THE 19TH WEATHER SQUADRON reports that a detail observed the 42-Grounds field, saw his approach operationally wearing khakis; saw him discover he was in, return to his holes, take out his C-9, and return in for bunk attack, indicating that we are in for six more weeks of hard, cold winter.

FASHION NOTES: That the well dressed 1st Lt. will wear: a bright, creamy yellow shirt. Pastel colors are just the thing for tropical service.

OF COURSE NO GI LIKES TO BOAST, but we feel duty bound to record a compliment to WHO DAT paid by a 1st Lt., M.C., at the Station Hospital: "Next to the New Yorker the best reading in Africa is WHO DAT."

WHAT WITH RATINGS BEING RATIONED, it wouldn't do to pass over a promotion from Pvt.-to Corporal, won by Ray Baer, Rep., whose name we omitted from yesterday's list.

DRESSED IN THEIR SUNDAY KHAKIS, three of the group who went up for Warrant Officer passed their Board Examination yesterday. They are 3/Lt. Charles Dawson, Hq. (Salt Lake City), T/Sgt. Karl W. Lancaster, Hq. (Denver) and S/Sgt. Lonnie W. Stobaugh, Hq. (Nixon, Tex.). When they will be made "Misters," nobody knows.

1ST SGT. OF REPAIR proudly announces that the acting Duty Cpl., Pvt. Merle Ray, is now progressing nicely under the supervision of Alex, the native office boy. Pvt. Ray is too modest to make a statement.

FOREIGN CORRESPONDENCE: To WHO DAT, from Lt. Slimp's father in San Antonio, comes this advice: "It's proper to kiss beneath the mistletoe--

It's fun to kiss beneath the rose;
But the most proper place to kiss--is under the nose."

HAPPY BIRTHDAY TOMORROW TO Sgt. William B. Wright, Rep.

"BECOME AN ARMY NURSE!" "THE ARMY NEEDS YOU!" reads a poster decorating the Offices' Mess. Lt. Davis, D.C., Group Dental Officer, who received the poster, puzzled for a place for it, finally chose the Officers' Mess. Which reminds us: a gummy GI in the 16th, at Duncan, got GI false teeth and got weary denying that he washed them with GI soap and a GI brush.

YOU CAN STILL SEND A CABLE HOME, but it will take 10 to 30 days. They cost $1.50, and included only standard messages regarding money, health, mail, promotion and decorations. See notice at A.P.O.

WELL, WASN'T THERE ANY NEWS in all that mail? How about some home town stuff--local boy makes good chasing Rommel, etc?
When your head gets light,
Your back gets sore,
Your stomach's upset,
You can't eat anymore;
Think maybe you're sick
But still not sure---
Your energy's gone---
You've got a temperature;
You better turn in
Let the Doc take a look,
You might have something
That ain't in the book;
You put it off a day
Go to work anyhow
Then along toward night,
You throw in the towel.
Your joints are all stiff,
Your head is splittin'
Damned right you're sick
And you ain't jokin'.
Comes next day
You ride that book---
Make sick report,
Let the Doc have a look.

The Doc comes in
And looks around
Sees your eyes
And sets you down
He takes your pulse
And takes a smear
Looks in your throat
Your nose and your ear;
Checks your blood pressure
Still not sure
Listens to your heart,
Takes your temperature;
Writes on a pad
(And doctors do--
I can't read it,
And neither can you)
Here's what it means;
(And I ought to know)
It's Station Hospital,
One Time, Joe.
Now don't get panicky
And take hysteria
That 'lil bug b itch
And you've got malaria.

NORTH AFRICA: The 8th Army patrols are active on all sectors of the front and engaged the enemy in artillery duels on the northwestern part of the front and west of Zuara. Allied aircraft activity is limited to attacks on shipping, in which an enemy transport was badly damaged. The only report on land fighting in Tunisia is that the weather continues to hamper an all out Allied offensive.

RUMANIA: British land forces are engaged with Jap forces on the Mayau Peninsula, but there are no details. The RAF bombed enemy positions on the Mayau Peninsula and Akyab Island. All planes returned safely.

RUSSIA: Red forces advanced up the railroad line from Salak to Rostov and captured a place 30 miles southeast of Rostov, also Nogotkinskaya. It now looks as if the Germans in this region will have to abandon their defensive positions and fight it out with the Reds. Northwest of Rostov the Russians have thrust deep in German held territory and cut several communications lines.

SOUTH PACIFIC: Rabaul was bombed again by Allied planes. There is no confirmation of a Jap report that two U.S. battleships and 1 heavy cruiser had been lost.

WASHINGTON: President Roosevelt revealed that the U.S. had given credits amounting to $8,250,000 to Brazil in the past year.

LONDON: After leaving Casablanca, Winston Churchill went to Ankara, Turkey, to confer with the Turkish President and Turkish leaders. It was disclosed that the U.S. and Britain would materially help Turkey in consolidating her defensive security in this war. Premier Stalin was informed in advance.
THE LAUNDRY FINDS THAT the alphabetical system doesn't work, so you can return to the old system of turning in laundry when you have it ready.

OUR CIRCULATION MANAGER, Raymi, reports that he is having trouble with eager subscribers who want to take copies of WHO DAT from him. Raymi has strict orders not to give copies to anyone, but to place one copy in each hut. When you take a copy, you deprive five men of theirs. Like other things here, paper is rationed, and we can't supply copies to all. Usually a few extra copies can be had of yesterday's paper, at the WHO DAT office.

TWO OF THE NATIVE OFFICE BOYS are offering lessons in two of the vernacular languages. They may be found in the Native Personnel Office, Hqtrs. Bldg., No. 1.

THERE ARE RUMORS of heavy losses in Tunisia, giving a specified number of killed and missing, and attributing the report to the radio. We've caught all the radio reports since Thursday, and no figures were ever given. Heavy losses were reported, but nobody, not even a flier just returned from the front, could tell us approximately the number of casualties. This wouldn't be the Army without rumors, but let's not make them "official" or "radio" reports. We give all the radio news available. When casualty figures are given, we report them, too.

LOST: A native made gold ring, bearing Air Corps propeller emblem. Return to Pvt. Sam Cohen, Sup., or to WHO DAT.

NEWS BULLETIN BROADCAST BY BBC AT 1100 GMT, SATURDAY, FEB. 20th

SOUTH ATLANTIC: Rear Admiral Ingram, commander-in-chief of Allied naval forces operating in the South Atlantic reports that losses to Allied ships on convoy in the South Atlantic were less than 1%.

NORTH AFRICA: The 8th Army is in contact with the enemy on both sectors of the front. In Central Tunisia the Americans and French are strengthening their lines. Since the German advance halted, there has been no report of ground fighting. The 8th Army now controls the southeastern tip of Tunisia and huge convoys of supplies are rolling up to the front. It is believed that Pichon, in Central Tunisia, is in German hands. The Allies in this area have withdrawn towards Fondouk-el-Aouareb and the ridges of the Ousseltia Valley.

RUSSIA: The Soviets are now about 30 miles from Orel, after repelling German counterattacks. The Nazis are resisting in every small town. In the capture of Oboyan, the whole German garrison, refusing to surrender, had to be wiped out. The Reds continue to drive westward from Kharkov and several places to the west and southwest have been captured. They are now driving on Poltava. A number of towns have been captured by the Russians in the area between Krasnodar and the Sea of Azov. A German report says that Russians have made a landing at Novorossisk on the Black Sea. This would further endanger the German position near the Kerch Straits.

SOUTH PACIFIC: Allied aircraft again carried out heavy raids on Jap held positions. 4 Jap cargo ships at Buin on the island of Bougainville in the Solomons were heavily bombed with 500 pounders. 1 of the ships was left blazing and another with a gaping hole in the side. Two New Zealand corvettes sank a large Jap sub off Guadalcanal.

CHINA: Chinese forces are holding up the Jap offensive on the Burma Road. Bloody fighting has taken place.
A TRIBUTE TO GEORGE WASHINGTON

(From Edward Everett's Oration on the Character of Washington, given at Washington's home, Mt. Vernon)

"No gilded dome swells from the lowly roof to catch the morning or evening beam; but the love and gratitude of united America settle upon it in one eternal sunshine. From beneath that humble roof went forth the intrepid and unselfish warrior, the magistrate who knew no glory but his country's good; to that he returned, happiest when his work was done. There he lived in noble simplicity, there he died in glory and peace. While it stands, the latest generations of the grateful children of America will make this pilgrimage to it as to a shrine; and when it shall fall, as fall it must, the memory and the name of Washington shall shed an eternal glory on the spot."

FLASH! LATE BULLETIN! FLASH!
Capt. Raiford D. Baxley, M.C., while traveling with a convoy of polo ponies from another base to this camp, was detained by frontier guards. When questioned, Capt. Baxley replied in his best Southern drawl that he was from "South Carolina." The guard officer said he did not know where South Carolina was, and couldn't understand Capt. Baxley anyway, so he was probably a foreign agent, and so would be interned. Capt. Baxley protested that he already done his time as an internee. Major Boin, Senior M.O., has offered to make an exchange for the return of Capt. Baxley—he'll swap Capt. Robbins and two Medical Orderlies for Capt. Baxley. Negotiations are under way.

WHEN THE LAST SCENE of the movie faded out last night, the spirit of George Washington was seen fluttering about the screen, and a psychic GI heard the spirit protest: "I never left the place in the condition Jack Benny found it. Besides, Martha was a good housekeeper."

SAD SACK NOTES: "I beg and plead to the one who has my mess kit cover to leave it in the Mess Hall." —Mockee
VOICE OF THE PEOPLE:

Dear WHO DAT: A few days ago Capt. Cabana issued the proclamation that all great men were born in February—Washington, Lincoln, Cabana. If the month means anything, one day must be outstanding—the 22nd, when banks and post offices close—the birthday of George Washington and Capt. Arthur J. Wilson.

Faithful Reader

THE NIGHT SHALL BE FILLED WITH MUSIC, and it is, practically every night, as our band gets more and more in the groove. They've been practising hard and win a salute for their good efforts. How about a name for them? For instance, The Goon Jessos?

THE MAIL ORDERLIES would appreciate the return of their alarm clock, so that they will know when not to go for mail that isn't there.

***************

NORTH AFRICA: Heavy fighting is taking place in Central Tunisia. The Germans are making a determined thrust through the Kasserine Valley north towards the Allied base at Tobessa. British tanks are supporting American armored units in this area in stemming the Nazi rush. The Germans already control two railroads in this area and are attempting to capture the important railhead which links Tobessa with the eastern part of Tunisia. The Germans are also pounding the Allied held line northeast of Kasserine with no success. The British 6th Army is now halfway between Mareth, the heart of the Mareth Line, and Mednine. The whole of the 8th's might is concentrated in this area. Gen. Giraud of the French forces has returned to Tunisia and has been in conference with Gen. Alexander.

RUSSIA: German resistance is stiffening on the southern front. Five different thrusts around Orel, and many other counter-attacks have been thrown back by the Russians. Fresh German troops are reported to have been brought in north of Kursk but the Reds continue to advance and have taken an important highway. West of Kharkov the Russians have advanced to a point 40 miles east of the important rail junction of Poltava and to the south they are 35 miles from Dnepropetrovsk. The Reds are closing in on German held Taganrog, and in the western Caucasus the Reds are advancing west of Krasnodar.

SOUTHWEST PACIFIC: Gen. MacArthur's aircraft carried out their 4th successive raid on the Jap-held port of Buin in the Solomons with devastating results and severely bombed supply dumps and grounded aircraft there. Allied craft also bombed the Mubo area in New Guinea.

BURMA: The RAF carried out bombing raids on Jap communications and positions southwest of Mandalay. They also carried out daylight attacks on the main road north of Rangoon about 175 miles.

LONDON: Winston Churchill, who had a cold, has improved. The Allied carried out bombing raids on Germany for the 14th time this month, but no results have been determined. Germany reports that the Allies were over the northwest coastal area of Germany.
