ADULT BASIC EDUCATION HISTORY: Morehead State University, in its attempt to promote the growth of Adult and Community Education, has dedicated The Cora Wilson Stewart Moonlight School as a memorial and museum on its campus to all those actions taken in the United States in the fight against Adult Illiteracy. It is Morehead's intention to collect artifacts of all U.S. efforts in Adult Literacy Programs and solicits help and ideas from the field in identifying those efforts and artifacts. It further asks that we share with them the Adult Education Histories of our states, agencies, or programs. A short history of the Cora Wilson Stewart Moonlight School has been received by the National Multimedia Center and may perhaps be available to the field. We suggest that this is a most important Morehead undertaking and urge that its request for assistance generate positive response. For further information please contact:
