MUSICAL PROGRAM

Mrs. C. E. Bishop's home was the scene of an enjoyable affair Tuesday afternoon when the Fine Arts department of the Rowan County Woman's Club gave an interesting musical program. The program was in charge of Mrs. Arthur Blair, chairman. Rev. Bob Fife, of radio fame rendered some fine musical selections on the hand saw and violin. Miss Cessna Stafford, assistant music teacher of the M. N. S. sang very beautifully with Miss Emma Shader at the piano.

After the program the meeting was then taken charge of by the president, Mrs. H. C. Hazan. There was much business that came before the club. The garden department this year will plant shrubbery in the E. H. instead of spring as has formerly been the custom. Several new members were voted in the club. At the close of the social hour an elegant plate lunch was served. Those present were: Mesdames Alvin Caudill, T. B. Tippett, Guy Snyder, M. E. Staley, Carol Daugherty, S. M. E. Hart, C. G. Clayton, H. C. Hagan, Arthur Blair, U. S. Sparks, D. B. Caudill, O. B. Elam, Jack Helwig, W. B. Elder, H. B. Toivler, F. C. Button, J. S. Reynolds, Drew Evans, James Clay, Gladys T. A. Dulaney, Bradley, E. V. Hollis, T. A. Dulaney, Leo Oppenheimer, Sam C. Caudill, W. B. Elder, H. C. Lewis and Mrs. Mary Belle Cassity, Misses Evelyn Ripally, Edith Boggs, Emma Shader, Mary Margaret Bishop, Cessna Stafford.

THE FAIR IS ON As we go to press the people are coming in all directions to attend the County Fair, the second one ever to be held in Rowan county. We not only wish it to be a success, but feel sure it will be. The promoters have worked diligently at it for several weeks, the two newspapers have done what they could to get it before the public and everybody is expected to be there. Next week we will give a full account of premiums given. When you go home this Saturday resolve that in 1928 a bigger and better fair will be held at Morehead and that you will do your best to help make it that.

HONOR ROLL High school—1st year, Maxine Caudill, 14 year, Marie Barbour, Grade 2—Bulah Cassity, Marie Thomas, Augusta Adams, Grade 7—Lucy Martin, Nellie Cassity.

Grade 6—Asa Adams, Minnie Ethel Layne, Christine Caudill, Isaac Waldo, Katherine Jackson. Grade 5—Leora Hogge, Lenora Jones. Grade 4—None. Grade 3—Mattie Allen Caudill, Dee Fannin, Harvey Tackett. Grade 1-B—Charles Fraley, George Jackson, Calvin Crosswell. Grade 1-A—Gladys Neala, Albert Day, Clayton Moore, Lillian Tackett.

Fame comes from having people think you are the wonder that you think you are. Lasting fame makes yourself the wonder others think you are. An Englishman, trying at about the rate of five miles a minute, won the air speed championship for 1927. We wonder if an Irishman was chasing him?

James A. Wallace indicted. James A. Wallace, of Irvine, Ky., former treasurer and a candidate for State Auditor in the recent primary on the Republican ticket was indicted last week in the Franklin Circuit Court. The indictment alleges that he changed the figures in several counties on the returns in the office of secretary of state after they had entered in that office and there are five counts in the indictment, alleging that the results in five counties had been changed.

M. S. N. ISSUES SCHOOL PAPER We have on our desk a copy of the State Normal paper which was issued Tuesday. The infant hasn't yet been named and so far as we could tell we found no place where it told how often it would be published. It is an eight-page paper and contains all the news of the school and is well gotten up. William Samples is Editor-in-Chief, John Bridgway, Associate Editor and Edwood Allen, Sport Editor.

HURT BY WAGON Raymond, the 13-year-old son of Charlie Hall, of near Eadston, fell from a wagon loaded with lumber Tuesday morning and suffered severe wounds about the head. His head was struck by the wagon wheel and several stitches were required to close the injuries. He was brought to Morehead for treatment. Subscribe for The Scorchers.

**CITIZENS BUILD ROAD**  
 "A total of 320 men and 186 women gave their time at four community road workings during August in an effort of Rockcastle county citizens to complete the road from Mt. Vernon to Hansford. Fifty-two teams and a rock crusher were used in the work. The slogan of those behind the project is, "On to Hansford." After witnessing one of the free road workings, the county appropriated \$2,000 to assist in completing the road." After reading the above we thought it would not be out of place for the citizens of Morehead to get together and take the bumps out of the little piece of road from the little bridge near Sen Bradley's home to the surfaced road of the Midland Trail, only a few hundred feet.

**MANMOTH CAVE TO BECOME NATIONAL PARK**  
 The state-wide campaign to make the Mammoth Cave area a National Park, to provide a great recreational and vacation center in Kentucky, is definitely under way. During the next three months two million dollars will be raised among the people of Kentucky to purchase 70,613 acres in Edmonson, Hart and Barren counties. Within this territory will be found the amazing caverns, including Mammoth Cave, as well as scenic spots of wonderful beauty. After being purchased, the lands will be given to the United States Govern-

ment, which has authorized their acceptance for perpetual maintenance and development as a National Park.

The value of a National Park within the borders of the state cannot be estimated. Letters and figures secured from those states which have National Parks prove the statement. Millions of tourists will journey into the commonwealth from every state in the union, spending their money as tourists do, with its subsequent business increase an dits resultant benefit to every individual and every form of industry within the state. Many of these tourist visitors will recognize the advantages and possibilities of Kentucky and become permanent residents here.

Campaign headquarters have been established in Louisville. Regional headquarters are to be so located that a complete and thorough coverage of the state will be possible. A special organization is to be built among our public spirited citizens which will reach into every city, county, hamlet and rural district. Every Kentuckian will be given an opportunity to help. The project is so great and so vital it will require the aid of every man and woman.

The Mammoth Cave National Park Association has been formed to place the situation before the public and to ask its whole-hearted interest and assistance in bringing the campaign to the attention of the people of Kentucky. The funds necessary will be contributed only if our men and women realize the great good that will come out of the movement. This essential work of education can be accomplished only by the generous and hearty support of our newspapers.

Adrian Wychgel has been selected state director with J. Taylor Hughes as his associate. H. L. Giles is director of publicity. These men are located in the state headquarters, Martin Brown building, Louisville, and any suggestions made will find appreciation.

**STATE LOSES TAX OVER HINK RATES**

The state lost its case this week when three federal judges ruled that fire insurance firms doing business in Kentucky could charge the increased rate of 12 1/2 per cent on policies issued until March 29 of this year, in which there had been changes.

Judge A. M. J. Cochran handed down the oral decision of the judges in the eastern division of federal court here. Judge Charles Moorman and Charles I. Dawson sat during the arguments and concurred in the decision.

Attorney General Frank E. Daugherty contended that the business issued prior to March 29 of the old rate should prevail until the termination of the contract, regardless of whether the property insured was moved or changed.

The judges held that moving of the insured goods or any changes would come under the head of "new business" and that the increased rate as granted the insurance companies by the court last March shall prevail.

The court gave no decision in the motion filed by Daugherty in which the state wished to get a ruling regarding the taking of testimony in the case. The insurance companies contended that matters are mentioned by their attorneys in the taking of depositions could not be brought up in cross-examinations, and Daugherty asked the court for its ruling on this phase.

The federal courts held the insurance companies the increased rate last March upon a temporary injunction, and depositions in the case are now being taken for trial on its merits.

**A LITTLE TALK ON THRIFT**

By S. W. Straus, President American Society for Thrift.

Most of us think of thrift as a modest virtue through which people save money, take care of their health and try to enjoy their time to the best advantage.

But how few of us think of it also in terms of the great material progress going on all about us.

Because somebody saved, more than \$5,000,000,000 in new buildings are being erected in the United States this year. Because somebody saved, millions upon millions of dollars worth of new highway construction is going on today all over this country. Somebody had to save to build our railroads, to provide agricultural implements for our farmers, to construct our electric light systems and power plants, and build or rapid transit lines.

These aspects of material progress did not just grow of their own volition, or come into being through the workings of some magic force. Through the slow, steady, systematic saving of the people of this nation all of this was made possible, and all the material progress the United States shall ever attain will be based on this same patient thrift of the people.

Let the people of this nation ever cease to save and the result will be immediate stagnation and eventual ruin.

Thrift is not merely a modest virtue to be encouraged by happy phrases and apt platitude. It is a tremendous necessity. It is the foundation upon which the entire structure of our national development is built. Happily we are coming more and more to a genuine appreciation of its serious importance.

### Frequent Bilious Attacks

"I suffered with severe bilious attacks which came on me two or three times every month," says Mr. Otis Miller, of Murray, Ky. "I would become dizzy. My head would ache terribly. Feeling as if it would almost burst. It felt exactly like a tight band was being drawn closer and closer around my temples.

"My stomach would be so upset I could not retain any kind of nourishment for hours. I would have to quit work and go to bed.

"My color was awful. I was yellow and my skin was itchy and dry. I did not have any energy—no ambition to work. I was just about half dead most of the time because of these spells.

"One day one of my neighbors, who has used Dr. King's Black-Draught for years, said he had noticed how bad my color was and thought it would help me.

"I got some Black-Draught immediately and began to take it regularly until I got my system clear of the poison. I had been cleaning my eyes below in the gutter and developed a fine appendix. I had no more bad headaches or bilious spells since."

**\$6,000,000 More Paid Poolers On 1924 Crop**

Association Settles in Full for 25 Grades Besides Small Additional Sum On Those Already Paid For—More Coming Soon.

Checks for more than \$6,000,000 were mailed Monday night to members of the Burley Tobacco Growers Co-operative Association in the states of Kentucky, Ohio, Indiana, West Virginia, Tennessee, Missouri and Virginia in final settlement for their 1924 crop. The payment was on 25 grades only, the other 29 grades having been paid for in full April 28, 1925. The grades on which final settlement was made were C-1, 2 and 3; D-1, 2, 3, 4, 5, 6, and 7; E-3, 5, 6; F-1, 2, 3, and 4; G-1, 2, 3, 4, and 6; PS-1, 2, and 3.

Accompanying each check is a report from James C. Stone, president and general manager, and sales manager, of the Burley association, which shows that the expense of handling the entire 1924 crop was \$1.007 per hundred pounds.

Mr. Stone also informs the grow-

ers that they will get final payment on the 1923 and 1925 crops by the middle of November and that the final payment on the 1923 crop will reasonably be expected to reach an average of 25 per cent of the first advance and the final payment on 1924 probably will average 30 to 40 per cent of the first advance on that crop. Mr. Stone estimates the amount paid to the growers for their tobacco in the six years of operation of the association will be close to 20 cents a pound net. In addition to the amount used by the growers to pay for the warehouse properties they bought.

He says the payment made on the 1924 crop and that to come soon on 1925 and 1926 will amount to almost the price of one crop of tobacco and that it will come at a time when the farmers need it about as badly as at any time during the life of the contract.

**ENGLIS**

A death of much sadness came Tuesday when Mrs. Grace Ingie died at her home in St. Louis after a month's illness. She was the daughter of Mr. and Mrs. T. L. Dehart, of Farmers, this county. She was for several years a stenographer. She and her sister, Miss Vada Dehart, went to St. Louis a few years ago where they each held fine positions. Miss Grace, since going there, met and married Otis W. Ingie, who, with Miss Vada, accompanied the remains back to Kentucky, where they were buried in Lee Cemetery Wednesday afternoon. The funeral was conducted by Professor D. M. Holbrook at the cemetery.

Besides her husband and sister, Mrs. Ingie is survived by her parents and three other sisters, Misses Isa, Iva and Marie, all at home, and two brothers, Roy and Ray. Roy, who is in the navy was unable to attend the funeral. The family has our deepest sympathy.

**ICE TRUCK BURNED**

Saturday afternoon while the editor and his daughter were on the road to Morehead, and when just beyond Salt Lick, we saw a lot of people on both sides of the road, and when we got to them it proved to have been caused by a fire which had burned the cab of the ice truck of Carroll B. Daugherty, of Morehead, the fire having been extinguished. While the cab was destroyed, fortunately the gasoline tank did not explode, and the damage was comparative slight. Defective wiring is assigned as cause for the fire.—Flemingsburg Times-Democrat.

Mr. Daugherty forgot to tell the newspaper people here of the incident.

A. A. Anderson, Secretary of the Pacific Coast Building Association, in an address at the Pacific States savings and loan conference, recommends newspaper advertising as the most effective and economical means of reaching the public. Further, he urged that the building-loan association throughout the United States should have a fund of at least \$1,000,000 for such a campaign.

As Mr. Anderson knows, it has been fully demonstrated that the newspaper stands by itself as a carrier of messages to the greatest possible number of people. It is the only medium that is sure to reach the citizens of a community and be read. This fact is being more fully appreciated every day.

The smaller city dailies and country weeklies are the great medium for reaching the masses of the people who represent the majority of the reading and buying power of this nation.

**STATE LOSES FIGHT ON RISK RATE RAISE**

Federal Judges A. M. Cochran, Charles H. Moorman and Charles T. Dawson last week ruled against the State in holding that fire insurance companies doing business in the State could charge an increased rate of 12 and one-half per cent on policies issued prior to March 29, this year, in which changes in location are made.

Business issued prior to March 29 of this year was old business and the old rate should prevail until the termination of the contract, regardless of whether the property insured was moved or charged, Attorney General Frank E. Daugherty contended in arguing the State's side of the question.

The insured goods or any changes would come under the head of "new business" and the increased rate as granted the insurance companies by the court last March should prevail, the judges held.

No decision was given by the court regarding the option filed by Mr. Daugherty, in which the State

sought to get a ruling regarding the taking of testimony in the case.

The insurance companies were granted the increased rates last March on a temporary injunction. Depositors are being taken for trial of the case on its merits.
