SOUTHERN RAIL

A close-up photograph of a vintage metal lantern. The top section is a cylindrical metal cap with a perforated band of circular holes. Below this is a wide, flat metal flange. The word "SOU. RY." is embossed in a serif font on the center of this flange. The metal has a brushed, slightly worn appearance. A metal handle is visible on the left side, and a red label is partially visible on the lower right.

SOU. RY.
