MOREHEAD, Ky. -- John Scott Brown, a senior at Morehead State University, was one of eight finalists in the Future Business Executive competition at the recently-held Phi Beta Lambda National Convention in San Francisco.

Brown, son of Mr. and Mrs. Beckham Brown of Paris, Ky., won the state championship in the same competition last April at Louisville and was one of six delegates from Kentucky at the convention. His area of concentration at Morehead is Business Administration.

Phi Beta Lambda is a national organization for business students, and more than 250 delegates from colleges and universities across the nation attended the San Francisco convention. In addition to the Morehead chapter, there are three other chapters on Kentucky campuses, at Murray State University, Kentucky State College and Paducah Junior College.

MOREHEAD, Ky. -- Harlen L. Hamm, instructor of speech and drama at Morehead State University, has been appointed chairman of the Professional Ethics and Standards committee of the Kentucky Speech Association.

Dr. J. W. Patterson, president of the KSA, said the purpose of Hamm's committee is to establish standards of ethics, advise the executive committee and recommend specific actions to the members.

The eight-man committee, composed of university, college and high school teachers, will make its first report at the Speech Educators Conference at Lexington on Sept. 29 and 30.

Don Holloway, another Morehead State professor, is first vice president of the KSA.

MOREHEAD, Ky. (July 6) -- Plans have been announced for a School Lunch Seminar to be held during the week of August 7-11 at Morehead State University.

Its objective is to help people involved in school lunch programs to recognize some of their major problems today and then to research and develop possible solutions through formal presentations and informal group activities.

The Seminar is open to all school lunch workers and supervisors in Eastern Kentucky and will be under the direction of Dr. Thelma Lee Bell of the University's Home Economics staff. Registration will be from 8 to 9:30 a. m. August 7 in Room 216 of the University's Home Economics Building.

Fees will be \$9.00 for Kentucky residents and \$23.00 for out-of-state residents. Rooms will be available in University dormitories for the week, and meals will be available in the University cafeteria.

Among topics to be discussed will be: Kentucky school food regulations, helps and policies; provisions for eligibility for government food helps; menu planning; basic lunch equipment needs; short cuts, sanitation, food purchasing and storage; and personnel policies and procedures.

A special consultant to lead the discussion on each topic will be provided by C. E. Bevins, director of the Division of School Lunches, Kentucky Department of Education. Classes will be held from 8 a. m. until 12:30 p. m. daily.

MOREHEAD, Ky. -- (July 9) -- Rep. Carl Perkins of Kentucky's Seventh Congressional District today pledged an all-out fight in Congress for the continuation of the controversial Office of Economic Opportunity.

Speaking before more than 800 people in Morehead State University's Button Auditorium, Congressman Perkins said, "One of the best ways to get people into the main stream of our economy is through vocational education." In conjunction, he praised Morehead State University and its leadership in aiding in the development of a vocational education school for Rowan and nearby counties.

"We have a definite responsibility to the younger generations to provide them with the training and incentive they need to break the poverty cycle and to enable them to make worthwhile contributions to their communities, their families and to their own lives, " he said.

"This is why we are not going to lose this fight. We are not going to stand by and see the Office of Economic Opportunity knocked out, because it has done a wonderful job in the 2 1/2 years of its existence and because of the great hopes it represents for the future of Eastern Kentucky. "

Rep. Perkins is chairman of the Education and Labor Committee in the House of Representatives before which hearings on the Economic Opportunities Act are now in recess. His remarks in defense of the poverty program were prompted by some efforts being made in Washington today to abolish the Office of Economic Opportunity and to put its programs under the control of the Office of Education and other federal agencies.

(more)

rep perkins at morehead 2222222

The Morehead rally was not only to spotlight these hearings, but to review for OEO officials, program participants and interested citizens its programs currently in operation under the direction of the Northeast Area Development Council, several of which are:

The Legal Aid Program, Head Start, Upward Bound, the Stark Day Nursery and Socio-Economic Aid Programs in Elliott County, the Commodity Food Distribution Program in Lewis County, Home Repair, Job Information Centers in a six-county area, the Neighborhood Youth Corps and others.

Also on the program was Leveo Sanchez, Mid-Atlantic Regional Director for a seven-state area in the Office of Economic Opportunity, Washington.

Sanchez predicted ultimate victory in the war on poverty, but warned victory depends upon patience and complete commitment on the local level.

"This is a war which cannot be won overnight," he said. "It is a continuous battle, and there are 30 million people caught up in its cycle. It is the responsibility of every American to help win the fight, and in doing so we will have the satisfaction of having helped to make life more meaningful for these millions of people who have not been touched by the good things in life."

Dr. Adron Doran, President of Morehead State University, welcomed the group to the campus by saying, "We are all part of and partial to a great movement to use education as one of the tools to eradicate some of the age-old problems of all mankind, and it is a rewarding experience to those of us at Morehead to be able to share in this great movement."

Presiding at the meeting was James Templeton, Olive Hill, and Director of the Northeast Kentucky Area Development Council of the OEO and encompassing Carter, Elliott, Greenup, Lewis, Morgan and Rowan Counties.

(more)

Also present were Al Whitehouse, Frankfort, Director of the Kentucky Office of Economic Opportunity; Dominic Mastrapasqua, Lawrence Parachini and Miss Pat Murphy, all of the Office of Economic Opportunity, Washington, and Joe Haney, West Liberty and President of the Northeast Kentucky Area Development Council Board.

MOREHEAD, Ky., (July 10) -- Dr. Glenn L. Clayton, President of Ashland College, Ashland, Ohio, will deliver the principal address at the Summer Commencement exercises at Morehead State University Thursday, August 3, President Adron Doran has announced.

A native of Lebanon, Ohio, Dr. Clayton has been President of Ashland College since 1948, prior to which he was a member of the history department faculty at Ohio State University.

Dr. Clayton received his Doctor of Philosophy degree in 1948 and his Master of Science degree in 1937 from Ohio State University and his Bachelor of Science in Education degree in 1932 from Miami University at Oxford, Ohio.

In June, 1959, the honorary degree of Doctor of Laws was conferred on Dr. Clayton by Central Michigan University, and that same year he was awarded the "Community Service Award" by the Ashland Rotary Club for outstanding community service.

The author of numerous articles on history, religion and education, Dr. Clayton also is a past moderator of the General Conference of Brethren Churches and has been closely affiliated with church work for many years.

In addition, he also holds membership in Phi Beta Kappa, national scholastic honorary; Kappa Delta Pi, national educational honorary; Beta Pi Theta, national French honorary and Kappa Phi Kappa, professional educational honorary.

There are 224 candidates for Master's and Bachelor's degrees at Morehead State University this summer, of which 53 are for Master of Arts in Education, three for Master of Arts, one for Master of Science, 37 for Bachelor of Science and 130 for Bachelor of Arts. A total of 493 degrees were awarded at the May 29 Commencement exercises.

The August 3 exercises will be held in the Laughlin Gymnasium on the Morehead campus, beginning at 7:30 p. m.

MOREHEAD, Ky. -- How to teach exceptional children in the classroom will be the subject of a five-day workshop in special education at Morehead State University from July 27 through Aug. 1.

Sponsored by the Eastern Kentucky Educational Development Corporation, the workshop will be conducted by the Department of Psychology and Special Education at Morehead. University faculty members and graduate students will lead the discussions.

Another aim of the program is to enable administrators and teachers to exchange experiences with other workers in order to develop better special education services.

The sessions were planned as a service to special education teachers in Boyd, Robertson and Rowan County and Paintsville schools. The EKEDC will provide transportation and housing funds for invited teachers from the four school systems.

Lectures are open to all interested teachers and administrators. However, those planning to participate in full should register in advance to insure that adequate space and materials are available.

No credit will be offered by the University and no fees will be charged.

Classes will meet from 8:40 a. m. to 5 p. m. daily in Room 213 of the Home Economics Building.

Dr. L. Bradley Clough, head of the psychology and special education department, will coordinate the program.

Those interested may register with Dr. Clough, care of the Psychology Department, Morehead State University, Morehead, Ky.

MOREHEAD, Ky. -- Morehead State University has received a \$96,660 grant from the U. S. Office of Education to establish a demonstration center for Adult Basic Education in the Appalachian Region.

The Demonstration Center will serve Kentucky, Ohio, Virginia, West Virginia, Tennessee, Alabama, Georgia and South Carolina with field demonstrations in each state.

The overall objective of the Demonstration Center is to improve significantly the quality of basic adult education through program activities.

Dr. Adron Doran, President of Morehead State and a member of the Education Advisory Committee of the Appalachian Commission, said this is one of the first centers founded to attack the education problem in a predominately rural area.

Dr. Morris Norfleet, Director of Research and Development at Morehead, was named acting director of the Center.

"The manifold educational problems in adult basic education have been clearly documented and the Demonstration Center takes as a central task a regional attack on these problems through a vigorous program of demonstrations, training, research and research-related activities," said Dr. Norfleet.

Dr. Harry Sparks, Kentucky Superintendent of Public Instruction, said of the Center: "This is a great step forward in Adult Basic Education and is badly needed. The full support of the State Department of Education is behind this Demonstration Center."

MOREHEAD, KY., (July 19) -- Three Morehead State University students are among 25 selected from Kentucky universities and colleges to continue specialized courses of study on out-of-state campuses this fall under the sponsorship of the Kentucky Council on Public Higher Education and the Southern Regional Education Board.

John A. Lewis, son of Mr. and Mrs. Alden M. Lewis, Eminence, and a student of optometry will enter the University of Houston in Texas.

Edwin A. Listerman, son of Mr. and Mrs. Ed Listerman of Fort Thomas, will enter North Carolina State University at Raleigh to continue his preparation for a career in forestry.

Samuel K. Grant, son of Mr. and Mrs. William B. Grant, Tollesboro, will enter the School of Veterinary Medicine at Auburn University in Alabama.

To be eligible to participate in the two-year program, a student must be a Kentucky resident and maintain a scholastic standing of 2.25 on all courses. Students selected may choose to continue their study at such cooperating institutions as North Carolina State, Auburn University, University of Florida, University of Georgia and Louisiana State University. All are exempt from the out-of-state tuition charge which would normally apply to a Kentucky resident at these institutions.

FROM: MOREHEAD NEWS BUREAU
MOREHEAD STATE UNIVERSITY
MOREHEAD, KENTUCKY

MOREHEAD, Ky. --This summer has provided a number of unforgettable experiences for the 103 Eastern Kentucky high school students enrolled in the Upward Bound program at Morehead State University.

For all it has been a chance to sample campus living and learn how to live with a group while developing good study habits which will stay with them when they enroll in college.

For some it has been their first taste of culture from other centers-- good music, drama, government, industry and art.

The consensus is that one of the best lessons is that of concern for others and a knowledge that the group cares for the interests of the individual.

Robbie Keeton of Boyd County feels that the concern of his friends is one of the greatest benefits the student receives. "If your roommate sees you lying around feeling blue, he wants to know what's wrong. Just knowing that someone cares enough to ask how you feel makes you better," he said.

All agree that the chance to mingle with other students of their own age, but from other communities and with different backgrounds, makes them better able to cope with academic and social problems.

So strong are the ties binding the group together that most of the students regret parting when the eight-week session is over. Some of those who were here last year admit to tears when they had to separate to go home for the regular fall term of high school.

All the student activities are supervised by a team of 17 university students who serve as tutor-counselors to the Upward Bound students. The counselors are available to advise their groups on personal matters and assist them with their studies.

(more)

The counselors eat in the cafeteria, travel on field trips and reside in the same dormitories with the students.

The students agree that having student counselors is an asset to the program. "They are so near our ages that they can understand our problems and can help us," said Edna Gordon of Maysville.

Another student said she felt like now she had a member of the family to talk over her problems with. Her mother works to support a large family and is away from home most of the time.

They are also impressed with the attitude of the faculty who work with the Upward Bound program. Classes are taught by university staff and teachers from secondary schools in the region.

Recreational activities give the Upward Bound participants a chance to develop their personalities and collective talents. They perform on the campus radio and recently held their own talent show.

Give them a cue and they'll sing the praises of Upward Bound--literally. The group's theme song, with words by Jennifer Roberts and Mary Clinger, and a tune taken from a mountain ballad, is one of their favorites.

When asked how the song sounded, a group harmonized to Diane Dudley's lead in an impromptu performance.

The program combines study with social, recreational and cultural activities.

The participants are in the classroom and laboratory from 8 a. m. to 5 p. m. daily Monday through Friday. The group study includes seminar and discussion periods four evenings a week. The Friday evening hour is given over to organized recreation.

The students are taken on field trips on Saturdays to the state capitol, the opera, a concert, industrial plants, an outdoor drama or others.

(more)

Most of the students have selected a career and want to go on to college to prepare for it. They are in the program to correct scholastic and cultural deficiencies which might hamper their academic progress.

Others are still searching for a lifetime goal. They lack the counseling or academic background they need to develop their talents fully.

The roll includes those interested in a variety of occupations and professions.

Because she likes to be with people and help them, Diane Dudley of Maysville is considering a career in beauty culture. Dana Stinson of Sandy Hook wants to be an engineer and Sammy Graston of Bath County has chosen mathematics.

Because of an interest whetted by his Reserve Officer Training Corps experience at Paul Blazer High School, Robbie Keeton of Ashland has decided on a military career.

Physical therapy is the choice of Mary Clinger of Ashland. She wants to help people solve their problems and feels that this field would give her an opportunity to serve.

Edna Gordon of Maysville is interested in speech and drama. She participated in high school forensics and was a contestant the past two years in the regional speech festival at Morehead.

The students feel that they have been helped in their studies by the Upward Bound program. They are able to study in fields not available to them in some of the smaller regional high schools.

They have been able to enjoy study with trained artists. One student was particularly impressed by a program featuring James Still, a native Eastern Kentucky regional poet.

(more)

Participation in Upward Bound teaches the young people responsibility. No grades are given for class work, but the student is expected to show enough interest to get the most out of it.

"It makes us feel responsible and encourages us to make the most of the wonderful opportunities offered us," was the way Mary Clinger described the challenges of the program.

MOREHEAD, KY., (July 19) -- As of July 17, approximately 1,715 new students have been granted admission to Morehead State University for the 1967 fall semester, according to a report issued by the University's Office of Admissions.

While applications for admission are still being accepted and processed, this figure, including both incoming freshmen and transferees from other institutions, represents a gain of 70 new students over the number admitted at this time last year for the 1966 fall term.

Of the 1,715 new students, 1,315, or 78.7 per cent are Kentucky residents, while 400, or 21.3 per cent, live out of state. This represents a record low at this time of year for out-of-state admissions at Morehead, and reflects the University's concentrated effort to hold out-of-state admissions to a minimum. Normally, out-of-state admissions at mid-July run about 29.5 per cent of the total new students.

Competition for dates also should be keen among the new students next fall, as 898, or 52.4 per cent, are male and 817, or 47.6 per cent, are female. It also is interesting to note that 92.1 per cent of the new students indicate they plan to reside in a campus dormitory.

Of the University's five Schools, the School of Applied Science and Technology is the No. 1 choice with 24.1 per cent of the new students indicating their majors would fall within this school.

In second place is the School of Education with 20.5 per cent, followed by the School of Social Sciences with 13.7 per cent, the School of Humanities with 13.6 per cent, and the School of Sciences and Mathematics with 13.2 per cent. The "undecided" students totaled 256, or 14.9 per cent of those granted admission to date.

(more)

The report does not include those students who will be returning to Morehead State University this fall to continue their education, nor does it include those previously-admitted students who have since cancelled for the fall term.

A record enrollment of more than 6,000 students is expected at Morehead this fall, as compared with the 5,484 campus students who were enrolled for the 1966 fall term at the University.

MOREHEAD, KY. -- Morehead State University will offer a baccalaureate degree program in Health Education beginning this fall, according to Dr. Paul Raines, chairman of the committee on curriculum in Health Education.

Those majoring in Health Education may earn the bachelor's degree with teaching certificate if they plan to teach in the elementary or secondary schools.

Students preparing to become teachers may earn a major in Health Education with a second major in any of the following related fields: physical education, special education, biology, psychology or home economics.

The degree may be utilized as a basis for careers other than teaching, such as public health, nursing, community or industrial recreation and occupational or physical therapy.

The new program is an expansion of the current health curriculum. About 135 students currently are pursuing a minor in health at Morehead.

A degree program in recreation will also be offered this fall. Both new programs are within the Division of Health, Physical Education and Recreation of the School of Education.

MOREHEAD STATE UNIVERSITY
MOREHEAD, KENTUCKY

MOREHEAD, KY., (July 21) -- A four-man team of Morehead State University scientists are expected to complete by early November the geological mapping of an area encompassing a 10-mile radius of the University.

The project, started in June in conjunction with a concentrated effort sponsored by the U. S. Geological Survey and the Kentucky Geological Survey, is being carried out to determine geological formations for the purpose of developing economic resources, flood control and soil conservation projects and other more efficient land use programs.

Assigned to the survey from the Morehead State University School of Sciences and Mathematics are James Chaplin, John Philley, Dave Hylbert and Harry Hoge, all associate professors of geology. They are spending part-time on the project, which includes not only the Morehead quadrangle but also the Bangor quadrangle on the south and the Cranston quadrangle on the north.

The Morehead University work is a part of a state-wide program, started several years ago with the over-all objective of preparing geological maps of the entire state. To date, the State of Kentucky is the only state in the country to undertake such a program. Maps for approximately 40 per cent of the state have been completed.

Once the project has been completed, detailed reports on the various geological formations observed throughout the state will be available along with the maps. The reports will be available from the Office of the Superintendent of Documents and the maps from the U. S. Geological Survey Office, both in the Department of the Interior, Washington, D. C.

MOREHEAD STATE UNIVERSITY
MOREHEAD, KENTUCKY

MOREHEAD, Ky., July 21--Federal financial aid for specific educational purposes has served to stimulate rather than stifle State and local initiative, U. S. Education Commissioner Harold Howe II said here today.

He cited the 50-year-old Smith-Hughes Act as an example of Federal assistance that promoted educational progress which might not otherwise have been achieved. The Smith-Hughes Act was designed to support vocational education through financial grants to the States.

"This landmark program," the Commissioner said this morning while speaking before more than 1,200 summer students and special campus guests at a Morehead State University Conference on Education, "has demonstrated the soundness of the principle of special Federal assistance to meet a broad categorical area of national need. In recent years, we have identified many other categories in which the States and local school districts can--and have--effectively used Federal support."

More federal money than ever before in history is now committed to the support of education, he said, and represent a more vigorous and vocal public awareness of the need for quality education for every child in every state than previously witnessed.

Experience has shown, the Commissioner said, that categorical aid "has stimulated local thought and action to make advances that would not have been open to the school in the absence of Federal funds appropriated by Congress for this purpose."

While providing money to develop new curriculums, train teachers, and buy equipment, categorical aid has not led to Federal control of vocational or any other kind of education, the nation's top man in education pointed out.

(more)

"It has instead," he said, "created opportunity where it was previously lacking and most needed. It has served children who would not get the benefits they are now receiving if Federal money were passed out to the schools without any regard to particular problems."

Those who are now urging Congress to do away with categorical aid in favor of general school assistance ignore past history and current needs, the Commissioner said. He added:

"This view...in effect says that education serves no national purpose or that if it does, these purposes will somehow--perhaps by good luck and blind chance--be met by the independent, unrelated decisions of 50 States, 23,000 school districts and 2,300 colleges and universities without guidance from the Congress."

Howe said that Congress now is considering amendments to the Vocational Education Act of 1963 that would provide: Occupational education programs to inform students of the career possibilities open to them; part-time employment to help pay school expenses; guidance and counseling programs to ease transition from school to work; and grants to improve vocational education through experiments with new curriculums and new educational media.

He explained that these amendments are designed to enable the schools to develop ways of preparing youngsters to live in two worlds: "A career world that will use their talents productively; a personal world that will enable them to grow as individuals."

In order to join these two worlds for youngsters, Howe said, "It is necessary to fuse the academic and vocational curriculum into a comprehensive system of education. We have been trying to accomplish this fact for nearly a century without adequate success."

(more)

The commissioner suggested that educators and the public take a more generous and realistic view of the importance of vocational education. He went on, "It would be helpful if we realized that academic education and vocational education are not two different animals, but twin aspects of personal development that must be blended if our schools are to graduate youngsters capable of dealing with their responsibilities both as providers and as citizens."

Howe highly praised Morehead President Adron Doran and others involved, both at Morehead State University and in the Morehead community, for their efforts in establishing a university-affiliated vocational educational high school at Morehead, the first of its kind in Kentucky.

"You are to be commended for demonstrating what can be accomplished when higher education joins with the community, local industry, the public schools, the State and the Federal government," he said.

In a complicated economy that embraces thousands of skills and aptitudes, he said, "our schools must assume the responsibility for blending basic and necessary academic training with vocational offerings. They must steer youngsters through the early shoals in the career-selection process, establish new patterns of work and study in cooperation with business, and play a more vigorous role in job placement."

The Commissioner's day on the Morehead University campus started with a formal breakfast with President and Mrs. Doran and a number of high ranking guests. After a tour of the revolutionary computer-assisted instruction programs at University Breckinridge High School and the Rowan County High School, he participated at a special press conference before speaking at the convocation.

He spoke briefly again following a luncheon in the University's Doran Student House and fielded questions from more than 200 county school superintendents, principals and teachers present for the day's activities.

(more)

Accompanying the Commissioner from Washington were Charles Foltz, executive director of the Advisory Council on Education to the Appalachia Commission, Miss Thelma Stevens, director of technical information services, Appalachia Regional Commission, and John Whisman, director of Appalachia Regional Commission.

Others present included: Dr. Wade Robinson, Herbert Ohlman and Harold Russell, Central Midwest Regional Education Laboratory, St. Louis; Bob Cornett, administrator, Area Development Office, Frankfort; Dr. Lyman Ginger, treasurer of the National Education Association and former Dean of the School of Education, University of Kentucky; Ed Jones, director of the East Kentucky Development Corporation.

Wendell Butler, Kentucky Commissioner of Agriculture, Frankfort; Frank Vittetow, director of federal and state relations, Department of Education, Frankfort; Oran Teater, Superintendent of Johnson County Schools, Paintsville; Douglas Miller, Superintendent of Estill County Schools, and Tom Johnson, of the Ontario Institute of Educational Studies, Ontario, Canada.

While providing money to develop new curriculums, train teachers, and buy equipment, categorical aid has not led to Federal control of vocational or any other kind of education, the nation's top man in education pointed out.

(more)

"It has instead," he said, "created opportunity where it was previously lacking and most needed. It has served children who would not get the benefits they are now receiving if Federal money were passed out to the schools without any regard to particular problems."

Those who are now urging Congress to do away with categorical aid in favor of general school assistance ignore past history and current needs, the Commissioner said. He added:

"This view...in effect says that education serves no national purpose or that if it does, these purposes will somehow—perhaps by good luck and blind chance—be met by the independent, unrelated decisions of 50 States, 23,000 school districts and 2,300 colleges and universities without guidance from the Congress."

Howe said that Congress now is considering amendments to the Vocational Education Act of 1963 that would provide: Occupational education programs to inform students of the career possibilities open to them; part-time employment to help pay school expenses; guidance and counseling programs to ease transition from school to work; and grants to improve vocational education through experiments with new curriculums and new educational media.

He explained that these amendments are designed to enable the schools to develop ways of preparing youngsters to live in two worlds: "A career world that will use their talents productively; a personal world that will enable them to grow as individuals."

In order to join these two worlds for youngsters, Howe said, "It is necessary to fuse the academic and vocational curriculum into a comprehensive system of education. We have been trying to accomplish this fact for nearly a century without adequate success."

(more)

The commissioner suggested that educators and the public take a more generous and realistic view of the importance of vocational education. He went on, "It would be helpful if we realized that academic education and vocational education are not two different animals, but twin aspects of personal development that must be blended if our schools are to graduate youngsters capable of dealing with their responsibilities both as providers and as citizens."

Howe highly praised Morehead President Adron Doran and others involved, both at Morehead State University and in the Morehead community, for their efforts in establishing a university-affiliated vocational educational high school at Morehead, the first of its kind in Kentucky.

"You are to be commended for demonstrating what can be accomplished when higher education joins with the community, local industry, the public schools, the State and the Federal government," he said.

In a complicated economy that embraces thousands of skills and aptitudes, he said, "our schools must assume the responsibility for blending basic and necessary academic training with vocational offerings. They must steer youngsters through the early shoals in the career-selection process, establish new patterns of work and study in cooperation with business, and play a more vigorous role in job placement."

The Commissioner's day on the Morehead University campus started with a formal breakfast with President and Mrs. Doran and a number of high ranking guests. After a tour of the revolutionary computer-assisted instruction programs at University Breckinridge High School and the Rowan County High School, he participated at a special press conference before speaking at the convocation.

He spoke briefly again following a luncheon in the University's Doran Student House and fielded questions from more than 200 county school superintendents, principals and teachers present for the day's activities.

(more)

Accompanying the Commissioner from Washington were Charles Foltz, executive director of the Advisory Council on Education to the Appalachia Commission, Miss Thelma Stevens, director of technical information services, Appalachia Regional Commission, and John Whisman, director of Appalachia Regional Commission.

Others present included: Dr. Wade Robinson, Herbert Ohlman and Harold Russell, Central Midwest Regional Education Laboratory, St. Louis; Bob Cornett, administrator, Area Development Office, Frankfort; Dr. Lyman Ginger, treasurer of the National Education Association and former Dean of the School of Education, University of Kentucky; Ed Jones, director of the East Kentucky Development Corporation.

Wendell Butler, Kentucky Commissioner of Agriculture, Frankfort; Frank Vittetow, director of federal and state relations, Department of Education, Frankfort; Oran Teater, Superintendent of Johnson County Schools, Paintsville; Douglas Miller, Superintendent of Estill County Schools, and Tom Johnson, of the Ontario Institute of Educational Studies, Ontario, Canada.

MOREHEAD, KENTUCKY

MOREHEAD, Ky., July 25--Twenty-five students, 22 of whom are Kentuckians, have been invited to membership in the Honors Program at Morehead State University for the 1967-68 school year, Dr. Paul F. Davis, Dean of Undergraduate Programs, has announced.

Selected by an Honors Committee composed of faculty members and coordinated by Dr. Franklin Mangrum, professor of philosophy at Morehead, the students invited must be either at the junior or senior class level and maintaining an over-all grade point average from 3.5 to 4.

Those participating in the program at Morehead, generally, will number about 40 undergraduate students, and the invitation to participate is considered one of the highest honors a student can earn at the University. Most of those participating graduate with distinction or high distinction, and virtually all are on scholastic scholarships.

As Honors Program participants, the students invited are assigned individual advisors, permitted to take any amount of work desired and to attend classes as they choose. They are, however, required to take all tests and examinations required of other students and to participate in the Honors Seminar for three semesters.

Those invited to participate in the 1967-68 program are:

Kathryn L. Arnold, 3.65, of 1361 Tyler Park Drive, Louisville; Janet Kay Barker, 3.82, Joyce Elliott, 3.95, Ann Fields Huffman, 3.98, and Ronald Lynn Richardson, 4.00, all of Morehead; Pamela Rae Brooks, 3.81, Florence; James M. Dodson, 3.86, of 504 Andrea Drive, and Dianah Lynn Metcalf, Todds Road, both of Lexington.

(more)

Pamela Early, 3.73, Clearfield; Carrol H. Estep, 3.97, Fuget; Marilyn Lee Fox, 3.82, Dayton; Diane Marie Gilbert, 3.85, Pleasure Ridge Park; Carolyn Jo Harcourt, 3.82, Mainville, Ohio.

Allie Carlene Johnson, 3.83, Winchester; Eugene Rex McCane, 3.98, Vanceburg; Rodney W. Morman, 3.98, Ashland; Leo A. Marcum, 3.83, Inez.

Marsha Kay Perie, 3.74, Leesburg, Ohio; Iris Belle Reinhardt, 3.82, Alexandria; Grimsy B. Young, 3.83, Middletown, Ohio; James E. O'Neill, 3.87, Minerva; Jane Mollett Pass, 3.84, Paintsville; Marvin R. Byerly, 3.74, Valley Station; Brenda Jean Crager, 3.70, Prestonsburg; and Emanuel C. Turner, 3.69, Talbert.

MOREHEAD, KY., (July 26) -- A series of meetings in Eastern Kentucky communities is being planned by Morehead State University for the purpose of helping to orient church-going young people to campus life.

Under the direction of W. M. (Bill) Huie, Assistant Director of University Relations at Morehead, the meetings will be community-wide, inter-denominational gatherings and held in cooperation with local ministerial groups. Tentative meetings have been planned for Maysville, Mt. Sterling and Flemingsburg.

Assisting Huie, who recently joined the University staff after 28 years of service as a minister in the Christian Church in Kentucky, Tennessee and Maryland, will be the Rev. J. Hubert Johnson, Presbyterian campus minister; the Rev. Emery Smith, Baptist campus minister, and the Rev. Alvin Busby, the Christian Church campus minister.

Faculty members as well as outstanding Morehead students and dramatic and musical groups also are expected to take part in the meetings.

MOREHEAD, KY., (July 26) -- Once the supper table has been cleared at the Lloyd Lowe home on Route 5, Olive Hill, the evening hours become study time for Mom and two daughters as they work toward teaching degrees at Morehead State University.

The mother, Mrs. Jessie Lowe, teaches in the Grahn Elementary School, Grahn, Ky., and for the past six years has been working toward her degree in the University's School of Education. A senior, she expects to graduate in August, 1968.

Daughter Rosetta, 21, is a substitute teacher in the Carter County schools. She is a junior in the School of Education and working toward an elementary teaching degree.

The second daughter attending Morehead University is Brenda, 19, a sophomore in the School of Education. Two other daughters, Kathy, 14, and Retha Lynn, 3, remain at home with dad, a Carter County farmer, while mother and the two sisters drive 40 miles round trip each day to attend summer session classes at Morehead.

MOREHEAD, KENTUCKY

MOREHEAD, Ky., July 27—Rondal D. Hart, newly-appointed Director of Alumni Relations at Morehead State University, has been named a Citationist in the Lane Bryant Annual Awards competition and has been honored with a Citation in recognition of outstanding community service in 1966.

Hart, a former President of the Junior Chamber of Commerce at Morehead and past member of the national Jaycee board of directors, was nominated for the Award by Dr. Adron Doran, President of Morehead State University.

The Citation is a commendation of the nominee's outstanding achievement and means that Hart is being actively considered for one of two Awards of \$1,000 given annually to encourage volunteer work designed to benefit the American community.

One Award is made to an individual, and one to a group. "To achieve the status of Citationist is in itself an honor," Jerome E. Klein, director of the Awards Committee pointed out. "Fewer than 20 percent of those nominated survive the rigid preliminary screening performed by the New York University Graduate School of Social Work to become so designated."

Nationally, the activities of the Citationists reflect a continued concern on the part of the American public for its health—both mental and physical. Over 40 percent of those nominated fall into this category. However, a larger percentage of nominations were made in the areas of work with youth, race relations and particularly poverty, indicating an apparent growing concern with these problems among those making nominations. Other general categories include civic and/or community services, community betterment, education and work with the aged.

Final selection for the Awards will be made by a distinguished panel of five judges. They are: Everett McKinley Dirksen, Minority Leader of the United States Senate; Martha Graham, Dancer and Choreographer; Reverend Theodore M. Hesburgh, C.S.C.,

MOREHEAD, Ky., July 31--Senator Edward M. (Ted) Kennedy (D., Mass.) has accepted an invitation to visit the Morehead State University campus Friday, October 6, Morehead President Adron Doran announced today.

Senator Kennedy will be the principal speaker at a convocation for students, faculty members and Homecoming Weekend guests at 2:30 p. m., President Doran said. Detailed plans and arrangements in connection with the Senator's visit will be announced later.

The youngest of nine children of Joseph P. Kennedy, former United States Ambassador to the United Kingdom, Senator Kennedy was elected to the United States Senate in 1962 at 30 years of age, the minimum age for a United States Senator, capturing the seat vacated by his brother, the late President John F. Kennedy.

Sworn into office at the opening of the Eighty-eighth Congress January 9, 1963, he became a member of the Senate Committee on Labor and Public Welfare. As a Senator, he has been particularly concerned with improving economic conditions in his state through defense contract awards and other projects.

Also active in civic causes, Senator Kennedy is a trustee of Boston University and a member of the advisory board of Emmanuel College.

A graduate of Harvard University in 1956, Senator Kennedy also holds a law degree from the University of Virginia Law School and has attended the International Law Institute at The Hague in the Netherlands.

He is married to the former Joan Bennett of Bronxville New York, who, in addition to being the youngest wife of the youngest Senator in American history, also is one of the most beautiful members of Washington society.

FROM: MOREHEAD NEWS BUREAU
MOREHEAD STATE UNIVERSITY
MOREHEAD, KENTUCKY

MOREHEAD, Ky. --The green hills of Eastern Kentucky will resound to the melodies of the masters in August as students of serious music gather for the second annual Cumberland Forest Music Camp.

A project of the Music Department of Morehead State University, the August 8-20 encampment attracts those who want to develop their musical skills under a distinguished faculty and under ideal learning conditions.

Unlike a regular school curriculum, the Camp offers only music training. Students have no other courses to prepare for, and can concentrate solely on their music.

They work long hours and under strict taskmasters--some of the nation's leading conductors, composers, teachers, and performers. Classes start at 7:30 a. m. and run throughout the day. Rehearsals, concerts and recitals take up some of the evening hours.

After a two weeks encampment last summer, Gwen Wood, a Morehead music major, said: "I am amazed at the quality of the faculty and the amount of work they put us through."

The students' day includes private lessons in some cases; classes in theory, composition, conducting, arranging, composing and musical literature; rehearsals and concerts in ensemble or full orchestra.

The climax of the two week encampment is reached at the closing concert in which the students as soloists, members of ensembles or full orchestra, perform the works of the masters for the public.

Composing the enrollment are student musicians from a wide area who want to learn faster or develop better techniques than they can in the home schools.

(more)

"They work us hard, but we learn more in a short while with work that we couldn't get at home," said one student who has enrolled this summer for his second camp.

The aim of the faculty is to pitch the level of instruction at a plane higher than the student has performed before.

"We demand that students reach out and extend themselves beyond any previous experience," said Vincent DiNino, director of the famous University of Texas Longhorn Bands and a member of the camp faculty.

The enrollment includes students at all levels of training and experience. Dr. Robert Hawkins, director of the camp ensembles, said, "We offer a full range of activities so that students of all levels, from junior high school to the graduate student, may find work from which he will gain benefit and enjoyment."

"This means," he said, "that a teacher in a Kentucky high school may come here and take a full program of rehearsals, classes and private lessons, while the students he brings have the same sort of activities on their own levels of musical maturity."

The advance enrollment for the camp includes students from 12 to 57 years of age. The youngest is a seventh grader and a drummer in his school's band; the eldest is a high school band director. The average enrollee is 19 and a college sophomore.

Some have been studying only briefly, while others have spent years in private and classroom instruction. Some are teaching in elementary and secondary schools, but want to improve their skills through the concentrated camp program.

Dr. Glenn Fulbright, Head of the Department of Music at Morehead, is the camp director. The camp was initiated under the direction of Dr. J. E. Duncan, Dean of the School of Humanities, and is a successor to the famed Gunnison Music Camp at Western State College, Gunnison, Colo.

Dr. Robert Hawkins, longtime director of Gunnison, will direct the faculty band. He has joined the Morehead music faculty and will direct the music camp next year. Dr. Hawkins, regarded as a top-flight conductor and arranger, was formerly chairman of the Music Department at Western Colorado.

"Our goal is for the Cumberland Forest Music Camp to provide the best possible concentrated music courses for all Kentucky music students who would like to come here," said Dr. Hawkins.

Eugene Deaton will be in charge of the stage bands. He is an assistant professor of music at Morehead and director of the University's stage band.

The faculty represents centuries of experience as top-level directors, teachers, conductors, performers and many high musical honors. Most of them have directed or performed in the leading symphony orchestras, light opera and popular bands.

Classes, rehearsals, recitals and concerts are conducted in the air-conditioned facilities of Baird Music Hall and Button Auditorium. Baird contains study rooms, small rooms for private lessons, classrooms for group study and a generous sized auditorium for concerts.

Most of the students will be housed in air-conditioned dormitories on the campus. The girls will reside in East and West Mignon Halls and the boys will live in Cooper Hall.

Families have accompanied some students and will camp at some of the nearby vacation areas.

Recreational facilities at the University will be available to those enrolled for their use during their few hours of leisure. These include the tennis courts and swimming pool. The camp stage band will play at a number of dances.

(more)

When they leave on August 20, the students will have been inspired to better performance and shown how music should be played. "They won't go with perfect technique," said one faculty member, "but they will have a goal to reach for."

MOREHEAD STATE UNIVERSITY
MOREHEAD, KENTUCKY

MOREHEAD, Ky.--They're building a new nest for the Eagles at Morehead State University.

Rising rapidly along a hillside overlooking the University's relatively-new, 10,000-seat Breathitt Sports Center stadium is a modern, 132-man dormitory to be used solely for the housing of members of the Morehead athletic teams.

Scheduled for completion in early September and costing \$425,000, the new dormitory not only represents a financial agreement unique in campus construction but one which well could become commonplace for dormitory construction on other campuses.

The two-story, tri-level facility is being built in three units under provisions of a lease-purchase agreement between the State of Kentucky and Morehead State University with the W. E. McMaken Co. of Dayton, Ohio.

The land upon which the dormitory is located was deeded by the University to the McMaken firm in return for the construction of the dormitory to University specifications.

Once completed, a 12-year, lease-purchase arrangement becomes effective, at the end of which possession of the land and the building will revert to the University.

Constructed with prefabricated wall panels by U. S. Steel and faced with brick, the new dormitory will be 328 feet long and include 33 units for four men each. Each unit will be completely furnished, carpeted and complete with shower and toilet facilities. Also included will be a director's quarters and vending room.

MOREHEAD STATE UNIVERSITY
MOREHEAD, KENTUCKY

MOREHEAD, Ky. -- Morehead State University has been awarded a grant of \$86,250 by the National Science Foundation to extend its innovative program for the introduction of a model elementary science program into Kentucky schools.

The grant will be used to continue the program for the summer of 1968 and the following school year. An earlier grant of \$75,010 was used to establish the pilot program this summer and provide supervision in the 1967-68 school year.

Under the program personnel from seven Floyd County schools are being introduced to the "Science-A Process Approach" in the current eight-week summer term at Morehead State.

The Process Approach stresses the methods used by scientists to reach conclusions, rather than the content method commonly used in teaching science.

Starting this fall, they will use the approach in their science classes in grades one through four. The program will be extended to grades five and six in the second year.

This elementary science curriculum in Floyd County will serve as a model for other schools when they join a larger U. S. Office of Education Title III project in an 18-county area of Eastern Kentucky.

The funds of the grant will be used to pay the tuition, fees, stipends, and other expenses of the participants. Thirty-six elementary teachers, three principals and a science supervisor are enrolled in the training program.

Dr. Crayton T. Jackson, Professor of Science Education at Morehead, is director of the program. He heads a faculty of four, which was approved by the American Association for the Advancement of Science.

They include: Dr. Edward McCullough, University of Arizona, head teacher and co-director; Morgan Tartt, Tuscon school system, intermediate elementary teacher; Mrs. Alice Moses, University of Chicago Laboratory School supervising teacher; and Mrs. Joyce Switzer, Monmouth, Ill., schools, supervising teacher.

FROM: MOREHEAD NEWS BUREAU
MOREHEAD STATE UNIVERSITY
MOREHEAD, KENTUCKY

MOREHEAD, Ky., Aug. 8--Are first graders too young to grasp and retain such fundamental principles of science as those involved in making weight comparisons using balances, recognizing and using angles, determining direction and distance and measuring forces with spring balances?

Absolutely not, unanimously agree 45 Eastern Kentucky elementary teachers and principals who are completing an eight-week Special Project in Pre-College Science Education this week at Morehead State University.

The project, the first of its kind ever conducted in the United States, involves teacher preparation in a brand new, highly-advanced method of teaching science in the elementary school.

The revolutionary new process, centered around the child and the use of his head and his hands, was developed by the American Association for the Advancement of Science and the National Science Foundation.

It represents a major leap from the almost complete lack of modern science found in present-day school systems to one of the most exciting and stimulating approaches to teaching ever produced by educators in the scientific field.

"This is the greatest thing that has happened to education in years," says Mrs. Pauline Hicks, one of five teachers participating in the training from the Clark Elementary School at West Prestonsburg.

Normally a third grade teacher, Mrs. Hicks will be teaching the new method at her school, one of seven in the county "to be saturated" with the new method through the first four grades this fall.

(more)

"I think the children will love it," she said, "because they will be involved in it. In my 11 years of teaching, I have never seen anything which captures the involvement of the early graders so quickly. It is amazing how quickly the children grasp the science principles presented at these early ages, and how contrary this is to the old belief that we had to wait until the child reached junior high or high school age before they would be ready for science."

Mrs. Ethel Ratliff, who teaches at the Prestonsburg Elementary School, admits the new method will require considerable teacher preparation, but says, "The extra work will be more than justified, however, by the child's acceptance and the progress made."

"The first and second grades are the very place to start teaching the fundamentals of science because children are so quick to learn at this age and are so curious about everything about them."

The new approach demonstrated at Morehead has been pioneered in a few selected metropolitan areas, but this is the first time it has been introduced into a rural educational program.

Among those participating in the preparatory work at Morehead State University are 37 teachers and two principals from Floyd County where the new method will be taught to pupils in the first four grades in 20 elementary schools this fall. In 1968, grades five and six will be added.

These schools and the number of pupils to be involved at each and totaling more than 1,440 are as follows: Clark, 240; Prestonsburg, 300; Martin, 120; Maytown, 120; Wayland, 120; Osborne, 240, and McDowell, 300.

Frank Stewart, Floyd County science consultant who works with some 12,000 youngsters in 40 consolidated schools and 40 rural schools in that Eastern Kentucky mountain county, thinks the new approach is "a tremendous educational advancement."

(more)

"I am convinced," he says, "that the teachers who have taken this training will find it will improve their instructional abilities, not only in the teaching of science but in all of their teaching areas.

"There are many times when the teacher takes for granted that a student gets the point of the lesson simply from a demonstration which she herself puts on, but, in reality, there are always a few who do not understand, even with the most simple experiments, what is involved and what is being done," he said.

"I also believe," he went on, "that this new approach is going to be a contagious one. Those who will not have the benefit of it are going to demand it once they see how enthusiastic their schoolmates are about it. This is one reason we plan to use it on all levels."

Wilburn Goble, principal of the Inez Elementary School in Martin County, feels the new method will catch on quickly and spread rapidly once it is introduced into the school system in his county.

"This new approach to teaching will have far-reaching effects," he believes, "and could change the teaching techniques in other areas. The teacher who has been trained in this method and who uses its techniques will never go back to the old lecture method."

The program also can be instrumental in solving other educational problems in the Eastern Kentucky poverty areas, Paul Luxmore, a teacher at the McDowell Elementary School in Floyd County, feels, because "it is just as effective for the child from a poverty-stricken home as it is for a child from a home of means."

"Many attempts have been made in the past to teach science, but this approach produces more of the desired results than any method

(more)

previously tried to my knowledge," he went on. "It is a child-centered program, and the actual participation of the child in the establishment of the principles involved in the key to rapid learning."

Miss Shirley Bradley, who has been teaching for 7 years in the Maytown School south of Prestonsburg, believes her pupils "will go wild over it, because they don't have to do a lot of reading and because they will be using their heads and hands together.

"They will be finding out things for themselves rather than having them told to them," she added. "Their thinking is stimulated as they enthusiastically search for answers. I am so excited about this new method of teaching, I can hardly wait to get home and get started with it."

In charge of the project at Morehead University this summer has been Dr. Crayton T. Jackson of the School of Science and Mathematics at the University. Dr. Edgar McCullough, professor of geology at the University of Arizona, Tucson, is the head teacher and co-director.

Three outstanding and experienced instructors also were brought to Morehead to lead the discussions. They are: Mrs. Alice Moses, supervising teacher at the University of Chicago; Mrs. Joyce Switzer of the Monmouth, Ill., public schools, and Morgan Tarrt of the Tucson public schools.

All are expected to return to the Morehead campus in the summer of 1968 for the second eight-week training workshop involving the new science teaching techniques. A similar workshop already has been approved by the National Science Foundation for the summer of 1968 at Morehead State University with the training beamed at the type of science instruction applicable to the 4th, 5th and 6th-grade levels.

(more)

fundamental principles of science 5555555

"Conservatively, this program is 10 to 20 years ahead of anything in use today," Dr. Adron Doran, President of Morehead University, has said, "and it can well be one of the most significant forward steps ever taken in science education in Kentucky's school system."

MOREHEAD, Ky., Aug. 10 -- Two high school students will receive tuition scholarships to the 1968 Cumberland Forest Music Camp on the basis of their performance during the current encampment at Morehead State University.

Each member of the current staff will nominate a student for the scholarships and the selection will be by staff vote.

The camp began Tuesday and will continue through Sunday, Aug. 20. Students have been assigned to various camp orchestras, which have begun rehearsals for a series of public concerts.

The program for the Concert Band's performance on Saturday at 7:30 p. m. in Baird Music Hall has been released by Dr. Robert Hawkins, co-director of the camp. It includes:

"Lola Flores, Paso Doble" by Sadel and Tucci; "Irish Tune from County Derry," Grainger; concert marches "Brighton Beach" or "Proud Heritage" by Latham; "America the Beautiful," Ward; selection from "Man of La Mancha," Leigh; "Cinderella Overture," Rodgers; "La Rougette" by Bennett; Finale to the Second Symphony, Erickson, and "Divertissement" by Persichette.

Harp soloists for "La Rougette" will be played by Adrien Dansker, Louise Benton and Elaine Peters.

Dr. Hawkins and David Bushouse will conduct the orchestra.

The enrollment included students at all levels of training and experience and ranging in age from 12 to 57. The youngest was a 7th grader and a drummer in his high school band, while the oldest was a high school band director. The average enrollee, however, was 19 and a college sophomore.

Some had been studying only briefly, while others had spent many years in private and classroom instruction.

Dr. Robert Hawkins, longtime director of the famed Gunnison Music Camp at Western State College, Gunnison, Colo., recently joined the Morehead faculty and will direct the music camp next year. Dr. Hawkins, regarded as a top-flight conductor and arranger, was formerly chairman of the Music Department at Western Colorado.

The aim of the faculty is to pitch the level of instruction at a plane higher than the student previously had performed.

The climax of the two-week encampment was its closing concert in which the students performed as soloists, members of ensembles or full orchestra, performing the works of the masters for the public.

Upon completion of the camp, the students leave for home inspired to better performance and fully aware how good music should be played.

"They won't go with perfect technique," one faculty member said, "but they will leave with a goal for which to strive."

MOREHEAD, Ky., August 18--

was among 139 high school and college musicians who participated in the second annual Cumberland Forest Music Camp at Morehead State University during the past two weeks.

A project of the Music Department of the University, the encampment attracted musicians from every corner of the country seeking to develop their musical skills under a distinguished visiting faculty. This year's enrollment represented 23 states.

Unlike a regular school curriculum, the camp offers only music training. Students have no other courses to prepare for, and concentrate solely on their music. They work long hours and under strict taskmasters. Some of the nation's leading conductors, composers, teachers and performers make up the camp faculty. Among those participating this year were: Milan Yancich, horn instructor at the Eastman School of Music, Rochester, N. Y.

Mrs. Margaret White, harp, William Bell, tuba, Van Haney, and Dr. Thomas Beversdorf, trombone, Jerry Sirucek, oboe, Dr. Eugene Rousseau, saxophone, and Harry Houdeshel, flute and former soloist with the U. S. Navy Band, all of the University of Indiana music faculty.

John Baldwin, percussion, Michigan State University, Lansing; Robert Nagel, New York City, trumpet; Bernard Portnoy, clarinet, Julliard School of Music, New York City, and Peter Sexauer, West Point, N. Y.

MOREHEAD, Ky., August 21--Two incoming Kentucky freshmen have been awarded scholarships to attend Morehead State University this fall by the Sears-Roebuck Foundation of Chicago, according to Elmer Anderson, Student Finance Officer at the University.

Miss Edith D. Mount was awarded a \$400 scholarship in recognition of her achievements while attending Louisville Male High School in Louisville. She is the daughter of Mr. and Mrs. Dwight E. Mount, 461 Chicopee Ave., Louisville.

Recipient of a \$300 Sears scholarship is Don Wigglesworth, son of Mrs. Alice Mae Maddox, 327 Steele Street, Frankfort, in recognition of his scholastic and leadership record while attending Frankfort High School.

MOREHEAD, Ky., August 21--Eighty-nine different courses will be offered for part-time students in evening and Saturday classes this fall at Morehead State University.

Registration for these students and classes is scheduled for Saturday, September 9, from 8 a. m. until noon in the new Laughlin Physical Education Building at the University.

Part-time students also may register at the first meeting of the class in which they wish to enroll, according to Monroe Wicker, Director of School Relations. Full-time students who plan to enroll for any of these courses may do so on the regular registration day, he said, and students holding a baccalaureate degree must be admitted to graduate study before enrolling.

The advance registration is being held to give the part-time students a better selection of classes, and enrollment in the evening and Saturday classes will be accepted until Friday, September 15, although many of the classes could be closed by that time.

Listed below are the classes offered, the hours of credit given and the University schools involved:

MONDAY NIGHT CLASSES

✓ SCHOOL OF APPLIED SCIENCES AND TECHNOLOGY

Agricultural Economics	3 hours
Welding Laboratory	2 hours
Business Communication	3 hours
Foundations of Industrial Education	3 hours

MOREHEAD STATE UNIVERSITY
MOREHEAD, KENTUCKY

MOREHEAD, Ky., (Aug. 25)--In the fall of 1921, an 18-year-old girl, Edna Marie Maguire, of Portsmouth Ohio, enrolled at the Normal School in Morehead, Ky., to learn to become a teacher.

For two terms she attended classes along with a handful of students in the school's one brick building.

Then she left to teach school in the Portsmouth area for two years before marrying a young steel worker and settling down to 43 years of marriage and housekeeping.

A few days ago, at 63 years of age and a widow, Mrs. Edna Marie Scott returned to Morehead to visit the scene of those early Normal School days after an absence of 45 years.

On the site where once stood the tiny, struggling school she attended, sprawled a vibrant and growing Morehead State University, an institution encompassing more than 50 major buildings and "home" during a school year to more than 6,000 students.

All the buildings Mrs. Scott knew as a young girl are gone now, replaced by such impressive structures as the Doran Student House, Fields Hall, the Johnson Camden Library, Mignon Hall Complex and many others, but her memories are still there.

Amazed at the tremendous growth which has taken place at the school over the years, she exclaimed several times during a special tour of the campus in a station wagon driven by Director of Security Russell Kirk, "Why, I'm so turned around I don't have any idea where I am."

"This also is the first time I have ever ridden in a police car, too!" she added with a twinkle in her eye.

morehead, ky. 2222222

Slightly crippled by a stroke suffered following the death of her husband, Mrs. Scott was accompanied to Morehead by two neighbors, Mrs. Effie Frye and Mrs. Harry Martin, and her son, Oral, a teacher at Lynn, Ky., and a student in the post summer school at the University.

"This is the greatest thing that ever happened to Mom," said Oral, a bachelor and with whom Mrs. Scott makes her home in Portsmouth. "She'll never stop talking about it."

FOR RELEASE AUGUST 28th

Morehead, Ky.--Project Upward Bound at Morehead State University, under the Office of Economic Opportunity in Washington, D.C., will be featured in a thirty minute TV special on Sunday, September 3 at 2 p.m.(EDT) over WSAZ-TV in Huntington, West Virginia.

Featured in the program was filmed activities which took place while the students were on the Morehead campus during the summer portion of the 1967 program. Highlights of these activities are the academic trips, the Upward Bound news show and recreational activities. Special emphasis will be placed upon the academic area including the Linguistic approach to English instruction. Also included in the program is the academic follow-up portion of the project, featuring the Upward Bound traveling art show and the performance of special one act plays at each participating school in Eastern Kentucky.

The script for the show was written by five students participating in the Upward Bound program with the assistance of three faculty members.

MOREHEAD, Ky., August 28--Morehead State University President and Mrs. Adron Doran are expected home this weekend after attending the first summer Council of Presidents held by the Association of State Colleges and Universities at Plattsburgh, N. Y.

More than 60 college and university presidents attended the meeting to share experiences in solving administrative, faculty and student concerns. Dr. Doran served as a discussion group chairman for one of the sessions, which were held on the campus of Plattsburg State University College at Plattsburgh.

Participating in morning discussion groups, the presidents focused their attention on six topics: administrators and administrative policies; academic organization; faculty participation in administration; faculty senates and councils; effective student government, and student participation in college operation.

The five-day program also offered a variety of social and recreational activities for the ASCU presidents and their wives and families, an afternoon of which involved a visit to Expo 67 at nearby Montreal.

Formed in 1961, the Association of State Colleges and Universities represents 219 public state colleges and universities in 43 states, the District of Columbia and the Island of Guam. Enrollment in member institutions is estimated at one and one-quarter million students.

MOREHEAD, Ky., August 29--A course in grammar and composition, English 405G, will be offered by Morehead State University over the facilities of Station WFPK-UHF, Channel 15, Kentuckiana Educational Television, beginning Monday, September 18.

The course, consisting of 45 presentations of 30 minutes each on structural, transformational and tagmemic grammar and composition, will run for 15 consecutive weeks.

Presentations will be televised for one group of students at 7:30 p. m. on Mondays, Wednesdays and Thursdays, and at 3:15 p. m. for another group on Mondays, Tuesdays and Thursdays. In the event a presentation cannot be made because of transmittal difficulties, the course will be extended.

The linguistics course will carry 3 semester hours of credit at both the graduate and undergraduate levels. Undergraduate students, however, must have at least 60 semester hours of college credit in order to be eligible for the course.

Instructing will be Dr. Lewis W. Barnes, professor of English at Morehead State University.

Tuition will be \$10 per semester hour for undergraduate students and \$12 per semester hour for graduate students. Registration should be completed by September 13.

The course, previously presented over WSAZ-TV, Huntington, W. Va., and in Jefferson County through the extension facilities of the University, is

EDITORS: HERE IS A BRIEF STORY AND PICTURES WHICH YOU MIGHT LIKE TO USE AS A PICTURE STORY ON THE CUMBERLAND FOREST MUSIC CAMP, WHICH IS DEVELOPING INTO ONE OF THE AREA'S TOP MUSICAL ARTS EVENTS. - BMT

MOREHEAD, Ky. --When the 150 students leave Cumberland Forest Music Camp this weekend they will have improved their skills, formed new friendships and developed a new appreciation for serious music.

"They won't go with perfect technique, but they will have a goal to reach for," was the way one faculty member summarized the purpose of the annual encampment.

The students will have rehearsed long hours as members of an orchestra in preparation for a public concert, studied as members of a class or privately with a skilled teacher. They will have learned to live as individuals in new group situations, and made new friends among the other campers.

Established as an annual event at Morehead State University, the Cumberland Forest Music Camp offers serious music students a chance to study intensively under skilled master musicians.

"They work us hard, but we learn in a short while lessons that we couldn't get at home," one student said of his experiences.

MOREHEAD STATE UNIVERSITY
MOREHEAD, KENTUCKY

MOREHEAD, Ky. --Housing for 856 students and a dramatic classroom and activities building were completed this summer at Morehead State University and will be put into use at the start of the fall term in September.

Costing \$7,015,000, the new construction includes two dormitories, one for women and one for men; an athletic dormitory; a married students apartment building and a health and physical education building.

Most spectacular of the new buildings is Mignon Tower, a 16-story cylindrical women's residence hall, which will house 300 co-eds in 75 suites.

Built at a cost of \$1,540,000, the tower dominates a complex of four women's residence halls named in honor of Mrs. Mignon Doran, wife of the Morehead president.

Located on a point on a hillside overlooking the rest of the campus, they are built of native field stone with pebble grain, precast concrete panels and glass.

Alumni Tower, a 10-story residence hall, will house 384 male students. Built at a cost of \$2,670,000, it also contains a cafeteria which will seat 500. It is the fifth new men's dormitory in a quadrangle near the eastern end of the campus.

Both of the new dormitories are air-conditioned and each has quarters for a director.

Nearby is a new apartment building for married students. It has 40 one-bedroom units and was built at a cost of \$740,000. Summer school students occupied the ultra-modern building for the first time.

Members of the Morehead athletic teams will occupy a new 132-man dormitory located on a hillside overlooking the University's relatively new

(more)

morehead construction 2222222

10,000-seat Breathitt Sports Center stadium. The two-story, tri-level facility includes 33 complete units for four men each.

Built of pre-fabricated steel wall panels and faced with brick, the building cost \$425,000 under a lease-purchase agreement with the W. E. McMaken Co. of Dayton, Ohio.

Also completed is a \$1,676,000 building to house the health and physical education program.

It features an activities room of more than 20,000 square feet of floor space, or more than two and one-half times the playing surface of the basketball court in the adjoining Laughlin Fieldhouse.

The activities room is surrounded on three sides by two stories of classrooms, departmental offices, bowling lanes, handball courts, a weight training room, a gymnastics room, showers and lockers and service rooms. Second story rooms open onto a balcony overlooking the activities room which can be divided by a folding partition.

With the completion of the five major buildings, another \$7,000,000 in construction is in progress on the Morehead campus and final plans have been drawn on a further like amount.

Construction is underway on a \$3,005,000 Professional Education Graduate Studies Building, a \$2,040,000 addition to Lappin Science Hall, a \$1,096,000 Art Building and a \$1,289,000 addition to Baird Music Hall.

Plans have been drawn for a \$2,200,000 addition to Doran Student House, a \$200,000 Alumni House, a \$1,950,000 residence hall to house 400 women, a \$2,225,000 residence hall for 512 men and a \$750,000 addition to the Home Economics and Industrial Arts Building.

(FOR A. M. RELEASE - SEPTEMBER 1)

MOREHEAD, Ky., September 1--A record enrollment of more than 6,200 students is expected at Morehead State University this fall.

This represents an anticipated increase of more than 800 students over the 5,484 who registered for the 1966 fall semester, and 1,532 more than the 4,668 who registered for the fall term of 1965.

The anticipated enrollment also includes more than 2,000 "new" students, including freshmen and transferees from other institutions. As of August 23, 1,967 of these new students had been approved for admission to the University this fall. Still more are expected to be approved for admission before the fall term opens on September 11.

Of these "new" students, 1,540, or 78.2% are Kentucky residents, and 427, or 21.7% are out-of-state residents. This represents a decrease of 4.3% in expected out-of-state admissions, as compared with the same period a year ago and reflects a continuation of the University's concentrated effort to hold out-of-state admissions to a minimum.

Among the "new" students approved for admission are 1,616 incoming freshmen, as compared with 1,450 approved at this time a year ago. Of these, 872, or 53.9% are male and 744, or 46.1% are female students.

Between 80 and 85% of the 6,200 expected enrollment will be housed on the campus, while 94.2% of the new students have requested and have been assigned on-campus housing.

The University's on-campus housing facilities have been increased to provide for 856 more students as a result of the completion this summer of five major buildings, including two impressive new dormitories:

morehead fall enrollment 2222222

Mignon Tower, a 16-story cylindrical women's residence hall for 300 co-eds in 75 suites, and

Alumni Tower, a 10-story residence hall which will house 384 male students.

Both new dormitories are air-conditioned and will be used for the first time this fall.

Nearby is a new apartment building for married students. It has 40 one-bedroom units and was occupied for the first time during the summer session. Still more new housing facilities are represented by the University's new 132-man athletic dormitory near the Breathitt Sports Center.

The two-story, tri-level dorm will house the members of the University's athletic teams and includes 33 complete units for four men each.

Also completed and ready for use this fall is a dramatic classroom and activities building, the Robert Laughlin Health Building. Costing \$1,676,000, this new facility will house the health and physical education program.

It features an activities room of more than 20,000 square feet of floor space or more than two and one-half times the playing surface of the basketball court in adjoining Laughlin Field House.

With completion of these five major buildings, another \$7,000,000 in construction is in progress on the Morehead campus and final plans have been made on a further like amount.

Construction is underway on a \$3,005,000 Professional Education Graduate Studies Building, scheduled for completion in the fall of 1968; a \$2,040,000 addition to Lappin Science Hall, scheduled for use in February, 1968; a \$1,096,000 Art Building, also slated for use next February; and a \$1,289,000 addition to Baird Music Hall, scheduled for completion in the fall of 1968.

MOREHEAD, Ky., September 1--Registration for the fall semester at Morehead State University will open officially Saturday, September 9, with the registration of part-time students for evening and Saturday classes.

The University is offering 88 courses, accounting for 244 semester hours of credit, this fall to those who wish to continue their education without full-time University enrollment. Registration for these students is scheduled from 8:00 a. m. until noon in the new Laughlin Health Building.

Sunday afternoon, September 10, Dr. Adron Doran, president of the University, will meet with the parents of freshmen and transfer students in a special orientation meeting, scheduled for 2:30 p. m. in Button Auditorium on the campus.

The University's dormitories--seven for women and seven for men--will be open at noon Sunday for freshmen. Upper classmen and transfer students will be housed as they arrive later in the week. The University cafeteria in the Doran Student House also will open at noon the same day for the fall semester.

Monday, September 11, will be orientation day for freshmen and transfer students before registration actually starts Tuesday morning with seniors and graduate students.

Registration this year will be held in the spacious activities room of the new Robert Laughlin Health Building. Class closings and other information relating to the registration will be broadcast periodically throughout the week by the University radio station, WMKY-FM, direct from the Laughlin Health Building.

Juniors and sophomores are scheduled to begin registering at noon Tuesday, continuing through Wednesday morning, September 13.

MOREHEAD STATE UNIVERSITY
MOREHEAD, KENTUCKY

FOR IMMEDIATE RELEASE:

MOREHEAD, KY., (September 7, 1967)--An address by Senator Ted Kennedy (D., Mass.), a concert by the New Christy Minstrels and the dedication of a new 10-story men's dormitory October 6-7 will highlight one of the most exciting Homecoming Weekends ever observed at Morehead State University.

The youthful Massachusetts senator's appearance at an all-student convocation at 2:30 p.m. Friday, October 6, in the University's Fieldhouse will officially open the festivities, expected to attract more than 10,000 alumni supporters and special guests to the campus.

A large number of public officials, headed by Gov. Ned Breathitt and Congressman Carl Perkins, is expected to be on hand to join Morehead President and Mrs. Adron Doran in welcoming the Senator to the campus.

The traditional Homecoming Candlelight Dinner for alumni and special guests is scheduled for 6:00 p.m. in the Doran Student House. Mrs. Doran and Director of Student Affairs Roger Wilson are in charge of arrangements, assisted by the Student Council and girls' social clubs.

Making their second appearance on the Morehead campus in three years will be the New Christy Minstrels, whose concert is scheduled for 8:30 to 10:30 p.m., Friday, in the Fieldhouse. These seven boys and two girls are the recognized leaders in the rejuvenation of folk singing, and their unique swinging/singing, feet stomping and finger-snapping performances have captured audiences on every age level.

Saturday's activities will be highlighted by the dedication of Alumni Tower, a 10-story men's residence hall which will house 400 students and include a cafeteria for 500. Costing \$2,481,000, it will be occupied for the first time this fall.

The dedication ceremony will be held at the dormitory, beginning at 10:30 a. m. with Dr. Doran delivering the dedicatory address.

This will be followed by a smorgasbord luncheon, to be served from 11:00 a. m. until 1:30 p. m. in the new cafeteria in the newly-dedicated residence hall, and open to the public.

Rounding out the Saturday morning activities will be the official registration of alumni and guests, beginning at 8 a. m., and various academic coffees, sponsored by academic organizations on the campus.

The afternoon Saturday will be traditional Homecoming football time with the 1966 Ohio Valley Conference Champion Eagles of Morehead colliding with the Commodores of Austin Peay College at Breathitt Sports Center with the kickoff scheduled for 2:30 p. m.

The 1967 Homecoming Queen and her court will be officially presented at halftime in connection with a performance by the University's 140-piece marching band.

Following a number of post-game receptions, arrangements for which have not been announced, the traditional Homecoming Dance in the new Robert Laughlin Health Building will bring the observance to a close with Buddy Morrow and his renowned "Night Train" orchestra providing the music.

The Homecoming theme at Morehead this year is "Our Growing University," and Rondal Hart, Director of Alumni Relations, is the general chairman in charge of program planning.

MOREHEAD STATE UNIVERSITY
MOREHEAD, KENTUCKY

MOREHEAD, Ky., Sept. 7 --"When there is no faith in the future, there is no power in the present," Dr. Lawrence Derthick, former United States Commissioner of Education during the Eisenhower Administration, said here tonight.

Speaking before the faculty and staff of Morehead State University on the eve of the fall semester, Dr. Derthick, currently the Assistant Secretary for Educational Services of the National Education Association, Washington, said:

"As teachers, we must create the type of climate on the campus today that will grow people for responsible citizenship."

"This requires the development of individual roles in the creation of the understanding and trust which is so basic to a sound system of government."

He listed four basic essentials for the development of this type of teacher-student relationship:

a. Personal examples set by the faculty. "We must be the type of leaders who can inspire people, who can create good will, confidence and self-respect in our students," he told the group, which included 65 new faculty and staff members and wives.

b. A deep-rooted obligation to the performance of duty. "This involves a willingness to battle obstacles, to speak up and be heard as well as the possession of a sense of duty, a sense of obligation and a willingness to put one's own interests behind the common interests of the group," he emphasized.

c. The ability to see the other fellow's viewpoint. "We must be the kind of people," he said at this point, "who can walk in the shoes of others so that we can get into their hearts and think as they do. It's not how much we know, but the way in which we work with students which will make the difference and reflect this vital factor."

d. A sense of humor and an understanding heart. "Young people are touched and motivated when the older people with whom they come in contact exemplify a genuine sense of humor and have an understanding heart," he said.

(more)

To be this kind of person brings rich rewards, he said. "We need the talents of our people and to magnify the best in our students will go a long way toward creating the climate that will grow people for responsible citizenship," he added.

"We also need to teach them to face up to reality," he went on, "for this keeps our souls in tune and reflects faith and the ability to withstand trouble. The real test is to have the comeback power to rebound after defeat, for when there is no faith in the future, there is no power in the present."

Dr. Derthick's address climaxed an evening of reception and dinner in honor of the new faculty and staff members and wives over which Morehead President and Mrs. Adron Doran presided.

Special guests included Dr. Harry Sparks, State Superintendent of Public Instruction and Chairman of the University's Board of Regents, and Board Members Lloyd Cassidy, Ashland, Dr. W. H. Cartmell, Maysville, D. H. Dorton, Paintsville, and Cloyd McDowell, Harlan, and their wives.

MOREHEAD, KENTUCKY

MOREHEAD, Ky., Sept. 12 -- Paul Anderson, the world's strongest man in the 1956 Olympics, will speak and give a weight-lifting demonstration at the Morehead State University Fieldhouse Tuesday, September 26.

The program, sponsored by the Baptist Student Union at the University, will begin at 7 p.m. There is no charge and the public is invited.

The 36-year-old Anderson lifted a record 1,130 pounds in three lifts for the Olympic triathlon in Munich, Germany, in 1955, and won the Olympics heavy-weight crown in Australia in 1956 by lifting a total of 1,102 pounds in three lifts.

On a "back lift" he lifted 6,276 pounds, a record which no other person has come close to reaching.

Anderson's superhuman strength, plus his personality, fine outlook on life and his spiritual convictions have sent him around the world several times as a good-will ambassador for the United States State Department.

On one such trip, he completely captivated Russia, a country seldom enthusiastic or impressed with American athletes.

Today, Anderson has a different kind of burden on his back.

With the help of his 26-year-old wife, Glenda, he operates the Paul Anderson Youth Home, Inc., a foster home for homeless youngsters at Vidalia, Ga.

From 15 to 20 youngsters are cared for at a time in the Anderson home, and since its founding in 1962, more than 40 young people from across the state of Georgia have found a haven in the old, ante-bellum mansion, which the Andersons bought in 1963 to provide a place "for the children."

Anderson is an active member of the Fellowship of Christian Athletes, but his main work today is managing and supporting his home for unwanted boys and girls in Vidalia.

MOREHEAD STATE UNIVERSITY
MOREHEAD, KENTUCKY

MOREHEAD, Ky., September 14--The marching band at Morehead State University has a new conductor.

He is Dr. Robert Hawkins, for 16 years chairman of the Music Division, conductor of bands and director of the Gunnison Music Camp at Western State College, Gunnison, Colo.

In addition to directing the marching band at Morehead, Dr. Hawkins will conduct all University bands and will direct the Cumberland Forest Music Camp, held on the campus each summer.

A native of Sullivan, Ind., Dr. Hawkins holds bachelor and master degrees in music education from Indiana State University at Terre Haute, and a doctorate in music education from Columbia University in New York City.

He also has served as an instructor of orchestral conducting at Columbia and conducted high school bands in West Terre Haute and Hartford City, Ind., and Manhasset, Long Island.

An accomplished clarinetist, Dr. Hawkins is the only active member of the American Band Masters Association in Kentucky, and is National Patron of Delta Omicron, a national music fraternity. He also holds honorary memberships in Kappa Kappa Psi and Phi Beta Mu music fraternities.

The new director is married to the former Kathryn Morris of Bloomington, Ind., and they have five children: Mrs. Robert Andrews, Madison, Wisc.; Dinah, a senior at Morehead University and a band member; Deliah, a freshman and member of the band's "Eaglettes"; Delori and Bradford.

The 128-piece Morehead band, resplendent in new uniforms consisting of black military shakkos, gold coats, black trousers and white belts, gloves and spats will make its first 1967-68 appearance under Dr. Hawkins' direction at the Morehead-Marshall football game in Morehead Saturday night.

FROM: MOREHEAD NEWS BUREAU
MOREHEAD STATE UNIVERSITY
MOREHEAD, KENTUCKY

MOREHEAD, Ky., Sept. 15--United States Commissioner of Education Harold Howe has classed Morehead State University among the great universities in the country today in recognition of the way in which its programs and facilities have been geared to meet the future needs of the total community.

Speaking before a national working conference of state commissions for higher education facilities at Raleigh, N. C., recently, the Commissioner said:

"Our educational institutions cannot remain isolated from their communities. The American university cannot be a withdrawn, uninvolved intellectual enclave while there is violence in our streets and still expect the populace to give it both support and freedom.

The world today demands that our colleges and universities be more than centers of learning," he went on. "They must be more than research centers. They must become part of the action."

The Commissioner then singled out and praised the community-involvement efforts of the University of Chicago, University of Colorado, University of Southern California, Antioch College, Harvard and the University of Omaha before saying:

"Morehead State University in Kentucky is relaying programmed instruction from a computer at Stanford University to backwoods, one-room schoolhouses in the surrounding rural hollows. Before long Morehead will relay instruction to Eskimo youngsters in Moosonee, Ontario, near the Arctic Circle."

Commissioner Howe visited the Morehead campus July 21, and in an address before an all-student convocation, described the University as "one which has gone from the 20th Century into the 22nd Century without bothering to stop in the 21st."

(more)

"We must take the best minds in our institutions," he also told the educators at Raleigh, "and turn them loose on the complex of urban problems--housing, law enforcement, transportation, air pollution, water pollution, rats, jobs and job training and retraining, meaningful programs for undereducated adults as well as dropouts and monosyllabic preschoolers.

"It is not enough to design our campus structures as efficient learning machines. It is not enough to design our buildings so that they sit lightly upon the land with grace and beauty--surrounded by slums."

"It is time for our universities and our university planners to think in terms of viable neighborhoods," he said in conclusion.

"I would particularly urge you to consider alliances that combine not just libraries or other kinds of physical resources, but different kinds of people-- eminent scholars and distinctive teachers whose unique gifts might be shared by several public and private institutions rather than being reserved to one."

MOREHEAD, Ky., Sept. 18 -- Miss Katherine Rogers, Morehead State University student from Owingsville, has been named the recipient of the 1967-68 Mary A. Latham Scholarship Fund.

Miss Rogers will receive \$300 from the fund during the current school year. The fund is supported by the Kentucky Department of Classroom Teachers.

Established in 1956, the Latham Scholarship is to help deserving students who are studying education to financially find their way through college. The idea is, the KDCT says, "to replace a teacher with a teacher."

A student is named to receive the scholarship every four years. The scholarship was set up at the death of Miss Latham, herself a teacher, "to honor all teachers who exemplify good teaching."

MOREHEAD, Ky., September _____ County has been designated one of six counties in a Morehead State University project to stimulate and develop community recreation programs.

Consultants from Morehead State University are already assisting local leaders in the planning stage of the undertaking.

_____ County leaders are being contacted by Morehead staff members Rex Chaney, Assistant Professor of Recreation, and Dr. John R. Duncan, Assistant Professor of Sociology. Chaney and Duncan are surveying the recreational needs of the county and, together with county leaders, arriving at specific recommendations which may lead to the setting up of an organized, workable recreation program for _____ County.

The six counties that have been selected for inclusion in the project are Boyd, Elliott, Johnson, Mason, Pike and Rowan.

The project is being financed by a total grant of \$25,746, of which \$19,310 is being provided as a result of the Higher Education Act of 1965. The remaining \$6,436 is being provided by Morehead State University.

MOREHEAD, Ky., Sept. 20—Kenneth G. Vance, Frankfort, has joined the faculty and staff of Morehead State University, President Adron Doran has announced.

He will teach in the University's Division of Communication and report academic news for release through the Office of Public Information.

Vance, a native of Barren County, is a 1952 journalism graduate of the University of Kentucky. He recently completed a year's graduate study in UK's Department of Communications, and has earned a masters degree in communication.

Before entering graduate school, Vance worked for five years as a publicity specialist for the State of Kentucky in Frankfort in the areas of natural resources, mental health, and highways.

He is married to the former Margaret Ann Soward of Maysville and has two children--Karen, 14, and Allen, 10.

FOR IMMEDIATE RELEASE

MOREHEAD, Ky., Sept. 22--If there is anyone on the Morehead State University Campus who puts more daily hours into his job than President Adron Doran, it's probably Russell L. Kirk, Director of Security for the University.

"The 'L' in my name is for lazy," he quipped. Actually, he's on call 24 hours a day to assist in the direction of traffic, to help students and faculty members with some of their problems and to discourage any intruders that might do an injustice to the University.

In case students or visitors to the University wonder what the walkie-talkie Kirk always has on his hip or in his hand is for, it's to keep in contact with the Morehead City Police Department because the city police and University security force work together quite cooperatively.

"I'm a hillbilly", Kirk says, "My wife's great grandmother was Rosanna McCoy, who was one of the leading figures in the infamous Hatfield-McCoy feud." Kirk's wife, Elaine, is coordinator for Educational Television on the campus.

Kirk laughingly recalls an incident in which an English student attending Morehead had written a "cold" check and given it to a local merchant. The merchant, in turn, swore out a warrant for the lad.

When Kirk located the boy and accompanied him to the store to face the merchant, it turned out that the student was not really aware that a bad check had been written. Kirk said the boy apparently thought that so long as one had an account in the bank it was not necessary to have money there, too. The boy had an account but no money. Kirk thought the difference in banking procedure in England and the United States had brought on the misunderstanding.

At any rate, this illustrates the way Kirk strives to bring about improved understanding between students and anyone with whom they may be having problems.

On another occasion, the mother of a student called Kirk at 2 a.m., asking him to contact her son and have him call her. He hadn't written her. Kirk found

(more)

russell kirk 2222222

the boy, loaned him a dime to make the long distance call (collect), and went home and went to bed. After Kirk had fallen asleep his phone rang again. It was the mother, calling to thank Kirk for helping her communicate with her son. "But how can you get mad when someone calls up to thank you," he said.

When asked if he's ever had a baby born in his car while rushing a student's wife to the hospital, he said, "No, but I came close; I heard the baby crying as I walked away from the emergency room."

Kirk says the Security Force has very few problems with students. "I'll tell you this," he said, "there are a whole lot more good ones than there are bad ones."

Kirk says he didn't go into detective work because it does not give one the opportunity to be around people—lots of people. He delights in taking care of the crowds at ball games and other campus gatherings. He points out that the Kentucky State Police and the Morehead City Police are invaluable to carrying out this undertaking.

Kirk says his force puts great stress on speedily getting emergency messages from home and elsewhere to students. He says they have a system worked out whereby they can find the students pretty fast.

Kirk is starting his fourth year at Morehead this semester. He came here from Paintsville, where he was city judge. Earlier he spent six years as a police captain at Standiford Field in Louisville.

He mentioned that on this job he had the opportunity to talk with several celebrities, including former Presidents John F. Kennedy and Dwight D. Eisenhower; TV Star Perry Mason, Mahalia Jackson, the religious singer; and the late Marilyn Monroe. He said Miss Monroe had several questions about what the people of Eastern Kentucky are really like.

In addition to Kirk, there are two other Security staff members—E. J. Music, former chief of police at Paintsville; and Carl Johnson, the campus night officer.

MOREHEAD, KENTUCKY

FOR IMMEDIATE RELEASE

MOREHEAD, Ky., Sept. 25 -- Charles L. Honeywell, Industrial Education Instructor at Morehead State University, has developed an explosive device for demonstrating the forming of metal that has wide application in the space and aircraft industries.

The process of explosion forming saves industry from having to invest in a lot of expensive machinery because it makes possible the use of a one-piece die instead of a two-part one as conventional forming requires.

The process is capable of forming space age metals that cannot be formed by conventional methods. The explosive process produces extraordinary pressures that give uniform thickness to the metal when it is formed into the desired shape. After the metal has been formed, it will not spring back from the die as does materials formed conventionally.

Honeywell feels that the device has implications for use in industrial arts classes in high school and college and for technical and engineering schools. He plans to build a prototype of the device during this school year.

The Vega Enterprises of Decatur, Illinois, has expressed a willingness to work with Honeywell on the possibility of getting the product he has developed into production.

In addition to following his profession in industrial education, Honeywell is also interested in industrial photography. He recently prepared a 65-slide series on the techniques involved in the application of coating metal and wood products. The series called "Let's Look at Finishing" will have a script to go with it that can be read or taped and played along with the slides.

A native of Kalamazoo, Mich., Honeywell received his BS and MA degrees from Western Michigan University at Kalamazoo. This is his first year of teaching at Morehead.

MOREHEAD, KENTUCKY

MOREHEAD, Ky., Sept. 25 -- The Morehead State University Fieldhouse is expected to be packed to capacity Friday night, October 6, when the ever-popular New Christy Minstrels present their second concert on the campus in three years.

The concert, one of 10 exciting events open to the public and planned for the University's annual Homecoming Weekend, is scheduled for 8:30 until 10:30 p.m. It will climax a day also highlighted by an address by U. S. Senator Ted Kennedy. The Senator will speak at an all-student convocation at the Fieldhouse at 2:30 in the afternoon.

The seven boys and two girls who make up the New Christy Minstrels are the recognized leaders in the rejuvenation of folk singing, and their feet-stomping, finger-snapping performances have captivated audiences all over the world.

They perform "en masse," and each individual has his or her own specialty which can be performed as a solo. They accompany themselves on banjos, guitars and bass.

Their clean-cut, likeable, youthful and typically American appearance has made them favorites of college students all across America.

Preceding the concert will be the University's traditional Candlelight Dinner in the Doran Student House, beginning at 6 p.m. Mrs. Adron Doran, wife of the Morehead University President, will provide organ music for the affair along with a combo made up of University musicians.

Other Homecoming activities include the dedication of Alumni Tower, the University's new 10-story men's residence hall, at 10:30 a.m. Saturday, October 7, and a smorgasbord luncheon, to be served from 11 a.m. until 1:30 p.m. in the new cafeteria of the newly-dedicated residence hall.

At 2:30 p.m., the Morehead State University Eagles will collide with the Governors of Austin Peay State University in the annual Homecoming football game at Breathitt Sports Center.

(more)

homecoming at msu 2222222

A highlight of the game will be the presentation during the half-time activities of the 1967 Homecoming Queen and her court. Last year's Queen, Pat Campbell of Hazard, is now married and living in Germany and will be unable to participate in the festivities.

The Homecoming activities will be drawn to a climax Saturday night when Buddy Morrow and his famous "Night Train" orchestra will provide the music for the annual Homecoming Dance in the new Robert Laughlin Health Building. Dancing will be from 8:30 p.m. until 12 midnight.

More than 10,000 alumni and friends of the University are expected in Morehead for the Homecoming festivities. Tickets to any or all events are on sale in the University Business Office.

Non-student tickets are \$3 each for the New Christy Minstrels concert; \$2 per adult for the Smorgasbord Luncheon and \$1.25 per child; \$5 per couple for the dance; and \$2.06 each for reserved seats and \$1.55 each general admission for the Homecoming football game.

Student prices are \$2 each for the concert and \$4 per couple for the dance, although a combination ticket for the two events is available for \$7, representing a savings of one dollar. The other prices are the same for students as for non-students.

MOREHEAD STATE UNIVERSITY
MOREHEAD, KENTUCKY

MOREHEAD, Ky., Sept. 26 -- George Andrix, newly-appointed conductor of the Morehead State University orchestra, will present a recital of music for violin and piano in Baird Music Hall Tuesday night, October 3.

Beginning at 8 p.m., the program will open the fall concert season at the University.

A member of the University's faculty string quartet and an instructor of violin and viola, Mr. Andrix recently joined the Morehead faculty from Ithaca, N. Y., where he was on the faculty of Ithaca College. A native of Chicago, he received his bachelor and master degrees of music from the University of Illinois.

Assisted by Mr. Karl Payne, Andrix will play music by composers ranging from Telemann to John Cage. Although Cage has acquired a reputation as the "bad boy" of 20th Century music, the piece Andrix will play, "Six Melodies for Violin and Keyboard," is mild and of an oriental flavor.

Another seldom heard work will be Anton Webern's "Four Pieces for Violin and Piano." Others will be the "Sonatina in D Major," by Schubert, and the "Romanian Dances of Bartok."

MOREHEAD, KENTUCKY

MOREHEAD, Ky., Sept. 27 -- Dr. Adron Doran, President of Morehead State University, has been named by President Lyndon B. Johnson to a 15-member National Advisory Council on Education Professions Development, the White House has announced.

The purpose of the Council will be to review, evaluate and give advice on improving the quality of teaching. It also will advise the President, the Secretary of Health, Welfare and Education and the Commissioner of Education on how to meet critical shortages of trained personnel in the nation's schools, colleges and universities.

The creation of the Council and the appointment of its members was directed under the provisions of House Bill 10943, introduced June 16, by Congressman Carl Perkins of the 7th Kentucky District to amend and extend Title V of the Higher Education Act of 1965.

In addition to Dr. Doran, the other educators named to the Council as announced by the White House include:

Sister Mary Corita, R.H.M., professor of arts at Immaculate Heart College, Los Angeles; E. Leonard Jossem, professor and chairman of physics, Ohio State University; Marjorie Lerner, principal of Donoghue Elementary School, Chicago; Mary Rieke, president of the Oregon School Boards Association.

Carl Marburger, commissioner of education for the State of New Jersey; Lloyd Morrisett, vice-president of the Carnegie Foundation for the Advancement of Teaching, New York; Theodore Sizer, Dean of the Faculty of Education, Harvard University.

Bernard Watson, associate superintendent of schools, Philadelphia; Don Davies, executive secretary of the National Commission on Teacher Education and Professional Standards, National Education Association, Washington; Annette Engel, teacher-counselor, Roosevelt Elementary School District, Phoenix.

Edward Moreno, foreign language consultant, K-12, Ventura County Schools, Ventura, Calif.; Kathryn Lumley, director of reading clinics, Washington, D. C.,

(more)

dr. adron doran, msu 2222222

schools; Susan W. Gray, director of the Demonstration and Research Center for Early Education at George Peabody College, Nashville, Tennessee.

Chairman of the Council will be Dr. Lawrence D. Haskew, vice-chancellor of the University of Texas System, Austin.

Dr. Doran's appointment exemplifies the high regard in which the Morehead State University President is held in the nation's capitol and in national educational circles.

Dr. Doran currently is serving as a member of the Education Advisory Committee to the Appalachian Commission in Washington, representing Kentucky by appointment of Gov. Ned Breathitt. He also participated in the 1952 White House Conference on Education called by former President Eisenhower and has taken part in two similar White House conferences called by President Johnson.

In addition, he has served as a member of the National Education Association Legislative Commission during the period in which the Elementary and Secondary Education Act was drafted and passed.

One of America's foremost educators, Dr. Doran also has appeared on numerous occasions to testify before the Committee of Education of the House of Representatives, of which Congressman Perkins is the chairman.

MOREHEAD STATE UNIVERSITY
MOREHEAD, KENTUCKY

FOR IMMEDIATE RELEASE

MOREHEAD, Ky., Sept. 27 — "The classroom teacher will be the most important person in Kentucky's new educational television network when it goes into operation next year," Charles Klasek, the network's new program director, said to more than 100 interested persons gathered at Morehead State University last night.

Klasek stressed that instructional TV will never replace the teacher. "However, it will be a significant tool that can be used by the teacher to bring meaningful information to the students," he said, adding, "that probably no more than 10 per cent of classroom time will be devoted to TV in a given grade."

With television, it was pointed out, it will be possible to bring such figures as English Historian Arnold Toynbee before the children, to teach a child to play a clarinet or to demonstrate the latest uses of a laser beam. And this can all be done for no more than the cost of one textbook per student per year.

It was suggested that school superintendents begin now, while preparing their budgets, to provide for the cost of installing TV sets in their classrooms. Average costs are expected to be about \$1,600 per school. A portion of this cost may be obtained from federal money.

The main role of the statewide system will be for classroom instruction, but it also will be used for training of teachers, business seminars, adult education and cultural enrichment during out-of-school hours. Educational TV from stations outside the state has been used to combat illiteracy effectively. This way, an illiterate person at an advanced age can sit in the privacy of his home and learn how to read and write without having to undergo what might be to him the embarrassment of sitting in a classroom with small children.

Morehead will be one of eight production centers in Kentucky. The building where the production center is to be housed is under construction. Within 18 months eight to ten people will be employed in the Morehead program. The over-all network is expected to use 111 people when it goes on the air next fall.

FROM: OFFICE OF PUBLIC INFORMATION
MOREHEAD STATE UNIVERSITY
MOREHEAD, KENTUCKY

FOR IMMEDIATE RELEASE

MOREHEAD, Ky., Sept. 28--Five of the original 33 graduate students who began the two-year Teacher Corps training program at Morehead State University in 1966 are helping to raise the aspirations of school children in Breathitt County. The others have been assigned to the western Kentucky area and to out-of-state school districts.

Morehead recently received \$2,604 from the federal government to carry on the Breathitt County program during this semester. A like amount is expected for next semester.

Dr. Lawrence Griesinger, director of the Morehead program, says the Teacher Corps is designed to break the chain of poverty by attracting college graduates into the program and making it possible for them to go into disadvantaged school districts and encouraging the people to accept new ideas, new knowledge, and new ways of living, which should give them new hope for the future.

The federal grant is for such things as paying travel costs of personnel to and from Breathitt County and the graduate school costs of the Teacher Corps students, generally known as "interns."

Working in cooperation with the Breathitt County School Board, the Morehead staff assigned the five interns to the LittleRed Jr. High School at Jackson. At the school, the interns work closely with the teachers already there in an effort to induce them to accept newer teaching methods, such as team teaching and the using of audio-visual equipment. Also, they urge students to accept individual responsibility as a means of accomplishing a better life for himself and those around him.

By being at the Little Red Jr. High School, each of the interns brings a little different experience to the student living in one of the nation's more deprived

(more)

school districts. The intern's being there makes possible several extra-curricular activities, such as improved grooming, baton twirling and making the classroom more attractive.

Griesinger says the Morehead staff is hopeful that the interns will want to remain in the Appalachian area after completion of their training.

During the second year of training, an intern is given a class of his own. He can plan it, teach it, and evaluate it. This gives him a chance to see how effective he is being with the methods he is using. If they are not effective, he is given the option of revising them.

The interns like to work with small groups. This makes possible the giving of more personal attention to the student and thus strengthens his sense of worth as an individual. Much individual tutoring is done.

The fine interns participating in the Morehead program are:

Gloria Chapelle, Apopka, Fla., who was recently married. She has a BA degree in sociology and education, is interested in sewing, cooking, dancing, tennis, and collecting newspaper articles. Her main ambition in life is to share what she has learned with someone who has not been as fortunate as herself.

Cathleen Wilson, Villa Park, Ill., is 32 years old and a speech graduate of Rosary College. She has had experience in the production of plays. She worked as a switchboard operator and ad taker for the telephone company while in college. Having received the advantages of a secure family, she feels she should now help give this advantage to others.

Richard Rogers, Mason, Texas, is a graduate of Texas Wesleyan College, where he majored in history and art. For six years he taught swimming, diving, and life-saving. He likes horseback riding. He wants to teach others about friendship, leadership, how to be of service to their community.

morehead teacher corps 000000

Myrna Bernstein, South Orange, N. J., received her BA degree in elementary education at Newark State College. She's familiar with two foreign languages--Spanish and French. She's served as a cashier for a supermarket, run a snack bar, and worked as a clerk-typist. She says she does not want to "change the world" but just help the people in it; that if she can help just one little child, she will be very happy. Her college's motto was: "He Who Dares to Teach Must Never Cease to Learn." She'd like to keep on learning so that she may be a dynamic teacher with new and interesting ideas and methods.

Edward Andres, St. Joseph, Mo., earned his degree from Conception Seminary, where he majored in social science and philosophy. While in college, he participated in intramural sports and the apostolic work program. Now on a leave of absence from studying for the priesthood, he feels that the experience he is getting in the Teacher Corps will give him a chance to re-evaluate his motives for continuing into theology. He says that he believes, with his experience, he has something to offer the Corps and that it has much to offer him.

With the possibility of attracting young people with such a wealth of training and experience to their schools, one would wonder why more Kentucky superintendents have not requested the presence of Teacher Corps interns for their schools.

Griesinger says it is probably because the program has not yet been widely publicized in this geographic area. He emphasized that superintendents should let it be known if they desire the presence of interns in their schools. If there is enough interest in Kentucky school districts, the program will probably continue beyond 1968. But he says there is little incentive for Morehead to expend its energies on training these interns if they are to be sent out of state, as was the case of approximately 20 from the first group to be trained at the University.

(more)

morehead teacher corps 4444444

To qualify for the program 50 per cent of a school's pupils must be from families that have an annual income of \$3,000 or less; and the school system must pay 10 per cent of the cost of the program.

Griesinger pointed out that it is not possible for the program at Morehead to grow as much as was at first thought because of the cut in funds by Congress--from \$36 million down to \$12 million.

So far, absenteeism seems to have been lessened in the Little Red Jr. High School. Griesinger attributes this to an enthusiasm of the teacher and student toward having the interns in the classroom, an enthusiasm on the part of the interns toward helping each child with his problems, visits to the homes of students who are frequently absent but have poor excuses, and cooperation with regular teachers in planning the class schedule so that high interest is likely to result.

Besides Griesinger, there are two other Morehead staff members-- Dr. James Johnson and Dr. Robert Needham. Mrs. Ruth Tolliver, Jackson, is program coordinator for the Breathitt County program.

Two other Kentucky universities--Western Kentucky University and the University of Kentucky--also give Teacher Corps training.

FROM: OFFICE OF PUBLIC INFORMATION
MOREHEAD STATE UNIVERSITY
MOREHEAD, KENTUCKY

FOR IMMEDIATE RELEASE

MOREHEAD, Ky., Sept. 28 — Dr. Gustave O. Arlt, president of the Council of Graduate Schools in the United States, Washington, will visit Morehead State University Oct. 2 and 3 to consult with university officials concerning the school's graduate programs.

Dr. Arlt, who was invited to the Morehead campus by President Adron Doran, will meet with the deans of the five schools of the University, the heads of departments planning to offer graduate degrees in the near future, as well as the entire faculty during his two-day stay on the campus.

Dr. Jarvis H. Hill, dean of Morehead's graduate programs, said the Council of Graduate Schools is one of the three top professional organizations in the nation to which graduate schools of an educational institution may belong. He said the organization's function is to improve and advance graduate education. The Council accepts members only after visiting them and talking with their leaders.

Dr. Hill added that the council is not an accrediting agency like the Southern Association of Colleges and Schools, but is rather an organization that makes recommendations, not regulations, on how the quality of education of its member schools can be improved. Representatives of the Council's member institutions meet yearly.

To become a member of the Council of Graduate Schools, a school must have graduate programs in at least three areas other than education and must have at least 30 students graduate from these programs each year. Dr. Hill pointed out that Morehead now has the required programs—biology, history, English, and Music—but is not yet turning out the minimum 30 graduates. He estimates the University will meet this requirement within two to three years.

Dr. Arlt is a 1931 graduate of the University of California Law School and has spent many years as a civic and educational leader in various parts of the nation.

MOREHEAD, Ky., Oct 2 -- Harlen Hamm, speech and drama instructor at Morehead State University's Breckinridge School, has been named "Kentucky Speech Teacher of the Year" by the Kentucky Speech Association.

Hamm was selected for the honor at a conference last weekend in Lexington, attended by 175 speech educators.

In addition to receiving a plaque, Hamm will represent Kentucky speech teachers at the Southern Speech Association Conference at its April meeting in Memphis. This group will also select a speech teacher of the year.

The award Hamm won is given each year to the person the group feels is the most outstanding young speech teacher in the state. Candidates for the award must not have taught more than five years.

Hamm, a native of Felicity, Ohio, received his BA degree from Morehead in 1964 and his masters from Bowling Green (Ohio) State University in 1965. He is director of the Kentucky State Thespians, which is a sub-group of the National Thespian Society, a high school drama organization.

Hamm has taught at Breckinridge for two years.

MOREHEAD, Ky., Oct 2 -- Karl Payne of the Morehead State University faculty and his wife, Beverly, a private music teacher, will perform in Cincinnati Oct. 8, as a part of the Musical Homes Tour.

The Tour, sponsored by the Keyboard Club of Cincinnati, is designed to afford an opportunity for musicians to hear the music of other musicians and to derive funds for college scholarships to talented individuals.

The tour will include five prominent Cincinnati homes where a half-hour of music will be played at each. The Paynes will render piano duets and a solo will be played by Payne.

The Keyboard Club of Cincinnati was started about 30 years ago by Payne's mother.

The tour is to be from 2 p.m. until 5 p.m.

MOREHEAD, Ky., (Oct. 2) -- Plans are being completed at Morehead State University for the appearance on the campus Friday afternoon of U.S. Senator Edward M. (Ted) Kennedy and the opening of the University's annual Homecoming observance.

The youthful Massachusetts Senator and brother of the late President John F. Kennedy is scheduled to arrive at the Rowan County Airport at 2 p.m. in his own plane, following a noon speaking engagement at Morgantown, W. Va.

He will be met at the airport by a student delegation led by Art Dayton, president of the Student Council, Miss Lydia Lewis, Maysville, the 1967 Homecoming Queen and the presidents of 11 social organizations on the campus.

With Bill Ewers of the University Business Office at the wheel, he then will be driven to the home of Morehead University President and Mrs. Adron Doran on the campus.

There, he will meet briefly with several dignitaries, including U. S. Senator John Sherman Cooper, Lieut. Gov. Harry Lee Waterfield and Congressmen Carl Perkins and Tim Lee Carter before going to the Laughlin Gymnasium to deliver an address before an all-student-faculty convocation, beginning at 2:30 p.m. which will be open to the public.

Lieut. Gov. Harry Lee Waterfield will represent Gov. Ned Breathitt, who will be unable to attend because of a previous commitment.

Sharing the platform with the Senator at the Fieldhouse in addition to President and Mrs. Doran, Senator Cooper, Lieut. Gov. Waterfield, Congressmen Perkins and Carter, Dayton and Queen, Miss Lewis, will be:

Past and present members of the University's Board of Regents; officers of the Alumni Association; constitutional heads of the State Government; state Junior Chamber of Commerce and Chamber of Commerce officials and the administrative and academic deans of the University.

(more)

morehead-kennedy 222222

Others will include Federal Judge and former Kentucky Gov. Bert T. Combs, Circuit Judge Bernard T. Moynahan and Commonwealth Attorney Elijah Hogge.

Music at the convocation will be provided by the University's Concert Choir under the direction of James Beane and its 128-piece marching band under the direction of Dr. Robert Hawkins.

Immediately following the Senator's address, a reception will be held in the spacious activities room of the new Laughlin Health Building at which as many persons as possible will be given an opportunity to meet the Senator.

Senator Kennedy is scheduled to leave for the Rowan County Airport at 4:45 p.m. from which Governor Breathitt's personal plane will take him to Louisville, where he is scheduled to catch a 6:30 p.m. flight for Memphis.

MOREHEAD, Ky., Oct. 3 -- Seventy per cent of the Selective Service quotas to be filled next summer will be made up of students who have had one year of graduate school work or who have just received bachelor degrees, Dr. Gustave O. Arlt, president of the Council of Graduate Schools in the United States, said here today.

"Under the provisions of the Selective Service directive issued last May," he said, "any student who has been accepted for graduate school, or who is in a graduate school as of October 1, of this year; automatically becomes classified 2-S until June of 1968 when he automatically will become 1-A."

"This means," he stressed, "that beginning next June, we will have the most highly educated Selective Service draftees in the history of our military service."

"As a result," he said, "enrollments in the nation's graduate schools in the fall of 1968 will include men not acceptable for military service, but none who have been deferred for educational purposes."

Dr. Arlt, who is on the Morehead campus for a two-day consultation with University officials in connection with the new graduate programs offered, emphasized that after next June "no deferments whatsoever will be granted graduate students with exception of medical, veterinary and dental students."

"This means that a graduate student who read and understands the regulations knew when he entered graduate school this fall that he was classifying himself automatically 1-A for military service," he said.

"This is tragic," he went on. "The term 'Selective Service' not only means 'selected for service,' but also 'selected for deferment,' and we must devise some system under which the education of our future scientists, researchers and technical people can be continued uninterrupted.

"Unless such a system can be devised, we will lose one of the most valuable resources of our nation---its highly-trained leaders of tomorrow."

(more)

dr. arlt at msu 2222222

The former dean of the Graduate School of the University of California at Los Angeles went on to stress the urgent need today for an ever-increasing number of trained people for the faculties of the new junior and community colleges springing up all over the country.

"Within the next six years," he predicted, "we will need 140,000 new teachers for the junior colleges which are coming into existence today at the rate of 10 a month."

Dr. Arlt praised Morehead State University highly for recognizing this need and for its efforts to date in initiating the type of graduate programs necessary to help meet this need.

The Council of Graduate Schools president also praised the University for the careful way in which it is developing its graduate programs.

The Council of Graduate Schools is one of the three top professional organizations in the nation to which graduate schools of an educational institution may belong. It has 247 institutional members at the present time with headquarters in Washington. Dr. Arlt has served as its president since 1961.

FOR IMMEDIATE RELEASE

MOREHEAD, Ky., Oct. 4 -- As the Morehead State University Eagles take on the Austin Peay Governors in Saturday's Homecoming classic, the 128-piece University Marching Band will be on hand to foster the school spirit.

Before the game gets underway, the band, led by Dr. Robert Hawkins, will put on a 15-minute pageant with a patriotic theme. At halftime, the band will participate in the presentation of the Homecoming Queen and her court of 10 campus finalists from which she was chosen to reign.

In addition to Dr. Hawkins, several others in the music division make leading contributions to the band's success. They are:

James Martin, associate conductor, who came to Morehead in 1965. He does recitals both on and off campus. He played for two years in the Lexington Philharmonic Orchestra.

David Bushouse, also an associate conductor, has played with the Memphis Symphony Orchestra and currently plays with the Lexington Philharmonic Orchestra in addition to his work at Morehead.

Eugene Norden is a graduate student from Colorado Springs, Colo., who has taught music two years in high school. Richard Kerestan is an undergraduate assistant from Springdale, Pa., who was a member of the Pennsylvania All-State Band in 1963. Thomas Stern is student manager. He served as band manager for the four years he was in high school at Seaman, Ohio.

Fletcher Rainer, band librarian, is also from Colorado Springs. He's had 14 years of experience playing a French horn and has won honors as a member of the All-City Band and Orchestra of Los Angeles.

Charles Lee, drum major, while in high school at Crown Point, Ind., served as head drum major and led the high school band to a state championship. Jim Gallaher from Louisa is student manager. He has seven years experience playing a French horn.

(more)

university band 2222222

Patty Toops, band secretary, is from South Charleston, Ohio. She has played clarinet for ten years and is at Morehead on a musical scholarship.

The band this season is sporting new uniforms consisting of black military shakos, gold coats, black trousers and white belts, and gloves and spats.

A colorful segment of the band is the Eaglettes Majorette Corps, staffed by 20 coeds.

They usually alternate in pairs as featured twirlers during the half-time activities. Featured this week at the Homecoming game will be Deliah Hawkins, Morehead; Judi Lawson, Cincinnati; and Jeanne Simpson, Tipp City, Ohio.

The band usually uses about six different field patterns or maneuvers during a football season. The formations are designed by Dr. Hawkins, who sees the task as consisting of coming up with ideas and then translating them into music and marching students.

The band practices for an hour and a quarter each weekday and about two hours each Saturday morning whenever there is a home game scheduled.

MOREHEAD, Ky., (Oct. 9)--More than 100 colleges and universities from 10 southeastern states will be represented when the 16th annual meeting of the Southern Regional Association of Physical Plant Administrators of Colleges and Universities convenes next weekend on the Morehead State University campus.

The meeting, to be attended by buildings and grounds maintenance superintendents from colleges and universities across the 10-state area, will open Sunday evening October 15, with a smorgasbord dinner at Carter Caves State Park.

Dr. Adron Doran, president of the University, will deliver the welcoming address and musical entertainment will be provided by Mrs. Doran.

Among those scheduled to speak during the two-and-a-half-day meeting are:

L. K. Koller, manager of special carpet products, Bigelow-Sanford, Inc., New York, who will speak on "Carpet Maintenance Goes to School."

B. P. Robertson, director of the Division of Regulations and Exemptions, Department of Labor, Washington, who will discuss the "Fair Labor Standards Act as amended 1966."

Arthur F. Barnett, administrative officer, Resources Management Division, Office of the Civil Engineer, Wright Patterson Air Force Base, Dayton, who will speak on "Real Property - Maintenance and Management," and

Dr. Harry M. Sparks, Superintendent of Public Instruction, Frankfort, who will discuss "Profits and Politics."

An interesting program has been planned for the wives while their husbands are attending the business sessions in the Little Theatre of the Bert T. Combs Building on the campus.

(more)

srappauc meeting on morehead campus 2222222

Monday, the wives will be taken by bus to Berea, Ky., to visit famous Berea College and to lunch at Boone Tavern.

Tuesday, they will go to Frankfort for a coffee at the Governor's Mansion, a tour of the Capitol Building and lunch at the Ramada Inn in Lexington. Wednesday, the wives will be the guests of Mrs. Doran for a mid-morning coffee at the President's home, followed by a tour of the Morehead campus.

A highlight of the meeting will be the traditional banquet Tuesday night at the Doran Student House on the campus at which Dr. Sparks again will be the principal speaker.

President of the SRAPPAUC is Calvin C. Greene of the University of Florida at Gainesville. W. H. Rice, superintendent of buildings and grounds at Morehead, is vice-president.

Last year the group met at the University of Florida and next year is scheduled to meet at the Georgia Institute of Technology in Atlanta.

MOREHEAD, Ky., (Oct. 10)--Phillip Rice, 20, a sophomore at Morehead State University, is in Kansas City, Mo., to receive the American Farmer Degree at the national convention of the Future Farmers of America.

The son of Mr. and Mrs. Ben F. Rice, Sr., Brooksville, is one of nine Kentuckians nominated for the award, second only to that of FFA Star Farmer, only one of which is awarded each year.

Young Rice is a graduate of Bracken County High School, where he served as vice-president of the local FFA chapter. With an older brother, he operates a 60-acre dairy and hog farm. They have 32 Brown Swiss cows, 32 heifers and calves and keep a herd of 30 purebred Landrace sows from which breeding stock is sold. Their litter average is from 9 to 12 pigs, one of the highest in the state.

Rice also is the youngest director ever elected by the Kentucky Brown Swiss Association. His father is secretary of the Kentucky Landrace Association.

At Morehead, Rice is majoring in agriculture and plans to become a vocational agriculture instructor when he finishes college. Active in 4-H, Soil Conservation and FFA work for many years, he was awarded the State Farmer award by the FFA organization while in high school.

FOR IMMEDIATE RELEASE

MOREHEAD, Ky., Oct. 10--Morehead State University Theatre will present its first production of the 1967-68 season, Shaw's Arms and the Man, Oct. 30 and 31; and Nov. 2-4.

Scheduled for 8 p. m., the play will be in the newly decorated Little Theatre of the Combs Building. Tickets (\$1.00) are on sale at the Doran Student House. They may also be obtained by writing for reservations to Morehead Theatre, Box 684, Morehead State University, Morehead, Ky. 40351.

The author, George Bernard Shaw, winner of the Nobel Prize in 1925, was the foremost literary man in the English-speaking world for more than fifty years of his life, which spanned an era of overwhelming historical change. He was born in Dublin in 1856 and died at his home in Ayot St. Lawrence, England, in 1950 at the age of 94.

Some of Shaw's best-known plays include: Candida, Man and Superman, Saint Joan, and Pygmalion (later turned into the epoch-making My Fair Lady.)

Arms and the Man was the first of Shaw's plays to become a success. It was written in 1894. Arms and the Man is also the first instance of a Shaw play turned into a musical, an operetta entitled The Chocolate Soldier, which has enjoyed considerable success down through the years.

The play is Shaw's bright example of pure and brittle comedy. It pokes fun at all the tradition of courage on the battlefield, all the heroics of the military.

Alan Tongret, (Bluntschli) a junior from Yorktown Heights, N. Y., and Terri Bonar (Raina), a freshman from Covington, will have the roles of the Swiss soldier and the taunting Bulgarian girl he eventually wins as a bride.

(more)

morehead theatre 2222222

Glenda Hagan (Catherine Pethoff), sophomore from Fairdale, and Michael Junk (Maj. Pethoff), sophomore from South Charleston, Ohio, will be seen as Raina's mother and father. Ron Jackson (Maj. Sergius Saranoff), junior from Morehead, plays the part of her pompous fiance. Jen Bohannon (Louka), senior from Waddy, will act as her flippant housemaid.

DeWayne Stewart (Nicola), junior from Georgetown, Ind., will be a practical-minded servant in the Bulgarian general's home; and Raymond Bowden, sophomore from Fort Belvoir, Va., will play a Russian officer.

Dr. Jerry Bangham, assistant professor of Dramatic Arts at Morehead, is directing the production. He is being assisted by Gus Persson, junior from Mt. Clemens, Mich. Technical director is Marvin Phillips, assistant professor of Dramatic Arts.

Richard Watts Jr., critic for the NEW YORK POST, describing the play stated, ".....it is gay and wise and charming, and it reveals the great man in one of his sunniest veins." Since 1894 many have agreed -- it's the perfect light comedy.

#

FOR IMMEDIATE RELEASE

Larry Keenan of the Morehead State University Department of Music faculty will present a piano recital at Baird Music Hall tonight at 7:30 p. m.

The program will consist of variations on the theme "La Ricordanza," Opus 33 by C. Czerny; Sonata No. Two in F-sharp Minor, Opus Two by J. Brahms; Andante Spianato and Grande Polonaise, Opus 22 by F. Chopin; Fête-Dieu à Seville by I. Albeniz; Consolation No. Three in D-flat Major by F. Liszt and Hungarian Rhapsody No. Six in D-flat Major, also by Liszt.

Keenan, who is currently working toward a doctor of music degree in piano literature and performance at Indiana University, has won many awards for his musical achievements.

In 1962, he was first place winner of the Bloomington (Illinois) Symphony Society's Young Artist Competition. He was first place winner of the Kentucky Music Teachers Contest for college-level pianists in Kentucky in 1964.

Keenan's other achievements include the winning of Young Artist Promotions, Inc., recital sponsorship; winning of first place in state, district and semi-final competitions of the National Federation of Music Clubs Young Artist Contest; and winning of the Grand Prize Award of the Lima (Ohio) Symphony Society's Young Artists Competition. He was a participant in the second Van Cliburn International Quadrennial piano competition in 1966.

A native of Indianapolis, Keenan started piano study at the age of six and organ at 12. He is married and has twin sons, 4 1/2 years old.

The program will consist of variations on the theme "La Ricordanza," Opus 33 by C. Czerny; Sonata No. Two in F-sharp Minor, Opus Two by J. Brahms; Andante Spianato and Grande Polonaise, Opus 22 by F. Chopin; Fête-Dieu à Seville by I. Albeniz; Consolation No. Three in D-flat Major by F. Liszt

MOREHEAD, Ky., (Oct. 10)--An official count shows 1,376 "beginning freshmen" enrolled at Morehead State University for the fall semester, Dr. John Duncan, director of admissions, has announced.

This represents an increase of 98 over the number of "beginners" registering for the fall, 1966, semester. Of these, 1,078, or 78.3 per cent are Kentucky residents, Dr. Duncan pointed out, and 298, or 21.7 per cent, out-of-state residents.

The official tabulation also showed 756, or 54.9 per cent of the new freshmen are male, and 620, or 45.1 per cent are female.

MOREHEAD STATE UNIVERSITY
MOREHEAD, KENTUCKY

MOREHEAD, Ky., Oct. 10 — The Morehead State University campus has returned to normalcy after the most exciting and eventful Homecoming Weekend in the history of the institution.

The highlight of the two-day observance, which saw more than 9,000 alumni and friends of the University on the ^Campus, was the appearance Friday of United States Senator Edward M. (Ted) Kennedy at an all-student convocation in the Laughlin gymnasium.

Scheduled to speak at 2:30 p.m., the youthful Massachusetts Senator and brother of the late President John F. Kennedy did not reach the gymnasium until 5:15 p.m. because of the grounding of his plane at Clarksburg, W. Va., in the face of inclement weather.

Earlier in the day he had spoken at the Farmington, W. Va., High School and dedicated a recreational area named for the late President at Monogah, W. Va. It was at Monogah that the President opened his first primary campaign in 1960 in his successful bid for the nation's highest office.

Driven to Huntington from Clarksburg, the Senator was met by a limosine driven by Bill Ewers of the University Business Office and escorted to Morehead by State Police. Heavy, overcast weather would have prevented him from landing at the Rowan County Airport.

Immediately upon his arrival at the gymnasium, the Senator was escorted to the platform by President and Mrs. Adron Doran and Congressman Carl Perkins. He was given a standing ovation by the more than 6,000 students and Homecoming guests, many of whom had waited more than four hours for his appearance.

Introduced by President Doran, the youthful Senator aimed his remarks directly at the students. He told them that their involvement in the affairs of

FOR IMMEDIATE RELEASE

MOREHEAD, Ky., Oct. 11--Teaching with television can be more intimate than teaching large classes without it, says Dr. Norman Tant, director of instructional media at Morehead State University.

Dr. Tant bases his belief that TV teaching can be extraordinarily personal partially on his observation that today's college student has a "built-in" affinity to electronic media, particularly the telephone and TV. Both are relied heavily upon at Morehead to teach English composition to large classes.

Dr. Tant feels that by making it possible for students to have phones available during class so they can communicate with the instructor, one of the main criticisms to instructional TV--lack of two-way communication--has been removed.

He points out that via closed circuit TV the student can get a good close-up view of the teacher's facial expressions, can hear his voice clearly, and even more significantly can experience a "one person to another person" relationship. Such a relationship likely would be clouded by distance and noise if the student was seated in a far-off classroom corner with no TV equipment available.

Dr. Tant revealed that a survey of students, made after they had completed a full semester of English composition taught by TV as compared to students taught without it, showed an equal amount of achievement by the two groups. He feels that after the "kinks" have been removed from the process, even better results will be obtained by students now taking the course through TV.

Those who produce the programs at Morehead use every means possible to establish a personal relationship between pupil and instructor. The instructor, for instance, is furnished with a chart giving the student's name so it will not be necessary to refer to the student by a number.

(more)

One of the significant tools used by the instructor is a Telectern equipped with a zoom lens that makes possible the showing of typed or printed material, drawings, slides, and actual objects projected from the lectern in front of the instructor to the TV sets in the classroom. Each lectern console is a completely self-contained studio, operable by one person. An overhead mirror reflects the work-surface image to the camera mounted inside the console.

A switcher on the lectern makes it possible for the instructor to go from material on the lectern to a close-up view of the instructor and the zoom lens makes possible the focusing of the camera lens on a small segment as well as the part of the material being shown.

Material to be used in the TV course is typed on a typewriter with an oversized type to give a larger image when it is projected on the screen.

Future plans at the school call for teaching other subjects, such as biology, by TV. Soon a microscope will be purchased so the instructor can transmit by way of high resolution television what is shown through the microscope. This way, all students will be able to view simultaneously from their seats what would otherwise be available to one student at a time.

Morehead's TV system is interconnected so that any program originating in any one of the campus studios may be picked up at the others, or wherever sets are available. There are two campus studios in operation and a third is under construction.

A large screen television projector in Button Auditorium provides a nine by 12-foot image of any program being transmitted on the cable system. Large classes involving subject matter not requiring the televising of fine detail are taught in this air-conditioned teaching area.

Some orientation classes taught by TV have as many as 500 students in them. Such teaching arrangements free professors for working with small class groups and for making them available for individual counseling.

Dr. Tant expects later this school year to have all sets in the dormitories and campus apartments hooked up so that any program originating on either the campus, the Kentucky Authority for Educational Television network, or the National Educational Network could be received at campus dwellings on the same TV sets that are now being used only for picking up the commercial TV programs.

FOR IMMEDIATE RELEASE

MOREHEAD, Ky., Oct. 11--The melodic voices of the Gregg Smith Singers will open the 1967-68 Northeast Kentucky Celebrity Series Oct. 20, at Button Hall on the Morehead State University campus.

Tickets for the concert, which begins at 8 p. m. , may be purchased at the door. Admission price is \$2.00 for non-members of the celebrity series. Members of the series hold season tickets. Full-time students at Morehead automatically become members of the series and thus are admitted free.

Although the Gregg Smith Singers have been a living, breathing and singing reality for a decade, their founder and conductor is still in his early 30's. A graduate of the University of California, and a former instructor there, Smith devotes his non-tour time to composing and arranging, and to his wife, Alicia, and their three children.

"They looked like refugees from a college prom," reported TIME MAGAZINE of the Gregg Smith Singers at the famed Darmstadt (Germany) contemporary Music Festival in 1961, "but the music they performed was as difficult as any being written."

Like many other American artists, the Gregg Smith Singers had to earn their first reputation abroad, and they did just that in two European tours (1958 and 1961). Happily, they were launched on the American scene by their present management in the fall of 1962, and have toured annually from coast to coast ever since.

Other programs scheduled for the series are:

Stop the World--I Want to Get Off, Oct. 26; The Marriage of Figaro, Nov. 8; Pianist Joseph Battista, Nov. 30; Preservation Hall Jazz Group, Jan. 8; Chamber Symphony of Philadelphia, March 10.

FROM: OFFICE OF PUBLIC INFORMATION
MOREHEAD STATE UNIVERSITY
MOREHEAD, KENTUCKY

MOREHEAD, Ky., Oct. 12 --- Mrs. Iris Davenport Mahan, visiting professor of the Home Economics Department at Morehead State University, is probably one of the best known women in the South. Mrs. Mahan's sincere interest in mankind and her hard work has contributed greatly to the progress and development of the South.

As former editor of the Women's Department of Farm and Ranch Magazine, Mrs. Mahan traveled 30,000 miles a year speaking, appearing on television and radio, and gathering news for the magazine.

While on the staff of Farm and Ranch, she averaged 100,000 requests yearly for leaflets and letters of advice from Farm & Ranch subscribers, home economics teachers, and demonstration agents. Her articles (which appeared in Farm & Ranch Magazine from 1942 until 1958) featured such items as home furnishings, food, home entertainment, and etiquette.

One series of leaflets she wrote was entitled "Eti-cue." It gave instructions and recipes for preparing all types of food. In one of these leaflets she explained how to serve waffles for dinner as well as breakfast. She received approximately 10,000 orders per month for them. Many times the leaflets were ordered by the hundreds by college professors, sororities, churches, and missions.

In 1957, Mrs. Mahan was one of three people in the nation to receive an award for outstanding contribution to agriculture and homemaking. The other recipients were Dr. Milton Eisenhower, once President of John Hopkins University, and Ezra Benson, then Secretary of Agriculture.

While listed as Who's Who in American Women, Mrs. Mahan was judge for the grand finale of Mrs. America Contest. One of the other judges was Arthur Brown, Chief Illustrator for the Saturday Evening Post. Mrs. Mahan was the only home economist to serve all five years of the period in which homemaking was a major part of the contest. She has also judged in other contests such as the National Cherry Pie Contest, National Dairy Princess, and Pillsbury's National Bake-Off.

(more)

At one time, Mrs. Mahan was Chairman of the Public Affairs Committee for Altrusa, an International Women's Executive Organization, which was begun by the Rotary Club. In 1958, she was the recipient of "Friends of 4-H" U. S. Department of Agriculture award for her contribution in nation-wide development of 4-H Club work.

Mrs. Mahan is a member of the Gallery of Greats in Contemporary Journalism and Past President of Phi Upsilon Omicron (a National Honorary Home Economics Sorority). She was also National Chairman of Women's Organization for Farm-City Week.

She began her career as a teacher and was later appointed head of the Home Economics Department at Georgia State Normal. In 1948, she was elected one of the nation's six most outstanding women born in the South by the Atlanta Constitution and Atlanta Women's Chamber of Commerce. She was chosen through a survey conducted among 1,000,000 southern clubwomen.

During the depression, she worked with the Louisiana and Kentucky Extension service. She traveled to all parts of the state, training women in clothing and millinery. She would invite two members from each Homemakers Club to attend her classes. They would then return and teach other members of their club.

One of her major projects while doing extension work was entitled, "The Well Groomed Family." Her lessons consisted of correct bathing, manicuring, hair care, posture, and care for their feet. She also taught them to make their own tooth-paste and hand lotion.

Mrs. Mahan is presently director of the Palmer House at Morehead State University. The Palmer House is a two-story home in which students apply their class work to every-day living. Students who plan to teach Vocational Home Management are required to spend eight weeks in the home. They receive three hours credit for their work there.

Each girl, at the Palmer House, is assigned a different position for each week. Her duties may be either that of hostess, cook, or maid. The girls are

mrs. mahan at msu 3333333

encouraged to serve foods they have never eaten and to use imagination and daring in the preparation of many regularly served foods, such as beans or potatoes.

The girls are required to entertain at least once a week and sometimes twice. They prepare all their meals and plan arrangements and place settings, which must harmonize in color, line and design.

Mrs. Mahan believes the Palmer House helps the students to appreciate being a homemaker. It aids them in learning to manage time, energy, effort and money. It also builds co-operation, since they must work and depend on each other. Mrs. Mahan stated that she does not monitor nor mother the girls, she is simply there to counsel and help them at anytime.

Not only does Mrs. Mahan hold a bachelors degree from the University of Georgia and a masters from Columbia University, but she also studied textiles at the Sorbonne University in Paris, France. Mrs. Mahan is a resident of Lexington, Kentucky.

kennedy at msu 2222222

the nation are vital and that their work in such programs as the Peace Corps, Volunteers in Service to America and Operation Appalachia has been "important and influential."

He commended today's college generation for its practical involvement in affairs of today instead of deciding to "cop it out" in a world of drugs and flowers.

"During the last year I have had the opportunity to visit a number of college campuses. I have done so to try and find out what is important to students today--what kind of lives you want--what kind of world you want," he said.

"It has been an exhilarating experience for me, because yours is undoubtedly the most talented, most involved and most idealistic generation of our century."

"But it has been a disturbing experience because the gap between what you think important and what many older Americans think important is great and growing to a point where I feel two generations live in the same land often in the same house and are not really talking to each other.

"At 35 years of age," he went on, "I feel half-way between that young generation and the one that administers our nation."

"I have been fascinated to find that student ideas, while different from some of those of their elders are remarkably relevant to the problems of the world to which they are going to live in future years."

Although our nation is undergoing many changes, the rest of the world is changing faster, the Senator said at one point.

"In the last 25 years, colonial empires have dissolved, more than 75 new nations have been created and people have won freedom only to face dangers greater than dictatorship--the dangers of nuclear war and possible famine among ^{two}thirds of the world's people," he said.

"Young Americans in college today are aware of these changes. They have lived with important changes of their own. Security and science have liberated them from the patterns of life older citizens have taken for granted."

"Amidst the books, buildings and opportunities our expanding colleges provide, they feel free to seek new values, to ask their own questions and to try to find answers that make sense in terms of their own experience."

"They very properly ask whether the old ways are enough—whether the old arrangements, fashioned for a former time, are still valid."

"Whether the question is the operation of a university or the justification of a war—whether in human relations or foreign relations—students are looking for answers which are relevant to their new world."

Senator Kennedy praised Congressman Carl Perkins for the "very vital support and assistance he gave President Kennedy when the programs of federal assistance to education first were being formulated.

He said Congressman Perkins is respected by everyone in Washington. "Although he represents a rural area, he has a deep understanding of the difficult educational and cultural problems we have in our metropolitan areas," he said.

The Senator also highly praised Morehead President Doran for the part he played as a member of the Eastern Kentucky Planning Commission. He said the work of this Commission stimulated in the late President's mind the awareness of the conditions that existed in the mountainous areas of Kentucky, Tennessee and West Virginia during his campaign for the Presidency.

The late President believed we could not make progress as a nation unless opportunities were provided for underprivileged people, his younger brother said. "Thus, the poverty program was born. The President would have been proud to see how far we have come," he said.

In touching on the Morehead Homecoming theme—"Our Growing University"—the Senator said, "You have much to be proud of as you see Morehead grow as a focal point for educational and community life of this area."

Accompanied by Dave Burke, an administrative assistant, he was driven to Lexington's Bluegrass Airport by State Police for continuation of his trip to Little Rock, Ark.

Friday evening it was the traditional Candlelight Dinner at the Doran Student House and a concert by the New Christy Minstrels that occupied the spotlight.

For two hours, students and guests dined to the organ music of Mrs. Adron Doran accompanied by the Mignonettes, a combo made up of campus musicians, before going to the gymnasium for the New Christy Minstrels concert, attended by more than 5,000 people.

Saturday morning the University's new 10-story men's residence hall, Alumni Tower was officially dedicated in a ceremony attended by more than 400 alumni, students, faculty members and guests.

Dr. Doran praised the Alumni Association for its "total commitment" to the growth of the University in his dedicatory address and said:

"Alumni Tower represents itself as a center of attraction, just as the alumni represents themselves as the center of attraction and where it stands for beauty, stability, security and a landmark of all that is going on on this campus so do you (the alumni) represent that to this great institution."

Lucien Rice, Zanesville, Ohio, president of the Alumni Association, gave the response.

The blot on an otherwise perfect Homecoming was the 10-8 setback the Morehead Eagles suffered at the hands of the Austin Peay Governors in the traditional Homecoming football game at Breathitt Sports Center.

Lydia Lewis, Maysville, the 1967 Homecoming Queen was presented officially at halftime along with the 10 members of her court and their escorts. She and her escort shared the President's box for the second half of the game.

kennedy at msu 5555555

The big weekend came to a successful climax Saturday evening with the traditional Homecoming Dance in the new Robert Laughlin Health Building at which Buddy Morrow and his famous "Night Train" orchestra provided the music.

Here, again, the Queen and her court were presented formally and presided over the dancing.

MOREHEAD, Ky., Oct. 13 The National Association of Geology Teachers has named David K. Hylbert, assistant professor of geology at Morehead State University, as a member of its Education Committee representing Kentucky.

As such, he will help coordinate earth science education between the college and secondary school levels. The committee will strive to promote a greater exchange of ideas between high school teachers and their colleagues in the colleges.

Hylbert holds a bachelor and master's degree from Ohio University in Athens, Ohio.

MOREHEAD, Ky., Oct. 13--More than 300 advisors and editors from 31 Eastern Kentucky schools were on hand today for the annual High School Year-book Seminar held at Morehead State University.

Sessions presented during the day-long meeting included material on what to look for in modern yearbook photography, recommended basic layout, advertising, book sales, themes, advanced layout ideas and problems common to advisors.

Martin Huffman, publications advisor at the University, was in charge of the meeting, assisted by John Mullaney and Mrs. Joanie Shipman of Osborne Photographic Laboratories, Cincinnati, and Jerry Dixon, Russ Rivard, Paul Nortker, Gordon Caldwell and Harry Rivard, all of the Taylor Publishing Company, Dallas.

FOR IMMEDIATE RELEASE

MOREHEAD, Ky., Oct. 13, -- Professor Alec Conyers of Morehead State University's Department of Business Administration recently represented the University at a statewide meeting of the Kentucky Society of Certified Accountants at Lexington.

Conyers is the author of Horizons for a Profession, a book on the education of professional accountants.

At the meeting of accountants, he served on a panel that discussed the general educational requirements for accountants. The panel was made up of college representatives and practicing accountants.

Conyers says similar seminars are being conducted throughout the United States as a means of establishing college curricula designed to meet future needs of the professional accountant.

MOREHEAD, Ky., Oct. 16 -- George Fraley, senior in business administration at Morehead State University, will attend the General Accounting Office's program for college students in Cincinnati Oct. 19 and 20.

Made up of specially selected, outstanding students, the group will observe the General Accounting Office's operations, in such areas as accounting and auditing policies, procedures, and techniques. The General Accounting Office is sponsoring the program as a part of its career development program.

Fraley, a participant in Morehead's honors program, is president of Palladians social club, a member of Phi Beta Lambda, and is active in many other campus organizations.

Fraley is from Middletown, Ohio.

FOR IMMEDIATE RELEASE

MOREHEAD, Ky., Oct. 16--Dr. William C. Simpson, professor of physics and dean of Morehead State University's School of Sciences and Mathematics, recently attended a two-day symposium on optics for college teachers at Wayne State University, Detroit.

While in Detroit, he also attended the annual meeting of the Optical Society of America.

Attended by 60 persons, the special optics symposium was sponsored by the National Science Foundation. The Symposium consisted of a series of discussions which focused on some of the recent developments and applications of geometrical, physical and radiation optics.

Topics covered in the discussions were lasers, coherent light, physiological optics, radiation sources and detectors, geological applications of radiometry, interferometric spectroscopy, holography and flame spectra.

Each session was conducted by a well-known authority in the field. Most were members of the research staff at the Willow Run Laboratories of the University of Michigan.

Dr. Simpson feels that the three days provided much stimulation for teaching and fundamental research in the optics field. He also noted, with much interest, the increasing amount of varied research problems being undertaken by undergraduate students in physics and the necessity for joint faculty-student research projects in the development of strong undergraduate curriculum in the sciences.

MOREHEAD, Ky., Oct. 17 ¹⁹⁶⁷ A total of 1,674 high school musicians will participate in one of Kentucky's Marching Band Festivals to be held at Morehead State University Saturday, October 21.

Other festivals previously have been held at Western Kentucky University at Bowling Green and at Murray State University at Murray.

Bands participating in the Morehead festival will come from a 67-county area, the largest in Kentucky. The festivals are sponsored by the Kentucky Music Educators, whose executive secretary is Thomas A. Siwicki, director of the Paris High School Band.

Morehead is serving as host to the Eastern Kentucky group for the third consecutive year.

Participating bands compete in categories arranged according to total student enrollment. Each band will be rated and presented with a framed certificate of performance.

At Morehead, 24 high school bands will participate and four additional schools will send observers. Eleven of the participating band directors are Morehead University graduates.

Participating bands are:

Bracken County, Harrodsburg, Madison Central at Richmond, Henry County, Wurtland, Rowan County, Grant County, Paris, Erlanger Lloyd, Harlan, Newport Senior.

Fleming County, Bourbon County, Somerset, Dixie Heights of Fort Mitchell, Boyd County, George Rogers Clark of Winchester, Western of Louisville, Bryan Station of Lexington, Holmes of Covington, Henry Clay of Lexington, Paul Blazer of Ashland and Eastern of Middletown.

The observing band members will come from Meade Memorial of Williamsport, Morgan County, Menifee County and Vanceburg.

band festival at msu 2222222

Judging the performances will be a three-man team consisting of Ralph Chandler and Robert Standfelt, both of Indianapolis; and Bill Merton, Lancaster, Ohio. Standfelt is president of the Indiana Music Educators Association,

Capt. A. May, U. S. Army, will judge festival participants for such things as how well their shoes are polished, their uniforms are pressed and general over-all appearance.

The 145-piece Morehead State University marching band will present a special performance at 8:50 p.m.

MOREHEAD, Ky., Oct. 17 — Final plans have been completed and approved and bids will be taken immediately on the 7th men's residence hall to be constructed on the Morehead State University campus, Dr. Adron Doran, president of the University, has announced.

The new dormitory, 19 stories high, will be the first of a complex of four to be constructed at the corner of Henry Ward Drive and University Boulevard where the University tennis courts now are located.

Estimated cost of the new dormitory is \$2,290,000 and the building should be under contract by December 1, Dr. Doran said. It is expected to be ready for occupancy in the fall of 1969.

The new building's 512-bed capacity will be the largest and the building itself the tallest of any residence hall on the campus to date.

FOR IMMEDIATE RELEASE

MOREHEAD, Ky., Oct. 19--Students at Morehead State University this fall represent 89 Kentucky Counties and 32 states. According to Dr. John R. Duncan, director of admissions, there also are 24 students on campus from foreign countries.

As would probably be expected, Rowan County of which Morehead is the county seat, furnished the largest number--372--of students. The second largest group consisting of 277 students, though, comes from Jefferson County, 150 miles away. Boyd County with 248 makes up the third largest category. Other leaders listed in order of the number of students represented at Morehead are Carter (242), Greenup (212), Floyd (208), and Pike (204).

Knott County with 102 had over a 100 per cent increase in the number of students in 1967 over 1966. Floyd County had the largest numerical increase--from 141 to 208.

Sixty-four of the 89 Kentucky counties represented showed an increase in number for this year over last.

Of a total of 6,148 students at Morehead, 4,328 are from Kentucky, 1,796 are from out-of-state, and 24 are from foreign countries. Total enrollment increased 664 from the previous year.

MOREHEAD STATE UNIVERSITY
MOREHEAD, KENTUCKY

FOR IMMEDIATE RELEASE

MOREHEAD, Ky., Oct. 19--Thirty-six freshmen at Morehead State University, by demonstrating a strong background in algebra and trigonometry, have been placed directly into beginning calculus.

Dr. Billy Nail, chairman of the Mathematics Department, said the 36 were chosen from 1,030 freshmen, who were given a test devised by the math faculty to determine whether or not the students already had enough mathematical knowledge to enable them to bypass courses ordinarily required.

The practice of letting students know, through a test, the top level at which level they will probably be able to perform satisfactorily, was initiated in the fall of 1966. At this time, 23 freshmen were permitted to go directly into calculus study. An earlier test had been given to volunteers to determine if the test was reliable.

An average grade of 2.7 out of a possible four was scored by the 23 students, as compared to an average of only 1.9 scored by the students who were enrolled in calculus after having completed algebra and trigonometry.

Dr. Nail feels the program of not requiring the more advanced students to take courses in subject matter they already know is doing much to stimulate interest.

He also pointed out that a teacher also is aided because he is facing students who are reasonably capable of performing the work prescribed for the course.

Dr. Nail said Morehead makes a concentrated effort to properly place the less advanced student. For example, students who do poorly on the math placement test are permitted to attend algebra classes five days a week instead of the normal three.

(more)

36 freshmen at msu 2222222

Other than the 36 students placed in the calculus class this fall, 21 have been placed in a combination algebra-trigonometry course and 44 students have been allowed to bypass algebra and go on to trigonometry.

Randall Miller, math instructor, says that ultimately the department will revise the test and put it in a permanent form. He added that the department urges every student to take the placement test if he feels he will be taking a course in anything pertaining to math during his college career.

"If placement is the problem a student is having, then the test will help correct it," Miller said, "but the problem could be because of a lack of motivation, low aptitude in math, or some other reason."

Mrs. R. B. Cain, math statistician, says the department is doing follow-up work to determine how well the students who have bypassed the algebra and trigonometry courses perform in later courses when compared to the others.

FOR IMMEDIATE RELEASE

MOREHEAD, Ky., Oct. 23--Many bands made much music at Morehead State University's Breathitt Sports Center Saturday, Oct. 21, as 20 Eastern Kentucky high school bands with approximately 1,400 musicians marched for ratings in the third Kentucky Festival Contest Commission competition.

Participating bands, appearing before 4,500 spectators, were judged on marching, playing, and general appearance at an inspection.

Five bands were rated superior in playing, marching and appearance categories: Grant County of Dry Ridge, under the direction of Clifford Wallace and Mina Breeding; Paris High School directed by Thomas A. Siwicki, who is also executive secretary of the Kentucky Music Educators, sponsor of the event; Bourbon County High School, Paris, directed by Dan Eberlein; Henry Clay High School, Lexington, directed by Richard Borchardt; and Holmes High School, Covington, under the direction of James A. Copenhaver.

Six other bands were rated superior in the marching and playing classification: Harrodsburg High School, under the direction of William Gravelly; Lloyd School of Erlanger, directed by L. Kendall Moore; Fleming County High School, Flemingsburg, directed by Gary J. Dean; George Rogers Clark High School, Winchester, directed by Robert S. Cowen; Paul Blazer High School, Ashland, directed by Larry Moore; and Eastern High School, Middletown, directed by Robert Welch.

Participating bands competed in classifications arranged according to total student enrollment. Each band, after being rated, was presented with a framed certificate of performance.

Judging the performances was a three-man team which consisted of Ralph Chandler and Bill Schmalfeldt, both of Indianapolis, and Bill Merton, Lancaster, Ohio.

(more)

band festival at msu 2222222

Chandler is secretary of the Indiana Music Educators Association; Schmalfeldt is director of the Southport High School Band of Indianapolis, which recently won the Sweepstakes trophy in the Indiana School Band Contest; Merton, is director of the Lancaster (Ohio) High School Band, which will appear in this year's Orange Bowl Parade in Miami.

Sgt. Spring, U. S. Army, judged festival participants for such things as how well their shoes were polished, their uniforms were pressed and general overall appearance.

The Morehead festival, encompassing a 67-county Eastern Kentucky area, was the third and final event held this month by the Kentucky Marching Band Festivals. Two others previously had been held at Western Kentucky University at Bowling Green and at Murray State University at Murray.

FOR IMMEDIATE RELEASE

MOREHEAD, Ky., Oct. 24--An amateur radio interest group to serve the Morehead area has been started by the Industrial Education Club of Morehead State University.

The "HAM" radio club will be under the direction of Meade S. Roberts, electronics and electricity instructor in the University's College of Applied Science and Technology.

The objective of the group is to gain Federal Communications Commission licenses for its members so they may transmit and receive radio signals to and from all over the world.

In order to qualify for the minimum license required, members need to be able to send and receive international Morse code at a speed of five words per minute. They also are required to pass a government test on simple electric theory and laws relating to amateur radio.

Any citizen of the United States living in the Morehead area is welcome to visit the group and, if interested, work toward his amateur radio license, Roberts says.

The group meets every Thursday evening from 6 until 7 p.m., in room 314 of the Industrial Education Building at the University.

Current members, in addition to Roberts, are Alan W. Mkitarian, Jerry W. Caudill, Dale C. Dodson, Larry E. Helphinstine, Michael Lewig, Kenneth Nolen, Ron La Magna, Jim Decker, Fred W. Culbertson, and George Ries.

Roberts and Caudill already have licenses and as others in the group get theirs, the group will concentrate on the building of a transmitter and on the operating of their "HAM" station.

The group is now anxiously awaiting the delivery of a Drake Amateur band radio receiver which covers all the amateur radio bands 80, 40, 20, 15, and 10 meters.

MOREHEAD, Ky., Oct. 24--Dr. Crayton Jackson, professor of science education at Morehead State University, has been invited to serve as a consultant to the National Science Supervisors Association at its meeting November 19-20 in Atlanta, Ga.

Dr. Jackson will assist the association with the development of a revolutionary new approach to teaching science in the elementary school. Last summer he served as director of an eight-week Special Project in Pre-College Science Education on the Morehead campus, the first of its kind ever conducted in the United States.

Forty-five Eastern Kentucky elementary teachers and principals participated in the project and currently are teaching the new process in their schools, most of which are located in Floyd County.

The project is sponsored by the National Science Foundation, and similar programs have been approved for the summers of 1968 and 1969 at Morehead State University.

The revolutionary new process, centered around the child and the use of his head and hands, was developed by the American Association for the Advancement of Science and the National Science Foundation.

MOREHEAD, Ky., Oct. 24—Mary Louise Lacy, Owingsville and one of 15 from Bath County who participated in the Upward Bound program at Morehead State University this past summer, is attending Waynflete School in Portland, Maine, on a scholarship awarded by the Independent Schools Talent Search Program of Boston, Mass.

Approximately 50 Upward Bound students were selected to attend boarding schools from 200 nominees throughout the Upward Bound project across the country.

Miss Lacy the daughter of Mrs. Ella Hodge of Owingsville and Clyde Lacy of Dayton, Ohio, attended an eight-week Upward Bound program at Morehead this summer.

At Waynflete, a girls' preparatory school, Miss Lacy is a junior and enrolled in geometry, Russian government, English, Spanish, Latin and hockey. She has been elected to Social Service of her class, vice-president of the Spanish Club, is sports editor of the school newspaper and is doing volunteer work in a hospital for the mentally retarded.

Currently, there are 214 students enrolled at Waynflete School, whose curriculum includes academic and non-academic programs. The approximate annual cost at the school is \$2,750, and Miss Lacy's tuition, books, uniforms and travel expenses are paid by the Boston Talent organization.

A former student at Bath County High School in Owingsville, Miss Lacy's personal needs and transportation to the Maine school in September were provided from a community fund established in Owingsville by the Woman's Club, Chamber of Commerce, Lions Club, American Legion Auxiliary, Farm Bureau and her Sunday School class.

Mrs. Mary Pendleton, pupil personnel director at Bath County schools, and Upward Bound leaders at the University were instrumental in getting the appointment for Miss Lacy.

Upon completion of two years at Waynflete, Miss Lacy plans to enter the college of her choice to study to become a physical therapist.

FOR IMMEDIATE RELEASE

MOREHEAD, Ky., Oct. 24--Hilda Jonas, internationally known harpsichordist, will present a concert in Button Auditorium at Morehead State University, Nov. 2, at 8:00 p.m.

As one of the concerts presented by the Eastern Kentucky Celebrity Series, her appearance also will serve to dedicate the University's new concert model Eric Herz harpsichord. A reception will follow.

Mrs. Jonas will remain on campus all day Friday, Nov. 3, for lecture-demonstrations and ensemble participation by the students.

Mrs. Jonas' Thursday night concert will consist of music by composers of the 17th and 18th Centuries.

Known for flawless technique and warm but authentic interpretation, the German-born Mrs. Jonas received her early training in piano and harpsichord in Germany, Switzerland and France, where she studied with the great Wanda Landowska.

Mrs. Jonas has given concerts all over the world, and, since coming to the United States in 1942, has given concerts and lecture-recitals in many colleges, museums and civic series.

For two weeks each year in August, she is the guiding spirit of the harpsichord portion of the annual music festival on Put-in-Bay Island in Lake Erie. A resident of Cincinnati, she has appeared many times with the Cincinnati and Honolulu Symphony Orchestras.

Three of her recent concerts and lectures have been at Carnegie Institute of Technology at Pittsburgh, and at Wilmington and Earlham Colleges in Ohio.

MOREHEAD, Ky., Oct. 25--Dr. Adron Doran, president of Morehead State University, has been elected to the board of directors of the Central Midwestern Regional Educational Laboratory, Inc., (CEMREL). The announcement was made this week in St. Louis by Dr. Wade M. Robinson, executive director.

Dr. Doran, will be installed at the annual meeting of the board in St. Louis Friday, October 27. Fifty educational, civic, industrial and labor leaders from a four-state area make up the board, of which Miss Jacqueline Grennan, president of Webster College, St. Louis, is chairman.

An independent, non-profit corporation, CEMREL is one of 20 educational laboratories in the nation established for the purpose of improving education in the classrooms of public and private schools through research, development and application.

For the past 18 months, Morehead State University has been cooperating closely with CEMREL in pioneering computer-assisted instruction in Eastern Kentucky classrooms.

On the campus, 242 students at University Breckinridge School currently are receiving daily mathematics instruction originating at Stanford University, Palo Alto, Calif., through the use of electronic computers. The students range from first to eighth grade, and drills, based on previous lessons already discussed in class, are adjusted to the individual levels of each student.

Additional machines are in use in several Morehead and Rowan County grade schools and others are planned for points in remote sections of Eastern Kentucky in the near future.

Dr. Doran was named by President Lyndon B. Johnson last month to a 15-member National Advisory Council on Education Professions Development, a

(more)

dr. doran 2222222

group formed for the purpose of advising the President on methods for improving the quality of teaching.

He also currently is serving as a member of the Education Advisory Committee to the Appalachian Commission, representing Kentucky by appointment of the governor. In 1952, he participated in a White House Conference on Education called by former President Eisenhower and since has participated in two similar conferences called by President Johnson.

During the drafting and passage of the Elementary and Secondary Education Act, Dr. Doran served as a member of the National Association Legislative Commission, and has appeared a number of times before the Committee on Education of the House of Representatives, of which Congressman Carl Perkins (Dem., Ky.) is chairman.

FROM: OFFICE OF PUBLIC INFORMATION
MOREHEAD STATE UNIVERSITY
MOREHEAD, KENTUCKY

MOREHEAD, Ky., Oct. 25--Final rehearsals are underway for Morehead State University Theatre's first production of the 1967-68 season.

George Bernard Shaw's Arms and the Man will be presented October 30, 31, and November 2, 3, and 4, 1967 at 8:00 p. m. in the redecorated Little Theatre of the Combs Building.

Tickets (\$1.00) are on sale in the Doran Student House, and may also be obtained by writing for reservations to Morehead State University Theatre, Box 684, Morehead State University, Morehead, Kentucky 40351, or by calling 784-4181 ext. 324.

Shaw first came to London in 1876, quite penniless, and held odd jobs until he found steady employment as a book-reviewer on a newspaper in 1883. He then turned art, music, and finally drama critic from 1895 to 1898, covering all these fields with great distinction. He began writing his first play in 1885 and went on to complete twenty-nine of the best-known American plays among which include: Man and Superman, Androcles and the Lion, Saint Joan, and Pygmalion.

Arms and the Man was written in 1894, the first of Shaw's plays to be a success. It was warmly received by London critics and scored a run of seventy-seven performances from April 21 to July 7, 1894. A critic for the NEW YORK RECORDER in 1894 reviewed the play as such: "Ironic fantasy, delicate satire and a general drawing room flavor characterize this comedy, which is delightful. . ." The brilliantly entertaining comedy has remained as fresh and invigorating as when he first wrote it.

With its title, ironically, derived from the first line of Virgil's Aenied-- "Of arms and the man I sing"--this Shavian comedy does not sing of military glory but hilariously ridicules it. Shaw believed that men and women behave as men

(more)

and women, war or peace, and that a man of poise, intelligence, self-controlled and free of sentimentality, would be a leader.

That is the main point and the dialogue carries it through handsomely. The theme of the play was never truer in all the years since it first became a hit, than now when a slide rule is of more use to a military man than a sword.

The cast follows:

Bluntschli -----	Alan Tongret, junior, Yorktown Hgts, N. Y.
Raina -----	Terri Bonar, freshman, Covington
Catherine Petkoff -----	Glenda Hagan, sophomore, Fairdale
Major Petkoff -----	Michael Junk, sophomore, South Charleston, O.
Major Sergius Saranoff -----	Ron Jackson, junior, Morehead
Louka -----	Jen Bohannon, senior, Waddy
Nicola-----	DeWayne Stewart, junior, Georgetown, Ind.
Russian Officer -----	Raymond Bowden, sophomore, Ft. Belvoir, Va.

Arms and the Man is one of Shaw's best plays which holds its audience in delight from start to finish. It is very hard indeed to find plays that afford more entertainment for playgoers who refuse to check their brains in the coat-room.

MOREHEAD, Ky., Oct. 25—David Bushouse and James Martin, members of the music faculty at Morehead State University will present a joint recital at Baird Music Mall on the campus October 31 at 7:30 p.m.

Mr. Bushouse will be accompanied by Mrs. Lucretia Stetler. He will play the Hindemith "Sonata for French Horn," "Morceau de Concert" by Saint-Saens, and "Reveries" by Glazounov.

Mr. Martin will be playing flute. He will be accompanied on the piano by Karl Payne. He will play "Sonata" by Beversdorf, and Bach's "E flat Major Sonata." Mr. Payne will play the harpsichord for the Bach.

Larry Keenan will play the piano with the University's Woodwind Quintet for "Concerto for Piano and Woodwind Quintet," by Riegger.

Members of the quintet are Bushouse, horn; Martin, flute; Dr. Frederick Mueller, bassoon; Joseph Martin, oboe; and William Bigham, clarinet.

The public is invited to attend.

MOREHEAD, Ky., (Oct. 27)--The first two Morehead State University seniors to participate in the new Frankfort Semester Program at Kentucky State College, Frankfort, have been assigned to state agencies for their internships.

Leo A. Marcum, Inez, has been assigned to the Department of Corrections, while Barry Lynn Phillips, Champaign, Ill., has been assigned to the Department of Health in Frankfort. Both are honor students at Morehead and have double majors

Marcum is majoring in social science and sociology, while Phillips' majors are in social science and history.

The two Morehead seniors are among nine students from the five participating institutions in Kentucky--Morehead, Murray, Western, Eastern Universities and Kentucky State College. The other interns at Frankfort are:

John E. Cobelli, Yonkers, N. Y., from Western; Thomas Alton McConnell, Hopkinsville, and Luther Dan Thomas, Cadiz, both from Murray; John D. Hinkle, Lexington, Dale E. Shelton, Nancy, and Stephen Rehfuss, Covington, all from Eastern, and Robert C. Miller, Nicholasville, from Kentucky State.

The objective of the new program, which is in its initial months, is to inspire and train selected undergraduate Kentucky students for careers in state government.

The work of the nine current interns is divided into daily classroom and work assignments. A total of 16 semester hours of credit is scheduled in the classroom, and these credit hours earned are transferable to each of the participating schools.

Courses include Public Personnel Administration, State Financing, Kentucky Government and Constitution, Legislative Process and Special Problems in Public Administration.

(more)

Daily work assignments are performed by the interns within the state agencies to which they are assigned.

Starting with the second semester of the academic school year at Kentucky State College, which begins in February, 1968, 15 new students will be selected from the five participating schools to undergo the specialized training during the spring of 1968.

These will be selected by the following representatives at the participating schools:

Dr. Hugh M. Thomason, head of the Department of Government, Western Kentucky University; Dr. R. H. Playforth, dean of the School of Social Sciences, Morehead University; Dr. C. S. Lowry, chairman of the Department of Social Sciences at Murray University; Dr. Dwynal Pettengill, head of the Department of Political Science, Eastern University; and Dr. James A. Graves, associate professor of political science at Kentucky State. Dr. Graves also directs the over-all semester study.

MOREHEAD, Ky., Oct. 30--It's seldom a year goes by that there isn't one or two members of the Holbrook family of Morehead on the campus of Morehead State University.

The most recent are Lynn Holbrook, daughter of Mr. and Mrs. Ralph Holbrook of Jackson, and/Marc Holbrook, son of Mr. and Mrs. Robert Holbrook of Morehead, her cousin,

Both are freshmen. Lynn graduated from Breathitt County High School at Jackson, while Marc is a graduate of University Breckinridge School at the University.

Their great-grandfather, the late Dan Holbrook, was a member of the Morehead Normal School faculty when the school became Morehead State Normal School and Teachers College and at the time it was admitted to membership to the Kentucky Association of Colleges.

He was an instructor in mathematics from 1923 until his death in 1932 from injuries suffered after being struck by a motorcycle. Holbrook Hall, a married students apartment building on the campus, is named in his memory.

Their grandfather, the late Roy E. Holbrook, graduated from Morehead State Teachers College and taught and coached at the high school in Morehead for 20 years. He died in 1962. His widow and their grandmother live on Sun Street in Morehead.

Lynn's father, a Jackson insurance agent, and her mother, the former Jewell Irene Taulbee of Jackson, met while attending Morehead State Teachers College in the early 1940's. Her brother, Harold L. Holbrook, graduated from the University in 1965 and currently lives in Winchester where he is employed in a bank.

A younger sister, Deborah, is a junior at Breathitt County High School and plans to attend Lee's College at Jackson for one year upon graduation before transferring to Morehead State University as a sophomore.

(more)

holbrooks at msu 2222222

Marc's father, Robert, is a Morehead druggist. He attended college at Morehead before World War II. His mother, the former Helen Carey of Louisa, graduated in 1946 from the University, and a younger sister, Barbie, is a freshman at University Breckinridge School.

An uncle, Dr. Harold Holbrook, is a Morehead dentist. His daughter, Cynthia, attended the University last year, but since has married and moved to Lexington where her husband attends law school at the University of Kentucky.

FOR IMMEDIATE RELEASE

MOREHEAD, Ky., Oct. 30--Five freshmen from Morehead State University have been selected by all freshmen at Morehead to serve as a steering committee for freshmen activities.

Roger Wilson, director of Student Affairs at Morehead, said the committee serves, in place of a class president, to arrange such functions as social activities, and special entertainment programs.

Wilson said two such programs are being planned for the current semester. One is a show to be put on by sophomore Bill Birchfield, Wellington, who is a magician. The other is to be a talent show featuring acts by freshmen themselves,

"There's all kinds of talent in that class," Wilson said. "Out of more than 2,000 students you're bound to have dancers, singers, ventriloquists and pantomimists."

Those who will serve on the committee are: Patty Ann Blair, Bardstown; Darrel Jay Carter, Dayton, Ohio; Christine Noble, Clayhole; Ron McDowell, Flatwoods; and Terri Williams, Dayton, Ohio.

FOR IMMEDIATE RELEASE

MOREHEAD, Ky., Oct. 31--"The Marriage of Figaro," third of six programs of the Northeast Kentucky Celebrity Series will be presented Nov. 8, at Burton Auditorium on the Morehead State University campus. Curtain time is 7:30 p.m.

The opera is being staged by the Kentucky Opera Association, under the direction of Moritz Bomhard. Bomhard says that within the last 20 years, great changes have come about and a constantly increasing number of Americans--particularly among the alert and young--are beginning to see things in their proper perspective.

"They are realizing that in order to like opera," he says, "in order to have a good time with opera, they actually need but little knowledge, and whatever knowledge is desirable is easier to come by than the knowledge needed to appreciate fully almost any other type of cultural expression."

Mozart's "Marriage of Figaro" represents, up to this time, the nearest approach to perfection in the art form of opera, and among all the world's masterpieces, there is nothing quite like it.

It is, above all, a supremely beautiful musical achievement--an exquisitely proportioned treasure house of radiantly lovely and expressive melodies. It is also a wonderfully human and profoundly humane creation--an almost miraculous blend of sparkling humor and pathos, of farce and touching romance, of satire and deep understanding.

Previous presentations of the Celebrity Series this season have been the Greg Smith Singers and "Stop the World, I Want to Get Off." Future ones will feature Joseph Battista, Nov. 30; Preservation Hall Jazz Group, Jan. 8; and the Chamber Symphony of Philadelphia, March 10.

MOREHEAD, KENTUCKY

MOREHEAD, Ky., Nov. 1 — "I love the states! Everybody speaks English. All the signs are in English, and everybody looks like me. I'm so accustomed to being the different one."

Coming from an American girl, that could be considered a rather strange statement, but Donna Marie Amaral, a sophomore at Morehead State University is an unusual American girl.

Donna's home is in Ankara, Turkey, and most of her 19 years have been spent in foreign lands. Although she was born at Fitchburg, Mass., until she came to Morehead a year ago to begin her college education, she knew very little about life in the United States.

Donna's father, August R. Amaral, Jr., is principal of the elementary school for American military dependents in Ankara, while her mother directs a private kindergarten for American children.

They have been teaching in American military schools for 16 years—first in the Azores, then in France and Germany and now in Turkey. He graduated from Fitchburg State Teachers College at Fitchburg and has a master's degree from Bridgewater (Mass.) College. Mrs. Amaral is a graduate of the University of Maryland.

There were 111 American youngsters in Donna's graduation class. "We have a little bit of every branch of the military," she said, "Marines, Army, Navy, Air Force and civilians."

A seven-day dormitory is provided at the school for the youngsters of Americans in the general area but living at points where no such facilities are provided.

How did a little girl in Ankara, Turkey, find happiness in a state university nearly half a world away in the mountains of Eastern Kentucky? It's quite a story.

(more)

As high school graduation neared for Donna, she was determined to continue her education in the states.

"After all, the United States is my country," she said, "and I wanted to see it and to feel a part of it."

Her guidance counselor gave her a catalog in which all the colleges and universities in the states were listed. For hours, she and her parents studied it. From it, they compiled a list of 15 schools, and each one was written and literature requested.

"Every one of them answered," Donna said, "and we had all kinds of literature." From this small mountain of material, she selected five schools and her parents selected five. An application was mailed to each one, and Donna was accepted by every one of them. Then came the final selection.

"Morehead was my No. 1 choice," she said. "For some unexplainable reason, it appealed to me more than any others. When it was left up to me to decide, it was the one I chose."

Donna is majoring in elementary education and she plans to continue beyond graduation, working toward a master's degree in special education. She hopes someday to go to Africa to work among the mentally retarded, the handicapped and the gifted, but she definitely intends to teach overseas.

Donna speaks German well, plus some French and Turkish. "We have never lived in one place really long enough to become fluent in the language," she said. "When you are in one country for any length of time and use and hear the language every day, you, naturally, get so you can get along with it."

"But when you move to another country and into another language area, you soon forget the previous one simply because you do not use or hear it any more." English, however, is spoken in her home and at the military schools.

Since she is something like 8,000 miles from home, Donna doesn't get home at Thanksgiving, Christmas and during spring vacation as do most of the Morehead students. These holidays she spends as a guest in the homes of classmates.

She spent last summer at home and will go back at the end of the spring 1968 semester, flying from New York to Paris, Rome, Istanbul and on to Ankara. Since her parents are with the Civil Service, she generally travels by military aircraft.

Two brothers and a sister are at home: Andrea, 17; Mark, 14; and Druex, 12. They hear from their sister every week.

"I haven't been disappointed at all in my selection," she said with a smile. "Morehead University has been everything I had hoped for and then some. I just love it here."

FOR IMMEDIATE RELEASE

MOREHEAD, Ky., Nov. 6--Morehead State University's eighth annual Choral Festival has been set for Dec. 1-3 and it will feature two outstanding men in the field of music, James Ross Beane, associate professor of music at Morehead has announced.

The festival, considered the biggest choral affair of the year at the University, is free and the public is invited. Participants will present some Christmas music, helping to open the Christmas season on the campus.

Among the performing guests will be Robert Fage, professor of music and director of choral activities at Temple University in Philadelphia; and Dr. Ralph Appelman, professor of voice and director of the Institute for Vocal Research at Indiana University.

Professor Fage's choral groups perform regularly with the Philadelphia Orchestra. His visit to Morehead will be his third in the capacity of a guest choral leader.

Dr. Appelman is an author, scholar, teacher and artist. He has received rave reviews for his performance in both opera and oratorio.

Beane said 200 high school choral students from Kentucky and Ohio also will attend the three-day event. These students, he said, will rehearse with Fage and attend concerts given by Dr. Appelman and the University chorus organizations. The students' teachers will observe Fage and participate in a seminar on vocal technique to be conducted by the University voice faculty.

All concerts will be in Button Auditorium. Dates and times are:

Dec. 1-8 p. m. University Choir, Chamber Singers, and Orchestra,
James Ross Beane, conducting.

2-8 p. m. Dr. Ralph Appelman, bass.

3-3 p. m. Festival Chorus, Robert Fage, conducting
(All high school students will participate)

MOREHEAD, Ky., Nov. 7--The Concert Choir and Chamber Singers of Morehead State University will present a program at the Paramount Theater in Ashland November 16 in conjunction with the first General Session of the Eastern Kentucky Educational Association convention.

The program, which will begin at 8 p.m., will be under the direction of James Ross Beane, associate professor of music at the University. There are 47 voices in the Concert Choir and 15 in the Chamber Singers group. They will be accompanied by Miss Bobbie Webb and Gary Holcombe, both assistant directors.

The Chamber Singers will present four English Madrigals and three songs by Jack Jarrett of the University of North Carolina faculty.

The Choir will sing "Jubilate Deo" by Flo Peeters for chorus and brass; two spirituals, "Every Time I Feel the Spirit," and "If I Got My Ticket, Can I Ride?" and the "Battle Hymn of the Republic," by Ringwald with instrumental ensemble.

MOREHEAD, Ky., Nov. 7--Five Kentuckians and one Pennsylvanian will be leading cheers during the coming season for the Morehead State University freshman basketball team.

Named last week following tryouts were Pam Bolling, Frankfort; Carol Freet, Chambersburg, Pa.; Beverly Frances Midden, Cynthiana; JoAnn Moore, Bradford; Diana Sue Williams, Ashland, and Vicky Works, Independence.

Miss Bolling was a member of the Franklin County High School girls' track team for four years, is the daughter of Mr. and Mrs. D. H. Bolling, 211 Hiawatha Trail, Frankfort. Miss Freet was a cheerleader at Chambersburg Area High School before enrolling at Morehead this fall. Her parents are Mr. and Mrs. Robert Freet, 530 Bender Ave., Chambersburg.

Miss Midden was a cheerleading teammate of Morehead varsity cheerleader Anne Haviland at Harrison County High School, Cynthiana, where she led cheers for four years. A daughter of Mr. and Mrs. Leo Midden, she also was a member of the state champion cheerleading squad of 1965.

Miss Moore is a graduate of the George C. Marshall High School in Ankara, Turkey, where her father was stationed in the armed services. She is living with her grandparents in Bradford in Bracken County.

Miss Williams has been a cheerleader since the sixth grade and led cheers at Paul Blazer High School, Ashland, before coming to Morehead. She is the daughter of Mr. and Mrs. O. B. Williams, 1621 Blackburn Ave., Ashland.

Miss Works also has been leading cheers for a long time, since the seventh grade. Last year while at Simon Kenton High School at Independence, she was voted the most outstanding yell leader in the 33rd basketball district. Her parents are Mr. and Mrs. Herbert Works, 689 Station Road, Independence.

MOREHEAD, Ky., (Nov. 8) -- The Morehead State University affirmative debate team, composed of John Greenman, Morehead, and Kathy Bailey, Columbus, Miss., were undefeated and finished second in the Manchester College debate tournament held (October 28) recently at North Manchester, Ohio.

First place honors were captured by Ohio University, Athens, with 188 points to nose out the Morehead team with 182. In the competition, the Morehead team defeated Wheaton College and Purdue, and the negative team of the first place winners, Ohio University.

Also in negative competition, the Morehead entries, freshmen Don Cetrulo, Fort Thomas, and Craig Martin, Campbellsville, handed Butler University, Indianapolis, its only loss of the tournament in their first college competition.

Fifty-four teams from 36 colleges and universities from Indiana, Wisconsin, Ohio, Illinois, and Kentucky participated in the tournament. More than 200 debaters faced their opposition on the proposition:

"That the federal government should guarantee a minimum annual cash income to all citizens."

MOREHEAD, Ky., (Nov. 8) -- Among the trophy winners at the University of Chicago Invitational Debate Tournament last Saturday in Chicago was John Greenman, a member of the Morehead State University team.

Greenman, the son of Dr. Martin Greenman of the Morehead philosophy faculty and Mrs. Greenman, won third place in the speaker's competition. Six trophies were awarded in the Four-Man Varsity Division of the tournament.

Also representing Morehead in the tournament's 12 rounds of debates along with Greenman were Miss Kathy Bailey, Columbus, Miss.; Craig Martin, Campbellsville; and Don Cetrulo, Fort Thomas.

Other schools represented included Northwestern University, Washington University of St. Louis, University of Iowa, Wabash College, Youngstown University, St. Xavier of Cincinnati, Michigan State and the University of Michigan.

The proposition debated was: "That the federal government should guarantee a minimum cash income to all citizens."

MOREHEAD, Ky., Nov. 8--More than 100 business and professional leaders from throughout Kentucky's northeastern gateway region are expected to participate in a special Business-Industry-Education Day Wednesday, November 15, at Morehead State University.

The program is being co-sponsored by the Chamber of Commerce and the Junior Chamber of Commerce in Morehead along with the University. Its purpose is to show what is being done at the University in preparing young people for positions of leadership in the fields of business, industry and education.

The first session will open at 3:30 p.m. (EST) in the assembly room of the Home Economics-Industrial Arts Building during which three topics will be discussed.

Dr. Adron Doran, president of the University, will discuss "The Role of the Regional University in Serving Business and Industry."

Dr. Paul Ford Davis, dean of undergraduate programs at Morehead, will speak on, "Preparing the Whole Individual Through General Education," and Dr. C. Nelson Grote, dean of the School of Applied Sciences and Technology, will speak on "Preparing the Individual for Business and Industry."

A tour of the campus will be conducted before the program is concluded with a banquet in the University's new Alumni Tower cafeteria at which John Fred Williams, an executive with the Ashland Oil and Refining Company, Ashland, will be the principal speaker.

FROM: OFFICE OF PUBLIC INFORMATION
MOREHEAD STATE UNIVERSITY
MOREHEAD, KENTUCKY

MOREHEAD, Ky., Nov. 9 --Three things about life on an American college campus impress Sang Hi Yun more than anything else:

- The open display of affection between the sexes.
- The number of tests given by American instructors, and
- The lack of respect and consideration given their elders by American young people.

Sang Hi lives in Seoul, Korea, and she has come more than 9,000 miles to study library science at Morehead State University.

A graduate student, she already holds a degree in English literature from the oldest college in Korea, Sung Kyun Kwan University. It was founded more than 500 years ago.

"At first, I thought it American custom," she said in her broken English, nodding toward a couple strolling by with arms about each other's waists. "On Korean campus holding of hands is seldom seen."

One of her greatest difficulties, she says, is with the English language, and she has found it necessary to memorize much material in order to cope with the many tests she is given. "In Korea, only one test given each semester," she said.

As for the attitude of American young people toward their elders, Sang Hi pointed out that in her country, older people are respected and given more consideration by the younger generations than she has observed in America. "It is believed in Korea," she said, "that older people have had richer experiences in life and are better able to advise their children for the best."

"In the United States, everything seems to center around young people. Older people do not seem to get the respect and understanding from them that our elders in Korea get," she added.

Sang Hi's flight to the states from her home in Seoul was the first time she had flown--or had been very far from home. She did very well on the 36-hour trip, changing planes in Tokyo, Seattle, Los Angeles, St. Louis and Louisville

before landing in Lexington late on a September Sunday afternoon.

Not expecting her, no one was there to meet her. She became frightened and began to cry, but an airport employee, noticing her bewilderment, came to her aid and saw to it that she boarded a bus for Morehead. He then called ahead to say she was on the way.

There, Mrs. Vicki Frazee, secretary to Dr. Jarvis H. Hill, dean of the Morehead Graduate Program, was waiting to meet her, and directed her to the room reserved for her in the University's new 16-story Mignon Tower.

She describes her room as comfortable and convenient. Korean dormitories are similar to those in America, she says, but not the homes. Her home in Seoul was described as a typical Korean dwelling and with no chairs or beds.

The living room is the only room in the home with a wooden floor. All others are covered with a tile-like material with ovens beneath for heat. The beds are floor mats, which are rolled up and stored during the day.

Sang Hi is five feet three inches tall and weighs 110 pounds, slightly larger, she says, than the average Korean girl. She has two married sisters at home—Sang Ye and Sang Im.

Her first name, she explained, indicates the generation to which she and her sisters belong. The middle name, Hi, is her name as an individual, while Yun is the family name.

Sang Hi has yet to completely tour the 455-acre Morehead campus. "It is frightening still to be alone in a strange country where you do not know anyone and are not familiar with the customs," she says, but she is catching on fast.

American food, she finds, is quite different from that served in Korea where rice and noodles are almost daily fare.

Sang Hi misses one of her favorite dishes, kimchi, a hot, spicy, vegetable dish which Koreans serve year-round, but she is rapidly becoming fond of such American food as beef stew, spaghetti, macaroni and cheese, steak, bacon and, of course, ice cream.

(more)

korean girl at msu '3333333

When she goes to meals at one of the University's two cafeterias, Sang Hi always goes with someone who can help her order. There are no cafeterias in Korea, she explained, where waitresses take the orders and serve the food. Some American dishes are creeping into Korean menus, she said, as she is completely at home with the traditional American hamburger.

As for clothes, Sang Hi believes American girls are more interested in clothes than are their Korean counterparts. She wears American clothes on the Morehead campus, but brought several of her native dresses with her for special occasions. The wearing of American clothes, however, is not new to her, as many young people in Korea wear clothing styled after ours.

Mini skirts are worn in Korea, she said, but are slightly longer than some she has seen in America. When asked her reaction to the mini skirt, she commented, "They look good on some girls and bad on others."

Another noticeable difference is the use of perfume. Korean girls, she says, use such a slight amount it is difficult to detect it, while the American girls she has met, in general, use it rather freely.

Americans smile more, though, she says. "Compared with Americans, the Korean people are very conservative. They are polite and friendly but they don't smile as often as your people do.

"This I like," she says, "It is good."

MOREHEAD STATE UNIVERSITY
MOREHEAD, KENTUCKY

MOREHEAD, Ky., Nov. 10--Two major events are scheduled for November 18 and 19 at Morehead State University.

Saturday, November 18, the University will observe its annual Governor's and Legislators' Day. The following day the University's spectacular new Mignon Complex for women will be formally dedicated.

Gov. Edward T. Breathitt, members of his Cabinet, and members of the Legislature have been invited to be the University's guests for the day Saturday. The program will include a luncheon and an afternoon football game with the Eagles of Morehead meeting the Colonels of Eastern Kentucky University at 2 p.m. at Breathitt Sports Center.

An invitation also has been extended to Governor-Elect Louie B. Nunn and other newly-elected state officials. President and Mrs. Robert Martin of Eastern Kentucky University and members of their faculty and staff also have been invited to be present.

"We welcome this opportunity for fellowship among the faculty and staff of Morehead and Eastern with the people who are and soon will be rendering distinguished service to the state government," President Adron Doran of Morehead said in his letter of invitation.

Dedication ceremonies for the University's new Mignon Complex - four residence halls for women named in honor of Mrs. Doran - will take place on the patio before Mignon Hall, beginning at 2 p.m. Sunday, November 19.

Presiding will be Lloyd Cassidy, Ashland, member of the University's Board of Regents.

Dedicatory addresses will be given by State Superintendent of Public Instruction Harry Sparks, representing the Board of Regents of which he is chairman; Rondal D. Hart, director of alumni relations at the University, representing its more than 8,000 alumni; Art Dayton, president of the Student Council, representing the 6,100-member student body, and Dr. Madison Pryor, chairman of the Division of Biology,

two major events at msu 2222222

representing the Morehead faculty.

A plaque, commemorating the achievement, will be unveiled by Mrs. W. C. Simpson, of the University Woman's Club, and Mrs. James Osborne of the University Younger Woman's Club will present a portrait of Mrs. Doran to be hung in the lobby of Mignon Hall, the first of the four-unit complex to be completed in 1960. Three hundred and seventy-five co-eds are housed in its suites.

West Mignon Hall, the second unit of the complex to be built, was completed in 1963, and houses 255 co-eds. East Mignon Hall, housing 250 girls was completed in 1965, while 16-story Mignon Tower, the newest and most spectacular of the four, was completed this past summer and houses 300 co-eds in 75 suites.

A total of 1,180 girls reside in the four buildings.

Rooms in all four halls will be open to visitors from 3 to 5 p.m. and receptions are planned for each Hall during this period. The public is invited to attend the ceremonies.

MOREHEAD, KENTUCKY

Morehead, Ky., Nov. 11--Approximately 1500 Morehead State University faculty members, alumni, and friends will be on hand for the forty-fourth annual convention of the Eastern Kentucky Education Association, set for Nov. 16 and 17, at Ashland.

Morehead's participation in the event will be highlighted by a banquet at 6 p. m., Nov. 16 at the Henry Clay Hotel. Morehead President Adron Doran will be the featured speaker. His topic will be "New Vistas in Education". Tickets for the banquet are priced at \$2.50 and may be purchased at the University's display and information booth. The display at the banquet will be one of the modern "teaching machine" type computers currently being used at the University's Breckinridge School.

Two Morehead musical groups will perform at the banquet. They are The Coeds, under the direction of Mrs. Vasile Venettozzi, and The Morehead State University Combo, directed by Gene Deaton. Both Mrs. Venettozzi and Deaton are faculty members of the Music Department.

The first general session of the convention will be at 8 p. m., Nov. 17. It will include a concert by the Morehead State University choir, under the direction of James Beane, director; invocation by Dr. Edward L. Tullis, pastor of the First Methodist Church of Ashland; welcome by Oran C. Teater, president of EKEA; greetings by Talton K. Stone, president of the Kentucky Education Association; an address by Dr. Bernard M. Loomer, professor of philosophical theology, Berkeley Baptist Divinity School, whose topic will be "The Modern Mind, Religion, and Education"; and entertainment sponsored by the Ashland Oil and Refining Company.

Second general session will begin at 9:30 a. m., Nov. 17, with music by the Fairview High School Band, under the direction of Jim Andy Caudill. Rev. Ira McMillen, Jr., Unity Baptist Church, Ashland, will give the invocation.

The Friday morning session will feature an address by a former Miss America, Marilyn Van Derbur, now a consultant on motivational research; and Dr. Verne P. Horne, public relations director, KEA. Miss Van Derbur will talk on "Motivation for Living" and Horne's topic will be "What's Happening In KEA?".

There will be 21 separate departmental meetings Friday afternoon.

FOR IMMEDIATE RELEASE

MOREHEAD, Ky., Nov. 13—Dr. J. E. Duncan, dean of Morehead State University's School of Humanities; and Dr. Glenn Fulbright, head of the Music Department plan to attend the forty-third annual meeting of the National Association of Schools of Music at the Palmer House in Chicago, Nov. 24 and 25.

Morehead has been a member of the NASM since 1965.

The NASM has been designated by the National Commission on Accrediting as the responsible agency for the accreditation of all music degree curricula with specialization in the fields of applied music, music theory, composition, music therapy, musicology, and music as a major in liberal arts programs. Its deliberations will play an important part in music education trends in this country during coming years.

Some 300 member schools will be represented by the Deans of their music departments. Distinguished speakers at the meeting will include:

Harold Spivacke, chief music director, Library of Congress; Lukas Foss, composer and conductor of the Buffalo Philharmonic Orchestra; and Russell Getz, fine arts advisor of the Pennsylvania Department of Public Instruction.

FOR IMMEDIATE RELEASE

MOREHEAD, Ky., Nov. 14--Thirty-seven Morehead State University seniors and graduate students have been selected to be honored in "Who's Who in American Colleges and Universities," Dr. Adron Doran, president of Morehead announced.

"Who's Who" is a publication designed to give recognition to outstanding students who have excelled both academically and in student affairs.

The students named to "Who's Who" are:

Jack Wiggers, Donnie J. Watts, Nancy Tullis, Sharon Towler, Harold W. Thomas, George Stepp, Herb Sparrow, Pat Spangle, Douglas Shear, Mary Sharrard, Leanne Roberts, Charlotte Reid, Barbara Quinn, Cole Proctor, Larry Netherton, Joyce Mason, Stephen Howard Marshall, Leo Marcum, Jeanette Manley, Harold Edward Maddox, Patrick Lunsford, Sue Giannelli, George Fraley, David Donovan, Art Dayton, Perry Day, Dick Crowe, Nina Craig, Larry Burgess, Jim Boyd, Jen Bohannon, Steve Benedetto, Stephen Baker, James Adams, Wayne Judy, Dan Hopwood, and Sue Hack.

Wiggers, a business administration major from Waco, Texas, is president of Zeta Alpha Phi, men's social club.

Watts, from Waddy, is a history and French major and a member of Circle K. He has served as secretary of that organization.

Miss Tullis is from Middletown, Ohio. She majors in mathematics and is a member of Capa Tridents and the Honors Program. She is also an alumna of CWENS, women's honorary society.

A music major from Maysville, Miss Towler, is active in Sigma Alpha Iota, women's music fraternity of which she was president last year.

FOR IMMEDIATE RELEASE

MOREHEAD, Ky., Nov. 14—Two Morehead State University industrial education seniors have been named to share jointly the second place award for a demonstration on ultrasonics recently presented at the annual meeting of the Kentucky Industrial Education Association in Louisville.

They are Richard Books, Huntington, N. Y., and Tom Crawford, Manchester, Ohio. Fifteen students and six faculty members from Morehead attended the meeting.

Clyde Hackler, industrial education instructor at Morehead, said that he believes Morehead is the only college or university in Kentucky that is using ultrasonics in its industrial education program.

He explained that ultrasonics, which he defined as high-frequency sound waves above the upper limit of human hearing, has widespread possibilities for use in science and industry. Ultrasonics is used in the field of medicine for the treatment of bone ailments, by industry for welding metal, and by oceanography for measuring ocean depths.

Hackler said that the Home Economics Department at Morehead may even soon be using ultrasonics to demonstrate an improved method of "washing" dishes. Another use is the breaking-down of molecules so as to mix oil and water.

Hackler said the device exhibited by the Morehead students was a limited system. He explained that a much larger power unit is needed for such uses as welding metal than is available at Morehead.

About 50 copies of an abstract of a paper on ultrasonics, prepared by Books and Crawford and distributed at the Louisville meeting, are available and may be obtained by writing to the Morehead School of Applied Sciences and Technology.

MOREHEAD, Ky., Nov. 15--The critical manpower needs of the nation's schools were examined at the first meeting in Washington, D. C., November 6-7, of President Johnson's National Advisory Council on Education Professions Development.

Dr. Adron Doran, president of Morehead State University and a member of the Council, participated in the meeting.

In a statement issued afterwards, Dr. Laurence D. Haskew, professor of educational administration at the University of Texas and chairman of the Council, said the staffing problem "is indeed a grave one."

"We are rapidly moving out of the time when a count of the number of teachers available for traditional teaching jobs provides a realistic measure of our needs," Dr. Haskew said. "Our new concern must be for people with almost infinite varieties of specialized competence to conduct the kind of education America is developing."

The Council was established under the Education Professions Development Act of 1967, a new comprehensive measure to improve the quality of teaching and to help meet critical shortages of trained school personnel.

The Council is authorized to review the operations of all federal programs for the training and development of educational personnel, and to evaluate "their effectiveness in meeting needs for additional educational personnel and in achieving improved quality in training programs."

According to Dr. Haskew, "the Education Professions Development Act is one among many examples of the forward-looking responses being made to these needs by our institutions and by local, state and national agencies."

(more)

The Council has a mandate to report its findings and recommendations to the President and the Congress. It also will advise the Secretary of Health, Education and Welfare and the U. S. Commissioner of Education in all matters in this area.

In addition to Dr. Haskew and Dr. Doran, the other members are:

Sister Mary Corita, professor of art, Immaculate Heart College, Los Angeles; E. Leonard Jossem, professor and chairman of physics, Ohio State University; Marjorie Lerner, principal, Donoghue Elementary School, Chicago; Mary Rieke, president, Oregon School Boards Association.

Carl Marburger, commissioner of education, State of New Jersey; Lloyd Morrisett, vice-president, the Carnegie Foundation for the Advancement of Teaching, New York; Theodore Sizer, dean, graduate school of education, Harvard University.

Bernard Watson, associate superintendent of schools, Philadelphia; Don Davies, executive secretary, National Commission on Teacher Education and Professional Standards, NEA; Annette Engel, coordinator, counseling services, Roosevelt Elementary School District, Phoenix, Ariz.

Edward Moreno, foreign language consultant, K-12, Ventura County Schools, Calif.; Kathryn Lumley, director of reading clinics for the Washington, D. C., schools, and Susan W. Gray, director, Demonstration and Research Center for Early Education, George Peabody College, Nashville, Tenn.

MOREHEAD, Ky., Nov. 16--Visitors at Morehead State University Sunday, November 19, for the dedication of the Mignon Complex will find it interesting to stop by Room 204 in East Mignon Hall during the "Open House" portion of the program.

Displayed there will be the unusual paper sculpture work of Penny Starcher, a sophomore elementary education and art major from Dayton, Ohio.

Exhibited in paper will be caricatures of Penny and each of her four suitemates, created especially for the dedication program. Also on display will be "Wilhemenia," the girls' papier-mache room mascot, also a Penny creation.

Penny is the 19-year-old daughter of Mr. and Mrs. Damon Starcher, 7406 Harry Truman Drive, and a graduate of Beaner Creek High School in Dayton. She has been practicing her paper sculpturing hobby since the seventh grade.

"I really don't know how I got started working with paper," she said, "but I have always enjoyed putting pieces of various colors of paper together with scotch tape and glue and seeing what I could come up with." She follows no patterns, and all of her productions are her own creation.

Although she has never displayed her handiwork publicly, or entered it in any kind of a contest, Penny's creative ability has been in frequent demand for eye-catching decorations at parties, dances and during the Christmas holidays.

Sharing her East Mignon Hall suite with her are Beverly Zanchetti, Ansonia, Conn.; Janie Sparks, Louisa; Karen Dinardo, South Plainfield, N. J.; and Sherry Wireman, Walkerton, Ind.

Dedication ceremonies for the Mignon Complex--four residence halls for women named in honor of Mrs. Adron Doran, wife of the Morehead State University president--will take place on the patio at Mignon Hall, the first dorm in the complex to be completed in 1960, beginning at 2 p.m.

(more)

dedication sunday at msu (mignon complex) 2222222

West Mignon Hall, the second unit to be built, was completed in 1963, and houses 255 co-eds. East Mignon Hall, where Penny's paper sculpture will be displayed, houses 250 girls and was completed in 1965, while 16-story Mignon Tower, the newest and most spectacular of the four, was completed this summer and houses 300 girls in 75 air-conditioned suites.

A total of 1,180 girls reside in the four buildings.

Rooms in all four halls will be open to visitors from 3 to 5 p.m. and receptions are planned for each Hall during this period. The public is invited to attend the ceremonies.

MOREHEAD STATE UNIVERSITY
MOREHEAD, KENTUCKY

FOR IMMEDIATE RELEASE

MOREHEAD, Ky., Nov. 17--"Its no longer a matter of modern teaching aids being available for teachers to use," says Mrs. Dorothy Conley, materials librarian at Morehead State University. "The real problem is the teachers' knowing what is available, how to use it and how to properly determine its worth to learning."

At the Morehead materials center, Mrs. Conley and her staff of 12, including eight student assistants, keep and display whatever is new and effective in helping the classroom teacher impart knowledge to elementary and high school students.

Included at the center are 6,900 books; 350 shorthand discs; 600 phonograph records; 5,200 pamphlets; 3,600 filmstrips; 52 eight-millimeter films; 180 sets of slides; 25 magazines; 1,800 outlines of various courses; and 200 teaching aids such as artifacts and models.

"The beauty of our operation," Mrs. Conley says, "is that we keep our materials in circulation." Teachers from the area surrounding Morehead are encouraged to come in, see what is available to them, and to take the books, teaching machines, paintings back to their classes, keep them for a week and then report back to the center on how well the teaching aids were received by their students. Students and faculty members on the campus are also encouraged to use the facilities.

Mrs. Lois Belcher, assistant materials librarian, says she believes the secret of getting teachers to use the up-to-date equipment is to be ready and willing to show them what is available whenever they come into the center.

Mrs. Belcher describes her role at the materials center as being one who gives the constant excitement of exploring. "I can hardly wait," she said, "to get a new gadget in, unpack it, learn how to use it, and then display it in such a way that visiting teachers can comprehend its worth to their instructing the students." She takes a real evangelistic approach to getting the materials into use.

(more)

materials center at msu 2222222

The center maintains copies of textbooks that are available to schools so that teachers, superintendents, and school board members may come by and look over the various choices from which they may make their selections. Also available is supplementary material such as maps, charts, filmstrips, and overhead transparencies which are much in demand now.

Students at Morehead who are taking courses in education usually visit the center in class groups and during a period of a couple of hours are shown all the material the center has to offer.

Large files of newspaper and magazine clippings, pamphlets, and paintings are kept to go along with whatever a teacher may want to use in connection with the subject being discussed.

To give some idea of how the center has caught on, it started out in 1960 with a budget of only \$600. Today \$16,000 is being spent annually in this effort to make today's youthful generation the most aware and responsible ever.

Mrs. Conley points out that everything being done is performed without federal help. "It would be interesting to see what we could do if we had some federal aid, in view of what we are doing without it," she said.

Four different sets of encyclopedia are available for the teachers' use. They are The World Book, Book of Knowledge, Our Wonderful World and Britannica Jr. (elementary).

Typical of the type person that most frequently uses the services of the center is a school librarian from Olive Hill who comes in each Wednesday night when she arrives at the campus for a class. Mrs. Conley says her staff changes the displays once a week to constantly stimulate the interest of those who come in frequently.

Located on the lower floor of the Johnson Camden Library on the Morehead campus, the center is open from 8 a.m. until 9:30 p.m. on weekdays and from 8 a.m. until 12 noon on Saturdays.

(more)

Materials on health and social sciences are the most frequently used. "We always try to have something timely on display," Mrs. Conley says. This week a display on Thanksgiving is featured.

One machine that Mrs. Conley feels offers much potential is the Hoffman 500, a teaching machine that can have eight earphones attached to it simultaneously. The machine is equipped with a screen for viewing material presented along with the recorded material. Workbooks are also available for the students to record their responses to the written and spoken messages.

Mrs. Conley feels the machine does a wonderful job of teaching children to read. "The children seem to respond well to their being able to participate or involve themselves through several of their senses," she says. "Boredom is kept at a minimum, motivation is kept high, and the potential for meaningful learning is excellent."

Mrs. Conley emphasized that practically everything in the center may be checked out, including tapes and tape recorders, professional books, teaching machines, and a dry mounting press.

She added that although 16 millimeter films and projectors are not available from the center, they may be obtained through the office of Dr. Norman Tant, director of Instructional Media at Morehead. Dr. Tant works closely with the materials center in making recommendations on the best equipment to buy and various other matters.

FOR IMMEDIATE RELEASE

MOREHEAD, Ky., Nov. 20--Robert Page, professor of music and director of choral activities at Temple University of Philadelphia, will be the featured conductor at the final session, of a three-day event--Morehead State University's annual Choral Festival--set for Dec. 1-3.

Page, at the 3 p.m. session Dec. 3, will conduct the Festival Chorus in which 200 choral students from Kentucky and Ohio will participate.

The festival, considered the biggest choral affair of the year at the University, is free and the public is invited. Participants will present some Christmas music, helping to open the Christmas season on the campus.

Professor Page's Choral groups perform regularly with the Philadelphia Orchestra. His visit to Morehead will be his third as a guest choral leader.

Page has sung leading roles in more than 30 operas, light operas, and musical comedies and has performed the musical direction for many others. As an oratorio tenor, he has concertized in the Southwest as well as in the Philadelphia-New York area.

Page did the two-piano score for The Most Happy Fella (Frank Loesser), as well as the musical arrangements and choral direction for an off-Broadway show, Jo, produced in 1960.

Page earned a master in music degree from Indiana University and has completed his course work for a PhD at New York University.

All three of the Morehead concerts will be in Button Auditorium. Dates and times are:

- Dec. 1 - 8 p.m. University Choir, Chamber Singers, and Orchestra, James Ross Beane, conducting
- Dec. 2 - 8 p.m. Dr. Ralph Appelman, professor of voice and director of the Institute for Vocal Research at Indiana University, bass
- Dec. 3 - 3 p.m. Festival Chorus, Robert Page, conducting
(All high school students will participate)

MOREHEAD, KENTUCKY

FOR IMMEDIATE RELEASE

MOREHEAD, Ky., Nov. 20--Two choral ensembles from the Morehead State University Music Department will present a concert Dec. 7, 1967, at 7:30 p. m. in Baird Music Hall.

The Girls' Chorus and Men's Glee Club, under the direction of John Atwood, assistant professor of music, will present a varied program.

The Girls' Chorus will sing Christmas music including: "Hodie Christus Natus Est", a Plainsong Chant, a Bach Chorale, "In Dulci Jubilo", arranged by Luvaas; "The Angels and Shepherds" by Zoltan Kodaly; "The Snow" by Sir Edward Elgar with a two-violin accompaniment which will be played by George Andrix and Mrs. Andrix, both of the music faculty.

Two Christmas songs arranged for women's voices by Atwood, "Mary Wore Three Links of Chain" and "Angels We Have Heard on High", will conclude the program.

The Men's Glee Club, a new choral organization on the campus this semester, will sing "The Testament of Freedom" by Randall Thompson, accompanied by members of the Morehead band. This work, based on the writings of Thomas Jefferson, was composed for the 200th anniversary of his birth and performed at the University of Virginia in 1943.

MOREHEAD STATE UNIVERSITY
MOREHEAD, KENTUCKY

FOR IMMEDIATE RELEASE

MOREHEAD, Ky., Nov. 20--The Morehead State University Theatre will present Hansel and Gretel, its second production of the 1967-68 season, Dec. 7 and 8 at 8 p. m. and on December 9 at 2 p. m., in Button Auditorium.

Tickets, priced at \$1.00, will go on sale at the Doran Student House Nov. 27. They may also be purchased by writing for reservations to Morehead State University Theatre, Morehead State University, Morehead, Ky. 40351.

The play is an adaptation by Madge Miller of the old German folk tale of Hansel and Gretel in which brother and sister are left alone in the forest to face the Wicked Witch whom they eventually defeat. They then return home to live happily ever after.

The story was first brought to light by the famous Grimm brothers--Jacob and Wilhelm--in 1857 when they published their collection of German folk stories entitled, Grimm's Fairy Tales.

The story was popular many years before the written version was published and is still a well-loved favorite among children and adults the world over.

Morehead Theatre presented Hansel and Gretel once before in 1952. It was then directed by W. P. Covington III. Included in the cast were Don Holloway, who is now Associate Professor of Speech and Dramatic Arts at Morehead, and Don Young, now Assistant Professor of Art at the University.

The play was presented in Button Auditorium and toured High Schools and Grade Schools in the Eastern Kentucky area. The production was a great success with both college-faculty audiences and elementary-secondary students.

Morehead State University Theatre plans to add more excitement and fun to the new 1967 production by "flying" the Wicked Witch and the Forest Fairy. The

(more)

Witch will swoop and dive over the stage as she flies away to capture more child-victims for her evil designs, and the Forest Fairy will fly in as she appears for the forest ballet with the trees of the forest.

Marvin Philips, Assistant Professor of Dramatic Arts, is directing the production. He is assisted by Alan Tongret, a junior from Yorktown Hts., New York, as student director. Philips has double-cast the play in order to offer more students the opportunity for involvement in this particular type of drama. The cast

includes:Hansel -----	DeWayne Stewart, Louisville
	Wayne Stapleton, Neon
Gretel -----	Cheri Speeg, Cincinnati, Ohio
	Sandy Fugate, Frenchburg
Wicked Witch -----	Gayle Johnson, Frankfort
	Michael Junk, South Charleston, Ohio
Katrin (Mother) -----	Cynthia Whitt, Louisville
	Fanny Fried, Flemingsburg
Ernst (Father)-----	Rick Greiser, Cincinnati, Ohio
	John Clements, Lexington .
Forest Fairy-----	Sue Wheeler, Lexington .
	Gayle Lyon, Columbus, Ohio
Trudi (Black Cat)-----	Molly Viers, Catlettsburg
	Patty Trabue, Hazard

Miss Peggy Holbrook, publicity director for the University Theatre, says, "It will be an evening of fun and enjoyment for all, and perhaps a time for a few adults to reminisce about the fantasies of childhood. Don't miss it!"

MOREHEAD STATE UNIVERSITY
MOREHEAD, KENTUCKY

MOREHEAD, Ky., Nov. 20--Yesterday was "Mignon's day" at Morehead State University.

Mignon, as she is affectionately known to the students, faculty and staff at the University, is the wife of Dr. Adron Doran, Morehead's president since 1954.

While her husband looked proudly on, the First Lady of the campus smilingly fought back tears as the school's recently-completed Mignon Complex--four spectacular residence halls for women--was formally named and dedicated in her honor.

More than 1,000 people jammed the patio in front of Mignon Hall, the first unit of the complex to be completed in 1960 and which 375 co-eds call "home," for the hour-long ceremony.

Rising high in the bright fall sunshine in the background was the University's new Alumni Tower, a 10-story residence hall for men, officially dedicated during the Homecoming Weekend in early October and one of five new buildings completed on the campus this year.

The other three units in the Mignon Complex are: Mignon West, completed in 1963 and housing 255 girls; Mignon East, completed in 1965 and housing 250 co-eds; and Mignon Tower, a 16-story cylindrical structure completed this past summer and housing 300 girls in 75 air-conditioned suites. Total cost of the four units exceeds \$4,500,000.

Dedicatory addresses were made by Dr. Harry Sparks, Kentucky superintendent of public instruction; Rondal D. Hart, director of alumni affairs at the University; Dr. Madison Pryor, chairman of the Division of Biological Sciences at the University; and Art Dayton, president of the Student Council. Presiding was Lloyd Cassidy, Ashland, member of the University's Board of Regents.

"The selection of the name for these magnificent buildings was a team job," Dr. Sparks said in paying tribute to Mrs. Doran.

"The final decision was made by the Board of Regents after strong recommendations from both the Alumni Association and the Student Council that these buildings bear the name and symbolize the beauty of this gracious lady."

dedication of mignon complex 2222222

Mrs. W. C. Simpson, president of the University Woman's Club, presented a plaque, commemorating the event and depicting each of the dorms in bronze, on behalf of the club--formed 14 months ago with the guidance of Mrs. Doran, former president of the Kentucky Federation of Woman's Clubs. The plaque will be placed in the lobby of Mignon Tower.

Mrs. James Osborne, on behalf of the Younger Woman's Club at the University, presented an oil painting of Mrs. Doran, to hang in the lobby of Mignon Hall.

A poem and a song, each entitled, "Mignon," were written especially for the ceremony and presented during the proceedings. The poem, by Dr. Paul Ford Davis, dean of the University's Undergraduate Programs, was read by Rondal Hart, while Mrs. Vasile Venettozzi, of the Morehead music faculty, sang the song, the words and music for which were written by Mrs. H. V. Rouse, Dry Ridge, a close friend of Mrs. Doran. Mrs. Rouse also played the organ accompaniment.

The ceremony ended with the planting of a flowering crab tree in front of Mignon Hall after which a two-hour "open house" was sponsored by the Dorm Council in each of the four dormitories.

FOR IMMEDIATE RELEASE

MOREHEAD, Ky., Nov. 27--The final session of Morehead State University's eighth annual Choral Festival will feature all of the 200 high school choral students from Kentucky and Ohio that will be attending the event.

In this concluding session, set for 3 p. m., Dec. 3, Robert Page, professor of music and director of choral activities at Temple University in Philadelphia, will conduct the choral students.

James Ross Beane, associate professor of music at Morehead, says the festival is the biggest choral affair of the year at the University. The public is invited.

In addition to Professor Page, Dr. Ralph Appelman, professor of voice and director of the Institute for Vocal Research at Indiana University, will be featured at the festival. Dr. Appelman is an author, scholar, teacher and artist. He has received rave reviews for his performance in both opera and oratorio.

Beane pointed out that during the festival, the visiting students' teachers will observe and participate in a seminar on vocal technique to be conducted by the University voice faculty.

All concerts will be in Button Auditorium. Dates and times are:

- Dec. 1 - 8 p. m. University Choir, Chamber Singers, and Orchestra,
James Ross Beane, conducting
- Dec. 2 - 8 p. m. Dr. Ralph Appelman, bass
- Dec. 3 - 3 p. m. Festival Chorus, Robert Page, conducting
(All high school students will participate)

FROM: OFFICE OF PUBLIC INFORMATION
MOREHEAD STATE UNIVERSITY
MOREHEAD, KENTUCKY

MOREHEAD, Ky., Nov. 27--Official approval of a senior Reserve Officers Training Corps program for Morehead State University has been received from Secretary of the Army Stanley R. Resor, President Adron Doran has announced.

Initial notification of the program's approval, one of 15 new programs granted by the Army to colleges and universities across the country for 1968, first was received last Wednesday from the office of Congressman Carl Perkins (Democrat, 7th District, Ky.) in Washington.

The new program is expected to begin at Morehead with the fall, 1968, semester. Although the University's Board of Regents has not yet acted on a proposal to make certain facilities at the school available to the Army for the program, it is expected to do so at its next scheduled meeting, no date for which has been set at this time.

A team of Regular Army officers from Headquarters, First U. S. Army, Fort George G. Meade, Md., is expected to visit the campus next week to help organize the new Military Science Department.

An architect already has begun the preparation of blueprints for the renovation of Button Auditorium to accommodate the entire Military Science Department. No announcement has been made with reference to when bids will be asked on the project.

No specific branch of service will be stressed in the new program, University officials have pointed out, since the program will be a "general military science program." By this, it is meant that all 14 branches of the service will be taught at the University with students being given the opportunity to select the branch of service for which they want to train for a possible commission.

(more)

Two types of programs will be offered. There will be a four-year program and an accelerated, two-year program under which students can qualify for a reserve commission on a concentrated training basis.

According to Bill Ewers, of the University Business Office, the program will be required of all freshmen males physically capable. The number of credit hours involved will be eight for the basic course and 10 for the advanced course, making a total of 18 for the full, four-year program.

Ewers, who retired from the Army in 1966 as a sergeant major after 24 years of service, including 13 in ROTC work, was instrumental in acquiring the military program for the University, serving as the liaison man between the University and the Department of the Army.

Only students continuing beyond the basic course into the four-year program and those participating in the accelerated, two-year program will receive military training pay from the government, Ewers pointed out.

Those continuing into the four-year program will be paid \$50 per month by the Army upon starting their third year of training, while those participating in the accelerated program will receive a similar amount per month from the outset of their training regardless of their previous ROTC training status.

In addition to being required to attend two summer camps, students enrolling for the two-year, accelerated program also must follow an academic schedule which will allow them sufficient time to participate in the military science program. A minimum of five hours per week is expected to be required for the classroom and drill exercises. Those following the four-year program will be required to attend one summer camp.

Although the summer camps can be designated anywhere in the country, it is most likely that the Morehead students will participate in this phase of their

(more)

training at either Fort Bragg, N. C., or Fort Benning, Ga.

Under the provisions of the accelerated program, the first officer to be commissioned at the University will receive his gold second-lieutenant bars in June of 1970. The first students to successfully complete the four-year program will be commissioned in June of 1972.

An eventual staff of 10 officers and seven or eight non-commissioned men ^{is} are expected to be assigned to the University to staff the program, in which more than 1,000 freshmen and upperclassmen are expected to participate beginning next fall.

It is estimated that approximately 16 families will be moving into the Morehead area within the next few weeks to staff the new Military Science Department. All of the staff members, both commissioned and non-commissioned, will be Regular Army personnel.

The University's application for an ROTC program was filed with the Army last spring, and in June, an inspection of the campus and physical facilities was conducted by Lt. Col. Thomas A. Harris, acting professor of military science at Eastern Kentucky University.

With the application now approved, Morehead becomes the last of Kentucky's public colleges to offer Reserve Officers Training Corps programs. Similar programs are in operation on the campuses of Murray, Western Kentucky, Eastern Kentucky Universities and the University of Kentucky.

In addition to Congressman Perkins, U. S. Senators John Sherman Cooper and Thruston Morton and the presidents of its sister institutions in Kentucky strongly endorsed the Morehead application for the new unit.

MOREHEAD STATE UNIVERSITY
MOREHEAD, KENTUCKY

MOREHEAD, Ky., Nov. 28--A chapter of Phi Delta Kappa, a professional fraternity for men in education, has been established on the campus of Morehead State University. Making up its membership are 60 newly-initiated members and 35 who had held memberships in chapters on other campuses.

An initiation team from the University of Kentucky recently met with the candidates for admission to the fraternity and selected the ones who "showed unusual promise of success in career education." The UK team consisted of Elbert W. Ockerman, chairman, James Brown, Herbert Bruce, Morris Cierley and C. R. Hager.

Selected members were initiated in a morning ceremony and the charter for the fraternity was officially installed at a dinner meeting at the University's new Alumni Towers cafeteria.

The installation team was made up of J. W. Lee, Clinton, Miss., international director; Nathaniel H. Shope, Boone, N. C.; Grady Woody, Memphis; and Maurice F. Shadley, Bloomington, Ind. In February of this year, these men made an official visit to the campus to approve Morehead State University to petition for a campus chapter.

Beginning in October 1966 to organize and plan for a campus chapter of Phi Delta Kappa were the following members from Morehead, in addition to President Adron Doran, who signed the petition for admittance:

Dr. Hobart Adams, Tim Baker, Dr. Paul Borders, Leonard Burkett, Rex Chaney, William T. Clark, Dr. Marvin Cole, Dr. Milan B. Dady, Dr. Paul F. Davis, Dr. Kenneth E. Dawson, Dr. John R. Duncan, Dr. Roland Dewing, Dr. Lawrence Griesinger, Dr. C. Nelson Grote, Dr. Palmer Hall, William C. Hampton, Dr. Jarvis Hill, Dr. Crayton Jackson.

Dr. James S. Johnson, Roger Jones, Charles L. Kincer, Dr. Warren Lappin, Dr. James L. Latham, Jesse T. Mays, Dr. Robert C. Needham, Dr. Morris L. Norfleet, Guy D. Penny, Dr. Roscoe C. Playforth, Dr. John C. Stanley, Dr. Lawrence C. Stewart, Dr. Norman Tant, Roger Wilson, Dr. Clark Wotherspoon and Dr. Joost Yff.

MOREHEAD, KENTUCKY

FOR IMMEDIATE RELEASE

MOREHEAD, Ky., Nov. 29--The Morehead State University Brass Choir I under the direction of John K. Stetler will present a concert Thursday, Dec. 14 in Button Auditorium at 7:30 p. m. The Brass Choir was organized in the fall of 1959.

Participating students are selected by audition because the selections performed require musical proficiency and independence. Those qualified are given an opportunity to perform representative works of early brass literature, contemporary compositions and selected transcriptions for brass.

Since 1959, the Brass Choir has played in many of the Kentucky high schools. It has participated in many tours and recently performed at the Eastern Kentucky Education Association Convention in Ashland.

John K. Stetler, assistant professor of music at Morehead, is from Lancaster, Pa. He has earned the BM degree from Cincinnati Conservatory of Music and the MM degree from Wichita University. He has also done graduate study at the University of Illinois. Stetler has performed with the Cincinnati Symphony, played first trumpet with the Wichita Symphony Orchestra and the Central Kentucky Philharmonic Orchestra in Lexington.

The program will consist of these selections:

Contrapunctus No. 3 (from The Art of Fugue) by J. S. Bach (King); From My Diary by Max Reger (Fred C. Werlé); Theme and Variations (first prize winner in 1950 of the Thor Johnson Brass Composition Award) by Verne Reynolds; Canzon septimi toni No. 2 (Sacrae Symphoniae, Venice, 1597) by Giovanni Gabrieli (King); Suite for Brass and Tympani by Thomas Tyra.

A Requiem In Our Time (first prize winner in 1954 of the TJBC Award) by E. Rautavaara; When I Can Read My Title Clear (Southern Folk Hymn) arranged by Dwight Gustafson; and Jericho Suite by Joshua Missal.

FOR IMMEDIATE RELEASE

MOREHEAD, Ky., Nov. 30--Miss Kitty Lynn Wilde, music major at Morehead State University, will present her senior recital Dec. 10 in Baird Music Hall at 3 p. m.

Miss Wilde, daughter of Mr. and Mrs. Maurice E. Wilde of Owensboro, will be accompanied in the recital by Karl Payne of the Morehead music faculty.

Miss Wilde, who has studied flute with James Martin, instructor in music at Morehead, will be graduated in June. She is majoring in music with flute as her applied instrument and with minors in Russian in psychology.

Before coming to Morehead she studied flute with Robert McQuaid and Albert Saurini. Miss Wilde has also studied with John Wummer, New York; Harry Houdeshel, Indiana University at Bloomington; and Alex LeSeurue, formerly of Morehead.

Miss Wilde played flute professionally with the orchestra for the musical "Pajama Game" and "South Pacific". She also has private teaching experience gained at Morehead from 1966 to 1967.

Her recital program is planned this way:

Sonata in B Minor by Bach; Sonata in D Major by Prokofieff; Selection from Opera "La Juive" by Halevy; and Three Shanties for Wind Quintet by Arnold.

FOR IMMEDIATE RELEASE

MOREHEAD, Ky., Dec. 4 --Some of the top students on the campus are enrolled in the new, two-year, associate of applied science degree program at Morehead State University, according to Dr. Charles Derrickson, chairman of the University's Department of Agriculture.

Derrickson said that last year, for example, one student--Joe Planck, Morehead--made better than a 3.0 scholastic standing and was chosen the University's outstanding agriculture student of the year.

Morehead's associate degree program is designed primarily for students who, for one reason or another, want to go a little further than high school. But the courses they take are so designed that if they decide to complete four years of college they will be able to apply the credits they have earned to the four-year course of study.

Derrickson said a student working toward the associate degree in agriculture at Morehead has a choice of studying either farm production or agri-business technology.

If the student decides to go in the farm production direction, he will concentrate mainly on such things as the study of soils, animal nutrition, genetics, landscape design and plant propagation. But if he goes into agri-business, economics, business communications, salesmanship, and marketing will be stressed.

Requirements for the study of farm production are geared largely to the student who intends to go back to his farm to work or to manage a farm for someone else. A student following the agri-business plan will prepare himself mainly to work with commercial concerns such as fertilizer, implement, seed, feed and farm supply manufacturers.

Morehead now offers a four-year program in farm production. Derrickson says the University plans to expand the two-year agri-business curriculum into a four-year program, but at the same time keep the two-year one.

msu's associate degree program 2222222

Morehead is trying to find out what programs it could offer that would be most beneficial to Eastern Kentucky. Derrickson believes the addition of a two-year course in horticulture would help people living in the area.

One reason Derrickson feels the area surrounding Morehead would be well-suited to horticulture is because of an abundance of natural gas wells that may be tapped and used to heat greenhouses.

"In effect," he says, "those people who would be growing greenhouse crops such as tomatoes and flowers would be getting their heat, an expensive commodity, at little cost. This should make them better able to favorably compete with greenhouse growers further north who have to haul coal from locations far from their operations.

Derrickson also explained that with the opening of Interstate 64 through the area, horticultural producers would be furnished with a more direct and efficient route to the major markets of Louisville, Lexington, Huntington-Ashland-Charleston and Cincinnati.

He added that Morehead plans a study of the marketing possibilities of the various products that could be produced in Eastern Kentucky.

The University already has taken a first step toward making the study of greenhouse crops available to its agriculture students by building a 50-foot plastic greenhouse earlier this year.

Mums now are in bloom in the greenhouse and poinsettias are nearing their seasonal redness.

Students are carefully shading the poinsettias so their leaves will reach their peak of bright red about December 9, and remain that way during the Christmas season.

FOR IMMEDIATE RELEASE

MOREHEAD, Ky., Dec. 4--The Morehead State University Alumni Association will hold its annual banquet for alumni living in the Central Kentucky area along the indoor swimming pool at Continental Inn in Lexington, Dec. 7 at 6:30 p.m. (EST).

Rondal D. Hart, director of Alumni Affairs at Morehead, said the Christmas smorgasbord will afford alumni an opportunity to informally make new acquaintances and renew old ones. He expects the program to be "light but interesting."

Morehead's University Combo will provide the music.

Hart said Dr. Adron Doran, president of Morehead, and Mrs. Doran, join him in inviting all alumni and friends of Morehead to meet with them at the Continental Inn at the intersection of U. S. 60 and New Circle Rd.

Reservation cards have been issued to Morehead alumni living in the Central Kentucky area.

MOREHEAD, Ky., Dec. 4--"Hansel and Gretel," Morehead State University Theatre's second production for the 1967-68 season, will be presented at 8 p. m., Dec. 7 and 8, and at 2 p. m., Dec. 9 in Button Auditorium.

Tickets are \$1.00 for adults and \$.50 for high school and grade school students. Tickets are on sale in the Doran Student House on the campus, or may be purchased by writing for reservations to Morehead State University Theatre, Morehead State University, Morehead, Kentucky, 40351.

The play is an adaptation of the old German folk tale first brought to light by Jacob and Wilhelm Grimm in their collection of Grimm's Fairy Tales.

The play is directed by Marvin Phillips, assistant professor of Dramatic Arts, who worked with Children's Theatre of Pittsburgh, Pa., before coming to Morehead. He also has been associated with Grace Price Productions, the Pittsburgh Knickerty-Knockerty Players, and the Children's Theatre Productions at Michigan State University. All are theatre touring companies.

Phillips also has worked in such children's plays as Aladdin, Land of the Dragon, Cinderella, Sleeping Beauty. He inaugurated Children's Theatre in two other institutions before acquiring his position at Morehead. Phillips directed Hansel and Gretel at Wesleyan College in Macon, Ga., eight years ago.

Morehead Theatre plans to add more excitement to its new production by "flying" the Wicked Witch, Forest Fairy, and other miscellaneous objects. There will be many surprising occurrences, when people, as well as objects, swoop and dive over the stage. The play also includes an original ballet with the Forest Fairy and the Tree Prince.

Miss Peggy Holbrook, publicity director for the Theatre says, "It will be an evening of fun and enjoyment for all, and perhaps a time for a few adults to reminisce about the fantasies of childhood. Don't miss it!"

MOREHEAD, Ky., Dec. 5--Dr. Milan Dady, chairman of the Department of Elementary Education at Morehead State University, has been invited to participate as an advisor in the Work Conference on Auxiliary Personnel in Education December 12-13 in New York City.

Dr. Dady is director of the Teacher-Aide Demonstration Program being conducted by the University in Eastern Kentucky for the Office of Economic Opportunity. At the conference, he will serve as a "resource person" for the Work Group on Training. The conference will be held at the Bank Street College in New York.

The purpose of the conference is to develop recommendations upon which to base New York State policy in the career development of auxiliary personnel in education. State Education Departments from across the country are expected to send observers.

Because of the increasing amounts of public funds being made available for the development of auxiliary personnel in the schools, the most effective utilization of their services is becoming increasingly important.

FOR IMMEDIATE RELEASE

MOREHEAD, Ky., Dec. 5--Morehead State University's debaters have turned in winning performances at two recent debating tournaments--the Pi Kappa Delta-Morris Harvey College Novice Tournament, and the University of Michigan Invitational Tournament.

At the PKD-MHC Novice Tourney, in Charleston, W. Va., the Morehead team won the best negative debating team trophy and actually received more speaker points than the winning team--Miami University (Ohio). The Miami team, however, won all their debates and the Morehead team lost one of theirs by only one point.

At the University of Michigan tournament, the Morehead negative team won all its debates but the affirmative team lost one of its debates to Wayne State University of Detroit.

The four students who won the honors for Morehead are:

Craig Martin, son of Mr. and Mrs. Howard Martin, Campbellsville; Don Cetrulo, son of Mr. and Mrs. F. A. Cetrulo, Jr., Ft. Thomas; John Clements, son of Mrs. Anne P. Clements, Lexington; and Michael Junk, son of Mr. and Mrs. Thomas F. Junk, South Charleston, Ohio.

The team was accompanied to both events by Mrs. G. C. Webb, director of Forensics at Morehead. Mrs. Webb said the group will debate again Dec. 9 at Otterbein College at Westerville, Ohio.

FOR IMMEDIATE RELEASE

MOREHEAD, Ky., Dec. 6--The Morehead State University Opera Workshop, directed by John Atwood, will present "The Cloak" (Il Tabarro) by Giacomo Puccini in Button Auditorium Jan. 11 and 12.

The one-act opera with a libretto by Guiseppe Adami is based on the play "La Houppelande" by Didier Gold. It will be performed in English using the Joseph Machlis translation.

An orchestra made up largely of Morehead faculty members will accompany the work. Two casts--one for the Jan. 11 performance and another for Jan. 12--will be used to provide experience for a larger number of students.

Featured in the leading male role of Michele is Gary Holcombe, Bardstown, a graduate student in Morehead's Music Department. He has had stage singing experience in the "Stephen Foster Story" and recently with the Kentucky Opera Association in their touring production of Menotti's "The Old Maid and the Thief". This role, played by Holcombe, is the only one not double cast.

The leading role of Georgette will be played by Billy Faye Brierly and JoAnn Ray. Luigi will be played by Billy Henson and Carl Davis; Talpa by Mike Franklin and Dan Kemplin; Frugola by Barbara Smythe and Bonita Hopwood.

Members of the chorus are Sue Crain, Carol Detwiler, Cathy Glab, Janet Hancock, Jan Towler, Linda Waite and Mary Sue Webb. Stevedores are Ben Bullock, Lester Cabral, Bob Comstock, Steve Ganz, Tom Bailey and Billy Mearns.

Assisting Atwood in the production is Marvin Phillips of the Drama Department and Nancy Brown, a graduate student, stage manager.

FOR IMMEDIATE RELEASE

MOREHEAD, Ky., Dec. 6--Miss Suanne Hower, music instructor at Morehead State University, will present a cello recital at Baird Music Hall at 3 p. m., Dec. 17.

Miss Hower, who teaches cello and is a member of the Morehead String Quartet, earned her B. M. degree from Willamette University at Salem, Ore., and her M. M. degree from the University of Southern California at Los Angeles.

She was the recipient of the "Outstanding Performance Award" at USC and of the Gregor Piatigorsky Award from the Music Academy of the West.

Miss Hower will be accompanied at the piano by Larry Keenan, also of the Morehead music faculty. She is a member of the Alpha Lambda Delta and Pi Kappa Lambda sororities.

FOR IMMEDIATE RELEASE

MOREHEAD, Ky., Dec. 8--Another step in Morehead State University's continuing program to bring the University and business and industry closer together has been made with the installation of a new \$1,000 electronic range in the Home Economics Department by the Montgomery Ward store in Maysville.

Dr. Jean Snyder, director of the Morehead Home Economics Department, says the University welcomed the opportunity of having the range available for students to learn how much more efficiently things can be done with such ultra-modern equipment. She added that the range was loaned, not given, to the University.

Mrs. Judith M. Delaney, Maysville, home economist for the Kentucky Utilities Company, this week gave demonstrations for 250 people on the electronic range, which will cook an apple in just nine minutes compared to the usually required 50 minutes.

University students, Rowan County high schools students, wives of faculty members, and other community housewives were among those who saw Mrs. Delaney put an ear of popcorn in a paper bag, place it in the oven, and remove the sack full of tasty, popped corn three minutes later.

The popcorn was not popped with heat as it is normally thought of, but with high-frequency radio waves. There's no temperature control on the stove, just varying degrees of high and low frequencies.

Bacon that normally requires six minutes to cook can be cooked on the electronic range in 90 seconds. A baked potato that used to require 60 minutes for it to be thoroughly cooked may now be made ready for serving in only four; and a five-pound beef roast normally requiring two and a half hours now requires only 30 minutes.

Another of the more interesting demonstrations performed by Mrs. Delaney was the removing of a package of frozen strawberries from the refrigerator, putting it into the electronic range and removing it about two minutes later completely thawed, just as if the once frozen strawberries had been at room temperature for a couple of hours.

(more)

electronic range at msu 2222222

Dr. Snyder feels that the electronic ranges may soon become as commonplace in our homes as color television sets are today.

One labor savings feature of the electronic stove is that foods may be cooked in either glass or paper, which makes possible the freezing, cooking and serving all in the same container.

Metal may not be used because it would prevent the penetration of the high frequency waves into the food and would thus prevent its being cooked thoroughly and evenly.

The drastic reduction in the amount of time required for cooking with the electronic range has made necessary the writing of new cook books. At least one is now on the market and sells for \$4.95. Montgomery Ward includes one at no extra cost with the purchase of its range. The Ward range is manufactured by Tappan.

Mrs. Delaney pointed out that manufacturers of the electronic range are required to apply for wave length allocation from the Federal Communications Commission just as a radio station would have to do.

MOREHEAD, Ky., Dec. 11--Should the United States return the island of Okinawa to Japanese control?

Definitely not is the opinion of Mrs. Ada Register, a student at Morehead State University and for two years a teacher of English among the Okinawans.

"Frankly, I don't think the Okinawans want to return to Japanese control," Mrs. Register, a sophomore in elementary education at the University said, commenting on one of the foremost Far Eastern questions in the news today.

"The Japanese did very little, if anything, to help the people on the island before the United States won it during World War II," she went on.

"The people lived in a state of virtual poverty under the Japanese, and there is little reason to believe Japan would do anything differently to help them if she had the island again.

"Too, Japan it is generally agreed isn't capable at this time of defending the island should such action become necessary, and it is important strategically as a military base."

Two important U. S. air bases--Kadena and Naha Air Force Bases-- are located on the densely-populated, 60-mile-long Pacific isle, as is the headquarters of the Army's 2nd Logistical Command.

After an absence of almost 10 years, Mrs. Register has returned to Morehead to continue work on her degree. A graduate of Inez High School, she left college in 1948 to teach for three years in the elementary grades at Grassy, Ky.

She later went to Washington, D. C., and to work with a governmental agency, and it was there in 1962 that she met and married SFC James R. Register with the U. S. Army.

When her husband was ordered to Okinawa in 1964, Mrs. Register followed six months later. On the island, she did substitute teaching in the Department of Defense's school for military dependents and taught English to the Okinawans.

(more)

mrs. ada register at msu 2222222

"We used the 'min-mim' method," she explained. " This is a process involving a 'model' speaker using English words and phrases with the Okinawans mimicking her as they go along.

"We also taught American customs and culture to the more advanced students," she added, "and especially to those ready to come to the United States for additional schooling."

When her husband, now a first sergeant, was ordered to Vietnam to serve with the 1st Calvary Division, Mrs. Register and their daughter, Suzette, 3, returned to the states and she enrolled at Morehead last fall.

A native of Martin County, Ky., Mrs. Register is the daughter of Mr. and Mrs. Luther Cornett, Inez, Ky. Her father is principal of the Warfield Elementary School, and her mother is a junior high school science teacher. A brother, John, is a senior at Morehead.

FOR IMMEDIATE RELEASE

MOREHEAD, Ky., Dec. 13—George Andrix, new director of the Morehead State University Chamber Orchestra, will conduct the group in its first concert of the season December 18, at 7:30 p.m. in Baird Music Hall.

The program will consist of the Overture to the opera, "An Italian Girl in Algiers" by Rossini; Symphony No. 103 of Haydn; and "Five Pieces for Orchestra" by Andrix.

The opera, "An Italian Girl in Algiers" is practically never played, but the overture has become a popular work in the standard orchestral repertoire.

The Haydn Symphony has been subtitled "The Drum Roll" because of the very prominent use of a roll on the Tympani. This feature begins the piece, which is a rather unusual opening for a classical symphony.

Andrix, who comes to Morehead from the music faculty of Ithaca College in Ithaca, N. Y., is also teaching violin and playing violin in the Faculty String Quartet at Morehead.

The 32-member orchestra is made up primarily of music students and music faculty, although there are a few students in the orchestra from other departments of the University.

The "Five Pieces" of George Andrix were written especially for the Morehead Chamber Orchestra. All of them are less than two minutes in duration and they are written in what might be called "a traditional atonal style." Serial techniques are used, but not exclusively. Elements of indeterminacy are present in two of the pieces.

In one, chance techniques were used directly in the composition of the piece; in the other, they manifest themselves in the manner of performance. The work will be performed for the first time at this concert.

MOREHEAD, KENTUCKY

FOR IMMEDIATE RELEASE

MOREHEAD, Ky., Dec. 13--Three faculty members of Morehead State University's Breckinridge School will accompany approximately 24 Rowan County high school students on a five-week European tour beginning next July 15.

The faculty members are: Harlen Hamm, speech and drama instructor; Mrs. Opal LeMaster, librarian; and Mrs. Oval Hall, music instructor.

The trip will be made in cooperation with the Travel Study International Corporation, which provides a program that combines comparative studies with excursions and traditional sight-seeing.

The group, made up of 15 to 19-year-old students, is expected to go to New York by train and from there by chartered jet to Europe. They will arrive in Rome. The trip will cost each student about \$1,000--\$750 tuition and \$150 for pocket money.

Hamm said that although most of the students will be from University Breckinridge School, he expects students from other high schools in the county to participate in the travel seminar.

Hamm says that the TSIC's travel seminars can best be compared to comparative government courses and to programs of area studies offered at many universities in this country.

The group will visit five cities in Europe, each in a different country--Italy, Switzerland, France, the Netherlands, and England. The students and faculty members will spend a week in each city.

Each morning of the first three days in each city there will be lectures by local professors on subjects about the country's historical and political institutions, as well as cultural inheritance to aspects of religion, sociology, and the country's economy.

(more)

This way, the student derives a thorough insight into Western Europe by comparing lectures on the same subjects held in five of the major countries which are at the base of Western civilization.

Afternoons of the first three days in each city are spent in excursions to local institutions, such as governmental agencies, chambers of commerce, international agencies, museums and places of historic, architectural and cultural interest. This allows the student to gain a practical knowledge of the textbook and lecture materials used in the United States as well as those obtained while in Europe.

The remaining four days in each country will be spent in sight-seeing individual activities in small groups under the guidance of the chaperones and in revisiting places of particular importance to the student's individual interests.

Housing will be in regular dormitories of European colleges and universities. Students interested in making the trip should contact either Hamm, Mrs. LeMaster, or Mrs. Hall before Dec. 22.

These University Breckinridge students have already announced their intention of making the trip:

Chuck Duncan, Dennis Scifres, Peter Fulbright, Steven Butcher, Bill Baker, Carla Fannin, Linda Hall, Kathy Hall, Pam Hall, Jackie Ellis, Gail Bishop, Debbie Buskirk, Stephanie Tucker and Mary Jane Hurt.

Periodic meetings will be held before the departure to acquaint students and parents with the program. Hamm feels this is necessary to insure adequate preparation for departure and a worthwhile academic experience. Such matters as what clothes to take, money matters, communications with parents, customs in each country like tipping, dress, dating, governmental inspections, will be discussed.

FOR IMMEDIATE RELEASE

MOREHEAD, Ky., Dec. 14--George W. Eyster, a native of Flint, Mich., has been named executive director of the Appalachian Adult Basic Education Center at Morehead.

The center, operating under the auspices of Morehead State University, is financed by the U. S. Office of Education, Department of Health, Education and Welfare.

Operating under the specific direction of the University's Research and Development Office, the center currently is working with eight states in the Appalachian area on a coordinated program of doing educational research and development

Eyster says it is hoped that the center will be able to develop one or two unique experimental projects for adults in reading, writing and arithmetic in each of the eight states.

The main function of the center is to mobilize the resources of agencies currently working with undereducated adults in the eight-state area.

On the Morehead campus, plans are being made to develop a diagnostic center and to disseminate the research and development findings to the groups currently working on this problem.

Eyster, who is completing work on a Ph.D. degree from Michigan State University, recently completed four years of work in adult education in Mexico City.

He did his undergraduate work at the University of Michigan and earned two masters degrees--one in educational administration from Eastern Michigan University at Ypsilanti, Mich., and another in adult education from the University of Michigan.

Before going to Mexico, Eyster worked for the Mott Foundation Program for 12 years. The Mott Program is one of the leading adult and community education programs in the nation.

Eyster and his wife, Marion Fischer, have one daughter--Marianita, two and a half.

MOREHEAD, Ky., Dec. 14--Forty-five members of the junior class at Morehead State University have been installed as members of the Epsilon Theata Chapter of Kappa Delta Pi, an honor society in education.

Kappa Delta Pi has been represented on the Morehead campus since 1942.

The members meet monthly to discuss various problems and solutions relating to education. Last year, the theme of discussion was Appalachia. This year, the discussions have centered more generally around educational needs.

Dr. M. K. Thomas of the Morehead English Department says the group has a specific project to work on each year. This year it is book and magazine collections to be sent to India.

Individuals are chosen for membership on the basis of high scholastic records and an exhibited professional attitude which would enable them to grow in the field of education.

The 45 new members named to the organization Tuesday include:

Donna Marie Abernathy, Florence; Garnet Amburgey, Morehead; Mrs. Sylvia Jean Bowling, Hebron; Kitty Brennaman, Lexington, O.; Emma Carol Brown, South Fort Mitchell; Constance Lee Chandler, Wittensville; Penny Coleman, Pendleton; Bonnie Corum, Louisville.

Mary Crum, Lebanon; Pamela Dobbins, North Olmstead, O.; Lynda Susan Ellis, Anchorage; Cheryl Lou Flowers, Fern Creek; Mrs. Peggy Ann Holbrook, Raceland; Carolyn Hudson, Paris; William Lange, Detroit, Mich.; Sandra Mardis, Falmouth.

Dianah Metcalf, Lexington; Linda Nichols, Batavia, O.; Patsy Osborne, Mt. Sterling; Mary Louise Parrott, Greenup; Exer Jane Mollett Pass, Paintsville; Janie Patrick, Netty; Shirley Perkins, Owenton; Dianah Prichard, Beallsville, O.

(more)

MOREHEAD, Ky., Dec. 14---Jerry is the envy of the 3,439 male students at Morehead State University. He lives in the University's Mignon Hall along with 375 of the co-eds on the campus.

Shocking? Not at all. He's perfectly at home there among the girls. In fact, he couldn't make a move without his mistress, sophomore Janie Jett of Mt. Olivet, Ky., for Jerry is actually a ventriloquist's dummy.

You'd never know it, though, from talking with any of his scores of girl friends at the dorm. They think of him as alive and real, even to the point of being insulted if he is referred to as "a dummy."

Costing "more than \$300," 46 inches tall and sporting a thatch of carrot-red hair, Jerry has become the "darling of the dorm" at Mignon Hall.

"My roommates thought I was joking last fall when I told them a boy would be living with us," Janie said, "but they've all come to know and love Jerry like a brother." This brought a big wink to one of Jerry's big, wide eyes.

A sophomore and an art major, Janie is the daughter of Mr. and Mrs. James R. Jett of Mt. Olivet. She was nine years old when her unusual ability to project her voice was first discovered.

"I had wanted, and got, a Jerry Mahoney doll for Christmas," she recalls, "and, as was customary, we had gone to grandmothers's Christmas Day. A lot of my cousins were there. We each had been permitted to bring along one thing we received for Christmas. I had taken my Jerry Mahoney doll.

"While we were playing," she went on, "Jerry startled them all by laughing. Then a 4-year-old cousin asked if he could talk, and it was Jerry who answered. After that, things just seemed to snowball."

Janie's parents, recognizing their daughter's talent, soon had her performing before small groups with Jerry. They developed a comedy act and the audiences steadily grew in size. They also became involved in more and more traveling.

"By 1965, we had performed throughout most of the eastern part of the country, and the act was in great demand," she said, "so my parents decided to provide me

(more)

with a Jerry uniquely my own rather than an imitation of another."

"I'll never forget the day the new Jerry arrived," she recalls. "Everyone was excited, especially me, as we tore the wrapping off the package. But I wasn't prepared for what he looked like at first."

"In fact, I was shocked, disappointed and almost heartbroken," she went on. "When I looked down at his extremely large eyes, soiled clothing and hair that looked like a thick red carpet, my first thought was: 'He's ugly!'"

But as youngsters do, Janie and Jerry soon became acquainted, and today they are inseparable. "At first, he was extremely heavy," she said, "and the massive strings in his back confused me. Nor, did he talk or sound like the old one."

"Then suddenly I realized that the new Jerry had not come to replace the old one, but was an entirely different personality altogether, and I was determined to leave it that way."

"First, we got him some new clothes. He fits nicely into a size 7 in little boys' clothes. Then we shopped for a carrying case for him," she said.

"This was hilarious," she recalled with a laugh. "At one store a clerk became real suspicious as she overheard father and me talking about how we could fit Jerry into a case. She actually thought we were going to stuff a little boy in it!"

Upon graduation from Mt. Olivet High School, Janie was determined to continue her work with Jerry and did so until one night when among those witnessing her performance was Dr. Adron Doran, president of Morehead State University.

Afterwards, Dr. Doran was introduced to Janie and talked with her about coming to Morehead to continue her education as well as her entertaining.

"Dr. Doran is my buddy, and we secretly arranged for Janie to go to college," Jerry interrupted the interview. "He called a few days later and offered her an art scholarship at Morehead, and here we are!"

"By the way, how do you like my roommates?" he asked, nodding toward four young ladies--Jorga Walters, West Liberty; Louise Parrott, Greenup; Claris Chullun, Wheelwright, and Linda Virgin, Grayson--sitting across the room.

(more)

jerry, a ventriloquist's dummy at msu 3333333

How does he like living in a dormitory with 375 Morehead co-eds?

"Man! That's the greatest!" he exclaimed with a jerk of his head and winking one enormous eye. "Doesn't sound much like anything a 'dummy' would think of, does it?"

MOREHEAD, Ky., (Dec. 15) -- Russell R. McClure, director of business affairs at Morehead State University, has been nominated for the 1968 edition of "Outstanding Young Men of America."

McClure, 31, a native of Somerset, was nominated for the honor by Dr. Adron Doran, president of the University.

An annual publication, "Outstanding Young Men of America" honors young men between the ages of 21 and 35 for their local contributions to their professions, community and civic organizations.

The son of Mr. and Mrs. Joe McClure, Somerset, and a graduate of Somerset High School, McClure holds a bachelor's degree in economics from Transylvania College and graduated from the College and University Business Managers' Institute at the University of Kentucky.

After four years in state government, he was named administrative assistant to Dr. Doran on July 1, 1962, and promoted to Director of Business Affairs and Treasurer of the University July 1, 1966.

He is married to the former Brucene Cook of New Orleans, La., and they have three children: Tina, 10; Mark, 6, and Holly, 3.

FOR IMMEDIATE RELEASE

MOREHEAD, Ky., Dec. 18, -- A quintet of musicians, all born at the turn of the century and with an insight into pre-Dixieland New Orleans jazz, will appear in Morehead State University's Button Auditorium at 8 p.m., Jan. 8, as a part of the Celebrity Series.

Known as the "Preservation Hall Jazz Band," the group consists of old-time Negro performers with their roots in the music of the marching funeral band, the days of Jelly Roll Morton and Bix Beiderbeck, and the early New Orleans history of Storyville and the French Quarter.

Featuring Billie and DeDe Pierce on piano and trumpet, the group also includes Jim Robinson on the trombone, or "sliphorn," William Humphrey, Jr., clarinetist, and drummer Josiah Cie Frazier, all musicians who were brought up in the great, warm swinging rhythms of the Delta land.

During this concert, the audience is certain to hear renditions, or at least improvisations of, such titles as "Up the Lazy River," "Sweet Georgia Brown," and "When the Saints Go Marching In."

Those who attend will hear music they have not heard before, that perhaps has not been played before, since it will be improvised on the spot.

Tickets priced at \$2.00 may be purchased at the door.

FOR IMMEDIATE RELEASE

MOREHEAD, Ky., Dec. 18--Mrs. Willia Mae Barham Dukes, Louisville, and Miss Patsy Johnson, Morehead, will appear in a joint Morehead State University senior recital January 9 at 7:30 p. m. at Baird Music Hall.

Both Mrs. Dukes and Miss Johnson are students of Mrs. Violet C. Severy, assistant professor of music. Mrs. Dukes will perform on the organ, and Miss Johnson will play the harpsichord.

Mrs. Dukes is the daughter of Mr. and Mrs. Willie Barham of Louisville. She started her music lessons at the age of 11 and soon commenced playing for PTA meetings, school assemblies, plays and high school chorus.

A graduate of Central High School in Louisville, Mrs. Dukes was a member of a singing quartet known as the "De Nalles." She is also a member of the American Guild of Organists and the Sigma Iota Fraternity.

Mrs. Dukes' program will consist of:

"Praeludium in C Moll," by Bach; "Toccata," by Nieland; "Prelude for Organ" by Daniel Pinkham; "Wer nur den Lieben Gott labt walten," by Walcha; "Wer Nur Den Lieben Gott Lasst Walten" by Bach; and "O mensch, Bewein Dein Sunde Gross."

Mrs. Dukes and Miss Johnson will play "Konzert" by Bach on the harpsichord and organ.

MOREHEAD, Ky., Dec. 20—A pot of beautiful, white, flowering mums, compliments of the Agriculture Department, gave a Christmas touch to the desk of Dr. Morris Norfleet, professor of education and director of research and development at Morehead State University.

"Once they've finished blooming," he said, leaning back in his chair, "I'd like to take them home. I'd like to take cuttings from them and grow mums of my own in a greenhouse I would like to build myself."

He'd do it, too, except for one thing: He just doesn't have the time.

He's too busy flying to Washington, to Atlanta, to Charleston, or to any one of a score of educational or governmental centers. He travels thousands of miles a year seeking to initiate, develop and put into operation new programs designed to fit not only the University's facilities and faculty but the educational needs of Eastern Kentucky.

By knowing Morehead's potential in various areas and by making it a point to know when and what funds are available to support new programs, Dr. Norfleet expends his effort on bringing these two elements together. The net result has been the creation of many new and effective programs—exactly what he feels a university should be doing.

Dr. Norfleet describes his job as being never routine; never dull. "Things that happen in this office," he says, "have not had directions written for them." This contributes to making his job one of constant exploration and excitement.

Dr. Norfleet emphasizes that his office is primarily one of service for both the faculty and the administrative staff of the University. "Without the excellent cooperation of these people who give us their ideas and let us know their needs, we'd not be able to perform the function as we are now doing," he said.

Dr. Norfleet feels that quality instruction should be the central focus of any university and that people in positions such as his should constantly be bringing in new information to the teachers for them to use for the student's benefit. He sees his role as being one of service. In other words, he feels that as his office operates, it becomes truly one of service to teachers.

dr. norfleet at msu 2222222

Programs in which Dr. Norfleet's office plays an important role include:

The Upward Bound project in which Morehead works with the high schools in the area in an effort to induce outstanding students from less privileged backgrounds to enter and complete college. Dr. Norfleet coordinates this program with the assistance of Jack Webb and Carol Carte. The program involves every part of the Morehead campus.

Computerized instruction in math in cooperation with the Central Midwest Regional Education Laboratory headquartered in St. Louis and Stanford University in California. CREMREL is a federally financed and controlled organization established to promote educational research in the Midwest.

Assisting with the establishment of a summer science institute, designed to train teachers in Eastern Kentucky to teach science by using the process approach. This program was pioneered at Morehead this past summer, under the direction of Dr. Crayton T. Jackson, with funds made available through the National Science Foundation. It will be continued next summer.

A child development center in which a grant of \$14,924 is providing a 10-month's training program for 15 culturally different pre-school children as a pilot demonstration program. These children of poverty are sharing experiences that would normally be missing from their daily environment. As a result of the effort, the children will be placed on a footing equal to their peers who grow up under more fortunate circumstances.

Training of teacher aides in which 40 people in Appalachia are being given the rudiments of becoming teachers aides prepared to work in elementary schools. Dr. M. B. Dady and John Stanley direct this program. Twenty teachers are at the same time being taught how to use these assistants to the students' best advantage.

Dr. Norfleet estimates that he spends approximately half of his time on projects that secure funds from federal agencies and the other half on programs that the University develops with its own funds.

One of his current projects is assisting, along with other University faculty members, with the developing of a model city at Pikeville. This undertaking is an example of what Morehead is doing to project itself into a role of

dr. norfleet at msu 3333333

guidance and assistance in community development.

He also works to more effectively tie the junior colleges of the region into the activities of Morehead State University. Other projects with which Dr. Norfleet is involved is the Newtown Project, a city that is to be started from scratch in Rowan and Bath Counties; and helping with the establishing of a new vocational school in the area.

Dr. Norfleet came to Morehead in 1962 as director of student teaching. He points out that the \$1,051,000 now spent on research and development at Morehead during a year's time is more than the entire state appropriation for the school 10 years ago.

More significantly than not being able to pursue hobbies like rooting mum cuttings, Dr. Norfleet regrets that he is unable to spend more time with his family--his wife, Loistene, and five-year-old son, Douglas.

He does an unusual amount of traveling, often working in the office all day and traveling at night. When asked if he sleeps on the planes, he replied, "No, that's when I do my paper work."

Dr. Norfleet was once a research analyst for the Indiana Farm Bureau at Indianapolis. While earning his doctorate in education at Purdue University, he was also an instructor in education. He has also taught in the public schools at Spiceland, Indiana.

He describes the man to whom he reports--Morehead President Adron Doran--as a man of vision and one who can cut through to the heart of a problem quickly.

FOR IMMEDIATE RELEASE

MOREHEAD, Ky., Oct. 16, -- A three-day annual meeting of the Southeastern Region Association of Physical Plant Administrators of Universities and Colleges officially got underway at Morehead State University today. One hundred and twenty-four, from a 10-state area, registered.

At the opening session, James Allen Clark, Lexington architect, spoke on the need for physical plant administrators to adjust to change and urged them to make their needs known to architects.

"Nobody knows the campus physical plant needs better than you," Clark told the administrators. He urged them to "talk, talk, talk" in order to meaningfully communicate their knowledgeable suggestions to the architect.

By truly communicating the plant needs to the architects, he continued, an intelligent method of dealing with change can be brought about. Without this information from the physical plant administrators, an architect may be tempted to build a monument to himself rather than a building that is functional, Clark said.

Harry M. Thomas, superintendent of buildings at the University of Southern Mississippi, also an opening session speaker, used the topic of "It's a Wise Chick That Knows It's Own Incubator." In comparing college physical plant changes to the incubation of an egg, he pointed out that with all the changes going on on campuses, "We're in a constant state of incubation, though we'll really never hatch; but the heat is great and we're making a lot of progress."

Other speakers for the gathering include:

Roy Rochester, Clemson University, who will compare the advantages and disadvantages of various air conditioning systems; B. P. Robertson, director of the Division of Regulations and Exemptions, Department of Labor, Washington, D. C., who will discuss fair labor standards; Dr. Harry M. Sparks, Kentucky superintendent of Education; and L. J. Koller, manager of Carpet Special Products, Bigelow-Sanford, Inc., New York, whose topic will be "Carpet Maintenance Goes to School."

Women accompanying the men today made a tour of Berea, Frankfort, and

FOR IMMEDIATE RELEASE

MOREHEAD, Ky., Nov. 14--Dr. Ralph Appelman, author, scholar, teacher and artist, from Indiana University, will be the featured participant of the second session of Morehead State University's eighth annual Choral Festival set for Dec. 1-3.

Dr. Appelman, professor of voice and director of the Institute for Vocal Research at Indiana University, will give a concert at 8 p. m., Dec. 2.

Two-hundred high school choral students from Kentucky and Ohio are expected to attend the three-day event.

James Ross Beane, associate professor of music at Morehead, says the festival, considered the biggest choral affair of the year at the University, is free and the public is invited. Participants will present some Christmas music, helping to open the Christmas season on the campus.

In addition to teaching, Dr. Appelman has been active in concert and oratorio work. He was guest soloist with the Dallas and Houston Symphonies, and has sung leading roles in Indiana University operatic productions, including "Lost in the Stars," "Parsifal," "Aida," "Don Carlos," and "Boris Godunov." He sang the role of Angelotti in the costume concert of "Tosca", presented in Indianapolis in 1955 by the Indianapolis Symphony Orchestra.

Dr. Appelman was minister of music for the First Baptist Church of Denton, Texas, from 1949 until 1951, and was minister of music for Bloomington's First Methodist Church from 1953 until 1960.

All three of the Morehead concerts will be in Button Auditorium. Dates and times are:

Dec. 1 - 8 p. m. University Choir, Chamber Singers, and Orchestra,
James Ross Beane, conducting.

~~Dec. 2 - 8 p. m. Dr. Ralph Appelman, bass~~
