Senator Whitt's Bills.

Mr. Whitt introduced the following bill and ordered to be printed, viz: AN ACT to further regulate the time of holding court in the 19th, 20th and 32d judicial district.

It has been the habit of some writers to boast of Kentucky fine whiskey, fast horses, and pretty women. In a recent letter Sawyard takes the Kentucky men of ye olden times as his theme and says: Kentuckyans under George Rogers Clark, moved the boundary of the United States from the Ohio River to the Great Lakes. It was the Kentucky statesman - John Breckenridge - who was the real author of the Louisiana Purchase. Kentucky was the first State to establish common schools and support them by tax on all the property of the state. Kentucky secured the free navigation of the Mississippi river. Kentucky gave more soldiers to the Texas Revolution than any other state. The first steamboat ever launched in the world was the work of a Kentuckian - John Fitch. Audubon lived in Kentucky; so did Alexander Campbell. Joel Hart was a Kentuckian, as well as America's greatest sculptor. Jewett was a Kentuckian, as well as America's greatest painter.

**A SCIENTIFIC WONDER**

The cures that stand to its credit make Bucklen's Arnica Salve a scientific wonder. It cured E. R. Mulford; lecturer for the Patrons of Husbandry, Waynesboro, Pa., of a distressing case of Piles. It heals the worst Burns on Sores, Boils, Ulcers, Cuts, Wounds, Chilblains and Salt Rheum. Only 25c. At Dr. M. W. Armstrong's Drug Store.

**TORTURE BY SAVAGES**

"Speaking of the torture to which some of the savage tribes in the Philippines subject their captives, reminds me of the intense suffering I endured for three months from inflammation of the Kidneys," says W. M. Shurman, of Cushing, Me., "Nothing helped me until I tried Electric Bitters, three bottles of which completely cured me." The remarkable discovery of Kenneth Melver, of Vaneboro, Me., is the subject of much interest to the medical fraternity and a wide circle of friends. He says of his case: "Owing to severe inflammation of the Throat and congestion of the Lungs, three doctors gave me up to die, when, as a last resort, I was induced to try Dr. King's New Discovery and I am happy to say, it saved my life." Cures the worst Coughs and Colds, Bronchitis, Tonsillitis, Weak Lungs, Hoarseness and Lagrippe. Guaranteed.

The new hotel, which A. J. Stamper has had under construction for several months, is at last practically completed. News reached our ears that a Mr. Adams, of Louisa, had been the first to part. We learn that Mr. Adams has had much experience in the hotel business, and as to his running a first-class and up-to-date house there is no doubt. The building is on a modern plan, and with the proper attention in the management line, should get a large patronage. Here is success to the new management.

**ORDERS OBEYED**

The orders of General health have been disobeyed, when you feel under the weather, weak, tired, irritable, and suffer from headache, constipation, biliousness, etc. The only safe, and permanent cure for this condition is Dr. Caldwell's (laxative) Syrup Pepsin. It has a gentle action all its own, superior to that of pills, powders, and cathartic waters. Try it.

Sold by N. M. Hudgins, at 50c and \$1. Money back if it fails.

J. A. Maddix, was at Salt Lick, Tuesday purchasing some lumber, which will be in in a few days.

**SCHOOL CHILDREN'S DYSPEPSIA**

The common form of dyspepsia, or indigestion, which stops the growth, makes the cheeks, weakens the system of so many school children, is often due to improper or to quickly eating lunches. While seeing to a correction of the cause, it is also important to cure the disordered conditions of stomach and bowels. This can be done by no medicine so safely and surely as by Dr. Caldwell's (laxative) Syrup Pepsin. Try it. Sold by N. M. Hudgins at 50c and \$1. Money back if it fails.

James E. Underwood, was visiting homefolks at Wesleyville, Sunday, and was also at the bedside of his brother, J. Finley, who is in ill health.

The Olive Hill Building Co., a new enterprise, just started here a short time ago, completed its first contract Tuesday in the way of building. In a recent conversation with Mr. Brammer of the firm he said the building was begun and completed in one day. This seems to have the sound of a fish story but as Mr. Brammer is one whose statements are hard to doubt we must content ourselves with the hearing. A little farther we learned that the building referred to above was a coal house.

Afway the company is ready to receive contracts and do work.

# ORINO Laxative Fruit Syrup

Pleasant to take and does not gripe or nauseate

## Cures Chronic Constipation, Stomach and Liver Trouble

**Stimulation Without Irritation.**  
ORINO Laxative Fruit Syrup is a new laxative syrup combined with the delicious flavor of fruits, and is very pleasant to take. It will not gripe or sicken. It is much more pleasant and effective than Pills, Tablets and Saline Waters, as it does not derange the Stomach, or irritate the Kidneys, Liver or Bowels.

The condition of the patient remains unchanged. The Stomach, Liver and Bowels have not been stimulated and in a few days a stronger purgative may have to be taken. This is why Pills and Aperient Waters never give permanent relief. Their violent action results in an unnatural movement of the bowels and it is necessary to keep taking them indefinitely.

can not cure Chronic Constipation, Torpid Liver, Indigestion, Sour Stomach, etc.

**For Biliousness and Sick Headache.**  
Take ORINO Laxative Fruit Syrup. It sweetens the stomach, aids digestion and acts as a gentle stimulant on the liver and bowels without irritating these organs.

**Constipation.**  
ORINO Laxative Fruit Syrup will positively cure chronic constipation as it restores the natural action of the intestinal tract. Ordinary cathartics may give temporary relief but the stomach is upset and the bowels are irritated without any permanent benefit having been derived.

**Why ORINO is different.**  
ORINO Laxative Fruit Syrup is the only preparation that really acts upon all the digestive organs. Other preparations act upon the lower bowel only and do not touch the Liver. It can very readily be seen that a preparation that does not act upon all of the digestive organs.

**Clears the Complexion.**  
ORINO Laxative Fruit Syrup stimulates the liver and thoroughly cleanses the system and clears the complexion of pimples and blotches. It is the best laxative for women, and children as it is mild and pleasant, and does not gripe or sicken. Refuse substitutes.

#### CHAPTER XXIV.

"Going Through the Rye."

Ned recovered at last. As the doctor had prophesied, it was Nellie's hand that calmed his feverish brain, and caused him to sleep peacefully, evidently with pleasant dreams. Ned's parents consulted with Mr. and Mrs. Sharp, and in response to Nellie's pleadings to remain, they consented that she should do so for awhile. Mr. Sharp was exceedingly anxious for Ned's recovery that he might express to the unconscious youth his heartfelt thanks for Nellie's life, which he had so bravely saved. If Nellie's presence at the bedside of her preserver would in any way restore him to health, he approved of her remaining, not only until he should become conscious. That day came at last and it was while his mother sat beside his bed that the dawn came. He looked drearily at her at first, and then his mind ran back to the time when the chain of thought was lost. He realized that something had happened, and that there was a blank between their lives now. "Is Nellie alive?" he said; and these were the first words spoken when consciousness came.

"What?" said his mother, in surprise, thinking that he must be wandering again. Then he told his mother of the dream that he had had two years before, and how it was so often repeated during his sickness, and how once the rose vine seemed to cling about his neck. Mrs. Jackson smiled. She remembered a little scene a few days before, but she said nothing, she knew the purport of the love that had prompted it. "Father," said Ned, one day, "bring me to go down to the rye field and look after the squashes. It is lucky that the accident happened this way, instead of last. The rye will take care of itself until I am able to get out. You will not be able to do much work with that arm this season," replied his father. "I shall be able to do my work," said Ned, and so it proved. About the last of July, Ned was able to go down to the rye field. He was now ready for the harvest. There was no better field in the county than Ned's six acres. He engaged some men to cut, bind and to draw the same to the barn, and to thresh it when they should be ready. For cradling Ned paid \$5.00; for binding and carting into barn, \$5.00; for thrashing, \$10.00. The work being done by hand \$14.00. He then paid for teaming straw to market, \$6.50; his making a cost of \$35 for harvesting.

He found on measuring the rye that the yield had been 28 bushels per acre, a total of 224 bushels. This sold to a Portland dealer for \$1.20 per bushel delivered on cars, which made the sum of \$268.80. For the straw, Ned only received fifty cents a ton, so his yield brought \$112.50. To say the least Ned was surprised at the result of his rye field. The net receipts were \$127.40, and yet he had not raised a crop much larger per acre than his neighbors. He found on looking around that his neighbor Johnson raised forty-two bushels on an acre and eighteen rods; his neighbor Dickinson's crop averaged forty bushels and ten quarters in an acre, while neighbor Porter had only raised thirty-four and five-eighths bushels on his acre. Ned was content, as he had an average yield and had made a good sum. Ned had planted two hundred acres of squashes, but they did not do well, one yielding on an average thirty pounds to a hill. These he sold for four cents per pound, and realized \$70.

Ned now had the land ploughed and harrowed again. Before the harrowing he purchased thirty loads of manure which was spread on. The time it only cost six dollars to plough the land. The manure cost thirty dollars. Ned now had the land ploughed and harrowed again. Before the harrowing he purchased thirty loads of manure which was spread on. When Ned grew better his mother told him the story that to him had been a blank. "And was Nellie here much?" he inquired. His mother told him of her career in nursing, and how she had saved the doctor's request, and appeared willing to do all she could for the doctor, as she called Ned. "No wonder that the beautiful room

was so often into your mind. "What?" said his mother, in surprise, thinking that he must be wandering again.
