

EYE WITNESS TELLS OF PORTSMOUTH FLOOD.

Very Interesting Letter from Former Olive Hillian Tells Conditions as they Existed. Several Known Here Experience Effects.

Portsmouth, O.

Editor Progressive: I am writing you thinking perhaps there are many of your readers who are interested in relatives and friends that help to form the Carter County colony here in the city.

We have lost all count of time though this is supposed to be Wednesday, April 2nd.

Today one week ago we were reading of the awful flood, fires and starvation at Dayton, Columbus and other points North of us.

All day Wednesday we were cut off from the outer world; no newspapers, telephones or telegraphic service, and the Ohio was "coming up fast." Little did we then think that we were soon to share some of the perils of the Northern towns. Thursday the men at Suby Shoe plant removed five hundred thousand dollars worth of stock from the basement to other floors; many working far into the night.

The Irving Drew plant closed until Monday, March 31, as it then seemed a flood was a "sure thing," and although old river men, and all weather bulletins predicted a high stage, few indeed, thought the '34 mark would ever be reached.

Thursday night the water works gave 35 long whistles, to warn the people that the flood gates were to be opened and let the water into the city. To the fact that they were able by means of floodwall and floodgates to hold the water out until such a high stage was reached, is attributed the saving of much household goods as well as many human lives. I have heard of no fatalities from drowning, only from an overturned boat; 5 lives were reported lost.

Friday night the electricity was cut off and the city left in darkness, as the grass supply was cut off at about the same time. This found many people without coal or oil, or any way to cook. The people on Hill Top—the only dry part of the town—built furnaces in their back yards and here they boiled beans, and potatoes and made coffee, sometimes eating crackers for bread, as the bakeries were all off their job.

On Friday, each person could buy only one loaf of bread, one pound of crackers or meat, and only a dozen of eggs at one time, at most of the stores.

The relief committee began to send coal and provisions which helped a lot. On Monday morning nine hundred persons were fed at the Highland Ave. school house by the relief committee.

Among those who lived in the flooded districts are Samuel McFerrer and family, Miss Olive Alexander and Mrs. Chloe McClave, who fled for the hills of old Ky., and are supposed to be safe and sound at Fullerton. Tony Stephens and family were registered at the Lawson Street school house as were Hattie Mays, J. H. DeHart, and dozens of others. Frank Fuitts and family were reported at Campbell Ave. school house with two of the children very ill with measles.

Riley Mullins and family were part of them, up stairs at Mrs. Wagner's, on Broadway and Seventh, while the others, with Mary Lyons, were quartered on Summit St., with friends.

Oscar Walker and family and Mrs. Jennie Preller and husband are with friends on Grand View Ave. Dealer's ambulance removed Mrs. Ora Garvin-Tipton and three-days-old babe from their home on 8th Street to the home of some friends on Grand View, where Mr. Tipton and little daughter and Mrs. Maude Danner are also staying. John Bishop and family are supposed to have kept in the second story of their home. Albert Ellis and family registered at Highland Ave. school house. Arthur Fyvie is with the Steger boys on Summit St. Stella Bocook-Wise and husband and young baby was reported as faring nicely in the second story of their home. Robert Rose, mother, and Mrs. Scott, together with little May Scott, who is not yet out of danger from an attack of spinal disease, were quartered with Gus Meade and wife, but were probably driven to higher ground.

Mrs. R. H. Paynter and family, Roy Tabor, Harry Paynter and wife, were with H. W. Paynter and family on the hill one square north of the flood line. Bradley Baker and Jonah James seem to be faring well some place on the hill.

There is no need for uneasiness only from the after effects of the flood. Hundreds have lost everything and are penniless; but say what you please, the Ohioans have certainly shown their kindness of heart and hospitality.

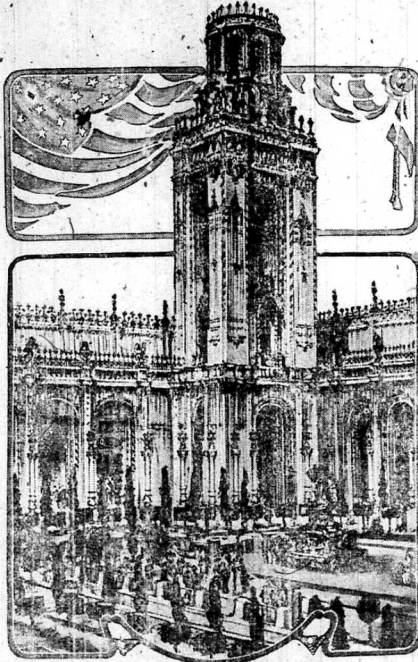

Hundreds of the best residences of the Hilltop district are housing homeless people.

While we have escaped the water by being on high ground, still life the past week has been somewhat strenuous. The men of the family have carried water from Kinney's Lane more than a mile away. We used gas for both heat and light, and only had one grate in the house, no coal and one pint of coal oil.

The women of our family have cooked on furnace and grate for twenty of us. We had a blueprint made of our sleeping quarters and by widening the davenport with the ironing board and placing four in some of the beds, all are enabled to snooze their 8 hours.

We have had no mail, or newspapers for a week, so we can only (Continued on third page, third col.)

PANAMA-PACIFIC INTERNATIONAL EXPOSITION. SAN FRANCISCO, 1915.

Copyright, 1915, by Panama-Pacific International Exposition.
A tower in the Festive or East Court. At night the East Court will be paved with gold, its great banks of flowers, and its lofty palms will be flooded with light. Musical masterpieces of the world will be rendered by the choruses in the towers. Great serenaders and choral festivals will assemble upon the floors of the court. In the Festive Court, the visitor will behold a vision surpassing the richest dreams of Oriental or Moorish architecture. The floors of this court will be in tessellated pavements of gold in the center of the court will be great groups of sculpture with fountains, dancing nymphs and satyrs. There will be great fountains upon which magic lights will play at night and at night this mystic court, as all others, will be flooded by a glow of indirect light which will resemble a bright moonlight. At the south end of the court will be a huge tower 276 feet in height in which will be a great organ with echo organs in smaller towers of the court. The Festive Court will be a court of music, of acting, and symphonic dancing. Here will assemble many of the great pageants of Oriental nations that will take part during the exposition; here too will come many of the processions from the amusement center, which will be designed to draw visitors from the more serious phases of the exposition.

OF INTEREST

To every man, woman, boy and girl in Carter, Elliott, Rowan, Lewis and surrounding counties. Do you have good health? Can you eat anything that you want to eat? Is your stomach in good condition? Does your throat bother you? Does your head hurt you? If you are bothered with any of these ailments, what is the cause? Did you know that bad teeth causes these troubles? And besides they cause the foulest of breaths. Have you noticed some of your dearest friends do not want to be very close to you while talking to you? Have you not seen some people yourself that made you wonder how they could live and have such bad teeth? And, Oh! that breath! You have heard this remark dozens of times. How pretty that girl would be if when she laughs she did not show such badly kept teeth; or that young man, how handsome he would be if he would just take care of his teeth. Now young man and young girl don't you know that your dearest friends cannot care for you as much with your teeth in their present condition as they would if you had a sweet breath and your teeth all well kept and in good condition. Now, old man, does your wife care for you like she did when you used to go to see her? You kept your teeth brushed and the decayed ones all filled, and you looking like you had just stepped out of a band box. If she don't "there's a reason". Now wifey, how is it

with you? Does hubby ever say you ought to have your teeth fixed up, that perhaps your health would be better and that you would look better? If he does you had better take the hint and even if he does not say much you have them fixed and try the change. I have not worked 13 years for nothing. I think that I know how to do your work. I guarantee every piece of work that leaves my office.

DR. J. L. MCLUNG, Dentist.

Thursday of last week the little son of Millard Boggs, living on Woodside, got hold of some matches, went to the stable, that is also used for a coal house, and set fire to the building and calmly returned to the house. Fortunately there was no wind probably saving that part of town a serious conflagration.

The State Board of Equalization in session at Frankfort last week approved the assessment of 15 counties of the State, including Carter, Elliott, Fleming, Greenup and Rowan counties. Bath county was raised 30 per cent on real estate, and Lewis 15 per cent. on real estate.

POST OFFICE

NEW BANK TO BE ORGANIZED AT ONCE

The Organization of a Second State Bank for Olive Hill a Reality. Stock has been Subscribed and Ready for Organization.

Ed. Maggard an "Edison."

Many years have been spent in total time, and thousands of dollars thrown into the gulch, in an effort to find a remedy for that dazzling, unsteady, glimmering appearance noticed on the serene at motion picture exhibitions. It seems to be the development that a successful remedy for this very troublesome feature of motion picture projections has been found in an invention recently brought out by E. E. Maggard, whereby through his machine the picture is shown absolutely clear and steady, and naturally seems plainer and more prominent, and restful to the eye.

S. M. Bradley, also of Morehead, Ky., is interested in the invention, and is to assist Ed. in building and installing a plant in Morehead for the manufacturing of the Motion Picture Machine, which will be a factory of more importance than an ordinary business, if there be no exaggeration in the Morehead newspaper's report that 100 employees are necessary to operate the factory.

Mr. Maggard is well known in Olive Hill, is "from the farm," and his many friends congratulate him on his good fortune.

Miss Kate Scott

Owing to the marked increase patronage of ladies and children traveling alone, and for the improvement of the room service in general, the Phoenix Hotel, of Lexington, has appointed Miss Kate Scott, whose home is Olive Hill, a Supervisor of Room Service, to take effect at once.

Miss Scott will see to the welfare and comfort of ladies and children, guests of the hotel, and will assist the housekeeper in the general supervision of the maids and floor boy service thru-out the building.

Miss Scott has had considerable hotel experience, and will prove a valuable acquisition to the hotel staff.

Free Vegetable Seed

The congressional distribution of various garden seeds has taken place and Congressman W. J. Fields of this place remembered hundreds of "ive folks" with a package of vegetable seeds, but as to miss no one in especially his immediate home vicinity the Progressive has been sent a confirmation of these seed packets for free distribution to those who care for Watermelon, Lettuce, Onion, Carrot or Radish seeds.

Mr. Fields, of course, attaches no specific conditions to the giving out of the seeds, and the husband is only expected to care for half the crop, until "harvesting" time, when restrictions that he care for his half thenceforth would be wantonly unnecessary. Anyway, they are here for you and if you don't get 'em it's yer own fault.

A resolution calling on President Wilson to remove all Republicans holding Federal offices in Florida was defeated in the State Senate Thursday by a vote of 21 to 10.

It speaks volumes for Olive Hill that she has outgrown her old self and finds that a number of her folks felt that to keep up with her growth and financial accumulation, she merits a second banking institution.

Though the organization and establishment of a second State bank has been passed by rumor for some weeks, yet when the stock was opened for subscription it was little more than a matter of using a little discretion on the part of the promoters, the recording of the names and the number of shares wanted. Too, this was the case in the organization of our present bank, beyond question a strong small-city institution as will be found in the State, which not only looks Olive Hill in the living line, but shows as well the progressive, forward business tendencies of our folks.

Mr. Emory Evans has been the most active promoter of the new bank, and is understood to be unanimously endorsed for the cashiership. He was cashier of our present bank until April 1st, when he resigned, and had previously been connected with other banks in other capacities, and should be very familiar with the fundamental principles of banking.

The institution is to begin business with a capital of \$25,000, divided into 250 shares of \$100 each. The greater number of subscriptions to stock has been in blocks of from 5 to 20 shares. However, the stock is subscribed and a meeting was intended for Tuesday for perfecting the organization, electing officers etc. but was postponed on account of pressing business matters previously arranged, of some of the subscribers, especially Mr. E. S. Hitchens, who had to attend a very important business meeting of the brick company on that day. The meeting will probably be called the latter part of this week.

Rowan Progressives Meet

The Progressives met at the Court House Monday and elected precinct Committee for five of the seven precincts of the county. Brushy and Percy precincts were put off until another meeting. The putting out of a ticket was discussed some but delayed until a meeting in May. —Morehead Mountaineer.

Among the constitutional amendments, proposed in the House was one providing for direct election of the President and Vice President, that candidates be nominated by direct primary and elected for a single term of seven years, and another for a two year term limit, and another for popular election of U. S. District Judges each 6 years.

The recent flood so damaged 75,000 pounds of tobacco in a tobacco warehouse at Maysville it was given away to farmers who are making use of it for fertilizer.

YOU have often queried your mind as to the meaning of the Initiative and the Referendum. That the primary struggling purpose of the Progressive Party, who are battling to bring about conditions representative of these two great human beneficial privileges and powers, may be more clearly understood and these advocacies of that equality loving party be more ardently appreciated, briefly stated their correct construction is this:

The Initiative, in its ordinary meaning is this: The initiative means the right of the people, under forms prescribed by law, to initiate any law they want and to which they can get a sufficient number of legal voters to attach their signatures on petitions, to be submitted by the Secretary of State at the next regular election to the voters of the State for their adoption or rejection. The initiative permits a certain number of the inhabitants of a State, who are entitled to the privilege of suffrage in that State, to make a motion before all of the citizens of the State, which shall be voted on, just as one man in a mass meeting, in your lodge halls or in your city council, or at any meeting where a measure is accepted or rejected by a vote, can make a motion and have it voted on, or as a member of the legislative assembly can ask for a vote on a bill or measure which he has drafted and offered to that body. There is no chance for feeble laws, that are merely fillups in law making, or laws designed to benefit a favorite county of the blue-grass or a pet section of Kentucky, at the expense, and operating at the embarrassment of the other sections and counties of the State, for petitions are necessarily circulated and signatures obtained thereto from all sections and counties of the State, simultaneously, where a constitutional measure is in question, thus insuring equal representation to each and every district, city, town and rural division of the State, to sound their approval or disapproval of a proposed measure sought to be voted upon. Thus, good laws, wholesome to the greater number of citizens are kept intact and in full force and effect and are not repealed by our General Assembly through the channels of corporation political pillage prescriptions—money—and prevents other measures adopted in their stead, with a joker for a tail, that utterly destroys the benefit of the law to the common people and operates to the indirect, if not direct, benefit and advantage of the various corporation lobbyists, who always fill State Capitals and our National Capitol City during the sessions of our assemblies.

The initiative thus serves only the just people in giving them an opportunity to pass any law they do want in this way when their legislature for any reason—particularly for the reason that the legislature is controlled by a crooked bipartisan political machine—refuses to pass laws which are of fundamental importance, such as thoroughgoing corrupt practices prevention act in elections, and restricting acts that would give 1000 voters in one end of a state as much say-so in the States management of its affairs as the same number of voters in some other section of that particular state. Oregon is prided among the states of the Union as having the most efficient corrupt practices prevention act, and she would not now enjoy that enviable distinction had she not reaped a benefit of the initiative and referendum.

This is one of the great principles of the Progressive party; a truly "let the people rule" principle. No man who favors taking the reins of government out of the hands of political tricksters and bosses, and correct election machinery operators, and establishing a form of law that will insure his representation in this government, can be other than a Progressive in spirit at heart.

THE PORTSMOUTH FLOOD

Continued from front page.

ly wonder what the outer world is hearing of us.

Today (Thursday, April 3rd) for the first time, we were allowed the privilege of receiving some mail, and No. 16 is going to try to make the trip to Kenova. People are beginning to hustle about, where they can get to their homes. Many of them have lost everything, and it may be some time before they will have work. We were told this morning it would be some time before we could again use gas, as many of the pipes are torn loose where the houses were overturned, and to avoid explosions the gas people are now closing the valves at the meters. We have been wonderfully lucky this far; no explosions, no serious fires, no loss of life from water, as the story of the overturned boat seems to have been a fabrication.

It was reported yesterday that Whit Stamer, who has been ill for some time had wandered from home and his brother was searching for him. Real estate men are busy placing "For Sale" signs on Hilltop property. One family bought property on Hilltop since the flood began, and have moved in to it; and some wag has tacked a "For Sale" sign on the roof (the only part visible) of their old 8th Street home.

Our old friends and neighbors, W. P. McGlone and C. B. Jarvis, are reported as having lost all of their household goods, their 9th Street home being almost covered, as was the Buck Smith home on the same Street.

Again I will say to any who are anxious for friends who live here, there is no danger from drowning or starvation. Those who have the money and can afford to do so, are looking to see that no one starves. Some of our most prominent business men had raised a fund and gone to the relief of Dayton; but when they had reached that city they were recalled as our own place was then suffering from the flood.

I am taking a rest today; this thing of frying bacon and eggs on a grate; cooking a peck of beans and a half bushel of potatoes in the yard on some bricks; watching the water buckets to see they don't get dry; walking from room to room, climbing the stairs, to see that no one is burning a lamp to read by; counting the lumps of coal and each splinter of kindling; spanking the children until my arm and hand aches; and last but not least, to make beds for six men, ten women and four children, without breaking their backs, shocking their modesty, or damaging their reputation, is one job which has that of President Wilson "beat a block."

Perhaps this would not mean much of a rest to any of you, but since tumbling 165 lbs. of myself off the porch one evening, down the stairs the next, and developing a severe headache for pure contrariness today, I can enjoy a rocker in the front room, with the baby in my arms, the other children being carried to me for their spankings.

Anyone who cares to confer a favor on we Kentuckians, may do so by sending us a glass of water from the "Cold Spring" by Parcel Post.

Good luck to all and may the floods never reach you, is the wish of a

PORTSMOUTH KENTUCKIAN.

AN HISTORICAL REPETITION.

History, as usual, is repeating itself. At every important epoch of time in our history as a free people when the interest of the great mass of people is at stake, and the perpetuity of our free institutions is involved, a leader of the people, either in the person of some great man or the appearance of a new party, has sprung upon the scene around which the masses of the great common people may gather and battle for the supremacy of a government of the people, for the people and by the people.

At this time with the two old parties (great in many respects in their past history) have proven unequal, as at present organized, to the advancement and protection of these great principles, the Progressive party has arisen thoroughly equipped in leadership and principle to care for the great masses and the people are flocking to its standard. It is certainly to be a contending factor in the future. The old parties are passing away. Democratic success is but temporary. Its disruption is a matter of but a short time, and the success of the Progressive party is as certain as any future event in human affairs can be. It is opposed to all rings and cliques, all boss-rule and every scheme and device having for its purpose the deception of and the defeating of the will of the people. It is not wedded to any scheme to obtain office by any means but is pledged to stand for principle at any cost and to avoid all alliances with schemers and tricksters, and to make its fight always in the open, to take the people continually in its confidence and to rule the party for the interests of all and not for the selfish schemes of a few individuals.

Its mission will not be finished until the peoples' government is restored to the peoples' hands. That vast aggregations of wealth shall no longer be able to shape the policy of the government nor to oppress the poor; nor until every man, woman and child owing allegiance to the stars and stripes shall enjoy equal protection under the law and a fair distribution of the rewards of their honest toil; nor until our children shall be protected from the sweatshop, the mine and the factory, and shall have an opportunity for the enjoyment of childhood and be protected from the wreck of their physical bodies in toil unsuited to their stage of development; nor until our women who are compelled to toil for bread shall be so protected to the hours of labor, sanitary surroundings and a living wage as will insure to them their health and strength to pursue with reasonable safety their necessary work and protect them from the many temptations that assail them under present conditions. Nor shall its mission be ended until the people are supplied with those instruments of government, the initiative, referendum and recall, enabling them to control the laws and those who administer them.

None of these things can be hoped for from either of the old parties. The formation of the new party in Carter County is especially fortunate because we do not believe that any county in the State has been harder ridden by rings and cliques during the years gone by than this one. The people of Carter County, if these sentiments express your ideals, we cordially invite you to unite with us without reference to former party affiliations to bring about these great results:

We are (at least most of us) attached to old names in reference to our former political affiliations but sometimes the mere understanding of the origin of the name breaks the delusion

Announcements

Progressive

We are authorized to announce G. C. COUNTS a candidate for the office of county court clerk of Carter County, subject to the Progressive party.

We are authorized to announce J. Q. ADAMS of Soldier, a candidate for Jailor of Carter County, subject to the Progressive party.

Democrat

We are authorized to announce CHARLES B. WALLACE a candidate for the office of County Court Clerk, subject to the Democratic party.

and it vanishes in thin air. Many are prone to talk about the great name "Republican" and the great "Democratic" name. It is funny to know how these names originated. Republican was the first name the Democrats ever had. It was the name of a party originated by Thomas Jefferson, the patron saint of democracy. It was afterwards disarded by the Democrats and "thrown out of the window" as a piece of old junk and the aristocratic Jeffersonians adopted from French politics, and imported from France, the name "Democrat" and that is the name they have been "howling under ever since."

When the band of insurgents broke away from the old Whig party in the 50's they took from the Democratic scrap heap the discarded name "Republican" and have worn this second-hand goods ever since.

Those people who are criticizing the Progressives for having come out of the Republican party forget that they themselves are the lineal descendants of that little band of insurgents that came out of the old Whig party until they betrayed the people and forgot the source of their authority, lined up for selfishness and wound up by stealing the nomination for the greatest office in the land, compelling the people to disown and crush them, a case of political suicide. This brought about an emergency that required a new party to represent the people and this call the Progressive party answered, and is now the only hope of a free people. The first eruption in the Whig party was successfully led by Abraham Lincoln under the name of "Republican," and the next in the Republican party by Theodore Roosevelt under the name "Progressive". The first has long since passed to its reward; the second, in the dispensation of a Divine Providence, is still spared to the people to lead them on to greater achievements under the Progressive banner.

Couldn't Walk!

"I used to be troubled with a weakness peculiar to women," writes Mrs. Anna Jones, of Kenney, Ill. "For nearly a year, I could not walk, without holding my sides. I tried several different doctors, but I grew worse. Finally, our druggist advised Cardui for my complaint. I was so thin, my weight was 115. Now, I weigh 163, and I am never sick. I ride horseback as good as ever. I am in fine health at 52 years."

TAKE The CARDUI Woman's Tonic

We have thousands of such letters, and more are arriving daily. Such earnest testimony from those who have tried it, surely proves the great value of this vegetable, tonic medicine, for women.

Cardui relieves women's sufferings, and builds weak women up to health and strength. If you are a woman, give it a trial. It should help you, for it has helped a million others. It is made from pure, harmless, herb ingredients, which act promptly and surely on the womanly organs. It is a good tonic. Try it! Your druggist sells it.

**The Love Letters of a
Confederate General**

WE begin in the November issue a series of real love-letters written over fifty years ago by one of our national heroes to his sweetheart during the period of '61 to '65. This great general will go down to posterity as having accomplished one of the most brilliant feats of arms in the history of the world. He was as great a lover as he was a general, therefore these letters combine authentic history and exquisite romance. They sound a human note that no other work of literature has done in a decade; it is war, it is romance, it is history, it is literature. You simply can't afford to miss this wonderful series—an inside story of the Civil War now published for the first time and containing all the freshness of a contemporary happening. These letters will grip you hard, and hold your interest from first to last. Fill out the coupon and send it now before you forget it.

WOODS OF THE WORLD

Will Be Shown at America's Great Celebration at San Francisco in 1915.

The Magnificence and Grandeur of the Panama-Pacific International Exposition Cannot Be Adequately Described—A Gathering of the Nations of the World.

The splendor of the world will be shown at America's Panama celebration at San Francisco in 1915. Never will so many nations have participated in an international event. Of the nations that take part, and this includes all the great powers, it is probable that each one will be more elaborately represented than at any exposition ever held outside of its own boundaries. Twenty-eight foreign countries have already responded to President Taft's invitation. More than eight hundred leading exhibitors of the world have applied for exhibit space and a number of the exhibits will range in value from \$200,000 to \$300,000; more than two thousand applications for concessions have been received. The responses show the spirit of appreciation with which America's sister nations regard the work at Panama.

Display by Foreign Powers.
The foreign powers will display all phases of their progress at home and in their colonies. Mr. Harcourt, colonial secretary of Great Britain, has addressed the governors of the self-governing dominions, crown colonies and protectorates requesting them to consider the question of participation with the remark that the British display should be worthy of the British empire. Japan will expend \$1,000,000 upon its pavilion, which, upon the conclusion of the exposition, will remain as the gift of Japan to America. The pavilion and grounds, occupying five acres, will be located upon the United States Presidio military reservation immediately adjoining the exposition site. Marquis de la Vega Inclan of Spain, who visited San Francisco, will arrange for a wonderful art exhibit to include the original paintings of the great Spanish masters and many historical trophies, tapestries, and rare pieces of sculpture.

Holland will be represented upon a scale never equaled outside the Netherlands. France cabled San Francisco requesting twelve acres as the location of a superb exhibit palace to be built by France. China, newest of the world republics, is planning to show both the China of the past and that of the future. China and Japan and indeed all for eastern lands within the sweep of the Pacific, are planning to take part in a wonderful series of Oriental parades and pageants, during a ten days' fiesta in the fall of 1915. There will be assembled in these parades perhaps the greatest gathering of strange tribes and peoples of Oriental lands ever gathered in the Occident.

The World's Battleships.
When the exposition opens—February 20, 1915—the nations of the world will, in actuality, officially come to San Francisco, for the battleships of the world will be assembled off Harbor View, the exposition site, at that time. That a battleship is virtually the territory of the country it represents is a fact widely recognized in the procedure of international law, and so the nations of the world will, as it were, gather at the western gate of America. More than two hundred foreign battleships will, known from unofficial advice, participate in a series of spectacular maneuvers in San Francisco harbor in 1915. Construction upon the exposition has long since begun. The service building, which will be the exposition headquarters, is completed. Machinery hall, the largest of the exhibit palaces, will be the first of the great buildings to be completed. This structure will be 567 feet long and 370 feet wide, with three great masts 122 feet high will run throughout its length from north to south. Contracts upon all the main exhibit palaces, of which there are fourteen, are being let at regular intervals and the high point of construction will be reached next fall. All the main exhibit palaces will be completed by June 25, 1914, more than nine months before the exposition opens. All contracts are being let upon that basis. The early completion of the buildings will

permitted the setting out and planting in the grounds and courts of several hundred thousands of rare trees, plants and shrubs now being grown in nurseries.
Early next fall the sightseer in San Francisco will be enabled to look from the rim of the encircling hills at Harbor View down upon the exposition city and see the buildings in progress of construction. To the west he may look out to the Golden Gate and to the islands in the Pacific beyond. To the north he will see the stream of traffic that passes before the exposition site.

Easy Access.
One may easily reach the exposition in twenty minutes from the Ferry building. The site of the exposition, at Harbor View, lies within the city limits as a crescent upon the shores of San Francisco bay, just inside the Golden Gate. No more picturesque location, nor more appropriate to the celebration of a great maritime event, could be imagined. From the east and west it is encircled by towering hills with varying contours rising successively from 250 to 900 feet above sea level, like the entangled walls of a vast amphitheater. Upon the north the site opens out upon the harbor of San Francisco. The panorama at Harbor View recalls the famous Riviera upon the south coast of France. In the harbor before the site lies Alcatraz island, the location of a military prison whose white walls are reflected in the waters of the bay. Beyond are the hills of Marin county rising up into the hundreds and in some instances into the thousands of feet, with Mount Tamalpais, highest of all, its summit often shrouded with turbid of fog upon which the sun shines as upon a vast bank of snow, as a background for the setting.

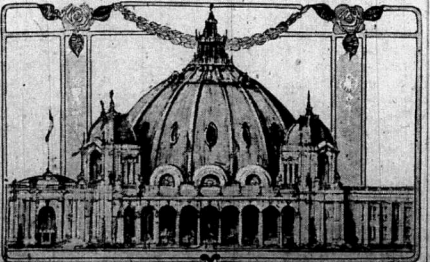

The central portion of the site lies slightly above the sea and is encircled on three sides by gently sloping ground, within a short distance from the boundaries of the site steep slopes change to steep hillsides and the center becomes the floor of a huge amphitheater from whose sides wide exposition will be seen stretch out below. To the east and south the residence section encircles the exposition grounds, and to the west the world's greatest exhibition will be housed upon the slopes of the Presidio military reservation, dark with cypress and eucalyptus and interspersed with occasional vistas of green valleys.

All told the site comprises 625 acres; it is two and one-third miles in length with a maximum width of one-half mile. Its frontage upon the harbor will be approximately two miles and further from the bay it will be one and another one-third mile. Fort Mason, a military post, occupying a corner upon the extreme east and along the bay.

Faces the Bay.
The exposition buildings built upon an east and west axis will face the bay upon the north; they will parallel the stream of the great incoming traffic of the world through the western gate of the United States. The harbor itself will be a part of the great theater upon which will be staged the world's jubilee and the Golden Gate will be the entrance to the theater.

A marvelous panorama will be afforded visitors on ships coming through the Golden Gate. As one looks from the harbor he will see three main groups of exposition buildings. There will be the great central group comprising the fourteen exposition palaces to be devoted to general exhibits; there will be the group upon the left hand or east and devoted to amusement, concessions and covering thirty-five acres; this will be the "midway." The right hand group upon the Presidio military reservation and nearest the Golden Gate will be devoted to the pavilions of the states and foreign governments.

**PANAMA-PACIFIC INTERNATIONAL EXPOSITION,
SAN FRANCISCO, 1915.**

The building will be 330,000 feet, with greatest breadth of 280 feet, the latter being taken up by the wings. A vast auditorium with a huge stage will be a feature of the structure.

**A COTTAGE HOME
