

THE PEOPLE OF PARIS.

Their First Movements in Revolution Are Usually Generous. I know the men of the people in Paris too well not to know that their first movements in times of revolution are usually generous and that they are best pleased to spend the day immediately following their triumph in boasting of their victory, laying down the law and playing at being great men. During that time it generally happens that some government or other is set up, the police return to their posts and the judge to his bench, and when I ask our great men consent to step down to the better known and more vulgar ground of petty and malicious human passions they are no longer able to do so and are reduced to live simply like honest men. Besides, we have spent so many years in instructions that there has arisen among us a kind of morality peculiar to times of disorder and a special code for days of rebellion. According to these exceptional laws, murder is tolerated and have permitted, but that is strenuously forbidden, although this, whatever one may say, does not prevent a good deal of robbery from occurring upon those days for the simple reason that society in a state of rebellion cannot be distant from itself at any other time, and it will always contain a number of rascals who as far as they are concerned scorn the morality of the main body and despise its point of honor when they are unmolested. "Recollections of De Tocqueville."

WAS A VERY SICK BOY

But cured by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

"When my boy was two years old he had a very severe attack of bowel complaint, but by the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy we brought him out alright," says Maggie Hickox, of Midland, Mich. This remedy can be depended upon in the most severe cases. Even cholera infantum is cured by it. Follow the plain directions and a cure is certain. For sale by M. W. Armstrong, the reliable druggist at Olive Hill, Ky.

State Superintendent Fuqua has ordered the printing of several thousand pamphlets containing all information necessary for persons who contemplate seeking appointment as pupils at the State Normal Schools, when they are opened January. A number of these pamphlets will be sent to the county superintendents over the State, from whom prospective applicants can secure them.

TIDAL FLUX AND REFLEX.

Complicated Movements of the Billows of the Ocean. Those who see the rise and fall of the tides in our Atlantic harbors seldom think of the wonderful course of the ocean waves which cause the tidal flux and reflux. Such billows not only cross the sea, but flow from ocean to ocean, and in this way complicated movements are set going. Thus, for instance, once in every twelve hours the moon raises a tide billow in the southern Indian ocean. When this billow passes the Cape of Good Hope at noon its successor is already born, and by the time the first billow has reached the Azores Islands at midnight the second is rounding the Cape, and a third has come into existence in the southern ocean. By 4 o'clock in the morning, following its passage of the Cape, the billow reaches the English channel, and there the shallow waters deny it so much that it does not arrive at the strait of Gibraltar until noon. It is now flowing channel caudae the tide to rise very high and almost puts an end to the wave. In the meantime another branch of the billow runs around the western side of the British Islands, rounds the north point of Scotland and moves slowly down the eastern coast of England until it finally flows up the Thames and laps the wharfs of London. -Philadelphia Record.

Pain from a Burn Promptly Relieved by Chamberlain's Pain Balm. A little child of Michael Strauss of Versailles, Ky., was especially in great pain from a burn on the hand, and as cold applications only increased the inflammation, Mr. Strauss came to Mr. Jas. N. Nichols, a local merchant, for something to stop the pain. Mr. Nichols says: "I advised him to use Chamberlain's Pain Balm, and the first application drew out the inflammation and gave immediate relief. I have used this liniment myself and recommended it very often for cuts, burns, strains and lame back, and have never known it to disappoint." For sale by M. W. Armstrong, the reliable druggist at Olive Hill, Ky.

Pain from a Burn Promptly Relieved by Chamberlain's Pain Balm.

Kentucky Fair Dates. Owensboro, Oct. 2-5 days. Mayfield, Oct. 3-4 days. A report from Oyster Bay, under date of Sept. 25th, says: President Roosevelt has contributed \$100 to be used by Rear Admiral Thomas in a legal suit instituted recently at Newport R. I. to determine whether or not a man can be excluded from a public place of entertainment because he wears the uniform of the U. S. army and navy.

Chamberlain's Cough Remedy Acts on Nature's Plan. The most successful medicines are those that aid nature. Chamberlain's Cough Remedy acts on this plan. Take it when you have a cold and it will ally the cough, relieve the lungs, aid expectorations, open the secretions and aid nature in restoring the system to a healthy condition. Thousands have testified to its superior excellence. It counteracts any tendency of a cold to result in pneumonia. Price 25c. Large size, 50c. For sale by M. W. Armstrong, the reliable druggist at Olive Hill, Ky.

Called His Blame. "What!" cried the brutal husband. "You gave that old overcoat of mine to a tramp? You should have asked me first. I had placed a hundred dollars in bills in one of the pockets of that coat, simply to have the money in a safe place until you should want to purchase some clothes." William Henry Subdeworty, replied the fond wife, fixing him with a judicial eye. "You worried that found a hundred dollars in that coat and gave a worsted glove, six gloves, five cardigans, four matches and a comb to a tramp. I'm going shopping for my dress tomorrow."

One-eyed Giant. Sir John Mandeville saw all sorts of queer things and wrote about them in his celebrated book of travels. It was in 1380 that the venacious John visited a certain group of Isles (yes he called them "isles" which was inhibited by a race of one-eyed giants. Of them he says: "In one of these Isles ben folk of great stature, as giants, and they were hidden from to look upon. As they had but one eye and they was in ye middle of ye frunt." He also tells of another one of these "isles" inhabited by a race of one-legged dwarfs, each having three eyes.

Nothing but Fruit. "I say, I'd give anything to be as strong and healthy as you are," remarked the lady man. "What do you give?" "Nothing but fruit," answered the other. "What kind of fruit?" "The fruit of industry," was the laudable significant reply.

Mandamus Proceedings

Filed against Judge J. J. Yates of Scott County, because, upon petition of twenty-five per cent. of the voters, he refused to hold a local option election.

Mandamus proceedings were Wednesday filed with the Circuit Clerk of Scott county by G. H. Nunnelly, and others, against County Judge J. J. Yates for the enforcement of the petition signed by twenty-five per cent. of the voters of all the precincts for a local option election to be held within the county, including Georgetown, on Dec. 28th. The ground for the mandamus is the repeated failure of the local option people to secure an order for the election asked for in their petitions of August 20 and September 17. In both of these cases the ruling of Judge Yates was that according to the county

unit of a city of the fourth class, not to be governed by the referendum system on the local option question, and that an election for the prohibition of the sale of liquor having been held on the 18th of August, another could not be held under the same limitation of three years. The contention of the temperance people is that the smaller unit is necessarily be governed by the larger, when the proposition is submitted and legal requirements met, and that such has been the ruling in numerous counties in the State. -Ky. Observer.

Killed in Boiler Explosion

Saw Mill Boiler blew up at Marlba, Menifee county. Two workmen killed instantly. Four probably fatally injured.

A terrific explosion occurred at Marlba, Menifee county, last Thursday, when the boiler of a sawmill blew up. Ross Byrd and John Hale were killed instantly, their bodies being burned and mutilated by falling timbers and

her child were so badly burned and scalded that their lives are endangered, and they will be crippled even if they should recover. The boiler was blown to pieces and far away. The explosion has occurred in Menifee county within the past year from dry boilers. -Clay City Times.

Kentucky Gold Discoveries

Big find of both Silver and Gold Ore in Estill county. Lee county also has a finger in the pie. Preparations to develop field.

Several months ago James Townsend discovered gold on the farm of William Henderson, on Station Camp creek, Estill county. He at once leased Mr. Henderson's farm and also the lands of Abner Wilson adjoining, the lessee and owners to share equally in the profits. Mr. Townsend secured a quantity of the ore and sent it to the assay office at Charlotte, N. C. The report of the assayer shows the following, stated by Mr. Townsend: "Certificates of Ore assay. Assay Office of the United States, Charlotte, N. C. Specimen of Ore deposited at this institution by James Townsend, Cob Hill, Ky., the 1st day of August, 1906. For assay. Assay No. 592: Ounces fine metal per ton, 18; Silver, Value per ton, Gold \$19.50; Silver, trace, \$3.72 - Estill Herald.

A. M. Pasley, the noted bricklayer, of Union Hall, brought to this city Saturday, a sample of gold ore taken from his place. The yellow metal was visible in the ore to a considerable extent. He had had it assayed and proves to be worth \$9 per ton. Further investigations will be made in hopes that a larger amount of the ore may be found. W. P. Wise, also of Union Hall, owns 200 acres of land at the State Rock in this (Lee) county, and has found strong traces of gold on this land. He has begun digging for the precious metal, and is very much encouraged with the outlook. -Clay City Times. The Barney silver mine, Swifts Silver deposit and buried coin, the Elliott county diamond field, the above two gold and silver finds and her extensive coal areas certainly "jars" his sister states it a record of this line.

BRIBERY AT ELECTION

Mt. Sterling, Ky., Sept. 25. - Walter Harper, a prominent Republican politician, was indicted by the grand jury here for alleged bribing at the local option election. A negro who was believed also indicted for vote selling. The temperance people will prosecute the men. -Louisville E. Post.

EXAMINING TRIAL WAIVED

Laysville, Ky., Sept. 25. - The examining trial of Chester Savage who confessed to killing his coin, Wm. L. Savage, was set for today. He waived examination. County Judge C. D. Newsham held him over to the December term of court without bail. A court house was packed with spectators expecting to hear the trial. -Louisville E. Post.

State Doings in Liquor Line

The "Wet and Dry" victories and defeats at several points. Exciting Interest shown and diligent work done on both sides.

Nicholasville went dry Thursday by a majority of 18 votes. Two out of three precincts went dry. After the count was announced the temperance people cheered loudly and tendered an ovation to F. P. Taylor, Chairman of the local option campaign committee, also to Editor D. O. Groff, of the Jessamine News, who had made such a strong fight through the columns of his newspaper. The local option election held in Woodford county Thursday resulted in an overwhelming victory for the temperance advocates, their majority in the entire county being 543. Out of 14 precincts the dries carried 11, the saloon men carrying the two Versailles precincts and Millville.

Versailles went wet by a majority of 61, and although the vote was taken with the entire county as a unit, four of the saloon men will contest the election in order to present to the Court of Appeals the entire question, including their petition asking for a separate election in the city. In one of the most hotly contested elections ever waged at the polls in Mt. Sterling was the one held Wednesday to decide whether liquor should be sold in that city or not. The wets were victorious by a majority of 41 votes in a total of 850. At each polling place, out side of the fifty foot limit line, a tent had been erected and was occupied by women who sang religious songs during the entire day. -Ky. Observer.

The local option election held in Woodford county Thursday resulted in an overwhelming victory for the temperance advocates, their majority in the entire county being 543. Out of 14 precincts the dries carried 11, the saloon men carrying the two Versailles precincts and Millville.

Special Judge Appointed

Judge Benton, the regular Judge, having refused to serve, Attorney W. B. Moody will sit in the Jett-Hargis damage suit.

W. B. Moody, a very able Attorney of Newcastle, Ky., has been appointed by Governor J. C. W. Beckham as special Judge

in the Jett-Hargis damage suit. Judge Benton having refused to serve. The Governor received notice of Judge T. C. Lewis's resignation, who was the formerly appointed attorney to try Hargis on the charge of murdering Coe. A special Judge will be appointed in his stead.

against Judge Hargis which will be heard in the Clark county Circuit Court soon. The case is the \$10,000 damage suit that Jett filed against Hargis recently charged

Development Convention

Preparations are being made to make it the grandest time the convention has had. Prominent men to deliver addresses.

The time for holding the fifth State Development Convention is growing near, and prospects are that it will be a great meeting. Arrangements at Winchester for the occasion are nearing completion. The program, however is being held up to await the filling of one or two places, and will not be made public until completed, though an excellent one is assured.

Delegates to the Convention this year are not confined to those appointed by the county judges, mayors and Commercial clubs, but any one wishing to attend may be appointed a delegate by addressing the Secretary, Mr. P. J. Altizer, at Winchester, who will have the appointment made, and have invitation, ticket, program, etc., sent in regular course.

The Winchester Commercial Club is going to do all it can to make the Convention a pleasant as well as a profitable occasion. The excursion to Beattyville, there to examine the coal mines, gas wells and lumber plant, and to be entertained with a barbecue given by the citizens of that enterprising mountain town, will be a delightful trip, especially for the delegates from the central and western part of the State.

The business men of Kentucky owe it to themselves and to the State to take an active interest in the promotion of the objects of the Development Association, both locally and by attending the Conventions. We should all work together for the material growth and progress of the State in the exploitations of our resources and the improvement of our industrial and commercial conditions. This is the object of the Development Association, which is headed by men who are devoting their time, money and energy to the movement, without a cent of direct compensation knowing that in helping all the people they are also helping themselves. This County is as good as the best, and our citizens are just as active, progressive and patriotic. Let us show this by sending a large delegation to the Convention this fall.

The railroads have fixed a rate of one fare plus 25 cents for the round trip from all points in Kentucky to the Convention. This is a liberal concession on their part, and actuated by the interest which the railroads themselves have in the work of the Development movement, as they realize that a greater development of the resources of the State means a corresponding increase in their traffic.

SMOKY VALLEY.

R. B. Conley has returned from Manchester, Ohio, where he has been conducting a protracted meeting.

The report of the dead letter office for the month of August shows that 824,622 pieces of unclaimed mail matter were received at the department against 771,018 for August, 1905. The number of letters returned to senders was 297,321 against 156,742 for August 1905, this being 27 per cent. of the returnable letters received last month, while in 1905 22 per cent. were returned. Of the letters opened 6,020 contained money to the amount of 5,644.99.

This can certainly be lessened greatly if the Postmaster General should order that writers of letters shall put their names and addresses on the upper left hand corner of the envelope and Congress pass an act to that effect. This would avoid the sending of some 30,000 letters each day to Washington, where 30 employees are kept opening them and forwarding them at a great expense to the Government. I simply write this as a warning when it don't take address on 1900 envelopes.

W. F. Fuels returned Saturday from the show at Ashland and reports a fine time.

It is said that about 15,000 attended the show at Ashland.

Cynthia Stallard, of Wesleyville, went to Kilgore last week, where her husband, Patton, is teaching. He is near 50 years old and has been teaching in this county for some 20 years.

Woodie Danner visited home folks here from Olive Hill last week.

We are expecting a protracted meeting here soon by Mr. Myres

Miss Mary Kiser, of Greenup, visited her parents at this place last week.

G. W. Hunter returned the past week from a visit to his son Morgan who is at the Colorado Springs for his health. They report him improving.

Teachers' Institute will begin October 1st.

"Sunshine"

The Chatauga and Fair.

In defiance to the bold inclemency of the weather that is and has been for the past week; the condition in this community, the Olive Hill Chatauga and Fair, the first celebration ever held in honor of our city, "opened his doors" Thursday, and as this is the day that we go to press with the paper we are unable to give out any considerable amount of the fair news but there are several minor attractions already open, others are putting up and we understand more coming. A reasonably good crowd was at the ground and we predict quite a successful affair justly considering the disadvantages.

The Telephone Girl.

The telephone girl has no right anyone is bound to respect. She is responsible if the party the subscriber wants to talk to is out, if one of the hundreds of screws connected with the phone is loosened, if the cord in the switch board breaks, for storm, or fire, for sleet for electric current, for lightning, for the fact that the dunned dealer refuses to answer the important creditor, for the fact that the delayed train has made up time, for the fact that the dress did not get home from the dressmaker, that there was a delay in calling the fire department, because it was not called five minutes before the fire broke out. In fact she is to blame for all things evil on earth, under the earth and above the earth. At least that is the conclusion arrived at if we judge by those who forget that she is the girl who toils for her daily bread. That she has the same characteristics, the same aspirations and the same fidelity to duty that other people have. As we forget when the telephone works and remember when it don't, so we forget the thousand kindnesses, accommodations and favors that the telephone girl confers upon us that are outside of the duties of her employment.—Telephone world.

NOTICE.

All persons having claims against the estate of Dr. J. H. Steele, deceased, are hereby notified to present their claims, properly verified, within 30 days from this date to the undersigned John D. Steele duly appointed Administrator of said estate at the office of Dr. J. H. Steele, in Olive Hill, Ky., and all persons indebted to said estate are notified to call at the office of said Administrator and settle with said Administrator and save cost. OLIVE HILL TIMES

J. L. MADDIX, Editor. Published weekly by Times Publishing Co., Inc. Olive Hill, Ky. Entered as second-class matter January 23, 1902, at the Post-office at Olive Hill, Ky., under act of Congress of March 3rd, 1879.

Morris Wilson, who came here some months ago, left last Saturday morning, with his wife, for Fordville, Ky., where he has a position in a bank.

The body of J. S. Perry was brot here Saturday. He died Thursday in Indiana, where he had been for more than a year. He was buried near his home on Smoky.

Ed. W. Gableman was at Upper Tygart Saturday on business of the Portsmouth Harbison-Walker Co. here.

Ollie Young, inspector for the Joyce Watkins Tie Co., was looking after business the former days of last week.

J. B. Eifort was here from Ashland Saturday.

T. M. Myers, lecturer and humorist, of whom we made mention last week and who has been creating much interest at the Christian church here, left Monday morning for Louisville where he will attend a state gathering.

Dr. W. S. Jarvis, was in from Corey, Monday.

R. D. Underwood, was on business here from Resort, Monday.

Willard Stamper has been ailing with a sprained ankle for a few days.

Jeff Caniff was town from Upper Tygart, the latter part of last week.

Ed. W. Gableman and Chas. Bennett, were at E. K. Junction, Sunday.

The Olive Hill Mercantile Co., under management of C. L. White, are now opened up in full blast in the Opera House building and have an exceptional Line of Ladies' and Gents' Furnishings, etc. Call and see them before you buy.

Amos Fultz, has moved from the Plummers' property, on main St. to the Robbins' property.

Walter Vaughan is back from Cincinnati and other points.

Harry Lee, son of Rev. and Mrs. D. F. Lee, of town died, at noon Friday of consumption. He had been in a bad state of health for some months and his death was not a great surprise to many. He was buried in the Pope Cemetery near Leon, Saturday.

W. E. Danner, visited homefolks on Smoky, Sunday.

W. N. King, of Soldier, was in town on business, Tuesday.

Curt Tyres returned Tuesday after a month's 'travels' with the Colcaldin Grant show. He was hired as leading Cornet player.

Mrs. Dr. J. L. McClung left Wednesday at noon for Hurricane, W. Va., to visit her parents.

Trumba & Kennard have arrived from the Big Sandy neighborhood where for some months they have been running their merry-go-round, which will be an attraction here during the Chautauque and Fair. On account of the unfavorable condition of the weather they were not quite so successful in their Sandy districts as they contemplated.

Up to this time we have been very liberal with our columns so far as giving gratuitous notices, local, etc., on special occasions, nor do we feel that you are imposing upon good nature, by asking us to do so, but as a business proposition, we are here to a greater degree, for the purpose of introducing Olive Hill, its advantages and industries, over as large scope as possible. This is a business, too, that can not be steered clear over the shoals without the proper heavy-financial support. It is as unfair and as lacking in business for us to discriminate as it is for the merchant to do so in his line. Accordingly we have closely reconed the cost of publishing our paper, and after carefully weighing all, we have established what we reckon to be a most reasonable scale of prices for advertising in this publication. At this scale you can advertise with us at a profit to yourself and at the same time be lending aid to an agency that is helping to build your town and bringing it before people at home and at a distance.

Your patronage, while greatly appreciated by us, is no more than a duty that you owe, as citizens to home industry, that should be fully executed.

G. W. Counts was up from the Valley Wednesday.

Chas. Cox is negotiating with Jeff Wilcox for the sale of his Mill Branch property.

G. W. and Mrs. H. H. Maddix, Rosedale, stopped with relatives here while on their way to Fleming county Saturday to look at some real estate.

Alfred Rose is able to be out again after a few days illness.

Floyd Cates is touring for his health.

DRIFTING TOWARDS BRIGHT'S DISEASE. Many people who are neglecting symptoms of kidney trouble, hoping "it will wear away," are drifting towards Bright's Disease, which is kidney trouble in one of its worst forms. FOLEY'S KIDNEY CURE stops irregularities, strengthens the urinary organs and builds up the worn-out tissues of the kidneys so they will perform their functions properly. Healthy kidneys strain out the impurities from the blood as it passes through them. Diseased kidneys do not, and the poisonous waste matter is carried by the circulation to every part of the body, causing dizziness, backache, stomach trouble, sluggish liver, irregular heart action, etc. If you have any signs of Kidney or Bladder Trouble commence taking FOLEY'S KIDNEY CURE at once, as it will cure a slight disorder in a few days and prevent a fatal malady. It is pleasant to take and benefits the whole system. How to Find Out. You can easily determine if your kidneys are out of order by setting aside for 24 hours a bottle of the urine passed upon arising, if upon examination it is cloudy or milky or has a brick-dust sediment or small particles float about in it, your kidneys are diseased, and FOLEY'S KIDNEY CURE should be taken at once. G. B. Burhans Testifies After Four Years. "About four years ago I wrote you stating that I had been entirely cured of a severe kidney trouble by taking less than two bottles of Foley's Kidney Cure. It entirely stopped the brick-dust sediment and I have never had a return of any of those symptoms during the four years that have elapsed, and I am evidently cured to stay, cured, and cured by Foley's Kidney Cure to any one suffering from kidney or bladder trouble." Two Sizes, 50 Cents and \$1.00. SOLD AND RECOMMENDED BY DR. M. W. ARMSTRONG, OLIVE HILL, KY.

WHEN YOU HAVE A COLD ALWAYS TAKE Chamberlain's Cough Remedy. It is famous for its cures and can always be depended upon. It counteracts any tendency of a cold to result in pneumonia. IT IS SAFE AND SURE. Price 25c. Larger size 50 cents.

LUMBER. For Building Purposes. J. A. MADDIX.

A Night School

A Night School will open in Olive Hill, Monday night, Oct. 1, 1906, at 7 o'clock, P. M., at the School house. This is an assured fact, as a sufficient number have already signed to guarantee a successful school.

This is an opportunity for the laboring man which seldom comes to him. He who is compelled to labor during the day will now have a chance to regain his lost opportunities and thus prepare himself for life's work. A practical course of study will be offered which if improved may yet mean a fortune to those who grasp it.

It is never too late to learn. There will be pupils in this school from the age of 12 to 53. Some of our greatest men have received their education after they have passed 40; you may do likewise. This may be your golden opportunity.

A Word To Parents

Parents, some of you are keeping your children out of school and depriving them of an education, thus doing them a lasting injury. You probably think you need the fruits of their labor. Possibly you do, but did you ever look into the future and imagine their condition 20 or 25 years from now? They will certainly be unable to meet the responsibilities that shall come to them. While they are assisting you NOW, hadn't you better look after their interest a little and give them the benefits of this grand and golden opportunity? All who attend this school and improve their time will receive a liberal business education.

The expense is only a trifle, but the results may mean a great deal to those who receive it. The person without an education can not compete with his neighbor who has one. The tuition is only \$3.00 per month on entering. So whoever means business and are really in earnest, meet us at the above date and place and we will do the rest.

Bring your Arithmetic, Spelling Book, Tablet, Pen and Ink.

For any other information inquire of

I. H. Boothe, Prin.

INSURANCE. Do you want your home insured? Do you want your family provided for when you die? Do you want your wages to go on when you are disabled or sick? Do you want your horses or cattle insured against death from any cause? Would you be interested in an investment guaranteed to pay 20 per cent.? Call on BROWN & CASSADY, Olive Hill, Ky. With the old reliable Hoffmann's Insurance Agency, Estab'd 1847.

TIMES—

We are reading your paper and enjoying its contents extremely. We hope every true American will read it and show to the world that our home State can produce such an excellent, clean, decent sheet.

The "tender toe" Baptists held one of their annual Associations near here the 14, 15 and 16 inst. Large crowd was present among whom was J. B. Phillips, Clinton, Va.

P. E. Holcomb, of Millstone, visited friends and relatives at this place Friday and returned home Sunday.

School is progressing nicely here under the supervision of M. M. Martin.

Mr. and Mrs. M. M. Martin are rejoicing over the arrival of an eleventh boy.

Y. G. Huse, from Pikeville, has been among us a few weeks. He returned Monday to his place of business.

Monroe Wright and Mrs. Chas. Wright's daughter, Lizzie, it is told, are to be married the 27th.

guard them and heaven be their home.

Corn is good in this part. Stubby.

WANTED—5 or 6 active young men to assist us in selling our limited number of farms we have for sale in Texas. We will give a farm to the hustling man who helps us to sell the largest number of contracts for our Texas farms; to the next largest a town lot, and to the 3rd largest a free trip to Texas. Write Box 138, Olive Hill, Ky., for particulars.

Opportunities For Young Men In Public Life

By S. M. BECKER, the "Boy Mayor" of Milwaukee

HERE are great opportunities in the world for the young man in all the walks of life, but I believe that none offers a greater inducement than that which I have chosen and which, I am happy to say, has been chosen by many thousands of other young men.

To be in public life as an official necessitates the STUDY OF POLITICS IN ITS MANY PHASES. Also, I believe, a young man who adopts a political career should have some natural qualifications. There is plenty of room at the very front of public life for the young man of capacity. To succeed he must have a code containing principles, the first of which must be honesty. No young man should enter politics FOR WHAT MONEY THERE MAY BE IN IT, for if he does he certainly will meet with disappointment.

The young man who enters politics should do so from a sense of duty to his country with a willingness to be misunderstood and misrepresented. If he does not do this he will not succeed.

HE MUST SUBMIT TO GREAT INJUSTICE WHEN HE IS HEAVING TO THE LINE.

In the city of Milwaukee, where I have the honor to hold the highest office within the gift of the people, we have a number of young men in positions of public trust, and my observation has been that EVERY ONE OF THEM, no matter to what political party he may belong, has rendered creditable service to his constituents.

Our people previously placed a little too much confidence in the age of a candidate in selecting most of their officials, but I believe you now realize that it is necessary to employ young blood. Old men have less to look forward to and CANNOT have the ambition of youth. Yet I do not wish to be understood as saying that age does not have its value in many ways. Young men for action, for warfare, for actual work; old men for advice based upon experience.

The young man of today, I believe, is more in the confidence of the voter than he has been in the past. However, we have striking examples in history of exceptionally young men who have left their marks upon the books containing the records of the good work done in the world. I refer to Alexander Hamilton, to the great Pitt of England, to Napoleon and others, but I do not believe that at any time in the history of the world has there been SO MUCH CONFIDENCE in the young man as has recently been shown by the voter.

WAVE SEEMS TO BE SWEEPING OVER THE COUNTRY DEMANDING CERTAIN CHANGES IN THE SYSTEM OF GOVERNMENT OF CITIES, STATES AND THE NATION THAT REQUIRE VIGOROUS, YOUTHFUL MANNERS.

Kaiser William's Greatness

By Colonel JOHN LAMBERT of the American Steel and Wire Company

EMPEROR WILLIAM is the ablest man in Europe, BARRING NONE. I have traveled over the kaiser's country thoroughly and believe he has done more for Germany agriculturally, industrially, commercially AND POLITICALLY than all his predecessors put together. He ought to be called WILLIAM THE GREAT.

He has made Germany the most prosperous nation in Europe. He has perfected the finest army on the continent and is building one of the strongest fleets afloat. Every soldier and ship he has is intended to safeguard his empire, while it systematically PURSUES TRADE throughout the earth. The German consular service is unmatched. To aid in the commercial triumph the kaiser's government subsidizes railways and steamships, promotes exports, fosters trusts and maintains a tariff like a Chinese wall.

Germany is our most formidable commercial rival and will HOPELESSLY BEAT US unless the ignorant enmity of our people to the trusts, railways, the tariff and capital in general is dissipated. England, the only free trade country in Europe, will come to protection OR GO OUT OF BUSINESS. All that America needs to win is to keep hands off individual enterprise and suppress the sensationalists who slander our industries.

SOCIALISM, WHEREVER IT IS PRACTICED IN EUROPE, IS A FIASCO. THE GOVERNMENT OWNED RAILWAYS ARE SO FAR BEHIND THE TIMES THAT THEY WOULD NOT BE TOLERATED IN AMERICA, WHERE TRAVEL HAS REACHED THE TOPMOST HEIGHT OF COMFORT AND LUXURY.

THE WORLD IS FULL OF THE GOOD AND THE BEAUTIFUL, AND THE GRANDEST OF IT ALL IS THE LIFE OF IT IN ITS WONDERFUL FORMS.

AN ODD BIRD SPECIES.

The Deceit of the Courting and the Most of the Nursery Work.

Wilson's phalarope is very common in nearly all parts of the northwestern prairies wherever there are grassy pools or sloughs. It is a quiet, beautiful little bird, with no immediate outward feeling, pretty along the most margins of the sloughs and not distressing itself over our presence. From nearly every standpoint this phalarope, like all other species of its class, is an anomaly among the birds. Apparently a land bird, it has partially webbed or scabbled feet and is a good and graceful swimmer. The female is the larger and handsomer of the pair. She does the courting and the most of the subsequent incubation and nursery work. He is duly meek and obedient, as becomes the husband of an amazon, for so worthy and strenuous a young female as she will not tolerate a backslanging around life when there is plenty of useful work to be done. For her part, to lay eggs so big that the chicks are clothed and able to run at birth is all that should reasonably be expected of her. Their marital relations are otherwise scandalous from our point of view. Two or three very magnificent females are often seen jealously themselves to one little male at the height of the nesting season, and no one seems to be sure whether or not he is the husband of any one or all of them. Anyhow, they are all head over ears in love with him.—Herald K. Job in Outlook Magazine.

INDIAN REMEDIES.

Essential Medical Methods Used in the Far East.

Great virtues are ascribed to the oils and herbs of certain animals. Tiger's claws are in great demand with the common people. One or two claws may be worn near the loins, but should be possessed a larger number the fortunate owner makes a garland of them and wears them round his neck. Deer's horn ground into the paste is an excellent balm for pain and swellings. A more curious use is found for the same substance; it is sometimes made into a powder which is supposed to aid the growth of stunted persons. The joints taken from the long and slender tail of the black scorpion are supposed to be useful at arm's distance when children wear them as their waist thread.

A red or swollen eye is cured by having it touched with the hair or chain of a door. A remedy which I have seen applied with considerable effect in more than one epileptic fit is to place a bunch of hair in the palm of the sufferer. I have heard it said that the fit passes away as readily if the keys are rubbed on the head. A not successful quack remedy in the case of a sprained neck is to use an iron measure for a pillow.

Sore throat is cured by spitting on yellow, quite the simplest and least expensive cure known to the native doctor. Fish's flesh and pig's grease are the best medicines for acute rheumatism.—Madras Mail.

The beautiful girl's sweet smile changed to dark frowns. "You deceiver!" she hissed. "I hate you!" The young man dropped his cane in astonishment. "Hate me?" he gasped. "Why, it was only yesterday you said you loved every hair on my head." "Yes, but not every hair on your shoulder," she returned as she held forth a golden bit of evidence.—Chicago News.

A Pileus People. A member of the Chinese legation, clad in splendid, pale blue silk, was talking "Pins" he said, "cause us today habits. We have no pins in China. The right way is fasten things in with buttons and buttonholes or with loops and frogs. To fasten things with pins is to make use of a quality makeshift. To employ pins is to become lazy and slovenly. We have no pins in China. Certain foreign manufacturers shipped millions of them to us to be used, but we sent them back. We had no use for them. We were too neat!"

Vandalized Improvements.

"One of the lords in my Sunday school class" writes a correspondent, "has been to a musical service and had heard there a violin solo in which a number of the notes were played with finger instead of the bow—pleasant to look at, it is the most beautiful. The boy declared as 'a' place with a bow—ugh in it."—Manchester Guardian.

A HOME IN TEXAS.

Dr. C. F. Simmons, owner of this 60,000-acre tract, having business calling him to St. Louis, has divided this land into 4,200 farms, ranging at 5-, 10-, 20-, 40-, 80-, 160-, 320 and 640 acres each, and a 4,200 lot town site; 25 and 50x140; they sell for \$120, payable \$10 per month, no interest on notes; no tax on lands till paid. You have an equal chance for the big farms with all. Plan of distribution is approved by the government.

This extraordinary production we are offering you for \$120.00, payable \$10.00 a month. A brief history and plan of distribution: Dr. Chas. F. Simmons, of Oakville, Texas, the manufacturer of the famous Simmons' Livestock Remedies six years ago bought for his only son 60,000 acres of land in Southwest Texas for a stock ranch on which he has since placed \$400,000.00 of improvements. Something over a year ago his son was accidentally killed and since his death the father has practically given away the finest body of river bottom land in Southwest Texas.

WHO IS DR. C. F. SIMMONS?

Here is what every county official has to say about Dr. C. F. Simmons and the land he is offering for sale.

"To whom it may concern: We, the undersigned, have the pleasure of a personal acquaintance with Dr. C. F. Simmons for the past six years a resident and citizen of this county, and we know him to be a gentleman and a man of standing and character and reliability and we commend him as responsible and trustworthy in his business dealings. He is the owner of a fine tract of land in this county containing between 55,000 and 60,000 acres. This tract of land fronts on both sides of the Neusee river and contains as fertile a body of land as can be found anywhere in this part of the state. In all our business dealings with Dr. Simmons we have found him to be frank, truthful and trustworthy and it is a pleasure to recommend him to the favorable consideration of all persons having business transactions with him. Very Respectfully, W. A. Hill, Co. Judge, Live Oak Co., Texas.

G. C. Robinson, Co. & Dist. Clerk, W. L. Lewis, Sheriff & Tax Collector, J. H. McMurry, Co. Assessor, C. H. Regan, Co. Physician, Ira Hinton, Co. Treas., W. W. Cause, Atty. at Law.

PRESIDENT ROOSEVELT SAID: "TEXAS IS THE GARDEN SPOT OF THE LOBBY."

SUNNY TEXAS AND SOME OF ITS ADVANTAGES.

No other state in the entire Union shows such a variety of soil and produce as does Texas. There is nothing grown on a farm anywhere in the U. S. which is not successfully grown there. It is first in the raising of cattle, horses, mules, production of peaches and cotton in the United States; second in production of hogs.

It has more timber than Michigan. It has more prairie than Kansas. It has more oak than West Virginia. It has more iron than Alabama. It raises more corn than Illinois. It raises more wheat than Dakota. It raises more fruit than California. It raises more tobacco than Virginia. It raises more melons than Georgia. It produces more oil than Pennsylvania. It raises more grapes than all the balance of the United States together. It has an annual distribution of \$5 for each school child, which speaks for itself, in the matter of fine education of its children. There are no blizzards or tornadoes or earthquakes or cyclones; it's a where flowers bloom 10 months in the year. Where the farmer need not have to work hard six months in the year to raise feed to keep his stock from dying during winter as they do in the north and northwest and where there are no aristocrats, and people do not have to work hard to have plenty and go in the best society. Where the native work less and have more to show for what they do than many other country on earth.

City Real Estate Comp'y.

OLIVE HILL, KENTUCKY.

Hinsman, Ky., Sept. 25.—Dick Hall, one of the factions in the Hall-Martin feud in Knott county arrived at his home with a supply of arms and ammunition, and further trouble between the factions is expected. Officers have gone to make another attempt to arrest the feudists.—Louisville B. Post.

Sargent, Ky., Sept. 25.—The grand jury of Letcher county, after a two weeks sitting, returned 113 indictments, mostly civil and penal in character. Joe Davidson was indicted for beating to death John Trevitt on Letcher county a month ago.—Louisville B. Post.
