entertained her until the judge, clerk, and her friends should come. These gentlemen soon arrived, and Miss C. having entered the required bond for her appearance this morning she left for her hotel.—*Louisville Journal.*

A Cut from a Mule.

San Marcus, Texas, Oct. 7, 1856.

I have a mule that I raised, three years old in June last, that now has a cut by her side. Please say what I must call it. Its ears are not like the mule nor the horse. In other respects it resembles the mule. It any one disputes it, I have the mule and her colt in my lot; the doubting Thomases can see for themselves.

Very respectfully, your friend,

John D. Pitts.

NOTICE.

Have lost or had stolen from me a Land Warrant, No. 65,901, Bounty Land Warrant, issued under an Act of March 3, 1855, in favor of Nancy Baker, widow of Capt. John Baker. All persons are hereby warned from using or trading for said Warrant, as I have filed a caveat in the Land Office at Washington City, and petitioned for a duplicate of the same in place of the original. Any information in regard to the missing Warrant will be thankfully received and liberally paid for.

LIVER COMPLAINT, DYSPEPSIA, JAUNDICE, *Chronic or Nervous Debility, Diseases of the Kidneys, and all diseases arising from a Disordered Liver or Stomach.*

Such as

Constipation, Inward Piles, Fullness of Blood in the Head, Acidity on the Stomach, Nausea, Heartburn, Disgust for Food, Fullness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried and difficult Breathing, Fluttering at the Heart, Choking Suffocating Sensations when in a lying posture; Dimness of Vision, Dots or webs before the Sight; Fever and Dull pain in the Head; Deficiency of Perspiration, Yellowness of the Skin, and Eyes, Pain in the Side, Back, Chest, Limbs, &c., Sudden Flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil and great Depression of Spirits.

The proprietor, in calling the attention of the public to the preparation, does so with a feeling of the utmost confidence in its virtues and adaptation to the diseases for which it is recommended.

It is no new and untried nostrum, but one that has stood the test of a ten years' trial before the American people, and its reputation and sale is universal; by any standard of comparison extent. The testimony in its favor given by the most prominent and well-known Physicians and individuals in all parts of the country is immense, and a careful perusal of the Almanac published annually by the proprietors, and to be had gratis of any of his Agents, cannot but satisfy the most incredulous of the efficacy of this really deserving the great celebrity it has obtained.

KENTUCKY TESTIMONY.

Great Cure of Dyspepsia.

C. G. Masson, Merchant, says:

Simpsonville, Shelby county, Ky., March 30th, 1855.—"The German Bitters give general satisfaction, and I herewith hand you a certificate of Mr. Morton Berkley, a respectable farmer of this County."

Simpsonville, Ky., March 30, 1855—Dear Sir: "I would inform you that I have been afflicted for several years with Dyspepsia in very aggravated form, for which I used Sarsaparilla, and various other remedies, without obtaining any relief. From the various testimonials in favor of your German Bitters, I was induced to try them, and I now state with pleasure, that through their aid I am enjoying better health than I have done for years past, and cheerfully recommend the Bitters to all afflicted with that terrible disease."

Respectfully, yours, MORTON BERKLEY.

To Dr. C. M. Jackson.

M. H. Pico & Co. say:

Layrel, Ky., August 3, 1854—"The Bitters are all the rage in this neighborhood, and we people think there is nothing that could be found equal to them."

Nelson & Edwards said:

Salvisa, Ky., June 2d, 1851—"We rejoice to inform you that this justly celebrated medicine has fully maintained the unsolicited recommend which has been given it, and having tested its virtues, we gave it strongly as it eminently deserves it."

James Wallace said:

Yanceburg, Ky., September 16, 1852—"I have used two bottles of your German Bitters in my family, and am very well pleased with them."

Jesse Grant said:

Iaviz, Ky., June 25, 1851—"We have succeeded in introducing your Hoofland Bitters: physicians and others purchase them by the half dozen and dozen."

J. T. & J. W. Bizzat said:

Uniontown, Ky., April 21, 1852—"We have heard of many cures performed by the use of Dr. Hoofland's German Bitters, and believe it to be a valuable medicine."

Isaac Morton said:

Hartford, Ky., July 10, 1852—"I believe your German Bitters to be a valuable medicine. It gives good satisfaction."

They are entirely vegetable, free from all injurious ingredients, *always strengthening*, and never prostrating the system.

BY TELEGRAPH.

Andrew Jackson Davis, Lecturer.

New Orleans, Nov. 17.

The steamer *Texas*, from San Juan via Key West, has arrived.

The *Texas* brings 600 passengers and $8,370,000 in specie. Among her passengers is Colonel Wheeler, returning to the new Nicaragua Minister to Washington.

She also brings Mr. Wheeler, the American Minister to Nicaragua, and Col. Fabens, a member of Congress from Texas, Gen. Walker.

The dates from Grenada, brought by the *Texas* are to the last inst. Matters in Nicaragua had been quiet since the battle of Masaya. Walker was awaiting the arrival of expected recruits before marching again upon Masaya and Leon.

Gen. Henningsen, who succeeded Gerceva, was drilling the army in the use of mountain howitzers and Minie rifles.

The whole army now numbers 3,000 men, and they are all in good spirits, and eager for engagement with the enemy.

It was thought that a decisive battle would be fought about the 10th of November, at Masaya.

Advices from the mines are favorable. A new silver vein has been opened, and extensive copper mines have been found in the vicinity of Leon.

A topographic and geographical survey of the State is to be commenced shortly under Prof. James T. Hodge.

Republican Meeting in Washington.

Washington, Nov. 16.

A meeting of the Republican Association of this city was held last night. Resolutions were unanimously passed for the continuation of their organization on the principles of their platform and those of the Philadelphia Convention.

A Committee was appointed to draft an address and resolutions of a congratulatory character to the friends of Freemont and freedom, and urging upon them the importance of keeping up their local organizations.

Remarks were made inclusive of Col Fremont, and expressive of gratification at the result of the election in the free States; but the association deemed it at the time injudicious to make any Presidential nominations for 1860.

It appeared by the secretary's record that the Washington Republican Association had published and circulated about 4,000,000 documents during the campaign, comprising eighty different kinds. Among which was 100,000 copies of Blair's letter; about 200,000 of Mr. Seward's speech; 218,000 of Mr. Sumner's Crime against Kansas; 143,000 soft soap of Cleaveland; 146,000 of Mr. Collax's speech, together with 165,000 of the Kansas Investigating Committee's report.

An Address on the Papal Throne.

Correspondence of the Evening Post

Rome, October 13, 1856.

The morning Colonel Hiram Fverson, of San Francisco, was fined one thousand piasters for cesting himself on the throne of the Pope.

From Washington.

Washington, November 17.

It is satisfactorily ascertained that whatever the Administration is contemplating relative to Panama and Aspinwall, no one can speculate upon the extent with any certainty and to the precise line of action which it proposes to take, except that the rights of our citizens individually, and the interests of our Government will be vigorously enforced and protected by means promising to be more effect ual than those heretofore employed.

The subject has proved embarrassing to the Administration, and occupied a large share of Executive deliberation.

Gen. Robert C. Eaton, formerly prominent in political circles, died this morning, aged 65 years.

Recounter with Indians.

New Orleans, November 17.

A party of four Americans, consisting of David Nichols, who is merchant in New York, Dr. F. B. Cabell, of Danville, Va., and Messrs. Collier and Kennedy, of St. Louis, were recently surrounded and attacked by a party of Mexican Comanches, about *one hundred and fifty miles North of Santa*, Mexico. Cabell killed one Indian who had slightly wounded him with an arrow. The remainder of the party escaped without injury.

The Lycoming Disaster.

Boston, November 17.

The bark *Adriatic* which was in collision with the steamer *Lycoming*, arrived at Gloucester on November 4th. The captain went immediately to Belfast, where he reported to the Belfast *Journal* that he had been run into by an unknown steamer, which passed on without stopping to render assistance.

Illinois Legislature.

Chicago, November 17.

The Illinois Legislature stands: Senate 13 Democrats, 12 Republicans. The presiding officer, Lt. Governor Wood, is Republican. House, 37 Democrats and 36 opposition; the latter consisting of 35 Republicans and 5 Americans.

Rising Sun, Indiana, November 17.

The steamer White Bluff, with a full load for Nashville, struck a snag above this place yesterday morning, and shortly after sunk on a bar opposite the town.

Baltimore, November 17.

Hon. Henry A. Wise arrived here last evening, and started at 9 o'clock this morning for Lancaster. It is presumed that he intends visiting Mr. Buchanan.

Rise at Three Rivers.

Montreal, November 17.

The rise at Three Rivers, on Saturday, broke out in North Shore street, and consumed fifty buildings, embracing half the business portion of the town. The loss will reach half a million.

New York, November 17.

The steamship *Fulton* sailed at noon to-day for Havana. She takes out nearly half a million in specie.

The Lancaster, Pa. Bank.

Lancaster, Pa., November 17.

The run upon the Lancaster Bank has ceased. The Bank continues sound and firm.

Pittsburgh, November 17—P. M.

River twenty-five inches scant. Weather cool.

Cincinnati, Monday, Nov. 17—P. M.

Flour—The market, under the influence of large receipts and a fair shipping demand, opened very dull this morning, and sales could be effected to but very extent at more than $5. The only sale we hear was 340 bbls at $5.10, and 65 do at the same. The imports since Saturday, add up 4400 bbls.

The Illinois Central—750 bbls from river, wagons and railway, at 5¼, 600 do at 25, and 312 do at 24¼—indicating a further decline. Closing dull.

Bacon—The market was again rather heavy to-day, and holders were not disposed to sell at Saturday's decline. The sales amount to 100 at 5¾, 116 do at 5.29, 80 do at 5⅞, and 40 do at 5.50. Several drovers are packing on their own account in preference to sell up at these rates, but sales are inefficient, and expect a further decline, as the season for the 15th product is unusually limited.

Lard—A sale of 50 bbls, by wagon to refining purposes at 10c; demand limited and dull.

Grain Market—Sale of 600 Hams at 7¾c, 2500 do at 7¾c, and 500 Shoulders at 4¾c—indicating lower rates.

Corn—A sale of 75 bags at 11½c.

Molasses—A sale of 75 brls at 65c. Market steady.

Rosin—The demand continues moderate and the market firm. Sales of 60 bbls of common and low No. 1 at 1.60@1.62½c.

Whisky—The market is dull and prices declining—It would be difficult to effect sales of Red at more than $1.06@1.08c. White is very dull and prices nominal.

Corn—There is a moderate demand at 50c for Old and 45c for New.

Rye—The market for Rye is firm at 70@80c. Sales of 500 bush at the latter price.

Barley—The market is without change, and prices are nominal, $1.40@1.45 for Spring, and $1.60 for Fall. Sales 600 bush prime Fall at $1.50.

Oats—There is a continued good demand and light receipts. The market is firm at 30c.

Potatoes—The market exhibits no new feature. Prime white Mechannocks sell readily at 60@65c on arrival, and $1.50@1.60 from store.

Great Loss of Fire.

Hertville, N. C., Nov. 1, 1856.

Dr. C. M. Jackson—Dear Sir—Allow me to express to you my grateful thanks for your discovery of a medicine, which, to my the best of it, has effected a cure, that all other medicines that I have taken have entirely failed to do. I allude to your "Fever Bitters" *have cured me of the most stubborn and aggravated case of* FILES *that, perhaps, ever fell to the lot of man.* My case is well known in this community, as I am well known in this and the surrounding counties, and can truly say that my recovery has astonished all my friends and myself. I had tried everything recommended, and nothing did me any good until I was prevailed upon to try the bitters. You are at liberty to make use of this communication, for the benefit of the afflicted, as you may think proper.

Truly yours, WM. J. ATWOOD

DR. J. B. MARCHISI'S

CELEBRATED CATHOLICON,

For the Relief and Cure of Suffering Females.

It stands pre-eminent for its wonderful powers in the cure of those for which it is intended, namely—FEMALE COMPLAINTS. Of these are Prolapsus Uteri, or Falling of the Womb; Fluor Albus, or Whites; Chronic Inflammation and Ulceration of the Womb; Incidental Hemorrhage, or Flooding; Painful, Suppressed, and Irregular Menstruation; and their accompanying evils, (Cancer excepted,) no matter how severe or of how long standing.

This article has been introduced and sustained by empty puffs and misrepresentations, but is it intended that its present popularity shall be maintained by deceit, or rather let its merits and the approbation of the public.

REFERENCES.

The Medicine is now well known and appreciated, and will have a steady and increasing sale. I know of no preparation that can compare with it for the particular complaints for which it is designed. I am satisfied, by the use now making of it in my own family, and by numerous cases, of its evidence of its benefits to others, that it justly merits the warmest recommendations its best friends have given it.

E. B. PERKINS, M. D., Marietta, Ohio.

Having now used the remedy for four years in my practice, I rely solidly on it for the cure of almost all female diseases.

With many regrets for your powerful, I remain yours.

H. F. BENNETT, M. D., Canandaigua, N. Y.

Thus far, it has given entire satisfaction in all cases where it has been used, and I do not hesitate to recommend it in every case to which it is designed. I consider it an invaluable medicine, and sufferers should know of it.

L. BROWNE, M. D., Claremont, N. H.

I am persuaded, after trying it in a great many cases, that it surpasses all other remedies with my knowledge for that class of difficulties for which it is recommended. It has cured some very intractable cases under my observation, which have resisted all other treatment.

L. D. FLEMING, M. D.,

Avon Springs, N. Y., (late of Rochester)

* * * I would be glad to have a further supply, as the medicine is becoming very popular, and I wish to continue to use it, as I can rely in every instance where properly taken.

THOMAS NEWMAN, M. D.,

Mount Vernon, Indiana.

The Catholicon is doing good service here. All the patients that have tried the medicine have been benefitted but one—and that one nothing will help.

WM. LAIRD HAZLETT, M. D.,

New-Philadelphia, Ohio.

The claims of this medicine to the confidence of the public are strengthened by the fact of its having received the approbation and literal patronage of many prominent members of the Medical Faculty in the United States, some of whom have relinquished their own favorite preparations, (see pamphlet,) containing all that is claimed for it as a curative agent.

Pamphlets containing much useful information touching the nature and symptoms of the above diseases, together with testimonials from ladies of the highest respectability, are certified by the most satisfactory authority, to all which the attention of ladies and practitioners is respectfully invited, can be had gratis of the agents.

MAYSVILLE, SEMINARY.

THIS Institution under the supervision of J. W. Rankin & W. W. Rennick, will commence its 8th scholastic term on Monday, Sept. 1st, September next and continue to the last Friday in December 1857.

The course of instruction will embrace the English, Classical and Mathematical branches, with music and Painting and other ornamental branches.

There are two departments in the Institution, Male and Female, entirely distinct and separate, except in the Classical and Mathematics, Criticism, &c.

The Trustees have determined to open the door of a beautiful hill, commanding a view of one of the most lovely scenes on the Ohio.

The buildings are being fitted up in addition to secure comfort and convenience to the Pupils.

Residence of Mr. Rand, Principal of the Female Department, being contiguous to the Seminary Rooms, offers great advantages to young ladies residing in his family.

Mr. Richeson, Principal of the Male Department, resides one mile from the city and will receive youth young gentlemen as boarders, with any desire the quiet of a country school.

Price of tuition for the scholastic year, embracing all the branches taught in the Institution except Modern Language and ornamental branches. $40

FARM FOR SALE.

THE undersigned, believing it to be for the interest of herself and family to move West, has instructed me to offer for sale the Farm on which she lives, situated four miles from the Court House of Maysville, containing about 440 Acres, all under good cultivation, and well improved; fifty of which is bottom land, and the balance is 1½ miles from the Flemingsburg Pike, with a nail mile from the Plank Road, and so situated that it makes one of the best farms in the County, having the greatest quantity of Water both of Springs and Ponds, with plenty of good timber for house and other purposes.

The improvements consist of a good and comfortable Frame Dwelling, a new Barn and Stables, and good comfortable Cabins for Negroes, together with all other out-Buildings necessary on the premises, with a never-failing well of good water, a cistern and ice house, and from one to two hundred trees of the best grafted fruits in the country.

I will also sell a place belonging to the above described Farm, situated about one mile South-east and within a quarter of a mile of the Plank Road, known as the *Stewart Place*, containing 100 acres. Said place will be sold with or seperate from the above Farm, or with the 43 Acres of *Oak Land*, situated on the North Fork, which is a fine quantity of good timber, and within 2½ miles of the above mentioned Farm. Titles to all undoubtedly a General Warranties Deed will be given to the purchaser. Possession given to the Farm immediately, and to the Houses on or before the first day of January next. Terms of the Farm one-third to purchase will do well to call and examine for themselves. JAS. P. POYNTS.

SINGER'S SEWING MACHINES.

THESE Celebrated Machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather, they have been fully tried and proved. Sewing Machines of other manufactures often fail to work, but SINGER'S MACHINES ALWAYS OPERATE PERFECTLY, being strongly durable and unequaled in contrivance and workmanship. A perfect sewing machine, kept employed affords a clear profit of $100 a year; but an imperfect one is a source of constant vexation and loss. The entire reliability of our machines is our great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING, of a full and delicate construction, are recommended by other manufacturers as good, such machines are made to catch the eye, not to perform substantial work. Our truth is, family sewing machines ought to be stronger than any other, because they go fast, to less skilful hands than when sold to manufacturers, and need to be a great deal more durable. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of curiosities has lately been doubled. No other can compare with them in quantity of work.

A new machine of the latest improved style will be exchanged on liberal terms for old Sewing Machines of our own make, or for operative machines of other manufacturers. Local agents want no sell our machines.

N. B.—All persons desiring full information about sewing machines, can have it by applying for a copy of "I. M. Singer & Co.'s Gazette," a paper devoted entirely to the subject. It will be sent gratis. I. M. SINGER & CO.

CARTER'S SPANISH MIXTURE.

The Great Purifier of the Blood!

NOT A PARTICLE OF MERCURY IN IT.

Let the Afflicted Read and Ponder!

An Infallible Remedy for Scrofula, King's Evil, Rheumatism, obstinate Cutaneous Eruptions, Pimples or Pustules on the Face, Blotches, Boils, Ague and Fever, Chronic Sore Eyes, Ring Worm or Tetter, Scald Head, Enlargement and Pain of the Bones and Joints, Stubborn Ulcers, Syphilitic Disorders, Lumbago, Spinal Complaints, and all Diseases arising from an Injudicious Use of Mercury, Imprudence in Life, or Impurity of the Blood.

☞This great alterative medicine and Purifier of Blood is now used by thousands of grateful patients from all parts of the United States, who testify daily to its wonderful virtues, and consider it as much a blessing to mankind as the discovery of Jenner's Vaccine Lymph.

For all diseases of the Blood, nothing has yet been found to compare with it. It cleanses the system from all impurities, acts gently and kindly on the Liver and Digestive Organs, improves the Digestion, gives tone to the Stomach, makes the skin clear, healthy, and restores the Constitution, enfeebled by disease and broken down by the excesses of youth, to its pristine vigor and elasticity.

For the Ladies, it is incomparably better than all the cosmetics ever used. A few doses of Carter's Spanish Mixture will remove all sallowness of complexion, bring the roses blooming to the cheek, give elasticity to the step, and improve the appetite to a healthy and vigorous degree, beyond all the medicines ever heard of.

The large number of certificates which we have received from persons in all parts of the United States, is the best evidence that there is no Humbug about it. The press, hotel keepers, magistrates, physicians, and public men, well known to the community, all add their testimony to the wonderful effects of this GREAT BLOOD PURIFIER.

Call on the Agent and get a Circular and Almanac, and read the wonderful cures this truly great and valuable Medicine has performed.

None genuine unless signed W. M. S. BEERS & CO., Proprietors, No. 304 Broadway, New York City, to whom all orders for Medicine and agencies must be addressed. And for sale by
