#### VALUE OF NEWSPAPERS.

'I never took a newspaper that didn't pay more than I paid for it," says the noted Bill Arp. One time an old friend of mine, way down South started a newspaper and sent me a copy and I subscribed for it just to encourage him, and after a while published an order to sell a lot at public auction. So I inquired about the lot and told a friend to run it up to \$50. He bid off the lot at \$38 each for Newspapers Not Allowed to Print Truth and sold in less than a month for be salary ing the paper.

My father told me that when he was a young man he saw a notice in a paper that a school teacher was wanted away off in a distant country, and he went and got the situation, and a little beautiful and he married her.
