Editor Progra We have just received a copy of your paper and want to say that we greatly admire the same and want to say that your articles on Progressi veness is true and to the point. The people through this entire community are break. this entire community are break-ing away from the old time parties with their prejudice and short coming and are going to vote almost wholly for their own interest. Now in'the precinct there are about 260 voters to the Republicans and Democrats and I am safe in saying that ful-200 of the same will you to the ly 200 of the same will vote the full Progressive ticket. Now if the while country was as full of Bull Mooses as this part of the neck of the woods. Theodore Roosevelt would with his safe and same doctrime completely and same doctome completely sweep that, whole country. The doctrines that the Procressive advocates are good for masses, and we are proud to say that such doctrine that insures the most good to the common people all come to stay and if they fail to carry November 5, it is only a question of time until Progres-siveness will surely triumph.

Yours for Progresiveoess A VOTER.

Upper Tygart, Ky., Oct. 19, 1912. Dear Progressive: As you published my first piece

wrote you I have picked up grit enough to write again. I could not help laughing when I read the Grayson paper giving me hail Columbia. That smart set surely are good ones. I never held an office in the county in my life. not even a deputy's place don't hardly think I am qualified for public office, and had better stick to the farm. I was certainly right though, when I said the Grayson crowd was out after the west end, and our can-didate. Mr. Hitchins, as they have been pitching into us ever since. Well, brethren of the west end, there is nothing for us to do but to stick together out here, and that is what we are going to do, and don't you forget it. The gang has run us about as long as they are going to do, it. They are howling about us destroying the party, while the only thing we are proposing to do is to publish to the world that we do not stand for the dishonesty, whether it is a stolen nomination, like the Republican nomination for a candidate for presi-dent is, or any other kind of stealing.

If the Grayson ring wants to tand for those things let them, do it. We did not know much about either party organization until we were in to court this week. Those who seem to be week. Those who seem to be in charge of the regular Repub-lican party organization are Mr. George W. Armstrong, as chair-man, and the active workers seem to be Mcssrs. George W. Wolford, John D. We learned that John The-obald is the acting chairman of the Progressive party, but we learned from others that our

learned from others that our prospects are good. We saw some circulars out, about the law prohibiting any body voting in a primary differ-ent from what they vote in No-vember. Well, anybody that is, afraid to vote for the right thing primary of no primary, can't be depended on no how, so anybody that will be controlled in his vote The such a consideration as that, car such a consideration as that, car be depended on no how. Chairman Armstrong says the law is one way, and Chairman Theobald says it is another, and as we country geople are not lawyers, we have to take the advice of the one we believe to be most competent, and for that most competent, and for that reason, we are accepting John M, Theobald's view of the matter, with due respect to the other man. We learn that you have spoken so plainly about some of the parties that being unable to answer you by fair and reasona-ble argument, they are threatening to arrest your editor, and carhim off until after the election. The crowd will get about as much out of that kind of doings

as they will out of the shooting of Col. Roosevelt. The old gang is dying hard, but she is going and you may be sure of that. The hand writing is on the wall, "Weighed in the balance and found wanting." Your friend and well wisher,
