

7304

7th November, 1924

Mr. F. C. Button, President,
Morehead State Normal School,
Morehead, Ky.

Dear Sir:

We have just received today from Joseph and Joseph a diagram showing the location of the new building they are designing for you, and they indicate that this location was agreed upon when the building was laid out.

As it does not harmonize in several points with the location proposed on our preliminary layout plan No. 11, we have written a letter to Joseph and Joseph, pointing out the differences. We enclose a copy of our letter for your information. We also enclose a print of a portion of plan No. 11, on which we have marked in red their location and in yellow the location which we recommend and which harmonizes with our general layout scheme.

Please note that we have asked Joseph and Joseph for detailed plans for the buildings and for opportunity to cooperate with them in working out the exact floor grades, treatment of approaches, etc. If we hear from them favorably we will take the matter up at once and let you know our recommendations.

Very truly yours,
