An Entire New stock!

WILLIAM WITTENMYER, having just opened a new and hadsome stock of fashionable, fancy and Staple Dry Goods just purchased under great advantages in the Eastern Cities, confidently invites public attention to his stock at his store on front street between the stores of Messrs. Rees & Allen and J. & C. White.

He offers his goods low for cash, being satisfied to rely upon the favor of the public, and the consequent activity of his capital, rather than large profits and smaller sales. He asks nothing but an *opportunity* to convince the public that he means what he says when he promises to sell bargains.

Farm for Sale.

THE undersigned wishes to sell her farm in Lewis county. It lies immediately upon the road leading from Maysville and Washington to Clarksburgh and Esculapia, near the line between Mason and Lewis counties, and adjoining Gen. Marshall's farm. It contains 100 acres about 80 of which is cleared and in excellent repair. It is as well watered as any farm in the county, and as well timbered. The soil is equal to any in the neighborhood, almost all of it being newly cleared. The dwelling is very comfortable. It has upon it a good barn, together with all the other necessary outhouses good. Upon the farm is a great variety of choice fruit trees, that are just beginning to bear. Any person can see the farm by calling upon the gentleman who is now living on it, and for further particulars apply to Dr. Duke in Washington

june7 R. WILSON.

A Farm for Sale.

I WILL sell my farm—the former residence of Gov. Chambers—adjoining the town of Washington, on favorable terms, and give possession this fall to the purchaser, if sold before that time. This Farm is one of the most desirable in the county.

It contains about **247 Acres** of fine tillable land, the different portions of which, are abundantly supplied with water. The improvements are numerous, and their aggregate cost was greater than he sum which I ask for the farm. The homestead, which is large and handsomely situated, is a frame thuilding, surrounded by all the out buildings necessary to make it a desirable home. The fruit and ornamental trees, are numerous and of great variety.

Besides the out buildings about the homestead, there are on the farm, two other good frame dwellinghouses and a Rope Walk 600 feet long, with Warehouses attached, and the machinery necessary for the manufacture of the various kinds of cordage.

A large portion of the land lies on the turnpike road, between Maysville and Washington, and would make one or more delightful country seats, for persons residing in Maysville, which I would sell seperately if desired.

It has great advantages for a market or dairy farm. For particulars apply to the undersigned on the farm. ju28tf J. S. FORMAN

Tan Yard for Sale.

I WILL sell on liberal terms, my Tan Yard in the town of Flemingsburg, Ky. It has 38 vats and all the buildings necessary for carrying on the work. There are four acres of land attached to the yard, on which are a dwelling house with 5 rooms, with the necessary out buildings. Also, a slaughter house, making it a desirable property, situated in the heart of a wealthy country. I will sell the above on a liberal credit for the greater part of the purchase money, and at a very low price or if not sold sooner, I will rent the whole on the 10th of March next, at which time possession will be given either to buyer or renter. Those wishing to buy or rent, will please apply to the undersigned, living near Orangeburg, in Mason county.

NAUTILUS (Mutual Life) INSURANCE COMPANY, 58 WALL STREET, NEW YORK.—After mature deliberation, the Trustees have become convinced, and the experience of old established companies fully warrant the conclusion, that the advantages of Life Insurance on the *Mutual* plan, may be extended and diffused with great convenience to a large class of contributors, and with equal security to all the assured, by requiring no greater amount of the premium to be paid in cash than the company will require to meet its engagements with promptitude and fidelity.

It has accordingly been determined that in all cases where the annual premium shall amount to $50, and 60 per cent thereof shall have been paid in cash, an approved note may be given for the remaining 40 per cent, payable twelve months after date, bearing six per cent interest. The interest to be paid annually, but the principal not to be called in unless the exigencies of the company require it, giving sixty days notice, and then only by assessments pro rata to the extent that may be required to meet the engagements of the company.

It is confidently anticipated that a system, the operation of which is so fair and equitable, *se* well calculated to place the benefits and blessings of Life Insurance within the reach of all and at the same time enable each contributor to share equally and fully not only in its beneficent security, but also in its profits of accumulation, will meet, as it is believed to deserv the favor and confidence of the public.

The particular advantages offered by the company are:

1. A guarantee capital.
2. An *annual* participation in the profits.
3. No individual responsibility beyond the amount of premium.
4. Those who insure for a less period than life, participate equally in the annual profits of the company.

The *Nautilus* company confines its business *exclusively* to insurance on Lives, and all Insurance appertaining to Life.

PROSPECTUS FOR SUBSCRIPTIONS TO

"THE CONVENTION,"

ROBERT C. NEEL, EDITOR.

THE undersigned will resume the publication of "THE CONVENTION" on the 1st of January next, and continue it until the August Elections following. As heretofore, "The Convention" will be devoted to the discussion of the Convention Question; contain such Miscellaneous matter and News as may be deemed interesting; and will maintain a central position in National Politics.

As this is the only paper which has been exclusively devoted to a thorough discussion of this question, he conceives it to be unnecessary to attempt to impress the friends of a "Convention" the importance of sustaining it till the question shall be finally decided; and in order to give it a general circulation, he puts the paper at a price barely sufficient to pay the cost of its publication. He therefore indulges the hope that the friends of a Convention generally, will interest themselves in procuring and forwarding the names of subscribers.

Second Despatches from Major Downing.

Headquarters, Mexico, new addition to the United States, October 25 1847.

MR. GALES & SEATON: My dear old friends, Gineral Scott and I find a good deal of bother about getting our despatches thro' to Vera Cruz, or else you'd hear from me oftener. I do think the President is too backward about clearing out this road from here to Vera Cruz and keeping it open, and introducing the improvements into the country that we stand so much in need of here. He and Mr. Richie pretends to have constitutional scruples about it, and says the constitution dont allow of internal improvements it is a Federal doctrine, and he'd always go agin 'em for that if nobim else. But 'tis strange to me the President has n't never found out yet that where there's a will there's a way, constitution or no constitution. All he's got to do is to call all these roads round here in Mexico "military roads," and then he'd have the constitution on his side for every body knows the constitution allows him to make military roads. I know the President is very delicate about fringing on the constitution, so I dont blame him so much for holding back about the internal improvements here in Mexico, though I dont think there's any other part of the United States where they are needed more. But there's no need of splitting hairs about the roads; military roads is n' internal improvements, and he's a right to make military roads as much as he pleases. And as them is jest the kind of roads he want here, and shall want for fifty years, (for our armies will have to keep marching about the country for fifty years before they'll be able to tame these Mexicans and turn 'em into Americans,) it is confounded strange to me that the President is so behind hand about this business. What's the use of our going on and annexin away down south here, if he dont back us up and hold on to it but to and there's no way to hold on to it but to keep these military roads open so our armies can go back and forth and bring us in victuals and powder and shot and money.

Here we've been weeks and weeks since we annexed the city of Mexico, and holding on for the President to send us more men and more money, and tell us what to do next. This backwardness of the President since we got into the city of Mexico seems the more strange to me, considering. For when he was fixin me off to come out here and see if I could make a settlement with Santa Anna, I tried to persuade him to let the armies hold still while I was making the bargain. I told him he never could bring a man to reason or to trade when he was knocking of him down all the time. But I could n't make him seem to understand it. He stood to it his way the best—the sword in one hand and peace in tother, all the way along—a sword and a blow, and the blow always first.

"Why, Major Downing," says he, "if you want to reason a man into a peace, that's anotherthingbut if youwant toconquer a peace, my way is the only way. That's the way I begun this war, and that's the way I mean to carry it out."

"How so?" says I; "how did you begin the war in that way?"

"Why,' says he, "Slidell was the word, and Taylor was the blow; and not only my friends, but even my enemies, admit that the blow come first."

The President said that was the rule he had gone by all the way along, and he meant to stick to it; and not hearing any thing from him so long, I'm afraid he's got a notion that peace is conquered. But that would be a bad mistake, if he has got such a notion; for it is only scattered. It's a good deal as 'twas with Bill Johnson, when he and I was boys, and he undertook to conquer a hornet's nest, expecting to get lots of honey. He took a club and marched bravely up to it and hit it an awful dig, and knocked it into a thousand flinders.

"There, blast ye," says Bill, "I guess you're done tu now," as he begun to look round for the honey. But he soon found 'twas n't conquered; 'twas only scattered.—And presently they begun to fly at him and sting him on all sides. One hit him a dab on his arm, and another on his leg, and another in his face. At last Bill found he should soon be done tu himself if he staid there, so he cut and run.

"Hullo," says I, "Bill, where's your honey?"

"Darn it all," says he, "if I haint got no honey, I knocked their house to pieces; I've got that to comfort me."

I wish you would try to convince the President that'tis only scattered here; 'tis n't conquered, and he must give us the means to keep moving, or we shall get badly stung bime-by. If he only backs us up well, I'll pledge myself that we'll carry out the campaign marked out in my last despatches, which would bring us clear down to Cape Horn in four or five years; and I'm very anxious to get there, it strikes me that would be such a good horn to hold on to in all dilemmas, even if all the rest of the country went by the board. I dreamt 'tothernight that we had got through annexin all North and South America; and then I thought our whole country was turned into a monstrous great ship of war, and Cape Horn was the bowsprit and Mr. Polk the captain. And the captain was walking the deck with his mouth shet, and every body was looking at him and wonderiug what he was goin to do next. At last he sung out, "Put her about; we'll sail across now and take Europe and asha and Africa in tow—dont stop for bird's-eg ringround among the West India Islands; we can pick them up as we come back along—crowd all sail now and let her have it."

A way we went; I never see a ship sail faster. The wind begun to blow harder and harder, and then it come on an awful storm, and at last it blowed a perfect harryeaane. The sails begun to go to flitters, and she was going to upset. Some of the oldest and best sailors among the crew told the captain we should all go to destruction if he did n't take in sail, and furl and elew up, and get things tight, and bring her head round to the wind. Mr. Richie was standing by his side, and says he, "Captain Polk, them is all nothing but Federal lies, as I've shown hundreds of times, not only in the Union, but years and years ago in the Enquirer. Them fellers only want to give aid and comfort to the enemy; dont pay any attention to 'em. Here's the chart, (he held up in his hand the resolutions of '98.) sail by this, and I'll risk her on any tack and in all weathers."

On we went, lickity-split, the harryeane blowed harder, the timbers begun to creak, the sails split to ribbons, some of the spars begun to snap and gay the deck board, and then all at once there was a terrible cry, "breakers ahead!" The Captain then jumped as if he was wide awake; and says he, "call all hands and put her about." But when the officers come to give orders to the crew, not one of them would mind or pay any attention. The whole crew was in a mutiny; and the ship was so large and the crew was such a mixed up mess of differeli sorts of folks that there was more than twenty different mutinies all at once in different parts of the vessel.

"Well," says Captain Polk, "I wash my hands of this mischief; if the crew wont turn to and help, the ship must go ashore."

Then an old sailor spoke up and said:—"All the crews in the world couldn't do any good now; the ship was disbed, and must be plumped on the rocks; her sails and spars was gone, the timbers sprung, and the hold already half full of water." In a few minutes she struck, and the rocks gored a hole through her side, and the water poured in, and down she sunk lower and lower, till at last she gave one mighty guggle, and plunged all under the water, except a piece of the bowsprit that still stuck out. The storm and the waves swept over her, and the whole crew and every body aboard was lost, except a few of us who scrabbled up and clung to the bowsprit.

The hard spring I had to make to get on to the bowsprit waked me up; and, although I ain't one that thinks much of dreams, I can't help thinking a good deal of Cape Horn, and naterally feel anxious to get along down that way as fast as we can; so I hope you'll urge the President to be a little more stirring, and let us have men and money a little faster.

I shall have to break off here for today, because I've got to write a little despatch to the President, to send by the same post. I have received some letters from Uncle Joshua and other relations and friends in the old United States, and send some of 'em along to you, which you can, if you think best, hitch on to my despatches, jest as Gineral Scott takes the letters of his under-officers and hitches on to his despatches.

So I remain your old friend,

MAJOR JACK DOWNING.

No. II.—*To* JAMES K. POLK, *President of the United States and all annexed countries.*

Headquarters, City of Mexico, Annexed United States, October 25, 1847.

DEAR COLONEL: Things is getting along here as well as could be expected, considerin the help we have, but we are altogether too weak-handed to work to profit. If you want us to hurry along down south we need a good deal more help and more money. It would be no use to give that three millions of dollars to Santa Anna now, for the people have got so out with him that he couldn't make peace if he had six millions. He's skulking about the country, and has as much as he can do to take care of himself. So I think you had better give up the notion about peace altogether, it'll be such a hard thing to get, and send us on the three millions here to help us in our annexin. It's dangerous standin still in this annexin business. It's like the old woman's soap; if it don't go ahead, it goes back. It would be a great help to us in the way of holdin on to what we get, if you would carry out that plan of giving the Mexican land to settlers from the United States as fast as we annex it. I have been very impatient to see your proclamation offering the land to settlers to come out here. You've no idea how much help it would be to us if we only had a plenty of our folks out here, so that, as fast as we killed a Mexican or drove him off from his farm, we could put an American right on to it. If we could only plant as we go, in this way, we should soon have a crop of settlers here that could hold on to the slack themselves, and leave the army free to go ahead and keep on annexin. I thought, when I left Washington, that you was a going to put out such a proclamation right away. And I think you are putting it off a good deal too long, for we've got land and farms enough here now for two hundred thousand at least; and, if they would only come on fast enough I think we could make room for twenty thousand a week for a year to come. But I'm afraid you're too delicate about doing your duty in this business; you are such a sickler for the constitution. I'm afraid your waiting for Congress to meet so as to let them have a finger in the pie. But I wouldn't do it; if you do, I'm afraid you'll wish your cake was dough again. From all I can hear from home things is looking rather squally there. Our party seems to be filling off; in New York State they are all falling away into Barnburners and Hunkers, and it looks all over the country as if the Whigs was coming into power; and if they should it would be a terrible calamity, for they are too narrow-minded and too much behind the age to understand the rights of this annexin business, and it's ten chances to one if they don't contrive some way to put a stop to it.

I've got a good deal more that I want to say, and some advice I should like to give you, but I shall be obliged to leave it till my next despatch, I needn't stop to tell you about General Scott in this, cause I spose he'll speak for himself. But I must tell you I went out tother day to see Gineral Cushing, and found him awfully tickled about being nominated for Governor of the Old Bay State. At first he was a good deal amazed at it; he was as much surprised as you was Colonel when you first heard you was nominated for President. What amazed him so much was that he'd always been thinking all along that he was a Whig till the nomination come, and then he jumped up and snapped his fingers, and said he believed, after all, the Democrats was the right party. He's in great spirits, and says he's no doubt he shall be elected. He goes for annexin now the hottest of any of us, and says he takes the great Alexander for his model, and goes for annexin as long as there is any country left to annex. His ankle is quite well, and Gineral Pillow's foot is a good deal better.

I have the honor to be your private embassador and faithful frie', From fifty four forty on one side down to Cape Horne on tother.

The Press in Rome.

It is refreshing sight to see a Journal from Rome. We are indebted to an officer in the Princeton steamer for a copy of "The Roman Advertiser" of October 16th. It is printed in English every Saturday evening, with its motto from Byron,

"The front at which the panting mind assuages
Her thirst of knowledge, quelling there her fill
Flows from the eternal source of Rome imperialhill

The press thrives under the auspices of Pope Pius IX, with every liberal intuition, and it turns naturally to him to lay its best offerings at his feet. Its columns are filled with the beneficent acts which he is performing; and among the first of these, the present number speaks of the *Motuproprio* (or edict) which was published on the 15th of October, calling the Council of State which was announced by his circular of 19th April to meet on the 15th November, defining its attributes and mode of deliberation. "It is to be composed of a cardinal president, a prelate vice president and twenty four counsellors; Rome and the Comarca being represented by four, Bolongna by two, and the other provinces each by one counsellor.—its principal office will be the discussion of government affairs, and of laws to be enacted or reformed." This is the first great step to a Congress, or deliberative body, to make liberal laws for the people, under the wing of "The Reformer of the Age." The "Advertiser" describes the enthusiasm with which it had been received by the people of Rome. A procession of torches took place on the piazza of the Quirinal, and the acclamations of the crowd were filled with praises. "Each of the provinces was represented by a banner bearing its name, and surmounted by a wreath of myrtle and flowers; on a more ample standard was inscribed, *Consulta di stato concessa dall' immortale Pio IX il giorno 15 Ottobre*, 1847. His Holiness appeared much moved, and remained on the balcony some minutes after the benediction, repeating the sacred sign over his people."—*Washington Union.*

GEN. TAYLOR HAS ARRIVED.—This announcemen will be receivedt with a thrill of joy by every citizen of New Orleans, and the burst of enthusiastic welcome with which we greet him here, will find an echo in the hearts of his countrymen throughout the entire extent of the Republic.

The General, surrounded by his staff, arrived at the Pontchartrain depot below the city last evening, having been brought up the river by the Mary Kingsland, which was sent down for this purpose. Maj. Bliss, Maj. Eaton, and Capt. Garnett, of his personal staff, Col. Belknap, and other distinguished officers, accompany him. At the barracks, his family awaited his return.—*N. O. Pic., Dec.* 1.

GIRARD COLLEGE.—Wednesday was the first day fixed upon by the Directors for receiving applications for the admission of orphans into the College, and we understand that a very large number were presented. The Directors will meet on the 16th instant to elect a President, Matron, Stewart, and Teachers of the Institution; and the College will be opened on the 1st of January for the reception of orphans, under the provisions of Mr. Girard's Will.—*Philadelphia Newsr*

SUPREME COURT.—The Washington Union of Monday says:

The Supreme Court of the United States met this day, agreeably to law.

Present.—The Hon. R. Taney, chief justice; associate judges McLean, Wayne, Carton, Woodbury, and Grier.

The Chief Justice announced to the bar that the court would commence the call of the docket to-morow, under the 36th rule.

Adjourned till to-morrow 11 o'clock.

HEAVY RAINS.—Our city was visited on Wednesday and Thursday nights last, by unusual heavy falls of rain. A good deal of damage, we learn, has been done to groceries, &c. in some of the cellars in the city, and we fear that some of our farmers have sustained some loss in fencing, washing of their fields, &c.

P. S. We learn that two heavy breaks have been made in the Versailles Turnpike, a short distance from this city; and that a number of mill-dams and bridges on S. Elkhorn, have been erried off.—*Ky. Atlas.*

THE WASTE OF WAR.—The New Orleans Bulletin states that the Rifle Regiment, which landed in Mexico 700 strong, is now reducedto only 250 men fit for duty. The Voltigeur Regiment, under Col. Andrews, landed 650, of whom only 280 can now be mustered. The South Carolina Regiment, which numbered upwards of 900, is almost destroyed, and can muster but only 150.—Death, wounds, and di-ease, account for the remainder. Other regiments suffered severely.

"THIS WORLD MUST NOW EXCUSE ME—LET US MEET IN A BETTER."—Such are said to have been among the last words of the late John M. Gallagher. Knowing him as well as he did, we can well imagine the expression of calm joyfulness, of firm faith, of sober earnestness, worn by his features, as those words were uttered. They are worthy of a dying, good man, like Gallagher—especially worthy of one so apt, so eloquent, so earnest, as he. "Forgive me, survivors, if in aught I have offended—let us meet in a better world."—*Chillicothe Gaz.*

ARRIVAL VIA THE STEAMSHIP BRITANNIA.

Fifteen DAYS Later from Europe.

Advance in Breadstuffs—Cotton Market Languid.

PHILADELPHIA, Dec. 9, P. M.

The steamship Britannia, Capt. Harrison, left Liverpool on the 10th ult., and arrived at Boston yesterday afternoon, at 5 o'clock, bringing fifteen days later news from Europe.

LIVERPOOL, Nov. 19th, 12 M.

Corn Market.—Although prices have shown no positive tendency to advance since our last advices, it has been characterized by sustained firmness and an increasing demand, Indian Corn, particularly, has been extraordinarily active, and is steady at present quotations, white best. White is retailing at 40 shillings. Indian Meal, for Irish supplies, is also very brisk in London, but is by no means so active as in Liverpool, and throughout the provinces. On Wednesday the attendance of buyers at Mark Lane was very small; and the transactions were exceedingly limited; quotations, however, had not receded. The following comparative table shows the prices current to-day and on the 4th instant:

Sales for the week ending 12th instant, amounted to about 16,400 bales, of which 4·500 were for export, and 1,800 on speculation, and the business for five days to yesterday evening may be estimated at 18,000 bales, of which exporters had taken 3,000 bales, but speculation was without effect.

An improved tone, indicated by an advance of ⅛ to ¼ penny from the lowest point, became perceptible in the market, for about a week after the departure of the last steamer; but it was moderately dispelled by the Cambria's advices, which bore so favorably upon the coming crops.

Upon the receipt of these advices, up to the last evening, the market has become extremely languid, and the improvement is wholly lost.

PROVISIONS.—The market has improved, and prices are still tending upwards. Beef —Prime Mess quoted at 70s per 304 lbs, new, 84s; do per brl of 200 lbs, 40a48s.

PETERSBURGH, Va. Dec. 9, P. M.

No mail to-day South or Wilmington, N. Carolina.

Later from France.

By the arrival at new New York, of the Havre packet-ship New York, Capt. Lines, the New York papers have advices to her day of sailing, 3d ult., being two days later than our previous accounts via England.

The Count de Sartiges, who has discharged the duties of a temporary mission to the Court of Persia, is about to be appointed resident minister near that court at Teheran. The step is regarded as important for Persia.

M. de Tocheau, who has been charge de' affairesin France from Switzerland,is about to withdraw; but it is stated that this step has connexion with politics.

The French steamer Tonnere has been ordered to transport to Civita Vecchia 15, 000 stand of arms from the arsenal at Toulon, to supply the national guard of the Papal State. It is also proposed to furnish the Pope with a number of Cannon. The steam frigate Vauban has been ordered to cruize on the Italian coast. It is said she is to join the fleet there, which will then number five steam frigates.

The affairs of Switzerland continue menacing, and it seems probable that hostilities have already commenced. A telegraphe despatch fromParis announces that the federal diet had resolved upon the execution of their decrees and that hostilities had begun. This is not certain, but such an issue seems not remote.

The French steamer Union, was advertised to sail from Havre on the 19th of November.

The cholera is diminishing at Trebizarde. From ten to fifteen is the average number of its victim per day.

Admiral Napier, it is said in the Spanish Heraldo, has embraced the opportunity afforded by his presence and the force under his command, to exact from the Portuguese government arrearages due him since the time of Don Pedro. His conduct is denounced as an unjustifiable use of public force for the promotion of his personal interests.

CHOLERA.—The Universal Gazette of Prusia, publishes the following letter of the 17th, from St. Petersburg—

"The Cholera makes fresh progress in the two directions which it is following in Russia. It has just broken out in the governments of Simbirsk, Kazan, Nijut, Novorgorod, Riasan, Poltowa and Tamboli. —Thus far, it does not appear disposed to spread on the side of Podolia and Oallicia, and it even appears to have very little intensity in that neighbourhood. In that direction it has only shown itself on one point, at Iekaterinoriol, where it traversed the Dnciper. Without counting Georgia, Caucasus, and the country of the Cassacks, of the Black Sea, it already reigns in sixteen governments. On the 30th ult. it broke out at Moscow." *Cin Atlas.*

DR. SMITH'S GREAT NATIONAL PILLS.

Dr. G. Benj. Smith's

Improved Indian Vegetable [Sugar Coated] Pills,

ARE the medicine of the United States, and their superiority over all others for entire efficacy and pleasantness has won for them a pre-eminence of public favor which no competition can perpetuate. Almost unheralded they have silently worked their way, and have gained a permanent hold on the approbation of the people which no other medicine or opposition can shake. For about four years they have triumphed over disease; and brought joy and gladness to many an anxious bosom. "Their purity, as a medical compound, commends them to the most delicate, and even the more hardy, who have suffered from the effects of impure properties in the stomach, will at once be pleased with the delightful operation of these Pills. They have the rare merit of the most carefully selected ingredients, are always safe, and there can be no danger of taking them improperly at any time. A single trial will manifest their excellence in relieving the body of many precursors of alarming diseases, keeping the bowels gently open, thereby ensuring the continuance of health. The most eminent chemist in New York has given his certificate that these Pills are *purely vegetable*, or Nature's own remedy.

The great principle recognized by the inventor of this invaluable medicine is, that every part of the body, whether in health or disease, is brought under the influence of the digestive organs. This plain and rational doctrine forms the only ground on which a good family medicine can be recommended. Operating according to this principle, Dr. S's Pills strengthen the stomach, promote the secretions of the liver, skin and kidneys, and regulate the bowels, thereby adopting the only natural and consistent method of rendering the *life blood* pure, by correcting the vitiated humors of the whole system. It is impossible to give every particular in this brief notice, but these Pills are generally recommended as a means of preventing so much misery and disease, which grow out of constipation of the bowels, neglected colds, slight attacks, &c., and which it is in the power of all to prevent. These pills do not palliate but *they cure* most all the diseases of the Western Country, and in all bilious disorders, they stand alone, unparalleled—the sick man's friend. Among the complaints for which these pills are highly recommended, are the following, viz:

Fevers, Dyspepsia, Indigestion, Costiveness, Headache, Bad Appetite, Diarrhea, Dysentery, Liver Complaint, Heartburn, Bilious Cholic, Foul Stomach, Jaundice, Pain in the Breast, Scrofula, Bad Blood, Obstructions, Female Complaints, Rheumatism, Whooping Cough, Weak Nerves, Hysterics, Coughs Colds, Influenza, Pimples, Low Spirits, &c.

By following the simple directions which accompany every box of genuine pills, a permanent cure will be effected. Most of the hospitals in New York have given these pills the preference over more than 20 kinds that have been tested, and several eminent physicians in New York and elsewhere use them in their practice.

Beware of Imposition!

The demand for Dr. Smith's Pills being every where great, several unprincipled persons have made Pills of the most miserable and dangerous stuff, and palm them off for genuine. Some put up a "coating of sugar." Therefore, *beware*, and always look for the written signature of G. Benj. Smith, on the bottom of every box, to counteract which is *forgery!*

More than 1000 certificates have been received at the principal office, and the people are referred to Smith's Herald & Gazette, where they can read of the most important cures. We give, for want of room, but a few

Testimonials.

Dr. Smith's Pills are purely vegetable, operate well, and produce a good result. L. LEE.
Editor of the True Wesleyan.

My wife has taken Moffat's, Morrison's, and many others, but she has received more benefit from Dr. Smith's Pills than all others. She believes they may be used by females with perfect safety, without changing their employment or diet, and at any season. JOHN KELLETT,
127 Myrtle Avenue. Brooklyn.

Dr. G. Benj. Smith's Pills have entirely cured me of dizziness in my head, and general weakness of my system. My family use them with the best results. I would not be without them.
F. H. NASH, 99 Forsyth-st.

Dr. Smith's Pills are free from the objections to which other Pills are liable, and are the best medicine that I have yet seen. J. GREENE.

Voice of the Press.

At the request of Dr. G. Benjamin Smith's agent we cheerfully state that we visited the office of Dr. Smith in September last, while in New York, and found him carrying on an very extensive business with the Indian Vegetable Pills. The extent of his establishment would astonish any one not initiated in the Mysteries of the Pill trade.—*Louisville Jour.*

Dr. G. Benj. Smith's Sugar Coated Pills are all the rage in Boston now. Children cry for them.
Boston Post.

Very much so in Rochester. The dear little responsibilities" won't believe they are medicine, no how.—*Rochester Daily Advertiser.*

They sell well at Carbondale—and so they ought to. Purchase them of Sweet & Ensign, or of Dr. A. P. Gardner, who are duly authorized agents for the sale of Dr. G. Benj. Smith's Sugar Coated Pills. Give them a trial and they must stand as high in your estimation as they now do in ours.—*Carbondale (Pa.) Reporter.*

Voice from Kentucky.

I have been afflicted with dyspepsia in the most aggravated form for three years past, and I found no relief until I used Dr. G. Benj. Smith's Improved Indian Vegetable Pills. After using sixes boxes I said valuable pills. I am entirely cured. They are a general remedy. J. K. LEEMAN.

TRI-WEEKLY HERALD.

J. SPRIGG CHAMBERS, EDITOR.

Maysville, December 13, 1847.

The Message Again.

Among the reasons given by Mr. Polk, in justification of the demands for Territory, made through Mr. Trist, is the following:

"It is manifest to all who have observed the actual condition of the Mexican government, for some years past, and at the present, that if these provinces should be retained by her, she could not long continue to hold and govern them. Mexico is too feeble a power to govern those provinces, lying, as they do, at a distance of more than a thousand miles from her capital;—and if attempted to be retained by her, they would constitute, but for a short time, even nominally a part of her dominions."

This language is used in reference to the Californias and New Mexico; and admitting for the sake of *argument*, (for certainly we have no proof of its correctness,) that Mr. Polk's prophecy might be true, what right has the United States Government, growing out of the *weakness* of the Government of Mexico, to wrest from her dominon, an integral part of her Territory? We care not how imminent might be the danger of European rapacity, or the commercial advantages to be acquired by the possession of those provinces, they do not, *cannot* afford a substantial or tenable ground for their conquest or annexation by our Government.—Admitting any other doctrine than that of non-intervention, in the policy of our Government towards neighboring nations, and the very result which Mr. Polk so piously disclaims—viz: the blotting out, of the National existence of Mexico—will be forced upon us inevitably, and that too in a very short time. Which one of the States of Mexico does the Central Government hold in subjection to its Constitution and laws?—Revolution after revolution, civil wars without number, having for their object no more dignified or worthy purpose, than the elevation to power, of the momentary favorite of a mob army, make up the political history of the country; and the incapacity of her people for self-government is no longer at all problematical.

Carry out Mr. Polk's doctrine, and our Government would be bound to take upon itself burthen after burthen of this kind until the whole of Mexico will be ours.

But, says Mr. Polk, in continuance of his argument upon this point, "There can be little doubt, that the moment the United States shall relinquish their present occupation of it (Upper California) as indemnity, an effort would be made by some foreign power to possess it, either by conquest or purchase." This he declares should not be done without permission of our government, whose policy must be not to permit European governments to establish any new colony or other domain upon this continent; and that a maintenance of this principle, in reference to these provinces, "might involve us in other wars more expensive and more difficult than that in which we are now engaged"! So, we are to "annex" the Californias and New Mexico, like Texas, partly because of the danger of foreign intervention with the affairs of this continent! What a pity it is that these Eden-like provinces, have not some skilful diplomatist like Gen. Houston, to *coquette* a little with our Government, in order to give plausibility to this bugbear of European intrigue; but unfortunately for Mr. Polk, instead of a desire to come under our rule, these much coveted provinces have not only resisted our embraces, but when once subdued by our armies, have rebelled and yet require the presence of an armed force to awe them into subjection to our authority.

We think Mr. Polk had better adhere to the one chief argument of his party, and claim the conquered Territory as indemnity for spoliations upon American commerce, and for the expenses of the war; and not attempt to support a weak cause by weaker arguments, drawn from a state of things, which may *possibly* arise hereafter, and the happening of which alone, can bring up the question of our duty as a Nation in the contemplated contingency. If the question of the origin of the war, freely discussed before the people, could change the character of the popular branch of Congress from a majority of 63 in his favor to a majority of 8 against him, it seems to us there is but little danger of his influencing Congress to sanction a policy, which we presume even he did not contemplate, in the commencement of the war

THE RECENT HEAVY RAINS.—The rumored injury to the Maysville and Lexington turnpike road by the late freshet turns out to be greatly exaggerated.

Its beautiful bridges are uninjured, and but little damage done to the paving of the road. The people on the North Fork of Licking have suffered severely: amongst them Mr. Gill, near the toll gate, is mentioned as one of the most unfortunate. We hear many rumors of serious accidents and heavy losses, but do not esteem them well enough authenticated for publication.

BANK FAILURE.—A Telegraphic despatch to the Cincinnati Chronicle, from Messrs. Ellis & Morton, announces that the 'Bank of Lewistown' has closed doors.

The President's Message—The Maysville Eagle—Ourselves.

The Editor of the Eagle informs his readers, that the Eagle and Flag had received propositions "to join" in Telegraphing the Message, &c. This is doubtless true—as is also the fact, communicated to us by the editor of the Eagle, that our *not* being included in the arrangement, was a mere oversight. This, however, is a matter of no consequence to the public, as by a union of forces with the Flag office, the subscribers to the Herald, were supplied with copies of the Message as early as they could have desired or expected. The Eagle did no more than this, and it was not our desire that they should do less.

The Eagle says the union was for the purpose of beating it. Here we will barely remark, that upon meeting that gentleman, in the street, on the night of his arrival from Cincinnati, and being told by him that *we* had the start and *would beat him*, we consoled him by saying, that such need not be the case, as our subscribers would not desire to read it before day-light, and he could surely get ready by that time—and that we did not desire to *distribute* ours before that time.

Now, for fear that your subscribers may not "*appreciate such enterprize*," we add our humble testimony, to your own, that you have been zealous and industrious in endeavoring to supply your readers with the earliest news, and that when we have beaten you in the last 9 moths (which has frequently happened,) it has been, as we verily believe, rather your *misfortune* than your *fault*. The sin of uniting forces with the Flag office, is the same that your predecessor frequently committed with the *Monitor* office, and is of frequent occurrence in every City in the Union. We frankly acknowledge that we might have failed in getting out the Message until after you did, *Richard*, had it not been that we consented to unite forces with one who was in the Telegraphic arrangement—and that one *not you*, because *we knew* that you had *expressed*, a special desire to beat the Herald—which we could the more readily believe because of your singular penchant to point your pop-gun artillery at us, rather than against those, who advocate different political sentiments from yourself. Your allusion to a *vulgar fable*, may pass for *wit* with those whose midriffs are easily tickled, you must excuse us if we call it *impudence;* and recommend to you, as our seniority permits, to be satisfied in future with the simple relation of your *efforts* to do well, and be assured that even *failure*, will be glorious—indeed, but for slow horses and bad roads (in the Lexington Express) and broken Pitman's and slow boats, in the affair of the Message, you might even now be revelling in all the pride and pomp of the title—"Napoleon of the Maysville Press."

The Weather—The River.

For near a week we have had a rapid succession of heavy rains, and consequent high water. The dirt roads in this neighborhood are deep and miry, and the water courses almost without exception, past fording.

The Ohio River is higher than it has been since the memorable freshet of 32, and judging from appearances it will be yet considerably higher. Passengers from Pittsburgh report the Allegheny and Monongahela, high and still rising, under the double tribute of a heavy rain, and the melting of a deep snow which had but recently fallen in the mountains. All the tributaries from the source of the Ohio to this point are pouring in their tribute, to swell the large volume of water, which now gives to the Ohio an appearance of vastness almost amounting to sublimity. Our Aberdeen neighbors are already, partly inundated, and some of our own citizens Messrs Eubanks and Maddox at the lower grade amongst them, have had to remove their goods, furniture &c from their houses. From the Beverly house to McCollough,s Hotel the water is either on the pavement or washing the curb-stones. Great injury to farmers occupying low bottom lands, has doubtless accrued already, and yet greater damage will be done, as we see no immediate prospect of a subsidence of the waters. It is still raining.

Major Gaines Arrived at Home.

We learn from the Louisville and Cincinnati papers, that the long deferred and anxiously expected arrival of this gentleman, has at length come to pass. He is certainly at his home in Boone county, whence he will speedily take his departure for Washington City.

We learn verbally, that the lady, the wife of his English friend in Mexico, whom he had under his charge, died at New Orleans, from Yellow Fever, superinduced by very severe sea-sickness in crossing the Gulf of Mexico. Our informant stated further that, two little children of the deceased lady, had been brought on by Major G. and were now at his home in Boone county.

☞ Letters received from a private in Capt. Cox's company of Kentucky Volunteers, report the health of the company good. Eighty cases of measles existed, however, in the command of General Butler, which was stationed about four miles below Vera Cruz, on the Gulf Coast. A forward movement was expected about the 25th ultimo, or the 1st instant. Their destination is the City of Mexico, from which point, there will doubtless be shortly, some movements upon other points, not yet subjected to our arms.

SOMETHING IN A NAME.—Attention has sometimes been called to the appropriateness of the names of our military leaders. *Taylor* has had an infinite variety of jocular allusions to the manner in which he has *sewed up* the Mexican nation. Scott has fully proved his claims to this appellation of *Win field*. *Worth* might have taken his name from his character and his deeds.—*Pierce* has gone through the enemy like a streak of lightning, while the heavy blows of the *Smith* have rung loud and clear on the Mexican anvil. *Wool*, they say, has *wooled* our foes, and *Twiggs twigged* them to some purpose. *Pillow* has invited many a Mexican to his last slumber. *Butler* tapped his share of Mexican barrels at Monterey, while *Hunter* started the game out of Alvarado, and gave his commander no chance to be in at the death. The Indiana general showed Santa Anna that there was no "turning" in that *Lane*. Some of our officers have proved even better than their names. *Childs* showed at Puebla that he was no baby, and *Bragg* proved himself more than a boaster at Buena Vista.

[*Richmond Republican.*

Why not do General Taylor justice Mr. Republican? We have military glory enough for all, and we insist upon giving Old Zack—the doughtiest knight of the *shares*, his full share of the cabbage. He has not only "*sewed up*" the Mexicans when ever he has had an opportunity, but he has *cut them out* and given them *fits*, until his praises were in every man's mouth, and the Taylor pattern has become the *fashion* of the day—so much so indeed that Scott could not venture upon a similar field of fame, without writing to "My Dear General" Taylor, for a few of the *hands* who had been under his *training*, in order that those whose *work* he was about to do might not go *Scott free*.—And when again you undertake to clothe our gallant officers in the *Harney's* of war, if you forget the *Shields*, we feel it our duty to invite you to *Quit-man!*

NEW PAPER.—We have received the 1st number of the *Kentucky Atlas*, a Daily paper commenced at Lexington, by Messrs. N. L. FINNEL & J. B. COCHRAN. As the names of those gentlemen import—it is Whig—thoroughly, truly Whig; and opens with a spirit and power, in the advocacy of correct principles, and the rebuke of the inconsistencies of Mr. Polk and his party, which promise well for its usefulness, and commend it to the patronage of the party.—We tender to those gentlemen our best wishes for their success, which they deserve, and which will be no less creditable to the community in which they live, than gratifying to the editors.

The subscription price is six dollars payable quarterly in advance, or 10 cents per week, to the carriers.

We learn from the Nat. Intelligencer of the 9th, that Nathan Sergeant, was elected Sergeant-at-arms; Robt. E Horner of New Jersey Doorkeeper, and John M. Johnson Postmaster of the House of Representatives. All but the last names gentleman are decided whigs.

WASHINGTON, Dec. 7, 1847.

SENATE.

Galleries crowded, with ladies and gentlemen—pleasant day—splendid weather—every body about the Capitol appearing happy.

Mr. Roger S. Baldwin, of Connecticut, appeared and qualified.

Messrs. Calhoun and Niles appeared in their seats.

On motion of Mr. Sevier, a committee was appointed to wait on the President of the United States, and inform him that the two Houses were ready to receive any communication which he might be pleased to make.

Messrs. Sevier, Mangum, and Cameron, were appointed the committee.

Mr. Hannegan gave notice of his intention to introduce a bill for the relief of the heirs of John Paul Jones.

The committee appointed to wait on the President, reported that they had performed that duty, and that he would to-day communicate a message in writing.

It was received at 1 o'clock; and after the reading, twenty-five thousand copies of the message, without, and two thousand copies with the accompanying documents, were ordered to be printed.

And the Senate adjourned.

HOUSE OF REPRESENTATIVES.

In addition to the members who appeared in their seats yesterday, this morning Messrs Tompkins, Bowden, Ficklin, Cook, King, of Georgia, and Mr. Tweedy, the delegate from Wisconsin, qualified.

The House proceeded to the election of Clerk, and T. J. Campbell was nominated by Mr. Toombs, B. B. French by Mr. Brodhead, and S. L. Governeur by Mr. Holmes, of S. C.

On the first ballot, there were 225 votes cast; necessary to a choice 113; of which Mr. Campbell received 113; Mr. French 109; Mr. Governeur 1; Mr. N. Sergeant 1; Mr. Geo. Kent 1.

Mr. Campbell having received a majority of all the votes, was declared to be elected. He was conducted to his seat by Mr. French, and the Speaker administered to him the usual obligation.

Mr. Evans, of Md., offered a resolution, providing for the selection of seats by drawing bits of paper from a box, as the name of each member shall be called.

Mr. Jones of Tenn. moved to lay it on the table.

The yeas and nays were ordered, and the question was decided in the negative—yeas 77, nays 113.

Mr. Hunt, at 25 minutes past 1, informed the House (as one of the committee,) that they had waited on the President, and that he had requested them to say he would communicate a message in writing.

Mr. James Knox Walker, the Private Secretary of the President, appeared at the door, announced the message, and placed it on the Speaker's table.

Before the Clerk commenced reading it, members hurried up to a little stand, near the Speaker and helped themselves to printed copies. This was perceived by the Speaker, who called to order; but the members supplied themselves, and retired to their seats, when quiet was restored.

The reading consumed an hour and thirty five minutes.

Fifteen thousand copies of the Message with the accompanying documents were ordered to be printed.

The daily hour of meeting was fixed at 12 o'clock, until otherwise ordered.

And at twenty minutes past three the House adjourned. G.

BALLOTING FOR THE SPEAKERSHIP—The Washington Correspondent of the Baltimore American thus speaks of the election of Speaker:

The Whigs declining to vote for Mr. Winthrop upon the first ballot were six in number, combining Southern men opposing him perhaps under the idea that he was too partial to Abolition; and on the other hand he was opposed for his seeming partiality to the Union as it is, notwithstanding the existence of Slavery in the States. One of his own colleagues—Mr. Palfrey—was the first to vote for another Massachusetts Man, (Mr. Hudson,) and he was followed by Messrs. Giddings of Ohio, and Tuck of N. Hampshire, for wilson of N. H. John P. Gaines of Ky., recieved a vote from Mr. Gayle of Alabama; Jones of Ga. voted for Thomas Butler King; Tompkins of Miss. for Mr. Gayle; and Levin of Pa. (N. A.) for J. R. Ingersoll.

Upon the second and third ballots, Palfrey, Giddings and Tuck adhered to their uncompromising opposition to Winthrop: The third was the last ballot, and between the absence of one of the Southern opposition. (Mr. Holmes of S. C.) and a vote from Mr. Levin. Mr. Winthrop received 110 of the 218 votes thrown, just enough to elect him.

Whig Meeting.

The undersigned, citizens of Mason county, believing that existing circumstances render it highly expedient that there should be a full expression of public sentiment by the Whigs of said county, both in relation to the pending war with Mexico, and the most propriate means of terminating it; also in relation to a proper person to be supported for the Presidency, at the Presidential election in 1848, unite in recommending that a meeting of the citizens of the county be held at the court house in the Town of Washington, on Saturday the 18th day of December, 1847. We earnestly request that the citizens from all parts of the county will attend, so the there may be a *full* and *fair* expression of Whig sentiment. It is proposed that the meeting open precisely at 12 o'clock, M.

$50 Reward!---A Horse Thief!!

RAN from Flat Rock, Bourbon county, Ky., on the night of the 20th inst., a man calling himself *William Drain* in Bourbon, *Alexander Benson* in Gallatin, (where he stole a horse,) in Williamstown *Allan*, and also in Harrison county *Alexander Deuson*, and about thirty or thirty-five years old, and about five feet four or five inches high, dark complexion, dark hair and eyes, rather round shoulders, quick spoken, rather broken, supposed by some to be a foreigner, fond of liquor, talks a little nasal tension; he has heavy eye-brows, long sharp nose, wide mouth when talking, and when not talking draws his mouth up smaller. He had a swinging walk. He had a small scar on the left side of the forehead at the edge of the hair, and a stubby finger, supposed to be the middle finger on the right hand. He had on when he left a black cap—he changes his name and clothing as often as he changes his residence. He has a wife and some children in Gallatin, and a wife in Bourbon. He is guilty of many crimes. We ask the community for the good of society, to aid in arresting him. The above reward will be paid by any of the undersigned to any person securing the thief in any of the county jails an nexed to our names.

He has, further, at a good deal of expense and trouble, provided himself with an excellent

HEARSE

for the accommodation of the neighborhood, and will, at short notice, furnish the friends of deceased persons with coffins of any description, which he will deliver in the hearse, and when required perform all the duties of an undertaker, at a moderate price. Notice to Tobacco Planters.

WE, the subscribers, would respectfully give notice to our friends of whom we have purchased Tobacco this season that we shall expect every man to deliver his article in *good prizing order, well culled, free from all house-burned, frazilbitten or worthless, trashy ground leaf*, not embraced in our contract. And in order to avoid all disputes, misunderstandings, &c., between buyer and seller, the above conditions will be rigidly enforced on our part, as from the very bad *handling*, on the part of many, as well as the *order* of Tobacco shipped last season, we are satisfied from the present indications from abroad, that the *Mason county* Tobacco will, when shipped, be subjected by the foreign purchasers and Inspectors, to an unusually close examination and inspection; consequently, if our friends (who all agree have been paid the most liberal prices) do not *strictly conform* to the above stipulations, we must inevitably suffer loss, and therefore would most respectfully, yet *earnestly*, call their attention to the *above notice.*

Sale of Land and Slaves.

Pursuant to a decree of the Mason Circuit Court rendered upon the petition of the heirs of Libtha Gooch, deceased, I shall as commissioner appointed by said decree, sell, on the 25th day of December next, in the town of Minerva, county of Mason, a tract of land containing about sixty-two acres, situated on the road from Minerva to Dover and adjoining the land of John P. Patton, William T. Craig and John Chiles. There is upon said tract a good double hewed log house and kitchen, and the land lies well, and is valuable having upon it a well of never failing water. At the same time and place, I will also sell two slaves, one a negro man, the other a valuable woman. The land and slaves are to be sold upon a credit of one and two years, the purchaser giving bond with approved security, payable to the undersigned, as Commissioner; sale bonds to bear the force and effect of bonds taken upon sales made under execution.

New and Good!

I HAVE just received from Cincinnati, a lot of "Green's Patent Cooking Stoves," four sizes of which I now offer for sale at Cincinnati prices, for cash in hand. These stoves come highly recommended by *one hundred and sixty-one* citizens of Cincinnati and Kentucky, in the following language, viz—"We, the undersigned, have used most, if not all, the popular Cooking stoves, and have now in use Green's Patent, which we by far give a decided preference. In point of economy, quickness in cooking, heat of plate and economy of fuel, in baking we believe it can have no equal. We cheerfully recommend the above stove to all who may wish to purchase, as we believe it far superior to any now in use."

N. B. Any one who shall purchase the above named Green's Patent, after giving it a fair trial, and believe it not to come up to the above recommendation, may return the same and I will refund the money.

The Best Anti-Bilious Medicine Known.

PROOF is everything; and the best proof that *Dr. Charles Van Zandt's Anti-Bilious, Health Restorative Pills* are the most superior pills now before the public, is that the proprietor is continually receiving certificates by scores, and that he is selling through all parts of this country and South America, over

The reader will say that this is an immense sale, and, perhaps, doubt the truth of our assertion; but we can convince all who choose to investigate the matter, that we have underrated, if anything, the success of this most excellent medicine.—Bilious complaints are the most dangerous, most insidious, and *most obstinate of all disorders*;—no Kentuckian doubts this,—and if you would be relieved quickly, thoroughly and at small cost, call on the undersigned, and the result will prove your wisdom.

Pospectus of the Maysville Herald,
TRI-WEEKLY AND WEEKLY.

THE undersigned proposes to publish a *Tri-Weekly* and *Weekly* paper in the city of Maysville, to be called "THE MAYSVILLE HERALD," which will be devoted, in its political department, to the advocacy of the great principles of National Policy professed by the Whig party.

Relying mainly for support, upon a Commercial and Trading people, the Editor will seek to bring prominently before them, the advantages which Maysville affords to the surrounding country, as a market, for the products of the South, the manufacturers of the North and East, and the productions of the agriculture and domestic industry and skill of Northern Kentucky and Southern Ohio.

The HERALD will contain the latest Political and Commercial News, foreign and domestic, and keep its readers well advised of the state of those markets most frequented by the Merchants and Traders of that section of country in which it is published. It will also contain the usual amount of Literary and Miscellaneous matter to be found in papers of its class.

The subject of facilitating intercourse between the City and surrounding country, so important to the prosperity of both, will receive such attention as may be necessary to place it properly before those most interested in the result.

We shall foster and encourage, by all the means in our power, the Manufacturing and Mechanical interest, from a conviction that no town or country can prosper greatly, whose citizens prefer to give to their surplus products all the value which reproductive industry can bestow, before making them the subject of her commerce.

So soon as the necessary arrangements can be made, we intend to publish, for the benefit of our Farmers, such information upon the subject of their noble pursuit, as experience and the application of the principles of science have developed, or may hereafter make known.

In short, we will aid, to the utmost of our power, by all legitimate means, in bringing into action the springs of prosperity, upon which the happiness of those most interested in our labors depends.

TERMS:

For Tri-Weekly paper *four dollars* in advance, *four fifty* within the year, or *five* at the expiration of the year.

The Weekly Herald on a large double-medium sheet, *two dollars* in advance, *two fifty* within the year, or *three* at the end of year.

Benefit of Insurance.

THIRTY-TWO Thousand Dollars saved by insurance on the fires that occurred in this city, all within 90 days. The above fact should induce every person who has property to loose to come forward and insure their property, as a very small amount paid annually may save many families from ruin. This Agency has paid out $10307,54, other agencies have paid Twenty-two Thousand Dollars, all of which has been promptly adjusted and paid according to the policy, and the policy on losses in this city during the present summer. Farmers can have their dwelling houses insured at the rate of $5 per thousand on brick houses and $7 50 per thousand on Frame houses. Brick City property insured at about ¾ to 1 per cent, according to location. That all can be protected.

AGUE AND FEVER.
FLETCHER'S CELEBRATED IMPERIAL
AGUE AND FEVER OR TONIC PILLS.

THE proprietors of this invaluable remedy for Ague and Fever or Intermittent Fever, deem it unnecessary to enter into a long dissertation, relative to the disease for the radical cure of which, the remedy now offered stands unrivalled. The universal prevalence of the Ague and Fever, and Intermittent Fever, throughout most of the states of the Union, and the thousands who annually suffer from it, unhappily render it so well known, that to dilate on its symptoms or pathology, seems wholly unnecessary. It may, however, with propriety be observed, that the neglect to cure what is too often called "only the Ague and Fever;" often leads to diseases more fatal in their nature, among which may be classed, diseases of the Liver and enlargement of the Spleen, commonly called *Ague Cake*, which in too many cases proves fatal.

Thousands of certificates might be published in reference to the efficacy of the Pills now offered to the public, which the proprietors deem unnecessary to publish. Suffice it to say, they have never been known to fail in a single instance. ONE BOX, when taken according to directions, is *warranted* to cure any case of Ague and Fever, or Intermittent Fever. The ingredients being PURELY VEGETABLE, and entirely free from any deleterious substance, they are confidently recommended as the safest, as well as the most efficacious article ever offered to the Public! The form in which these Pills are put up, (small tin boxes,) renders them more convenient than any other, as a man can carry them in his vest pocket without the slightest inconvenience.

FLETCHER'S
"NE PLUS ULTRA" VEGETABLE COMPOUND
CATHARTIC AND DEOBSTRUENT PILLS.

These Pills, now for the first time offered to the Public, have been used in private practice upwards of Forty Years, by a celebrated Physician, formerly a member of the Royal College of Surgeons of London and Edinburg, and Licentiate of Dublin University.

The proprietors deem it unnecessary to enter into any lengthened discussion as to the merits of these Pills—neither will they say, that they "will cure all the ills that human flesh is heir to"—but they lay claim to one *great fact*, and that is this; they are the very best pills ever invented, not merely as a simple CATHARTIC, as their properties are various. They are a *Compound Cathartic*, and *Deobstruent Pill*. They cleanse the *Stomach* and *Bowels* without pain or griping; they act specifically upon the *Liver and Kidneys*, and as a Diuretic, they cause an *increased discharge of Urine*—restoring a healthful and proper action to the URINARY ORGANS. For monthly complaints, to which *Females* are liable, they will be found most efficacious in removing obstructions and restoring them to perfect health. It is perhaps needless to add, that if the STOMACH and BOWELS are kept in a proper state, no fears should be entertained in reference to the welfare of the body.

We need only say to those who have tried all other Pills, of whatever name, to give the "Ne Plus Ultra's," one trial, and we feel perfectly confident, that they will satisfy *all* that *they are the* PILLS! unequalled as well as unapproachable!!
