The Political Situation

Efforts of the administration to date the Republican Presidential nomination seem to be arousing a spirit of resentment in many quarters. The feeling of opposition has been forecasted by many prominent Republicans and it is confidently believed that, in view of the flagrantly open declaration of the administration to name the secession, the resentment will grow more intense. A new element in the game is the undisguised use of Federal patronage to promote the ends of the administration, and this is causing sharp cries of indignation, in the South especially. A "State League" has already been formed in Georgia to resist the administration faction.

In Illinois the administration has failed entirely to do what it intended to accomplish through Gov. Deneen, who, it is confessed in Washington, has been a great disappointment to the President. Gov. Deneen, when he started out to build up an administrative faction, was met at every turn by the sentiment for Canon. The administration immediately claimed the Canon sentiment as an asset of its own and, while Cannon supported the administration's policies throughout the last Congress, he is going to have something to say about the delivery of that sentiment, and it will not be delivered by declaration either.

In New York, the administration has openly used the Federal patronage to reward prospective friends and punish supposed enemies, and it was rumored to involve Gov. Hughes.

latter is building up a powerful following in New York, and when it comes to handing over the New York delegates, he and his faction will have something to say.

In Indiana, Beveridge has been unable to make even a small hole in the solid Fairbanks ranks, and when the friendly rivalry over the favorite sons of Indiana and Illinois, who are like two peas in a pod politically, will probably unite on a candidate minus any dictation from Washington.

The administration's effort to dictate in Ohio has hopelessly involved the Republican situation and created a factional fight whose influence will surely be felt in the coming municipal elections and all that follow.

Said one politician in Washington recently: "But there is a silver lining to the cloud. Roosevelt's luck is with him again, and just when it would be most timely, too. The American Protective Tariff League is out for the standpatters," in opposition to Taft and the administration. Now can we imagine any one thing that in the present sentiment as an asset of its own and, while Cannon supported the administration's policies throughout the last Congress, he is going to have something to say about the delivery of that sentiment, and it will not be delivered by declaration either.

UNKNOWN FRIENDS.

There are many people who have used Chamberlain's Colic, Cholera and Diarrhoea Remedy with splendid results, but who are unknown, because they have hesitated about giving a testimonial of their experience for publication. These people, however, are none the less friends of this remedy. They have done much toward making it a household word by their personal recommendations to friends and neighbors. It is a good medicine to have in the home and is widely known for its cures of diarrhoeas and all forms of bowel trouble. For sale by C. B. Waring, the reliable druggist at Olive Hill.

No Liquor in Delaware

A New Delaware law makes it a misdemeanor to drink whisky on a train in that State. As long as laws of this kind are confined to little States like Delaware and Rhode Island, there will be no general protest, but when Texas considers the propriety of such a statute there will be fear and trembling throughout the land.

Senator Allison says: "The tariff is going to be a live issue soon." Same old story; not yet, but soon.

Two Boys Cremated.

At East point, Johnson county, the home of Rev F. J. Short, evangelist and Christian preacher, was destroyed by fire. Two sons, Milton, aged seven, and Paul, aged nine, were burned to death and another son, aged eighteen, jumped after being badly burned and was fatally injured.—EX.

THE VERY BEST REMEDY FOR BOWEL TROUBLE.

Mr. M. F. Burrows, an old and well-known resident of Bluffton, Ind., says: "I regard Chamberlain's Colic, Cholera and Diarrhoea Remedy as the very best remedy for bowel trouble. I make this statement after having used the remedy in my family for several years. I am never without it." This remedy is almost sure to be needed before the summer is over. Why not buy it now and be prepared for such an emergency? For sale by C. B. Waring, the reliable druggist at Olive Hill.

Illegally Drafted.

Upward of two thousand men, illegally drafted in Kentucky in 1864, have a chance to obtain from the Government the \$300 they put up for the sending of a substitute to the Union army. During the last session of Congress a bill introduced by Senator Blackburn, of Kentucky, directed the Secretary of the Treasury to investigate the claims of these men whose names upon the official descriptive lists on file in the War Department. The matter was afterward referred to the Federal Courts, which decided in favor of the claimants. Kentucky had already furnished her quota of soldiers and the draft was illegal.

HOW TO BREAK UP A COLD.

It may be a surprise to many to learn that a severe cold can be completely broken up in one or two days' time. The first symptoms of a cold are a dry, loud cough, a profuse watery discharge from the nose, and a thin, white coating on the tongue. When Chamberlain's cough remedy is taken every hour on the first appearance of these symptoms, it counteracts the effect of the cold and restores the system to a healthy condition within a day or two. For sale by C. B. Waring, the reliable druggist at Olive Hill.

Defends Railroad Rebates

Secretary of State Elihu Root lectured at Yale University, May 21, on the "Responsibility of Citizenship." Coming from so high an official of an administration which has so vigorously pursued the railroads, his remarks during the course of the lecture defending the practice of railroad rebating are somewhat startling, to say the least. He said in part:

"The objectionable railroad practices which are now so widely and justly condemned, are not new practices; they are old practices which formerly passed with subsilencio. The railroad rebates which are now forbidden by law, and for which great corporations are being indicted and convicted, are merely a form of discriminatory rates, which once prevailed without objection."

"It was by giving special rates that packing people to build factories and packed houses, and elevators, and a great variety of other business establishments along the lines of their roads; that was the way they built up their business."

"The prosecution and conviction for violations of the anti-rebate law are not evidence that we are growing worse, but evidence that we are growing better; that our government is applying a higher standard in the control of public utilities."

"The same is true of the management of corporations, and the manipulation of securities, to which attention has been called sharply by the testimony before the Interstate Commerce Commission."

"The elective franchise has become a more honest expression of popular will."

Startling Manufacturing Statistics.

The country's manufacturing industries must certainly be something immense when it is stated that during last calendar year we exported to foreign countries \$719,000,000 worth of manufactured articles. This is in addition to supplying our tremendous home requirements, and does not take into consideration the vast exports of wheat, corn, cattle, beef, pork, dairy and other farm products, lumber and kerosene oil. The United States is third in the world in the amount of its exports of manufactured merchandise, the United Kingdom and Germany leading. No wonder the nonproducer, the consumer, and the salaried man find the living expenses double. Prosperity is costly—to some.

strong and Smoky Valley. At about the middle of the afternoon of last Thursday considerable excitement reigned in town when the news flew through town that Miss Maude Scott had shot her mother, Mrs. Eliza Scott. For a time the occurrence, of course, was not understood, but it was soon learned that it was altogether accidental. Telephone summons were out for almost all the physicians that were not out of town at the time and they and J. M. Scott her husband, who was assisting in a town store, were the first at the residence, with the exception of a few close-by neighbors. As we understand the accident happened about this way: Mrs. Scott, with some flowers, was preparing to go to the cemetery to decorate some graves. A rifle belonging at the house had been left at a neighbors house and she handed it across the yard fence to her daughter, Maude, who was instructed to take in the house, then turned supposedly toward the cemetery, but when only a few steps away the gun was in some manner discharged and the girl saw her mother fall. Mrs. Scott was taken into the house and physicians summoned.

A very fatal and tragic affair happened at Bethel Thursday, Decoration Day, which is a little place quite a distance in the country from town' when Edward Lambert, of this place, while as we understand it heavily under the influence of whiskey shot and instantly killed, Myrtle Jesse, the 17 year old daughter of John Jesse, of that neighborhood. Young Lambert pulled a revolver from his pocket and began shooting aimlessly about when one of the bullets from the gun struck the girl in the breast, near the heart, killing her instantly. Lambert was brought here where he was placed on train 22 and taken to Grayson. For a few moments after the fatal occurrence a mob was really feared as all did not understand the situation and were in a rather frenzied mood, as the happening was so shocking, however, a few of the men hurried him away and the fever of excitement rather abated. Bethel is visited by throngs every Decoration Day and at this time a large crowd was there!

I am glad to report to my friends through our excellent paper, the Olive Hill Times, my trip to the Southern Baptist convention and the Jamestown exposition. The Convention at Richmond, Va. was one of great interest which lasted for four days. The power of the Holy Spirit prevailed throughout the meeting. The Convention reached its climax on Friday night, May 17, when our foreign missions' reports were being discussed. After many eloquent speeches both on what had been done and what yet remained for us to do, a Consecrated Layman, W. W. Brooks, of Rome, Ga. gave \$50,000 for foreign missions. After it was made known what this meant by R. J. Millingham, Our foreign mission Secretary. For a

moment there was breathless silence than many others followed in large gifts. Certainly the time between 11 and 12 o'clock on Friday night (17) was a great epoch in our mission work. Space would not permit me to speak of the great power that was manifested in the pulpits at Richmond on Sunday, or go into details of the great work of this convention, though the report of Home Missions was almost equal to that of the foreign Board, many great speeches were made, showing us our duty to this, our one beloved Land, and by all means should be heeded. The Laymen monument was another great feature of the convention. The Consecrated Layman of our churches are meeting in Conferences and publicly and privately planning how they can best spend their time and money to the Glory of God and the Salvation of sinners. At the close of this convention I attended the Jamestown Exposition went down the James River from Richmond, which is noted for it's many historical points. Any one going to the exposition from this part of the country should not fail to make this trip down the James River and gaze upon the beautiful scenery on it's banks and especially the Ruins of the old Church at Old Jamestown Settlement. As to the exposition, it is not complete and possibly will not be for some time, yet there is much there to be seen, which is of interest. The Naval display is grand and the great Battle ships are almost as thick on Chesapeake Bay as trees are in an orchard. And the many historical points near, such as Old Point Comfort, Newport News Fortress Monroe, Norfolk, Cape Henry, Virginia beach, and Ocean View, with many other places of note make it a most desirable place to go and no one should go to the exposition and return without visiting at least the places above named. I would not feel right if I was to fail to speak of the great Baptist days at the exposition, which were May 22 and 23, in which all the Baptists of North America were represented in one great body and had a great meeting, discussing the doctrine for which our forefathers stood and for which we still stand. In closing let me say if you have the time you would enjoy a trip to the exposition, and it will be of profit to you through life.

Count the Cost. The cost of getting drunk has been raised in Waterloo from \$6.85 to \$7.50. A year ago the minimum fine for a "jag" was \$5.85. This was raised to \$6.85 when Judge VanMeter took the office of police magistrate, and it has now been raised to \$7.50 for a plain ordinary drunk with additional costs for trimmings. The advance price of this class of luxuries(?) was deemed necessary because of the increased cost of living.—Ex.

Western Kentucky Coal. A very reasonable statement is noted in a recent number of Bradstreet's, to the effect that a much nearer source of supply of coal for New Orleans "might be found in the coal field of western Kentucky, which was worked during the war, and which might again be made available by dredging the Ohio river and facilitating transportation." If Bradstreet's will take the pains to look up the production in Western Kentucky, it may, perhaps, be surprised at the enormous output of that region, which has increased by leaps and bounds for the last ten or fifteen years.—Business.

It is because some of the organs of the body are not doing their work well. There is a lack of that nervous energy that gives them motion. Consequently you are weak, worn-out, nervous, irritable, cannot sleep; have headache, indigestion, etc.

I have been sick for a year, and did not know what was the matter with me. I tried many remedies and none of them did any good. I heard of Dr. Miles' Nervine. I procured a bottle, and before I had taken half of it I was better. I would have given a bottle, and before I had not got this medicine when I did. I continued to use it until I was entirely well. I have since recommended it to my friends and acquaintances. They all thank me for doing so, for it benefited them all.

MILLIONS ARE MADE YEARLY. New Ideas Evolved in Manufacture of Umbrellas.

Up to a few years ago, it is said, only seven patents on umbrellas had been issued in the United States in 100 years. This despite the fact, says the American Inventor, that the annual production of umbrellas in this country is close to 15,000,000.

The ribs and stem of an umbrella are generally made in factories having a speciality of these items and are sent thence to the real manufacturer. Here, first the man whose work it is to assemble the parts in series a bit of wire into the small noles at the end of the ribs draws them together about the main rod, and puts on the ferrule.

In cutting the cloth 75 thicknesses or thereabouts are arranged upon a splitting table, at which the operators work. In another room are a number of girls who operate hemming machines. A thousand yards of hemmed fabric is but a day's work for one of these girls. The machine at which they work have a speed of some 3,000 revolutions a minute.

After hemming the cloth is cut into triangular pieces, with a knife as before, but with a pattern laid up on the cloth. The next operation is the sewing of the triangular pieces together by machinery. The covers and the frames are now ready to be brought together. There are 21 places where the cover is to be attached to the frame in the average umbrella.

J. A. PORTER, J. P.

A man who is in perfect health, so he can do an honest day's work when necessary, has much for which he should be thankful. Mr. L. C. Rogers, of Branchton, Pa., writes that he was not only unable to work, but he couldn't stoop over to his own shoes. Six bottles of Foley's Kidney Cure made a new man of him. He says, "Success to Foleys Kidney Cure." C. B. Waring.

Asks \$100,000 Damages

In the Circuit Court at Lexington Monday last week Judge Watts Parker refused the motion of the attorneys for James Hargis to quash the summons served on Judge Hargis in the suit for \$100,000 instituted by Dr. B. D. Cox for his assassination.

Hargis' attorneys argued that Hargis was in Lexington where the summons in the suit was served on him, returning to his home in Jackson from Winchester, where he had been in answer to a summons in the suit of Sam Jett for malicious prosecution, which had been transferred to Bourbon county for trial, and that a summons served on Judge Hargis while he was enroute in answer to a summons was illegal.

Commonwealth attorney Allen held that inasmuch as Judge Hargis had gone on to Lexington instead of going back to Jackson he was not under the jurisdiction of the Winchester court, and that the summons, was legal, and Judge Parker took his view of the matter. The trial of the big damage suit of the Hargises and Ed Callahan for Cox's assassination will likely come up there.

TROUBLE INCREASING.

When your trouble with food-digestion seems to be increasing, and various pains, like stomach-ache, headache, backache, etc., beset you; when your bowels and liver seem continually out of order, what you need is Dr. Caldwell's (laxative) Syrup Pepsin. It is safe pleasant and far superior to all pills and cathartic waters. Sold by N. M. Hudgins at 50c and 1.00. Money back if it fails.

\$100,000,000 Annually.

The great destruction wrought by rodents is pointed out in statement which has been issued by the Department of Agriculture on "methods of destroying rats." It declares that "an infallible method of extermination of these rodents would be worth more to the people of the United States in a single decade than the Department of Agriculture has cost since its establishment."

It says the brown rat is the worst mammalian pest in existence and adds:

"If for each cow, horse, sheep and dog on the farms of the United States the farmers support one rat on grain, the toll levied on the cereals by these rodents would reach the enormous total of one hundred million dollars a year."

"Their prolificness is the chief obstacle of their extermination. Three litters of ten each are produced every year, a single pair, breeding without check and without losses by death, in three years would be represented by ten generations and would number over twenty millions. The eleventh generation due at the beginning of the fourth year would number more than an hundred millions."

INJUNCTION IS ISSUED.

A stringent injunction has been issued against the malignant activity of dyspepsia, amongst all people, by Dr. Caldwell's (laxative) Syrup Pepsin. Do not fail to invoke the powerful aid of this great enemy of all stomach and bowel disorder at the least sign of trouble in any of your digestive organs. It will promptly and surely set them right, and make you well. Try it. Sold by N. M. Hudgins at 50c and 1.00. Money back if it fails.

Child Labor in New York.
New York's new child labor law provides that no minor under sixteen years of age shall be employed or permitted to work in any factory in the State before 8 a. m. or after 5 p. m. This law will go into effect January 1, 1908.

WILL CURE CONSUMPTION.
A. A. Herren, Finch, Ark., writes: "Foley's Honey and Tar is the best preparation for coughs, colds and lung trouble. I know that it has cured consumption in the first stage. You never heard of any one using Foley's Honey and Tar and not being satisfied. C. B. Waring."

Convict cut to Ribbons.

In a desperate hand to hand encounter between two convicts in the shoe factory in the penitentiary, John Hensley a breathittcounty murderer, was cut to ribbons by D. W. Lockmiller, a one-armed bank robber from Mercer county. Hensley hit Lockmiller over the head with a broom handle following a quarrel. Lockmiller immediately got busy with a knife used in trimming leather and when he had finished trimming on the Breathitt bad man the prison physician had to take seventy stitches to close up his wounds. He will live.—Ex.

BAD ODOR.

A bad odor from a person's breath may be caused by many different forms of dyspepsia. It may be due to stomach catarrh, biliousness, constipation or a case of ordinary indigestion. Whatever may be the cause, there is one reliable cure, and that is Dr. Caldwell's (laxative) Syrup Pepsin. It clears all the impurities out of your body and makes poor breath as sweet as the June morning. Safe, pleasant and effective. Sold by C. B. Waring at 50c and 1.00 a bottle. Money back if it fails.

Oklahoma Constitution.

A press dispatch from Washington says unless all signs fail the new constitution of Oklahoma will not be ratified, and Congress will be called up next winter to pass another enabling act for the administration of the new State. The Government officials do not like the constitution as framed by the convention, and claim it will retard the progress of the State at least twenty years, because it will bar out practically all foreign corporations from doing business in the State, prevent the growth of the school system and grant a monopoly to four railroads which now run through Oklahoma and Indian Territory.—Ex.

If you make inquiry it will be a revelation to you how many succumb to kidney or bladder troubles in one form or another. If the patient is not beyond medical aid, Foley's Kidney Cure will cure. It never disappoints. C. B. Waring.

Wanted-A Young Male Gray Squirrel. Archie McCarty, Olive Hill, Ky. Apply At Times Office.

Find Petrified Body.

Workmen engaged in removing the remains of Mrs. Emily Cummins from the old cemetery at the foot of Main street in Cynthia, used by the old generation as a burying ground, were surprised to find them in a perfect state of preservation. Mrs. Cummins was buried forty-seven years ago, and those who viewed the remains Tuesday say that the features were as perfect as the day they were placed in the grave. Even the flush on the cheeks were visible.

A LESSON IN HEALTH.

Healthy Kidneys filter the impurities from the blood, and unless they do this good health is impossible. Foley's Kidney Cure makes sound kidneys and will positively cure all forms of kidney and bladder disease. It strengthens the whole system. C. B. Waring.

Machinists on Strike.

Machinists in the Louisville & Nashville railroad shops at Decatur, Ala., went on strike Tuesday because the road refused to recognize the union. It is feared that this action of the machinists there will affect other points on the line and may cause a general tangle in the affairs of the road.

A MOTHER'S DEVOTION

To her children is one of the most beautiful things in life. When they are sick the wise mother, who has taken the pains to study their best interests, promptly gives them Dr. Caldwell's (laxative) Syrup Pepsin. It quickly relieves pain and fever, and can never do nothing but good. C. B. Waring.
