

Community Fair  
October 7th and 8th

Final Arrangements are Being Made For the Receiving of the Entries.

Old friends will meet again and there will be many happy renewals of acquaintances at the Morehead and Inter-County Fair which is to be held on the campus of the Morehead State Normal School, October 7 and 8. The lunch basket will be made ready for the occasion which will bring back to memory the old time picnics, which were once enjoyed in these years gone by. Last year there was a constant stream of visitors visiting the exhibits and enjoying the competition in the various departments. This year promises to be the banner year for one hears on all sides. "Will you be at the Fair?"

The final arrangements are now being made for the receiving of the entries in the various departments. If the exhibits come up to those of last year more room will have to be added. Ample room will be made to care for this so there shall be no hitch in the showing of the displays the rooms will be in charge of competent workers who will care for the exhibits and treat all with utmost courtesy.

The Fair will be a larger in every way than for the catalog has been carefully gone over and enlarged. There are new rings in the needle work, farm products, cakes and rural school departments. Due to the loss of fruit this year an entirely new department has been opened. The poultry show promises to be one of the added features. Several have already indicated that they will bring in their best birds.

Rowan county is fast coming into its own in the poultry work and several modern poultry houses can be seen in going about the county. The fair will do much to stimulate the interest in this industry.

If one has a splendid rug or quilt it do not leave it at home. Bring it in for competition. There will be more surprises this year than for many have tried out their skill in all kinds of needle and fancy work. Rowan county is full of experts in this line. The cooking rings should offer good competition as better cooks cannot be found anywhere. It is quite an honor to be known as the best cake baker or the best bread baker in Rowan county. The catalogs are out and may be had by calling at the office of the Mountain Scorchers. Rowan-County News, by addressing Prof. H. C. Hagan at the normal school. The merchants have been invited to their donations and advertising. The catalog is a decided improvement in many ways over the one of last year. There is no admittance fee charged or entry fee. The campus is free to everyone and admission is free. There are few places where so free liberal entertainment is given the people free of charge. There are few communities that can boast of such liberal merchants as are found in Morehead.

The rural schools are invited to read carefully the rings for the school entries. This should offer a fine outlet to demonstrate the practical side of teaching or training. The attention is also called to the school parade at 10:30 on Friday morning. The school having the largest attendance in the parade based on the Census will be awarded a liberal prize. Banners should be made so one can tell the different schools apart.

Come to the Fair and make it a success. The Fair cannot go over in true style unless the entire county cooperates. Remember the dates and bring in the products for showing and so home feeling. Let us that a community job has been well done.

SCHOOL NOTES

The enrollment in the Public School has now reached 350. New ones have come in every day while some have moved away which has made it possible to accommodate all who come. No one can doubt the need of more class rooms for seeing the crowded conditions. Two rooms have been made out of one by making a partition in one large room. With more class rooms the crowded conditions would be relieved and pupils would be more comfortable and teachers could do better work.

The one thing needed most in the school right now is water inside the building for drinking purposes and sanitary water closets in the basement. It is hoped that this may be done during the present year. These together with a gymnasium-auditorium would provide Morehead with good schools to starters in this town.

Friday of this week is the last day of the first month. The students will receive report cards the following week. Parents be sure to call for your child's report and see if the grades are satisfactory. The teachers were very glad if the grades will move up when "Dad" sees some low grades.

STRANGE FACTS ABOUT ODOORS

While various chemicals, as pre-  
pared in the laboratory, have the  
strongest odors known, certain sub-  
stances in nature are extremely  
pungent, the scent of the skunk for  
instance, often being detected at a  
distance of a mile or more, says Popu-  
lar Mechanics Magazine. Workers  
in chemical laboratories have been  
identified a block away from the  
odor of the materials clinging to  
their clothing. Camphor can be de-  
tected when diluted as much as one  
part to 400,000. One-hundred-and-  
twenty-thousandth of a grain of oil  
of rose causes a definite stimulus  
to the olfactory nerves and one part  
of musk in 8,000,000 can be de-  
tected.

Each copy is said to be free from

INDIANAPOLIS MAYOR GIVEN FINE AND PAIL SENTENCE

Mayor John L. Duvall of Indianapolis, was found guilty Thursday by a jury in criminal court of violating the corrupt practices act. The verdict calls for a fine of \$1,000 and a sentence of 30 days in jail. The jury was out a little more than three hours, but more than an hour was taken for dinner.

Under the law, Mayor Duvall is ineligible to hold public office for four years from the commission of the crime.

"I have nothing to say," Mayor Duvall commented after the decision. He turned pale when the verdict was read. Duvall's attorneys said they probably would file a motion for a new trial immediately and, if overruled would appeal the decision.

### FORTUNE WAITS IN DISCOVERY OF PLATINUM PROCESS

In the shelter of the towering, poisonously white domes of crushed coal ore that overlooks the great African mining city of Johannesburg stands the unpretentious stone building in which several scientists are seeking a missing ingredient that means extra millions to the continent—a way of extracting South Africa's most precious metal. A number of persons saw the accident yesterday afternoon at the Southern railway crossing in Junction City. A string of box cars obstructed her view of the approaching engine as she drove a cow across the tracks. The cow also was killed. Great masses of persons saw the accident. Mrs. Bernard had been employed by Burke's Bakery for several years and when killed was driving S. W. Burke's cow. Mrs. Bernard is survived by her husband, three sisters and two brothers. The crossing at which she was killed has been the scene of several fatal accidents.

## Dreaded Aches, PAINS Disappeared

"My health had been poor for ten years, before I took Cardui," says Mrs. Anna Cronin of Rockspdy, Ia. "I was lifeless and 'no account'. I dragged around day after day, every move an effort, and never feeling the joy of being well.

"At times, I had a dreadful ache across my back and my sides hurt me. I worried along, sometimes hardly able to leave my bed, but the demands of a growing family had to be attended to so I went out, but I was absolutely necessary, and then I lay down again.

"One day, someone suggested Cardui to me. I took it for several months, and all the time I was growing stronger, and less nervous. My aches and pains finally disappeared.

"That was two years ago. My improvement has been permanent. The good health, which followed the taking of Cardui, is still with me, so I do not hesitate to recommend it to my friends."
