

FOR A PROTRACTED MEETING of the Methodist Episcopal Church, will be held in their Chapel in this place, commencing on Friday the first day of June next, at 11 o'clock, A. M. Several Ministers from the adjoining counties are expected.

THE Rev. Mr. MASON, will preach in the Methodist Chapel in this place, this evening, at early candle light.

ON A three days meeting will be held in the Union Meeting House in the vicinity of Capt. Joseph Roberts, commencing the Friday before the third Sunday in May.

We are authorized to announce L. W. ANDREWS, Esq., as a candidate for a seat in the next Legislature.

We were requested to say that W. W. BLAIR, Esq., is a candidate for a seat in the next General Assembly.

NAVIGATION OF THE ATLANTIC BY STEAM.—The great experiment of navigating the Atlantic by steam has been fairly and successfully tested. The Great Western, from Bristol arrived at N. York on the 24th ult. in 15 days, and the Sirius, on the 23rd, in 18, notwithstanding the rough and boisterous state of the weather. Their arrival created quite a sensation, and when off the Battery they were greeted by the cheers of an immense multitude assembled to witness their approach. There is no news of importance by these arrivals.

A dog a couple of weeks since went over the falls of Niagara, and came out of the boiling abyss below landing on Terra firma alive, and not much the worse for his terrific adventure.

RESUMPTION OF SPECIE PAYMENTS.—Some of the Banks of the city of New York, have already commenced paying specie for their bills and it is expected that a general resumption will take place previous to the 9th of May.

Since writing the above we have received the Star, which says—"The Banks have all resumed specie payments in the broadest extent, bills deposits and all; and more than that, they pay out their own notes only."

It is generally supposed that the Banks of Boston will not be far behind those of New York in a general resumption.

CONGRESS.—We have received the proceedings of the 25th. The select committee appointed to inquire into the charges of corruption preferred against the Hon. John Ruggles, have reported, and the report exonerates him from all improper conduct. Some interesting conversation upon the subject of our relations with Mexico was had. Mr. Adams said it was now five months since the President of the United States recommended war against Mexico, and nothing has yet been heard from the committee of Foreign Affairs on the subject; he, therefore, moved to instruct the committee to report forthwith. Mr. Adams, however, withdrew his motion upon learning that negotiations were still pending, and that strong probability existed of an amicable and honorable settlement of the difficulties between the two countries.

Taking time by the forelock.—One of the candidates for the Legislature, in this county, has already spent some days in electioneering in the remote parts of the county.

The United States Bank is said to have four millions of specie on hand, besides funds in Europe which amount to eight or ten millions. Its circulation, including the old and new bank issues, is six millions.

On the 13th ult. HENRY CLAY attained the age of 61 years.

Carbonic acid gas has recently been required by Dr. J. K. Mitchell, of Philadelphia, to the solid state, when it was handled and tasted by several gentlemen. Its temperature whilst in this state, could not have been less than one hundred degrees below zero of Fahrenheit.

SEQUENCE.—The following is one among many rare gems which the fruitful subject of slavery has elicited. Stoyd baddeley, Clays, Websters and Calhouns, and make room for the "down east" orator. It was delivered before a debating society while the "honors" of slavery were under discussion. "Mr. President," said the honorable member, "Mr. President I myself have known a man, who was content with beating a nigger of his, until his

war. The character of David Crockett is introduced, with a life and seasoning not to be surpassed. It was favorably received.

Mammoth Horses.—A horse has recently been exhibited at Louisville, 184 hands high, 9 foot eight inches long, and weighing, though not in very good order 1500 pounds. The English dairy horse is said to be fully as large, but to the eye of a Kentucky stock raiser they would appear like small elephants.

From the Vicksburg Register. SHOCKING STEAMBOAT DISASTER ONE HUNDRED LIVES LOST.

Day by day the melancholy duty devolves upon us of recording some new disasters, some severe and distressing calamity. One steamer accident follows upon another in such rapid succession that the sheet upon the record has scarce time to dry in the intervals between their occurrence. We have now before you the painful task of presenting the details of one of the most shocking and heart rending disasters of which we ever read. Saturday morning, April 24, about 6 o'clock the steamboat "Mammoth," Capt. John Crawford, collapsed, blew, while opposite Princeton, 100 miles above this city, at which place she had stopped to send her yawl for passengers. The deck passengers were about the engine—The berths were filled and the floor around covered with mattresses. We could not suppose the room would accommodate more than 100 persons. The number of deck passengers on board is estimated by Capt. Crawford at 80 to 100. A gentleman who was at work among them, a carpenter, estimates the number at 150. The steam swept through the whole length of the boat with the strength of the lightning torturing carrying every thing before it. A group of helpless sufferers were brought here from Princeton, of whom sixteen have since died. Twenty or upwards were left at Princeton, of whom we are informed this morning, thirteen have since died. All that were able to travel or could get upon another boat with the assistance of their friends, continued upon their course. There were also seven or eight negroes on board, neither of whom have been since seen. It is impossible to form any accurate estimate of the number of lives destroyed. The cabin passengers with the exception of Mr. Myers and child, escaped uninjured. This gentleman on hearing the explosion seized his child and rushed into the cabin, which was densely filled with steam; the rest remained in their state rooms. We cannot state whether Mr. Myers and child are dead, but so it is reported, and that his lady was slightly injured. Seven to ten of those blown overboard were picked up by the yawl; the others disappeared. One or two it is thought were also saved by a scull from the shore. Every aid in their power was rendered by the citizens of Princeton, but for whose assistance it would have been impossible to have fastened the boat to the shore.

Another Experiment.—The Legislature of New York has just passed a General Banking law, which provides that any individual or company of individuals, whether foreigners or natives, may establish a bank with a capital not under \$100,000 and to any amount beyond, by putting in trust under the State Comptroller, United States or State stocks to half the amount, and the other half in good mortgages on real estate. One important feature in the bill is that requiring 124 per cent in specie to be kept on hand for every dollar in circulation.

The Herald in referring to this law says: "In pursuance of this new state of things we learn that several banks of very large capitals, on the new system are already organized in Wall street—one in particular, of about \$30,000,000 of capital. Isaac S. Bronson is said to be preparing one—the Barrings of London probably another, and several Trust Companies think of turning their institutions into Banks. Mr. Biddle can also organize his Agency in Wall street to any extent he pleases under the new law.

"In short, we begin a new era, start on a new voyage—and if the next six months do not witness expansions, speculations, and excitements, beyond what has ever been seen in any civilized age, it will be entirely owing to the acts of Azarah S. Flagg the Comptroller of the State of New York, who, by the law is made a greater man, and will wield more power than did Napoleon, Caesar, or Nicholas of Russia.

It is rumored that Mr. Biddle is to start a New Bank in the city of New York under the Banking law. He is to commence operations shortly.

The State of Tennessee, has negotiated a loan of \$1,000,000 in the city of New York.

Ohio has obtained a loan of \$600,000 in the east.

FOREIGN ITEMS.—The coronation of the young Queen of England, is to take place in June next. Provisions in Sweden are very scarce, and the people are consequently in a suffering state. The English press now rejoices as much to see gold exported to this country, as they did some time since on seeing it going the other way.

The water has again broken into the Thames Tunnel. No lives lost. The great Western Steam Ship will leave Bristol on the 7th ult. Extensive preparations are making in New York to receive it.

An attempt was made in Lisbon to upset the Queen's Government. The rebels were defeated with a loss of 60 or 70 killed.

PRINCIPALITY.—The State of New York, has appropriated the entire income derived from her portion of the surplus revenue to purposes of Education.

Success to old Virginia.—An extensive manufacturing concern, has been put into operation on the Patuxent river, Prince George county, Va. The business of cotton weaving has been successfully commenced, and a machine shop is in full operation, in which every thing is made from a gun lock up to a locomotive engine.

A military force of 7000 men, has been placed at the command of Gen. Scott, to effect the removal of the Cherokee Indians.

The house of a Mr. McGrady, of New Jersey, was destroyed by fire, on the 6th ult. and three of his children perished in the flames. The oldest child was about six years of age, and the youngest an infant at the cradle.

A new play, entitled "The Triumph of Texas," written by Wm. H. Madden, has just been produced at New Orleans. It embraces a great portion of the Texian

bursting of Spring upon the destruction of wheat, of flowers, and fruits after a carnival of the damned.

"Reactions in Ohio."—The Whigs of Dayton swept every thing before them in the late election. "They have not," says the Journal, "carried a township election before the present, for years."

Sales at Philadelphia, April 24.—320 shares U. S. Bank, 119 a 1194.

Sales at the New York Stock Exchange, April 24.—886 shares U. S. Bank, cash to 10 days, 115 to 116; 100 shares Amer. Trust, Balto., 90 days, 99; 50 shares Amer. Trust, Balto., 99.

Specie.—Sales of \$7000 in half dollars at 1 per cent premium.

TREASURY NOTES.—Sales of \$1500 at 1, and \$5000 at 3-8 per cent. discount.

THE MARKET.—The Cotton market is in a dead calm; hardly a hundred bales have been sold for two days past. In merchandise generally there are no great changes.—Merch. Stocks have taken a large step backwards; not on account of any new facts, but rather in conformity to the vibration of public feeling. Besides this, we have to-day a thorough E. snow storm.—N. Y. Jour. Com. April 24.

CLARKE AND RYAN Commission Merchants, MAYSVILLE, KY.

PAY particular attention, (BY AND THROUGH) to the receiving and forwarding of Goods, Wares and Merchandise of every description, entrusted to their care.

It having been reported through the interior towns and places in Kentucky, from natives best known to those with whom it originated, but, in our opinion, not altogether pure, and most certainly, not to our benefit, that we intended quitting business in this city. This, then, is to inform Merchants and others, that we are still in a pretty good way of successful operation, and with a good stock of the various articles in our line, on hand, which we offer on as good terms as any house in the place. We hope to receive a portion of that support hitherto extended towards us.

CLARKE & RYAN, Maysville, April 28, 1838. 28-c

NEW GOODS.

THE subscribers have just received and opened their Spring supply of GOODS, which together with their former stock, makes their assortment equal to any in the county; which they are determined to sell on

FAVORABLE TERMS as they can be purchased in the country.—Purchasers are requested to call and examine previous to purchasing. We will give goods for every description of PRODUCE usually purchased in stores.

WILLIAM NEAL & CO. MANUFACTURERS OF LOOKING-GLASSES, No. 27 Fifth Street, Philadelphia, back of the Merchants Hotel.

The only establishment in the city devoted exclusively to this business. Country merchants are supplied at manufacturers prices, and their Glasses insured from breakage to any part of the Union, without extra charge.

Those who may have orders for Large Glasses, would do well to inform us by letter, previous to their coming on, of the size of the plate, and the kind of frame they may want, (whether of Gill, Mahogany or maple), that we may be manufactured expressly for the occasion. Merchants should give their orders for Looking-Glasses the first thing on their arrival, to insure them well put up.

ORANGE BOY.

THIS thorough bred fine race horse will stand the present season, 1838, at my stable, in Bath County, on Flat Creek, on the Iron-works road, eight miles north of Mount Sterling and five miles east of Owingsburg, and will serve mares on the following terms to wit: "THIRTY DOLLARS if paid in the season—Thirty-Five out—Fifty to insure—One to the free. Any person putting by the insurance and trading the mare off before she is known so to be foal, the insurance is due. Good and extensive blue grass pastureage gratis to mares from a distance, and every reasonable attention paid, but I will not be responsible for accidents, should any happen. Any person wishing to send their mares before folding, can have separate lots for their mares. The season has commenced and will end the first of July.

WILLIAM T. YOUNG, ORANGE BOY, and of fine form (none of them will be more than a year old the ensuing spring) and if they should fail to make fine race horses, I can only say that there is no possibility of forming a correct opinion of a colt by his blood and appearance.

ELI CURENT, Feb. 23, 1838.

P. S. In a handbill lately published by Mr. Samuel F. Rice, concerning a horse named Reform, lately brought to this State from South Carolina, I noticed the following statement:—"He (Reform) was a fine race at the Centre Course, in the spring of 1833, beating fine horses, viz: Columbus, Whitfoot, Florentia, and distancing Orange Boy, who beat easily the famed racers, Merod and Anvil." In reply to this, I herewith present an extract from the American Turf Register, Vol. 5, No. 2, page 99, speaking of the same race, as follows:—"By mistake, Orange Boy, in the third heat, for which he did not run, was pulled up and stopped between the three and two mile distance stands, and was of course distanced. Florentia was drawn the third heat; and neither Columbus or Whitfoot having won a heat out of three were ruled out; consequently the race was adjudged to Reform, the winner of the third heat. A beautiful race, the second heat between Orange Boy, Whitfoot and Florentia. At the coming home all three of them might almost have been covered with a blanket! Orange Boy winning the heat."

By reference to the page from which this extract is quoted, it will be seen that Reform was 5th among five horses the two first heats, and that he had but two nags to contend with the third heat, neither of which had won in either of the previous heats. It is ever gratifying to me to hear the arrival of "fine" horses in our State, when they are despoiling of the tide, but I think in justice to myself and the public, the whole truth should be known.

NOTICE.

MR. GEORGE BARKER, Francis T. Barker, and William T. Craig—Take notice, that I shall apply to the Fleming County Court at its next July term three o'clock, to have three Commissioners appointed by said court, to convey to me, as assignee of Isaac Gray's widow and heirs, all the interest of John and Whitefield Craig, and Arthur Fox's heirs, in a certain parcel of land, 686 1/2 acres situate within the County of Fleming, in the third survey of John Craig, of 1766 acres situate within the bounds of Perkins' survey, in Fleming county, Kentucky; being the same sold to said Isaac Gray, by said Craig and Fox, and the same mentioned in an article of agreement between said Isaac Gray and said Fox, in fact, Wm. P. Fleming, and the claimants of land within the boundaries of Perkins' patent—when and where you may attend if you see fit.

JAMES GRAY, March 30, 1838. 23-c

THE FINE HORSE, SINGLETON.

A COLT of the celebrated Pedigree of New York, reached my residence a few weeks since, and will stand the ensuing season in Flemingsburg, or its vicinity. He will be exhibited at Washington, Sharpsburg, and the villages in this county, in due time. Those wishing to breed from so fine a horse, will find it to their interest to see him before they make engagements—as I have hesitancy in saying, that in point of blood, fine appearance, and performance on the turf, he is superior to any horse we have ever bred from, north of Licking river, and inferior to none in his size, and pedigree and performance, see bills in due time.
