FITS! FITS!
HART'S VEGETABLE EXTRACT
Is the only remedy now to be relied on for the permanent cure of Spasmodic Contractions Irritation of the Nerves, Nervous or Sick Headache, Nervous Tremors, Neuralgic Affections, General Debility, Deficiency of Nervous and Physical Energy, and all nervous disorders, including the most dreadful of all diseases that ever afflicted the human race—
EPILEPTIC FITS,
or Falling Sickness, Hysterical Fits, Convulsions, Spasms, &c., Dr. Hart would impress it upon the minds of the afflicted, that the Vegetable Extract is the only remedy ever discovered that can be relied on for a permanent cure of this most dreadful of all diseases. As its tendency is to insanity, madness and death, the most hopeless of all diseases.
SKILFUL PHYSICIANS
of Europe, as well as those of our own country, have pronounced Epilepsy incurable. And it has been so considered by mankind, until this most important of all discoveries was made by Doctor S. Hart, nearly sixteen years since, during which time it has been performing some of the most
REMARKABLE CURES
upon record, and has acquired a reputation which time alone can efface. Physicians of undoubted skill and respectability, Ministers of various denominations, as well as hundreds of our eminent citizens, all unite in recommending the use of this truly valuable medicine to their patients, charge, and friends, who are afflicted, as the only remedy.
WE QUOTE THE LANGUAGE
used by those who have been cured by this valuable medicine. One says, "I have suffered beyond my power of description, but now I rejoice in being fully restored to health and happiness." Another says, "I thank God that I feel that I am a well man. I also feel it a duty to proclaim to the world the fact, that those similarly afflicted may find relief." Another, (who is an
EMINENT LAWYER,
and well known in this city,) says, "my son has been afflicted for years with Epilepsy, but is now enjoying good health from the Vegetable Fruit. Its fame," says he, "should be sufficient to be sounded to the ends of the earth." Another says, "language is entirely inadequate to express my gratitude to Dr. Hart, for having been the means, under the blessing of God, of restoring me to the enjoyment of good health, after having been afflicted with Epilepsy in its worst form; and my morning and evening oblation of praise and thanksgiving shall continue to ascend to that God who has afflicted but to make me whole."
EPILEPTIC FITS
of twenty seven years and six months, cured by the use of this Truly Wonderful Medicine.
Read the following remarkable case of the son of Wm. Secore, Esq., of Philadelphia, afflicted with Epileptic Fits twenty seven years and six months. After traveling through England, Scotland, Germany and France, consulting the most eminent physicians, and expending for medicine, medical treatment and advice, three thousand dollars, returned home, as was to this country, in November last, without receiving any benefit whatever, and who cured by using HART'S VEGETABLE EXTRACT.
MR. WM. SECORE'S LETTER TO DR. HART.—I have spent over three thousand dollars for medicine and medical advice, and was advised to take a tour to Europe with him, which I did. I first visited England. I consulted the most eminent physicians there in respect to his case; they examined him and wrote accordingly. I remained there three months without perceiving any change for the better, which cost me about $250, besides the time and trouble. I was most that I received was their opinion that my son's case was hope'ess, and
INCURABLE.
I accordingly left England, travelled through Scotland, Germany and France, and returned home in the month of November last, with my son as far from being cured as when I left. I saw your advertisement in one of the New York papers, and concluded to try Hart's Vegetable Extract, seeing your statements and certificates of so many cures, some of twenty and thirty years standing, and I can assure you I am not sorry I did so, as by the use of Hart's Vegetable Extract alone, he was restored to
PERFECT HEALTH.
His reason, which was so far gone as to unfit him for business, is entirely restored, with the prospect now before him of life, health, and usefulness. He is now 28 years of age, and 27 years 6 months of this time has been afflicted with this most dreadful of diseases, but thank God is now enjoying good health.
Now, sir, faith without works is dead. I don't believe in. To my I shall be ever grateful to you in one thing, and as I here enclose you one hundred dred dollars, I have no doubt but you will take this another and quite a different thing. The debt of gratitude I still owe you, but please accept this amount as interest on its debt in advance. Yours, very respectfully,
(Signed) WILLIAM SECORE.
Another Remarkable Case.
Read the following certificate of Mr. Wm. H. Parsells, afflicted with Epileptic Fits twenty three years; Cured by using Dr. Hart's Vegetable Extract.
To all whom it may concern.—I hereby certify, that I have been afflicted for upwards of twenty three years with Epileptic Fits. It would be impossible for me to describe the amount of my sufferings, the almost constant dread, the awful forebodings and symptoms of a returning fit, the
SLEEPLESS NIGHTS,

FITS!!!

HART'S VEGETABLE EXTRACT

Is the only remedy that can be relied on for the permanent cure of Spasmodic Contractions Irritation of the Nerves, Convulsions or Sick Headache, Nervous Tremors, Neuralgic Affections, General Debility, Deficiency of Nervous and Physical Energy, and all the various disorders, including the most dreadful of all diseases that ever afflict the human race—

EPILEPTIC FITS,

or Falling Sickness, Hysterical Fits, Convulsions, Spasms, &c. Dr. Hart would impress it upon the minds of the afflicted, that the Vegetable Extract is the only remedy ever discovered that can be relied on for the permanent cure of this most dreadful of all diseases. As its tendency is to insanity, madness and death, the most

SKILFUL PHYSICIANS

of Europe, as well as those of our own country, have pronounced Epilepsy incurable. And it has been so considered by many, until this most important of all discoveries was made by Doctor Hart, nearly sixteen years since, during which time it has been performing some of the most

REMARKABLE CURES

upon record, and has acquired a reputation which time alone can efface. Physicians of undoubted skill and experience, Ministers of various denominations, as well as hundreds of our eminent citizens, all unite in recommending the use of this truly valuable medicine to their patients, charge, and friends, who are afflicted, as the only remedy.

WE QUOTE THE LANGUAGE

used by those who have been cured by this valuable medicine. We say, "I have suffered beyond my power of description, but now I rejoice in being fully restored to health and happiness." Another says, "I think God that I feel that I am a well man. I also feel it a duty to proclaim it to the ends of the earth, that those similarly afflicted may find relief." A Minister, (who is an

EMINENT LAWYER,

and well known in this city,) says, "my son has been afflicted for years with Epilepsy, but is now enjoying good health from the Vegetable Extract. Its fame," says he, "should and ought to be sounded to the ends of the earth." Another says, "language is entirely inadequate to express my gratitude to Dr. Hart, for having been the means, under the blessing of God, of restoring me to the enjoyment of good health, after having been afflicted with Epilepsy in its worst form; and my morning and evening oblation of praise and thanksgiving shall continue to ascend to that God who has afflicted but to make me whole."

EPILEPTIC FITS

of twenty seven years and six months, cured by the use of this Truly Wonderful Medicine.

Read the following remarkable case of the son of Wm. Secore, Esq., of Philadelphia, afflicted with Epileptic Fits twenty seven years and six months. After traveling through England Scotland, Germany and France, consulting the most eminent physicians, and expending five thousand dollars, returned with his son to this country, in November last, without receiving any benefit whatever, and was cured by using HART'S VEGETABLE EXTRACT.

MR. WM. SECORE'S LETTER TO DR. HART.—I have spent over three thousand dollars for medicine and medical attendance. I was advised to take a tour to Europe with him, which I did. I first visited the Hospitals and consulted the most eminent physicians there in respect to his case; they examined him and prescribed accordingly. I remained there three months without perceiving any change for the better, which cost me about $250, pocketed by the physicians, and the most that I received was their opinion that my son's case was hopeless.

POSITIVELY INCURABLE.

I accordingly left England, travelled through Scotland, Germany and France, and returned home in the month of November last, with my son as far from being cured as when I left. I saw your advertisement in one of the New York papers, and concluded to try Hart's Vegetable Extract, seeing your statements and certificates of so many cures, some of twenty and thirty years standing, and I can assure you I am not sorry I did so, as by the use of Hart's Vegetable Extract alone, he was restored to

PERFECT HEALTH.

His reason, which was so far gone as to unfit him for business, is entirely restored, with the prospect now before him of good health, and usefulness. He is now 28 years of age, and 27 years 6 months of this time has been afflicted with this most dreadful of diseases, but thank God is now enjoying good health.
Now, sir, faith without works I don't believe in. To my I shall be ever grateful to you is one thing, and I have spent over one hundred dred dollars, I have no doubt but you will think this another and quite a different thing. The debt of gratitude I still owe, but please accept this amount as interest on the debt in advance. Yours, very respectfully,
(Signed) WILLIAM SECORE.

Another Remarkable Case.

Read the following certificate of Mr. Wm. H. Parsells, afflicted with Epileptic Fits twenty three years; Cured by using Dr. Hart's Vegetable Extract:

To all whom it may concern.—I hereby certify, that I have been afflicted for upwards of twenty three years with Epileptic Fits. It would be impossible for me to describe the amount of my sufferings, the almost constant dread, the awful forebodings and symptoms of a returning fit, the

SLEEPLESS NIGHTS,

together with all the unspeakable torture of the body and mind, which the poor victim of this dread scourge and hitherto invulnerable foe of mankind, alone can realize. I have tried various stages of this disease, from having the attacks light, and far between, to severe, and very frequent. I have tried the multitude of

NUMEROUS PHYSICIANS;

in a word, I have tried until I grew weary of trying, without receiving any benefit whatever, and I looked forward to the merciful Death, the Deliverer of mortality, to end my misery and conflict in this, which has been to me truly a vale of tears. But thanks be to God, I am

RESTORED TO HEALTH,

and have every reason to believe that the disease of Epilepsy is entirely removed from my system. My friends have noticed the great change wrought in my appearance, and congratulate me on my recovery to health. All nature to me seems new and beautiful, my mind is now no more a great burden, but now a blessing; and truly I have every reason to be thankful. As it is
DR. HARTS VEGETABLE EXTRACT,
which has, by the blessing of the Almighty, wrought in me this almost miraculous cure, I would cheerfully recommend this medicine to all who are afflicted with Epileptic Fits.

Sworn before me, this seventh day of March A.D., 1846. W. P. HAVEMEYER, Mayor.
I have been intimately acquainted with Mr. Wm. H. Parsells about eight years, and believe him to be an honest and upright man, whose integrity is unimpeachable. He has been five years in the city of New York, in my immediate employment.
(Signed) ROLAND GELSTON,

Testimony upon Testimony.

Mr. Stephen Pratt, residing corner of Sixth avenue and Twenty-Sixth street, New York, states that Mr. Charles H. Boughton, a member of this Church, has been so severely afflicted with epileptic fits for many years, that he was obliged to relinquish his business. Having used Dr. Hart's Vegetable Extract, says Mr. Pratt, he was soon restored to perfect health, and left this city for the State of Ohio to resume his business.
Rev. Mr. Smith, rector of St. Peter's church, Spotswood, New Jersey, who has been afflicted with epileptic fits for more than forty years, states that he has used Dr. Hart's Vegetable Extract, and has been so much improved that he hopes, by Divine blessing, to have no more fits. When thousands who are now trembling under the hand of this dreadful disease, and feeling that every attack may prove fatal, will find permanent relief, and be restored to new life by using this celebrated medicine.

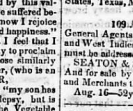
Months Bulletin, No. 12.



In consequence of the new and extraordinary triumphs of the following Medicines, the Grafenberg Company have decided to devote another bulletin to them.—The first Marshall's Uterine Catholicon, is an infallible specific in Prolapsus Uteri, falling of the womb, and all other uterine and urinary diseases.
Its specific action is immediate and certain upon the uterine sympathetic nerves and Muscles; restoring the parts to their healthful state as those of childhood or of youth. Supporters, bandage, pessaries, and the like are immediately dispensed with, and the pain, and weakness consequent upon the differed parts, are removed. Patients who have used the medicine cannot sufficiently express their gratitude for the relief experienced.
The article has received the encomiums and patronage of some of the oldest and ablest of the medical faculty. Its reputation (where name is at the service of any inquirer,) says the curse it performs are more like miracles than any thing else he can compare them to.—Cases which had been pronounced hopeless have been within his own knowledge perfectly and speedily cured.

Libby's Pile Ointment,

is warranted to cure, no matter how extreme the case. A surgical operation for the piles may be entirely avoided by its use. The attention of the medical faculty is especially called to it. If it does not cure, the money will be instantly refunded. But such a contingency has never been known. ☞The first unsuccessful application of it is yet to be learned.

Valuable Medicine!

WE take no little satisfaction in introducing Hastings's Compound Syrup of Naphtha, as the most perfect regenerator of the human system that has yet been discovered. There are diseases which it is not protended it will have any effect on; but in Asthma, in the formation of Tubercles on the Lungs, in the Spitting of Blood, in the wasting of the flesh, and the stubborness thereof, and in the decay, insitudo, and weakness of the system, it has been proven by a mass of the most indubitable evidence, to be a speedy and positive cure; while in pecktive Consumption it is the only authenticated remedy now in existence.

Coughs, Colds, Asthma, &c.,

It almost instantly relieves by the warmth it imparts throughout the system, and by its wonderful efficacy in cutting through and removing phlegm, which is far superior to that of any other known medical agent.
The number of certificates received from individuals in England, and elsewhere, who have been cured or benefitted by Hastings's Naphtha Syrup, has been very great, but want of space compels their omission.

Caution for
The American Continent.

As the unrivalled reputation and success of this great Medicine are likely to produce many counterfeits, purchasers should be particular to inquire for "Hastings' Compound Syrup of Naphtha," and to see that the outward wrapper of each bottle contains the written signature of M. A. F. HARRISON, Hastings' Agent, to counteract which, is felony.

Information Wanted.

Information is wanting of one ELISHA S. BERSON, who was in Eddyville, Ky., in 1835, and since that time came to Mason county. WELL DONE!—Rumor says that our old friend, SAMUEL C. PEARCE, of the firm of Poyntz & Pearce, has taken command of the steamer Kenton, and that he made his debut, in the capacity of Captain, on Friday last.

We always knew that the gentleman was naturally *a captain*, but never before knew that he was a captain by *commission*.

AN EDITOR IN LUCK.—It affords us pleasure to see that our worthy and esteemed friend, Col. CHARLES H. BROWN, of the Cincinnati Enquirer, has been elected Supreme Judges of Ohio.

The Colonel is well qualified for that position, and we rejoice in his good fortune; but we are sorry to lose him from the *corps editorial*, nevertheless.

Hit him again, Colonel, he deserves it all!

OUR DAILY.—The *Kentucky Flag*, printed at Maysville, Ky., notices our paper, as being the "neatest printed daily which comes to our table," but adds that it "lacks variety."

We thank the *Flag* for his compliment to our typography, but cannot but think, whilst noticing the want of variety in our daily paper, which is undeniable, he might have carried his courtesy a little further, and given the reason, obvious as it must be to every one who looks at the Daily Globe, why there is not more variety. As he did not give it, however, we will.

The Daily Globe is essentially and professedly a record of the daily Congressional proceedings, which appear in full, and a few hours after Congress adjourns every day. To make room for these proceedings everything else is excluded, and nothing, not even a brief editorial, can find room until they are provided for. Of these proceedings, there are daily from fifteen to twenty-two closely printed columns. And this being the case, it is impossible for us to give any great variety to our Daily, except what is to be found in the Congressional proceedings.

[*Washington Globe.*

True; we might have carried our courtesy further, and we should have done so; but we assure our friends, BLAIR & RIVES, that we had no *intention* to do them injustice in the remarks alluded to, nor to derrogate from the true merits of their most excellent paper. We cheerfully give them the benefit of the explanation which they have made above, and endorse the same as being true.

☞ A shallow and conceited aspirant to literary distinction, presented the learned and facetious Dr. Porson a copy of one of his productions, with the remark that "it would be read when Shakspeare was forgotten." "Yes," said the doctor, "and not till then."

GOOD.—The New York Legislature has passed a bill making prize fighting a State Prison offence.

MARRIED—On the 17th inst., Mr. Daniel Cupp, aged 72, to Miss Rebecca Margaret Sheets, aged 24, daughter of Mr. Jacob Sheets.—*Exchange.*

One would naturally think the old man was in his *cups*, or he would not have hazarded such an adventure amongst the *Sheets*.

Gov. BEBB was among the "distinguished" personages who went to Cincinnati to see Gen. Taylor. The *Enquirer* says he "again thanked God that Ohio stood in the forefront of the opposition to the damnable Mexican war. He also let off some flashes of his lightning and other fire works, in front of the Atlas office, in the evening."—*Dayton Empire.*

Wonder if the "Ashes of Despair" were not again *raked over*, at the same time?

From the Louisville Chronicle.

The Present Position of Emancipation.

The emancipators having been foiled in their attempts to engraft an emancipation provision in the new constitution, have fallen back upon the hope of so managing matters as to keep up a constant *agitation* of the question in the State. This should be well looked to and guarded against. It will be recollected that we quoted a paragraph from the Louisville Journal a few weeks since, in which the wish was expressed to leave this an open question, and we now find the Maysville Herald, formerly an Emancipation paper, disavowing its old doctrines and taking the same position. The emancipators of this city are also falling into the same strain, and the "Courier" and the "Examiner," the two abolition papers in this city, both look favorable upon it.

The following is an extract from the Maysville Herald:—

"We do not desire to see the question of emancipation introduced into the convention with a view to engrafting a system of gradual emancipation into that instrument; because we fear that the encrossing interest felt in the subject—as the advocates of emancipation,—might prevent proper deliberation in regard to other subjects of vital interest to the common wealth, which will necessarily be brought before that body.

"We desire, however, to see the friends of emancipation take every necessary precaution against restricting the people from the exercise of their right to express their sentiments in regard to this subject *at the Polls*."

From the Ploughboy,

The Meeting in Mason.

The friends of emancipation in Mason county, met at Maysville on Monday, the 12th inst., and adopted a series of resolutions embracing their views on the subject of emancipation in Kentucky. These resolutions are far more liberal (sensible would better, perhaps, convey our meaning) than those of any emancipation meeting we have yet noticed, and, but for their extreme length, should be inserted in full. We make room, however, for the principal resolution:

6. We distinctly avow that we desire to see some system of Emancipation accompanied by Colonization, engrafted in the Constitution about to be formed.—We do not however at present deem it proper to insist upon that measure. But we do deem it indispensable to insist upon the insertion of a clause in the New Constitution, by which the people will be allowed to vote on that subject, seperately, whenever an act of the Legislature can be passed which shall authorize the same; and whenever a majoritority of the people shall clearly manifest a desire for Emancipation, that their will thus expressed shall then be engrafted into the Constitution; to be as effectual as if originally inserted.

This resolution seems to breathe a generous spirit of compromise; but it is not on account to be considered wholly unexceptionable. On the contrary, it appears to us that the specious language in which it is couched, is itself an objection for it is calculated to mislead the public mind with regard to the real effect of the clause which it insists upon having inserted in the new Constitution. Now, we cannot consider the insertion of such a clause at all preferable to that of a fixed plan of emancipation; for each would act in a similar degree as a clog upon the new Constitution, and would serve to endanger the chances of its being approved by the people. Besides, if it were practicable to adopt a Constitution containing the proposed reservation of the right to vote upon the question of Emancipation, as suggested in the foregoing resolution, then this provisionary clause would serve as an eternal bone of contention, would thus be productive of more harm, perhaps, than could accrue from the adoption of some definite system of Emancipation.

It is not our opinion, that the resolutions adopted by the meeting in Mason, are any better than the suggestions of Emancipationists elsewhere, except that they are expressed in mild and courteous language, and are therefore, entitled to respectful consideration.

Of all the passages in a young man's life, there is none so trying, so solemn, or accompanied with so much earnest feeling, as seeking for the lucifer-box in the dark!

Among the addresses presented upon the accession of James 1, was one from the ancient town of Shrewsbury, wishing his majesty might reign as long as the *sun, moon and stars endured*.

"Faith, men," said the king, to the person who presented it, "if I do, my son will reign by *candle light*.

Inhuman Treatment to a Lady.

The most outrageous affair that ever came within our chemical range, occurred on Monday evening last, one of the coldest evenings experienced this winter. The circumstances were communicated by Lieutenant LEGG of the night watch.—We give them as they were related. A gentleman here, has lately been married to a young woman of respectable connections in the northern part of the State came here a short time since and procured a room in the boarding house of Mr. Hunt on Fifth street. Remaining there a short time, the husband started on a peddling excursion (which business he follows,) to Maysville, leaving his wife at his house. Being absent several days, the wife received a letter from her husband, stating that he would be here in two or three days; but the husband having been absent longer than he anticipated, the wife's money gave out, and she was compelled to throw herself upon the generosity of the landlord, until the arrival of her husband, who was looked for daily. The amount due up to Monday, was three dollars. This insatiable and unfeeling man, finding the lady was without that small sum, ordered her from the house after eight o'clock. Being a stranger she knew not what course to pursue or whither to go—she hesitated about leaving. Her meditations were soon interrupted by the landlord, who laid hands upon her and conducted the helpless woman to the street. With tears in her eyes, she wandered through the cold until a late hour, knowing not at what place she could receive protection from the cold night air. Officer LEGG, while going his rounds, met this unprotected female, who related the above inhuman circumstance—a circumstance which is in the highest degree revolting to human nature. What added more to the inhumanity of the transaction, is, that the young lady was about to become a mother. The officer very humanly placed the sufferer in his family, where she now receives every attention.

The following morning officer LEGG and constable THOMAS, went to the house armed with legal authority, and demanded the lady's baggage, which was denied them; but on the exhibition of a "small paper" called a warrant, her goods were reluctantly handed over. It shocks us to record such inhumanity.—*Cin. Com.*

NINE HUNDRED DOLLARS.—We understand our City Fathers appropriated this sum to pay the expenses of receiving Gen. Taylor. The items paid for we should like to see specified. Private contributions, we understand, were made, and the dinner was paid for at the rate of $5 per head. Where is the $900 to go? And we should like to know what clause in the city charter authorizes such expenditures. If this is to pay for that dinner, why were not the tax-payers invited to help eat it? Who authorized a few to eat to the honor of Gen. Taylor at the expense of the many? We believe this is the first time our Council has made an appropriation of this kind, and it is suspected that partyism only can excuse the act. When a democratic President elect passed through this city—without violating the Sabbath either—the Council were not asked to bear the expense, and would not have done it if they had been asked. But it is all right for a whig President to come to Louisville on Sunday to be received with a grand parade headed by a Presbyterian Mayor; and then it's all in order for the tax payers of Louisville to foot the bill for a big dinner, advertised at $5 per head to keep the canaille out, and feed the *patriots*. The people of Louisville we know will stand anything that has the odor of whiggery about it, and will perhaps stand this; but common sense will call the whole business a perfect outrage.—*Lou. Democrat.*

☞ The ladies of Frankfort presented Gen. Taylor with a book containing the bible and the constitution. The Rev. Mr. Robinson officiated on the occasion. He said of the book:

It is intended as a slight token of their reverence for a man in whose life they trace many resemblances to the heroes of sacred history, whom God called, unwilling, from modest privacy to unsought honors, and to be a nation's benefactor. It is a token, also, of their affection for the chieftain who led their sons and brothers to the field of glory.

The whole address is in the same strain; and we confess it beats us out entirely. We never read a match for it.—Well, Taylor and his party showed how much they regarded the bible last Sunday week, and they will no doubt show about the same respect for the constitution.—Their mouthing about the bible and the constitution are equally hypocritical and disgusting.

Gen. Jackson and James K. Polk refused all parade on the Sabbath day, and made no ado about it either. They only showed a decent respect for religious institutions; but this mouthing puristy party always have cant on their lips to hide their vile practices.—*Lou. Democrat.*

Somebody says that females go to meeting to look at each other's bonnets.—That's downright scandal! They go to show their own.

The other morning a little boy, not many leagues from here, set up a great moaning as though he was in deep distress, when his mother asked him what ailed him? The little fellow put his hand up to his forehead, and drawing his face into most horrible contortions, said, "*Ma, I guess I'm getting the California Fever.*" *Signal.*

☞ Those who paid for the reception of James K. Polk four years ago, are requested to make out their bill and present it to the next meeting of the Council.—There is plenty of money in the treasury, doubtless, and the City Fathers will now, of course, assume all debts of this kind.—*Lou. Democrat.*

LATER FROM YUCATAN.—Advices to the 20th ult. have been received from Yucatan. The Indians continue their attempts against Tihosuco and Valladolid with the same ardor and ferocity as ever, although they are always beaten, pursued, and driven back to their dens. Col. Gonzales gave an unexpected blow to the rebels on the 10th inst. by occupying suddenly the important town of Chikinconet, taking prisoners Capt. Jose Maria Yama, two Lieutenants, and 27 Indians, with their families; and capturing many valuables. The Indians are becoming exasperated, and their ammunitions are almost exhausted.—*Lou. Dem.*

COLONEL WM. R. JOHNSON, of Virginia, is no more. He expired at Mobile early on the morning of the 10th, after a short but most painful illness, retaining his consciousness to the last moment, and entirely sensible of his approaching dissolution. *Louisville Democrat.*

TRIAL OF SKILL.—The water engines Pacific and George Washington, had a trial of skill at Cincinnati, on Wednesday afternoon. The wager was fifty dollars a side, the money to be appropriated to the firemen's fund. The Pacific threw 180 feet and 6½ inches—the George Washington 180 feet and 9½ inches.—The judges would not decide. They are to have another trial.—*Lou. Dem.*

ILLNESS OF GEN. CASS.—A telegraphic dispatch to the Buffalo Courier, dated Detroit, Feb. 13, says: "Gen. Cass is quite unwell with the prevailing influenza—so that it is unsafe for him to start on his journey to Washington. He will leave as soon as he is well enough, and probably go by the way of Buffalo."

FOR CALIFORNIA.—Ex-Governor Shannon, of Ohio arrived in Baltimore on Friday evening, from his native State in company with a party of twenty men, who proceeded to New York on the following day, where they intend embarking round the Horn, to California. The whole party consists of sixty men, with a capital of $15,000, and will soon be on their way to the promised land. Gov. Shannon, after superintending the embarkation will return to Baltimore, and start for that country by the overland route *Lou. Dem.*

☞ When the war-worn volunteers came home from Mexico last summer, some of our citizens determined to give them an entertainment. They made contributions and gave a dinner. It was ascertained that the expense exceeded the means provided by about $250. Two gentlemen applied to the Council for this small sum, and was told that the Council had no power to appropriate money for such a purpose. But when the General comes along, heralded by the roar of cannon on Sunday, having been elected President by a party, then all scruples are thrown aside and $900 are appropriated; $600 of which we understand was to pay for a dinner to be eaten at five dollars per head. We are glad to find that this act is considered as a downright robbery of the city treasury, approved by few if any of the people of Louisville.—*Lou. Dem.*

The Springfield Republican says that there was once a man in that town who was so polite as to say, as he passed a hen on her nest, "Don't rise, ma'am."

FROZEN OVER.—The Susquehannah river, at Harve de Grace, is frozen over.—Passengers and the mails are carried over in sleighs. The ice is said to be so thick that a locomotive might pass over it in safety.

LONGEVITY.—The New Orleans Crescent, of the 13th, notes the death of a colored woman in that city at the advanced age of one hundred and thirty-one years.

Let no one suppose that by acting a good part through life he will escape slander. There will be those who hate him for the very qualities that ought to procure esteem. There are some folks in the world who are not willing that others should be better than themselves.

The establishment has recently been enlarged and the facilities for doing business greatly increased; therefore, they invite purchasers to call and examine their stock and prices. [Nov. 1, 1848.]

Ayer's Cherry Pectoral.

AN ANODYNE EXPECTORANT, prepared on the new plan of combining the isolated active principles of medicine, in their purity; a plan which is found to give an energy and certainty of remedial effect far surpassing any thing in use. The substance of which it is composed are believed to be the most reliable for the relief of pulmonary disease, viz: Morphine, Sanguinarine, Emetine, Tart, Ox, Antim, et Pot., Hydrocyanic Acid, Saccharum, Spt. and Aqua, Camphor, &c. &c. as perfectly to resist the action of time; and affording to physicians a compound of *free permanent* hydrocyanic acid—a desideratum in medicine, not hitherto obtained. Its formula has been published in this and othe Medical Journals, and also submitted to some of the highest Medical authorities in this country, among which are the Berkshire College of Medicine, Pittsfield, Mass; Willough by Medical College, Columbus, Ohio; Bowdoin Medical College, Brunswick, Me.; Vermont College of Medicine, Castleton, Vt.; Geneva, N. Y., and also in manuscript to a large part of the medical faculty of the United States.

The attention of practitioners is respectfully solicited to this preparation, and it is confidently believed it will commend itself to their favor and confidence, having been found an invaluable remedy in treating the most obstinate as well as milder forms of pulmonary disease.

Prepared by James C. Ayer, Lowell, Mass. Sold by Druggists and Apothecaries generally in the Northern, Western, and Southern States, the British American Provinces, and in some of the independent Republics of South America

BRANDRETH'S PILLS.

TO THE CITIZENS OF

THIS GREAT & GLORIOUS UNION.

CAN any other medicine boast or be pointed out that has sustained its reputation—that has increased in the confidence of the public in an equal degree?

It would be a most happy thing for the poor, if the prejudices of Medical men would permit their general adoption in the public Hospitals. What a blessing this would be to the poor, and also to the whole community in which the Hospitals are situated! No Ship Fever would long remain to poison our atmosphere with its noxious exhalations! No malady—no, not even Cholera, would be of a dangerous character were Brandreth's Pills vigorously resorted to when the first o' its symptoms were perceived. And Ship Fever, and fevers of an inflammatory, or of a typhoid character would be found equitably under their powerful control. While influenza, small pox, measles, scarlet fever, and all the diseases of children would be affairs requiring only a very few doses of Pills, to entirely re-establish the patient's health. And in case of rheumatism and dropsy, and the various forms of lung disease, no medicine is capable of doing more good or whose use would tend more to the recovery of health.

BRANDRETH'S PILLS are sold, with full directions, at 25 cents per box, by H. C. Tureman, Mayaville; T. M. & S. W. Crane, Hillsboro; G. P. Downing, Washington; James C. Savage, Germantown; D. K. Browning, Flemingsburg; J. Adams, Mt. Carmel, and A. Boyd, Sharpsburg. [Nov. 16, '48.-3m.]

Gazzam's Patent Bedstead

THIS NEPLUS ULTRA improvement has now been in use about two years, and wherever it is known, is preferred to all other Bedsteads. For cheapness, strength and convenience it is not and cannot be equaled. It is decidedly the best, cheapest and most convenient Bedsteads in use, and perfectly proof against Bugs.

The patentee has secured to the Farmers in Allegheny city and in Pittsburgh, have secured rights to manufacture and sell the article. As there are various cheap and imperfect imitations in the market, purchasers would do well to examine the cast iron plates, on which, in the genuine article, the name of the patentee, E. F. Gazzam, is invariably cast. As a proof of all that is claimed for Gazzam's Bedsteads, the following certificate from Cabinet makers well known in Pittsburgh and the West, is submitted to the public.

We, the subscribers, practical cabinet makers and bedstead manufacturers in the cities of Allegheny and Pittsburgh, Pa., do hereby certify that we have bought the right to manufacture bedsteads with Gazzam's Patent Fastenings, and consider the same superior to any fastenings with which we are acquainted

In all cases the Policy will be issued for over $40, and Insurance is effected for seven years or longer, only one half the amount in cash is required, if the balance is a note, which may never be called for, and which will only have to be paid, in all probability, by the dividends upon the stock, if the Insurance is continued. They solicit, consequently, to offer to Merchants, Teachers, and others, an extensive assortment of School, Theological, Law, Medical, and Miscellaneous books; Cap and Letter paper, Stationery and Wall paper; Fancy Articles; Music and Musical Instruments, as low as they can be purchased, for cash, or on time to punctual customers. The establishment has recently been enlarged and the facilities for doing business greatly increased; therefore, they invite purchasers to call and examine their stock and prices. [Nov. 1, 1848.]

Boone Clothing Store, No. 1.

SIMON MEYER is, as usual, on hand with a Store
Of beautiful Clothing, and soon will have more;
His assortment embraces all things in the trade,
Which he warrants to fit, and likewise and made;
He has Coats of all colors, all patterns, all makes,
Which he sells at all prices, and they go like *"hot cakes;"*
His cloaks, vests and pants are good as the best,
And the fault is not his if they do not go dress'd;
Shirts, cravats and bosoms, he keeps always on hand,
With a thousand *et ceteras*, which you'll understand;
So when you want *dressing*, as most people do,
Just pop in at the *Boone*, and take a fair view;
If you do not get suited, the fault is your own,
For his prices are cheaper than ever were known.
In short, he's determined, without any bother,
To sell off these clothing at some price or other;
So, if a great bargain you wish to obtain,
Just give him a call, and you'll sure call again,
For he makes it a rule to let no one retire,
Without having a bargain of their sure.

BRANDRETH'S PILLS.

TO THE CITIZENS OF

THIS GREAT & GLORIOUS UNION.

CAN any other medicine be pointed out that has sustained its reputation—that has increased in the confidence of the public in an equal proportion?

It would be a most happy thing for the poor, if the prejudices of Medical men would permit their general adoption in the public Hospitals. What a blessing it would be to the City poor, and also to the whole community in which the Hospitals are situated! No Ship Fever would then disgrace our country—our atmosphere with its noxious exhalations! No malady—no, not even Cholera, would be of a dangerous character where Brandreth's Pills vigorously resorted to when the first of its symptoms were perceived. And Ship Fever, and fevers of an inflammatory, or of a typhoid character would be found equally under their powerful control. While influenza, small pox, measles, scarlet fever, and all the diseases of children would be affairs requiring only a very few doses of Pills, to entirely re-establish the patient's health. And in case of rheumatism and dropsy, and the various forms of long diseases, no medicine is capable of doing more good; or whose use would tend more to the recovery of health.

BRANDRETH'S PILLS are sold, with full directions, at 25 cents per box, by H. C. Tarenan, Maysville; T. M. & S. W. Crane, Hillsboro; G. P. Downing, Washington; James C. Savage, Germantown; D. K. Browning, Flemingsburg; J. Adams, Mt. Carmel, and A. Boyd, Sharpsburg. [Nov. 16, '48.—3m.]

Ayer's Cherry Pectoral,

AN ANODYNE EXPECTORANT, prepared on the new plan of combining the isolated active principles of medicine, in their purity; a plan which is found to give an energy and certainty of remedial effect far surpassing any thing in use. The substance of which it is composed is acknowledged to be most relied on for the relief of pulmonary disease, viz: Morphine, Sanguinarine, Emetine, Tart. Ox, Anim, et Pot., Hydrocyanic Acid, Saccharum, Syp. and Amygdalin, combined so perfectly to resist the action of time; and affording to physicians a compound of *free permanent* hydrocyanic acid—a desideratum in medicine not hitherto obtained. Its formula has been published in this and other Medical Journals, and also submitted to some of the highest medical authorities in this country, among which are the Berkshire College of Medicine, Pittsfield, Mass; Willough by Medical College, Columbus, Ohio; Bowdoin Medical College, Brunswick, Me.; Vermont College of Medicine, Castleton, Vt.; Geneva, N. Y., and also in manuscript to a large part of the medical faculty of the United States.

The attention of practitioners is respectfully solicited to this preparation, and it is confidently believed it will commend itself to their favor and confidence, having been found an invaluable remedy in treating the most obstinate as well as milder forms of pulmonary disease.

Prepared by James C. Ayer, Lowell, Mass. Sold by Druggists and Apothecaries generally in the Northern, Middle, and Southern States, the British American Provinces, and in some of the independent Republics of South America

LIFE INSURANCE—Having been appointed Agent for the Connecticut Mutual Insurance Company, I am prepared to receive proposals for Life Insurance from persons from the ages of 14 to 67, on the most favorable terms The great advantage which is guaranted to Insurers by this Office, is this—each person Insuring becomes a member of the corporation, and shares in its profits, and in no case is the person insured liable beyond the amount of the premium. In all cases where the premium is over $40, and Insurance is effected for seven years or longer, only one half the amount in cash is required—the balance in a note, which may never be called for, and which will eventually be paid, in all probability, by the dividends upon the policy, if the business be conducted—Pamphlets giving a full explanation of the advantages of Life Insurances in this office, can be had by calling on

DEMOCRATIC REVIEW.

GREATLY REDUCED PRICE—FROM $5 TO $3 PER ANNUM.

ENLARGEMENT OF THE NUMBER BY ONE FIFTH THE READING MATTER.

PROSPECTUS OF THE 22D VOL.

IN commencing the twenty-second Volume of the Review, we have to acknowledge the continuance of a liberal patronage on the part of the public and of an enthusiastic response from the Democratic ranks, to those great principles of National Policy which it is our endeavor to elucidate. We have entered into extensive arrangements for a great variety of novel and interesting matter, that will add to the attraction and value of the new volume.

The new year will be marked by one of the most exciting presidential elections, under circumstances of more grave importance to our institutions than have ever occurred in our national history. It is therefore of the highest consequence that the great questions which shake the union to its centre, should be discussed with calmness, laboriously investigated and clearly understood. While the Democratic party is apparently split into several divisions through the very success which has caused it to triumph in the vindication of old issues until new ones have become necessary, the great *democratic heart* of the nation beats in unison with a noble patriotism, and swells in honest satisfaction at the rising glories of our western Empire, the foundations of which are only now being laid, and well it becomes us to proceed dispassionately and understandingly in the work commited to our charge. Although a "thousand generations" are not looking down upon us from the crests of the Alleghanies "to behold our deeds," thousands yet to come swarming the intervening vallies, will throng the Rocky Mountains, the Alleghanies and the Cordilleras, all looking back to curse or bless the transactions of 1848. A fearful responsibility rests upon the democracy of the present generation, and that they will, as ever, discharge it faithfully, there can be no doubt. The efforts of the Review will be exerted with a full sense of the importance of the crisis, and we doubt not will be vigorously responded to by our subscribers.

The accustomed features of the Review will be continued, including PORTRAITS and BIOGRAPHIES of DISTINGUISHED DEMOCRATS, men whose patriotic principles and steadiness of principle have won the confidence of the people.

We have to remind our readers that the low terms on which we furnish the Review makes it indispensable, that the payment of the subscriptions should be in advance; and that the expenditure incurred to improve the work, can be met only by the prompt remittance of subscriptions.

N. B.—All communications will hereafter be addressed to the Editor, office of the Democratic Review, New York City.

Gazzam's Patent Bedstead

THIS NE PLUS ULTRA improvement has now been in use about two years, and where it is known, is preferred to all other Bedsteads.

For cheapness, strength and convenience it is not and cannot be equalled, as it is decidedly the best, cheapest and most convenient Bedsteads in use, and perfectly proof against Bugs.

The principal cabinet makers and turners in Allegheny city and in Pittsburgh, have secured rights to manufacture and sell the article. As there are spurious articles and imperfect imitations in the market, purchasers would do well to examine the cast iron plates, on which, is the genuine article, the name of the patentee, E. F. Gazzam, is invariably cast. As a proof of all that is claimed for Gazzam's Bedsteads, the following certificate from Cabinet makers well known in Pittsburgh and the West, is submitted to the public.

We, the subscribers, practical cabinet makers and bedstead manufacturers in the cities of Allegheny and Pittsburgh, Pa., do hereby certify that we have bought the right to manufacture bedsteads with Gazzam's Patent Fastenings, and consider the same superior to any fastenings with which we are acquainted.

THE GLOBE.

A Congressional, Agricultural, and Literary Newspaper.

THE editors of the Congressional Globe propose a new publication. To deserve the patronage which Congress has accorded to their reports of its debates, in receiving and making the Globe the official register, they intend to add *promptitude* to whatever merit has hitherto recommended the work. They will publish a Daily Globe, to record the proceedings and debates as they occur; and a Congressional Globe periodically, as heretofore, embodying the reports of Congress seperate from the miscellaneous matter which will accompany them in the daily print. To fill the sheet of the daily newspaper, it is designed to gather the news from all quarters, and complete the contest by drawing from every source that may be of most interest among literary novelties, and of the greatest utility in scientific and practical work on agriculture.

The congressional departments and business of the paper will be under the management of John C. Rives. The public are familiar with Blair & Rives as connected with the press. In introducing Mr. Pickett as one of the concern, they will be allowed to say a few words of him. He is a gentleman favorably known to the government, for the talent and judgement which distinguished his diplomatic service while connected with the mission to Quito; and more recently when charge d' affairs to Peru. From his pen mainly the Globe will derive the selections and translations from French journals, the comments on them, and the other literary articles, which will be found among its chief attractions.

The Globe will be published daily during the session of Congress, and weekly the balance of the year, and will undergo distribution in the form of a Weekly Globe, a Congressional Globe and Appendix.

The Weekly Globe will be the vehicle of the miscellaneous and other articles of the daily print, with a synopsis of congressional proceedings.

The Congressional Globe will embody, as it has done for the last sixteen years, congressional proceedings and debates exclusively.

The Appendix will embrace the revised speeches separately and the messages of the President of the United States, and the reports of the heads of the executive department.

The Congressional Globe and Appendix will be published as fast as the proceedings of Congress will make a number. Subscribers may expect one number of each a week during the first four weeks of the session, and two or three numbers of each a week afterwards, until the end of the session.

Nothing of a political or party aspect will appear in the Globe save that which will be found in the congressional reports. A paper assuming to be an impartial vehicle for all sides, cannot maintain a character if the editorial columns reflect a party hue. The editors of the Globe have borne their share in the party conflicts of the press. The Globe will inviolably maintain the neutrality which its relation to Congress imposes.

TERMS.

For one copy of the Daily Globe (daily during the session of Congress, and weekly during the recess) a year,	5 00
For one copy of the Weekly Globe one year	2 00
For one copy of the Congressional Globe during the next session, if subscribed for before the first of January,	1 00
For one copy of the Appendix during the next session, if subscribed for before the first of January,	1 00
For six copies of either the Congressional Globe or the Appendix, or part of both,	5 00

The subscription for the Congressional Globe or the Appendix, after the first of January, will be $1 50. The original price of one dollar does not pay the expense of the publications in consequence of the great increase of matter published.

Our prices for these papers are so low that we cannot afford to credit them out; therefore no persons need consume time in ordering them unless the subscription price accompanies the order.

PROSPECTUS

FOR THE

Weekly Kentucky Flag,

THE name and character of this paper having become so universally known, during the past period of its existence, it seems to be almost useless, at present, to enter into any detail of its leading features, or that its conductors should, at any new *pledge* to the public, by inducing the Democratic party to rally to its support.

Aware, however, that hundreds of thousands of the people of Kentucky, and other Western States, have never yet had an opportunity of subscribing for it, the publishers have come to the conclusion to issue this Prospectus, in the hope that those into whose hands it may fall, will use every possible exertion to induce those in their respective neighborhoods to subscribe at once, and thus give the paper that patronage which its intrinsic value merits, and which should be extended to it by a high-minded, a liberal, and an intelligent people.

The paper has now been in existence *for two years and five months*; and, notwithstanding the enterprise was looked upon as extremely hazardous at the outset, the FLAG has, by pursuing a fearless, bold, and unwavering course, and the most untiring energy and industry, upon the part of its conductors, succeeded in overcoming every obstacle—and is now inferior to no Democratic paper in the State, and can boast of having done as much *good service* as any other, during the period of its existence.

IN POLITICS, the Editor is a radical Democrat, and the paper will never, while under his control, swerve from the original land-marks of the party to which he belongs; but continue, as heretofore, to advocate the great measures and principles, of that party, and to defend them against the foul calumnies and aspersions which may be cast upon them by the unscrupulous and illiberal presses of the Whig party. In all things, it shall be his aim to promote the best interests of the people, and to preserve, inviolate, their rights and privileges, so far as the power may rest with him to do so; and he would here beg leave to remind the public, that a crisis is rapidly approaching in the affairs of this State, when prudence and patriotism will call upon every man to prepare himself for a great struggle. The approaching State Convention will involve questions of the most vital interest to a large portion of the people of Kentucky, and it is but right that those conducting the presses of the State, should unhesitatingly declare their sentiments, in relation to the questions likely to be involved, previous to the meeting of that convention.

The most prominent of these questions will be that of Slavery, and the propriety or impropriety of agitating it, in that body; and we here take the liberty of saying that *we are utterly opposed to any interference whatever, with that question*, by the Convention, when it shall be assembled. The FLAG, which was one of the earliest advocates for the Convention, will steadily, firmly, yet decidedly contend against this, and all other innovations upon the rights of the people, either by the Convention or by our State or National Legislaures; but will advocate such *constitutional reforms* as may be consistent with liberal and correct views of Republican Liberty, without an infringement upon the rights and privileges of citizens, in relation to the subject of Slavery.

In short, the KENTUCKY FLAG is just such a paper as will suit the wants and the interests of every Democrat, and of all other persons who believe with the editor, that it is dangerous to tamper with the institution of slavery at the present time: and we call upon such to aid in giving it a circulation in all parts of the State, in order if possible, to counteract the pernicious influence of those papers which advocate the principles of the Abolition party of the North.

The FLAG will be in the receipt of the Telegraphic Dispatches, which will enable the publishers to give the Eastern news several hours in advance of the Cincinnati Dailies; and in addition to this, the paper will contain a large amount of General News Articles, Miscellaneous reading, Tales, Poetry, and the latest Foreign Intelligence.

A full and correct review of the Markets will be regularly published, and every thing which can possibly instruct or amuse will find its way into its columns.

As the FLAG is now published DAILY, the Weekly will contain much more reading matter than heretofore.

☞ Be particular to write the names of Subscribers, Post Offices, and Counties in a plain hand, and to mail remittances to the Publishers in the presence of the Post Master. This being done, the money is then at our risk.

PIKE & RUSSELL.

Terms:—The KENTUCKY FLAG is published Daily and Weekly, upon the following terms, to-wit:

DAILY, on an Imperial sheet, every morning, Sundays excepted, at $5 per annum, payable quarterly in *advance*.

WEEKLY, every Monday morning, on a large fine double medium sheet and new type, at $2,00 per year, in *advance*; $2,50 at the end of six months; or $3,00 at the end of the year.

OR, TO CLUBS.—The Weekly FLAG will be sent as follows: Single copy, for $2,00; five copies for $8,00; Ten copies for $15,00.

The above rates, being so remarkably low, will require cash *in advance*, or the voucher of an Agent or Post master, the same will be paid in three months from the date of subscription.
