Let We did not receive the Fleming Flag until this morning, why, we know not.— We will reply to its enquiries with pleasure, and courteously too. Indeed, we like courand controsity too. Indeed, we like cour-toors Editors and the Flag need not have any apprehensions of a collision with us, so long as our rights are respected. We never ury to pass impadence for wit, nor reckless assertion for evidence, and stamp them both as constrictly thenever tendered. We have havily replied to the Flag's proof of GenT Toulor's domnessee in student's none. l'aylor's democracy in to-day's paper.

The Democratic Convention of delegates, from this district, assembled at Covington on Saturday last, nominated Gen. LUCIUS DESHA, of Harrison County, as their candidate for Congress.

### NEWS FROM MEXICO.

NEWS FROM MEXICO. Our Southern exchange papers are filled, with letters purporting to give further intel-ligence from the seat of war. We have pre-pared the following summary of their con-tents in which our readers will find all that is marking instantion worthy of insertion. The American Star. (an Army newso

per) has made its appearance at Jalapa;-which place, together with Perote, we reached by our forces after the battle of Se reached by our forces after the battle of Ser-ro Gordo, without any oppocition from the Mexicans. No resistance is expected short of Puebla, if any there--which is consid-ered extremely doubtful. Santa Anna escounts, waiting conduction pass, from Serro Gordo, and was at Orizaba at the last ac-counts, waiting reinforcements. The City of Mexico was astounded at the news of the battle of Serra Gordo. Santa Anna is reported to have said, that if the Yankees could storm the heights which he then occupied, they could storm hell itself. No Yellow Fever yet at Vera Cruz.—

Preparations had been commenced at the City of Mexico, for its defence. There was a rumor of another Revolution in the City; -against Santa Anna. It is stated that the Mexicans are about to adopt the Guerilla system of warfare. The citizens of Jalapa denounce Santa Anna as a coward, and a traitor, and would have rejoiced if General Scott had captured and hung him. They say that he sold the battles of Buena Vista

say that he sold the battles of Barena Vista and Serra Gordo to Tavlora and Scott, and are eternally taiking of the \$3,00,000. The Mexican Congress, in extraordinary session, have dealered any one a trilor who talks of peace. Gen. Amya, who is highly spoken of by the New Orleans papers, has been appointed Provisional President. The Mexican arecount of the late battle, is truly Mexican.

They say that Santa Anna had but 6000 men against 14,000, and that he fought bravely until surrounded, then cut his way through los Yankees, with a column of the 4h Basin of the

The Editor of the Fleming Flag comply replied to our interrogatives, a cessed to him a few days ago, and cour sely withal, but we must be permitted say not satisfactorily. In reply to our in quiry as to where the leaders of his part obtained their knowledge of G ed their knowledge of Gen. Taylo

faith. He says:

To this we would briefly reply that the "history of the man" from the time of his brilliant defence of Fort Harrison to the bloody batle of Baena Vista, has been wholly disconnected with the politics of his country, and that he is remarkable for hav-ing seen more hard service than any other officer of his age in the army. As regards his past "policical course." we learn from his past section are solved.— In record to his serversed origina on a mir-

ns misory that he has but seldom voted.— In regard to his expressed opinions on "im-portant measures of National policy," we have seen no authentic report of them, and should be glad the Flag would inform us where it gets them. "The promptness with which he has sustained President Polk with which he has sustained President Pak during the war" proves nothing save that he understands and observes the first duty of a soliter, viz: obclience to the commands of his superior. His 'hostility' to a Na-tional Bank and a high protective Tariff," although 'known' to the Flag, is unknown to us; will he Flag refer us to the sources of his information. We do not admit how-very that the advoces of a National Back were that the advocacy of a National Bank or of a high protective Tariff are essential to make him a Whig. Nor are his "devo-tion to his country" and "his intrepid valor," tion to his country "and whis interpid valor", precular to Democrats or Whise, Clay, McKee and Hardin, when at home, carried the whig banner aloft in many a political contest, yet they proved their walor" and sealed their vdevoion to their country" by hier blood. Gen. Taylor has no where avowed whis justification of the war," that we have seen on heard of. One more proof adduced by the Flag, and we are done with the tamong" on white adduced by the Flag, and we are done win that paper's evidences of Gen. Taylor ocracy.

democracy. The New Orleans Picayune, says "Gen. Taylor is no Whig, in the Bulletin sense of the word," and explains, by saying that he is not in favor "of the resuscitation of the old United States Bank, nor of high duties the sensitive of democris promotes for the protection of domestic manufac tures"—it also adds that the election of Gen

ures"—it also adds that the election of Gen Taylor to the Presidency, is a thing nex to impossible, \$c. The Flag may derive faith from this testimony, and consolation or grief (as the case may be) from the opin ion, which we have Italicised. For our own part we are willing to trust in as a Whig, and have perfect confidence in his succes if he consent to run. Now let us briefly state our reasons why

Now let us briefly state our reasons why we are confident in our belief that General Taylor is a Whig. No where is he better-known than in the county of Jefferson; The greater part of his relations still reside there, and there he has spent the greater por-tion of his eventful life, when not actively engaged in his profession. It is not doubted there that he is a Whig. It is known that he has said that if he had had an opportu-nity of voting at the last Presidential elec-tion, he would have voted for Mr. Clay. If he were a Demorra, the fact would long he were a Democrat, the fact would long

Why does the Union, the organ of the administration, say that all the victories of Gen. Taylor, from Palo Alto to Buena Vista might have been won by a subaltern, and at the same time land the victories of Gen. Scott as splendid achievements—man other reason can be inrification, when they see in the movement a prospect of power perpetuated in their hands. They can even swallow a comminglement of *Polk* and *glory* and thank the Duck Rivof Polk and glory and thank the Dack Riv-er hero for the brilliant results of the war, but Counties may meet, Cities assemble, and pour out their merited tribute of praise and thanks to Gen. Taylor, but no gentleman of the "civil corps official" in thoughts that breathe and words that burn, pours out his willing soul in chanting the National an them of well done, old Rough and Ready, the bravest of the brave. Oh, no ! The powers that be in Washington have no is sued the edic, and although the ears of these officials are stunned with the shout of the neople, as a lamb before her heras. these officials are stunned with the shouts of the people, as a lamb before her shear-ers is dumb, so they open not their mouth. Mr. Polk expressly declines a re-election, if Gen'l Taylor is democrat, why does not the "Union" support him ?
