FLOWERS.

They spring unnoticed and unknown,
Mid rocks and wild-wood glades,
They flourish mid the desert lone,
They deck the silent tomb,
They adorn the peasant's lowly cot,
Adorn the monarch's hall,
They fill each quiet shady spot—
Who can tell them all.

They bloom in virgin and in
Are there, in vernal beauty, spring,
Nurtured by the Deity Divine
Some mid the ocean's rolling waves
In silent grandeur grow,
Nor heed the storm which o'er them raves,
But still in beauty blow.

Some, where the eagle builds her nest,
Where man has never trod,
Where crag, the shaggy dare not rest
Upon the crumbling sod—
Yet, there, even there, will flow'rets grow,
In defiance of time array,
And o'er the chamrous eaglets throw
Their light and graceful sprays.

Mid mountains of perpetual snow,
By icy glaciers bound,
Some, rendered doubly beauties, glow,
And seek the frozen ground.
And mid cold winter's angry storm,
The snow-drop rears its head,
And shows its pure, unspotted form
When other flowers have fled.

Some on the bosoms of the night
Their grateful odors send:
While sisters, children, at the light,
To day their perfumes lend.
Some bloom beneath the torrid zone,
Neath India's sultry skies,
Mid Indiana's mountains, chill and lone,
The forms of them arise.

The stately fuchsia, the golden broom,
Perfume, fair and fabled,
All those in rich succession bloom,
And scent the summer air.
In sense full, by mortal vigil—
In spirit, in bright and gay—
Beneath the valley—on the hill—
Blooming over our sublime way!

Flowers image forth the boundless love
God bears his children all,
Which ever dropped from above
Upon the great and small.
Each blossom that adorns our path,
Be joyful and so fair,
A little drop of love divine,
That God will Nourished there.

Mr. Clay, Clayton and Webster.

In Blackwood M. Bates has written a letter correcting some errors which have crept into the biographical sketches of Hon. John M. Clayton. In the course of it he says:

Shortly after the election of Gen. Harrison, he paid a visit to Mr. Clay, at Ashland, where he invited Mr. Clay to take charge of the Department of State, which Mr. Clay promptly but respectfully declined. Gen Harrison then asked Mr. Clay who he would recommend as the most suitable person for that high post, to which Mr. Clay replied: That Mr. Webster's position before the country, and especially with the Whig party, entitled him to any place he might feel inclined to accept, and he thought he would be most suitable to him; and it was upon this recommendation that Gen. Harrison acted. It is proper to say that at the time Mr. Clay and Mr. Webster were not on friendly terms, and all intercourse between them was suspended, which arrest still further in illustrate the patriotism, the magnanimity and generosity which through life adorned the character of Mr. Clay.

It is also proper to mention that no man at that day stood higher in the confidence and regard of Mr. Clay than did Mr. Clayton, and if Mr. Clay had himself received the nomination he had been desired, in 1840, Mr. Clayton would undoubtedly have received an invitation to assume the duties of that high office to preserve to all others.

That there was no affection between these two distinguished gentlemen at a later day, it is not only true, but deeply to be regretted, the cause of which it cannot be necessary or profitable now to restore, and had therefore better be buried with the dead.

The husband of a beautiful wife, upon returning home one day, was met by one of his friends, all smiles, clapping his hands and exclaiming, "Congratulate me! congratulate me! I have just been kissed as all around, and a little over."

UNITED STATES COURIER FOR THE FISCAL YEAR.—The deposits at the Mint of the United States during the fiscal year ending office, for the fiscal year ending June 30th, 1856, were, of gold $10,000,000 90, (of which $99,808,609 50 was from California gold), of silver $6,657,523 37, of which $19,000 was from California gold, making a total of $16,773,430 25 in precious metals.

The gold coinings consisted of 1,582,145 double eagles, 1,027,600 eagles, 354,670 half eagles, 37,100 three dollar pieces, 277,213 quarter eagles, 792,110 gold dollars, 5,659 five bars (of the value of $21,955,345 15), 1,000 unparted bars (of the value of $3,740,136 52), the total number of pieces 3,268,585, value $26,158,413 67.

The silver coinage consisted of 63,500 dollars, 6,016,000 half dollars, 6,872,400 quarter dollars, 2,560,000 dimes, 4,000,000 half dimes, 725,000 three cent pieces, and 162,000 bars—(to the $30,551,400), the number of pieces 24,500,568—value $5,336,061 04. The copper coinage was 3,724,84 pieces, in cents, of the value of $17,250 42. The whole number of pieces coined during the fiscal year was 28,086,731, of the value of $67,577,930 26.

Surprise Parties.

As "parties" are being held almost nightly, and the system of surprise parties is growing in popularity, we will give a few suggestions such ludicrous performances the benefit of an incident, which they may take as a hint, chronicled by the Albany *Knickerbocker*:

"The day before yesterday a very unpleasant incident occurred at one of these parties. A man hard who has heretofore held a respectable position in society, who selected by some friends to call on. It was a surprise party, indeed, to all concerned. They found the husband insensible from the effects of liquor, lying on the hall stairs, and his wife with a bruise on one and black eye, bathing his temple with cold water. Such a party such scene occur unknown to the world."

A Serious Joke.

A wealthy gentleman in Boston, whose benevolence is rather in excess of his discretion, has ordered of the Young Men's Bible Society a number of imperial quarto Bibles bound in Turkey morocco, with panel covers, each to be lettered in a fine Roman case, and presented to each of the crowned heads of the world.—The books will cost about $30 a copy.

The crowned heads will be rather puzzled to know what the gift means; the Catholic crowned heads, such as the King Bomba for instance, will either throw them into the fire, or send the messengers who deliver them to the Inquisition. Elliot Lord Timothy Dexter made a shipment of warming pans to the West Indies, no New Englander has undertaken so novel a speculation.—*N. Y. Times.*

Mr. Webster's Reply to a Challenge.

Daniel Webster to John Randolph of Roanoke.

WASHINGTON, April, 1816.

SIR:—For having declined to comply with your demand yesterday in the House, for an explanation of words of a general nature, used in debate, you now demand of me that satisfaction which your insulted feelings require. I and refer me to your friend, Mr. ——; I presume, as he is the bearer of your note, for such arrangements as are usual.

This demand for explanation you, in my judgment, as a matter of right, were not entitled to make on me, nor were the temper and style of your message to my objection seeking anger, as of a character to induce me to accord it as a matter of courtesy.

Neither can I, under the circumstances of the case, recognize in you the right to call me to the bole to answer what you may please to consider an insult to your feelings.

It is unnecessary for me to state other and obvious considerations growing out of this case. It is enough that I do not feel myself bound at all times and under any circumstances, to accept from any man, who shall choose to risk his life upon the question of his satisfaction, what I shall be always prepared to repel, in a suitable manner, the aggression of any man who may presume upon such a refusal.

Your obedient servant,

DANIEL WEBSTER.

GREAT INVENTION!

BEDINGER, McCORMICK & FALLS

HAVE purchased Caleb H. Williams' (assignee of Joel H. Bassett, the inventor) patent for improvement in Double Acting Force and Lift Pumps, for the State of Kentucky.

The Pump has the Falling or ball valve. Some of the advantages of this valve below above the Piston are:—Exemption from friction; non-liability to clogging; great ease; simplicity; facilities for repair or replacement and durability.

By a simple but ingenious device, a single ball valve is made to serve both discharge openings of a double acting force pump, and the lift pump is so arranged as to keep the Piston always primed and to keep a constant flow of water. The ball valve is made of hollow about the Piston, and therefore the easy and rapid manner in which it can be taken apart and put together, in case of any accident, make it somewhat valuable in this respect.

It is a plain, substantial, durable pump—with no liability

☞The official majority of Buchanan in all the counties of Tennessee except five, from which the Secretary of State has received no returns is 6,766. The Nashville Union says the reported returns from the five remaining counties increase the majority to 7,629.

BELLE A SECRET.—The Lancaster (Pa.) *Intelligencer* of Nov. 18th, speaking of Mr. Buchanan's Cabinet, says:—"He has never given an intimation to any living soul on the subject. He keeps his own counsels—and when his selections are once made, it will be found that his Cabinet is not only a unit, but that it is also a Union Cabinet.

SENATOR FOR DELAWARE.—As the appointment to the vacancy occasioned by the death of Mr. Clayton devolves on the Governor, Causey, who is a Know-Nothing, it is expected that he will select the new incumbent from among his Know-Nothing friends.

FIFTEEN SLAVES EMANCIPATED.—Detroit papers of the 17th note the arrival in that city of Mr. William Sloan, of Kentucky, having in charge fifteen slaves whom he is desirous of settling in some favorable location in Michigan or Canada. They are manumitted by the terms of the will of Thomas E. Chambers, of Spencer county, Kentucky, who besides giving them their freedom, bestowed upon them $2,000 to provide for their settlement in the North. Of this sum $700 has been paid to purchase the father of the family who was owned by another party, and who they were anxious to bring with them.

☞We are authorized to announce JAMES McCORMICK, Esq., as a candidate for *Mayor* of the City of Maysville at the ensuing January election.

Patrick Fitzgerald has been convicted of murder in Natchez and sentenced to be hung on the 19th December.

P. Morris, a clerk, was killed during the late conflagration in St. Louis by being buried under the ruins while attempting to save property.

Henry Hunter, teller in the Bank of Mobile, shot himself accidentally on the 15th by the premature discharge of a pistol. The load passed through his eye and entered his head.

The Virginians have been amusing themselves with a tournament at Fredericksburg. From three to five thousand ladies and gentlemen were in attendance.

The Book of Mormon has been translated into the Hawaiian language, and a large edition printed.

OHIO AND MISSISSIPPI RAILROAD.—The *Vincennes Gazette*, of Thursday, says the managers of this road expect to have it finished and the cars running through to Cincinnati by the first day of February next.

SOUTHERN COMMERCIAL CONVENTION.—The citizens of Lynchburg, Va., on Tuesday last appointed delegates to the Southern Commercial Convention, adopted a resolution favoring direct trade with Europe, and pointed out Norfolk, Va., as the best port from which this trade should be directed.

The establishment of the Cincinnati Branch of the State Bank of Ohio has been approved by the Board of Control, but legal objections having occurred to Governor CHASE, he withholds his proclamation, in order that he may consult the Supreme Bench with reference to the points in doubt.

The Mount of Olives, near Jerusalem, has been purchased by Madame Polack, the widow of a wealthy banker of the Hebrew persuasion at Konigsberg, in Prussia. This lady intends to beautify the place and improve the whole neighborhood at her sole expense. The first thing she has done is to plant the whole area with a grove of olive trees, and thus restore it to the original state from which it derives its name. The olive tree thrives well in that locality, and though it takes many years before arriving to a state of maturity, and sixteen years before bearing any fruit at all, it requires but little or no tending, and lasts for several hundred years.

BOUNTY LAND DECISION.—A decision has been rendered by the Secretary of the Interior, entitling regulars and others who have been engaged in any of the conflicts with the Indians on the Pacific, New Mexico, and on the Plains, to warrants, under the recent act of Congress. This decision reverses that recently given by the Commissioner of Patents, in regard to what constitutes a war entitling soldiers to bounty land.

THE GALE IN CHICAGO.—The Chicago Tribune estimates the destruction of property in that city, by the gale on Friday, at upwards of seventy-five thousand dollars.

The Boston Transcript says the shipment of Boots and Shoes to California, has been great by steamers, and trade in that country is consequently greatly depressed. Sales have recently been made at auction at a loss of 50 to 75 per cent. There was a surplus stock in San Francisco on the 1st of October of 40,000 cases, valued at $1,800,000. People seem to forget in making calculations for the California trade, that the population of the State is only 350,000.

ELECTION IN INDIANAPOLIS.—The municipal election held in Indianapolis on Saturday, resulted in the triumph of the Republican ticket by about one hundred and fifty majority.—Wm. J. Wallace is elected mayor and Frederick Stein city clerk.

SIGNIFICANT ACKNOWLEDGMENT OF AMERICAN SCIENCE.—The King of Denmark has conferred upon our distinguished countrymen, Lieut. M. F. Maury, the cross of a Knight of the Order of Danebrog, in token of consideration for the eminent services he has rendered in that Department of science to which he has devoted his life and talents.

Over-Ripe.—Some time since we published the fact that a young man named Gillespie, of Athens county, Ohio, had married twelve miles from the city, and returned home at 2 o'clock. A free negro named Bill, affected his entrance into the house of a Mr. Moore (who was at the time absent in Cincinnati) by lifting out the sash of a back-room window. He groped his way in the dark to the next room, where Mrs. Moore was asleep, she reached her bed-side before she was fully awakened if the intruder was her husband, but upon the negro's replying "yes," she screamed and sprang out of bed. Bill caught at her throat, and missing it, his thumb entered her mouth, which he clutched so violently as to fracture her jaw-bone; he then choked her until she was insensible, and after reflecting his brilliant purpose of ravishing her escaped from the house, went home and to bed with his own relations wife. His wife inquiring why he panted so remarkably, he tried to divert her attention by saying that he had run all the way from the river, where he had been hard at work pumping out a flat-boat.

Mrs. Morris' screams having alarmed the neighbors, they rushed in in quick succession, and learned of the outrage by the appearance of things, for Mrs. M's tongue and throat were so much bruised and she was so far exhausted that she could not speak until she received medical assistance. She then gave tongue present to understand that she did not know who the villain was, but that in the struggle she had scratched his face in such a manner as to certainly identify him. The circumstances pointed out the negro, and the fact that he had twice before committed or attempted rape, once in Ironton and afterwards in Rockville, Ohio, determined the exasperated crowd to go immediately to his abode. They found him in bed, with his face badly scratched and bleeding, just as described by his victim. They took him forthwith, before day, to Manchester Island, an island in the Ohio river just above the town, where they hung him up to a tree, but the rope breaking, he fell, and revived. He then acknowledged the infernal deed, and would have been hung up again but for the interposition of some of the less excited in the crowd, whose counsel prevailed and the negro was accordingly taken to West Union, lodged in jail, and chained to prevent his escape.

During Monday night, Mr. MORRIS reached home from Cincinnati. On Tuesday morning a crowd of 59 men, with JOHN DOUGHERTY (a brother of Mrs. Morris) at their head, left Manchester for the county-seat, where they broke open the jail, bursting the locks with hammers and axes. On reaching the room where the negro was, Dougherty with one blow from an axe broke his chain, and then raised the axe to cleave the negro's scull, but the arm of the infuriated man was caught, and the negro saved for a different death.

At the time, the Adams county Court of Common Pleas was in session, attended by probably 1,000 persons, who were deeply interested in the trial of the Irishman MILLIGAN, who murdered old man BENTZE and his wife about a year ago. The mob spirit spread so rapidly that it was proposed to the Manchester crowd to wait a little, and if the Court should not sentence Milligan to be hung, the mob would hang both together. But the Manchester crowd were intent upon completing the work they had undertaken, and being joined by several hundred men, took the negro Bill back to Manchester, and over to the Island, where they hung him upon the limb of a tree some 25 feet high. On his way from jail and even under his gallows, the negro cursed and swore terribly, and vowed if he should get off alive he would kill Mrs. Morris at sight. After hanging until he was dead, his body was cut down, and, with the chain still fastened to him, deposited in a box, and buried on the Island.

At West Union, the jail was absent when the attack was made on the jail. But the Sheriff of the county rushed into the jail with gun in hand, and attempted to prevent the rescue of the prisoner. The gun was wrenched from him, and his power defied.

The law of Ohio punishes rape by confinement in the penitentiary for 21 years. In Kentucky, rape by a negro upon a white woman is punishable with death. It is the opinion of some we have spoken from neighborhood, that if the law of Ohio had punished with death, the mob would not have taken the negro from jail to hang him the second time.

Mrs. Morris is lying very ill, and it is quite doubtful whether she will recover from the brutal treatment she received at the negro's hands. The negro's own wife was so shocked with the horror of his crime, and his repeated villainies of the kind, that she did not even beg the crowd to spare his life.

A few days since we had a rumor by way of New York of the failure of the Bank of East Tennessee, and a contradiction from Louisville. Yesterday the paper was thrown out by the Banks of Nashville and Louisville, which may be regarded as equivalent to a failure on the part of the Bank. The circulation in this section is limited. Its condition on the 1st of January last, showed a nominal capital of $300,000, loans and discounts $1,037,091, and a circulation of $669,530. The parent bank is located at Knoxville, with branches at Chattanooga and Jonesboro.

INCENDIARIES IN SHELBY.—The Shelby *News* mentions several fires, which have occurred there during the past week, and believed all to have been the work of incendiarism. On the night of the 20th, the negro house, stable, and crib of Major Standeford were burned down, and on the same night an attempt was made to fire the store of Standeford & Newland. On the night of the 18th, the barn and stable of Wm. B. Tribble were destroyed. And on the morning of the 21st, the negro house of the Rev. W. C. Dandy were burned.

UNPARALLELED DEPRAVITY.—Under this heading the New Albany *Tribune* mentions that some scoundrel on Friday or Saturday last stole from the lot of John S. Davis, Esq., in the cemetery of that city, the daguerreotype of his deceased wife, which was pried out from the tombstone, for the purpose, doubtless, of prying the silver plate in which the picture was set. It is probable that the thief will attempt to sell the plate here. Mr. Davis offers a reward of $50 for the recovery of the likeness and silver plate, and the detection of the thief.

☞The Mobile Tribune that the road is now in running order from Mobile to Macon, Miss., a distance of two hundred miles, and that from that point to the Tuscumbia line, a distance of one hundred and thirty miles, the grading, bridging, etc., are completed. The track beyond Columbus, Miss., is ready to receive the rails, which have been purchased and will be laid immediately. The *Tribune* says:

The gross earnings of the road last month were $60,000, and as soon as the rolling stock, which is now coming, is received, it will probably be much increased. The income which accrues will pay the interest on the indebtedness of the Company and the current expenses; and also afford them a net profit of over $40,000.

The Messrs. Ames, shovel manufacturers, of N rth Easton, Mass., have given the sum of $2,300 to relieve the Kansas sufferers.

Sag Sniffle Intelligencer.

ELIZAVILLE, Nov. 22, 1856.

MR. EDITOR:

Our quiet hamlet has been the theatre of an unusual outburst of "noise and confusion" to-night. The overjoyed Sag Nichts of this politically benighted neighborhood, in a fit of hilarity, produced by having won a barrel of the "oil of red head" from the opposition, voted, in convention assembled, for a "high bust."—Forthwith a keg of tar, a plot of turpentine, and the aforesaid "red head" was ordered in the public square, and a regular built fusion of black spirits and white, yellow spirits and "oberjoyful" spirits took place. Niggers and Sag Nichts mingled freely in the general melee—turpentine balls were sent whistling through the air, and the shrieks and yells of the *spiritualized* mob made the very walls of the village hideous wit unearthly sounds. The notable feature of the night was the music (if such you can call it) from the Mystic Buchanan Fillmore Sax horn Cornet Band, led by a cracked clarionet. The overtures were from the operas of Moses and Belshazzar, and would have thrown any one with nerves more sensitive than mine, into "conniption fits." After the motley collection of vile brass horns cessation of the diabolical strains, the performance closed with a laughable afterpiece, enacted by a walking demijohn from a neighboring town.

Yours beseechingly,

Circuit Court—Judge Pleiser.

Being at the court-house last week, we had an opportunity of seeing our new Judge, Hon. E. C. Pleiser, supporting the ermine. Although a young man, he presides with all the grace and dignity of an old veteran. His decisions are prompt, clear and decisive. We were particularly struck and pleased with one feature in the Judge—an apparent determination to put a stop to the too common practice among attorneys, of explaining to the Court, "the difference to the eyes of the law, between come on, Murphy, kill a bear and come out 'till I have ye, Murphy!" merely for the purpose of consuming time, or to convince the public that they have read "Blackstone" and "Chitty on Pleading." If all judges would adopt this commendable course, the people would get their business attended to in a reasonable length of time and our counties would not be groaning under the weight of taxation, which too frequently crushes the very life out of the "deer people."

We did not get to hear the Judge's charge to the Grand Jury, but have heard it spoken of by several gentlemen of the bar, as one of the clearest and most able productions of the kind heard in the regio. For a long time. He appears to give entire satisfaction, officially, both to litigants and attorneys.

☞See Page Second.

The *National American* says:

In addition to the returns published in our last, we give the following, which increases the total majority in Louisiana to one hundred and twenty-seven. It will be seen that which Mr. Buchanan has received but 2,203 votes more than Mr. Wise's vote in 1855. Mr. Fillmore falls short of the vote cast for Mr. Pierce by 15,340. Whilst the Democratic gain is comparatively trifling, the apathy and despondency of the Whigs and Americans, who could not be persuaded to vote—fulfilling as an excuse for their dereliction that "Fillmore stood no chance"—lost us some eighteen or twenty thousand in the State. It is apparent, therefore, that the Whig and American party in Virginia is stronger now than in 1855, and that it needs but a little active exertion on the part of the friends of the Constitution and the Union to make the opposition to the Democracy in the Old Dominion powerful and triumphant.

WHO SAVED BUCHANAN.—Mr. Buchanan was saved by Mr. Fillmore. Without the intervention of the party that supported the latter, he would have been in a minority in every Northern State.—*Charleston Mercury.*

GOVERNOR.—This gentleman reached this city yesterday morning, on his return from Westland, and reminds the Washington only twenty-four hours are standing for Richmond. We hear that he is in fine health.—*Washington Star.*

Whilst we are suffering for want of coal, the citizens of Western Pennsylvania, are threatened with a famine in the coal and wood supplies. The *Standard* publishes at McKeesport, at the junction of the Monongahela and Youghiogheny rivers, says:

"Since about two years, our community has been nearly baffled in their calculations on accustomed trips to the markets below. Not only that the increasing Pittsburgh and trade threatens to interfere with our coal operations, and to reduce the prices at Cincinnati and Louisville, almost to the freighting and shipping cost from our coal works; but, what is still worse, our people here have been deprived for a long period even of a chance to forward the coal needed for the markets. We do not justly blame Providence for such a misfortune. This spring, while the rivers were fed by a superabundant and near water, the golden opportunity for one, or even two shipments, was lost by the untimely perverseness of the coal miners in demanding an exorbitant price for their labor. Provoked by such unexpected and really unreasonable demands, the owners of the coal works, suspended operations rather than submit. The spring floods passed—summer came—and the beautiful June rise. Summer, too, passed with no brighter prospects. Fall in its turn came and the hoped for rise of the rivers at the election time again proved to be false. And fall has passed, and, and the chilling breath of Winter may be already felt and feared, and yet there are but few signs of the "flood." In the meantime the credit system has been stretched to its utmost limits; hard bargains are made for cash loans; almost all the ready home capital, and a good deal from abroad, has embarked in the freighting and rigging of boats, and there is nearly "nigh and dry" on our river shores.—The detail features of such a state of things we forbear presenting—as they have little interest to those abroad; and at home all are familiar with them."

From the Louisville Journal.

Emporium.

For several days past our city has had a stream of visitors continuously from the recent sale of lots at Emporium. There are many of our citizens to whom this name is a together unfamiliar, or only associated with the idea of one of those "towns on paper," distinguished from the surrounding forests only by a solitary blacksmith shop and an advantageous location, which once upon a time figured largely in Western Geography; but Emporium is a mythe It is real city. It has a "local habitation and a name," and has a rapidly increasing population, and houses and stores and factories and mills and enterprise and wealth besides. Situated on the banks of the Ohio, above high water mark, and on the headland nearest to the mouth of the Ohio, on which a city can be built with safety and any prospect of permanent prosperity, Emporium, eighteen months of age, has thrived space. It has been made virtually the terminus of the great Central Illinois Railroad, and, although less than one year ago there were only seven persons living there, it already numbers over seven hundred inhabitants. The company under whose auspices the town was laid out have made extensive improvements and have now a fund of $700,000 above their indebtedness. and intend to spare neither pains nor money to make it outstrip its northern rival, the very last and far-famed city of Chicago. There have been two public sales of lots at Emporium. At the fully sale over $100,000 worth of lots were sold and at the recent sales on the 19th and 20th of November, the aggregate sales amounted to about $95,000. The purchasers have been for the most part mechanics who intend to build and settle there, or men of capital who expect to improve the property they have purchased so as to afford house room for the rapidly increasing population. Already a company has been formed with a capital of $1,0,000, $30,000 of which was subscribed at the formation, for the purpose of erecting a magnificent hotel upon a site which has been purchased. Several large factories have been begun, and about one hundred men are at work upon a marine railway. One of the most enterprising and wealthy foundrymen of Cincinnati is building an extensive foundry there, and intends to have it in it completed, to remove his whole force to that new city, and a building is in process of erection for a commercial college.

Emporium has sprung up as it were in a night, but the natural advantages of its location and the industry and enterprize of its citizens and those who are interested in its welfare promise to make it in a short time one of the leading commercial and manufacturing cities in the West.

Frauds among Cincinnati Coal Dealers.

From the Cincinnati Commercial.

A FRAUDULENT AFFAIR.—We understand that the Prosecuting Attorney of the Police Court has brought to light a system of fraud which has been, and is now, practiced to a frightful extent upon this community. It has been understood that a bushel of coal could contain 25 bushels, counting five pecks dry measure to the bushel, and consumers have paid in accordance with the above rate. The public at large, however, have been under the impression that it has not received the worth of its money, until at the present time, when fuel, and coal particularly, is at an almost fabulous price, it has become a matter too consequential to pass. Under the direction of the Prosecuting Attorney, appointed persons have within the past few days inspected the measures used in most of the coal yards, with the result that instead of 25 bushels, the average loads barely measure twenty. This, if true, is monstrous, and calls loudly for an efficient remedy. The fraud is felt by every class but most particularly upon the poor and needy. Warrants have been issued for quite a large proportion of the coal dealers, to appear before the Police Judge this morning, when the whole affair will be sifted.

In almost every other city coal is sold by weight, and this is the proper method. Why not adopt the system here?

THE COAL QUESTION.—There is considerable excitement in the community in consequence of the fraud in the measures used by most of our dealers of using short measures. Those who made the examination aver that in some instances they fell short two pecks in the bushel, so that in lieu of 25 bushels to a common load—the unconscious purchaser received but 15. If this be so, it is one of the most wholesale pieces of cheating, not of, and calls loudly for reform. No such fraud can be perpetuated where the coal is sold by the weight, with a proper inspector appointed by the city. Let the Council take the matter here; it is the only safeguard the public have against imposition.

READ—THEN GIVE THREE CHEERS.—There is a little incorporated borough in Chester county, Penn., called Popewell, which has twenty votes in it, and every man is for Millard Fillmore. Three times three cheers for Popewell Borough!—*Ex.*

Why, pshaw, that's nothing when compared to a little precinct in Harlan county, in this State, called Straight Creek which boasts of sixty-five voters, every one of whom has invariably voted the American ticket straight out. May she always continue to come out "right side up," as it is a fixed fact that "every little helps."

After giving Popewell Borough three cheers give three for Maryland, and three loud and hearty cheers for Straight Creek.

P. T. Barnum started for Europe on Saturday, in the Baltic. He goes, they say, as the business agent and manager of "Little Cordelia Howard" and her parents, who are on board the same steamer.—*N. Y. Tribune.*

The Gale on Friday.—The gale on Lake Erie on Friday morning, was very severe. The steamer Ohio left Sandusky for Detroit, at 7 o'clock, and returned to port at 10 o'clock, having lost her rudder, and received other damage. The steamer Michigan left Detroit for Sandusky at 7 o'clock, and returned to port at 10 o'clock, having lost her rudder, and received other damage. BY TELEGRAPH.

Commercial.

NEW YORK, Nov. 24.

A decided sensation occurred on Saturday afternoon at the second board in Long-ext and Erie Railroad, two million shares the stir.

A check had been sent to the Stock Exchange, stating that it was for the purpose of checking the tendency of the bears and betting the workmen down. At large sale, which was made, it seemed to have the desired effect. On Saturday, five of the laborers went into the ring, and it seemed that bears had taken five feet from the surface, the rye brick-bats and the party were dashed to the bottom of the shaft. Three were instantly killed, the fourth mortally injured, and the fifth scalped. The latter there was taken to the New York Hospital.

Nicaragua and Cuba.

NEW YORK, Nov. 24.

Gen. Calouarie makes in to-day's Herald further revelations concerning Nicaragua and Cuban annexation. Walker, he says, after the settlement of affairs in Nicaragua, was to be upon Cuba, for the purpose of conquering and annexing the Island to Central America, and to form a Southern military despotism as a counterbalance to the United States. "Cuba must and shall be free," says Walker, "but not to the Yankees."

LIVERPOOL, Nov. 14—The Cotton market has been active during the week, but middling qualities have improved 1-16, being scarce. The market closed steady. The stock of Cotton at Liverpool is 397,000 bales, of which 298,000 are American. The market for Breadstuffs was generally inactive and slightly cheaper. The weather was favorable.

Consols for money are quoted at 93¼@¾.

The Weather.

The weather has been rather unfavorable for pachering and shipping of pork, wind, and was particularly so yesterday, it being wet and warm, the thermometer standing at 63 degrees. Hog receipts under the limited demand for the Hog product made dealers very cautious, and prices consequently have been depressed, and closed at a decline of 15c ⅌ cwt. from the closing quotations of Friday last. Drovers, however, have packed quite extensively on their own account, which to a great extent, prevents that pressure of Hogs on the market which would, under other different circumstances. The receipts have been quite large, and the pens are now pretty full. Below, according to our usual custom, we give the receipts of Hogs from the commencement of the packing to date by the various channels:

From Kentucky	40,654
Slaughtered at Pleasville	3,100
do at Newtown	1,000
Driven in through Toll Gates	5,000
By River, Canals and Railways	26,316
Total this Season	76,756
Same time in 1855	63,446
do 1854	76,714
do 1853	99,414
do 1852	118,253

The packing season commenced earlier this season, by seventeen days, than last, and in order to show the comparison, we give below the date when packing commenced for five seasons:

1856	November 1st.	
1855	"	17th

Our advices from leading points in the West report an unsettled market for hogs. Farmers are generally asking prices above the views of packers, and in preference to selling, are to a great extent, packing on their own account.

Cincinnati Cattle Market.

The number of cattle, sheep and hogs brought to the Brighton House is reported by E. W. Harvey, Weighmaster, as being, on Monday, Nov. 17th, 656 cattle, 329 sheep, 109 hogs; on Tuesday, 75 cattle and 57 hogs; on Wednesday, 98 cattle, 179 sheep and 108 hogs; on Thursday 70 cattle and 356 sheep; on Friday, 285 sheep and 90 hogs; on day, 234, 243 cattle and 456 hogs; on Monday, 27 cattle and 132 hogs; and yesterday, 86 cattle and 40 hogs. Total for the 8 days—851 cattle, 1,325 sheep and 1,553 hogs. The raise yesterday were, for cattle, from $3 25 ⅌ cwt; for sheep, from $1 to $1 50, and for hogs, from $4 75 to $4 75 gross.—*Cincinnati Commercial.*

Baltimore Tobacco Market.

BALTIMORE, Nov. 23.

The demand continues extremely active for all descriptions, and we should have large sales to notice if the article was in market. We quote Maryland Crop sold at last week, with the remark that shippers take all desirable lots that are offered, and where parcels peculiarly suit them, higher rates than quotations will open. We quote as before, viz:—Maryland inferior short seconds $5; common $5@5@5 50; middling to brown $5 @6; red leaf $6@7; good and fine $7@8. The receipts of Maryland Crop and Leaf are small and the report obtaining currency that the quantity this description to come to market is much smaller than usual, prices have improved. We quote the extreme rates at $5@11, the sales being mostly made at $6@8. There were no receipts of Bay Tobacco from Western Maryland. The receipts of Ohio are quite small, and all parcels are taken as soon as inspected. Our quotations are nominally unchanged. We quote:—Inferior to good common Ohio $7@8@9; middling brown to good red $9@10@11; good and fine red $12@13; fine red cigar wrappers $12@15; common to middling cob leaf $6@8@10; good to fine spangled $12@15; good and fine yellow $12@16. We observe nothing doing in Kentucky. The inspections of the week are 446 hhds Maryland 1, 16 hhds Ohio—in 1 1 62 hhds.

Great Cure of Piles.

SUMMERVILLE, N. C., Nov. 1, 1854.

Dr. C. M. Jackson—Dear Sir—Allow us to express to you our sincere thanks for your discovery of a medicine, which, to my the least of it, has effected a cure, that all other medicines that I have taken have entirely failed to do. "Hood's Sarsaparilla in Bitters" *have cured me of the most stubborn and aggravated case of the* PILES *that, perhaps, ever fell to the lot of any one.* I am a stranger to this community, as I am well known in this and the surrounding counties, and can truly say that my recovery has astonished my friends and relations, as I had tried everything recommended, and nothing did more good until I was prevailed upon to try the Bitters. I feel bound to make use of this communication, for the benefit of the afflicted, as you may think proper.

Truly yours, WM. J. STWOOD.

He is regarded by many of the best judges of stock, as one of the finest specimens of the breed in the United States, and is certainly one of the finest breeders in Kentucky.

EUCLID was imported in England, but was called in this country after the arrival of his dam, also imported by the North Kentucky Importing Company. He is deservedly regarded as one of the finest breeders in the country.

DR. S. M. SAUNDERS'S
CELEBRATED CATHOLICON,
For the Relief and Cure of Suffering Humanity.

IT stands pre-eminent for its curative powers in all the diseases which it is recommended, namely, called

FEMALE COMPLAINTS,

OF WHITES, or Falling of the Womb, FLOOR ALBUS, or Whites, Ulceration of the Mouth, ULCERATION OF THE WOMB, GENERAL DEBILITY, HYSTERICS, &c., and all Nervous Affections, Scrofula; Pimples, Blotches, Boils, Tetter, Salt Rheum, Ringworm, &c., and all other Skin Diseases, and Mercurial Affections, &c., with all other complaints, of whatever name or nature, no matter how severe or of how long standing.

This medicine has never been introduced by empty puffs and unfounded stories, but it is intended that its present popularity shall be sustained by any medium but its merits and the approbation of the public.

TESTIMONIES.

The Medicine is now well known and universally appreciated, and will have a steady and increasing sale. I know of no preparation that can compare with it for the purposes mentioned in the bills in the signed. I am satisfied, by the use now making of it in my own family, and by almost every day's evidence of its benefits to others, that it justly merits the warmest recommendations in the best friends have given of it.

E. B. PERKINS, M. D., Marietta, Ohio.

Having now used the remedy for four years in my practice, I only add my mite to the cure of almost all female diseases.

With many regards for yourself, I remain yours

H. F. BENNETT, M. D., Canandaigua, N. Y.

Thus far, it has given entire satisfaction in all cases where it has been used. It is the best medicine to recommend it to every case for which it is designed. I consider it an invaluable medicine, and sufficient to establish a fortune of it.

L. BROWNE, M. D., Claremont, N. H.

I am persuaded, after trying it in a great many cases, that it surpasses all other remedies within my knowledge for that class of difficulties for which it is recommended. In several some very extreme cases under my observation, which have resisted all other treatment.

J. L. FLEMING, M. D.,
Avon Springs, N. Y., (late of Rochester.)

* * * I would be glad to have a further supply, as the medicine is becoming very popular, and I think will continue, as it has given relief in every instance where used.

THOMAS NEWMAN, M. D.,
Mount Vernon, Indiana.

The Catholicon is doing good service here. All the patients that have tried the medicine have been benefited but one—and I think one nothing will help.

Truly yours,
WM. LAIRD HAZLETT, M. D.
Sewickleyville, Ohio.

The claims of this medicine to the confidence of the public are entirely founded on its merits, it having received the approbation and liberal patronage of many prominent members of the Medical Faculty in the United States, some of whom have voluntarily given letters of commendation, (see pamphlet,) containing all that is claimed for it as a curative agent.

Pamphlets containing much useful information touching the nature and symptoms of the above diseases, together with testimonials from some of the highest respectability, as certified by the most satisfactory authority, to all which the attention of ladies and gentlemen is most respectfully invited, can be had gratis at the store of
