Foreword

The 2004/2005 academic year brought a change in leadership as the university's 12th president, Dr. Ronald G. Eaglin retired on December 30, 2004 and the 13th president, Dr. Wayne D. Andrews took office on January 1, 2005. A formal investiture ceremony for Dr. Andrews was held on May 13, 2005. Since Dr. Eaglin chose not to have a ceremony when he took office in 1992, this was the first formal ceremony since the inauguration of Dr. C. Nelson Grote in 1987.

In this, the twenty-sixth edition of the **Profile**, you will notice a change in some of the CIP codes in the 'Headcount and Credit Hours by CIP/MSU Majors' table. The Council on Postsecondary Education required all institutions to convert from CIP1990 codes to CIP2000 codes on July 1, 2004. This conversion resulted in 20 program code changes at Morehead State University. These changes will not be reflected on the 'Degrees Conferred by CIP/MSU Major' table until next year since the 2003-04 degrees reported in this **Profile** were prior to the code change.

Statistics included in the **Profile** are derived from the official fall enrollment and annual degrees conferred that are reported to the Council on Postsecondary Education (CPE) as well as data reported to the national Integrated Post-Secondary Education Data System (IPEDS). Additional data sources are noted directly on the charts or tables.

This **Profile**, along with the past 4 years **Profiles**, is available online at www.moreheadstate.edu/units/irca. Also available on this site are the interactive profile, the 2004/2005 Nutshells, Common Data Set information and links to other resources such as the University's strategic planning information.

If you have any questions, comments or suggestions concerning the **Profile**, please give us a call at 783-2009.

University Overview

Meeting the educational needs of East Kentucky while striving to constantly improve the quality of its public service, economic development and applied research programs are the primary objectives of Morehead State University.

Historically, the University traces its lineage to the Morehead Normal School, which opened its doors in 1887. The private school closed in the spring of 1922 when the Kentucky General Assembly established Morehead State Normal School. The state institution accepted its first students in the fall of 1923 and graduated its first class in 1927. Name changes occurred in 1926 when "and Teachers College" was added, again in 1930 when it was shortened to Morehead State Teachers College, again in 1948 when "Teachers" was dropped and, finally, to university status in 1966. Twelve men, starting with Frank C. Button, have served as president. Dr. Wayne D. Andrews assumed office as the 13th president on January 1, 2005.

Academically, the University offers 77 undergraduate degree programs, including 8 associate level degrees and 12 pre-professional programs in four colleges -- Business, Education, Humanities, and Science and Technology -- and 20 academic departments. There are 42 graduate degree programs plus 19 graduate level non-degree programs designed especially for professional educators. The education specialist in five specialty areas also is offered. A master's degree for physician assistants, social workers and a cooperative doctoral program, all with the University of Kentucky, are available on the MSU campus.

Classes are conducted in Ashland, Jackson, Maysville, Mt. Sterling, Pikeville, Prestonsburg, West Liberty and other locations. Extended campus centers--located in Ashland, Jackson, Mt. Sterling, Prestonsburg and West Liberty--are staffed with full-time directors. Additionally, the University offers a number of distance learning courses throughout the region via the Internet and interactive compressed video. Sixty-eight percent of MSU's 358 full-time faculty members hold doctoral degrees.

Physically, the University is located in the foothills of the Daniel Boone National Forest in Rowan County. The nearly 500-acre main campus within the city limits of Morehead includes more than 50 major structures with a total replacement value of more than \$144 million. Beyond the city, the University's real estate holdings include the 320-acre Derrickson Agricultural complex and a nine-hole public golf course. The instructional plant includes 120 classrooms and 112 laboratories. Housing facilities include space for approximately 3,000 single students and 66 family units.

Fiscally, the University currently operates on an annual budget of \$99.3 million with about \$41.6 million provided by the state and \$36.0 million coming from tuition and fees. Additionally, grants and contracts from external sources for research, service and academic/student support projects generate more than \$13 million each year. Private donations to the University, mainly through the MSU Foundation Inc., have reached more than \$3 million annually.

Statistically, the University has awarded more than 50,000 degrees and currently has more than 1,000 full-time employees. Enrollment for fall 2004 was 9,293, with the student body representing 108 Kentucky counties, 41 states and 32 foreign countries. The University attracts more than 50,000 visitors annually and its economic impact, directly and indirectly, on the Morehead area is estimated at more than \$80 million yearly.

Administratively, an 11-member Board of Regents governs the University with eight citizens appointed by the governor and three seats held by elected faculty, staff and student representatives. Management of the institution is vested primarily in six divisions--Academic Affairs, Administration and Fiscal Services, Development, Planning and Technology, Student Life, and University Relations--with each headed by a vice president.

Athletically, the University sponsors 18 intercollegiate sports for men and women in accordance with the regulations of the Ohio Valley Conference, the Pioneer Football League and Division I of the National Collegiate Athletic Association. MSU also supports an intramural program involving more than 25 team and individual sports.

Degree-Seeking vs. Non-Degree-Seeking Students and the Council on Postsecondary Education (CPE) Classification System

The Kentucky Council on Postsecondary Education (CPE) classifies students as degree-seeking or non-degree-seeking. Degree-seeking students are those enrolled or planning to enroll in programs of study in which formal degrees are awarded following program completion. Student classification by level begins with designation as graduate or undergraduate.

Degree seeking students at the undergraduate level are classified as Freshman (fewer than 30 credit hours accrued), Sophomore (at least 30 but fewer than 60 credit hours accrued), Junior (at least 60 but fewer than 90 credit hours accrued), and Senior (90 or more credit hours accrued).

At the graduate level, Masters degree-seekers must have earned an undergraduate degree and be enrolled in a masters level program of study. Specialists degree-seekers in general must have earned a masters degree and be enrolled in a specialist level program of study.

Non-degree-seeking students may be classified as undergraduate non-degree, high school (high school students taking a college class for credit), graduate non-degree or auditor. Graduate non-degree students are typically 5th year Education majors or Rank I Education majors. These students follow a program of study but there is no formal degree awarded. Auditors may be taking a class for no credit (auditing) at either the undergraduate or graduate level.

Going From CPE Level Classification to Typical Enrollment Presentation Classification

In general, when MSU presents enrollment figures, the degree-seeking status of students is ignored and data are reported by five levels -- four (4) undergraduate levels (freshman, sophomore, junior, senior) and one (1) graduate level.

To collapse the Fall 2004 degree-seeking classification tables on page 13 into five levels presented on page 15:

Begin with the degree-seeking classifications:

Freshman	2,316
Sophomore	1,472
Junior	1,427
Senior	1,988
Postbacc*	67
<i>Senior Subtotal</i>	<i>2,055</i>
<i>UG Subtotal</i>	<i>7,270</i>
Graduate (Masters)	976
Graduate (Specialist)	24
Graduate (Doctoral**)	2
<i>Graduate Sub Total</i>	<i>1,002</i>
Total Degree Seeking	8,272

Take non-degree-seeking classifications:

(1) Undergraduate Non-degree, including 1 post baccalaureate non-degree (329) -- Note: insufficient information is presented here to do this; however, on the basis of hours accrued, we determined there were 316 freshmen, 106 sophomores, and 3 seniors (add to appropriate class)

(2) High School (158) -- add to Freshman

(3) Auditors (5) -- Note: again, insufficient information is presented here to do this; however, each auditor is a graduate level or undergraduate level auditor. There were 5 graduate auditors. Add to Graduate.

(4) Graduate Non-Degree (529) -- add to Graduate

Total Non-Degree-Seekers: 1,021

Thus, in Fall 2004, MSU had:

	<u>Degree-Seeking</u>		<u>Non-degree</u>		<u>HS</u>		<u>Auditor</u>	
Freshman	2,316	+	316	+	158	+		= 2,790
Sophomore	1,472		10			+		= 1,482
Junior	1,427							= 1,427
Senior	2,055		3					= 2,058
Graduate	1,002	+	529			+	5	= 1,536

Highlights

First-time Freshmen (continued)

By CPE (Council on Postsecondary Education) definition, first-time freshmen are degree-seekers. In fall 2004, 74% (948) of first-time freshmen were seeking a bachelor's degree; 335 (26%) were enrolled in associate level programs and one (less than 1%) was undecided as to degree level or major. In order to gain a broad overview of freshman program area interests, CIP (Classification of Instructional Programs) major codes were collapsed to two digits and enrollments were tallied by level and program area as shown below.

* "Generated" refers to credit hours generated through courses taught within a college.

Credit Hours - "Consumed" and "Generated"

The difference between credit hours "consumed" by majors within a given college and credit hours "generated" by faculty teaching within a given college characterize that college's general academic service profile. For example, Education majors accrued (consumed) 19,685 credit hours in Fall 2004 whereas Education faculty taught classes which generated 17,935 credit hours during the same semester. The number of credit hours consumed by Education majors in excess of credit hours generated by Education faculty characterizes the College of Education as an academic service "consumer" in Fall 2004. As expected, the College of Humanities generated the most course credit hours overall as well as the most credit hours in excess of majors' credit hours (consumed throughout the University).

"CIP" Majors

"CIP" is an acronym for "Classification of Instructional Programs", a taxonomy developed by the National Center for Education Statistics which is the Federal standard used for collecting, reporting, and interpreting education program data. The Kentucky Council on Postsecondary Education assigns CIP codes (and descriptions) to all post-secondary approved programs of study.

Prefixes (to the code) "A", "B", "C", "M", "S" and "D" describe program levels - associate, bachelor, certificate, master, specialist and doctoral (cooperative doctoral program with the University of Kentucky). Non-degree and undecided prefixes "G" and "U" identify graduate or undergraduate levels.

Highlights

Majors, 2004

Undergraduate

About 9% (619 of 7,270) of fall 2004 degree-seeking undergraduates had not yet declared a major program of study and an additional 487 undergraduates did not plan to seek a degree. For degree-seekers, the most popular undergraduate majors were in the fields of Education, Liberal Arts, Biology, Business & Communications. Fall 2004 degree programs with 100 or more majors were:

(Bachelor) Elementary Teacher Education	628
(Associate) General Studies	508
(Bachelor) Biology, General	435
(Bachelor) Communications, General	317
(Bachelor) Nursing, RN Training	300
(Associate) Radiologic Technology	270
(Bachelor) Business Administration & Management	264
(Bachelor) General Studies	252
(Bachelor) Sociology	221
(Bachelor) Mgt Information Systems & Business Data Processing	220
(Bachelor) Industrial Technology	212
(Bachelor) Social Work, General	200
(Bachelor) Music, General	198
(Bachelor) Exercise Science	185
(Associate) Nursing, RN Training	183
(Bachelor) Agriculture Science	171
(Bachelor) Psychology, General	165
(Bachelor) Fine/Studio Arts	158
(Bachelor) Special Education, General	139
(Bachelor) Accounting	127
(Bachelor) Social Science	116
(Bachelor) English Language & Literature, General	115

Graduate

Thirty-four percent (529 of 1,536) of fall 2004 graduate students were non-degree enrollees. Traditionally, in contrast to undergraduate non-degree students, graduate non-degree seekers tend to follow programs of study. The majority of graduate non-degree students attend MoSU in order to satisfy Rank I and 5th year certification requirements in Education.

The predominate graduate degree majors are:

(Master) Business, General	182
(Master) Education, General	163
(Master) Elementary Education	119

*Classification of Instructional Programs

Source: Council on Postsecondary Education Data Base

In order to obtain a general program area overview of enrollments, the Council on Postsecondary Education prepares trend tables displaying comparative fall enrollments by CIP (Classification of Instructional Programs) Area. That is, the 6-digit CIP codes for specific program majors are collapsed to 2-digit codes and enrollments in all majors beginning with the 2-digits are summed. For example, under CIP code 13 (Education), enrollments in 18 specific program major codes have been summed showing MoSU's fall 2003 and 2004 enrollment in Education programs to be 1,750. The technique allows for quick overview of predominate areas of enrollment at MoSU (as in this table) and for other institutions across the Commonwealth.

Note: The Council on Postsecondary Education (CPE) requires reporting Pre-College Curriculum (PCC) status courses for four-year degree-seeking first-time freshmen. In the table above, PCC completers are by definition four-year degree-seekers whereas non-PCC (NPCC) completers consist of remaining four-year degree-seekers who either did not complete or were exempt from reporting and all two-year degree-seeking first-time freshmen.

Highlights

Graduate Enrollment*

Over the past five years, first-time graduate student enrollment has accounted for nearly 19% of graduate student enrollment overall. For the most recent five-year period, the percentage of first-time graduate students peaked at 23% (362 of 1,572) in fall 2000. The percentage has declined each year since that time from 21% (369 of 1,759) in fall 2001, to 17% (289 of 1,678) in fall 2002, 16% (249 of 1,580) in fall 2003 and 16% (257 of 1,531) in fall 2004.

Unlike first-time freshmen who typically take the required college entrance examination such as the ACT or SAT prior to enrolling, a large proportion of first-time graduate students take advantage of the “12 credit hour” rule which limits graduate students to twelve graduate credit hours before taking the required Graduate Record Examination (2004-2005 Graduate Catalog, p.6). Since fewer than half of first-time graduate students typically have GRE’s or GMAT scores on file by their second semester of enrollment, we have taken an annual snapshot of the total graduate student population rather than just first-time students.

The following tables display selected characteristics of 1,531 fall 2004 graduate students (five graduate level auditors have been omitted) by degree objective (degree-seeking or non-degree-seeking) and major. Note that table large “N’s” refer to the total number of graduate students within a given major and small “n’s” correspond to the number of students contributing to a given average score. Average scores have not been printed for majors for which there were fewer than three students contributing scores although the presence a “+” indicates that these scores have been used in calculating overall GPAs and subtest scores.

*Five graduate auditors omitted.

For comparative purposes, Morehead State University's ACT Composite cut-off score for unconditional freshman admission in fall 2004 was 14 with an Admissions Index (AI) of at least 400 (AI=high school GPA x 100), whereas the average ACT Composite score for MoSU's fall 2004 first-time freshmen was 19.7 or about 20. In terms of institutional admissions selectivity, an average ACT Composite score of 20 would place MoSU somewhere between "Open" (ACT 17-20) and Liberal (ACT 18-21) selectivity with retention rates between about 63.9% and 66.7%. MoSU's fall 2003 first-time freshman retention to fall 2004 was 61.6%, slightly below the average "Open" selectivity institutions, but very close to "Open" institutions offering Bachelors and Masters degrees at a retention rate of 62.4% for the same time period.

Retention by CPE vs. Traditional Classification

The difference between CPE classification of fall 2004 students and the University's 'Traditional' classification of the same students is shown in detail in the Enrollment section of this [Profile](#) on Page 12. Briefly, MoSU's 'Traditional' classification disregards the student's degree-seeking status, pooling degree-seekers and non-degree-seekers within four undergraduate and one graduate classification (freshman, sophomore, junior, senior, graduate) based on the number of student credit hours completed. CPE's classification scheme first determines degree-seeking status (degree-seeking, non-degree-seeking), and then classifies undergraduate degree-seekers into five categories (freshman, sophomore, junior, senior, post-baccalaureate) and four non-degree-seeking categories (UG non-degree, High School, auditor, post-baccalaureate nondegree). Thus, only one group, 2004 First-Time Freshman, in the 'Undergraduate Retention Rates by Traditional Classification -- Fall 2004 to Fall 2005 table on the previous page consists entirely of

The table above displays retention of fall 2004 undergraduates to spring 2005 by CPE classification. Here undergraduate degree-seekers have been classified as freshmen, sophomores, juniors, seniors or post-baccalaureate based on credit hours completed. In CPE classification, High School students taking courses are identified as special non-degree students separate from other undergraduate non-degree enrollees who are grouped together as 'UG Non-degree' regardless of credit hours completed. Here, one post-baccalaureate non-degree student was grouped with the undergraduate non-degrees. There were no undergraduate auditors. As can be seen in the table, fall to spring retention of degree-seekers was higher than for non-degree-seekers which is consistent with retention findings for

MoSU's 3-year graduation rate for 1998-99 associate-seekers was 2% (7 of 353). However, an additional 32 associate-seekers obtained baccalaureate degrees within 5 years for an adjusted 5-year graduation rate of 11%. Likewise, for 1998-99 baccalaureate-seekers, 6 students obtained degrees within 3 years whereas an additional 335 students obtained baccalaureate degrees within 5 years for an adjusted 5-year graduation rate of 34%. Note: All students (1,369) represents fall 1998 full-time Associate- and Baccalaureate- seeking first-time freshmen minus *one male baccalaureate-seeker deceased prior to August 2004. The Student Athletes tracked are a subset of All Students consisting of those freshmen receiving athletics aid. NCAA rules accept graduation counts for baccalaureate-seekers who obtain baccalaureate degrees only. Likewise, the Kentucky Council on Postsecondary Education (CPE) accepts graduation counts for baccalaureate-seekers who obtain baccalaureate degrees only. **The 396 degrees (of 1,016) reported for baccalaureate-seekers include six associate degrees (one male associate and five female associate degrees). Thus, the 6-year Baccalaureate graduation rate for CPE and NCAA purposes is 390 of 1,016 or 38.4%. Student Athlete degrees reported (14 of 29) were all baccalaureate degrees.

AAUP/IPEDS and Faculty Salary Comparisons

IPEDS (Integrated Post-Secondary Education Data System) full-time faculty are by National Center for Education Statistics definition:

Those members of the Instruction/Research staff who are employed full-time (as defined by the institution) and whose major (more than 50%) regular assignment is instruction, including those with released time for research. Also included in this category are:

- * Full-time instructional faculty on sabbatical leave
- * Full-time replacements for instructional faculty on leave without pay
- * Chairs of departments (if they have no other administrative title and hold a full-time faculty rank.)

Both AAUP (American Association of University Professors) and IPEDS annually collect and report on average faculty salaries and compensation (salaries plus other benefits). As an option, institutions may forward their mandatory IPEDS faculty surveys to AAUP rather than prepare a separate AAUP-sponsored survey. AAUP publishes an “Annual Report on the Economic Status of the Profession” in the March-April issue of its bulletin, *Academe*. Although the Kentucky regional universities no longer share a set of benchmark institutions, we have continued to include a regional comparative faculty salary table in this year’s fact book as well as a table displaying average faculty salaries by rank for MoSU’s fall 2004 nineteen benchmark institutions. Faculty salary averages and respective numbers at each rank have been taken from the AAUP data reported in *Academe*, March/April 2005 when available.
