Official Organ of Rowan County

Published each Thursday morning at Morehead, Rowan County, Kentucky, by the
INDEPENDENT PUBLISHING COMPANY
WILLIAM J. SAMPLE and GEORGE M. CALVERT
EDITORS AND PUBLISHERS
Office and Plant, Corner Carey Avenue and Railroad Street. Telephone 235.
Entered as second-class matter February 27, 1934, at the Postoffice at Morehead, Kentucky, under Act of March 8, 1879.
SUBSCRIPTION: In Kentucky, \$1.50 per year; outside Kentucky, \$2.00. ADVERTISING RATES MADE KNOWN UPON APPLICATION.

THE INDEPENDENT makes no charge for death notices and obituaries nor for the publication of anything in furtherance of the cause of the Church and Christianity. Nothing for patriotic enlightenment, for education, for charity and the general human uplift.

THURSDAY MORNING, APRIL 16, 1936

TO SUBSCRIBERS AND CONTESTANTS

Some two weeks ago The Independent announced the opening of a circulation drive to its readers for the purpose of getting a bigger paid-up subscription list. Today marks the beginning of the third week. These contestants that have so willingly registered their names are scattered from one end of the county to the other. Not in great numbers, but in various localities so that there will not be the usual conflicts that have taken place in the final weeks of the drive.

The Independent wishes to say that it is not taking it upon itself alone to sponsor such an extensive drive for a subscription list, but has employed the Liner Circulation Service for this purpose. This company has been in campaigns for over 30 years for newspaper offices all over the country.

The Liner Circulation Company has been very highly recommended to us through the National Editorial Association. We are proud to say that their representative, Mr. Robert Fitch, is of the type of gentleman that will take it upon himself to make this campaign one of the most honest and clean-cut campaigns that any person would have no fear to take part in.

Everything that has been said in regard to the prizes and awards will be carried out to the utmost. There is remuneration for every contestant and a prize for the final winners that lead in the last week of the campaign. The Independent is in Morehead as a business establishment and their guarantee is that each contestant will receive just what has been granted them for their work.

SPRING HOUSECLEANING FOR MOREHEAD

Not always does one realize what this time of the year is meant for, because the things that have gone untouched for several months are gone from our minds and the weather makes us turn our thoughts to other things such as business and pleasure.

At this time of the year we must turn our thoughts toward the annual work that we spurn so often. Although it must be done, for it will not be cared for in almost another year. The above mentioned paragraph brings into our minds nothing more than the annual Clean-up and Paint-up campaign for each city in the state.

Governor Chandler has recently set aside April 13 to April 25 for the purpose of making our homes and cities a better place in which to live. In the governor's proclamation he states and calls upon the citizens "to do their part in this worthy movement of cleaning, painting, planting, repairing and general rehabilitation."

These campaigns are not only for the purpose of beautifying our own homes, but to create better health for others as well as ourselves, bring about safety, to stimulate civic pride, and stimulate interest that has fallen by the wayside. Morehead is known over the state for its state institution and on May 5th, the college is to be the host, as well as Morehead, for its official inauguration of the new president that has been in office only a short while.

On this day people will come here from all over the state to witness the academic ceremonies that will take place. We must take it upon ourselves to prepare our homes and business establishments for the occasion. To do this means more to the elements of a town than we would realize at first thought. It means that these people will probably spend money in sending their children or relatives to this city for four years, which in turn will pay the citizens of this township to make a striking appeal for these visitors when they do arrive.

This period of time is very short to do the things that should be done, but to clean up a city it takes little time when the owners and renters take it upon themselves to improve their property. Each year after Clean-up and Paint-up week has passed it is easy to see that Morehead is one of the best towns in which to live. Why not start today in contributing your part toward the drive that costs so little and means a great deal more in the general appearance of our city for the coming summer months?

MOREHEAD'S RECENT EXPANSION PROGRAM

The people can hardly gather the fact that there is over a million-dollar program going on in this county at the present time. Building has increased to the extent that there is hardly enough workmen to carry out the program. Construction of buildings and homes are well on their way since the arrival of spring.

Beginning on Monday morning, the Struck Construction Company started the breaking of ground for the new college administration building. The company comes from Louisville with a high reputation for this type of building. The moving of almost a mile of fill over the tunnel of the Chesapeake and Ohio railway has been started for some time, but inclement weather has curbed their work to a large extent. In this project the Waugh Brothers Construction Company of Fayetteville, W. Va., has the contract. They also come highly recommended for this type of work.

Then, too, Morehead continues the work and construction of dwelling houses that has been going on for an extended length of time. Morehead needs many more of these homes with the increased population that has caused a shortage of homes. This city should feel very proud of itself for supporting so many projects which contribute much to the support of its welfare and upkeep.

HOGS SHOULD BE MARKETED AT SIX MONTHS

Time being important even to a hog, Grady Sellards, University of Kentucky, has written a circular on limiting a pig's life to

six months. Hogs should be marketed within six months after birth.

Methods which Mr. Sellards prescribes produce pigs weighing 200 pounds within the half-year period. On some farms in the past, pigs have had the freedom of the place for a year or even two, and sometimes loaf about until almost hoary with age. The expert discourages this practice, which fails to produce the maximum profit from the "porkers."

Purebred stock, well-cared for, begets the most successful pigs. In addition maturity is achieved with the minimum degree of feeding.

Farmers Are Not Asked To Sign Contracts

Community Committees To Explain Data Required For Growers

CLAIMS PAID BY S. C. A. A.

Farmers planning to qualify for benefit payments under the Soil Conservation and Allotment Act, recently passed by the U. S. Congress, will not be required to sign contracts. Conservation claims will be paid by the S. C. A. A. to the growers after local committees and supervisors have attested to compliance under the Federal regulations.

Forms required by the agency include a work sheet, which will list the acreages and establish a base, and an application for payment of the benefits accruing from conservation farming.

The tobacco base is that established for 1929-39 under the AAA (recently declared unconstitutional by the Supreme Court) program, or in the case of a non-signer the acreage ordinarily grown, subject to such adjustments as the local committee may make. For other crops the base is the acreage grown in 1925, adjusted by the local agency.

Members of community committees and clerks in the county agents' office are required to explain the use of the work sheets and other forms to growers.

In the case of corn and small grains, sweet sorghum, soy beans harvested for hay and seed, potatoes and sweet potatoes and other soil-depleting crops, farmers will receive payments per acre according to the ratio of productivity as compared to an average of \$10 an acre for the whole country.

Under the terms of the act, 30 per cent of the acreage formerly planted in soil-depleting crops may be changed to soil-building plants with a maximum benefit payment of \$1 per acre. A farmer who has a soil-depleting base of 100 acres, and therefore could be paid for shifting up to 15 per cent of that base, would need to have at least 15 acres in soil-conserving crops. The only exception to the rule is in the case of tobacco and cotton growers who would not be required to transfer as much land to soil-building crops.

EASTER SERVICES AT CHRISTIAN CHURCH

Last Sunday was another big day at the First Christian church. Easter services began at 6:30 with the sunrise service. The Bible school reached another high mark in attendance and offering. A great audience was present for the morning preaching service. The choir, under the direction of Prof. W. C. Lapping, sang a beautiful Easter anthem. At the conclusion of the morning preaching service, there were five confessions of faith. At the night service there was another confession of faith, making a total of six for the day.

The divisional leaders made their seventh report in the eleven weeks financial campaign. The total amount is far beyond the \$500 mark. Division No. 3, Mrs. W. C. Lapping, leader, maintained its lead, but other divisions made good gains. There are four more reports to be made when the campaign will close Mother's Day, Sunday, May 10, with a great service as a climax.

Next Sunday is to be another big day. The Bible school, which begins at 9:45, is expecting another big attendance. It is expected that the reports of the divisional leaders will raise the total receipts to a high new level. Dr. G. H. Fern's sermon subject will be "The Greatest Thing in the World." The night combination services begins promptly at 6:30. Elijah Hogge is the leader for the young people. The young people's contest is close and very interesting. Another count will be made Sunday night. Dr. Fern's part of the night service will include a baptismal service. The public is invited to witness this solemn service.

"egg-turner" the process of incubation has been greatly simplified, requiring little attention.

DEMOCRATS CELEBRATE

Morehead's Young Democratic Club sponsored a Jefferson Day dance here Monday night as a part of the nationwide celebration of the birth of Thomas Jefferson, twice president of the United States, and originator of the principles of the Democratic party.

MILLER TO SPEAK

Dr. Frank B. Miller, education instructor at the College, will speak at Minerva High School Friday of next week. His subject will be "New Movements in Education and Their Grattifying Results."

While talking about the Constitution, and the rights it guarantees, let's not forget the promise to all men in regards to life, liberty and happiness.

Poultry Specialist Inspects Invention

The much-publicized "egg-turning" device for incubators recently perfected at the college by Agriculture Department Head H. C. Hagan and Dr. J. G. Black drew the interest this week of the University of Kentucky Experiment Station.

Dr. J. H. Martin, head of the department of poultry husbandry, has announced his intention of visiting the campus today in order to inspect the novel invention, on which the inventors plan to obtain a patent in the near future.

According to report, Dr. Martin will install the equipment in the university laboratories if he receives a favorable impression of its practicality while here today. As a result of the installation of the

"The Ford V-8 uses less fuel and oil for the power it gives than any other car we have ever made

AND ITS UP-KEEP COST IS THE LOWEST"

ENTHUSIASTIC sales talk often begins and ends with gasoline mileage. Some salesmen would like you to believe it is the whole story of automobile economy. But drivers ought to know better. For, the fact is, it's way down the list.

The big items of car economy are low first cost, low up-keep cost and low depreciation. Savings here can make a great deal of difference in cost per mile. Gasoline mileage is more of a talking point than an economy factor.

Check up and you will find that the difference between 17 and 19 miles a

gallon is less than \$10 for a whole year's average driving (8400 miles at 18 cents a gallon). Here are the big items that make the Ford the most economical car: More value for every dollar you pay. Lower cost for repairs and service. Long life. Slow depreciation.

Quality means economy and the 1936 Ford V-8 gives you more real quality than any other low-price car. No other car under \$1645 has a V-8 engine. No other low-price car has Center-Poise Riding, safe, sure mechanical brakes and Safety Glass all around at no extra cost.

\$25 A MONTH WITH USUAL LOW DOWN-PAYMENT, BUYS ANY NEW FORD V-8 CAR ON NEW U.C.C. 1/2% PER MONTH FINANCE PLANS.

SCRANTON AND MENIFEE COUNTY NEWS

Quite a crowd visited the Murder Cave near here Sunday. Mr. and Mrs. Troy Sorrell are the proud parents of a little daughter, born Thursday. The little one has been named Ruby Jane. Mr. and Mrs. Burton Ailey and family of Farmers spent the weekend with Mrs. Ailey's mother, Mrs. Sally Montgomery. Vinson Montgomery was in Mt. Sterling Wednesday on business. Mr. and Mrs. Ed Myhrer and family left several days ago for Kianbell, Ind., where they will spend the summer. The little son of Mr. and Mrs. Leonard Patrick, who has been very ill, is very much improved. Mr. and Mrs. Tony Welch are the proud parents of a new baby boy, born Thursday. The little one has been named Ralph Edward. Mr. and Mrs. Farris Gillespie and son of Middletown, Ohio, who have been visiting relatives here the last few days, returned home Monday. Mr. and Mrs. Pink Charles and daughter have moved to the Cleve Ginter farm near Leatherwood. Proctor Fox and Charles Muncie of the CCC camp here called on Misses Anna and Carrie Rose Sunday afternoon.

Catlyn Hunt, who is attending school at Frenchburg, spent the past week at home. Ova Patrick, Mr. and Mrs. Merrill Dunfee, Kate and Flora Montgomery were shopping in Mt. Sterling Wednesday. Chester Robinson and Omer Gillespie left Sunday on a business trip to Middletown, Ohio. S. L. Redwine, Ed Hoffler and Richard Nestleroute of the CCC camp at Frenchburg were visitors on Lower Beaver Sunday. Russell Johnson, Kelly Patrick and Leonard Patrick were in Mt. Sterling Wednesday on business. Misses Kathleen Crowe, Flora Montgomery, Opal Patrick and Kate Montgomery and Russell Johnson, Dun Sorrell, Leslie Johnson and Kelly Patrick were among those who attended the party Saturday night given by Misses Dora and Myrl McFarland. Mr. and Mrs. D. H. Gillespie and daughter, Lela, left Monday for Middletown, Ohio. Mrs. George Robinson and Miss Mildred Robinson of this place are visiting relatives in Middletown, Ohio. Floyd Chensault of Pine Ridge has been visiting relatives here. The recent rain and high waters have done considerable damage in this community.

Is War the Only End of War?

(By John Atkinson)

It has been over 17 years since the Armistice was signed, officially ending the World War. But is the war over? We are afraid not. Of course, there has been no actual combat, but we have certainly been witnesses during the past few turbulent years to the battle of words, and what has been fought in Europe. Today the problem is no nearer a solution than it was fifteen years ago. With the recent re-entry of the Rhineland by goose-stepping German troops was brought a deluge of disapproval heaped upon Germany and Hitler by the majority of the countries of the world. Questions have been asked, threats made, conferences held, bitter words spoken, but the Germans are in the Rhineland to stay.

For years France has been violating the Versailles Treaty and the Locarno peace pact by building a heavy line of fortifications along the German border. These immense underground forts have cost billions of francs and France will not listen to British proposals to create a neutral zone fifteen miles east and west of the German-France border to be policed by a League of Nations force. It seems as if France would rather become embroiled in another World War and spend more millions of dollars than to evacuate these forts.

France has heavily fortified the border, stretching from the Duchy of Luxembourg east to the Rhine in the region of Karlsruhe. From that point south to the Swiss border she has erected a line of fortifications less strong but entirely capable enough in case of an armed conflict.

Friends of Ed McFarland are glad to learn of his recovery from a severe illness which caused him to be confined to a hospital for several weeks. He is now back in the CCC camp at Frenchburg.

Warren Gillespie of the CCC camp here visited his parents, Mr. and Mrs. J. E. Gillespie, Wednesday evening. Miss Kathleen Crowe was the guest of Miss Opal Patrick Sunday. Misses Mae Williams, Mildred Griffith, Geneva Stinson and Dessie Sorrell, who are attending school at Frenchburg, spent the past week at home.

Floyd Rose made a business trip to Ohio this week.

Cecil Lawson of Big Woods was on Lower Beaver Wednesday. Mr. and Mrs. Leonard Patrick and family are planning to leave within the next few days for Indiana, where they will spend the summer.

Since the World War immense forts have been built in France at Montigny, Thionville, Verdun, Metz, Nancy, Toul, Epinal and Belfort. These are in violation of post-war treaties.

Under the Versailles Treaty Germany was forbidden to maintain or construct any fortifications, either on the left or right bank of the Rhine, to the west of a line drawn 50 kilometers (31 miles) east of the river. Germany has adhered to this part of the treaty and still does not have any forts in that region, although at present maintaining troops there. Germany has established nine principal garrisons in the Rhineland at Freiburg, Mannheim, Mainz, Aachen, Coblenz, Metz, Dusseldorf, Trier and Saarbrucken.

All these threats of a general European war we hear are so much poppycock. Lloyd's, large insurance house of London, is today quoting odds of 9 to 1 that we will not have a European war for many years. The Ambassador to Great Britain, Robert W. Bingham, in an address delivered a few weeks ago in Louisville, said that the immediate danger of war has passed.

Although the Reich is continually breaking the articles of the Versailles Treaty and the Locarno peace pact, Hitler will not go too far. Germany is not ready, and the odds are stacked heavily against them. Since the great war France has continually been signing alliances with other European nations and today Germany is practically surrounded by the French allies.

Look at a map of Europe. To the west of Germany is, of course, France and Belgium; to the south, Austria, Hungary, Italy and Yugoslavia; to the east, Poland and Czechoslovakia, other French allies are Russia, Greece, Roumania and Turkey. France is, today, working on treaties with the three sister nations to the north of Germany—Lithuania, Latvia and Estonia. So you can well see that Germany is practically surrounded.

The British Empire is not as ready today to join up with France as in 1914. It is said the majority of the British people are pro-German and the British Foreign Secretary is acting accordingly.

Germany, at present, can only put 100,000 trained men in the field, with a trained reserve of 1,000,000 men, and some 4,000,000 untrained reserves. France can throw some 584,300 trained men to slaughter and has a trained reserve force of 6,328,000 to draw on. Combining the

French forces with their allied armies the total is 3,188,436 trained men, and together with the trained reserve the astounding total is 38,888,874, which includes the Soviet force of 16,210,000 men. And all that against Germany's puny 5,100,500.

And what of the air forces? Germany has 600 combat planes against the 5,000 of France and her allies. And that doesn't include the Soviet air force, the figures being unavailable.

Now use some good common sense. Does it seem to you that Germany wants to become engaged in another war with the cards stacked so heavily against them? Of course not. The principal reason for the "New Watch on the Rhine" is to give the German people confidence in themselves—to restore some of that Teutonic stamina forever instilled in the German people and lost after the war. Because when a nation becomes confident in itself there are no economic problems which it cannot take in its stride.

As long as France can hold her allies there is no danger of a European war with Germany as the nucleus. So we ask the question again, "Is War the Only End of War?" and the answer is up to you.

IMITATION WOOD PANELS MAKE CHARMING ROOMS

Where inflammable materials are prohibited, the charm of wood paneling may still be obtained by using one of the compositions that simulate wood of various kinds. Everything from the simplest perpendicular pine paneling to the most intricate linen fold carving of the Elizabethan period may be had. So accurate is the effect that only careful inspection would disclose that the material is not actually wood.

Another development is wood veneer so thin that it is mounted on cloth and is put up like wall paper. This comes in many types of wood, and used with skeleton wood frame paneling gives very satisfactory results. It can also be used without the skeleton frame if wood plank effect is wanted.

Still another product is wall paper in imitation of wood. So a paneled room that to many seemed just a lovely but unattainable dream may become a realization. The modernization credit plan of the Federal Housing Administration may be used to create a room of this type.

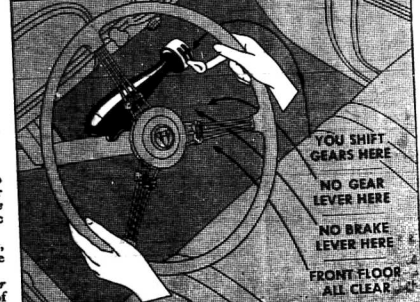

It does a man good, once in a while, to take a rest, what the average housewife wants to know is why the man doesn't recognize the same saying it true about her.

Education Is Believed Aided By Mrs. Stewart

Adult education in Kentucky, W. P. A. Administrator Ted Crosthwaite believes, has been the result of the efforts of Cora Wilson Stewart, whose "moonlight schools" were the first of their kind in the entire state. Mrs. Stewart is now a member of the staff of the Bureau of Education in the Department of the Interior, and it is thought by local authorities that she has influenced the present administration in establishing the adult schools in order to reduce illiteracy in Kentucky and other states.

W. P. A. Registers 226 Adults, Schools

Kentucky Receives \$600,000 As Share In Illiterate Work

Two hundred and twenty-six are enrolled in three divisions of the Works Progress Administration Adult Education schools in Rowan county, according to Ted Crosthwaite, county supervisor. A proportionate allotment of the \$600,000 grant to Kentucky by W. P. A. is being received in this county for the instruction of illiterates.

One-fifth of the entire government outlay for adult education has been allotted to Kentucky, because of this state's low ranking—47th place, according to the last estimate.

Fifty-one adults are enrolled in reading and writing classes, 40 in shorthand and typing, and 125 in general education work, which includes sewing, handicraft and elementary subjects. Ten teachers are employed by the local agency in instructing the pupils.

Education centers are established at Morehead, Farmers, West Morehead, Clearfield and the Citizens Conservation Corps camp.

Director Crosthwaite was in Louisville Wednesday conferring with W. P. A. bureau chiefs and attending conferences.

MSTC Head To Take Official Seat

(Continued from Page 1)

President Babb, who was invited to accept the presidency by the college board of regents last year, will deliver his inaugural address on "The Sphere of the Morehead State Teachers College in the Realm of Higher Education in Kentucky." Arrangements for entertaining official and non-official guests to the ceremonies are being made by faculty committees.

Teachers, Students Attend KEA Meet

College Classes Dismissed For Spring Vacation; To End Monday

Classes were dismissed at the Morehead State Teachers College yesterday at noon for the 65th annual meeting of the Kentucky Education Association. Teachers and students from the college and Rowan county are expected to attend sessions of the convention. Class work will be resumed Monday morning.

Dr. Harold Rugg, Columbia University, is scheduled to deliver the principal address at the second general session in Memorial Auditorium this morning. His subject has been announced as "Education in a Changing Democracy."

Others who will be heard are Senator Gerald P. Nye, North Dakota; Gov. A. B. Chandler, Superintendent of Public Instruction Harry W. Peters, William McAndrew, editor of "School and Society"; Virginia Superintendent of Schools David Hall and Agnes Samuelson, president of the National Education Association.

Many members of the Morehead faculty, including President Harvey A. Babb, are scheduled to appear on the programs of the sectional meetings.

LOCAL HEALTH OFFICIALS ATTEND MEET TUESDAY

Dr. T. A. E. Evans, Health Officer of Rowan county; George Bailey, Sanitary Inspector; Mrs. Raymond, Public Health Nurse, and Orin Raymond attended a meeting of the Big Sandy Valley Public Health Association on Tuesday. The meeting was held in the City Hall at Ashland.

SON-IN-LAW OF MRS. BRUCE DIES

Pneumonia claimed the life Saturday of George Funke, Cincinnati, who was a son-in-law of Mrs. G. W. Bruce, Morehead. The Bruce family attended the funeral services. Only six weeks ago a grandson of Mrs. Bruce and step-son of Mr. Funke, Clyde Howard, died at the Funke home in Cincinnati of pneumonia.

20 Meetings To Be Held By County Agent

Twenty meetings will be conducted by County Agent C. L. Goff in Rowan county within the next ten days for the purpose of explaining the procedure to the farmers of securing payments under the Soil Conservation and Allotment Act.

(Application forms will be secured by the office this week in Lexington, and farmers desiring to comply with government regulations are requested to call for them there.) Meetings of farmers have already been held at Big Brushy, Perkins and Bluestone. Other meetings are scheduled for Farmers, Clearfield, Shaker, Little Brushy, Smiley, Johnson, Cranston, Waltz, Pine Grove, Clark, Holly Fork, Glenwood, Little Berry, Cogswell, McKee, West Cox, Bradley, Elliottville, Minor and Poplar Grove.

Health Department Visits WPA Center

Mrs. Ethel Kessler Supervises Working Force of Ten Women

The work room of the W. P. A. Sewing Project was visited and inspected by the health department on Monday, April 6, 1936. This Work Center is located on the first floor of the Court House. Mrs. Ethel Kessler of Morehead is the County Supervisor of the Sewing Projects in Rowan county.

The working force is composed of ten women. Each woman has a sewing machine, and at the time of the visit was made all ten machines were in operation.

These women are taught cutting, fitting, repair of clothing, remodeling of garments, how to make complete family wardrobe, such as women's clothing, tailored garments, suits for small boys and girls, layettes and all kinds of clothing, also rug making, and various other articles for use in the home is taught.

Each worker keeps a notebook, in these books samples of all types of work taught in this center is shown. Several of the finished garments, and two of the notebooks were taken by the Area Supervisor to be shown at other work centers. The clothing made at this center is very neat and especially the children's dresses are daintily trimmed. All garments are pressed before being sent out for distribution.

Two large work tables are provided. The windows have nice clean drapes made out of light crisp looking print. Bulletins are displayed on the walls. Sewing pockets to care for the patterns are supplied.

The work room, which is large, light and well ventilated, with a furnace heat, was found to be in a very satisfactory sanitary condition.

Sandy Hook & Elliott County News

Mrs. H. W. Mobley, Correspondent

The Independent wishes to make a correction concerning the news from Elliott county last week which was through an error of the editor.

The opening paragraph of Mrs. Mobley's column stated that the Educational League was putting on a drive for a school library and equipment for the school of that district. This article was not written by Mrs. Mobley and did not pertain to the news of Sandy Hook.

The Independent is always glad to make corrections that have caused any controversy among its readers. We regret very much that has happened.

Mr. and Mrs. J. R. Evans spent the past week end in Olive Hill.

The Sandy Hook Woman's Training Work Center, a W.P.A. project under the supervision of Mrs. Boss Redwine as foreman, will sponsor an "open house" April 17, 1936, to all the folks of Elliott county and surrounding territory. Mrs. Redwine will show in this exhibit layettes, children's clothing and men's and women's clothing. This is an exhibit well worth your while as there are some women who work on this project who have never had a needle in their hands until it became necessary to help support the family. Women usually walk many miles to arrive on time to fill in their time for the week. There will be forty garments on display besides the note-books kept by each one separately. The public is cordially invited to come and see these exhibits and see the wonderful and instructive lessons they are learning as well as their livelihood.

Mrs. Sara Brown or Ordinary had as her Sunday dinner guests, Mr. and Mrs. J. W. Rose and two children, Mary Layton and Billie.

Miss Hillie Rose was the week-end guest of her cousins, children of Mr. and Mrs. Virgil Hoolbrook, of Newfoundland, Ky.

Mrs. Maude Fox and two children, Cullen and Carolyn Fox, have joined their husband and father, C. J. Fox, of Sandy Hook, as foreman on the construction of a road up Little Sandy with the Ruth Brothers. Mrs. Fox and children are from North Carolina.

Baptist services will be held at the Little Sandy River near the Sandy Hook bridge for those who confessed their faith in Christ during the revival held at the Baptist church by Rev. G. G. Lanter, pastor, and Rev. L. H. Martin, Hazard, Ky.

Mr. and Mrs. David L. Davis, Jr., of Redwine, announce the arrival of a girl, born March 20, 1936. They have chosen for the little girl the name of Edith Ruth Davis.

The Elliott County Fiscal Court met Tuesday and voted to appropriate funds to carry on the health work for the next fiscal year.

Dr. and Mrs. W. M. Lamb, Louisville, assistant state health director, and Dr. Caswood, health director of Fayette county, were business visitors in Sandy Hook Monday.

A delegation of Sandy Hook people, accompanied by the Rev. G. G. Lanter and Rev. L. H. Martin, pastor and evangelist of the Sandy Hook Baptist church, attended a woman's missionary union meeting in Winchester Wednesday. The following persons attended: Misses Pauline Goutley, Marie Bays, Pauline Bays, Katie A. Lee, Mrs. Sam King and Miss Ruthison.

In the interest of the furtherance of the work of the Baptist church,

we have with us two young men from Sumpter, S. C., namely, Rev. D. H. Calhoun and Rev. J. C. Cooper.

Mr. Dave Caudill, president of the Sandy Hook and Morehead Peoples Banks, was a business visitor in Sandy Hook Wednesday.

Walter Gardner, attorney of West Liberty, and his stenographer, Miss Nel Cole, also of West Liberty, were business visitors here Wednesday.

Dr. C. B. Rice and Luther Burton, cashier of the bank at Blaine, and Hon. Sim Willis, former judge of the Court of Appeals, were business visitors in town Tuesday.

Little Miss Dorothy Jean King, daughter of Mr. and Mrs. Sam King, was the Wednesday guest of little Miss Mary Lou Crisp, daughter of Mr. and Mrs. John Crisp.

Property Transfers

W. W. Walter and wife to Harrison Ramey 20 acres on Nichella Fork.

Evaline Clifton and husband to G. B. Watson tracts of 153 and 8 acres on Bush Fork.

J. E. Moore and wife to Harrison Barndollar and wife 12 acres near Bluestone.

Marriage Licenses

Orville Caudill, 27, farmer, and Hazel Crockett 17, both of Elliottville.

Venton Forman, 21, laborer, Shelby, Ohio, and Mattie Allen Caudill, 16, Morehead.

Ora Fawns, 24, farmer, Orange City, and Christine Pickrell, 31, Colfax.

Clarence Pigman, 21, laborer, Haldeman, to Madeline Greory, 21, Tripiett.

BUILD VAST SET FOR NEW FILM

To film a complete country house and its interiors for scenes of the new Claire Trevor picture, "My Marriage," now at the Cozy Theatre, 20th Century-Fox constructed one of the most elaborate sets ever seen in Hollywood.

The house, patterned after the most dignified up-State New York homes, was completely constructed on one set. Even the landscape was reproduced. A large garden, complete with a fish pond and oak trees, is one of its features.

Adapted from an original story by Frances Hyland, "My Marriage" is a tense drama of love fighting against social ostracism and the menace of the underworld. Kent Taylor, Pauline Frederick and Paul Kelly are the principal featured players in the cast.

26 MOREHEAD WOMEN ATTEND BRANCH MEET

A majority of the 26 members of the local chapter of the American Association of University Women will attend the annual meeting of the Kentucky branch at the Louisville Women's Club Friday, according to Mrs. R. L. Hoke, publicity chairman of the Morehead organization. Features of the program will be a business meeting and luncheon.

The people who take themselves seriously are overwhelmed very often by the folks who think nothing is important except their own good times.

Friends, do you realize that we have more prizes than active workers? . . . Can't you grasp the fact that in a few short weeks the Morehead Independent will present someone in this territory with a new Chevrolet for just a little of their spare time in taking subscriptions to this paper? Aside from this, someone will win a new G. E. Electric Refrigerator or \$200.00 in cash. There are also hundreds of dollars in cash commissions to be awarded. Now if you really comprehend this, what in the world is keeping you from entering this race and earning this car or collecting your share of the commissions? The least you can earn is 20 per cent of what you collect. All you have to do is secure subscriptions from your friends and acquaintances.

Ky. State League Calls For Teams In Tentative Plans

Mt. Sterling Declines Place On Roster; Paris Is Added

PARKER LIKELY MANAGER

Organization of the Kentucky State Baseball League was effected Monday night at a meeting of the diamond enthusiasts in Owensville with representatives from four cities expressing intentions of forming teams.

Paris was asked to become a member of the league when the Mt. Sterling delegation declared its unwillingness to place a team in the field. Morehead and Flemingsburg declined definitely at the meeting to enter the loop, and Owensville reserved final decision until a later date.

Tentative arrangements provide for opening play in the league Sunday, May 3, with Flemingsburg meeting Paris at the latter city, and Owensville playing Morehead at Morehead.

Expected to manage the teams are Dan Parker, Morehead; Tom Hall, Flemingsburg; and Shanklin Piper, Owensville. The management of the Bourbon county nine was not immediately known. A complete schedule of games will be carried in the columns of the Independent at a later date.

NOTICE

S. M. BRADLEY PROPERTIES

Virgil H. Wolford has been designated by the Federal Court to act as Agent for the Receiver, W. H. Dysard, in the matter of S. M. Bradley in Receivership. The said Virgil H. Wolford has been authorized and directed to supervise all of the properties belonging to the said S. M. Bradley; to represent the Receiver, W. H. Dysard, in all matters in regard to said property; and to receive proposals for the purchase of the various tracts of land, farms, vacant city lots and improved city lots, and other property situated in Morehead and Rowan County.

Proposals are invited from interested parties for the purchase of any of this property. For information concerning same inquire at office of Virgil H. Wolford, Main Street, Morehead, Ky.

VIRGIL H. WOLFFORD, Agent
for **W. H. DYSARD, Receiver**

Inclement Weather Halts Spring Practice

More than half of the spring football squad at the college have deserted the practice field as a result of inclement weather, preparations for baseball and lack of interest. W. D. Scroggins, freshman coach, has replaced Head Coach G. D. Downing, who has taken charge of the baseball team, as gridiron instructor. Practices will continue for several more weeks, it is believed.

Leghorns Prove Lead Over Rhode Islands

One rooster is as valuable as ten hens in a poultry flock, according to Dr. M. A. Jull, United States Department of Agriculture. The rooster usually attracts the chicks from a large proportion of the hens.

Roosters of various qualities were mated. It was reported, to pens of trap-nest Rhode Island Red and White Leghorn pens with high egg records. The Reds had minimum first-year records of 290 eggs and the Leghorns 225 eggs. The daughters from the various roosters showed a wide range in egg production. The daughters from the roosters used on the Rhode Island Red flock ranged from 171 to 219 eggs a year and the daughters from the roosters used on the Leghorn pens ranged from 168 to 229.

The poultry authority advises producers to record laying results of both hens and roosters. In this way a purebred flock with a superior laying record may be obtained after a few years of breeding to successful types.

Forty-nine fishing licenses have been issued by the Rowan County Court Clerk this year.

The Picarons, in case you are interested, will give you a ride in their stratosphere balloon if you can raise \$100,000 to finance the ascension.

Athletic Committee Approves Petition For Baseball Squad

Tentative Schedule Consists of Six Games For National Pastime

FROSH, VARSITY ELIGIBLE

As the result of a petition, signed by 200 Morehead students, the college athletic committee approved a baseball team and equipment has been issued to 20 candidates.

Two-game series have been tentatively arranged with Marshall College, Huntington, W. Va.; Centre College, Danville; Henson Memorial University, Harrogate, Tenn.; University of Louisville (Ky.); Western State Teachers College, Bowling Green, and Eastern State Teachers College, Richmond.

Both freshmen and varsity men will be permitted to play, as the Southern Intercollegiate Athletic Association, of which Morehead is a member, does not govern baseball. However, no letters will be awarded members of the team due to the fact that the diamond game is ranked as a minor sport at the college. In no season have the gate receipts equalled the administration's outlay.

Men who have reported for practice are Vinson Varney, Alley Ryan, Wyant, Anderson, Arzen and others. The coaching staff expects to develop an excellent group of performers from those listed above and other candidates.

Derby Turf Entries Hit Tape Saturday

Derby eligibles scored smashing victories Saturday at Tanforan (Calif.) and at Arlington Downs (Texas).

The overhauled plater, Indian Broom, flashed to a seven-length win over Top Row, winner of the \$100,000 San Antonio Handicap in the Marchbank Handicap. His time—1:47 3/5 for a mile and an eighth—shattered the world record. Displaying surprise staying ability. The Fighter won the Taylor Purse in record time in beating other eligibles. Thoroughbred critics have questioned the speedy colt's ability to negotiate the longer tour. Other Derby candidates are entered in races this week.

Popular Students Elected For Annual

After two weeks of voting, the students of Morehead State Teachers College have selected Alene Huff as the most beautiful girl; Edward Bell, handsome boy; Martha Neblett, most popular girl, and Luther Varney, most popular boy.

FREDDIE BARTHOLOMEW IN F. H. BURNETT'S PLAY

For Sunday the College Theatre brings to the screen Frances Hodgson Burnett's unforgettable love story alive and vibrant with all of the things that words cannot describe. Changing sorrow to gladness and despair to hope—he charmed the little world in which he lived—to know him was to love him and when his appealing voice reaches out from the screen to touch your deepest emotions—you'll know him as the boy that was all man—unselfish, loyal, courageous, no matter who or where he was—a little boy in America—Little Lord in England. The part of Little Lord Featherston is taken by Freddie Bartholomew, who made David Copperfield so real and alive.

The College does not have a show on Friday, April 17, on account of the meeting of the Kentucky Education Association.

Junior High Chorus Gives Comic Operetta

"Middle Maids," an operetta designed for high school, was presented Tuesday evening by the junior-high school chorus of the Breckinridge Training School under the direction of E. P. Davis, college string instrument instructor.

The college orchestra played the score of the operetta.

Characters were Helen Crosley, Patty Caudill, Mary Adkins, Marie Falls, Wilma White, Josephine, Frances and Thelma Hall, Mildred Randall, Edna Baker, Elvira Caudill, Mary Pervis and Loeva Garey.

COLLEGE POSTPONES SOFT-BALL SESSION

The annual soft-ball program of the college has been postponed until the summer session as the result of a recent decision of the Athletic Department to sponsor a baseball team, according to Head Coach G. D. Downing.

Annual Track Meet To Be Held In Louisville

The seventeenth annual Kentucky intercollegiate track and field meet will be held May 9 at duPont stadium, Louisville, according to announcement by B. A. Shively, University of Kentucky track coach, who will direct the meet again this year.

For many years the affair has been held in Lexington, but was shifted to Louisville this year because the University of Kentucky track is under process of reconstruction and the work will not be completed in time. Louisville Male and Manual Training High Schools will be hosts for the meet.

Again the Madden memorial set of trophies, presented annually by Edward Madden in memory of his father, the late John E. Madden, who was a great track man in his college days, will be awarded. These are considered the best trophies given in any high school meet in the country.

Thirty-five schools were represented in the meet held at Lexington last year, with approximately 300 high school athletes taking part. The meet this year is expected to attract even more entries.

Any school desiring to take part in the meet is requested to write to Mr. Shively at the University of Kentucky for entry blanks.

The meet next year will be returned to Lexington. The University of Kentucky annually sponsors the high school track and field meet.

Coach G. D. Downing Makes First Call For College Aquatic Candidates

Plans are underway at the college to form a swimming team, which would compete with the University of Kentucky, Eastern and Western. Earl King Senff, history instructor, would be in charge of the squad, Head Coach G. D. Downing advised this week.

The actual coaching would be done by Downing, who would devote three evenings each week to the aquatic sport. A call has been issued by the sponsors that sufficient talent for a good team may be secured. The athletic department has started negotiations with State schools in regard to dual meets, some of which would be held

in Morehead's Senff Natatorium, which is reputed to be the largest and finest in Kentucky.

Coach Downing urges all candidates to enter with him at the earliest possible moment. Only seven weeks remain of the current semester, and at last half of that time will be required to develop an aggregation.

Men who have indicated their intention of reporting for practice are Bruce Henderson, Charles E. Hall, Harold Blair, Joe Marshall, Ed Parley, Jerome K. Kelley, Casper Borst, Sam Bradley, John Francis, Charles Morris, Robert Alfrey, Denver Ball, Lacy McGuire, Joe Hoffstaeter, Carl Back and Ralph Houston.

Debaters Continue Winning Streak

Morehead's strong debate team, composed of Earl Dean and Elijah Hogge, won a unanimous decision over Eastern State Teachers College here last Thursday evening. Kelly Clore and James Neal represented the Richmond school.

Don Michelson and Lucien Wilcox, of Eastern, defeated Morehead's freshman debaters, Alton Payne and Howard Eccles by a two-to-one decision. The subject of both debates was: "Resolved, That Congress Should Be Empowered, by a Two-thirds Vote, to Override Supreme Court Decisions Declaring Acts of Congress Unconstitutional."
