BANK SHOWS BIG GROWTH

Donkey Ball Game Coming July 13

Police report that 27 people have been arrested in connection with the 50 deaths in Eastern Kentucky. Rowan, Lawrence and Breathitt counties were those most heavily hit, but in all, over 5,000 lives have been lost and the property damage will total over four million dollars. The toll, which has been registered by the coroner, includes 50 dead and 77 injured.

Flash floods in three counties, coming at 11:15 p.m. Sunday, took their toll. There were 50 lives lost in Eastern Kentucky, West Virginia and Missouri. Bodies have been discovered along the streams and their numbers are increasing.

Sheriff of Breathitt County says 69 are missing and that death lists will be increased. Students missing in Van Cleave School.

BREATHITT HARD HIT

Breathitt county, according to Sheriff Walter Deaton, has counted seven dead and 69 persons are missing. Keech, in the Froceen Creek section of that county, felt the full force of the rising streams and it is feared that other sections, where bridges and roads have been destroyed, will increase the death toll. In one family of seven, six were swept away and a child less than 6 years old was saved.

Red Cross reports this morning that 75 to 100 are drowned or missing in Breathitt county.
