6 IN FIELD FOR SCHOOL RACE; 2 OUT OF CONTEST

Smaller Ticket Than Expected In Case Fight For Membership On Board

PICKED FROM COUNTY-AT-LARGE

The field of candidates for the Rowan County Board of Education narrowed down to 6 this week, as 2 of those who filed withdrew, while others mentioned as prospective members of the position, did not file before the deadline at midnight Monday.

Candidates for the 2 positions, on the Board of Education in the order in which they filed are, Herbert Bradley, Oscar Hill, Robert Cornett, O. J. Clay, S. C. Canfield and D. B. Leadbetter. Mr. Leadbetter has

Grand Jury Recommends Work Be Done On Many Roads In Rowan; Return 55 Indictments

Recommendations that repair work be done, on certain specified roads in Rowan County, criticism of the method of using employees in the County Superintendent's office and a charge aimed at D. J. Gammage, Morehead College cafeteria director, and Marvin George, Band Leader, for alleged participation in politics, were among the principle findings of the Rowan County grand jury. A complete report of the grand jury will be found on page 5 of this issue of the Independent.

Among the roads found to be in poor and impassable condition during

the winter months were the road between Cogswell and Harlan Ellington place; North Park of Triplett; Ramsey Creek road; Three Lick Fork road; and Clear Fork road.

The jury recommended that a wire fence be constructed around the county jail; and commended the city of Morehead for the manner of keeping prisoners. The county officers were found to be in good condition and well kept. It was recommended that the County Board of Education either move the Superintendent's of-

A. O. STANLEY TO EASTERN - EAGLE SPEAK HERETODAY GAME POSTPONED

Hon A. O. Stanley, former Governor and United States Senator, will address the voters of Rowan County at the courthouse tonight at 7:30 o'clock in the interest of the Democratic ticket.

Senator Stanley, recognized as one of the State's best orators, is one of the "big game" in the present campaign and in Kentucky politics. It has not been decided who will introduce Senator Stanley. The speaker is one of the foremost that has been brought here during the campaign.

The Morehead Freshmen will play Lindsay-Whitson Junior College at Jayne Stadium Saturday afternoon at 2:00 o'clock. Local speakers have been installed and the Ohio State-Indiana game will be broadcast and some of

4 SENTENCED IN CIRCUIT COURT; DOCKET CLEAR

Buddy Alfrey Draws 21 Year Sentence On Conviction Of Manslaughter Count

SENTENCES RANGE FROM 1 YEAR

Sheriff Mort May took 4 men to the state reformatory Monday, following sentences rendered during the October term of Rowan Circuit Court.

Those sent to the penitentiary are: Buddy Alfrey, 21 years, voluntary manslaughter of Everett Sweeney at Bangor.

Otis Wilson, 2 years, voluntary manslaughter of Harvey Fultz at Gates.

David Shingles, 2 years, grand larceny, convicted of attempt to rob wife in charge of S. M. Canfield in Morehead.

Edward Wright, 1 year, shooting and wounding wife with intent to kill at Clearfield 2 years ago. This is the case where Mrs. Wright, riddled with bullets, was given no chance to recover, but showed a remarkable spirit to live while in the hospital and did recover. Wright attempted to commit suicide after he had shot his wife.

The grand jury returned 30 additional indictments Saturday bringing the total number of true bills to 53. Court adjourned Saturday afternoon with the docket practically clear.

H. C. Denny, convicted and sentenced to 1 year for stealing a slot machine from Richard Haze at Farmers, filed bond on motion and goods for new trial.

Educational Program Feature Of Camp At Clearfield

The educational program at the CCC Camp at Clearfield is as varied as the schooling of its enrollees before they came to camp. The vocational chart runs from the first grade to the senior college. Mr. Earl May, educational adviser, has been fortunate in obtaining teachers from the government and now has an educational program that will provide classes for the illiterate and the collegian. Every enrollee is engaged in some kind of educational work and the progress on all fronts is amazing to one who is familiar to CCC Camp life. Actual work is carried on further than class room discussions. There are several work projects being carried on and the enrollees have their own manual

L. H. Horton's Mother Passes At Ohio Home

Mrs. Carrie M. Horton, mother of Lewis H. Horton of the Morehead College faculty, passed away Tuesday morning at the home of her daughter in Cleveland, O. Mrs. Horton had been in failing health for some time. She was suffering from arthritis. The funeral will be held in Cleveland and Mr. Horton is attending.

Politics . . . Business etc

A lively and close but somewhat content appears probable in the selection of the Morehead City Council and the Police Judge, on November 5.

To the fair-minded individual, it appears probable that neither the Peoples Ticket (consisting mainly of members of the present Council) nor the opposition Citizens Ticket, can hope to get all of their candidates over.

Both tickets are represented by some of the highest type men in

Mr. Duley Honored

The election of Mr. C. P. Duley of Morehead to the Grand Junior Wardship of the Grand Masonic Lodge of Kentucky, is not only an honor to him, but one to Morehead and the local lodge as well.

The Grand Junior Wardship is the most coveted position in the lodge, since it automatically moves up to the Grand Master'ship. For the past two years, friends in Masonic circles of Mr. Duley have been working in his behalf, and it is gratifying to note that their work, plus his ability and record in private business and Masonic life, brought him the Junior Wardship.

Mr. Duley has been in Morehead for many years. He is the head bookkeeper at the Lee-Clay Products Company. He is deserving of the high position he now holds with the lodge. In Masonic circles, he is fast approaching the stage of national recognition. He has already gained state-wide note.

The Election

Kentucky—the scene of 2 bitter fought primaries and an equally hard battle in the final election—will go to the polls November 5 to cast their ballots, and finally name the winners.

Politics is fascinating, but at the same time it is cold and cruel, wreathing lives and ambitions. The one winner, but the losers are many, who pick up the shattered pieces and attempt to build back that which they have lost.

Kentucky has been a dark and bloody ground for the last four months. Within its confines there is bitterness and remarks in a biting campaign delivered from the tongues of smooth orators who know not what they say.

The people wanted a primary, and it was only fair and just that they be given a primary. As the clouds of political strife, domination and greed clear, it is to be wondered if the people wanted the right thing. After all, a primary is generally controlled by the politicians—if not this time, and its cost runs into the millions.

If a vote were taken today of whether Kentucky people want a primary hereafter, it is safe to say that thousands who expressed themselves as favoring one 6 months ago, would now be wholeheartedly behind the convention system of selecting the nominee.

The November election is near. Although you may be "fed-up" on elections, it is your duty to vote—no matter how you vote. Help make the government the kind of government that you want. About the only thing you can exercise freely where politicians are concerned, or have a finger in the pie.

Another Death-Trap

The stretch of highway on U. S. 50 three miles from Lexington where the regrettable accident that brought fatal injuries to two Transylvania College students occurred is a death-trap, and should receive the immediate attention of the state highway department.

A number of accidents have occurred in the long dip from Garrest avenue to the Mason-Headley road intersection, and hardly a week passes that a truck, automobile or motorcycle does not go off the road, smashing into walls or embankments on one side or the other. Almost every telephone pole in that vicinity bears the scar of an accident.

On account of the long dip, with Hamilton Park at the bottom, motorists naturally speed both up and down hill. In wet weather there are several slippery spots, particularly at the Mason-Headley road intersection where a car is momentarily beyond the control of the driver. The car containing the Transylvania students skidded completely from the right side of the road and landed on the embankment of the Mason-Headley road, entering at the left.

This entire stretch should be reconstructed by the state highway department at the earliest possible moment. Too many serious accidents have occurred here, and in many cases they were not the fault of the driver.—Lexington Herald.

head Independent." I am sure that this letter will reach the eyes of a vast number of girls. First, I would like to tell each of them that if they are really anxious to go to school and find that they are financially unable to do so, that Brenau overcomes this difficulty with the aid of President Pierce and the faculty. May I add that there is absolutely no danger in contracting that almost incurable disease known as "home sickness," for Brenau's campus is filled with five hundred girls from more than thirty-eight states. Each greets you with a friendly "hello" or "hey." Besides this friendly spirit on the campus, Brenau's activity life is crowded with entertainments, dances, recitals and dinners, etc. Trips to Atlanta are made frequently. Just now we are planning to be the first in line to welcome President Roosevelt in his homecoming to Atlanta the latter part of November. Later on, we are going to see and hear Nelson Eddy, Grace Moore, and several other famous opera singers. Also there is one week devoted to the top national societies on the campus. At this time, there is quite a rush on the part of each organization to add members to their lists. In addition to these extra-curricular activities, Brenau offers to each of her students new and interesting courses. One of the most useful and successful of these courses is Journalism, which I am now taking. Dr. Brigham, our instructor, has written for many national papers using her pen name, "Victoria Flambeau." Several of her former students are now writing. One girl has just sold her first story for \$128. Most of her students after one year of training are able to obtain work on the editorial staff of some newspaper.

I could go on indefinitely telling of Brenau's many advantages, but I feel that words are almost indescribable.

It is very difficult to understand that spirit, which exists at Brenau until you have actually lived on her campus for a few days.

If any girl is interested in attending college, I suggest that she consult Brenau among those of her first choice.

Sincerely Yours, REBECCA PATTON Oct. 5, 1935.

**Complete Report Rendered By Grand Jury
At October Term Of Rowan Circuit Court**

Hon. D. B. Caudill,
Circuit Judge,
Morehead, Kentucky

The grand jury for final report we have been in session nine days. We have made and produced in open court fifty-five indictments for violations of the laws. We have endeavored to cover most of the county during our sittings, and when the

facts authorized it, reported true bills.

We have given special attention to the road situation and find many of the county roads in a deplorable condition. The road between Cogswell and the Harlan Ellington place is in need of attention and repairs. In fact, it is so unfit for travel that the mail man in delivering mail has to

leave his car and either carry the mail on horseback or walk a very considerable distance, and report has come to us that unless this road is put in condition suitable for travel for the persons carrying the mail the people are liable to lose the benefit of free delivery system.

The North Fork of Triplett Road is badly in need of culverts and bridges in like manner Emory Creek Road, and the Road intersecting with the Morehead and Frenchburg Road on the south side of the county for a distance of four miles along the river is in bad condition. The road on Three Lick Fork in some places has to follow the Creek bed, when it would be an easy matter to change the course of the road along higher ground and provide a suitable road for travel. In like manner the Clear Fork Road is in bad condition.

Unless something is done and the money properly apportioned to these needed improvements, the people here are doing their duty.

The City Jail is in good condition and carefully kept. The accommodations are limited, but we understand the needed parts will be enlarged to accommodate the inmates.

We have given much thought to the Superintendent's office, its location, list of employees, and the expenses in connection therewith. It is our judgment that this office should be maintained in the Court House, thereby save the rental of at least \$240.00 per year, and the extra expense of light and heat, and if space cannot be provided in the Court House, then it seems to us it would be good business for the County Board of Education to buy a piece of property suited to its use and this rental be applied to the payment of the purchase price and upkeep.

There seems to be, in addition to the Superintendent, two special inspectors at a salary we are not advised as to the amount. It is our understanding that in most counties of equal population to our county that only one salaried employee is used. We urge that this department of

siding along these highways will be deprived of this opportunity to get from their homes during bad weather, and we urge that every possible step be taken to put these roads in suitable condition for travel at the earliest possible date.

There are two instances in which personal injury has been suffered, likely by foul means. We are referring to the instances of death of Marion Smith and the wounding of Orville Adams; also the explosion near the home of Bob Howard. We have been unable to develop facts upon which to base an indictment. These cases should be referred to the next Grand Jury to continue the investigation, and indict if an indictment is authorized.

We have examined the public property and have a few suggestions to make that we believe will be helpful.

The Jury Room should be provided with chairs. There were many good chairs inside of the bar of the court rooms, but they have been misplaced, and the chairs now used are not the kind that should be provided for the court room.

The offices are well kept insofar as we are able to observe, and the officers are doing their duty.

the County Government. We advise that the taxpayer and children pay the taxes they pay, and that the County Board of Education meet at the earliest possible date and carry out the suggestions herein made.

As to the County Jail, we have examined carefully the toilet connections on the second floor and find them in bad condition and unsanitary. Prisoners who are not chronic criminals are entitled to out of cell privileges but when out of the cells it is an easy matter for them to escape. We believe, if the county will erect a heavy net wire fence some eight feet high with the top of the posts turned inside and with barbed wire strung on the top ends of the posts, such an arrangement will make it impossible for people to get to the jail and provide tools or means for inmates to escape, and at the same time those who might get out of jail will find great difficulty in getting through this fence. This will be an effective temporary relief at least. We recommend that this be done, and further, that it will not be an expensive investment to put electric lighting around this fence line from which lights may be provided also. Also the top wire could be electrified to prevent escape of prisoners.

It has further come to our notice that the leaders of the band and the Chief at the cafeteria of the Morehead State Teachers College have been engaged in political activities in the present governor's race, and the disapproval of the injection of politics in our state maintained educational institutions, and that we recommend that steps be taken to suppress it.

All of which is respectfully submitted.

**Clay, In Platform
Opposes Consolidation**

TO THE VOTERS OF
ROWAN COUNTY

I am asking your support in my race for the office of Member of the Rowan County Board of Education on the following platform:

1. I am in favor of strict economy consistent with the improvement of the school, and of keeping the schools as close to the children as possible.

2. I am not in favor of consolidation of schools, because at the present time it is not practicable.

3. I am in favor of employing teachers strictly on their merits and not because of family connections.

I am in favor of giving every one connected with the schools of the county a square deal without favors.

I am not connected with any slate of anybody, and your vote cast in my favor will be a vote cast for an independent candidate who is interested in the school first, last and always.

4. I have three children in school at the present time, one of whom is attending high school, so my interests are the same as the interests of every parent in Rowan County, in giving our children the best opportunity to obtain a real education.

**CHINA MAY STOP USING
OLD U. S. NEWSPAPERS**

Exports of old and over-issue papers from the United States to China may be severely curtailed if a bill under consideration by the Canton Government to forbid such imports into South China becomes effective.

According to a report to the Louisville district office of the Commerce Department. The extent of this trade is revealed by the fact that in the city of Canton alone over \$1,000,000 worth of such papers was imported during 1934. The great bulk of these imports originated in the United States. The newspapers are used in China chiefly for wrapping purposes by the small merchants and retailers.

**173,500 JAPANESE ARE
RESIDENTS OF BRAZIL**

Brazil has the largest number of Japanese residents outside of the mother country, says a report to the Louisville district office of the Department of Commerce. According to figures just issued by the Japanese Department of Foreign Affairs, there was a total of 1,303,000 Japanese residing in the foreign countries on October 1, 1934, this total including natives of Korea and Formosa. Brazil is credited with 173,000; Hawaii, 150,000; and the United States, 146,708. Japanese in China number

50,440; in Peru, 21,127; in Canada, 21,067; in the Philippines, 20,589; and in the British Isles, 1,423. In Soviet Russia, in April, 1934, only 79 residents are reported as 2,494, with only 47 in European Russia. India and Ceylon together are credited with 1415 Japanese residents, the statistics show.

**FORMOSA LEADS WORLD
IN PERCENTAGE OF HOGS**

The Japanese county of Taiwan, Formosa, has become one of the outstanding hog-raising areas in the Orient, according to a report to the Louisville District office of the Commerce Department. From February to September approximately 10,000 hogs were shipped to Hong Kong and Canton, Taiwan has in proportion to the area of its arable lands, a greater number of hogs than any country in the world, and in proportion to its population the island ranks fourth in hog-raising among nations of the world. Because of the stimulation given to the hog-raising industry by rising prices and profitable export trade, the local newspapers are referring to Taiwan as the "Denmark of the Orient."

**Wets, Drys, Unite
On Local Option**

Mrs. Lafon Allen, Wife Of Eminent Kentucky Jurist, and Chairman of the Kentucky Repeal & Regulation League, Stated At The Drys.

LOUISVILLE, KY., SPECIAL.—By unanimous vote, the Kentucky Repeal & Regulation League went on record at its monthly meeting here last night as favoring the local option method of regulating the liquor problem.

Referring to the local option question, Mrs. Lafon Allen, Chairman, in speaking for the League, said: "The greatest barrier in preventing the restoration of the local option system so universally acclaimed with public support prior to 1920, is the Seventh Amend-

(See Staff Photo, Last Page)

ment in the State Constitution, which provided for State-wide Prohibition. The local option system of regulation without this present constitutional handicap which now exists, is a feasible one, says Mrs. Allen, and can be introduced and altered from time to time to conform with the sentiment of each community, but it is evident that nothing really constructive can be accomplished until the prohibitive amendment is voted out of our State Constitution. The liquor question should not be handled on emotional or religious grounds, but as a social problem, calling for a separate guidance. The experience of other states and nations cannot be ignored. Almost unanimously, prohibition has been abandoned for the adoption of a better system for promoting temperance and the handling of the liquor problem. Therefore, the repeal of the Prohibition Amendment in our State constitution is the first essential step if we hope to look for improved conditions in the handling of the liquor traffic in Kentucky.

The following resolutions were unanimously adopted: Whereas, national prohibition has been repealed, and WHEREAS, Kentucky has not declared its choice for the retention or the rejection of the Prohibition Amendment to the Constitution of the State; and WHEREAS, the citizens of the State will have the opportunity to vote on Tuesday, November 6, 1935, as to whether or not a law better than the present prohibition shall be enacted, and proved principles of temperance and public safety will be used to perfect an acceptable system suitable to local conditions.

BE IT RESOLVED, that we, the officers and members of the Executive Committee of the Kentucky Repeal & Regulation League, do hereby earnestly urge every voter in Kentucky to go to the polls on Tuesday, November 6, 1935, and vote in favor of the proposed Constitutional Amendment, which will be printed on the right-hand side of the ballot.

BE IT FURTHER RESOLVED, that we, the officers and members of the Executive Committee of the Kentucky Repeal & Regulation League, do hereby earnestly urge every voter in Kentucky to go to the polls on Tuesday, November 6, 1935, and vote in favor of the proposed Constitutional Amendment, which will be printed on the right-hand side of the ballot.

CHAS. A. PROCTOR, ONE OF ROWAN COUNTY'S PIONEERS, LAID TO REST

Chas. A. Proctor was born on the 18th day of February 1864 and died in Morehead, Ky., on the 14th day of October 1935, at the hour of 4:20 A. M.

His ancestors were among the pioneer settlers of Kentucky, migrating here from Calumet County, Virginia, during the early stages of the Revolutionary War. His great-grandfather participated in the battle near Mt. Sterling (known as Estill's defeat) a sanguinary battle between the early settlers and the Indians, in which the Indians overcame the settlers, killing Captain Estill and a large number of his men, all of the killed being scalped. About 1850 his father, Jeremiah Proctor, moved from Fleming county to the head of Tygart Creek, near Elliottsville, where he settled and cleared some land, taking with him the first wagon that had been brought into that section. When the Civil War came on, his father and older brother volunteered in the Union Army, leaving the subject of this sketch, who was the youngest son, to raise the crops and take care of the women and children and, when a Confederate force invading that part of Kentucky, came to their neighborhood, the boys were rallied together and posted on the hill with their long ranged deer guns, and when the rebel column came within sight he was one of the party that fired on it taking its command, Major Shawhorn, from his horse and causing its retreat. Uncle Charley enjoyed recalling when he had been meat and venison on the Proctor table and when the roads, excepting the main post and stage road to Washington, were mere trails that had been established by the big game and the Indians and when the underbrush had been suppressed by the giant trees of this section. His father and older brother, Elber were both in the battle of Mount Sterling, his father having there secured a Confederate minnie ball in the thigh, recovered it from its pit and went on with his company, after having turned the missile over to his Colonel. At the approximate age of 40 he married Mary Angeline Tolliver, whose parents had migrated to Kentucky from the Carolinas and were French Huguenots, and to this union were born five children, William Ezra Proctor, attorney for Rowan County, Mrs. E. B. Caudill, the wife of U. S. Senator Daniel B. Caudill, Miss Effie Proctor, deceased, Bert Proctor, merchant of Morehead and J. Herb Proctor, former merchant now deceased. In the early nineties, desiring better educational advantages for his children, he was attracted to Morehead, where he bought property and built his home, living here until his death. Most of the real estate now constituting the grounds and campus of the Morehead State Teachers College was formerly owned by him. After coming to Morehead he took an interest in church, school and public affairs. Being converted by

the venerable mountain evangelist, the Rev. D. G. Combs, he immediately became identified with the Christian church, which he served as deacon or steward, until he said a younger man could do the work better and retired from his official connection, but retaining his membership until death. He served as a member of the City Council in the municipal government of Morehead. He was a member of the board of Trustees of the old Morehead Normal School, until it became a state institution.

In religion he was practical, not claiming to be perfect or better than other discreet persons, but he was devout to the interpretation of the Word given by David, Solomon and the Apostles. In his private and public dealings he recognized both virtues as being cardinal—honesty and truthfulness. He was liberal to all worthy projects as far as his ability would permit him to reach. He contributed more than any other citi-

zen to bringing electricity to Morehead and lost his entire investment without complaint. No penniless wayfarer ever departed from his home in need of food or lodging. His neighbors and his acquaintances in all walks of life, venerated and in his last few years, would invariably meet him with a friendly inquiry as to his health, which made him so tedious in his desire to hold on to life and to avoid the ultimate surrender that comes to all mankind. It may be truthfully said that this was a life well spent and that he has earned a place of eternal happiness in the haven of the hereafter.

4-H CLUB MEMBERS TO HONOR MEMBERS

Twenty-one men and women who served 10 years or longer will be among the leaders to be honored at the 4-H Club achievement program to be held in each county in Kentucky Nov. 2.

Some of these leaders were pioneers in the establishment of 4-H club work in the state. A. B. Feltner, Laurel county, has been in the work 20 years, topping the list of veteran leaders in length of service. R. E. Taylor, Jackson county, has

served as a club leader 19 years and three other leaders in that county have records as follows: Mrs. Nanette D. Hays, 15 years; S. J. Latona, 14 years; and Miss Ida Abney, 12 years.

Mrs. Albert A. Roederer, Jefferson county, and Mrs. John Lani, Garrard county, has been leaders 15 years, and Bascom Elam, Morgan county, 14 years.

Other leaders who have served 10 years or longer are Mrs. George Wyatt, Bourbon county; C. V. Lucy and R. V. Lentz, Boone county; Miss Mary Christian Adams and Frank Johnson, Fayette county; Mrs. W. E. Carrithers and Mrs. Mattie Lehr, Jefferson county; J. M. Wallace and Orbin Gilliam, Rockcastle county; Mrs. Ernest Jones, Trimble county; Mrs. W. B. Threlkeld, Union county; and Mrs. W. L. Crutcher and Miss Ruth Coons, Daviess county.

PLANS ANNOUNCED

MOR STATE VOTE ON CORN-HOG PROGRAM

Corn and hog farmers, including those living in Kentucky, will vote on October 26 whether they desire a continuance of the corn-hog adjustment program after this year.

The present corn-hog adjustment contract expires November 30.

It is claimed that Kentucky farmers who signed corn-hog adjustment contracts will receive this year's benefit payments totaling \$3,017,000. This is divided into \$1,847,000 in corn payments and \$1,170,000 in hog payments. A total of 25,500 corn-hog contracts were signed in the state. The base corn acreage was 807,000 acres and the base hog production 780,000 head.

"Unless the results of a referendum indicate a strong desire for continuing cooperative control of corn-hog production, no adjustment pro-

gram will be offered," says an announcement from Washington.

\$3,600,000 IN STATE TAXES

THE revenue from taxes on alcoholic beverages is now the State of Kentucky's *fourth-largest* single source of income. . . . In addition to eight forms of taxes paid to the State, the distilling industry in Kentucky now pays seven forms of taxes to the Federal Government, four forms to counties, and four to cities within the State. . . . Unless you vote "Yes" on November 5, all this revenue will be lost, and the taxpayers of the State will be forced to make up the deficit.

What the Distilling Industry Does for Kentucky

COAL . . . Kentucky distillers bought over 200,000 tons of Kentucky coal last year. The mining of this coal provided an entire month's work for over 2000 Kentucky miners—work which may be lost forever if you vote "No" in November.

GRAIN . . . Kentucky distillers purchased 9,000,000 bushels of grain last year, at a cost of over \$10,000,000. This market for grain will be lost to Kentucky farmers if the distilling industry is driven from Kentucky.

LUMBER and COOPERAGE . . . Kentucky barrel man-

ufacturers sold 800,000 barrels to Kentucky distillers last year. These barrels were made from 80,000,000 feet of white oak lumber—at current prices, worth more than two and a half million dollars in cash.

OTHER INDUSTRIES . . . In addition to those mentioned above, dozens of other industries and occupations in Kentucky derive some if not all their business and income from the distilling industry in Kentucky. Railroads, hotels, equipment manufacturers, bottle makers, printing houses, newspapers, merchants of all sorts, everybody in Kentucky owes some benefit to this \$100,000,000 industry.

If you want the State to continue collecting \$3,600,000 per year in taxes from the distilling industry instead of from you and your neighbors—if you want the State to retain all the other benefits of this \$100,000,000 industry—

"The 39 Steps" Show At College Friday

"THE 39 STEPS," starring Robert Donat and Madeline Carroll comes to the College Friday, October 25th.

This is a combination murder-mystery and spy melodrama with just action comedy and romance throughout.

The thriller is engendered by the many attempts the hero makes to escape the police who are trying to arrest him for a murder he has not committed.

At a music hall where the hero is a spectator a brawl is started; and in the excitement that follows the hero finds himself accompanying a young woman from the theatre. She begs him to take her to his apartment. Once there she tells him that she is a spy, that an attempt was being made to kill her, and that there was danger of valuable government information being sent out of the country. During the night she is murdered and the hero realizes that in order to clear himself he must find out who is behind the plot. Following clues left by the murdered girl he meets with many exciting adventures and is forced to do the things which are attempting to arrest him for the murder of the girl.

Fields Top Of Film Is All His Own

Above all else W. C. Fields, screen comic, has a unique style of delivery which has endeared him to millions. Fields who starred in Paramount's "Man on the Flying Trapeze," coming to the Cozy Theatre Sunday, declares he acquired his raspy voice as a youngster and never lost it. Few people know he started his career as a vocal comedian, turning to pantomime when he left for abroad.

The Fields delivery is unique. The lines themselves, with the raspy Fields voice reciting them, gain a distinctive humor that no other funny man on the stage or screen can imitate or equal.

Paramount put him in a picture called "International House." The public roared. He was given a film contract by Paramount and put up on his own, privileged to write his own pictures and his own dialogue.

In "Man on the Flying Trapeze" Fields is seen as the down-trodden, clerical, brow-beaten in the office and hen-pecked at home. The film tells how this "poor man" tries to sneak away from the office and his nagging wife and mother-in-law to attend a wrestling match.

MARRIAGES

Among the marriage licenses issued by County Clerk Vernon Alfrey during the past week was one to W. H. Day, 65, a divorced farmer and Lena Bradley, 26, single, both of Soldier, Ky.

Other licenses issued include: Wladoff Slans, 22, single farmer of Cranston, and Dollie Birchwell, 20, single, of Sharkey.

Virgil Dehart, 22, single, farmer of Elliottville and Mandy Joan Mabry, single, of Ordinary.

William Cogswell, 25, single, farmer, and Bladenia Craycraft, 23, single, both of Cogswell.

Virgil Ouney, 29, single laborer, and Bonnie Sparks, 21, single, both of Easton.

Alfred Goldy, 50, widowed, farmer, and Marie Rebecca Hardin, 61, widowed, both of Salt Lick.

Charles Trent, 26, single, farmer, and Buna Jones, 18, single, both of Elliottville.

John Johnson, 20, single, farmer, of Sharkey, and Eulah Bowman, 18, single, of Clearfield.

Wayne Gearheart, 24, divorced, laborer, and Ethel Polly Anna Wilson, 23, divorced both of Olive Hill.

Ralph Wood, 23, single, miner, of Morehead, and Ivory Lambert, 24, widowed, of Criz.

Everett Jones, 43, divorced, carpenter, and Minnie Felty, 37, widowed, both of Morehead.

Woodrow Stealy, 21, single, brick worker, and Ruby March, 18, single both of Carter County.

H. C. HAGGAN ADDRESSES YMCA

H. C. Haggan, head of the department of agriculture, was the speaker at the regular weekly meeting of the Y. M. C. A. Monday night. His subject was "Agriculture" introducing a series of vocational talks which will be offered during the semester.

Mr. Haggan outlined the field of agriculture in various phases, and showed its relation to physics, chemistry and genetics. Many industries utilize agricultural knowledge in their research; packers, fertilizer factories, feed companies, and chain grocers employ agricultural technicians to meet competition.

COUNTY AGENT RECEIVES CHECK

County Agent Chas. J. Goff received on October 10th the first lot of 1933 rental checks for the members of the Rowan County Tobacco Adjustment Association. There were 163 checks for a total of \$2,688.00. This is approximately 60

per cent of the total payment due as 1933 rental payment. The remaining \$1800.00 will be paid within the next few weeks. This is the fourth payment received by local farmers for their participation in the Tobacco Adjustment Program. This makes a total of approximately \$17,000.00 received by tobacco producers since the program started.

700 4-H CALVES FOR LOUISVILLE FAT STOCK SHOW

Seven hundred calves are being furnished by 4-H club members in 31 counties for the 14th annual fat calf show to be held at the Bopson Stock Yards in Louisville Nov. 13-15.

Cash prizes totaling \$3,800 will be divided among the club boys and girls. Rings include, carloads, single calves, 5 and 10 head for counties showing carloads and counties having less than carloads, economic production, record books, and several rings for Utopia club members. Owners of the best Angus, Hereford and Shorthorn calves will receive trips to the National 4-H Congress and International Livestock Exposition in Chicago, furnished by the breed associations. Wayne county club members are preparing 71 head for the show and

Garard county boys 60 head. Other counties will show calves as follows:

COLLEGE EXPLAINS FEATURES OF NEW TOBACCO CONTRACT

Features of the proposed new tobacco adjustment contract are explained by the University of Kentucky College of Agriculture as follows:

The contract will be for the years of 1936, 1937, 1938 and 1939. It may be cancelled, however, by the individual growers at the end of any year, and may be suspended or cancelled by the secretary of agriculture.

In the majority of cases the base will be the same as in the present contract, with provisions for the elimination of inequalities now existing.

The secretary of agriculture will prescribe the allotment each year, which may not be less than 50 per cent of the base for burley and 60 percent for dark tobacco.

There will be one payment which will be made at the end of the marketing season. The payment may vary from year to year, according to the difference, between the market price and the parity price of

Eritrea: Italy's 50-Year-Old Colony Situated on Red Sea

"What is now Eritrea began in 1870," says an article by Harold Lechenberg, in the National Geographic Magazine, "when the Italian Rubattino Steamship company needed a coaling station in the Red sea and bought the Bay of Assab and its miserable outfall from a petty local ruler, the Sultan of Bahetta.

"By 1879 a small Italian military force had landed in Assab and hoisted the Italian flag in this corner of the world. Today, that red, white and green banner flies over a strip of Red sea coast which is 670 miles long. Inland from Assab across the desert, rise the cool highlands of Ethiopia (Abyssinia).

"Tritic, barley, and fever-stricken from Assab, but as you approach the port of Massaua the topography begins to change. Behind Massaua the green highlands rise in steep embankments, forming a sort of gateway to the interior of Africa.

"It was when Italy occupied Massaua in 1885 that Eritrea took definite shape; now the area ruled by Italy stretches inland in some places 200 miles or more to the frontiers of Ethiopia and the Anglo-Egyptian Sudan.

"In brief, within 20 years after the Rubattino company bought Assab as a coaling station which was never developed, Italy's colony here had come to cover nearly 46,000 square miles of Africa. On January 1, 1936, this new colony was christened Eritrea by the Italian government, in remembrance of the 'Mare Erythraeanum,' as the old Romans called the waters of this part of the world.

"I journeyed from Assab to Massaua and until then I had never really known what heat was," says the author. "Even a day-long crocodile hunt in India, with the thermometer at 117 degrees, Fahrenheit, was cooler than a walk through Massaua, where in summer the thermometer often hits 120 in the shade. The short stroll from the small post-office building over the abandoned pier of the new harbor grounds to the Hotel Savaria, proved a feat of physical endurance!

"Here, we have veritable hell here in summer," said the hotel manager. "Even in winter Massaua is no pleasure resort; but then you can at least endure it!"

"Yet Massaua, one of the hottest cities in the world, with its environs, is the home of 15,000 natives and a few hundred Europeans. The white men, mostly Italians, work during the day in their offices under big fans, with glasses of cool water by their desks. In a damp and

stuffy air they toil with a mean temperature for July of 94 degrees Fahrenheit, 20 degrees hotter than the average for the hottest month in New York.

"Only by constant work can the white men stand the climate and forget the heat. No idle man could endure it here. Except for a few nurses in the hospital, no white women live in Massaua in summer. Then the families of white employees go to the high plain of Hamassien, the real center of Eritrea.

"The harbor of Massaua is the only place in Eritrea where large ships can tie up at docks to discharge their passengers and cargo."

TOYS MADE OF GOLD

Toys valued at more than \$5,000,000 were shown in an exhibition of "Children Throughout the Ages" in London, England, recently. Two gold rattles which once belonged to Queen Victoria to the prince of Wales and the duke of York when they were babies; Queen Elizabeth's and Oliver Cromwell's christening robes, and a skirt worn by Charles I when he was two, were also shown.

THE DOCTORS ARE RIGHT

Women should take only liquid laxatives

Many believe any laxative they might take only makes constipation worse. And that isn't true. It is up to what doctors do to relieve this condition. They use a liquid

A cleansing dose today; a smaller quantity tomorrow; less each time, until bowels need no help at all.

laxative, and keep reducing the dose until the bowels need no help at all.

Reduced dosage is the secret of aiding Nature in restoring regularity. You must use a little less laxative each time, and that's why your laxative should be in liquid form. A liquid dose can be regulated to the drop.

The liquid laxative generally used is Doan's Laxative. It contains senna and cascara—both natural laxatives that form no habit even with children. Senna is the nearest tasting, most acting laxative you ever tried.

Watch Your Kidneys!

Be Sure They Properly Cleanse the Blood

YOUR kidneys are constantly filtering waste matter from the blood stream. But if your kidneys become lazy in their work—do not act as nature intended—fail to remove impurities that poison the blood, you will suffer aching backache, dizziness, scanty or too frequent urination, swelling of the feet, numbness in limbs, feel nervous, miserable all the time.

Don't delay! Use Doan's Pills. Doan's are especially for poorly functioning kidneys. They are recommended by good doctors every country over. Get them from any drugist.

DOAN'S PILLS

Quick, Complete Pleasant ELIMINATION

Let's be frank. There's only one way for your body to rid itself of the waste matter that causes acidity, gas, headache, bloated feelings and a dozen other discomforts—your intestines must function.

To make them move quickly, pleasantly, completely, without griping, thousands of physicians recommend Milnesia Wafers. (Dentists recommend Milnesia wafers as an efficient remedy for mouth acidity.)

These mint flavored candy-like wafers are pure milk of magnesia. Each wafer is approximately equal to a full adult dose of liquid milk of magnesia. Chewed thoroughly in accordance with the directions on the bottle or tin, then swallowed, they correct acidity, bad breath, flatulence, at their source and at the same time enable quick, complete, pleasant elimination.

Milnesia Wafers come in bottles of 20 and 48 wafers, at 35c and 60c respectively, or in convenient tin containing 12 at 20c. Each wafer is approximately an adult dose of milk of magnesia. All good drug stores carry them. Start using these delicious, effective wafers today.

Professional samples sent free to registered physicians or dentists. If request is made on professional letter head.

CROCHETED FLOWERS FOR POT HOLDERS

By GRANDMOTHER CLARK

Pot holders crocheted with heavy string are very practical and when made in flower forms are really lovely. They are heavy enough to protect the hands without requiring padding. These three pot holders are crocheted in the same manner but in different combinations of red, yellow and green. The petals are crocheted separately of one color and then slip stitched together and finished in contrasting colors. Size when finished about six inches.

Instruction sheet No. 781 with illustrations and instructions how to crochet these holders, also how to arrange the colors, will be mailed to you for 10 cents. Material can also be bought from this department. Information and price are given when mailing instructions.

Traditional Wedding Ceremony Performed

The traditional "wedding" ceremony, an annual event at Bethel Woman's College, Hopkinsville, Kentucky, of great social importance to the members of the student body took place in the parlors of the college Friday evening at 7 o'clock. The ceremony is symbolic of the union of the old and new students of the college in a bond of friendship and understanding. Those taking part in the affair have been selected by the student body as representing their best interests and the spirit of the college.

Before an elaborate arrangement of ferns and in the glow of numerous candles, Dr. J. W. Gaines, president of the college read the ceremony in the east parlor. A program of music was presented

...but, after all is said and done, it's the cigarette itself that counts

...the question is, does it suit you?

Now, when it comes to a cigarette that will suit you... you want to think whether it's mild, you want to think about the taste

That Chesterfields are milder and taste better is no accident...

The farmer who grows the tobacco, the warehouseman who sells it at auction to the highest bidder, every man who knows about leaf tobacco will tell you that it takes mild, ripe tobaccos to make a good cigarette.

In making Chesterfields we use mild ripe home-grown and Turkish tobaccos.

training shops that they have built during their spare time.

The CCC Camp at Clearfield is somewhat like Berea college in that all of the boys work most of the day and then they all attend classes late in the afternoon and night. However, none of the classes are compulsory yet their attendance average is as great as in the public schools. It is the policy of the camp to have some kind of educational work going on all the time that will interest each and every enrollee. Directed play and athletics are a daily feature of the educational program and the enrollees take particular delight in swimming in these two.

Editor's Note:—This is one of the first of a series of articles being written on CCC Camp at Clearfield, Ky.

fice to the courthouse or build suitable housing for it. It was charged in the report that the Superintendent had too many helpers.

Although it was not specifically set out, it is understood that the charges aimed at Mr. Gammage and Mr. George are outgrowths of recent speech-making by politicians here. The Morehead College band played for both the Swope and Chandler rallies, and received pay for both. Mr. Chandler and a group of his followers in Morehead and Eastern Kentucky were recently served at a special dinner in the Morehead College cafeteria, but the meal was paid for by each person who ate, or rather a "dutch-lunch."

Morehead. They were selected for popularity and business success. All of the present council members will probably not be retained by the voters, while others will be.

Voters will cast their ballots for 6 names for City Council. The 6 highest out of the 13 candidates will be winners.

There is no campaign for Mayor, since Mayor Gordon Blair holds over for 2 more years. Four have filed for Police Judge. They are Leo Stewart, former U. S. Commissioner on the Citizens Ticket; L. C. Walls, present Council member on the People's Ticket; Melvin Johnson on the Independent Ticket; and S. E. Muters, Square Deal candidate.

SCHOOL STRUCTURES: Work on the new Science Building at the Morehead State Teachers College and the new dormitory will be under way by the first of January, it is reliably reported.

The Science Building, which will be one of the most magnificent in the entire South, will cost \$255,000. The dormitory is to be built at an expense of \$181,000.

Spending of this money in Morehead, is bound to make itself felt in business. There is no reason why every one who really desires work should not be employed after these projects get under way. The government is spending additional thousands in PWA projects in Rowan, while the county's two large industrial plants—the Lee-Clay Products Co. and the Kentucky Fire Brick Company—are now operating.

Under the new law governing school elections, each candidate's name will be at the top an equal number of times in each ballot book. The election of Board members is from the county-at-large.

HIGH SCHOOL NOTES

(By Charles Tatum)

About 15 members of the Glee Club are planning to join the Eastern Kentucky High School Chorus which will be organized at Ashland during the E. K. E. A.

Rev. Charles Richardson of Mt. Sterling was the speaker in Chapel on Wednesday of last week. Both faculty and students found him very entertaining.

Report cards were given out Tuesday, showing grades for the first six weeks.

The Seniors are selling chances on a watch, to be given away at J. A. Bays' Jewelry Store on Monday afternoon, October 23, at 3:15.
