Hello Folks,

In all probability you have decided that I either didn't receive the package, you sent me. But, that is not true. I duly received it and disposed of it most efficiently. I might add that the disposal was entirely to my advantage.

I wish that I could be there to thank you in person, for remembering me. At the present that is not possible. I am hoping and praying for that day to come, and soon. I know you all feel the same.

Again, thanks, for your thoughtfulness.

Most sincerely
Lo D. Oppenheimer, Jr.
