Each day brings as gratifying proofs of the beneficial re-sults of this reaction. The accord so-ber sense of reliable leaders in making ber sense of reliable tenders as man-tiself felt, and the developments in the political world are daily adding to the strengthiand sonable fee of those who persist that the only chance for victory lies in a square stand-up fight upon lies in a square stand-up light upon Democratic principles anni a repedia-tion of all those chimerical schemes, which would barter away the individ-uality of the party in the vain hope of a coalition with the mil contents of the opposition. We are not certain but a continon with the min contents out or opposition. We are inde, certain but the party is strenged and more asset of the party is strenged and more asset or y departures of the pact. The delirium of tererish impastence has given place to a rigorous, healthy action; the discass has aligninged from, the organization many of these demonstratives. ness which before elogged its actio neas which before clogged its action; and with a the determination to sparm all propositions to lower its flag and seek for alliance in the casap of the neamy, there has come a spirit of earnest and confinient faith; in the future trimph of those principles for which we have battled so long and as yet a spirit of the confinient flag of the co

While the Democracy are thus growing each day stronger and more bufferful, there appear evidences of a corresponding democralization and weak-caing in the Raddeal party. The evidences are that the case of the removalization of the two wings of the party upon the candidate who may be chosen.

The policy of the Democratic party it, therefore, clear. It at in Alasian from
