Wax (Grayson County)—When postal officials arrived at this crossroads on Nolin River, the proprietor of the store in which the first post office was located was weighing bees wax. For lack of a better name, the post office was designated Wax. Name derived "from the story of an early storekeeper who ordered chewing gum by the carton. The cartons came through the p.o. at Millerstown and when delivered the carrier called out 'One for Wax Town.'" (M. Ladd, WPA, c.4/1941);
