Olmsted Brothers,

Brookline, Massachusetts

Gentlemen:

I have just received your communication of November 7th. I had asked Joseph & Joseph to write you in regard to our plans here. The contractors have begun the excavation for the new building on the line suggested by Joseph & Joseph, and I hardly think that the location can be changed. Would it not be possible for you to harmonize your general plans with the location of the building?

Very truly yours,

F. C. Button
