Breslin Building
Louisville, Kentucky

October 22, 1931

Prof. G.C. Button,
70 Morehead State Teachers College
Morehead, Ky.

Dear Sir:

It is impossible for us to tell the exact date of completion of the various buildings, but from the date of the vouchers issued, we can give you approximately the time that the buildings were ready for occupancy.

The Administration Building, was the first erected and was completed about Spring of 1926.

Allie Young Hall, the second building, was completed several months later, about June 1926.

Power House, the latter part of 1926.

Fields and Thompson Halls the latter part of 1927.

Auditorium - Gymnasium Building, about May 1929.

President's Residence, about the same time.

Library, latter part of 1930.

Training School, late Spring 1931.

Stadium - early Spring 1931.

If you desire more accurate dates, we may be able to obtain them for you. As we do not know for what purpose the information is desired, we were under the impression that the approximate date might suffice.

Kindly let us know, however, if you wish more accuracy.

With very best wishes, beg to remain,

Yours very truly,
Joseph & Joseph
