TAFT IN 'BUCKEYE

Secretary is Still on the Road Track With heavy Artillery in the Rear.

Movements will seem to be Gathering Weight when the War Secretary is Mounts the National Balances.

TAFT'S visit to Ohio has not resulted in much enlightenment to the public as to the political situation that Commonwealth further than the fight seems to be waxing war. It now seems to be definitely understood that the Secretary of War is a candidate—and will stay in until he finish—for the nomination for the Presidency, but that in any event he will not want to come to the Senate from Ohio. The friends of Mr. Taft in Ohio are confident of victory. The Foraker element seems to be inclined to put the final decision at the hands of the people, and openly says that Foraker strength will grow in the state every day. Outside of Ohio the Taft boom for the nomination seems to have gained decided strength this week. Representative Theodore E. Burton launched the Taft boom at Trenton, N. J. at the annual dinner of the Republican Club, and the Secretary of War's name was received with shouts of acclaim. Also senator Penrose seems to have come to terms, and it is said that he will send a Taft telegram to the Republican Convention. The Hughes movement also seems to be gathering weight, but for any reason Mr. Taft cannot be agreed on, it is the general belief that the governor of New York will be tendered the nomination. This will be rendered the more certain if he wins out in New York in his fight against the machine in that State, and for his public utilities bill. Even if defeated in this there will be a tremendous sentiment in his favor as having met defeat fighting the battles of the people. Everything taken into consideration, the field of possible candidates seems to be narrowing down. Of course, Speaker Cannon's name is heard more or less as a possibility, but this possibility does not seem to have taken any definite form as yet. Whatever may be the result of the summer's political work, it is certain that developments in the next Congress will carry much weight. More politics will be played at the Capitol this winter than ever during the last term, which is saying a good deal.

IT IS DANGEROUS TO NEGLECT A COLD.

How often do we hear it remarked: "It's only a cold," and a few days later learn that the man is on his back with pneumonia. This is of such common occurrence that a cold, however slight, should not be disregarded. Chamberlain's Cough Remedy counteracts any tendency of a cold to result in pneumonia, and has gained it's great popularity and extensive sale by it's prompt cures of this most common ailment. It always cures cures and is pleasant to take. For sale by C. B. Waring, Olive Hill's druggist.

No Prisoners got Munfordville.

An exchange says, "The jail doors of Munfordville stand open, the first time this thing has happened in thirty years, and jailer Kesenger is looking a little bit blue. Under the circumstances however for something to happen, and stands ready to do business at the same old stand, at the usual rates."

1,000 Given Away.

Would you accept a \$1,000 accident insurance policy, fully paid for one year, free? Well that is what we are offering to do. We have only a limited number to issue at nothing to those who patronize us. The company is strong, with a large deposit in the treasury to secure its policy holders. The average accident policy costs you \$5 fee and from \$1.00 to \$2.50 per month dues. Making from \$16 to \$32.50 for the first year. Our offer is that you send us \$1.50 for one year's subscription to the Olive Hill Times and the American Farmer and we will make you a present of one policy with all dues paid for one year. Trouble in Central America.

A dispatch from the city of Mexico says that that republic is ready to declare war on Guatemala at any moment. The strained situation between the two countries is the dispute over the extradition of Gen. Lima, who is wanted in Mexico on the charge of conspiracy to assassinate former President of Guatemala Barillas. Over 10,000 troops have been mobilized near the Guatemalan border by the Mexican government, and should war be declared they will be in position to strike quickly. Reports of outrages and insults heaped on Mexican citizens in Guatemala have inflamed the Mexican populace, and the outcome is doubtful.

Passes Curfew.

At the regular meeting of the City Council of Vanceburg a curfew ordinance was passed carrying a fine of from \$1 to \$10.00 on children under 14 years of age to be found on the streets after 8 P. M., unless accompanied by their parents.

100 Lives Lost.

In a recent wreck off the coast of Uruguay, of the French Poitou, 100 lives were lost. The transport carried 300 passengers.

Want Election Over.

In the face of a victory of the wets at Maysville, of 348 votes in the local option election held there last Tuesday, the dries it is thought will ask for another election. The county, outside of Maysville is said to be 75 per cent. dry, and they hope to carry the country by a sufficiently large majority to overcome the Maysville vote and force saloons down.

Kentucky Fruit Killed.

The monthly crop report of Commissioner of Agriculture Vreeland, issued Tuesday, says: "The unprecedented cold weather of April caused the corn planted in March to make a complete failure. Forward wheat was materially injured. The peach crop was nearly all killed, and plums, cherries, pears and apples suffered considerably. There is a scarcity of tobacco plants frost having killed many where they were well advanced."

SCIENTIFICAL CURED AFTER TWENTY YEARS OF TORTURE.

For more than twenty years Mr. J. E. Massey, of 3322 Clinton St., Minneapolis, Minn., was tortured by sciatica. The pain and suffering which he endured during this time is beyond comprehension. Nothing gave him any permanent relief until he used Chamberlain's Pain Balm. One application of this liniment relieved the pain and made sleep rest possible, less than one bottle has affected a permanent cure. If you are troubled with sciatica or rheumatism why not try a 25 cent bottle of Pain Balm and see how quickly it relieves the pain. For sale by C. B. Waring, the druggist, at Olive Hill, Ky.

AT JAMESTOWN, VA.

President and Congressional Delegation Delighted at Naval Display.

Trend of "Teddy's" Speech. A Number of Foreign Commanders Entertained in Washington, D. C.

The opening of the Jamestown exposition was not unlike that of the other great expositions in the history of the country since the first great international fair at Chicago, in that it was marked by a wonderful lack of completeness in a great many respects. The grounds and buildings were far from complete and the lack of arrangements for the accommodation of the distinguished visitors made it not very agreeable to them, at least. The President, of course, fared well, but the Congressional delegation was no little disgruntled over the lack of facilities for conveying to and from the grounds, etc. After it was all over they could laugh at what at the time proved very annoying, and as they returned by the way of Washington, the Capital received the full benefit of the critical comment. However, all agree that the exposition will be well worth seeing when complete, and the Congressional delegation, especially, were delighted with the naval display, which will be the finest thing of the sort ever witnessed in American waters.

The President's speech was a notable one, but along the lines of his public address for the past year or more. One quotation will serve to show the tenor of his speech, so far as it was concerned with the present of the republic.

"The cornerstone of the republic lies on our treating each man on his worth as a man, paying no heed to his creed, his birthplace, or his occupation; asking not whether he is rich or poor, whether he labors with his head or hands asking only whether he acts decently and honestly in his various relations with his life; whether he believes well to his family, to his neighbors, to the state."

Washington is literally agglitter with the Uniforms of foreign nations this week, incident to the entertainment of the high ranking officers of the foreign ships at the exposition. Sixty officers of the fleet now assembled off the exposition grounds, came up on Tuesday, April 30, and were royally entertained in Washington. For every 3 foreign officers there was one American officer to look out for their comfort and see that they were properly entertained. On Tuesday night the president entertained the more prominent officers at dinner at the White House.

Wonderful Cow.

An autopsy performed on a cow at Harrodsburg, Ky., disclosed the fact that her death had been caused by eating a mans shirt, a pair of stockings, and two under garments usually worn by children. The cow, which had supplied the family with milk and butter for several years, gradually lost her appetite and finally refused nourishment. Various remedies were given but they did not improve her situation. Her horns were bored for hollow horn, her tail was split for hollow tail, but nothing appeared to do her any good. After her death the autopsy disclosed the unusual circumstances that caused it.

Largest Business Men Don't Drink.

The Editor of The Ladies' Home Journal, Mr. Box, recently made an investigation with a view to ascertaining if possible, the proportion of the leading business men of the nation who are addicted to the use of Liquors. Twenty-eight of the largest business men of the country were taken for the purpose of investigation and the results show twenty-two out of the twenty-eight, or more than five-sevenths, have never used alcoholic liquors in any way shape or form.

Convict Makes Confession.

Theodore Charity, a Portsmouth negro, now serving time in the penitentiary for shooting a man named Ed. Wilson, during a fight at Rome, Ohio, over a white woman named Viola Warrington, has written a letter to a citizen of Adams county, in which he tells how Viola Warrington was killed during the fight between himself and Wilson.

Charity charges that Wilson shot the Warrington woman and made way with her body so that it was not discovered until some time later.

Wilson was turned loose by the Adams county authorities.

Strike Riot.

The 1,700 union motormen and conductors on strike in San Francisco Tuesday developed into a riot more than a score of persons were seriously wounded and others hurt to a lesser degree.

A "Dalton" Effort

Bandits made an effort to hold up and rob a North Pacific express last Tuesday near Butte Montana, but failed of success. They however killed the engineer and also shot the fireman through the arm. A posse with hounds are now on their trail.

\$10,000 for Confession.

Brownsville, Texas, citizens interested somewhat in the recent trouble there, caused by colored troops, have on foot a movement to raise by donation \$10,000 as a reward of any one of the 25th infantry who will confess to having taken part in the raid.

Longworth for Senator.

The statement is made upon very high authority that President Roosevelt has determined that Representative Nicholas Longworth, his son-in-law, shall succeed Senator Foraker in the Senate from Ohio.

If the Central American republics cut up that way for the sake of a mere mule what effect do you suppose an automobile would have upon them.

If, as one politician avers, "Taft is ahead and has the inside track," it will require all kinds of crowding to pass him.

A Waterbury (Conn) tombstone bears the following inscription: Died in her thirteenth year. Glory hallelujah! Further comment is unnecessary.

Senator Depew recently declared woman suffrage. Naturally, the Senator is miffed at the language used of late by the male voters in regard to his case.

CLEANED OUT.

When a deep cellar becomes filled with heavy, poisonous air, it is never safe to go into it until it has been cleaned out. When your body has been poisoned with the foul residues of undigested food, it is just as necessary to clean it out. To do this pleasantly take Dr. Caldwell's (Laxative) Syrup Pepsin. It is a pure, scientific preparation, which has no equal in the cure of constipation, headache, biliousness and stomach trouble. Sold by N. M. Hodgins at 50 and 1.00 Money back if it fails.

NOT IF AS RICH AS ROCKEFELLER.

If you had all the wealth of Rockefeller, the standard oil magnate, you could not buy a better medicine for bowel complaints than Chamberlain's Colic, Cholera and Diarrhoea Remedy. The most eminent physician cannot prescribe a better preparation for colic and diarrhoea, both for children and adults. The uniform success of this remedy has shown it to be superior to all others. It never fails, and when reduced with water and sweetened is pleasant to take. Every family should be supplied with it. Sold by C. B. Waring, the Olive Hill drug.

Startling Fatality on American Railroads

From figures just given out it is ascertained that during the quarter ended December 31, 1906, 474 passenger and railway employees were killed in accidents in the United States. Of these, 180 were passengers. These figures do not include 84 railway employees killed in coupling cars. This fatality is many times in excess of that on English railroads, where the service is equally efficient. Where is the difficulty?

Mr. Bryan says his present weight is 234 pounds. A race between Mr. Bryan and Mr. Taft would be no feather weight affair.

ANNOUNCEMENT.

We are authorized to announce Hon. M. M. Redwine, of Elliott county, a candidate for the Democratic nomination for Circuit Judge of the 32nd Judicial District of Kentucky at the primary to be held at each voting precinct Saturday, June 22, 1907, at 1 o'clock, p. m.

Two Wills Discovered.

Colonel H. H. Ewing, who passed away at Owingsville recently, it has been discovered, left two wills. One bearing date of February, 1907, gives his entire estate, which is valued \$80,000, to his unmarried sister, with whom he lived near Owingsville, and the other under date of June, 1905, gives the estate, to his married sister, Mrs. Della Lear, of Paris. The two wills will be offered for probate, and law suits will follow.

Heavy Rains Do Damage.

Reports from Fulton county say the heavy rains that have fallen in the vicinity of Fulton for the past two weeks have done very great damage generally. All the rivers are or have been out of their banks, bridges are being swept away and roads and farm land are being practically ruined by the waters. The county has suffered a loss of several thousand dollars by the damage done to Fulton's public property, and rain is yet pouring down. In some localities where livestock were on pasture in bottoms and low lands, fine beef cattle, calves and hogs were swept down and drowned in herds and droves. In the town of Fulton several families have been driven from their homes by the heavy rain in the waters of Harris Fork creek, a little stream that runs through the town.

Strike Ties Up Traffic.

At Barbourville all the union miners working in the Cumberland mines, now under lease to John G. Mathews, walked out on strike last Friday, as a result of a cut made in their wages. Both the owners and workmen seem to be preparing to make a bitter fight and this will tie up traffic at the mines for most probably quite a while, as the miners have the backing of the Union and the owners are financially able to make a long contest, it being one of the most important mines in that district.

Joked of Health and Dropped Dead.

James Hadfield, an Iowa farmer, as he was testifying as a witness, made the remark, "I am sixty-five, but sound as a dollar, and good for at least eighty-five" and ere the sound of his own voice had died from his lips, with a sudden gasp he slipped forward from his chair and fell lifeless on the floor.

To Build Own Road.

On account of the recent car famine the West Kentucky Coal Company, of Wheatcroft, Webster county, will build a road of its own to the Ohio river. It will tap the L. & N. at Wheatcroft.

Penitentiary Instead Workhouse.

Because a clock in his home was not ticking just to suit him, one John Whitley, of Louisville, gave vent to his rage by assaulting his wife. When he was brought into Police Court the following morning said, "Judge, if I ever get drunk and do anything like this again, I hope you will send me to the penitentiary." The Judge gave him the consoling answering remark that he would save him from the penitentiary this once by giving him nine-

teen dollars workhouse sentence and \$300 bond for ninety days.

Though Sweet It's Sour.

Last Tuesday the New York Federal grand jury found indictments against the Chicago, Rock Island and Pacific Railroad, the Western Transit Company and the Chicago, Milwaukee and St. Paul Railroad. The text of the indictments is reported to be for payments alleged to have been made to the American Sugar Refining Company supposed to be for rebates.

Run Over By Freight Car.

A Bradshaw boy, son of Henry Bradshaw, living in the western part of town, Thursday evening had his foot badly crushed by a freight car wheel. He tried to catch one of a cut of cars and it is supposed that his foot slipped off the boxing, under the wheel. He is only about 11 or 12 years old. Dr. C. L. Hudgins dressed his foot. His foot will most probably have to be amputated.

Last Voyage of "Old Ironsides."

The famous frigate Constitution, "Old Ironsides," is preparing to make what is likely to be her last cruise—or at least the last trip prior to being laid up in perpetuity. She is being fitted for a voyage to Hampton Roads, where she will be one of the most interesting exhibits at the Jamestown exposition.

As a ship she will cut much of a figure alongside of the big floating steel structures representing the navies of the world. But no vessel of the number will typify as much glorious history as "Old Ironsides." It seems almost a pity, says the Troy Times, that the famous craft, now at Brooklyn navy yard, cannot be put in shape to sail down the coast and into the famous roads under her own canvas. This is impossible, however, and the stately vessel will be towed to her destination by this common place tug. But even this cannot rob her of her well-earned reputation.—Ex.

Wives of Our Ex-Presidents.

There are now living, four wives of former United States Presidents—Mrs. James A. Garfield, Mrs. Benjamin Harrison, Mrs. William McKinley and Mrs. Grover Cleveland. The first three are widows, and the husbands fell victims to assassins' bullets.

In her quiet home in Mentor, Ohio, lives Mrs. Garfield, the talented woman who spurred her husband to become President of the United States, and whose sons are now prominent in national life.

She has led a secluded life these many years, but she is the same kindly woman as in the days when she shone in Washington life. The weight of years has not marred her intellectual qualities and she takes deep interest in the world's affairs.

Mrs. McKinley is in Canton, Ohio, the resting place of her martyred husband. Here in quiet she lives among memories of the happiest days of her life, awaiting the day when she will be called to join her loved one.

Peace also marks the days of Mrs. Harrison in Indianapolis. She takes little interest in society, and devotes her time to the education of her daughter.

Mrs. Cleveland is more press in the public eye by reason of the study interest her husband takes in politics.

But her home life is dear to her, and she seldom leaves Princeton.—Ex.

Our Rapid Growth.

Figures are published by the census office showing that the population of the United States is increasing steadily and enormously and that it is nearing the 100,000,000 mark. The enumerated and estimated population for the continental United States for 1906, is given as 83,941,510 and the continent and the insular possessions, including Alaska, the enormous figure of 93,184,240. There has been a general increase in density of population from 26 to the square mile to 28; and the population of the cities has increased much more rapidly than that of the country. The general increase of population since 1900 was only 8.8 per cent, but the increase of the urban population, namely that of the incorporated towns is 15 per cent. This increase was still more marked in the large cities, the increase in cities over 50,000 in population being 16.3 per cent.—Ex.

Big Losses Hurt Underwriters.

Leading underwriters make the report that the San Francisco conflagration of April 1906, drained the treasuries of the insurance companies of not only every dollar profit they had made out of underwriting during the past 50 years but cost them almost the enormous sum of \$80,000,000 besides, according to a statement made by G. W. Burchell, President of the National Board of underwriters, in the annual meeting of that organization held in New York City recently.

He stated, in substance, that in round numbers, \$350,000,000 would be about the proper figure at which to reckon the total property loss in the catastrophe.

243 insurance companies felt the effects of the conflagration to the extent of over \$175,000,000, and the total loss to insurance companies throughout the world would be between \$200,000,000 and \$225,000,000.

The Duke in Washington.

Another visitor who is the recipient of the most distinguished attentions is the Duke degli Abruzzi of Italy, who is not only an honored guest on account of his close relationship to the King of Italy but also because of his renown as an explorer. He is a guest at the Italian Embassy but he has also been entertained at the White House and had several receptions and a ball given in his honor. The Duke is Commander of the Italian fleet at Jamestown and his visit to Washington follows that to the Exposition. He is accompanied by his suite and will make a tour of the principal Eastern cities before returning to Italy.

Wants Cleveland in Race.

From reliable Democratic sources it is learned that efforts are being made to induce Grover Cleveland to become a candidate for the Presidency in 1908. Some of the most powerful financial interests of New York City are back of this movement. In it are included as many Republicans as Democrats.

Tried to Wreck Train.

News comes from Fulton, Ky., of persistent efforts being made to wreck trains Thursday, at St. Elmo, wreckers twice set and locked a switch, but the engineer both times discovered it in time to stop his train. Investigation will be made.

How to Avoid Appendicitis.

Most victims of appendicitis who are most habitually constipated. Orino Laxative Fruit Syrup cures chronic constipation by stimulating the liver and bowels and restores the natural action of the bowels. Orino Laxative Fruit Syrup does not nauseate or grip and is mild and pleasant to take. Refuse substitutes. C. B. Waring, the Olive Hill druggist.

RAPID GROWTH OF DIVORCE.

More Husbands Than Wives Apply for Complete Dissolution.

The growth of divorce in England, as in the United States, has grown so rapidly, says the London Mail, that it is causing uneasiness to those who are concerned in the moral health of the nation. It is now 47 years since the divorce courts were constituted. Before Jan. 1, 1853, complete dissolution of marriage could only be effected by act of parliament, and consequently it was a privilege enjoyed by the very rich alone.

In the first year of the court's existence it had to deal with 226 petitions. Fewer applications for relief from the marriage tie were made during the second and third years; in the fourth year, 1861, low water mark was reached, and since that time the number of petitions has risen steadily. From that date up to the present time there has been a continuous rise, but marked, as in the progress of trade, or emigration, or any other affair measured by statistics, by frequent recissions.

The judicial statistics published this year only go to 1903, and they show that in 1902 the highest point was touched. In that year there were a total of 1,600 petitions for dissolution of marriage, judicial separation, nullity, restitution of conjugal rights, etc.

The South African war acted as a disturbing factor. Many members of the class among whom divorce is most common were away, and, therefore, unable to take action. Thus the petitions fell by nearly 100 in each of the first two years of the war, and rose when the war came to an end.

The acts of 1878, 1886 and 1895 endowed the wife with some of the privileges of the well-to-do, and here there is real occasion for alarm on the score of morality. Any wife proving desertion, refusal to maintain her, or aggravated assault, on the part of her husband, can obtain a separation order which carries a weekly payment for her maintenance at the discretion of the magistrate.

While husband and wife are parted forever, the divorce is not complete. Marriage with another man is prohibited. There is only one moral safeguard—the maintenance order is revoked on proof of misconduct. The situation created is certainly hazardous.

Many curious facts are revealed by the judicial statistics. For instance, judicial separation is going out of fashion. Some people who cannot live happily together are disinclined to resort to measures for complete dissolution of the marital bond. In 1903, the applications for judicial separation comprised 86 wives and only four husbands.

More husbands than wives apply for complete dissolution. This is a curious fact, for it is true of other countries also where equal facilities are offered to the two sexes. The change in the status of women is shown, however, by a tendency in this difference to disappear.

A remarkable fact is that the increase of divorces corresponds with an older marrying age. People marry later in life now than formerly, and apparently with less judgment as to compatibility.

SHOWING WALL PAPERS.

Conveniences for Exhibiting Under Artificial Light.

Silks have long been shown in stores, when desired, by artificial light, so that the customer may see how they will look up, how they will look at night. Nowadays wall papers are shown in like manner.

These small papers that look well by day but so well by night, and then there are wall papers handsome by day that are much handsomer under artificial light—papers that light up well. And it is a common thing now for purchasers in selecting wall papers to look at them by daylight and also by artificial light.

Purchasers have, indeed, long done this in a way. The salesman would hold up for their inspection a roll of paper under a gaslight. But now, in some wall paper establishments there are found electric lighted rooms in which wall papers can be shown as they would appear at night under artificial light on the wall.

The rooms for which papers are thus selected are likely to be not sleeping chambers. They are equipped by night as well as by day for living purposes—rooms in which it is important that the papers should light up well and be gratifying to the eye—the parlor, the dining room and the library.

Natural History.

"The moth is a man who assumes superior knowledge," has never been credited with the sagacity it really possesses. The moth is an epicure.

"I'll eat anything in sight," replied his auditor.

"That's where you are wrong. It is a creature of taste and discretion. You have observed that it eats holes in your evening clothes, and only attacks your business suit when there is nothing else."

"Which is sheer nonsense." "Not at all. When you attend a banquet you wear your evening clothes, and the moth's procedure is conclusively demonstrated that it knows the difference between terrapin and champagne and plain restaurant soup."—Washington Post.

At Aberdeen Ky., the house of Miss Sarah Aldrich and her aged mother, eighty-six years old, burned down, and the mother was unable to get out with her life and was burned up.

Street Car collides With C. & O. Passenger.

At Lexington Thursday a street car collided with a C. & O. passenger train from Louisville, utterly demolishing the street car, turning over the mail and baggage car of the train, killed one person and injuring 10 others, some probably fatally.

Local Option Law

The Court of Appeals, by unanimous vote delivered an opinion holding the Local Option Law of 1906 constitutional. The opinion was written by Judge O'Rear, one of the staunchest temperance men in the whole country.

It has often been said that when legal questions are close they may be decided in favor of either side and good reasons given. It is gratifying that our highest court has shown the right way out of the matter.

The trend of this nation, and of all civilized nations is toward less indulgence in drugs—n drinks which poison both mind and body and lead to total depravity. The present wave of sentiment is stronger and more widespread than any heretofore experienced by people at large.

John C. Porter was down from Lexington Monday.

LOCAL AND PERSONAL NEWS

Editor Seneca X. Swinm, of Greenup was here Friday on legal business. Attorney C. F. Cooper has been improving his dwelling on Woodside.

Postmaster Wilson is nursing a badly sprained ankle by an accidental fall. H. L. Snodgrass, lineman for the long distance telephone people at this point, suffering with a broken leg as a result of a pole accidentally rolling on him.

Mr. Cobb recently in the furniture business at Grayson with Claud Wilson, of this place, as the other interested party, has sold the business there and moved to Olive Hill.

H. T. Sparks, of Elliot county, who has been attending Medical School at Louisville for the past several months, is here visiting homefolks and friends.

Merchant John H. Mobley was in Lexington Sunday.

Misses Jessie and Maud Whitt were over from McGlone Monday.

Miss Bessie Sexton was with homefolks in Morehead over Sunday.

Mrs. J. M. Scott went to Morehead Monday, returning Tuesday, visiting her daughter, Miss Maud, who is attending the Normal there.

Walter counts, of Lawton, was visiting his brother, Albert here Sunday evening.

Ciraence James was over from near McGlone Saturday.

Elmer Lowe, who is employed at Fultz's Livery Barn here, was with his parents at Kings Chapel Sunday.

Several from here went to Huntington Thursday to "see the circus."

Revival Still Going On. The big revival services which have been going on at the Presbyterian church here on the several days past is yet in session. The church house has been packed to the limit at every night service, except when the weather is inclement.

Prof. Boothe at Richmond. We are just in receipt of a copy of the Eastern Kentucky Review, published by the Kentucky State Normal School at Richmond, from which we have secured a number of copies.

Electric Lights. The rumor has reached us recently that it may be possible that Olive Hill folks will have the convenience of electric lights. The committee was lately here some time ago and was kept going for quite a while but finally give down, for reasons not known to others than ourselves. If an electric light plant sufficient power and equipment would be installed and kept going, we don't see why it would not pay good interests on the investment. We have the sufficient population and a sufficient number of business and private houses that would patronize the system to make it pay the investor. It's a thing we badly need and of course will have permanently some time in the near future. Considering all our town is favorable. We have good streets over the major portion of the most traveled parts of the town and we feel rather in the wilderness without electric lights. The party we understand is a local one and that "does things" and if it is they that make the test, then we feel sure that the thing will be fairly and earnestly put to the test. Here's luck to it.

Affray at Court House. Recently, while the Louisa Police Court was in session at Louisa Ky., an affray occurred just outside the courthouse door, in which Willard Lycan sustained a serious but not fatal stab in the front part of the left shoulder blade. It is not known positively who did the cutting.

Virginia Land Granters Beaten. A decision was rendered last Thursday (7th) by Judge Kirk, of the Pike Circuit Court against the Eastern Ky. Coal Land Corporations. The granters met with same defeat at the hands of the courts as regard their suit against Floyd, Knott and Letcher counties.

Detectives After Night Riders. Detectives are at work at Hopkinsville, closely investigating "Night Rider" outrages, with a view to discovering the identity of the marauders. Deputy United States Marshal T. J. Cundiff has made several trips to the city recently, and he and T. B. Pedigo are said to be at the head of the corps of sleuths. Several reports of alleged detectives falling into the hands of raiders are being circulated. A book agent and a picture enlarging agent are said to have been already dealt with.

Russellville tests County Unit. Suit was filed here yesterday in the Logan Circuit Court by local liquor dealers in order to finally test the local option law as to Russellville. Russellville is a city of the fourth class, and the plaintiffs contend that the recent decisions of the Court of Appeals do not affect the status of this city, which is now and has been for quite a number of years a "wet" town. The prohibitionists contend that the opinion of the Court of Appeals in the recent cases from Henry, Lincoln and Woodford counties settles the matter and that this city is now a dry town.

Two Officers Wounded. Sheriff Zeb Ward were both shot and seriously wounded by John Sitowell last night while attempting to arrest him on a warrant issued by Gov. Beck. Sitowell was carrying a life sentence when paroled two months ago.

A Rauc Old Celtic. In tearing down the house bought recently by Sam Cohen, the workmen found under the hearth an old flint lock pistol, loaded, with the flint in place. It is history and the name of him who owned it never will be known. This building is one of the oldest known habitations in Eastern Kentucky. It was built before Carter county was established, by whom it is not known. Capt. G. W. Littlejohn, the oldest native of Grayson, attended school there, and it was an old house then.—Grayson Tribune.

Seeks State Senatorship. Judge Joe F. Bosworth, of this city, the present representative in the Legislature from this district, is a candidate for the Republican nomination for State Senator from the Seventeenth Senatorial district. Judge Bosworth, as Representative secured the enactment of a number of measures for the betterment of the Kentucky mountains. In fact no other representative has done more good for his constituents than he, and his services at Frankfort will without doubt bring returns to his present candidacy.

The Crop Reporter shows that the United States lost in the year ended March 31 last from disease and exposure: Sheep, 3,242,799; swine, 2,681,166; cattle, 2,229,995; horses, 573,519. Total, 8,633,449. Texas lost the most cattle, 349,394, and the most horses, 34,486. Montana lost the most sheep, 727,138; Iowa the most swine, 429,225.

Under orders issued by the President Maj. John F. Weston a native of Kentucky, will assume command of the Philippine division of the United States army on November 1, relieving Gen. Leonard Wood. Gen. Weston has a long and creditable record, and his assignment to the Philippines gives to two Kentuckians, Gen. Bell, Chief of Staff, and Gen. Weston, the two most important positions in the service.

The dispatches mentioned that one C. R. Pettus, a telegraph operator of Olive Hill, recently ran amuck in Virginia and killed a woman and seriously wounded a man before he was subdued. He was crazed by drink and cigarettes, those twin dogs of hell, which are doing more to ruin American boys than all of our influences combined.—Greenup Republican.

These dispatches are in error. "W. B." Pettus is the Virginia party. His father is the C. R. Pettus, former telegraph operator at Olive Hill.

30 Lost in a Mine Explosion. An explosion occurred in a large mine near Hinton, W. Va. one day last week and resulted in the death of 30 miners and a number more injured.

\$15,000 Suit to be Filed. Col John R. Allen has been employed by the finance committee of the Lexington school Board to file suit against the city for \$15,000 alleged to be due the School Board of that city for back taxes.

A Large Wedding. W. B. Brinson, who weighs 585 pounds, was married Sunday afternoon to Miss Lucious Allen of Sophorton, Ga., a daughter of W. G. Allen. The wedding occurred at the Methodist parsonage.

Brinson is a wealthy turpentine operator and is a widower of one year. He is an Elk and is said to be the largest member in the world.

Miss Allen, it is said, weighs only 105 pounds.

CAPTURED. Sam Carroll, an alleged violator of the revenue laws, who has evaded the authorities for some time, is now in the Boyd county jail. Carroll lives at the little hamlet of Riggs, down in Carter county, where Deputy U. S. Marshal, Tom Salyers arrested him Thursday night.

The officer received a tip that Carroll was at home, and slipping into the neighborhood, he waited until about one o'clock at night when he entered the

house and found the fellow in bed asleep. He surrendered without resistance.

A Lucky Find. John Jones, a stonemason of Shelby county, while digging up an old stump last week found gold coins amounting to \$2,000. The wall rotted remnants of a cedar bucket where the money was found shows that the receipt in the ground many years ago.

Know the Condition of Your Business. Everyone—whether in business or not—should be ever ready to know their condition. That is what we must be able to do, and we cannot so long as we have such a large number of subscriptions 'way behind on their subscriptions. We are almost positive a mighty few dollars will be lost on our subscribers, for we think we have given them value received for their money at least. But the thing is now, owing to the fact that we must further enlarge and complete our office, by buying more type, etc., we need the money. About May 1 we will mail you who owe us, a plain notice of how much you are delinquent to us, with a request that you come in and pay us the amount. We do not do this with any offensive purpose but it takes money to carry on business. We now have about \$400 out on subscription and of course we have more than one place where we could use \$430 very fittingly. Please do not wait for us to send you a notice but remit now, for which please accept our thanks in advance.
