## OF Earthquake and Fire

The Beautiful Pacific Coast Rent in Twain.  
Immense Numbers Dead

### 200,000 Homeless

This appalling disaster has stunned the world. In the early dawn the ripping rocking of the earth levels high buildings and tumbles sky-scrapers to the earth. Wrecks shipping and spreads death and desolation in the Garden Spot of America.

**FIRE!!** Terrible fire follows the earthquake, and San Francisco is to-day nothing but a tangled mass of broken buildings, fire-ridden homes and a scene of dead and dying humanity.

### The Most Startling Horror in the History of our Grand Country.

In comparison with this stupendous Calamity, the Chicago Theatre Fire, the Slocum Disaster, and the Eruption of Vesuvius pale into insignificance. Right at our very door, without a moment's warning, the earth trembles and destroys the Queen City of the Pacific Coast. Indescribable terror follows. "King" Panic reigns. The fire fiend follows, and all is desolation.

The reporters for the publishers of this book were right on the spot at the time; therefore, if you want the reliable, authentic, and complete story of the great and awful San Francisco Catastrophe briefly and plainly related

changes hands in the last week's transactions in the Real Estate line. The City Real Estate Company gets busy.

Last week sure was a record breaker for Olive Hill, in the real estate transfer line for the past few months at least. Senator Whitt sold to John A. Sewell C. & O. telegraph operator here, three of his eight dwellings in the Whitt addition and additional ground for four other buildings, for \$2,500. Also a vacant lot opposite L. C. Wilson's residence to Mrs. Julia Stamper, for \$850. The City Real Estate Co. sold Dr. J. P. Huff the Boothe property, on Woodside avenue, for \$1,250. Almost daily we could be able to report a property transfer but, as before stated, last week was the lion of the past month or so. As, is a fact, not only in the extreme infancy, and growth of a town, that property can be purchased at a price pointing toward a big sale-margin in the future. Although we have made a noise like growth and prosperity during the past five years that few other towns, and many with even more and better advantages, can claim the distinction of making, we are still on the upward trend, and yet it is a circumstantial fact that we are going to grow, and that investors may secure property now that our onward going will cause the seller to realize at anywhere from 15 to 25 per cent. on his property. The City Real Estate Co. is a recently organized company and is doing its part in bringing us citizens. It has some several country farms and town lots and dwellings placed with them for sale. They take the time to hunt up the property that can be bought at a reasonable figure and if you are contemplating going into any kind of business anywhere the place you must have is a thriving and flourishing town like Olive Hill. Just write the City Real Estate Co., and they will take pleasure in giving you truthful information.

When your trouble with food digestion seems to be increasing, and various pains, like stomach-ache, headache, backache, etc., beset you, when the bowels and liver sleep continually out of order, what you need is Dr. Caldwell's (laxative) Syrup Pepsin. # Expert

Dentist will visit Olive Hill from 12th to 16th in the interest of the Anti-Odinum method of painless extraction of teeth

The Anti-Odinum Co., manufacturers of a new antiseptic for the painless extraction of teeth, will have an expert here at Olive Hill June the 12th to the 16th, who will extract teeth without the slightest pain whatever. Especial attention should be given to children's teeth; and all having children needing to have teeth "pulled" should have it done now as the "little ones" only laugh when the teeth are extracted.

No matter whether you have heart trouble or not, there is nothing in Anti-Odinum to hurt you. The gums heal quickly and do not become swollen or sore.

It is better to have Anti-Odinum used than to have nothing, for nothing is used, you are apt to faint, become sick or succumb to the shock, or have sore gums. By our method you will not get sick, faint, or have any after effects, and best of all you will not feel the tooth or teeth when they are "pulled." Don't have any teeth extracted by the use of gas or cocaine. Some one is killed every day in the United States by the use of gas or cocaine. Gas and oxygen are often used, also cocaine, but if you have heart trouble you probably would succumb to it.

It is absolutely no danger from the use of Anti-Odinum—if there was we positively would not use it. We have extracted 500 teeth in this county and could give 500 testimonials if we had time, but will give several.

Lewis G. Kootz says: "I have had Dr. Malone extract a tooth for me and really did not know it was extracted until I was shown the tooth, as there was no pain at all or afterward."

J. G. Ault, of Scott & Ault, says: "I had Anti-Odinum used for the extraction of four teeth which operation was accomplished without the slightest pain."

Albert Hall says: "I had two teeth extracted for my little girl who is only six years old and she didn't feel it. We could fill ten papers with testimonials from the best people in the county, but the best is, if you need a tooth extracted, to come and see for yourself."

Our representative will be at Olive Hill, June 12 to 16 at the Palace Hotel.

The Anti-Odinum Co.

# Big Step

Taken by a number of our citizens who are tired at seeing the law trampled upon.

The Prohibitory Federation met at the Christian church last Sunday at 2:30 P. M. A goodly number was in attendance and enjoyed a lively and interesting discussion of one of the most vital questions of the day, viz: Entire prohibition of the Liquor Traffic." This organization is permanent, holding its meetings regularly the first Sunday afternoon of each month at 2:20. In its character and purpose it is non-sectarian and omni-partisan. Its chief purpose is to discuss the best ways and means of enforcement of law and promotion of good government. All persons, regardless of age, sex, political or religious faith, who endorse the above sentiments, are cordially invited to be present at the next meeting. Don't forget the

time and place, viz: first Sunday afternoon in July, 2:30, at the Baptist church.

The Two Vanrevels

By BOOTH TARKINGTON. Author of "The Gentleman from Indiana" and "Monsieur Beuchemin" Copyright, 1902, by S. S. McClure Co.

CHAPTER V. MISS CAREWE was at her desk, writing to Sister Cecilia, when she was startled by the world, when the bells started her with their sudden clangor. The quill dropped from her hand, she started to her feet, wide eyed, not understanding while the whole town, drowning peacefully a moment ago, roused immediately with a loud commotion.

"I go!" he yelled to her, Miss Betty. He is in Kentucky on his business. Get back in to house, miss!" The tramp started, like ragged sketches in the night, flitted by with excited ejaculations to join the runners.

Before, behind and beside the department faced a throng of boys, wild with the joy experienced by their species when property is being handsomely destroyed.

Miss Betty trembled, for she had never seen the like in her life. She stood timidly, as if in a dream, until she saw that the boys were turning in after them and ran like a fleet young deer.

Over all the uproar could be heard the angry voice through the trumpet calling the turns of the streets to the men in vain, upwards to the chief his right to express some charge, since the department organized.

half year, hard drilled and this is their first week the name was late on account of the southern war, was done until they had donated their new uniforms, for the uniforms had arrived from Philadelphia two months ago, and they offered the first opportunity to display them in public.

"Hall Vanrevel" named Tappan's hair Mrs. to Eugene Madison as the first runner in the van of the "Home company," splattered through a mud puddle.

of the order. "It was all Cralley's fault," said Tappan, swinging an arm free to wipe the spattered mud from his face. "He swore he wouldn't lodge without his uniform, and the rest only backed him up, that was all."

"The warehouses stood on the river bank, at the foot of the street, just south of the new 'convoy' building. There were five of them, huge, bare sided buildings, the two nearer the bridge of brick, the others of wood and all of them rich with stores of every kind.

The trucks of the engine company ran the pump out to the end of one of the lower wharfs, two lines of pipe were attached, two rows of men mounted on platforms for the pumps, and at the word of command began the up and down of the hand machine with admirable vigor.

In the meantime fifty or sixty men and boys who ran with the motion, but who had no place in the operation, being the bucket brigade, had formed a line and were throwing large loads of water in the general direction of the southern war, which was done until they had donated their new uniforms.

Miss Betty was at her desk, writing to Sister Cecilia, when she was startled by the world, when the bells started her with their sudden clangor. The quill dropped from her hand, she started to her feet, wide eyed, not understanding while the whole town, drowning peacefully a moment ago, roused immediately with a loud commotion.

"I let it burn if I were his," murmured the man. "I let it burn if I were his," murmured the man.

on the iron latch and opened the door by this simple process. It was not locked, and they pushed against it until they found it yielded and heaved his whole soul and body. Meanwhile, by dint of shouting in men's ears when he had the trumpet, he found himself, tearful eyes, and fingers in his own coat for more than a moment, Mr. Vanrevel reduced his forces to a semblance of order in a remarkably short time, considering the confusion in which they had fallen.

They swung out of the thick shadows of Carewe street into full view of the fire, and their faces were illuminated as by sunlight. The warehouses stood on the river bank, at the foot of the street, just south of the new 'convoy' building.

A figure appeared upon it immediately, that of a gentleman, bareheaded and in evening dress, with a brass ring on his finger and a cord about his shoulders. The noise grew less, the shouting died away, and the crowd became almost silent as the figure, dimly seen above the smoke, came forward.

The chief, three-fourths of the way to the top, shouted down a stifled command, and a shot at striking ladders, fitted at one end with a pair of spiked iron hooks, was passed to him. Then he stepped upward until his feet rested on the top rung from the top. Here he knelt, setting his back to the wall, lifted the grappling ladder high over his head so that it rested against the ceiling above him and brought it down sharply, fastening the spiked hooks in the roof.

Miss Betty drew in her breath with a little choked cry. There was a small personal bill of piled up looking bodies near her, possession of which had been taken by a company of ragamuffinish boys, and she found herself standing on the highest peak, dimly sharing the summit with these questionable youths, almost without noting her action in mounting there, so strained was the concentration of her attention upon the figure high up in the rose gold against the warehouse wall.

It's money to you. Satisfaction is yours in money to us.

The second man had followed to the top of the ladder against the wall, and there he passed, waiting to pass up the line of hose which the work should call that the force pump had been repaired, but the people thought that he trusted because he was afraid to trust himself

He swung himself out into the air to the grappling ladder. He was afraid, exceedingly afraid, though that was not why he waited, and he was still clutching over the assault of the axes.
