Woman Finally Recovers From Nervous Breakdown

Impoverished nerves destroy many people before their time. Often before a sufferer realizes what the trouble is, he is on the verge of a complete nervous breakdown. It is of the utmost importance to keep your nervous system in good condition, as the nerves are the source of all bodily power. Mrs. Rosa Bonner, 825 N. 18th St., Birmingham, Ala., says:

"I have been suffering with nervous prostration for nine or ten years. Have tried many of the best remedies in Birmingham, but they all failed to reach my case. I would feel as if I was smothering; finally I went into convulsions. My little girl died."

Dr. Miles' Nerveine advertised in the papers and I at once began to take it. I continued to take it for some time and now I am well."

If you are troubled with loss of appetite, poor digestion, weakness, inability to sleep, if you are in a general run down condition and unable to bear your part of the daily grind of life, you need something to strengthen your nerves. You may not realize what is the matter with you, but that is no reason why you should delay treatment.

Dr. Miles' Nerveine has proven its value in nervous disorders for thirty years, and merits a trial, no matter how many other remedies have failed to help you. Sold by all druggists. First bottle sold to benefit your money is returned.

Want Mine Rescue Station.

Representative J. W. Langley is preparing a bill to appropriate \$50,000 for the establishment of a mine rescue station at Jenkins. He made a conference with Mr. Joseph A. Holmes, director of bureau of mines, and received the assurance of his support.

The request for a mine rescue station at Jenkins was made by Everett Drayton, general manager of the Consolidated Coal company, who returned to Kentucky after spending three days there.

WOULD SURRENDER FOREST RESERVES

KENTUCKY FORESTER URGES U. S. GOVERNMENT TO TAKE OVER COMPLETE CONTROL.

WOULD BENEFIT THE STATE

Federal Bureau Reforests Denuded Areas, Cares for Reserve in Scientific Way, Sells Trees, Etc.

(Special Frankfort Correspondence.) Frankfort—The acquisition of forest reserves in the watersheds of Eastern Kentucky by the government will be urged by State Forester J. E. Barton in an address before the joint meeting of the Appalachian park commission and the National Forestry association at Asheville, April 8. The general assembly passed a bill authorizing the government to acquire forest reserves in the state, and Forester Barton has requested assurance from W. F. L. Hall, assistant forester for the government, that a reconnaissance will be made by his department this summer in the Kentucky mountains with a view to purchasing such reserves. Mr. Barton will meet Chief Forester H. S. Graves and Mr. Hall at Asheville.

The government's Appalachian reserves will be administered as the reserves are in the west. The purpose is to protect the wooded watersheds of the conservation soil, and the regulation of flow in the streams. The government purchases the land and takes over complete control, excepting the criminal jurisdiction of the state. Forester Barton is of the opinion that the demonstrations conducted by the government on such reserves will do more for the advancement of forestry in Kentucky than any other factor.

The federal bureau of forestry reforests denuded areas, cares for the reserve in scientific fashion, sells the trees and regulates the manner of removing them so as to protect the younger growth, and demonstrates by its methods the possibility of conserving the timber resources while yielding a continuous revenue.

Mr. Barton went to Harlan April 1 and assisted in completing the organization of the Timber Growers' Association of Timber Growers, and from there he will go to Asheville. The forestry department expects to purchase some land, as far as the lands will permit, under the act which purposes this year, enlarge the tree nursery at Louisville and start the one planned on the colored normal school farm at Frankfort.

Kentucky's Noted Men.

Under the provision of a resolution passed by the recent legislature, an appeal was filed for the purpose of obtaining a list of the names of the 100 best Kentuckians, to be hung in the Kentucky Gallery of Honor, the capital building at Frankfort. The list of the Kentuckians who have been named is sent to the memorial company. They are W. N. Haldeman, John L. Helm, Dr. Ephraim McDowell, Rev. John C. Breckinridge, John G. Carlisle, William Preston, John J. Crittenden, Boyd Winchester, Charles A. Wickliffe, W. C. P. Breckinridge.

Will License Automobiles.

T. F. Byars, of Shelby county, automobile clerk in the office of the secretary of state, was appointed commissioner of motor vehicles under an act passed by the recent legislature. The law does not become effective until July 1. It provides for two other places, a clerk and a stenographer. Secretary Ramsey, of the Louisville Automobile Club, is tipped for appointment as clerk to the commissioner.

Permitted To Sue State.

Dr. Thomas C. Hollaway, of Lexington, filed suit in the Franklin circuit court against the state to recover \$75.00, fees for medical attendance on two millitians out of camp for diseases contracted while in camp with the state guard in 1910.

The general assembly passed a resolution permitting him to sue the state.

Want Help of State.

An appeal was made to Gov. McCroary by Alva West, of Lewis county, to take steps to eradicate smallpox from that county. West said that 50 cases prevailed. The appeal was referred to the state board of health.

Copies of Law in Demand.

Copies of the workmen's compensation law are more in demand than any other act passed by the last general assembly, and hundreds of requests for copies have been received by Secretary of State C. F. Creelius.

Doorkeeper Has Inning.

The Assistant Secretary of War, Henry T. Breckinridge, learned by experience that assistant secretaries of the various departments are not entitled to the privilege of the floor of the national house. Mr. Breckinridge approached the east door of the speaker's lobby, evidently purposing to march upon the floor. William G. Gormley, an assistant doorkeeper, helped up a restraining hand.

"I desire to enter," said Mr. Breckinridge.

"What'd ye mean?" asked Gormley, not recognizing the visitor.

"I am the assistant secretary of war Mr. Breckinridge," said that official, stiffly. "In fact, I am acting secretary now."

"That doesn't entitle you to go on the floor," said young Gormley.

Mr. Breckinridge thought differently. Indeed, he was rather positive about it, and Gormley said he would send for the chief doorkeeper, Joseph Slinhoff. That official wasn't handy, and after bustling a moment or so Mr. Breckinridge observed that he didn't propose to wait any longer.

Railroad Commission Busy.

The State Railroad Commission will meet in Louisville April 29 to enter an order in the case of Martin Moore against the Illinois Central railroad. The commission held in Cincinnati the Illinois Central railroad must give the same freight rates to Central City from Louisville as to Owensboro, plus 72 cents drayage from the river to Central City. This opinion was handed down by the commission about two weeks ago, and a meeting of that body was scheduled for April 1 to enter the order. But the date was postponed until April 29. The Louisville & Nashville Railroad Co. wants the long and short haul clause abrogated as to Middletown and the Illinois Central from the coal fields in Western Kentucky to Hopkinsville. The complaint of W. J. Fells Co., of Ashland, against the Cincinnati, Flemingsburg & Southeastern railroad against overcharges on staves shipped to Mayville will be heard by the commission.

Shirley Takes Position.

In letters to Louisville constituents Congressman Sawyer Shirley declares his opposition to any measure having for its purpose national prohibition. The letters in fact were protests forwarded some time ago by members of the Kentucky Hotel and Casino association to the representatives of that district and the members of the committees of the house and senate to which various measures had been referred. It is said to 500 persons signed the protest. All of these are in receipt of letters from Mr. Shirley. "I beg to assure you that I am not in favor of any of these bills," he wrote, "and I shall do all in my power to prevent their passage in the house."

Heirs Can Not Recover.

Because the Louisville & Nashville railroad had the right to exercise eminent domain, the appellate court set aside the rule and permitted property to be sold for railroad purposes to be used for a railroad track. Harry Lutes and other heirs of Wm. Beatty sued to recover the land, which had been donated to the school 40 years ago, with the provision that it be used for school purposes. The court concluded that the heirs could not recover the property.

Only Forty Unemployed.

Of the 450 men automatically entitled to parole by reason of serving their minimum sentences in the Frankfort Reformatory and Eddyville penitentiary, Chairman Daniel E. O'Sullivan, of the board of prison commissioners, said that all but forty have been released. The forty in the Frankfort Reformatory have not yet secured employment for six months, which is a condition of their parole.

Lieut. Bagby Gets Leave.

The war department issued an order relieving First Lieut. Philip H. Bagby, U. S. A., from duty at the Kentucky Military Institute at London on June 14. It granted him a three months' leave of absence from that date, after which Lieut. Bagby will be assigned to the Sixth infantry.

May Go to Tennessee.

State militiamen are beginning to interest themselves in the plans for the government maneuvers this summer. No orders have yet been issued from Washington, but it is expected that the Kentucky troops with the Tenth division will be sent to Southern Tennessee for a practice camp.

Taking Short Vacation.

The court of appeals adjourned the winter term and will convene for the spring term April 13. The court handed down 287 opinions during the term beginning the first Monday in January, and 107 of these cases will remain for the next term.

15,000 Employees Laid Off

The Pennsylvania Railroad Co. within the past three months has laid off about 15,000 employees on its lines. There remains yet 125,000 employees, and about 40,000 of these have been placed on shorter time. 200 clerks in the Philadelphia general offices were laid off within two days.

Young for Re-election

Circuit Judge Will A. Young, of Rowan-co., has notified friends that he will be a candidate for re-election. It had been claimed that Judge Young would be a candidate for Congress, but his determination to enter the race for Judge settles that question.

Coxey Warns President Wilson

Cleveland, O., March 23.—President Wilson tonight was warned of the departure for Washington of a second "Coxeys army," which it is said will start April 16 from Massillon, O. The starting point for the first army twenty years ago today.

"General" J. S. Coxey of Massillon, the leader, tonight mailed the President a letter telling of his plans, and enclosing a pamphlet on "the Coxey plan of setting the idle men to work on market roads and other public improvement."

The "army" expects to arrive in Washington May 21. Coxey says to petition the President and Congress for measures which will give work to the unemployed.

Hit By Mail Bag: Recoverers.

People in waiting at a station to take a train are entitled to the same degree of care as those actually aboard the train. A man recently issued by the state railroad commission shows that of the 120 counties of Kentucky 29 are barely touched by railroads. 18 counties have not a foot of railroad track; they are Monroe, Cumberland, Knott, Clinton, Wayne, Butler, Adair, Casey, McCall, Russell, Owsley, Jackson, Clay, Leslie, Elliott, Martin, Robertson and Trimble.

LOCAL AND PERSONAL

The Lyric has just bought 360 new Opera chairs.

Several from here went to Morehead Sunday to hear Rev. Scott.

We are informed that the opening game of the season will be "pilled off" the 12th on the local diamond.

George Counts, his son Walter and daughter Lillie, with their families left Monday for Montana and will arrive there Friday and expect to make that their future home.

Millard Boggs and family spent Sunday with her parents at Gimlet.

Miss Lura Woods is here from Oxford, O., with home folks till after Easter.

A child of Eddie James has whooping cough.

Wm. Simmons has moved to the White house in town and Dr. Tabor has moved into the Jordan property vacated by Simmons. The doctor comes from Rosedale.

Green Hicks has moved into the property recently vacated by Mrs. Bates who moved to Salt Lick.

The residence of W. R. Morgland, on his farm just east of town was destroyed by fire at about 9 o'clock Wednesday morning of last week. The fire came from a spark from the stove falling on the shingle roof. Practically nothing was saved and Mr. Morgland estimates his loss at \$1,200.

In the recent article concerning tobacco the contributions to the Tabernacle, payment may be made to either Mr. Brooks or George Jouch.

Rev. Charles Linton stopped here last week for a brief stay with friends. He had just closed a series of meetings near Grayson and was on his way to his home in Kansas.

The Stamped Theatre, the second picture play house for Olive Hill, was opened for public patronage last Saturday night. The management has set the price of admission at 5 cents, and with this special feature will be given.

The Stamped Opera House has been fitted up and arranged especially for the show, plenty of seats and all possible care has been taken to provide a good show and for the satisfaction of their customers.

John Plummer, who has been up in Canada for some time, was in town the past week, and expects to go north again in the next few weeks. It was circulated here that John could not be heard of and his relatives were uneasy about him. John says such reports cause him much annoyance and embarrassment, as once before when he went away it was reported that he was in prison and he had to come back to prove the charge false.

Samuel B. Underwood

Samuel B. Underwood died on the night of March 11th, after two years of suffering of tuberculosis, during which time he had been an invalid. He was a member of the Masonic order, and with membership at Willard, and was buried the following day at Underwood cemetery with the honors of that order.

Deceased was well respected as one of Carter's best citizens, and left this life carrying the cross. By request his funeral was preached by Revs. Noah and Carter Kiser and Hugh Lewis.

A Wiered Mixup

An exchange gets credit for the following, which shows how a few errors in newspaper make-up may change the reading of an article. In this instance a notice of public sale and an account of a wedding were jumbled.

"William Smith, the only son of Mr. and Mrs. William Smith, and Miss Lucy Anderson were disposed of at public auction on my farm one mile east, in the presence of seventy guests including two mules and twelve head of cattle. Rev. Jackson tied the nuptial knot for the parties averaging 1,250 pounds on the hoof. The beautiful home of the bride was decorated with one sulky rake, 1 feed grinder and two set of work harness, nearly new, and just before the ceremony was pronounced the McCormick wedding march was rendered by 1 milch cow and 5 years old, 1 Jersey cow and 1 sheep, who, carrying a bunch of bridal roses in her hand was beautiful. She wore one light spring wagon, two crates of apples, 3 racks of hay and one grindstone of 45 lbs. in size and trimmed with about one hundred bushels of spuds. The bridal couple left yesterday on an extended tour. Terms spot cash."

Arrested on Forgery Charge

A. J. Stamper and Jno. Crawford went to Portsmouth Wednesday to arrest Herste Masters, who was charged with forging a note of the Carter County Commercial Bank here two years ago for \$25.

Masters was located in Portsmouth where he had just married the daughter of Jacob Fields, a former Carter countian. Mr. Fields returned here with his son-in-law and paid the note with interest and all other expenses connected with the case. Masters was released by the Court, pending good behavior.

There is scarcely a thing a woman cannot do with a hair pin. They use it to pick their teeth, button their shoes, clean their finger nails, punch bed bugs out of the cracks, fasten-up stray bangs, clean out the stems of their husband's pipe, scratch their heads, trim lamp wicks, run it into cake to see if it is sufficiently done, and about a million other things the poor deluded man knows nothing about; and they do it all with the same hairpin.—Ex.

LIVE STOCK

THE VALUE OF PEDIGREE.

A Great Mistake to Underestimate the Importance of It.

It has been, and to a certain extent will continue to be the habit of a great many of our farmers to shy at the word pedigree. This is undoubtedly due to the mistaking the value thereof.

A pedigree is the genealogy of an animal, or according to the "Blue Book" of the American Genealogy, is the history of its ancestry or lineage, as we may readily see that each and every one of our animals are in possession of pedigree although many would be hard to trace.

To glance over the history of any breed of live stock is very interesting and allows us to readily see the improvements made by the close study of individuals and ancestry, and to see the methods used by individuals to propagate certain qualities in their animals, which has made possible the success of the feeding of our rations economically. The pedigree, or better still, a certificate of registration, is the only real assurance we have as to the purity of an animal's breeding, and the animals named therein show the quality. First a good individual then a good pedigree.

The end of the majority of our farm animals is the market, and the value of them is in the pedigree to grow that they may be marketed promptly and in the pedigree to a certain extent, we find the insurance of quality, for example, in selecting a brood sow from your herd you usually want prolificness as the predominant quality or we will suppose so at least, we select a gilt from that old sow whose litters have been large and even and whose mother was a good brood sow and is on back through her pedigree to the end of our memory. Then we look at the sire's pedigree we find that the sire is also from a prolific strain noted for its brood sows. We these facts at hand we may reasonably expect this gilt to make us a prolific sow. Now these animals may not be recorded of eligible, but we have traced her ancestry back through her pedigree as it is written in our memory as we can readily see that the majority of our breeding stock is selected by our knowledge of their pedigrees, though probably under a different name. But as we cannot reasonably expect a Loy Dillon from a Percheron pig, so neither can we expect to get up Ohio Chief from razzbacks.—H. H. Ingham Farmer.

Handling Young Cows.

One of the best horse-raisers we know of works his mares right up to the time of foaling and then turns them out on the pasture and lets them run with their colts until the spring time. Of course he has a strong, lusty colt, and his brood mares are always in pink of condition for the following season. But when we see farms the brood mares must be hard worked all summer. When these good mares must be pressed into this double duty, one should give them a lot of care, liberal feed, and keep them from fretting over their colts. We have never found it advisable to have the colt tramping along after the team all day in the field. Keep the colt in a box stall, at home. This makes extra work until the colt is a mope, but it will save time and money in the long run. After that, the mare will have to be handled as carefully as the colt. She is apt to fret until she becomes accustomed to being away from her colt, her udder is apt to hurt her, if it is not relieved frequently. All of these things with hard work, will naturally put her down. So, we will be patient with both mare and colt, and after the first six weeks you will have very little trouble.

The Profitable Sheep.

There is no danger of any person getting into trouble in predicting that from now on the sheep is to be returned to its proper place on the farm. And why not, when it makes by far more money out of the grass and the weeds, the hay and anything else fed to it than any other kind of animal we raise, and it does that without one needing to milk or grind for them. All that is required is to give the feed as it comes from the feed, only that turkeys had better be cut. Does that not tell, and tell materially, when the labor saved is considered, how we can farm, farm well, and cut down expensively labor bills?—John Campbell, Woodville, Ontario.

The Cauliflower.

The requirements of successful cauliflower growing are good seed, a standard variety and a rich soil in all the essential elements of food. The cauliflower requires more moisture than cabbage. The plants can easily be purchased and may still be set out. The cultivation should be shallow, and frequent with irrigations every week until everything is well underway. A half acre of good land should produce 2,500 heads easily.

Clean the Hog House.

Clean out the hog house once a year whether it needs it or not. A pile of droppings a foot deep will cause you all kinds of trouble in disease and vermin. There is no excuse for this, but attention.

12 and 16 Gauge Hammerless "Pump" Guns

The Safest Breech-Loading Gun Built!

The Marlin

Shotgun is a fine-springing, beautifully-balanced gun, without any objectionable lumps or bumps. Its holes of iron for gas to blow out through or wire to get in, can't freeze up with rain, snow or sleet; its solid steel breech (not a shell of wood) permits a shockless over-bolt.

It has Hammerless with Solid Steel Breech (inside as well as out)—Solid Top—Slide Ejection—Matted Barrel (which costs 40¢ extra on other guns)—Pistol Grip Cartridge Release—to remove loaded cartridges quickly from magazine without touching strength or safety. It is the safest breech-loading shotgun ever built.

STOMACH TROUBLE FOR FIVE YEARS

Majority of Friends Thought Mr. Hughes Would Die, But One Helped Him to Recovery.

Pomeroyton, Ky.—In interesting advice from this place, Mr. A. J. Hughes writes as follows: "I was down with stomach trouble for five (5) years, and would have sick headache so bad, at times, that I thought surely I would die. I tried different treatments, but they did not seem to do me any good. I got so bad, I could not eat or sleep, and all my friends, except one, thought I would die. He advised me to try the **Black-Draught**, and quit taking other medicines. I decided to take his advice, although I did not have any confidence in it. I have now been taking **Black-Draught** for three months, and it has cured me—haven't had those awful sick headaches since I began using it. I am so thankful for what **Black-Draught** has done for me." "Theford's **Black-Draught** has been found a very valuable medicine for derangements of the stomach and liver. It is composed of pure, vegetable herbs, contains no dangerous ingredients, and acts gently, yet surely. It can be freely used by young and old, and should be kept in every family chest. Get a package today. Only a quarter."

NEW REVOLUTION

Catawba Valley, N. C. Had a Peaceful But Powerful Awakening

STARTED WITH \$1,500 NOTE

Buckwheat Valley, Wisconsin, Becomes Prosperous Through Co-operation—What the Conference To Be Held in Louisville Really Is For.

A program built with experts from the various departments of the State and National Government, is naturally quite an easy matter. To go out over the country and find people who are really doing things in their own communities, is quite another proposition. This has been the task which the men who are handling the Conference for Farmers and Business Men have set for themselves this year.

Walter J. Shuford, North Carolina.

One of the most interesting men of this type in the whole United States is Walter J. Shuford, of Hickory, N. C. He is one of those men who evidently dreamt wonderful dreams, then rolls up his sleeves and works hard to make those same dreams come true. Way down in North Carolina Mr. Shuford saw how his friends and neighbors were living through life on a worn out soil that would not seemingly supply their wants. At last he found the man he needed in Field Agent Cotton, and they began work to interest a group of men in a dairy proposition. From a start that was made with a \$1,500 joint promissory note with which he financed his creamery, it has grown year after year until last October, the total sales amounted to over \$10,000. And it seems from the way in which things are growing that their cooperative organization will soon be handling a business that will total about \$500,000 a year.

One might write volumes about what has happened down in Catawba Valley in that Tarheel country, but it is enough to say that this man has changed the attitude and viewpoint of a country through his own enterprise. He will be in Louisville during the Conference, April 7-8-9-10, to tell his own story and to demonstrate the methods that he used to organize and develop this tremendous business.

FAT OF THE LAND

Seven years ago Buck Wheat Valley in Wisconsin was almost bankrupt. Two-thirds of her property was held in mortgages and the young people were drifting toward the city. Wheat, which in the early days had yielded 50 bushels to the acre, had dwindled to 12, and it was because of this that the people had to substitute buck wheat, hence the name of the Valley.

Seven years ago Mr. William Head and Mr. Grover began organizing the people about the LaValle for developing the creamery work and standardizing the potato crop. To-day there is hardly a mortgage in this neighborhood, the homes are painted, new barns are being built, silos stand as sentinels all over the country. Mr. Head and Mr. Grover will be in Louisville April 7-8-9-10, to tell how they lifted Buck Wheat Valley out of bankruptcy into plenty.

A GETTING TOGETHER

The seventeenth annual Conference of Farmers and Business Men which is to meet in Louisville, April 7-8-9-10, is a rather unique organization. It has absolutely no constitution or by-laws, no dues or conditions of membership. It is a loosely put together organization, which can easily shift its viewpoint or change its policy with the growth and temper of the people making up the membership for that particular year. It began its existence under the Southern Educational Board, which pays all the bills, and its President for sixteen years was a remarkable merchant of New York City, Mr. R. C. Ogden. He was one of those unusual men who can see not only the future in his own business, but also the future in other lines of activity. It has been the policy of this movement not to dictate what any meeting should do, but merely to help the groups that "get together" to find themselves and solve their own problems.
