

Monday nite

Dear Friends,

Enjoyed your letter very much. glad to know the baby is growing - wish I could see her. I had a nice letter from one of your Church members last week - she said that Brother Sandholts sermon Sunday April 26 was one of the best she had ever heard. wish I could have been there. I went to church last night, the preacher was very nice - took a census of the different church members present - only two from Christian Church Methodist had most with six - only 50 boys there but every Church I have ever heard of was represented & one fellow spoke up & added his church to the list when the preacher had asked about all he could think of - the fellow was some kind of reformer. we had open air services - very beautiful outside under the stars. we sang songs and the preacher talked about how we could do our part in preventing a moral degeneration when the war was over & how the boys who attended services could help the other soldiers - all very nice but I would prefer the Christian Church in monthend. I received a nice box of candy from the church ^{thank very much} or ^{any} ^{Walter.}
