Gentlemen:

Your letter of the 25th inst., regarding plans for the layout of buildings at the Morehead State Normal School, is received during the absence of Superintendent Rhoads in Memphis attending a meeting of the Southern Association of Colleges and Preparatory Schools. This matter will be brought to his attention upon his return to the office.

I am of the opinion your inquiries have been answered by Dr. F. C. Button, President of the Normal School, in a recent letter to your firm.

Very truly yours,

*Minnie Rose Sumner*  
 Secretary to Superintendent
