Morehead Normal School,  
Morehead, Kentucky.

Dear Dr. Button:

Enclosed for your information is copy of letter I am sending today to Joseph and Joseph. I am not sending a sketch because my description together with the study (no. 5) which they already have will fix the location accurately enough for their studies. As you will gather from my letter to J. & J. I want to fix the exact location and grades after the general building plan has been worked out and settled.

Very truly yours,
