STREETS WILL BE PAVED

The street paving which was held up a few days because of the fall is to get a right of way through some of the property which will begin right away. All the streets which were first on the program will be paved except Back street at the foot of the Hill. Several of the property owners objected the street going from the saints church, out over the branch will be paved and a bridge put over the branch. We cannot have a town without paved streets. We are glad to pay our part of the paving of the streets and we think all those who now object will, when the paving is done, wonder why it wasn't done years ago.

The contractors will commence on Mill street and pave up to Second Street and out Second street past the consolidated school building to the Boulevard. This street is the most used of any street except Main

A COLLISION

A collision occurred between two cars Sunday at Farmers, when Mrs. C. E. Clayton, of this city was driving towards Morehead in a Chevrolet sedan and a young man named Vincent, from Soldier, was driving in the opposite direction when the accident occurred. The smaller car was occupied by the driver and three ladies in the car with Mrs. Clayton were her two small children and the editor of the Scorcher. No one was hurt except the writer who for some time imagined all kinds of hurts but when the scene was over we found that no bones were broken and the tooth which we thought was missing, was left at a dentist's office more than a year ago in Lexington.

The Clayton car was damaged badly but the smaller car was not hurt except for a bent fender.

Nickell was brought here and treated at the Nickell Clinic and Turner was taken to his home and was found to be in a very serious condition. He was taken to an Ashland hospital Tuesday. Harritt was less hurt than any of the trio. Nickell is not thought to be seriously hurt and will recover.

SCHOOL OPENS AT OLYMPIA

The Olympia Springs Hotel under the management of Rev. T. U. Fant is doing a good business this summer. In years gone by this was a popular resort for Kentuckians, but for some years the place had been run down considerably, until Brother Fant and his estimable family went there to live. The school, which was established there last year, again opened its doors last Monday. Several students enrolled.

MOREHEAD STATE NORMAL WILL OPEN FOR COMING SCHOOL YEAR NEXT MONDAY

Largest Attendance in History Expected.—New Buildings Completed.

The Morehead State Normal School will open Monday, September 19th for the coming school term of 1927-1928.

President Button tells us they are expecting the largest attendance this year or of any year since the school began four years ago. The teachers are arriving from their vacations and the students will be coming for several days.

The two new dormitories are in readiness for the students. These buildings are fire proof and have every convenience. The two buildings just completed, Fields Hall for girls and Thompson Hall for boys, are two of the prettiest buildings of the kind in Eastern Kentucky.

In the grounds surrounding the campus are hundreds of acres of beautiful woodland which is ideal for hiking, kodaking and picnics and for recreation of various kinds which are so much necessary during the school days of the youth.

There have been some new members added to the faculty this year. Prof. Warren C. Lappin will have charge of the Thompson Hall for the boys.

MRS. BLAIR ENTERTAINS

At the close of the games delightful refreshments of punch and cakes were served. The guests were as follows:

Ruth Porter, Helen Dorothy Crossley, Jean Blair, Katherine Jackson, Corrine Holbrook, Allene Watt, Marion Louise Oppenheimer, Oscar Palmer, Joe Tolliver, Aclie Adkins, J. MAKE THIS A BIG FAIR AND TWO BIG DAYS

ADMISSION IS FREE!

THE FAIR

The community fair has been on the increase the past few years until now, about two-thirds of the entries in the state are putting on one. The fair is used to promote a better feeling between the merchants of the town and the farmers, to promote better methods and interest in farm work to create a desire among the young people to remain on the farm, to raise the standard in the quality of products produced and many other features. Rowan county has gone a step forward in holding a community fair and developing greater interest in rural life.

The Morehead and Inter County Fair is scheduled again for the 7th and 8th of October. The catalogues will be ready for distribution within a few days. The premium list has been revised and greatly revised. Many new features have been put in, for example a poultry show. The standard bred flocks in the county have been on the increase within the past few years and the quality of birds is excellent. There is no reason why a good poultry show cannot be had. The farm products are numerous and good premiums are offered. The same is true in the needlework rings and cooking rings. Premiums are also offered on jellies, preserves, cut flowers and others.

The rural school department should be bigger and better than ever for the number of premiums have been greatly increased. The rural teachers should give splendid support in this department.

Remember the dates and come to the fair.

ROOMS FOR RENT

I have for rent several nice rooms in the Highland boarding house. Some of the rooms are for light housekeeping. Will take boarders by the week.

Remember the dates and come to the fair.

Nurse Advises WEAK, RUN-DOWN WOMEN To Take Cardui

"I have known of Cardui for nearly twenty-five years," says Mrs. Selma Meisner, 1072 Harrison Ave., Beaumont, Texas. "During that time, I have taken it several times and have frequently recommended it to others, for it is a splendid medicine and I am glad to give people the benefit of my experience."

"I had been a nurse for several years and have often come in contact with patients who were run-down and weak. Often I have told sufferers of Cardui, and the way I, myself, had been helped after taking it, and advised them to give it a trial. Many of them have since thanked me for what I told them, so I am willing that other women should know about it, too."

"I first took Cardui because I was awfully run-down. I had no appetite, and was weak and listless. It was hard to keep going under such conditions, and I looked for something which would help me. "I had read of Cardui and decided to try it. After taking it, I improved so much that I have taken it since whenever I needed a tonic."

PRODUCE REVIEW

Butter markets of the larger Eastern Cities are showing the effects of improved trading, due to a more active demand for current consumption. The trend of summer vacations has been homeward, and this has had a stimulating effect upon buying, as consumption is increasing. Coupled with active buying, the supply of butter on the four principal markets Chicago, Boston, Philadelphia, and New York during last week Monday to Friday inclusive, has actually shown a decrease, as compared with the previous week.

There has been little change in actual butter quotations. Chicago 90 Score Standards today is 41 cents unchanged as compared with a week ago. The New York market on 92 Score Extras has advanced a quarter cent, being quoted today at 44 1/2 as compared with 44 1/4 cents last Monday.

Production of fresh eggs continues light, although there was a very slight increase last week Monday to Friday. There is very good buying demand existing for fine quality fresh eggs. There is being received on the consuming markets a certain percentage of held stock on which the trading is slow. Storage stocks of eggs are being gradually reduced, as these eggs are being used to make up deficiency in supply of fresh eggs.

Chicago market on eggs. First today is 32 to 33 cents, an advance of two cents during the week. New York today is unchanged at 32 to 34 cents as compared with a week ago 29 to 33 cents.

At the beginning of last week the indications were that poultry receipts would be heavy and that buying demand would only be sufficient to satisfactorily take care of arrivals, which would probably create an easier tone on the market. However, this condition did not develop, as receipts were slightly lighter than the previous week, and the buying demand was exceedingly good, being sufficient to take care of all receipts and quotations are especially centering on the spring chickens.

Chicago market today live fowl is 15 to 23 cents. Springs 24 cents, light weight springs and broilers 21 to 24 cents.

The dressed market and general situation have been somewhat the reverse of the live markets, as the supply of product available for con-

The Men of Tomorrow

Are the youngsters of today.

They are just starting another year of school and mothers should be able to devote a great deal of time to them—directing and counseling.

With the multitudinous household tasks there is no time left for the children unless the modern electrical servants are installed in the home—electric washers, irons, vacuum sweepers, etc., conserve time and energy and release the mother to her children.

And plenty of cheerful light saves eyes and encourages study.
