MOREHEAD, KENTUCKY,

THURSDAY, MAY 26, 1932.

NUMBER TWENTY ONE

POLICE OFFICERS MAKE NUMBER OF ARRESTS OF ALLEGED GANG OF ROBBERS OF LOCAL HOUSES

It looks from here as if the gang of Morehead "operators" who have been making life miserable for the merchants, wholesale houses and business people generally, may be able in the near future to go home nights and get a good night's rest without the haunting fear that they will find their place of business ransacked the next morning by the thieves who have been preying upon them for the past several months. Morehead and Rowan county officers together with C. and O. detectives started the initial roundup of the thieves last Friday when they bagged Alvin Mack, who says his real name is Alvin McKenna, presumably of Charleston, West Virginia.

The bagging has continued ever since with three local men and one Lexington man already in the toils and more arrests expected momentarily. Turner Wilson, Joe Day and Ray Johnson are local boys and men who are being held under bond of \$2,000 each for the Grand Jury. They were arrested following their recognition by Mack as the ones who robbed the C. and O. freight cars.

Following the theft and robbery of Leo Oppenheimer's car and samples Thursday night, police hit the trail here Friday to be on the lookout for a man driving a Pontiac coupe who was coming this way from Frenchburg. He was captured after a four hour chase and turned out to be Mack. He was connected with the theft of Oppenheimer's car and the theft of nearly \$1000 worth of samples from the car. The car in the meantime had been found where it had been abandoned near the office of the Home Oil Company. Mack representing himself as a traveling salesman.

It is the act of a gang of men who were in the act of driving a Pontiac coupe when the sheriff walked in. On learning that it was an officer, Mack left with his samples displayed on the counter. His actions aroused the sheriff's suspicions and when the officer approached Mack fled in an automobile. After receiving the call from Frenchburg, deputy sheriff Caudy, C. & O. agents J. A. Ferrin and Kincaid left here.

After striking Mack's trail at Lick the Morehead police chased to Mt. Sterling, but he evaded them there and doubled on his heels, headed back toward Morehead. He overtook him under arrest, and placed him under arrest. He found practically all of Oppenheimer's stolen goods at his tourist camp at Salt Lick along with a lot of callaneous articles definitely identified as those having been taken from a boxcar here this week.

Officers here Saturday obtained a new slant on the situation as they received word that the car he was driving a Pontiac coupe, West Virginia license No. 124, had been stolen.

Mack was questioned for some time after his arrest, and the result was that he identified four Morehead youths that were arrested, as he had seen entering a car near the officers said here would be arrested shortly.

The railroad has suffered thousands of dollars of losses during the past six months here, until Friday their agents and officers were at a standstill in investigation. Morehead business firms have suffered more than the robbery in two weeks. The thieves climaxed their operations with the entering of the C. & O. Bishop Drug Company last week in which they obtained about \$500 worth of merchandise. Officers think they are near solution to this also.

Following the arrest of Day, Wilson, Ray Johnson was taken to a letter which was intercepted by officers from one of the imprisoned men to Johnson. The letter was sent by a boy to Johnson. When they were caught, they attempted to bar the men to pieces but they were patched together. It contains

(Continued on Page 3)

Tarzan Of Apes To Be At Cozy

The strange story of a white man who was brought up in the jungle and lived in the tree tops like the apes is told in "Tarzan, the Ape Man," which will be at the Cozy Theatre June 1 and 2. This is a screen version of the famous adventure novel of Edgar Rice Burroughs and the fact that it was directed by W. S. Van Dyke of "Trader Horn" reputation guarantees it to contain the full flavor of the African jungle in which gaudy and always exciting locality the plot is unfolded.

Fights with lions, apes, blood thirsty pygmies and other wild animals; a spectacular charge of a herd of elephants through a native village; the imprisonment of an English safari and their escape from a man-eating gorilla pit play a prominent part in this story of the jungle adventures. Principal interest, however, is centered on the fascinating romance of Tarzan with an English girl. Their life in the tree tops and exploits in warding off the perils of the heart and savages by which they are surrounded is said to make this one of the most thrilling pictures yet to come to the talking screen. Johnny Weismuller, world's champion swimmer, plays the title role, and the cast also includes Neil Hamilton, Maureen O'Sullivan, C. Aubrey Smith, Doris Lloyd, Forester Harvey, and Ivory Williams.

Claud Bond and Miss Virginia Leach of Ashland spent Sunday with the former's grandmother, Mrs.

Alumni Day To Be Feature Occasion

The place—Morehead State Teachers College. The time—June 1. The characters—Alumni. The scene—convocation, the baseball diamond, the roof garden, the campus. Plot—lots of action.

The title of the drama is Alumni Day. This commencement feature to be initiated on June 1, is a day set apart for the reunion of old students and graduates. Following is a list of Alumni Day activities.

For the convocation period, at 10 A. M., alumni speakers will literally hold the center of the stage. Among them will be Bill Scroggins, coach at Olive Hill High School, and Miss Laura Steele, recently appointed superintendent of Carter County. Special musical numbers will be given.

"How they played baseball in the good old days" might be the title of some two, when at two o'clock in the afternoon the alumni team will meet the varsity in a baseball contest. About 18 of the old stars have signed up to come back for this game and show the college team how it used to be done.

As a prelude to the evening's events, a concert will be given by the school band in the terrace garden at 6:00 p. m. The program for the concert follows:

Precision (March) ... Harold Bennett

MISS SORRELL WEDS ERNEST POSTOM

The marriage of Miss Olive Sorrell to Ernest Postom of Middletown, was solemnized on Wednesday afternoon, Rev. Zack Tussay performed the ceremony, which was witnessed by the bride's sister, Miss Ruth Sorrell, and Mr. Bert Alderson of Salt Lick. Mrs. Postom is the daughter of Mr. and Mrs. Ben Sorrell and Mr. Postom is the son of Edgar Postom.

Mr. Robert Counts of Olive Hill

Concord (March) ... Harold Bennett
Ambition (Overture) ... Harold Bennett
The Zouaves (March) ... Will Huff
Dawn (Reverie) ... Harold Bennett
Safety (March) ... Harold Bennett
The Show Boy (March) ... Will Huff
Anona (Serenade) ... Harold Bennett
Formal (March) ... Harold Bennett
Power (March) ... Harold Bennett

For the alumni dinner, to be given at 7 p. m. in the cafeteria, a program has been arranged centering around the theme, "Building Morehead Bigger." Talks by members of each graduating class since 1926 will be given. Among the graduate speakers will be Hubert Counts, Marie Holbrook, John Ridgeway, David Morris, Russell Williamson, Robert J. Nickell, and Emory Rogers. President John Howard Payne will give the introductory remarks. Coach G. D. Downing is to serve as toastmaster.

A dance in the terrace garden, beginning at 9 o'clock, will close the day's events.

The program for alumni day is under the direction of Miss Inez Humphrey, who has been working in connection with Mr. Hubert Counts, the president of the alumni association, making plans for the day. Letters were mailed last week to graduates and life certificate students of past years.

MYRTLE'S TEA ROOM BEING IMPROVED

Business is good, says Mrs. S. C. Caudill, proprietor of Myrtle's Tea Room just east of Morehead. And it must be, judging by the improvements and enlargements that are being made there. A new addition has been built making the place much more commodious and convenient. Mrs. Caudill makes a specialty of serving chicken dinners on Monday either to individuals or to parties and at present is serving special luncheon dinners.

To Eagles' Team

Clayton made up of the latter class here Thursday to lead both teams with three safeties in four trips. Barlow, Napier, Ford and Albright collected two apiece. Albin and Maggard of Eastern hit home.

Morehead outfit the invaders 11 to 9. However the Richmond boys connected for more extra base blows. The locals received more bases on balls also.

A ninth inning rally was nipped in time as Morehead got the final out when Eversole, a substitute, tried to stretch a two base hit into a triple.

Coach Dewey Downing piloted his Morehead Eagles through another successful year as they closed their baseball season here Friday by decisively defeating the Eastern team.

(Continued On Page Two)

Operetta In Honor Of Geo. Washington

In observation of the Washington Bicentennial the students at Morehead State Teachers College will feature the operetta "Mount Vernon," by R. H. Stoughton, as a part of the commencement week program. This operetta dramatizes three episodes in the life of Washington at his home in Mount Vernon and requires elaborate costuming, careful staging, and large scale effects. There will be dances during the period, including the Virginia reel and the minuet, the entire production culminating in a grand wedding ceremony when Nellie Custis, Washington's step-daughter, marries on the anniversary of the

The date set for the spectacle is Tuesday, May 31 at 7:30 p. m. and students and teachers in all of the college departments that are able to make a contribution to the success of this undertaking are working hard to make it a success. The departments of Home Economics, Art, Industrial Art and Music are all making their contributions in handling the costuming, staging and general producing. The dramatic phases are being handled under the supervision and direction of Miss Flora Shepard.

The cast, selected by Miss Shepard, is as follows:

COMMENCEMENT AT COLLEGE TO OPEN FIVE DAY PROGRAM WITH BACCALAUREATE SUNDAY MORN

To Hold Folk Song Festival

The American Folk Song Society will present the second annual American Folk Song Festival on Sunday, June 12 at 2 p. m. at the cabin of Jean Thomas, Kentucky author, on the Mayo Trail twenty miles from Ashland, Ky. The purpose of the society is to perpetuate American folk song and to present annually an American Folk Song Festival in which only those to whom the ballad has been handed down by word of mouth will participate. Jilson Setters, the singing fiddler of Lost Hope Hollow will play a group of Elizabethan ballads. James Martin will play on the banjo a lively ditty. Earl Neal will play the dulcimer and Earl Martin the guitar. Lucy Fields who is now a student in the Morehead State Teachers College, will sing ballads of Elizabethan and early American origin with a group of mountain girls.

There will be no charge of admission to the festival and a cordial invitation is extended to Morehead State Teachers College, both faculty and student body, and we trust that the college and Rowan county as well will be well represented.

Jack Lewis Taken With Hemorrhage

Jack Lewis, son of Mr. and Mrs. Lewis of this city, was stricken with a hemorrhage while at the hospital when he was 21 years of age. He was taken to St. Joseph's Hospital where he received medical attention. Mr. and Mrs. Lewis were called and hurried to the bedside of their son.

The hemorrhage was believed to have been caused by a lunch which he ate while attending a fraternity banquet at Lexington. He complained later of feeling ill and vomited so violently as to worry the nursing staff, causing the hemorrhage.

According to latest reports he is recovering rapidly from the effects of the loss of blood and will be able to return home in a few days.

During Jack's illness his place as mailman is being taken by Earl McBrayer.

Registration To Start On June 6

Advance registrations indicate heavy enrollment for the summer school at Morehead State Teachers College this year. Registration the first term will begin at 8 o'clock in the college gymnasium, Monday morning June 6.

Students will find a complete line of courses both in the college and the high school departments from which to select their schedules. In addition to the usual run of summer courses, new classes in tennis for both men and women will be available. Work in brass and string instruments will be provided. The biology department is being enlarged to keep pace with the recent growth in science courses in the college. Interesting evening classes have been started.

The following is the commencement calendar at Morehead State Teachers College beginning Sunday, Sunday, May 29, 10:00 a. m. Baccalaureate sermon.
Monday, May 30, 8:00 a. m. Senior breakfast.
Tuesday, May 31, 10:00 a. m. Commencement exercises.
Wednesday, June 1, Alumni Day. 10a. m. Alumni Chapel.
2 p. m. Baseball—Varsity-Alumni
6 p. m. Band concert.
9 p. m. Alumni dinner.
Thursday, June 2, 10:00 a. m. Commencement program.
The largest graduating class to complete the four year course at the Morehead State Teachers College will receive their degrees next Thursday, June 2, following a five day program culminating in the commencement exercises on that day. In addition, the Standard Certificate class, which the largest in the history of the school will receive their certificates.

The five day program opens with the baccalaureate sermon at 10:00 a. m. Sunday morning, which will be preached by Dr. George H. Combs, a native Kentuckian, who is now pastor of the Country Club Christian Church of Kansas City, Missouri. Events on Tuesday include the class day program which will be held at 10:00 a. m. in the college auditorium. The program is in the nature of a take-off on an old fashioned commencement. Tuesday evening Prof. L. H. Horton's Music classes will offer Morehead's contribution to the Washington Bicentennial celebration at 7:30 with presentation of the operetta.

A full day's session has been planned for Wednesday, June 1, when the graduates will receive their degrees. The program will be delivered by Hon. J. M. Blackburn, Bishop of Lexington, Kentucky. Dr. Abbott is a nationally famous speaker and is one of the best in this state. He came to Lexington a few years ago from Baltimore. He is sure to have an inspiring message for the graduates and citizens here.

On Monday, the annual senior breakfast will be given. The breakfast is a regular feature of commencement week, given by President and Mrs. John Howard Payne at their home in honor of the senior class.

Mrs. Merl Gregory spent the week-end at the home of her parents.

THE MEXICAN BEAN BEETLE
By John S. Gardner, Kentucky College of Agriculture.

about foliage injury to their beans, are beginning to write in to learn whether any new method for controlling has been developed. Not all of the injury is the work of the Mexican beetle, but most of it is caused by the spotted cucumber beetle and the southern bean beetle. The way to de-

termine the culprit is by the shape of the holes in the leaves, the Mexican beetle making angular holes with the leaf tissue eaten clean.

acre of beans; 1 pound will cover from 200 to 300 feet of row, as applied with a hand duster.

the State Highway Commission at its office, Frankfort, Kentucky until 2:00 P. M. on the 16th day of June, 1932 for the improvement of:

Those who do not care to mix their dust, will find it for sale already mixed. Most of the prepared bean beetle dust follow the proportions given above, but it is well to scrutinize the formula, always printed on the container, to see that about one-sixth of the mixture is calcium arsenate, to insure killing power and safety from leaf burning.

The safest spray material a magnesium arsenate, used at the rate of 1 pound to 50 gallons of water, or 1 tablespoonful to 1 gallon. fifty to 75 gallons spray are needed to properly cover an acre of beans; 1 gallon will spray approximately 175 feet of row.

Army worms are present in numbers large or small each year. It is only in those years, however, when conditions are favorable for their growth that they become important pests. In view of the cold, backward development, precautions should be taken to prevent an outbreak of these pests such as was had last year, according to W. A. Price, head of the department of entomology and botany at the Experiment Station, University of Kentucky.

Prof. Price urges that growing grasslands and small fields be inspected at intervals between now and early June to determine the presence of the worms. If found in considerable numbers they should be taken care of by burning or by using them to the extent of the infestation. This step is important, much as the worms in the soil often escape attention to continue their development.

Because of the tenderness of the bean foliage, special spraying and dusting materials should be used. Of many combinations tried, this is the best dust: calcium arsenate, 2 pound; sulphur, 1 pound; and fine lime, 4 pounds.

The Mexican beetle, on the other hand, feeds only on the under side of the leaves, and it stays until the entire plants are destroyed.

Most of the trouble experienced in controlling the Mexican bean beetle results from starting too late. The time to begin the application of the dust or spray is when the first egg clusters are seen. These will be found about a week after the first over-wintering adults have been observed. The adults come to the first beans after the weather has gotten consistently warm, though it is well to keep a sharp lookout as soon as the beans come up.

Definitely stated, this is the procedure on any planting of beans: Watch closely for the first adults; then, look closely for egg clusters, and dust or spray, immediately, covering the under sides of the leaves. TEN days later, whether the beans seem to need it or not, dust or spray again. The duster or sprayer must have an upturned nozzle, so that the under sides of the leaves may be covered. Two dustings given on such a schedule have given 93 percent control in demonstrations many times repeated.

Twenty four pounds will dust an

the Wagons Store-Wrigley road beginning at Wagons Store on Morhead-Sandy Hook road and extending to Elliott County line, a distance of approximately 3.9 miles. Grade and drain type of construction.

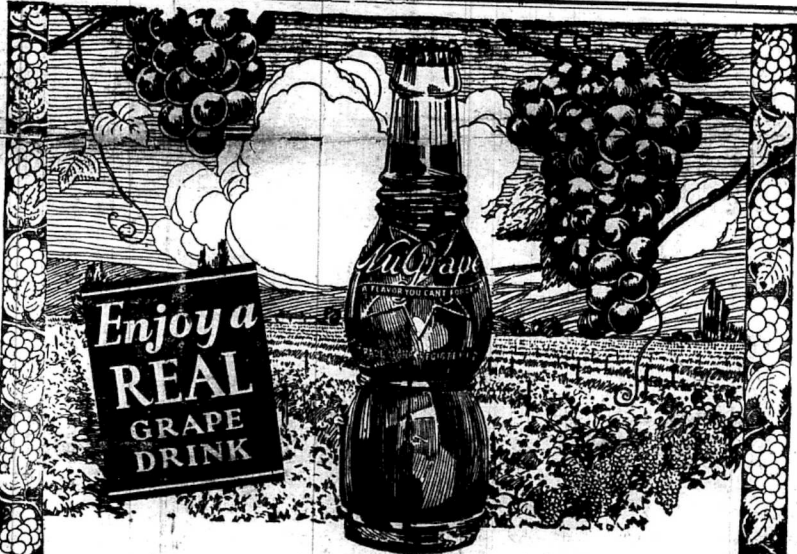

Further information, bidding proposals, etc., will be furnished upon application to the Frankfort Office. The right is reserved to reject any and all bids.

AUTHORIZED AGENTS

Combs, Kansas City Pastor, To Deliver Baccalaureate Sunday

George Hamilton Combs, who will give the baccalaureate address on Sunday morning, May 29th, at 10:30 o'clock, comes from Kansas City, Missouri, and has been classed by Collier's Weekly as one of the eight greatest pulpitiereers in the country. He is now pastor of the Country Club Christian Church at Kansas City, which he constructed at a cost of over \$500,000. For many years he has been one of the top notchers of the Disciples Church, playing a prominent part in their national gatherings, always a headliner among their speakers.

Dr. Combs is a native Kentuckian having been born at Campbellsville. He attended Transylvania College when it was called Kentucky University. He received his Ph. D. from Wooster, Drake conferred the LL. D. upon him in 1901. One of his sons George Hamilton Combs, Jr., represented the Kansas City District in the National Congress

and is now one of New York City's prominent lawyers.

Dr. Combs was pastor at Shelbyville, Kentucky, a pioneer church that has enjoyed such pastors as Hugh McLellan and Homer Carpenter.

Dr. Combs left Shelbyville for the west, and organized and built the Independence Boulevard Church at Kansas City, the pastorate of which church he held from 1891 to 1919. Since that time he has been connected with the Country Club Christian Church in the same city. His church sent him to Europe during the World War, and he made a close study of conditions there. This world-wide grasp of affairs gave him prominence throughout the nation. The Kansas City Star made him one of its staff members. The Kansas City Journal-Post made a call for his services as editorial writer. He has been a contributing editor to the Christian Evangelist for years.

of study. There are many teachers who subscribe to a philosophy that for an extensive use of library materials, but when their classes were visited it is found that the evidence indicates only an in-adequate and spasmodic use of the

The Kentucky School Journal for December will be found "The Kentucky Reading Card," which discusses the idea of giving two hours of credit to the teacher who reads the books adopted by the school and who takes an examination on this reading. It is proposed that the course be given in the department of the teachers colleges and the University of Kentucky. "Modern Educational Problems." The article further pleads for increased interest on the part of both city and school administrators in this

of improvement of their faculties and the quality of instruction in their schools.

DR. HOKE STUDIES CHILD BEHAVIOR

Dr. R. L. Hoke has an article in the June number of Journal of Experimental Psychology entitled "Some Mental Aspects of Motor Activity." In this article Dr. Hoke analyzes certain mental factors commonly overlooked in a purely motor (muscular) activity. These are such factors as feelings of success, knowledge of result, satisfactoriness of the activity elements in the situation toward which attention is directed, and variability of different types of individuals under an identical test situation. The conclusions arrived at in the study have their main significance in the control of children or in the acquisition of a motor skill.

In the control of children it has been determined that use of punishment is most effective of several factors tried in teaching the child not to do a thing. Tapping the child's fingers gently so as to give slight pain is the most effective means of preventing the child from pulling things off a table, turning on the gas cock and the like. When it is desired to develop in the child the power to skillfully perform some motor act requiring accuracy of movement, Dr. Hoke found that keeping the child informed from time to time of the degree of accuracy attained caused quickest improvement.

PROFESSORS MAKE GRADUATING TALKS

Dean William H. Vaughan gave a commencement address at Flat Gap in Johnson County, May 7, his subject being "Upward Trail." He spoke on the same subject at the graduation exercises at East Union May 10. He was the principal speaker at the Morehead High School commencement May 13, the subject of this address being "The Life that Failed." On May 20 he gave an address before the graduating class at Sandy Hook. He will go to Louisa to give a commencement speech, May 27.

Prof. A. Y. Lloyd gave the commencement address at Salt Lick High School on Thursday, May 12.

His topic was "Values of Education." On Wednesday, May 18, he addressed the graduating class of the Tolsonboro High School, using "Power of Purpose" as his subject. Friday night, May 20, he delivered an address to the class of Olive Hill High School with the subject, "Commencement—A Beginning."

Among the high school commencement addresses delivered by Prof. E. V. Hollis this year have been the following: May 7 at the Johnson County High School, Oil Springs, Kentucky; May 13 at the Powell County High School, Stanton, Kentucky; May 19 at South Portsmouth, Kentucky; At present Mr. Hollis has other addresses pending.

Dr. R. L. Hoke spoke at the grad-

uating exercises at Hellier last Thursday night. His subject was, "What is Next?"

HOME OIL COMPANY

LONG On Promises But SHORT On Facts

Last week a few Kentucky newspapers published an editorial which began:

"Every day the public is realizing the exorbitant profits made by certain utility companies. Encouragement of public ownership is desired. These profits can go a long way toward keeping taxes down."

The piece continued with a jumble of fanciful declarations and large figures which bore only slightly more relation to actual facts than Mother Goose Rhymes.

One of our local managers asked his editor friend where this material came from. Said the editor:

"Oh, it's just a canned editorial. I buy the stuff from a fellow in North Carolina. He sends me three big sheets of it a week, ready to clip, and I send him \$5 every three months. Saves me time and trouble and it's dirt cheap."

You get a picture of the Fellow-In-North Carolina. He grinds out so-called editorials by the yard and for a small fee sells the same ones to busy newspaper men all over the country.

You can imagine the Fellow's sense of responsibility and his passion for digging out the facts. The gentleman is interested in just one thing—earning a living by the sweat of his typewriter.

Every so often somebody pops up with the claim that a municipally owned and operated electric power system, in this town or that, is performing wonders in the way of cutting electric rates and easing the tax burden for the citizens.

Unbiased expert accountants have examined every claim of this kind concerning a Kentucky municipal plant.

In not a single instance has the claim stood up when measured by exactly the same bookkeeping rules applied to corporation electric systems.

Taxpayers and electricity users in towns with municipally owned electric plants carry just as heavy a tax load as the residents of towns served by our company.

When city officials want the figures about their municipal plant to tell a story favorable to the officials, the figures perform accordingly. Such officials are only human. They want public approval of their management.

But you, Mr. and Mrs. Taxpayer: Don't be fooled by the claims of politicians, the rosy promises of impractical visionaries, the urgings of the Fellow-In-North Carolina. Be tough-minded! Demand both sides of the story and the carefully hidden facts.

**STOP USING SODA!
BAD FOR STOMACH**

Much soda disturbs digestion, sour stomach and gas. Adierjka far better. One dose will rid you bowel poisons which cause gas bad sleep. (C. E. Bishop, Drugs)

Famous ST STARTERS

221 FEET A SECOND

OR 150.75 MILES AN HOUR, IS THE WORLD'S RECORD FOR MOTORCYCLES, MADE NEAR CORK, IRELAND, ON NOVEMBER 6, 1990. THE RECORD FOR STARTING MOTORS IN FASTEST TIME ON DAYS OF FREEZING COLD IS HELD BY PHILLIPS 66 GASOLINE. THE REASON IS THAT THIS SENSATIONAL, PERFORMING GASOLINE IS HONEST HIGH TEST. ITS GRAVITY RIGHT NOW RANGES FROM 65° TO 71.4°.

PHILL-UP WITH PHILLIPS - THE GASOLINE OF CONTROLLED VOLATILITY

"HIGHEST TEST"
at the price of ordinary gasoline

Phillips 66 volatility is 69.6 per cent higher than the average of 28 competitive gasolines. Proved by unbiased laboratory tests based on distillation at 212 degrees.

You are missing a lot of motor efficiency and passing up real savings in money, if your tank is not filled with Phillips 66... the greater gasoline.

Remember, this is the motor fuel which built sensational sales in record-breaking time. And still is forging ahead with amazing speed. This outstanding public acceptance is based on one thing—higher test gasoline without higher price! Thus, throughout the winter, you get all summer high test benefits—from snappier pick-up to longer mileage. Plus split-second starting in freezing weather.

Remember, too, that Phillips is the world's largest producer of natural high gravity gasoline—which explains why you pay not a penny extra for extra high test gasoline, when you fill up at the Orange and Black 66 shield.

This scientific OIL FLOWS FREELY 32° below freezing

Here is the perfect partner for instant-starting Phillips 66 Gasoline. It is a finer lubricant which flows to all vital engine parts, at the very first movement of the oil pump. It can't get thick and stiff in cold weather because it is completely de-waxed. We sincerely offer it as the world's finest oil for your motor. 36¢ a quart.

For those who prefer it... Phillips 66 Ethyl... at the regular price of Ethyl Gasoline
