

FUTURE MOREHEAD STAR—Tim Pullen, an outstanding tackle at Ashland's Paul Blaser High School, has signed a grant-in-aid at Morehead State College. The grant while his mother and father, Mr. and Mrs. Don Pullen, and Morehead football coach Guy Penny (standing) look on. Morehead won a share of the OVC football championship in 1952 and lost only five seniors by graduation. Penny calls Tim a "fine youngster who should help our football program."

Morehead's Harold Sergent Hailed As One Of The Finest Guards In The Entire South

The secret to Morehead State College's surprising basketball success this season can be summed up in two words: Harold Sergent, so writes Kelo Sturgeon for the Associated Press. His wire release continued—

"Sergent, a 6-foot sophomore from Ashland, leads the Ohio Valley Conference in scoring and is rated by Coach Bob Laughlin as the best guard in the South."

"There's no doubt in my mind this boy is the best guard in the South," Laughlin said. "He could play for just about anybody."

Laughlin said seldom has he seen a player develop so quickly in the college ranks as Sergent.

"Sergent is a real take-charge player," he said. "He's just a sophomore but he's like having a coach on the playing floor."

"Sergent has the unusual ability to completely visualize in a split-second what offensive pattern to run," Laughlin said. "He just out-thinks everyone on the court."

"This basketball brainpower has hampered Sergent's play a little," Laughlin said.

"Many times Harold will throw the ball to one of our players only to find that the player, who usually is in excellent scoring position, is so surprised that he has the ball he'll lose it out of bounds," the veteran Morehead coach explained.

"Laughlin is not yet ready to compare Sergent with any former Morehead players."

"I'll save my analysis of this boy until he graduates. He's a different type player than we've had before and it's too early to compare him with anyone."

"Sergent, who averaged 32 points a game as a freshman, shocks fans with his ability to run the team. It is not unusual for him to lecture teammates when they make mistakes on the playing floor."

For instance, against Eastern Kentucky 1 a 1 Tuesday Sergent called a play which failed to pass because someone wasn't in position.

"When the ball went astray, Sergent made a dash for the ball and he covered it. He then took the ball outside, sight about 10 seconds, telling his teammates what he wanted done, and then executed the play to perfection for an easy 1999."

two points. "People will hear from this boy for the next three years," Laughlin said. "He has so much ability I wish I'll admit, I don't even know his potential."

Rowan County Vikings Have 8-6 Record

Rowan County's Vikings can't claim to be the best team in the 10th Region, however, they have played more unusual games than perhaps any team in the state.

On Nov. 30 the Vikings lost to St. Agatha 41-39 after George Bowman missed a rebound and the ball hit his shoulder and went into the basket. The Vikings also won a 2-0 forfeit game over Sandy Hook on Dec. 5 when the officials failed to show up.

Another "break" victory for the Vikings came on Jan. 7 when they defeated St. Patrick 62-62. Ben Hicks of Morehead hit a jump shot with six seconds remaining to tie the score 62-62. St. Patrick player called time-out, however, it was discovered that they had used their five time-outs. Hicks then hit a technical foul shot to give the Vikings their victory.

Leading scorer for Rowan County is Ben Hicks, 6-4 center. Only a sophomore, Hicks is averaging 15 points a game.

Arnold Hogge, 5-10 sophomore is averaging 11.8 points per game.

Next leading scorer for the Vikings is George Bowman, 6-2 sophomore with 11.2 average.

Bobby Brown, 5-11 sophomore has a 6.5 average while Phil Hicks is 6-10 center, is averaging 6.4 points per game.

The Rowan County quintet has a 8-6 record.

New Veterans Group Formed At Morehead

Veterans of World War I established a barracks at a meeting in Rowan County Courthouse last Saturday. It will have 26 members and will be called Rowan County Barracks No. 309.

An auxiliary was also formed with 17 members. They are: Mess James Earl Hamon, Esie Barrett, Rosa Boyd, Opal Sluss, Anna James, Stella Litton, Lucille Dehart, Rosa Messer, Hester, Robert, Vada Crosswaite, Maude Trickett, Amy Simson, Ollie Gedge, Lizzie Lowe, Nellie Epperhart, Mary Lee Mauk and Lucy Parker. The next meeting will be Saturday, March 2 at the courthouse.

Morehead Heart Drive Set Today

Business gifts solicitation in Morehead for the 1953 Heart Fund Drive will be conducted 1 to 4 p.m. (Thursday) from 2:00-4:00 p.m. under the direction of John Barker and Quentin Caudill, both of Morehead, who are serving as co-chairmen for this activity. This has been announced by the state campaign chairman, William T. Hook.

Frankfort insurance executive, Heart campaign continues through February.

Mr. Barker, who is with the Commonwealth Life Insurance Company, and Mr. Caudill, who is with the Farm Bureau Insurance Company, have the assistance of the Morehead Life Underwriters group in the business gifts solicitation effort.

Overall drive activities are under the direction of Mrs. Ralph Cassidy, of Morehead, who is serving as county chairman.

Describing the Kentucky Heart Association's clinics and similar community service projects, professional and lay education, diagnostic and surgical equipment purchases and financing, heart research done by Kentucky doctors

as "key factors in the almost miraculous progress we are seeing in the fight against heart and blood vessel diseases." Mr. Hookenberry with U.S.C.D. "retired" in Heart Fund contributions. Most Kentucky communities will conduct door-to-door "Heart Sunday" collections on Feb. 24, he announced.

Voting Machines —

(Continued from page one) county offices.

The county judge faces a considerable task in redistributing the county as population, roads and travel distances are a factor with some precincts probably having more voters than others. A recent survey showed that a precinct should be arranged so that no more than 700 votes are cast in any election, but this number is exceeded in some counties.

Voting machine manufacturers recommended 11 precincts for Rowan County, and one extra machine. This follows the pattern most counties have adopted.

Bloodmobile —

(Continued from page one)

He emphasized this is not a welfare (or government) program. "It is a community endeavor but it is unfortunate that many people will requisition blood and make no effort to replace it from their family, or secure volunteer donors," Collis added.

Always remember that, with rare exceptions, you do not have to talk.

The trouble with substitutes for beef steak is that they taste like substitutes.

Putting a few cents in the collection plate does not make one a philanthropist.

A racket is a device to extort money without giving a fair return.

Chamber To Elect Five Directors

Morehead's Chamber of Commerce will elect five new members to the Board of Directors and two to serve out expired terms at their annual banquet Feb. 15 at the Morehead College cafeteria.

Ballots have been mailed to members who have paid their 1953 dues and must be voted and returned before Feb. 18. The Board of Directors has 15 members, each serving three years.

Nominees for Board of Directors are: Vivian Herring, Robert Allen, Russ Brown, Eldon Evans, W. E. Crutcher, Mike Keller, Rob Moore, W. H. Lays, J. H. West, McBrayer, Dr. N. C. Marsh, Adrian Razor, Aubrey Kautz, Dr. B. E. Wentz, Harold White and Ernie Thompson.

The first five nominees receiving the most votes will be elected to the regular three year term and the next two will serve out the unexpired terms.

Members are given a ticket to the banquet upon payment of dues.

Almost All Teachers To Have Degrees

Within two years 95 per cent of Kentucky's public school teachers will have college degrees, the Department of Education has estimated.

A research bulletin published by the Division of Teacher Education and Certification shows that 86 per cent of the state's public school teachers now have degrees, an increase of 4 per cent over the 1951-52 school year.

Sidney Simandle, assistant director of the Division of Teacher Education and author of the bulletin, said the prediction of 95 per cent degree teachers is based on the current trend, which has been increasing rapidly since 1950.

Wendell P. Butler, State Superintendent of Public Instruction, said the higher standards of preparation being attained by teachers is a direct result of the Minimum Foundation Program and the salary increase teachers received in 1950.

Butler said that during 1953-54 90 per cent of the public school teachers held degrees. When the Foundation Program was fully announced by the 1956 Legislature the percentage began increasing each year up to the present.

"This tremendous increase in the proportion of professionally trained teachers is proof that qualified teachers are available for all schools in the state as long as adequate salaries are paid," Butler declared.

He said that Kentucky colleges and universities have established a more rigorous screening process for teacher candidates and that the preparation programs now give more emphasis to scholarship in the subjects to be taught.

"The significant gain in teacher preparation, according to the study, is in the elementary field, where a gain of 22 per cent in the number of teachers having degrees has been made in the past three years. In 1953-54, the report said, 56.3 per cent of the state's elementary teachers had degrees. This year 78.6 per cent have degrees.

Until 1950, an elementary teacher needed only three years of college to receive an elementary teaching certificate. Now a college degree is required.

At the high school level the percentage of degree teachers leveled off many years ago at 97 to 98 per cent. For the degree standard has been in effect in this level since 1934. In fact, the report says, one secondary teacher out of three has a master's degree or higher preparation.

Donnie Hugh Stewart Enlists In Air Force

Donnie Hugh Stewart, 19, son of Mr. and Mrs. Oval Royse, Morehead, has enlisted in the USAF.

Stewart was administered the oath of enlistment at Louisville on Jan. 30. He will be assigned to Lackland Air Force Base, San Antonio, Texas for eight weeks of basic training, and then will be reassigned for further training in the Air Force. His wife Judith, of Paintsville, plans to join her husband after he completes his training.

Donnie (known as Lefty) graduated from Breckinridge Training School and lettered in basketball and baseball. He attended Morehead College and was on the baseball team.

Lloyd Flannery is Promoted By KU

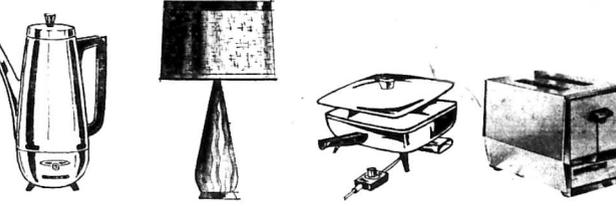

Lloyd Flannery, Morehead, will assume his duties as manager of Kentucky Utilities Company at Warsaw beginning March 1. KU announced recently.

Flannery is a native of Rowan County and has been with KU for 13 years. He is married and has two children.

Morehead, Kentucky, Thursday Morning, February 7, 1963

Eagles Topple E. Tennessee 75-71 In Game Not So Close As Final Score Indicates

Morehead kept on top of the Ohio Valley Conference Saturday night by whipping third-place East Tennessee 75-71 in a game that was not as close as the final score indicates.

A second half surge by the Eagles subdued the fighting Buccaneers who stayed with the home team during the opening stanza. Halftime score in the Morehead Basketball game was 30-30. After the first two minutes of the second half, the Eagles began lengthening the margin. Quick buckets by Bob Hoover, who plays center, and Harold Sergeant, point guard, put Morehead in front by a 38-34 count with 10:22 remaining. A layup by Hoover at 14:52 upset the lead to 42-36.

The Eagles' longest lead of the game was 13 — at 20:37, 5:38 and 5:44.

In the final minute and 40 sec-

onds, East Tennessee narrowed the gap to the final four-point margin by outscoring Morehead 7-1. Mal Roberts' 20-footer with two seconds left made the final count read 75-71.

Leading scorers for Morehead were Tom Ellis and Sergeant with 18. Hoover added 17 and Norm Pokey got 10.

Ellis, who has been starting since regular Cecil Clair was injured, turned in a top performance on the boards, getting 19 rebounds for game high. Game high-point honors went to Buccaneers guard Houston Frazier who hit for 19.

In the first half, East Tennessee jumped to a 9-2 lead at 16:27 when Frazier hit a jump shot. Morehead roared back to a 13-13 tie with 13:11 when Roy Ware collected on two free throws.

The going was nip-and-tuck until the halftime intermission.

Record Broken As Over 800 Million Pounds Of Burley Sold, At Average Of \$57.93

Over 800 million pounds of burley tobacco has been sold in the eight-state burley belt, an all time record. With only two small sales left at Lexington Friday and Feb. 12 — the average in Kentucky was \$57.93, Florida, except Lexington, rendered final reports.

The previous record production was 698,519,083 pounds for the 1954 crop when the average was \$49.02.

Sales for the 1961 crop totaled only 655,026,343 pounds and averaged \$66.44.

The Kentucky Department of Agriculture gave these figures for Kentucky —

Market	Pounds	Money	Avg. Price
Bloomfield	7,128,012	\$ 4,054,297.05	\$56.88

24,000 Different Jobs Among Listings

Young people can choose among some 24,000 different kinds of jobs in the United States, according to Ralph J. Ramsey, UK Extension Specialist in rural sociology. Ramsey was one of the speakers at a Farm and Home Week session on "Guiding Our Young People in Their Career Planning."

The number in the labor force will increase from 74 million in 1960 to 87 million in 1970, with about 83 million jobs available. Increases will be highest for those under 25 years of age; for those over 45 years of age; competition will be tightest in these age groups.

"Automation is presently displacing 35,000 jobs a week. Workers who are having the greatest difficulty finding new jobs are those who have not completed high school, who do not have technical skills, and who are working in areas that have few alternative jobs available.

"From 1965 to 1970, there will be 3.8 million youth reaching 18 years of age, a contrast with 2.8 million in 1960. With greater competition for jobs, education will become a more important asset in the employment market.

"The following trends are expected from 1960 to 1970. Professional and technical jobs will increase about 40 per cent by 1970. Other classes of workers, such as proprietors, clerical and sales personnel, skilled and semi-skilled workers, will increase about 10 per cent. Jobs for unskilled workers will be about the same in 1970 as in 1960 and the number of farm jobs will decrease."

According to Ramsey, Arthur Goldberg, former U.S. Secretary of Labor, said: "Jobs will be won by young workers who have good education and training, as well as intellect and willingness, because the occupations that stress

this kind of background will expand the fastest through 1970."

The need for guiding young people in training for careers in such there will be ample opportunities was emphasized by the various speakers at this Farm and Home Week session. The trend toward more educational requirements for various jobs and the higher salary scales of those with at least high school education also were discussed.

Heart Clinic Scheduled At Morehead

Physicians in the nine counties of Bath, Boyd, Carter, Elliott, Greenup, Lawrence, Menifee, Morgan and Rowan have been invited to take part in the one-day consultative and diagnostic heart clinic for medically indigent patients to be held in the Rowan County Health Department, Morehead, on Wednesday, Feb. 20.

Conducting the clinic will be Dr. Jacqueline A. Noonan and Dr. Jack Reeves of the University of Kentucky Medical Center, Lexington.

Cosponsored by the Kentucky Heart Association and the state and county health departments, the clinic provides a diagnostic service for the patient, along with recommendations for treatment and management of the case. It also provides an opportunity for the referring physician to consult with the clinician regarding his patient.

Necessary expenses of the clinic are being underwritten by the Kentucky Heart Association and the Kentucky State Department of Health. Clinic personnel, as well as space and equipment, will be provided by the Rowan County Health Department.

Only those patients who have been referred by a physician and have a written referral will be admitted to the clinic.

TEETH PUT IN Adoption Laws Of Kentucky Assistance Payments Hit New High

HELPS PAY CITY OPERATION EXPENSES—When the City of Morehead signed a 20 year franchise with Kentucky Utilities, about five years ago, it was agreed that KU would reimburse the city the per cent of its gross revenue from customers within the city limits. Mr. Manager Robert Moore delivered the above check, in the amount of \$5,801.90, today as the three percent payment for the 1962 calendar year.

Teeth Put In Adoption Laws Of Kentucky Assistance Payments Hit New High

Evidence that Kentucky's new adoption law is reducing the number of unsupervised and possibly dangerous adoptions has been reported by the state's new supervisor of adoptions and foster care of the State Department of Child Welfare Services.

The new law, requiring a check of all applicants seeking permission to adopt a child, except those of uncles, aunts, grandparents, relatives, was designed to end the dangers attached in independent adoptions the pointed out. Under independent adoption the child is placed by private and sometimes clandestine arrangements, without question of the adopting parents' fitness. The law became effective last June 14.

Miss Friend said that since then, she has received 82 applications for independent adoptions. In the department for checking in the preparation of the number of petitions for independent adoptions filed in Kentucky courts was 922, in the year before, 885.

"All the meanings of the figure 82 are not yet clear," Miss Friend said. "In some quarters the law, being new, may still not be understood. At this time it is not clear how many independent adoptions have been by relatives, not to be included in cases sub- mitted to the department's review. But a trend for the better is certainly indicated."

Miss Friend said, "The law will slow down some black market operations in the placement of babies. The Department of Child Welfare had information that unscrupulous persons were placing babies for profit, without regard to suitability or sound protection of the child, the mother (who is usually unwell) or the adopting couple."

One result of the new requirement, the report said, has been revelation of a number of Kentucky children placed for adoption out-of-state, involving mainly babies and their mothers.

"Previously," Miss Friend said, "many of these situations would have been brought to the attention of social agencies, and there would have been no consultation with the young mother concerning her rights or the degree of coercion involved in her surrendering the child. Now there is opportunity for informing all parties and the public generally, of the advantages and problems in moving through regular, licensed child placing agencies. Adequate operation of the legal profession in applying the new requirements has been helpful."

Welfare Agency To Make Check Of Eligibility

The Kentucky Department of Economic Security has launched a statewide study to re-check the eligibility of those receiving public assistance funds in the Aid to Dependent Children category. Commissioner Earl C. Powell has reported.

The state's study, Powell said, is part of a three-month nationwide review of A. D. C. cases in compliance with a 1962 Congressional directive being carried out by the U.S. Department of Health, Education and Welfare.

Aaron Paul, director of the Public Assistance Division of the Economic Security Department, will direct the study through three regional offices located at Corbin, Winchester and Madisonville.

Nationally about 21,000 cases, or more than 2 per cent of all families receiving A.D.C., will be examined in the study, Paul said. In Kentucky, 485 cases will be rechecked.

The results of the study will be released in June.

Manning Undergoes Basic Training

Earnest C. Manning, 37, son of Mr. and Mrs. Earnest C. Manning of 128 Buchanan Ave., Morehead, is undergoing nine weeks of basic recruit training at the Naval Training Center, Great Lakes.

During the training, recruits receive texts and interviews which determine future training and assignments in the Navy.

SHOULD EDUCATION BE CENTRALLY CONTROLLED?

Americans believe: Education is best controlled when it is in the hands of local boards, responsive to the wishes of the parents and the community. The goal of education is intelligent, moral, and self-reliance citizenship. Education must be free from propaganda and must prepare the student to exercise his proper share of control over his government.

Communists believe: Education must be controlled by the Central government so that the individual will be indoctrinated to follow, without question, the dictates of the Socialist state. The thought content of all studies must be filtered through this basic requirement. Individualism is the enemy of the people, therefore the student must be regimented and must accept the decision of government regarding his place in the economy.

IGA FOOD MAGIC! by Eddie Doucette

GLAZED BAKED SMOKED HAM (Fully Cooked)

Use whole or half Table-Rite Smoked Ham. Criss-cross lines into fat with sharp knife. Sink whole clove into each diamond of fat. Place in a covered roasting pan with 2 cups of cider, 2 1/2 cups gingerale, water or other liquid. Cover and bake 1 1/2 hrs. at 350° F. even, allowing 30 minutes per pound. When heated through, brush with mixture of brown sugar and prepared mustard, or plain sugar or honey. Return to 450° F. oven. Mixture will caramelize, enrobing Ham in appetizing coating. Serve hot with lima beans in tomato, sprinkled with grated cheese and baked.
