Uncle Sam's Heroes Of The Surf

DR. WILLIAM A. NEWELL
FOUNDER OF THE LIFE SAVING SERVICE

When the Lord breathes His wrath
above the bosom of the waters,
When the rollers are a-poundin' on
the shore,
When the mariner's a-thinkin' of his
wife and son and daughters,
When the little home he'll, maybe, see
no more,
When the bars are white and yeasty and
the shoals are all a-frothin',
When the wild wester's cuttin'
like a knife,
Through the scotch's roar and screech
his patrol's on the beach—
The Gov'ment's hired man fer savin'
life.

—Joe Lincoln.

Today Uncle Sam's hired men for saving life endangered by storms on the coast patrol the beaches from Quoddy Head on the North Atlantic to Cape Disappointment on the North Pacific, and are also to be found on the shores of the Gulf of Mexico and the Great Lakes, swept by storms as fierce as any that ever raged on the Atlantic. Upwards of two thousand men strain their eyes and ears out to sea every minute of the day and night, and nearly every hour that passes these winter days, somewhere along the storm-beaten coasts the members of saving crews are risking their own lives to save shipwrecked fellow beings, or putting forth every human effort possible to warn them that go down to the deep in ships

away from destruction on hidden reef and sunken bar.

Since the day when Uncle Sam began to employ coast guards, his heroes of the surf have saved upwards of a quarter of a million lives. Under the present system of life saving, dating from 1871, they have attended fifteen thousand disasters, and out of the 105,000 lives involved they have been able to save all except one in every hundred. As secondary work, of the \$22,000,000 worth of property imperiled, they have saved an amount valued at \$175,000,000. No other life saving service of the world can point to a record anywhere near comparable to this in epic grandeur. A moment spent in reflection on these statistics will reveal the transcendental heroism back of them. On one hand, the combined elements, in their fiercest mood, roaring destruction; on the other, a handful of men in oils and soap-

ters—a crew of six or seven men; and in the average instance, the little band of fighters overwhelmingly victorious. Where is the much vaunted heroism of battle when compared with the unseen heroism that takes place in the black night on some lonely strip of beach? For while one is the excited heroism of destruction, the other is the calm heroism of salvation.

The Government spends annually

about \$1,750,000 for the maintenance of the service. This is less than one-fourth of the property value saved from the sea in the same period, to say nothing of the lives secured. Each succeeding year finds the sum set aside by the Government for life saving somewhat augmented; the first appropriation called for \$500,000. This was made in 1847, and with it the life preservers along the Atlantic coast were furnished with

means to render assistance in case of ship wrecks. The life saving service proper was not really instituted until the following year, when an appropriation of \$10,000 was made for the establishment of eight life saving stations on the New Jersey coast between Sandy Hook and Little Egg Harbor. And right here let the man who was most instrumental in securing this appropriation—the man who is, therefore, the founder of the life saving service—tell how he came to conceive the idea of the service. It is a story little known yet it forms an interesting chapter in the history of federal life saving. Thus it is told by Dr. William A. Newell, who, though well along in the eighties, until recently was actively practicing medicine in Aikentown, N. J.: "My identification with the life sav-

ing system of the United States was the result of a marine disaster I happened to view during the summer of 1830,

when an Australian brig, the *Coast Barasto*, was wrecked on Long Beach, Monmouth, now Ocean, County, N. J., near the Mansion House, south of Barnegat Inlet, when the captain and crew, thirteen in number, were drowned and their bodies washed upon the strand.

"The wreck occurred at midnight. The vessel struck a sandbar, three hundred yards from shore, and was driven by the force of the violent winds, through the surf, upon the beach, where, when the tide receded, she lay stranded, high and dry. The sailors were drowned while endeavoring to swim ashore from the bar, where the vessel had lodged for a time, and the bodies were found scattered along the beach for more than a mile.

"The bow of the brig being elevated and close to the shore, after the storm had ceased, the idea was forced quickly upon my mind that those unfortunate sailors might have been saved if a line could have been thrown to them across

Oliver Dumbarth rose from his breakfast table... He looked at the woman who sat opposite him... He felt a queer, unaccountable feeling...

On reaching the consciousness which her cousin's words had caused her to lose, Olive Dumbarth's distress was found to be temporary...

CHAPTER XXII During the night following his confession George Bostock continued unconscious of the world around him...

He sat down and pointed to a chair near the foot of the bed... He had cleared the tears from his eyes and braced himself...

"I have no more to say," she repeated, aware of the wrong she had done him and desperately anxious he should believe her...

"Why not continue your investigations if he had never made this confession and brought my investigations to an end?"

"I do not understand," she answered, fear chilling her blood... "I have suspected and been watching him for some time, Mackworth said."

"I assure you it is true," he replied, "and you would not be surprised if I were to tell you that I have been watching him for some time..."

THE NECKLACE PUZZLE

BY SAM LOYD.

HERE is a wonderful Puzzle. A lady had twelve pieces of chain which she wished made into an endless necklace of one hundred links. The Jeweler charged 25 cents each for getting the chain mended. How much should the lady pay for getting the chain mended?

1,000 PRIZES WILL BE DISTRIBUTED

among those sending the best answers to the above Puzzle.

For the best, briefest and clearest correct solution, \$100 in Gold. If two or more correct solutions are of equal merit in respect to brevity and clearness, the \$100.00 will be equally divided.

For the three next best, briefest and clearest correct solutions, \$50 each in Gold. subject to sub-division if there are more than three of equal merit.

A valuable prize ("700 WONDERFUL CHINESE PUZZLES," by Sam Loyd) will also be sent free to the next five best, briefest and clearest correct answers.

This is the first of a Series of Prize Puzzle Contests which the publishers of *Cheerful Moments* are inaugurating to call attention to the unrivaled merits of their publication. If you are good at solving puzzles, you'll surely want to subscribe to *Cheerful Moments* for there will be many chances to win valuable prizes.

The puzzles are devised by Mr. Sam Loyd, the greatest living puzzle expert and mathematician. They are all remarkably clever, and will be found in every case capable of a simple solution.

These contests are open to every one without any charge, and it is not necessary to be a subscriber to *Cheerful Moments* to enter them, on the contrary the publishers of *Cheerful Moments* welcome answers from everyone who reads these advertisements, feeling assured that they will be so interested that they will become subscribers and regular readers of their Magazine.

Cheerful Moments is a publication that has enjoyed a high reputation for many years, and is especially suited for home reading. It devotes a page in each number to a puzzle department, in which it would like every reader of this advertisement to become interested. The determination of the merits of all answers is to rest finally with the Puzzle Editor of *Cheerful Moments*.

The Correct Answer and the Announcement of Awards of above puzzle, and those that follow, will appear only in *Cheerful Moments*. The subscription is \$2 cents a year, or it will be sent four months for 15 cents.

DANGERS OF A COLD AND HOW TO AVOID THEM.

More fatalities have their origin in or result from a cold than from any other cause. This fact alone should make people careful as there is no danger whatever from a cold when it is properly treated in the beginning. For many years Chamberlain's Cough Remedy has been recognized as the most prompt and effectual medicine in use for this disease. It acts on nature's plan, loosens the cough, relieves the lungs, opens the secretions, and aids nature in restoring the system to a healthy condition. Sold by M. W. Armstrong, the reliable druggist.

Train No. 24 had a narrow escape on Monday night from being hurled into the Little Sandy River at Leon. Some time ago the bridge which crosses the river at that place, washed away, and workmen were at once put to work erecting a new bridge, which practically held traffic at a standstill. Work was completed on the structure Monday, and the first train to cross the new bridge, and scenery had the last search passed out of sight of the river when

the bridge again gave away and it is truly miraculous that a great many lives were not sent to a watery grave.

THE GRIP.

"Before we can sympathize with others, we must have suffered ourselves first." So one can realize the suffering attendant upon an attack of the grip, unless he has had the actual experience. There is probably no disease that causes so much physical and mental agony, or which so successfully defies medical aid. Suffering from the grip however, may be avoided by the prompt use of Chamberlain's Cough Remedy. Among the tens of thousands who have used this remedy, not one case has ever been reported that has resulted in pneumonia or that has not recovered. For safety M. W. Armstrong, the reliable druggist.

The flaring mill belonging to Wm. R. Morehead has been damaged to the amount of \$400.00 by the high water.

Willing says his lineshafting, pulleys and belts are put out of commission. Both the brick yards have ceased operations owing to their inability to secure fuel.

Over 1000 loaded cars of freight are standing in the Ashland freight yards, being impossible to move them on account of the high water, and washouts along the road.

For the second time since the high water Watt Fuhs has been compelled to move to a higher elevation.

Quite a disastrous cyclone swept the country near Corey on the morning of January 12th with damaging results. The residence of Chas. and Dan Jessé together with the out buildings, fences and fences, were damaged to the extent of \$800.00. The barn belonging to Joe Wildrun was damaged to the extent of \$50.00. The cyclone also blew the roof off the barn belonging to Bill Phillips and damaged it to the extent of \$50.00. It was a big Kansas affair. It came gently and without warning, did its work of destruction, and took its departure as quickly as it had come. Fortunately no one was injured. There was no insurance on any of the above property.

AMERICAN LADY SPEAKS HIGHLY OF CHAMBERLAIN'S COUGH REMEDY.

Michael Hart, wife of the Supt. of Service at Kingston, Jamaica, W. Indies Islands, says that she has for some years used Chamberlain's Cough Remedy, for coughs, croup and whooping cough and has found it very beneficial. She has implicit confidence in it and would not be without a bottle of it at home. Sold by M. W. Armstrong, the reliable druggist.

COMING EVENTS.

Be careful you are in for a dangerous sickness, as soon as you begin to suffer from headache, congestion, biliousness, unless you quickly take Dr. Caldwell's (Laxative) Syrup Pepsin. This most successful cure for all disorders of the digestive organs, never fails to relieve from all the irritant poisons which clog the bowels, liver and kidneys. Sold by N. M. Hudgins at 50c and \$1.00 per bottle. Money back if it fails.

A non-tariff bill was introduced through by Congressman DeArms of Missouri. It proposes that goods made in this country, protected by a tariff of thirty percent or more, shall bear printed labels stating the extent to which they are protected by tariff. It further provides that it is unlawful except for the one who has purchased such goods for actual use to remove them and that to do so will be punishable by a fine not exceeding one thousand dollars. DeArms says this will educate the people to the precise effect of the tariff, and that they are not to such knowledge as they lack. He is (continued on last page)

BIG CLEARANCE SALE

We find on taking an invoice of our stock that we have too many goods on hand for this time of the year and have decided commencing Jan. 16, 1907, and continuing 10 days, to give the people of Olive Hill and surrounding country the advantage of a genuine CLEARANCE SALE

This is not a "mark up in order to mark down" sale, nor is it a sale of old rubbish, junk, and out-of-date stuff that has accumulated for years. We have been in business here but a few months, consequently our goods are all new and up-to-date, but we have too many of them: must make room for Spring goods that will soon begin to come in. During this sale cost is not considered on many articles we offer you. This you will find to be absolutely true by comparing with goods and prices elsewhere. Goods are high, very high, and getting higher, as every merchant will tell you if you will but take the trouble to ask him: we mean Dry Goods, Notions, Shoes, Etc. We have on hands a big store full of the above goods that for 10 days you can buy at low and very low prices.

This means much to you; that is if you are awake to your interest and to the interest of your family and will take advantage of it.

INTERESTING NEWS

It will no doubt be of interest to the readers of the Times to hear, that at last a genuine cure for Constipation, Indigestion, Liver complaint, Headache, and Biliousness, has been found in Dr. Caldwell's (Laxative) Syrup Pepsin. It is a pleasant, tonic purifying syrup, with a mild action and no bad effects. Sold by M. W. Armstrong. Money back if it fails. 5c and \$1.00.

R. S. Knipp will start for Texas next week to look after his land in that State. If things look favorable to Mr. Knipp he will move there.

The recent heavy rain fall has done a great deal of damage around here. Several land slides of immense proportions have been reported. If the farm belonging to Mill Erwin keys on a log for the next few days at the same rate at which it started, he will be compelled to get a search warrant to find it.

One of the most picturesque sights imaginable is the land slide, or rather the cave in which occurred on his farm Tuesday night. The sight which one observes while gazing on this spectacle is one which almost defies description. As you stand and view the yawning chasm, which is at least seventy five feet deep, it dawns upon you how terribly ignorant we all are of our immense surroundings. Quite a number of opinions have been given as to the cause of the slides, but the one real cause is without a doubt the excess of water.

The residence of C. C. Madix in old Olive Hill was moved several inches by the land slide Tuesday night.

The C. & O. Rail road will suffer a loss from the recent heavy rains, owing to the fact that the traffic on this division has been tied up for more than a week, and there is no coal, obtainable, the passengers are beginning to suffer. In case it should turn out that the result would be appalling.

The property belonging to Dr. Clay on North Main Street is in danger of a slide. The foundation has sunk at least a foot beneath the front of the house.

An opinion which excites an opposition at all is not worth having.

W. J. Canfax was here from Lovington this week.

The way the Olive Hill Normal has started off it will be a glorious success. We sincerely hope so for we need that new college which is being talked of.

\$10,000 FOR COURT HOUSE

Olive Hill and Vicinity Will Donate That Amount for County Seat.

A PROPOSITION THAT MAKE TAX-PAYERS THINK

A Large Majority of Carter County Voters Want a New Public Building. Here Is the Chance to Get One For a Mere Bagatelle!

Do the voters of Carter County want a new \$17,000 or \$18,000 Court House with an outlay of not one iota more than \$5,000 of the County funds, by erecting that building in Olive Hill? Or do they want to pay \$15,000 (with additional appropriations for grafters) for a \$10,000 or \$12,000 house on the present location. Mr. Taxpayer here is easily digested food for thought.

Olive Hill wants the Court House built in Olive Hill and her citizens are anxious to and will give \$10,000 toward defraying the expenses of erecting such a building. Senator Whitt told a TIMES reporter Saturday that \$10,000 for \$1,000 was ready at any time for that purpose, and that check is as good as the gold and his word is his bond. A. J. Stamper, who owns the Stamper Hotel building and the Alpha Opera House building and has other large real estate and business interests in this part of the county, is another one who will come up with a large size check for the same purpose. R. A. Carpenter, a well-known capitalist, who has large holdings in the immediate vicinity, is eager to put up as much as the next man to help the good cause along. We could name fifty well-known men who have their hands on their pocket-books ready and anxious to empty their contents into the hat to raise the \$10,000. In a few minutes talk and investigation, the first of the week, we found the amount could be raised in one hour, in Olive Hill alone, for the purpose of changing the location of the Court House. These men are business men, whose integrity and honesty of purpose have never been questioned and who will raise the fund as they have signified their intentions to do. They know, as everyone in the county knows, that by locating the county seat in a good, live town, where hustle and vim are the watch words of its inhabitants, would enhance the value of every foot of ground and increase the volume of all business interest of whatever nature in the entire county. In fact it gives the county a prestige that cannot be reckoned in dollars and cents.

You tax payers, are told by Grayson people that if the building is erected without a vote, it will cost you nothing, as you are now paying all the taxes that can be levied upon you; that is all that is to be gained. Say we build a house at Grayson for \$15,000, where is that sum to come from, if not the pockets of the tax payers? There is \$15,000 that will not be spent in making roads better, safer bridges, better culverts, etc. It will simply be \$15,000 more on the debt of the county, which is now between \$12,000 and \$15,000, thereby increasing that same debt to \$30,000. By building a \$15,000 house in Olive Hill more than \$10,000 can be saved, why? Because we have the brick on the ground thereby saving hundreds of dollars in freight; the rock is here, tons of it and ready for use without loading it on cars, and hauling it on a jirkwater railroad; also the freight on lumber would be considerable lower to this point over one road, than to have to be shipped over two roads where one of these roads only run trains when the sun shines and never on Sunday. There are hundreds of ways where money could be saved by building in Olive Hill. By giving \$10,000 we come within the law in the matter in which Grayson cannot do. The law reads as follows: "No county, city, town, tax district or other municipality shall be authorized to become indebted in any manner, or for any purpose, to an amount exceeding, in any year, the income and revenue of such year."

In erecting a building in Grayson it would be a direct violation of the above law as quoted; because the sum of \$15,000 added to the expenses of that year, would exceed the revenue. But Olive Hill has overcome this obstacle by donating two thirds the entire amount necessary to build.

Has Grayson signified her intention to give anything toward erecting the proposed building, which she knows better than any one ought to be built. Not a sue markee has been offered by the loudest calamity howlers in that section. They have kept particularly quiet on that subject and are trying to rush the matter through the Fiscal Court and

hold up the county for a good round sum. There is not one good reason that Grayson can advance why the court house should be located there. If there is such a one we would like to know what it is.

Mr. W. L. Huff, a member of the Fiscal Court, who is enterprising enough and a sufficient good stiff back-bone to be in favor of a new Court House, in an article in a county paper, says in part:

"Does a Board of Trustees of our common schools go around and ask the people if they want a house built, when there is one to be built? No, they get together, levy a tax, build the house and then the people all agree that it is the very thing they should have done. So let us get together, make appropriations to build a Court House, and erect a modern and commodious temple of Justice, one that our children will look on with pride, and I will guarantee that there is not a man in the county who will kick against it; it would not increase our taxes one cent, but it would increase the value of our property ten fold to the amount it would take to build it."

"Or, if we have not the energy or the back bone to build, let us step out of the way and let others in who will do something. The people of Olive Hill would build a Court House at the snap of a finger (and snap it themselves.)"

I live just as close to Olive Hill as to Grayson. I have more interests in Olive Hill than in Grayson. My only brother is located there. I have a daughter living there. I expect to buy property there in the near future so if the people of this end of the county do not want to make any improvement, I propose to join in with the people here and snap my thumb in them.

"If the editor sees fit to publish this letter, I would like to hear from some, or all, of the other Magistrates on the subject. If they are for it, let them give their reasons; and if they are against it, say why."

Mr. Huff writes intelligently on the matter, and when he says Olive Hill would build a Court House at the snap of a finger and snap it themselves, he hit the nail on the head. Just give us the chance, Mr. Huff, and we will snap that finger so loud that it will be heard all over the village of Grayson and strike terror to the calamity howlers of that hamlet.

Every farmer, who has been approached on the subject says to the man, "Build that Court House in Olive Hill, where there is some enterprise and energy to the people. It is a better town and easier of access than the present location."

Olive Hill people must ginger up a little more and work a little harder and it will not be a great while before we reach the goal of our efforts.

In a few minutes talk and investigation, the first of the week, we found the amount could be raised in one hour, in Olive Hill alone, for the purpose of changing the location of the Court House. These men are business men, whose integrity and honesty of purpose have never been questioned and who will raise the fund as they have signified their intentions to do. They know, as everyone in the county knows, that by locating the county seat in a good, live town, where hustle and vim are the watch words of its inhabitants, would enhance the value of every foot of ground and increase the volume of all business interest of whatever nature in the entire county. In fact it gives the county a prestige that cannot be reckoned in dollars and cents.

You tax payers, are told by Grayson people that if the building is erected without a vote, it will cost you nothing, as you are now paying all the taxes that can be levied upon you; that is all that is to be gained. Say we build a house at Grayson for \$15,000, where is that sum to come from, if not the pockets of the tax payers? There is \$15,000 that will not be spent in making roads better, safer bridges, better culverts, etc. It will simply be \$15,000 more on the debt of the county, which is now between \$12,000 and \$15,000, thereby increasing that same debt to \$30,000. By building a \$15,000 house in Olive Hill more than \$10,000 can be saved, why? Because we have the brick on the ground thereby saving hundreds of dollars in freight; the rock is here, tons of it and ready for use without loading it on cars, and hauling it on a jirkwater railroad; also the freight on lumber would be considerable lower to this point over one road, than to have to be shipped over two roads where one of these roads only run trains when the sun shines and never on Sunday. There are hundreds of ways where money could be saved by building in Olive Hill. By giving \$10,000 we come within the law in the matter in which Grayson cannot do. The law reads as follows: "No county, city, town, tax district or other municipality shall be authorized to become indebted in any manner, or for any purpose, to an amount exceeding, in any year, the income and revenue of such year."

In erecting a building in Grayson it would be a direct violation of the above law as quoted; because the sum of \$15,000 added to the expenses of that year, would exceed the revenue. But Olive Hill has overcome this obstacle by donating two thirds the entire amount necessary to build.

Has Grayson signified her intention to give anything toward erecting the proposed building, which she knows better than any one ought to be built. Not a sue markee has been offered by the loudest calamity howlers in that section. They have kept particularly quiet on that subject and are trying to rush the matter through the Fiscal Court and
