POYNTZ.

Duty on Raffroad Iron

that the rullroade to relief at the hands of Oes-group, live-goally true that the same pressure entities other, and especially more important interests to relief also, but in not proposed to relieve the other interests, demanding as well as relieved the case of iron (as formance to make ploughs, area, chains, wagnon, horse-shook day, from the payment of duties. Be the quantum recors—why the descrimins the from cassumed in ploughs, argan, chains, horse-shoop, dae, and relieve the relieved from paring daty on the iron consumed by them; waget, chains and relieve the related from Agriculture is the productive interest of the successful experience of the successful exp

others, the demonstration may serve to show that each legislation has ic en ourse and usequal in operation; but it can convince no lugical industrial particular and the continuous desiration of the continuous dark repetition. And even if we should retern to the policy of allowing foreign railtoed iron to enter days-free, is it not provide the particular actions will easy the deviating of it, in out certain, that particular railtoeds and particular actions will easy the deviating of it, while eithers may not! Undeabtedly. And so the argument would continually receiv for the prepretation of as unjust and unqual policy, because such policy had been operative at some previous time! There would be more phasibility in this claim of remission of duties, if it were proposed to remit the duty on raila cared in sections not heretofore being enjoyed the benefit of the policy, and requiring duties to be paid in those sections which have onlyed it. But this would be impreciated, and, in many invanance, at least, unjust. The paid is past. The excluded—but should not be performed or recorded—but should not be performed or recorded.

retain the repright.

The reader will find below, that during another accretial term of years, reliabed into we sedmitted duty-free and that during another are it was required tops a duty. Now, if the future policy of the government is to be determ it was required tops a duty, two, if the future policy of the government is to be determined by what wait is policy during an particular term in the past, by what rule are we to elect the examplary period. If the 1 gical to say that, because at one period herectories are included in the past, by what rule are we to elect the examplary period. If the 1 gical to say that, because at one period herectories are included in the past, by what rule are we to the reliable of the past, by what rule are we to the fairned with duties therefore it should be taxed now? No one can drawn to imprite, not what bloomers in legislation the past may have developed, but what is the true and equitable policy of the country? And evinering to this point of rises, we repeat that the discrimination at the good the country? And evinering to the point of the rise of the rises, it is menually and the work of the rises of contraction at the several navy yards, and other though you consument of other iron, is unequal, unjust and inspellite; for a subject of the rises of
