EXECUTIVE COMMITTEE REPORTS

President: Mark talked with Dr. Philly about setting up a new committee which would focus on MSU's good Advisors. This committee should consist of a committee chairman, students, a reward given to the best advisor, and the committee must set criteria to follow. Dr. Philly will supply the extra money needed for the awards in the committee chairman's account. Mark met with Noel Levites about improving the students outlook and recruitment of MSU. The following suggestions were made: move soar session dates so that they occur during the students senior year of High School; improve promotion of the \$300 dining club card requirement for Freshman and Sophomores; improve the \$50 fee to hold classes for the up coming semester; and about making MSU 101 a requirement for incoming Freshman. Mark also met with the Wellness Center Construction Committee about different locations for the Wellness Center. Mark also mentioned that a good idea for the next Board of Regents meeting is to have two students from their home town come meet with them and have lunch.

Executive V.P.: Roger is checking on the hours for the weight room. Heidi gave her report on the Endowment Fund Committee.

V.P. for Administration: Trisha informed the congress about the Welfest on March 7, which would take place on the third floor of ADUC from 7:30 - 3:00. The SGA will sponsor our own wellness booth. This booth will

focus on how to get involved in SGA and about stress management. She also had an idea for the Athletic Support Committee - to sponsor a campus wide spirit contest for the basketball games. Trisha also reminded everyone about the Student Forum which is on Feb. 15 from 7:00 to 9:00 in the Eagle Dining Room.

V.P. for Finance: Shawn reported that there is a balance of \$8,908.01 in the Administrative Fund and a balance of \$53,384.14 in the Special Events Fund as of January 24, 1995.

V.P. for Publicity: Holly announced that she needs active committee members on her Publicity Committee - if anyone is interested please contact her. Everyone in SGA needs to come and support the Self Awareness Week which is from Feb. 6 - 9. Also, everyone needs to spread the word about the Miss MSU Pageant.

V.P. for Programming: Brian announced that the BSU will be sponsoring a "Back to School Bash" on Tuesday night at 9:15 in the Button Auditorium. Also, Brian has more concerts to discuss in Discussion.

Old Business: None.

New Business: The idea for a new committee which would focus on MSU's strong Advisors was passed and Shawn McHolland agreed to be the Chairman of the committee. An amendment to the constitution was made and passed: in order to run for an officer position for the Student Government Association, one must serve as an active representative on congress for nine weeks.

DISCUSSION: Brian announced that SGA could bring in Tracy Lawrence for \$35,000 for the spring concert. A motion to move back into New Business was made and passed.

"New Business": SGA *01-24-95 #54 (Tracy Lawrence)
PASSED

DISCUSSION: Holly introduced some of her new ideas for publicity: purchasing sunglasses for the comedian, Todd Glass; giving out raffle tickets to all the students on campus (to inform them of the comedians); start utilizing the basketball games by making announcements and hanging up banners; also sending a message through the E-mail system. It has been brought to the executive boards attention that Mays Hall would like to have a seat on congress and be recognized like all the other Residence Halls. M.C. will be working on this situation. Mark brought up the matter about staying in the OVC or dropping out. We need to remember that dropping out would mean that there will be no scholarships to be given out which would also effect the enrollment of black students here at MSU. Mark needs a definite answer from congress sometime in the next two weeks. The next Board of Regents meeting is in two weeks and they will be discussing this issue further.

ANNOUNCEMENT: Pick up posters from Heidi directly after the meeting is adjourned.

Meeting was adjourned at 6:30 p.m.

Memo

To: Steve Hamilton, Director of Athletics

From: Mike Esposito, Chair SGA Food Service Cmt. *ME*

Date: Feb. 17, 1995

RE: Representatives to the Food Service Cmt.

The Food Service Cmt. was set up by the SGA several years ago to represent student concerns and opinions to the PFM management.

We would like for you to ask the coaches of all teams, especially the women's, for volunteers from their teams to attend these committee meetings. We are trying to get a broad base of student opinion so that the campus food services can be the best they can be. The more input we have, the better food service can respond to student wishes.

The next meeting of the Food Service Cmt. will be *Wednesday, Mar. 1, at 3 p.m., in the mainstreet cafeteria.* Future meeting times will be decided at this meeting. Please ask your coaches for volunteers to attend these important meetings. We would very much appreciate the support of athletics in this matter.

Thank you very much.

PROPOSED STUDENT WELLNESS CENTER

BACKGROUND

For a number of years, the University has requested state funding to renovate the Laughlin and Wetherby Buildings for the purpose of improving and expanding on wellness opportunities for students. Since the opening of the "new" Academic and Athletic Center in 1980, the Wetherby Gym has been greatly under utilized. The gym is used for intercollegiate volleyball matches and practices, occasional tennis practices, as a secondary intramural site and various community events scheduled through the Office of Conference Services.

Generally, the arena configuration of Wetherby results in much wasted and under utilized space. A major renovation and realignment of the arena and under the stand space would allow for the addition of much needed human fitness laboratory, office and multipurpose recreational space for students.

The renovation of the Laughlin Building would be primarily to modernize its energy and environmental systems and classrooms. Laughlin is very functional as is. It is estimated that the cost to realign and modernize Wetherby and Laughlin would approximate \$8 million.

To date the University has been unsuccessful in getting state funds for the project since more pressing academic facility needs have taken precedence. However, with the completion of the Lappin Hall renovation scheduled for the upcoming biennium, we will be in an outstanding position to have the state fund the Breckinridge Hall renovation project in 1996-98, making the Wetherby and Laughlin Building renovation project a high priority in 1998-2000. With this project, a comprehensive Student Wellness Center would be planned.

CENTER CONCEPT

There are few indoor fitness opportunities for students. There are even fewer indoor facilities for female students. The Laughlin basketball courts are dominated by male students, as is the weight room in the same building. A new Student Wellness Center would contain state-of-the-art fitness equipment and be supervised at all times, providing a secure and comfortable environment for students, faculty and staff who desire to utilize the Center.

There are no indoor tennis courts in the community, nor the region for that matter. With the high level of interest in the community for tennis, it is proposed that the

Student Wellness Center include indoor tennis courts to be utilized in the cold weather months. Court rentals could provide a revenue source to help support the annual management and operating expenses of the Center.

Construction of a relatively small, new facility to contain at least two tennis courts and provide additional fitness space should be viewed as a short-range solution to the longer range objective for a more comprehensive student wellness program in a renovated Wetherby and Laughlin Building. The problem though, as identified above, is that we should not and cannot wait another six to seven years for the state to provide the funding for the larger project. The University needs to provide the facilities and equipment to expand student wellness opportunities now.

1994-96 FISCAL BIENNIAL CAPITAL REQUEST

With this background and concept in mind, the University's strategy in submitting its 1994-96 Wellness facilities Capital Request to the Council on Higher Education changed. Though the Laughlin and Wetherby project is important from both a short-range and long-range student wellness perspective, the reality is that the Wetherby and Laughlin project will not be funded by the state until the 1998-2000 fiscal biennium. A short-range strategy to construct a facility that would contain at least two tennis courts and provide other space and fitness equipment for structured wellness activities was proposed. The result is a \$500,000 University fund authorization in the 1994-96 Budget of the Commonwealth for the planning and construction of a wellness facility.

SITE LOCATION

Location of the building is important. Obviously, if it is desired that at least two indoor tennis courts be included in the Student Wellness Center, then the most cost effective manner of "constructing" indoor tennis courts would be to enclose some of the existing courts at the George Sadler Tennis Courts. It has been suggested that consideration be given to constructing two or more new courts adjacent to Wetherby in the space where the university motor pool operation is currently located. There is difficulty with this concept. Though the space in that area is sufficient, adding a new structure at this site as a short-range solution to a student wellness program would not be compatible with the major renovation project planned for Wetherby and Laughlin in the future. A metal or bubble building adjacent to Wetherby would in all likelihood have to be removed once the larger project commences. If constructed at the Sadler Courts, the building would not interfere with future building or renovation plans.

The architectural and engineering consultant employed for the project will advise the University on the most cost effective manner to accomplish the intended objectives.

MANAGEMENT OF THE STUDENT WELLNESS FACILITY

The Department of Health, Physical Education and Recreation (HPER) will have management responsibility for the Student Wellness Center. The Wellness Coordinator position will be re-established in HPER, and other resources will be provided for Graduate Assistantships and facility operating and management needs.

PROJECT COST

The facility cost is estimated to be \$500,000. HPER estimates that the fitness and laboratory equipment will cost \$100,000. Operational and personnel costs would not exceed \$60,000 annually during the initial years of operation. Income from tennis court rentals is difficult to predict, but revenues from this source will be available to offset a portion of the recurring expenses estimated for the management and operation of the facility.

CURRENT AND FUTURE PROJECT(S) FUNDING

An increase in the Student Activity and Services Fee (SASF) would provide considerable resources to support the construction and management of the Student Wellness Center, plus provide debt service funds to support other student related projects. Based on a projected total building scope of \$500,000, equipment costs of \$100,000 and annual operating and management expenses of \$60,000; \$660,000 is necessary to fund the project. It is proposed that the SASF be increased \$10 per semester to provide \$160,000 toward the funding of the project. This amount would be needed for four to five years; however, other student projects would be serviced as decided.

Construction of the Center could begin in October-November, 1994, and be completed on or about January 1, 1995. The SASF increase would provide students continued participation in a broader wellness and fitness program through the Department of HPER.
