

Tolliver Wants Seven More Scalps.

If reports are true, still more disgraceful news may be expected from Rowan County before many days. Craig Tolliver and a gang of forty or fifty followers are reported out in the woods, and a party of the opposing faction, number unknown, is also in the brush. The Sentinel-Democrat, of Mt. Sterling, says: "A reign of terror exists and many have quit business and will leave the county. The report is that Craig Tolliver says he wants seven more scalps, and intends to have them. The Sentinel-Democrat does not pretend to say that the above is reliable, but we give it as it was told to us. A prominent business man of that county who has not been in any way connected with the troubles there, says he intends to leave the county so soon as he can get away. Something ought to be done to insure safety to quiet, good citizens."
