

THE ROWAN COUNTY NEWS

VOLUME NO. 1 OLD SERIES 29; NEW SERIES 17.

MOREHEAD, KENTUCKY, THURSDAY, AUG. 23, 1934.

NUMBER THIRTY FOUR

OPENING DATES ARE GIVEN FOR LOCAL SCHOOLS

Morehead, Haldeman, Farmers and Elliottville Will Begin on September 3

TRUANT OFFICER HIRED

The Consolidated Schools at Morehead, Haldeman, Elliottville, and Farmers will open September 3, according to an announcement made by Roy E. Cornette, superintendent of schools.

The four schools have a total enrollment of around 1,000. The school census rates them as follows: Morehead, 642; Haldeman, 367; Elliottville, 150; and Farmers, 125. An intensive plan will be carried out for the operation of school buses carrying students to all of these schools. It is expected to increase the registration, as well as offer a high school education to students in heretofore isolated sections. The completion of a network of good roads in Rowan county makes this possible.

A bus route, covering most of the eastern portion of the county, will run into Haldeman. This route is a census of 118 students eligible for the Haldeman school. John Kelley has been awarded the bus contract for Haldeman.

Another bus route will haul students starting at the intersection of the Cranston-Waltz road to the Haldeman school. E. F. Butler has been given the bus contract for this route.

Another bus will run from the intersection of the Sharkey and Allie Young Highway over the latter road into the Morehead Consolidated School. The Elliottville route, contract for which has been awarded to Marvin Adkins, runs from Walker's Branch on the Cherry Creek road to Elliottville. The Farmers school will receive students from Ramey and points between on a bus route.

To comply with the new school code, the Board of Education has named John H. Bailey as attendance officer. Mr. Bailey is a graduate of Morehead State Teachers College and a former principal at Elliottville. Howard Palfrey has been employed to fill the teaching vacancy at Old House Creek, formerly held by Mr. Bailey.

The general duties of the attendance officer shall be, (1) enforce

ABOUT TOWN with The News

The Poorest Gamble
Would you gamble \$17,000,000 against one dollar. You wouldn't of course. To save one little minute, you might lose your chance of winning. At those odds, no wager could possibly be worth the risk you would take.

It is very possible, however, that you take an even poorer bet than that every day—that you accept, consciously or unconsciously, life's poorest gamble.

If you are 35 years old, you will, on the average, live for 17,000,000 more minutes. To save one little minute, thousands of automobile drivers risk losing the entire 17,000,000 minutes that are coming to them. They take that risk whenever they drive excessively fast, whenever they cut in and out of traffic, whenever they pass other cars on hills or curves, whenever they are guilty of one of the many acts of carelessness that may cause an accident.

Each year in this country about 33,000 people make a 17,000,000 to one wager with death—and lose. Hundreds of thousands of others are injured. Millions sustain needless property damage, estimated to reach a total of more than a billion dollars.

Think of the odds next time you are tempted to take a chance while driving. Remember that the automobile that you are operating is one of the most potentially dangerous of all weapons, both to others and yourself. Then ask yourself if

(Continued on Page Four)

Free Textbooks To Be Out Here Soon

Free textbooks for Grades 1, 2 and 3 in the schools of Rowan county have been ordered from the state by Superintendent Roy E. Cornette and are expected to be here this week.

The books will be given to all students in the first grades on a receipt of the parents, and will not be taken up by the teacher until the end of the term, Mr. Cornette said. The books will not only be given to those unable to buy them, but to every child.

Purchase of free books for the first three grades is made possible by the appropriation of one-half million dollars by the state legislators. Mr. Cornette ordered 956 books for the first grade; 412 sets for the second and 458 sets for the third grade.

The school at Sess Branch is being enlarged and will have an additional room. The Board of Education is starting the repair on the roots and buildings of schools in bad condition.

DREAM LEADS BOY TO BODY

Youth Finds Child Who Was Drowned in Flood

Finding of the body of Harold Daneron, 8-year-old son of Mr. and Mrs. Everett Daneron, missed since he and his brother were drowned in the flood waters of Williams Creek, following a cloudburst several days ago, was credited to a dream by Leonard Grammel, who found the body in a sand bank.

The body of Marvin Lafayette Daneron, 4, the other victim, was found a few hours after the home was swept away. Grammel related that he dreamed Monday night that the body of the missing child was under a bank of sand washed up by the flood near the farm of Andrew Womack. He said he awoke, took his dogs and went to the place, where he found such a sand bank as he had seen in his dream. The dogs helped him dig and in a short time they had uncovered the decomposed body, Grammel related.

The body was identified by members of the family, as that of Harold. The Daneron home was swept into the muddy flood when a barn, carried along by the swirling waters, slammed against its house and knocked it from its foundation.

Everett Johnson, 15-year-old son of Mr. and Mrs. Charles Johnson of Grasn, was brought before the Carter County Court at Grayson for a lunacy hearing today and was found to be suffering from hydrophobia, according to court officials.

REVIVAL AT FARMERS COMES TO CLOSE

The revival meeting at Farmers Christian church, conducted by the Rev. Beard and the Rev. Bolin, students of Christian Normal Institute of Grayson, Ky., closed last Sunday night with a total of 190 additions. Of that number 69 were by baptism. Reverend Bolin did the preaching to the delight of all who heard him. Though young in years and experience he is a gifted and forceful speaker that deeply impressed his hearers. There were addition at every service.

Dr. Fern has been asked to baptize some of the converts of the meeting on Sunday afternoon.

DR. ROEMER GIVES ADDRESS

Dr. Joseph Roemer of the George Peabody College for Teachers addressed a graduating class of 36 college students at the Morehead State Teachers College Thursday evening. It was the largest summer graduating commencement the college has ever had. Dr. J. H. Payne awarded degrees as well as diplomas to the graduating class of the Breckinridge Training school.

COUNCIL MEETS

The Morehead City Council met at the City Hall Tuesday evening and transacted business. An ordinance committee was appointed.

STATE LEGION MEETING WILL START MONDAY

Legionnaires Plan For Better Program With Many New Features

EXPECT LARGE CROWD

Monday will usher in the Sixteenth Annual convention of the American Legion at Ashland, with promises of the largest attendance and the best program the state department has ever enjoyed. The Corbin-Elmington Post No. 126 will host the state convention almost everywhere, according to officers here. Convention dates are Monday, Tuesday and Wednesday, August 27, 28, and 29.

This year's convention will be under the supervision of J. Q. Lacy, state department commander, and Adjutant Tom Hayden.

Among the outstanding features of the convention will be a gigantic parade augmented by fire, mechanical field artillery and cavalry units from Camp Knox. The city is being beautifully decorated for its colorful occasion and red, white and blue lights will illuminate the principal streets over which the parade will move. The Kentucky American Legion band will act as the official band of the convention.

Approximately 15,000 legionnaires will compete for the honor of representing Kentucky at the National Convention in Miami this fall. Several out-of-the-state bands will also compete for prizes. These contests will be held at Armo Field Monday night, August 27. Flood lights are being erected and seats prepared to handle the large crowd expected. A beauty contest will be held to choose the young lady who will represent the department as "Miss Kentucky" for 1934 in the National Convention. It is expected that all the principal business establishments will close for the big parade Monday, August 27, from 12 to 4 o'clock. Featured in the parade will be the newly organized

(Continued on Page Four)

MORE PROJECTS FOR COUNTY IS ORDER OF KERA

Two Started Yesterday While Others Scheduled to Begin Friday

COUNTY PORTION \$52,000

Three additional projects of the Kentucky Relief Administration, E.A., were started in Rowan county today. They are: the Lower Lick River road, employing eighteen men; the Big Brushy road, employing seventeen men, and the Trent road, twenty-four men.

The North Fork road which will employ forty-two men, and the Perry road, giving employment to forty-seven others are scheduled to begin Friday.

Rowan County's allotment last month was \$5,200 and is expected to be the same for August. The work lasts each month until the amount is expended by the local office.

Only those who are on the relief or eligible for the direct relief roles are employed on the KERA projects. In a land destitute by the recent drought and flood the local relief office is being taxed to its operating limit of relief commodities and vouchers.

W. H. Aldred, at Washington, D. C., is the state director. An investigation will be started of allegedly non-administrative costs in relief activities in Kentucky. The investigation is aimed at Thornton Wilcox, head of the relief organization and of the old CWA. A dispatch from Washington said that while the movement to oust Mr. Wilcox is expected to be based on the administrative cost of relief activities, some of the Democratic organization leaders have complained for months that the Kentucky administrator has leaned consistently toward the Republican element.

Mr. Wilcox reportedly has asserted that whatever apparent favoritism that

(Continued on Page Four)

Report of State Expenditures Is Made Known At Frankfort

Submitting his first report to Governor Laffoon in compliance with the provisions of Chapter 25 of the Acts of 1934, known as the Budget and Financial Administration Act, Nat. B. Sewell, State Budget Officer, today made public a comprehensive statement of each and every department of the state government.

Regarding in business and financial circles as the most important legislation enacted in Kentucky in the history of the state, the budget and financial code makes it possible for the taxpayers to know the exact financial condition of the state at the close of business each month. It is the duty of the budget officer to submit a report to the governor each month.

This legislation was advocated by Governor Laffoon, during his campaign in 1931, but it was not until the second session of the Legislature during his administration that he had whipped it into shape.

A. S. ROTHROCK IS SENT TO CLEARFIELD CAMP

Capt. A. S. Rothrock, of the Infantry Reserve, Camp Knox, Ky., has been transferred to the Citizen Conservation Camp, Company No. 578, Clearfield, where he will be in command. Lieutenant Adams will remain at the Clearfield Camp as second in command. Lieutenant Pratt has been transferred to Paintsville, where a new camp is being started.

WEATHER OUTLOOK

Morehead and Rowan county have had during the past week possibly the most enjoyable weather of the year. The nights have been cool and the days not excessively warm. The weather outlook for Kentucky for the remainder of the week is as follows: probable showers, but cooler Thursday night; Friday and Saturday, fair and warmer.

Choral Club Is Success At Fair

A Moreheadian group from the World's Fair at Chicago on the appearance of the Foster Choral Club in a mixed chorus there last Sunday as follows.

The enormous scope of the magnificent States Theatre was the setting for a splendid program rendered by the Foster Choral Club of the College under the direction of Prof. Lewis Henry Horton, Sunday evening at 8:30 p. m. The audience were many faces familiar to the Morehead campus. Dean and Mrs. W. H. Vaughan, and son, Billie; Mrs. Martha W. Blessing; Mrs. J. H. Payne and daughter, Agnes; Raymond A. Arville, Wheeler, and son were among those gathered at the program.

The club sang many lovely songs with "My Old Kentucky Home" and "I've Got a Feeling" being carried to the outskirts of the large theater and the audience received them enthusiastically.

DRIVE STARTED IN FLOOD FUND

Local Red Cross Office Opens Campaign for Relief

Due to the great distress throughout the county as a result of the cloudburst and wind storm, which occurred here August 10, the Red Cross is opening a drive for beginning its solicitations today. Chapter Chairman D. B. Caudill and Vice-Chairman W. T. Baumstark have announced the following committee who will head up the campaign: W. T. Baumstark, chairman; Walter Swift, Lester Hogue, Harlan Blair, Allen Points, E. E. Maggard, and D. C. Caudill.

Although this fund will be insufficient to handle the immediate needs of every family appealing for help, the relief workers are proceeding with the distribution of groceries and roofing, the greatest need, and have been instructed by the headquarters office in Ashland to report any change in the health and sanitary conditions which may call for further relief. Mrs. N. L. Wells, secretary-treasurer of the chapter has already received many donations.

National headquarters of the Red Cross has authorized Maurice Reddy to start the general fund, with headquarters in Ashland, with the sum of \$5,000. Morehead will receive a portion of this national gift as it will be divided between all the suffering communities in the area. It is hoped that every citizen of Rowan county who has not suffered a loss in the flood will contribute his bit toward helping his less fortunate neighbor.

CARTER COUNTY FAIR IS BEING HELD NOW

The Carter County Fair opened Tuesday at Grayson. There will be sessions both day and night until Saturday night when the Fair closes.

All children under fifteen will be admitted free when accompanied by parent, guardian or teacher.

A large number of premiums have been offered and there are a large number of exhibits than usual.

HEALTH WORK CONTINUES

The Rowan County Department of Health, headed by Dr. T. A. E. Evans, with assistance from neighboring county health units and the State Department of Health are continuing their active crusade in Rowan county for floor areas. Shots for typhoid fever are being given in all sections of the county and at the local health offices in the Citizens Bank building.

SUPERINTENDENTS NOTIFIED

County school superintendents were notified this week that published spelling books, purchased under the free text book act, are not to be assigned to pupils.

FLOOD VICTIMS ARE GIVEN AID BY RED CROSS

Suffering Is Acute in Many Sections of County Report Says

FOOD, CLOTHING NEEDED

The Red Cross Disaster Relief Headquarters in the former County Superintendent's office has been the center of interest for the Rowan county flood sufferers here, where over 700 families have registered for some kind of help. Food and roofing have been the most urgent needs but there are many requests for mattresses and other bedding.

Rowan County Chapter and the national representatives are already expressing appreciation to all the agencies in the community that have responded so promptly in this emergency. Before the Red Cross could get all of its forces into operation there was great help rendered by groups here and there throughout the county and the finest cooperation is continuing between county, state, and federal offices.

"There has been a fine spirit of helpfulness shown by everybody," said Mrs. Shoemaker, "and within the next few days things ought to be greatly improved."

The loss of gardens has probably caused the greatest distress, and the local relief workers have hurried to cover this need as quickly as possible by furnishing small grocery orders to the families that were depending upon their gardens for their every day use.

Bedding, Clothing Needed
As housing has been furnished for homes as promptly as possible, first consideration going to families where there was sickness or old people or where the damage was so great that roofs for dwellings are now being repaired. In some old buildings are not considered emergency needs.

Blankets, sheets and clothing are also in demand and will continue to be distributed among the most destitute cases where the storm has caused this loss.

The Rowan County Chapter of the Red Cross is loud in its praise of the support given by volunteers throughout the county. In the absence from the city of the Chairman D. B. Caudill, the relief work in the early hours after the flood and storm was handled by Mr. W. T. Baumstark, vice-chairman and Mrs. Baumstark, Mrs. Joe Caudill, chairman of volunteers and dozens of other chapter workers.

It is impossible to appreciate the

(Continued on Page Eight)

Hold Meeting Of Corn-Hog Signers

The Rowan County Corn-Hog Control Committee made final adjustments on the corn-hog contracts from Rowan county, Tuesday, August 21. This work was done at Catlettsburg under the direction of the State Corn-Hog office. The members of the Corn-Hog Committee are L. E. Palfrey, president; T. H. Caskey and John Ellis, editors; Mr. Vancill, secretary of the Corn-Hog Association; and Mrs. Chas. L. Goff also attended the committee meeting. There are 39 corn-hog contracts in Rowan county and the benefit payment to these farmers will amount to about \$4,000. About one-half of this payment will be received as soon as the contracts are accepted. The balance will be due about the end of this year.

OPERATORS OF VEHICLES MUST PROCURE LICENSE

Under a law enacted by the state legislature of Kentucky which drivers and operators of motor vehicles must procure a license by September 1, but the tax commission has been lenient in enforcing the law and allow clerks sufficient time to put it in effect. The cost of the license is 50 cents. The application blanks are expected to be available at the Rowan County Clerk's office some time next week.

rom Bygone Days

From the Special Commercial Club Edition of 1898. MOREHEAD NORMAL SCHOOL. This institution was founded eleven years ago by Gen. Wm. T. Withers, of Lexington, Ky. The school began with one pupil, and during the past year one hundred and ninety-one pupils were enrolled. The buildings have been enlarged from year to year, and this year 53 acres of hill and valley were purchased and added to the campus.

The Boarding Hall is the largest and most completely finished and furnished in Eastern Kentucky. It is in charge of Elder D. G. Combs and family, which insures excellent management.

All of the buildings are modern and the accommodations are of the best. From Christian Guide, Louisville.

It was prophesied that Morehead, the scene of so much bloodshed, and grief of his own daughter, selected for a mission school. The selection of F. C. Button, with his wise, devoted and conscientious mother to pioneer this enterprise, who ascribes to that Providence which directs our steps however our hearts may devise the way.

Mr. R. Hodson, a kinsman of Mrs. Phoebe Button, recognizing the needs of her work and the need of missions in the mountains of Kentucky, and remembering the grace and gifts of his own daughter, now at rest with God, opened his heart to the appeal of our beloved brother F. C. Button, and gave \$1,500 towards the erection of a suitable building for the school, the citizens of Rowan county contributing enough money to make the building a memorial of Mrs. Phoebe E. Button. Other gifts had been made by our Kentucky brethren, but this gift was the largest.

It should yield fruit not only in enriching the minds of mountain children, but in stimulating our own right to like generous offerings. Mr. Hodson will provoke us to good works. He has struck the keynote to the solution of our mission school work.

This gift imposes upon us the duty of calling out among our own people a benevolent desire to meet the increasing opportunities of mission in the mountains.

In this connection it is proper to remark that F. C. Button has been put in charge of Morehead Academy, and will spend the summer working for that institution.

Sherriff Dies From Injury

After Killing Escaping Youth. Sheriff P. L. Little of Menifee county died at Frenchburg Sunday night of injuries he had received when he was struck by an automobile which crashed into a crowd gathered at the scene of the fatal shooting of Tonker Helton 21-year-old farm youth who tried to escape after being charged with slaying his father in a family quarrel.

Young Helton was shot by Deputy Sheriff Albie Henry at the edge of town, following his arrest and escape from a dance.

Little, injured in the same accident, was not expected to recover, but the others, struck by an automobile driven by Owen Campbell, 24, which swerved into the crowd, were reported "doing very well."

Sheriff Little is survived by his wife, two sons, Robert and William of Frenchburg, three daughters, Elizabeth Lee Little of Dayton, Ohio, Mrs. James Gaspany and Sarah Little of Middletown, Ohio, and brothers and two sisters.

Young Helton is a Liberty union member and engaged with assault on the accident.

Heard Hero of 182 Years

At Blue Licks Battle Ground. Amid the wide green spaces of this historic site, Kentucky, Sunday paid homage to the memory of those who fell in ambush 152 years ago, in the Battle of Blue Licks, called by many the last battle of the Revolution.

Led by Gov. Bibb Laffoon, more than 7,000 Kentuckians and visitors from across the Ohio River joined in the annual celebration, made doubly significant this year, with memorial services conducted for the late Federal Judge A. M. J. Cochran, Maysville, a leading spirit in the development of the park, and the dedicatory general years ago.

Governor Laffoon appeared at the park unexpectedly and was asked to speak by J. M. Cochran, Maysville insurance man and son of the late judge, who was master of ceremonies.

In his address, which was informal, Governor Laffoon reviewed the "state park movement" not only in Kentucky but elsewhere. He took occasion to laud the sales tax, recently instituted in Kentucky, largely at his instance.

Eighteen Injured When Bridge Collapses With Picknickers

Gathered at Annual Celebration at Sulphur Wells. Eighteen picnickers gathered at an annual celebration at Sulphur Wells, ten miles north of Edmonson, were injured Sunday afternoon when a suspension foot-bridge over Little Barren River collapsed under its burden and dumped the victims into the rocky bed twenty feet below.

Dr. E. S. Dunham, Edmonson, who was called to attend the injured, said the most serious injuries amounted to broken arms and shoulders and that none was hurt seriously.

Confusion attending the accident, with frantic cries of relatives and parents who feared members of their families had been killed, caused erroneous reports that several were killed, witnesses reported here.

The bridge, 150 feet long, spanned Little Barren between a Bena Villa Hotel and the sulphur well and was a favorite promenade for visitors.

Bank Deposits Increase Three Billion Dollars More Than 1933. A three billion dollar increase in bank deposits in 12 months was reported this week by J. F. T. O'Connor, comptroller of the currency at Washington, D. C.

Other sources attributed the rise to two major factors—first, that more than 50 banks reopened during the year ended June 30, and, second, that the new deposit insurance law had stimulated confidence in persons who felt unsure after the 1933 financial crisis.

BLACK-DRAUGHT

"Such a Good Laxative," Says Nurse. Writing from her home in Pleasanton, Mo., Mrs. Anna LaFrance says: "I am a practical nurse and I recommend to some of my patients that they take Black-Draught for it is such a good laxative. I took it for constipation, headache and a dull feeling that had to go. A few doses of Black-Draught—and I felt just fine." Because so many people know how having used it that "Black-Draught" is a good, pure, vegetable laxative, sufficient of power. It is safe every year.

THE REAL WORK IS TO BEGIN

The eleventh year of success has been registered for the Morehead State Teachers College with the close of the summer school last Thursday.

Almost two thousand school teachers and prospective teachers of Eastern Kentucky have attended Morehead College during the past year and partook of the educational advantages offered by this modern institution.

The Morehead State Teachers College is substantially one of Kentucky's landmarks—a spot that marks the mecca of learning for the Eastern Kentucky boy and girl casting their lot in the noble profession of teaching.

It is a watering spot of social uplifting surrounded by green pastures of knowledge for the section of Kentucky lying at the foothills of the Cumberland mountains and on the verge of the fruitful Blue Grass. A spring, so to speak, at the bottom of the hill freely dispensing its unlimited healthy waters to a thirsty group of Anglo-Saxons seeking advancement in the high ways of education.

For eleven years the Morehead State Teachers College has been at the hub of a hundred mile radius of the art and profession of teaching. Those eleven years have embodied the foundation—the rose in a budding stage from which the full grown flower is about to spring—not a flower that spreads its perfumes and then withers, but more akin to an evergreen that is born and then lives and lives.

THE MOREHEAD TRIANGLE

Much has been said and written about the scenic beauty of the Kentucky mountains, but apparently there has been little done about it, as far as attracting tourists.

Those who doubt that there is really beautiful natural scenery in Rowan County should take a trip up the CCC road to the Morehead triangle or another of the three forest stations. Sunday it was our privilege and pleasure to motor to the Morehead triangle, fourteen hundred feet above the ground level. The view was unlimited for twenty-five miles, and every peak and many valleys were in focus. The view was equal to any we have ever seen any place.

It seemed that the building of a passable road up this mountain was impossible but the CCC's have done it and it can be negotiated easily in an automobile.

The clearing of the dead timber and rubbish in Rowan County's forests will be started within a short time. The government has already enlisted an elaborate campaign that is preventing the loss of our timber and forest beauty through fire.

Rowan County is on the threshold of recognition as one of the state's beauty spots, with the completion of the huge Cumberland Park.

THE AMERICAN LEGION

The American Legion annual state convention will be held in Ashland, with the business sessions beginning Monday. The Legion's large membership and the character and influence for active participation in affairs of its members make it an organization of great opportunity for usefulness. The purpose of the American Legion is to keep alive the comradeship that was born during the days of service to the nation in the World War and to perpetuate the principles for which the United States raised the largest armed force in the history of the republic.

The American Legion has a number of very definite objectives. It believes in preparedness for national defense. To stamp those who know from first hand and experienced the hazards and privations the war occasioned as militarists, is unfair. They know the useless and needless risks of life that were made due to the inadequacy of the nation's preparation prior to the last war. They can intelligently express the opinions of those who have known what it means to wear the uniform of their country in time of war.

The American Legion also is interested in the care and treatment accorded to World War veterans. No one doubts or questions the responsibility of the government in all cases of service connected disability.

The American Legion also emphasizes the duties and responsibilities of citizenship. In many Kentucky communities the American Legion is the outstanding civic organization and agency which brings together the men of the community for progressive activities of various kinds. In other communities other organizations that already have been set up make it unnecessary for the Legion to undertake any such effort. However, the individual members of the Legion at an active age in life are among the leading citizens of their community.

With these objectives of the Legion in mind, interest will attach to the gathering at Ashland which brings together those sons of Kentucky who followed the flag during the War.—The Lexington Herald.

Kentucky Farm News

FROM UNIVERSITY OF KY. EXPERIMENT STATION

May Complete the Measuring of AAA Land This Month

The measuring of tobacco, corn and cotton acres on farms under AAA contracts is going forward through the state and may be completed this month, according to the State Compliance Office at the Agricultural Experiment Station at Lexington.

The compliance work is being speeded up by the cooperative action of tobacco control committees, corn and cotton acreage on farms under AAA contracts is going forward through the state and may be completed this month, according to the State Compliance Office at the Agricultural Experiment Station at Lexington.

This cooperation on the part of the committees handling the various phases of the agricultural adjustment program in the state is highly praised by O. M. Farrington, State Compliance Officer. Not only has their joint action speeded up the work but also has materially reduced the cost of administering the program, he said.

Eighty thousand contracts were signed in the state covering 85,000 farms growing burley, dark colored or dark fire-cured tobacco, and 25,000 Kentucky farms are under corn-hog contracts, 4,500 farms under wheat contracts and 300 farms under cotton contracts.

College's State Fair Exhibit

To Show Lower Cost Economical production will be featured in the exhibits of the College of Agriculture, University of Kentucky, at the Kentucky State Fair this year.

The dairy part of the exhibit, for instance, will show that one good cow is better than two poor producing cows. This exhibit will be based on the actual records of two Kentucky herds one of which had twice as many cows as the other. The smaller herd, however, made more profit than the larger one.

Other Parts of the College's Exhibit Will Include the Control of the Mexican Bean Beetle, the Construction of Modern Ventilating Systems for Tobacco Barns, the Curing of Meats, and the Encouragement of Pasture Production.

The exhibit will be in the Grandstand building, and will be in charge of L. C. Brewer.

Ag Graduates Become Teachers

Graduates of the College of Agriculture, University of Kentucky, who have recently accepted positions as teachers of agriculture are: Earl W. Walton, Pendleton county; [unclear] school; Maurice C. Coppock, Campbellville; Horace Nicholson, Perry, Harrison county; Floyd Cox, Marrowbone, Cumberland county; Leslie McGee, Mayes, Owen county; and H. L. Kopenhaver, Parkville.

Farm Mortgage Law Extends Time for Adjustment of Debt

Farmers who are finding it difficult to meet the terms of mortgages may obtain a measure of relief by applying to the Federal Court in accordance with provisions of the Frazier-Lomke bill enacted by the last Congress, according to C. J. Bradley of the College of Agriculture, University of Kentucky.

Unless the creditors object when a farmer makes such a request, the farmer's holdings are appraised and a plan is initiated whereby over a period of five years the farmer remains in possession of the farm by the payment of 15 per cent of the appraised value of the farm plus one per cent interest annually. The farmer also pays the taxes. At the end of the sixth year he may repurchase the farm by paying the remaining 5 per cent of the appraised value. If a creditor objects to this procedure, then the court must stay proceedings for five years, and the

farmer, under the control of the court, retains possession of all or any part of the farm, for which he pays an annual rental. At the end of five years the farmer has the privilege of repurchasing the land.

In either procedure, Mr. Bradley points out that the rights of creditors are further protected by the fact that the court as trustee may order the sale of the property at any time upon the failure of the debtor to comply with the requirements of the law.

The Main Purpose of the New Law is to Give Farmers Further Time to Adjust their Debts, Banks, Insurance Companies and Other Mortgage Holders are Relieved of the Necessity of Foreclosing in Order to Protect their Rights, for, although the Farmer is Granted More Time, the Mortgage Holder is Fully Assured that During This Time his Rights will be Adequately Looked After.

Cooperative Living to Reduce College Costs for 4-H Girls

Arrangements are being made whereby 4-H club girls may live cooperatively in order to reduce their expenses at the University of Kentucky. A house to accommodate 20 girls has been leased at a low cost per person, and the girls will obtain much of their food from home, do their own cooking, house work and laundering, and even buy their college supplies cooperatively.

The committee arranging the cooperative living plan points out that girls not only will save materially in their cost of living for a college education, but also will obtain valuable training in housekeeping and home management.

Household duties will be so divided that each girl will do an equal amount of work. Credit at retail prices will be given for food sent from home. Thus, each girl's expense for board will be the difference between the value of the food she furnishes and the cash rate.

Many club girls have been canning fruits, vegetables and meats in their clubs projects and will draw on these supplies to help provide for the cooperative table while in college. The girls also will make their own clothes, since many of them have had clothing-making work in their 4-H clubs.

It also is expected that the girls will obtain from their homes their bedding and much of the furnishings for the cooperative house.

This is said to be the first 4-H club girls' cooperative project of its kind in the United States, and those sponsoring it believe it will provide a new vehicle for many worthy aims, may obtain a college education.

Fall Good Time to Sow Alfalfa

August is perhaps the best time for sowing a field in alfalfa for the first time. Dr. E. N. Fergus at the Agricultural Experiment Station at Lexington says that seedlings made then seem to be more generally successful than spring seedlings.

Even on soils that have previously grown alfalfa, August seedlings have one distinct advantage; that is, they may be made on a perfectly prepared seed bed. For this reason, stands are likely to be uniform and relatively free from weeds.

Good seed of a strain or variety

suited to Kentucky should be used. The use of adapted seed is important. Dr. Ferguson recommends Grim, Hardigan, Ontario variegated and Cosmack.

A clover and grass seed drill gives the best seeding results, distributing them evenly and in such a way that all of it should germinate. Perhaps the next best method is broadcast seeding after a cultipacker. Or the seed may be broadcast after a drag harrow. It is usually advisable to broadcast the seed broadcastly after a broadcast seeder.

When drilled, 10 to 12 pounds of seed to the acre is sufficient; if broadcast, 15 pounds should be used.

Says Chickens May Be Prevented

Chickens may be prevented to a large degree through clean, sanitary surroundings and use of chicken vaccines, says Dr. F. E. Hull of the Experiment Station, University of Kentucky.

Poultry houses should be dry, well ventilated and lighted, and the birds should not be crowded. New birds should be kept apart from the flock for two weeks. Shipping crates should be cleaned and disinfected. Healthy, vigorous flocks kept in sanitary surroundings are apt to have chickens that resist the disease better and respond more quickly to treatment.

Birds that are in good condition, free from coccidiosis and worms and less than 12 weeks old are most likely to be immediately benefited by vaccination. Persons handling the vaccine should not handle the poultry as the infection may be generalized. Pallets should be on the range for 30 days before vaccination and should not be housed for at least 30 days afterwards. The entire flock should be treated at the same time, and a veterinarian will be able to supply the vaccine.

Further information regarding the diseases of chickens and poultry parasites may be obtained from Circulars 244 and 265, obtainable by writing to the Kentucky Experiment Station at Lexington.

The Farm and Home

(Kentucky Agricultural Experiment Station.)

Limbic neck in chickens is caused by eating diseased flesh or vegetables or poison of any kind. The symptom is paralysis of neck muscles. As a preventive, burn and bury all dead birds and animals. Four or five drops of turpentine given in a tablespoonful of castor oil to each sick bird will cure most cases if treated in time.

Cottage cheese is a rather perishable product and, therefore, should be made often and eaten while fresh. If it is desired to keep it for a short while, place it in a clean, scalded glass or earthenware vessel, cover, and keep in as cool a place as possible without freezing.

In buying garments, women should consider the cost of upkeep. Will the material launder? Are the style and trimmings such that it will not be a problem to launder? If it must be dry cleaned, will it soil quickly and are there places that will add to the cost? Will it respond to sponging and pressing at home, or must it be dry cleaned often?

In canning, select only firm, tender vegetables and fruits that are in their prime. Well-matured vegetables are often hard and stringy, while small, immature ones lack flavor and firmness. In canning vegetables immediately after they are gathered.

THE HOUSEHOLD CORNER

The Punch Bowl Returns

by Jane Rogers

NOW that repal is here, what do we do? Over and over again the question is being asked and now we are in process of discovering the answer. The whole of the answer is not yet clear, but one thing becomes increasingly certain. We are seeing a rapid revival of the punch bowl this summer.

A punch bowl was practically indispensable to the pre-Volstead generation when large numbers of guests were to be entertained, and it is going to prove even more indispensable in the present generation. Teas, wines and liquors.

Fish Punch

1 pound of sugar
1/2 pint of lemon juice
1/2 pint of orange juice
1 pint of cold water
Mix all together until the sugar is dissolved. Add one pint of sugar water, one pint of charged water and one cup of chopped fruit. Place a large lump of ice in the punch bowl and pour the punch over it. Stir, straining thoroughly.

Dulinary Jingles

by Virginia Gibson.

When lovely woman stoops to folly,
Recounts some tale that company
admires
What shall we call her melancholy
At having nothing for her brains?
(With apologies to Mr. Goldsmith)

Hot Sandwiches.

THE term sandwich almost always brings to our mind a vision of hot large numbers of bread with some kind of a filling. A large number of hot sandwiches made with delicious sandwiches or may be served as party refreshments.

These, of course, be made from one of the delicious quick breads which are so easily and satisfactorily made with self-rising

Soften the cream cheese with the mixer. Add the confectioner's sugar, one cup at a time, blending after each addition. Then add the chocolate and salt and beat until smooth.

Soften the cream cheese with the mixer. Add the confectioner's sugar, one cup at a time, blending after each addition. Then add the chocolate and salt and beat until smooth.

Delicious Cup Cakes

And here is the way to make delicious cup cakes. Cream one-half cup butter and one cup sugar, and add two well-beaten eggs. Sift together one and three-quarters cups flour and three teaspoons baking powder, and add alternately with three-fourths cup syrup from canned pineapple. Bake in tiny buttered muffin tins at 375 degrees for fifteen minutes.

BIDS ON BUS ROUTES

At a regular meeting of the County Board of Education, held in Morehead, Ky., August 8, 1934, all bids for the following school bus routes were rejected and the County Superintendent ordered to re-advertise same:

Route from intersection of Sharkey road on Allie Young Highway to Morehead Consolidated School and return carrying all students eligible for High School from these intervening points to the line of Morehead Consolidated School District.

Route from Ramey Ky., to Farmers School and return carrying all students there and intervening points to the line of the Farmers District that are eligible for High School.

School bus insurance will be required on accepted bids. The Board reserves the right to reject any or all bids.

Bids will be received by County Superintendent Roy E. Cornette up to September 3, 1934 at 10 a. m. ROY E. CORNETTE, County Superintendent.

State Legion Will Convene Monday

(Continued From Page One) The newly uniformed Legion Juniors will be received by County Superintendent Roy E. Cornette up to September 3, 1934 at 10 a. m. ROY E. CORNETTE, County Superintendent.

A beautiful 64-page souvenir program has been prepared. It will carry all the necessary history, news and pictures of Legion officials, descriptive material and interesting photographs of and concerning Ashland and vicinity.

Madeline Carter of Morehead, winner of the Ninth District State Pageant, will compete in the beauty contest which will be held at the Paramount Theater Tuesday afternoon.

School Will Open On September 3

(Continued From Page One) sus laws in the county, (2) acquaint the teachers and school with home conditions of the child, (3) ascertain the causes of irregular attendance and truancy and seek the elimination of these causes, and (4) secure enrollment of all children between 6 and 18 years of age, and keep a census of same. All the rural and consolidated teachers will be called together at Morehead Friday, August 31, for a Teachers' Conference, Mr. Cornette said.

KERA Starts Four Work Projects

(Continued From Page One) (him along political lines is involved, and occurred entirely inadvertently, and that from the very start of his administration he has adhered to the strictest policy of giving not the slightest attention to politics.

The Washington dispatch pointed out that if political issues are to be brought into the situation by the opponents of the Kentucky administration, the burden of proof will be placed on them to show how any discrimination has occurred. The dispatch said that the recent order about political activities being absolutely banned in relief administration is interpreted at Washington to be a direct challenge to Democratic opponents of Mr. Wilcox to offer proof of their charges.

Dream Leads to Body of Youth

(Continued From Page One) who arranged to send him to Four Mile, in Bell county, for treatment by Dr. Pearce Martin.

Ralph King, 7-year-old Knox county boy, mysteriously disappeared of what was diagnosed as hydrophobia, a dread wide-spread disease, according to county officials, by telephone that he would take the case and the patient will be sent to Bell county tomorrow. The court appointed the boy's father as next of kin and attendant during the treatment.

Flood Victims Are Given Aid

(Continued From Page One) damage caused by the high-water and the heavy winds throughout the rural and most remote sections of Rowan county unless one has visited in the stricken areas. Stories are continuing to come in from the communities where roads and other bridges have been made impassable, that families have not yet reported the need for roofing and food. The relief workers are planning to spend the night in the most isolated sections in order to have sufficient time to visit all the homes damaged and plan with the families for the immediate future.

National Representatives Here Garden seeds have been ordered by the Red Cross to be delivered in Morehead the first of the week. It is hoped that the families will plant these seeds at once to insure them of greens within the next few weeks. The University of Kentucky, through the Department of Agriculture, has been assisting Mr. Maurice Reddy, director of the whole disinfestation operation with the planting program. Families losing gardens in the flood who have no means of securing seeds for immediate use are being notified to call at the relief office the first of the week and get a package containing an assortment of the following: turnips, turnip greens, mustard and

kale. Many farmers in the lowlands especially are already breaking soil for this replanting. The local chapter is being assisted in its visiting and the distribution of supplies by two representatives of the National Headquarters of the Red Cross, Mrs. Dorris T. Shoemaker, director, and Miss Josephine Dawson, case worker. Mrs. Shoemaker states that she and Miss Dawson will be in the homes the greater part of the time but that volunteers will start 10 a. m.

continue to accept registrations in

the office at any hour. She asks that all families not having already registered do so at once as the registrations will likely be closed at an early date. Mrs. Shoemaker's office hours have been set from 8

MAN O' WAR POST TO ASK FOR STATE LEGION MEET

Man O'War Post No. 8 the American Legion Lexington, Kentucky with the 2nd largest membership in the State, has definitely announced that it will try to secure the 1935 State Legion Convention in its City. This Post has one of the finest Clubs in the State, with all the necessary facilities, such as dining

service, meeting rooms, card room for both Legion and Auxiliary, and said club is in the heart of the city. It also has one of the best dance floors in its City, around the walls of which are painted insignias of Divisional, Corps, Armies and other wartime outfits, the only arrangement of its kind in the entire State of Ky. Lexington has ample Hotel accommodations to handle a conven-

tion of this size satisfactorily and splendid transportation facilities with favorable rates to all. **American Official Is Received On Mission To Rome, Italy** An official welcome on behalf of Premier Mussolini and the Italian air service was extended at Rome to Clark Howell, who arrived from Naples on an aviation mission en-

fracted to him by President Roosevelt. Gen. Aldo Pellegrini, second in command of Gen. Italo Balbo's flight to Chicago, extended the greeting on behalf of the general staff for aviation. "It was a year ago today," General Pellegrini recalled, "when Marshal Balbo's squadron returned from America, where the kindness, courtesy and enthusiasm of the Ameri-

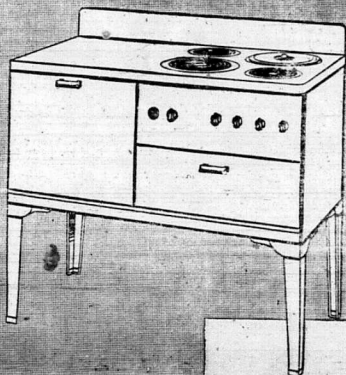

can people was engraved on the hearts of all our officers." General Pellegrini told Howell that all possible courtesies of the Italian air force would be extended to him during his tour of aviation study in Italy, which during the next month will include visits to the principal airports and factories, including probably military air manufacturing centers.

LOWER

ELECTRIC RATES

STEP

•The Kentucky Power & Light Company has reduced its rates from time to time in the past. This is another step in our usual policy of offering electric service to the public at lowest possible cost. Our aim will be always to continue this policy.

Now even the most modest home may enjoy the advantages of modern cookery—through the magic of electricity. For not only is this remarkably low 2-cent range step available to you, but you may also have a beautiful electric range installed in your home by making only a small cash/initial payment — balance on easy monthly terms.

MODERN IN EVERY RESPECT

An electric range contains features that cannot be duplicated by any other method of cooking. It is a truly modern cooking machine that applies pure electric heat directly to the cooking operation. You can taste the difference. In this respect, it is as different from all devices that use flaming fuel as night is from day. It gives the housewife the utmost in service, convenience, appearance, and economy. Measured by these requirements, today's electric ranges outclass every form of cooking the world has ever known . . . We extend to every home-maker a most cordial welcome to visit our showrooms and to learn the many advantages of modern electric cookery at the new low electric rates.

SPORT SPLURGES Eagles Open Season With Centre College

Carried in the sports columns of this issue is the release of the football card at the Morehead State Teachers College for this fall. The schedule appears about the same as usual, except that Centre is placed there as an opener. No hopes for victory are held by the Eagles in his game against the superior Colonel, but the Teachers are hoping to hold the score down as much as possible.

This year marks Morehead's first in the realm of football in the Southern Intercollegiate Athletic Association. Morehead was a full fledged member of the S.I.A.A. in basketball last season, but had not scored out their year of probation in football. The Eagles made a surprising showing in basketball in their first time out, but it can hardly be hoped they will do as well in football.

Captain Bill Scroggins, who will direct the destinies of the freshman football squad, is vacationing over in London, Ohio, by the way, and will not return until the 10th of September. Bill Scroggins, a former member of high school state out, this team, which will be a couple of three years be carrying the banner of the varsity in the campaign that promises greatness for Morehead on the gridiron in years to come.

The freshman team is expected to make a better showing this season than the varsity. Coach Downing does not have a great deal of material, and all of it is light and comparatively inexperienced.

Austin Riddle, mentor at the Morehead High School, will have plenty of worries with the opening of football practice and the beginning of a campaign in the Little Eight Conference. However, the prospects are mediocre in all Little Eight schools, and the coach that is able to get the most from little ought to win the conference championship.

The countenance of Frank Laughlin, former coach of Haldeman County, will be back in the line, only this time it will not be in the capacity as coach, but rather as principal. However, Frank is expected to help Larry Fraley with the coaching, and another good team for Haldeman is the prediction. It was only a couple of years ago that Frank was turning out winners that was making all the teams stand up and take notice, with a small but determined bunch of Haldeman lads.

The Paris Merchants, the team that stands at the top of the Kentucky State League comes to Morehead Sunday for a single game. A victory for the Pirates will put them on top of the league with half a game lead, while if Paris wins they will have a full game and half advantage on the rest of the field.

Terry, the right hander that has been setting them down every place will hurl for the visitors. Either Rhoades or McKenzie will be on the mound for Morehead.

The coaching reigns of nearly every school in this section have been changed around.

Eddie Blocker, formerly with Russell, will coach at Huntington, W. Va. High School.

Edwin Charles, who has done at the destinies of the De Harsh High School, has accepted a position as principal at Cold Springs, Ky.

Delbert Alkie, coach at Boyd County High, Camburg for several years, has resigned.

Dick Walters-Greenup, has moved from Greenup to a teaching job at Raeford. Edgar McNabb will continue as coach at Raeford High.

Charles Jurgenmeyer of Hitchens has moved over to McKel at Fullerton.

Roy Holbrook, Morehead, has bid adieu to the coaching profession, and will teach at Olive Hill. He will be succeeded here by Austin Riddle. Alkie Holbrook will remain as mentor at Allied, but Lawrence Fraley has moved to Haldeman.

Loop Leaders Here Sunday

The Morehead-Paris game for the top berth in the Kentucky State Baseball League occupies the top notch spot in Sunday's schedule, all games get away from double headers for awhile.

Sunday's games:

Morehead at Morehead

Mayville at Mt. Sterling

Flemingsburg at Vanceburg

Owingsville at Brooksville

All the games except the one at Morehead are comparatively unimportant, although there is considerable rivalry in some of them. Judging from the records to date, which is a mighty poor way of comparison, Morehead will win over Mt. Sterling. Flemingsburg looks slightly better than Vanceburg and Owingsville holds the edge on Brooksville.

Terry, ace of the Paris hurling staff will oppose Raymond Rhoades, who has won five and lost one for Morehead. Terry has been setting everything in the league on its ear, and if he is right Sunday, Paris should take the game. Morehead has a better hitting team, the figures show, and on paper are a much better ball club. However, Paris is a hustling club that has continued to win games all along which accounts for them being where they are now—the standings.

One of the largest Morehead crowds of the season is expected on the match.

Vanceburg is staking everything on beating Flemingsburg. Vanceburg has won three of their last five games and appear to be headed some place in the league. Flemingsburg may find more than they can handle over the Lewis County boys. Tom Hall's boys have not been going as good as expected in the last half, but they have a ball team that is going to be hard for any team to beat.

Brooksville has a fast right hander in Burke that may stop Owingsville. Sam Estill's lads are heavy favorites Brooksville won one of their two matches with Paris Sunday, and now that they are started may be a Waterloo to some aspiring clubs.

Since baseball first came to Kentucky, Mayville and Mt. Sterling have been diamond rivals. Mayville is another team that has failed to come through as well as at first thought but still have their eyes on the pennant.

Head Coach G. D. Downing announced this week that the Morehead State Teachers College Eagles were scheduled to begin football practice Monday, September 17, in preparation for the opening game of the season against the powerful Centre College Colonels, October 6, at Danville, Rio Grande, Union, Transylvania, Eastern and Eastern Tennessee Teachers complete the most difficult schedule this year. Eagle aggregation has been called on to play in the history of the school.

Coach Downing stated that prospects for a winning team had been dimmed by the loss of six lettermen who will be unable to return to school and Paul Combs, steller passing and running back for the past two seasons, who was graduated in June. Freshmen material of medium quality is available to fill the vacancies and Coach Downing hopes to mold a winning aggregation with the new men around Clayton, Morehead and Ryan, returning from last year's team.

The Centre Colonels are expected to enjoy a track meet at the expense of the light Eagles but Coach Downing said that he felt justified in playing a team of the Colonel's calibre in order to give his new men plenty of experience before they encounter Kentucky Intercollegiate Athletic Association competition in the form of Union, Transylvania and Eastern, which they play on successive Saturdays after the Rio Grande tilt.

The coach expressed the belief that the Eagles would be unable to cope with the Eastern College Maroons this season, but hoped that they would be able to hold the score low. Last year, Morehead lost to Eastern 6 to 0. Advance reports from Richmond indicate that the Maroons will have their best team in several years and their coach has scheduled the strongest teams possible.

For the rest, Coach Downing stated that the Eagles could be expected to win at least three of the four remaining games with Rio Grande, Union, Transylvania and Eastern Tennessee Teachers.

Last year, Morehead lost to the Tennessee Teachers 7 to 6 in a hard fought battle. Critics gave the Eagles over their yamness opponent, but failure to gain consistency in the ten yard zone cost them the game.

Union topped Morehead last year by an overwhelming score of 19 to 0, but the latter year's game with Rio Grande, Union, Transylvania and Eastern Tennessee Teachers.

Last year, Morehead lost to the Tennessee Teachers 7 to 6 in a hard fought battle. Critics gave the Eagles over their yamness opponent, but failure to gain consistency in the ten yard zone cost them the game.

Brooksville And Paris Split Two

Mayville and Flemingsburg divided a double-header in the Kentucky State League at Mayville, Sunday. Flemingsburg won the first game 10 to 8 and Mayville the second a seven-inning affair 4 to 1.

The first game was a free hitting affair with Mayville driving Wilson, the visitor's starting pitcher, from the mound in the first inning when they collected six runs and five hits after Flemingsburg batted in their first half. The visitors kept hammering away at Keatley, the local hurler, throughout the game to overcome the lead and go into the lead while Hock who relieved Wilson, checked the Mayville hitters.

In the first game Flemingsburg made 15 hits while Mayville made 11.

Vanceburg and Mt. Sterling Divide

The Vanceburg baseball team split a double-header at Mt. Sterling Sunday, winning the first 10 while Mt. Sterling took the night cap 7 to 5.

Paris Wins One, Loss One at Brooksville

Paris won the first game of a twin bill at Brooksville by a score of 10 to 6, but copped the final 4 to 0. Terry hurled the opener for Paris, while Burke took the second for Brooksville, holding Paris to three hits. Lancaster was the losing pitcher.

R marked the first time that Brooksville has scored in league play.

Two singles apiece until that time, Rhoades ran his string of scoreless innings to thirty-four before they made a run. He had previously hurled two shut-outs, and the last eight innings of the preceding game without allowing a run.

Sternberg and McFadden collected three hits each for Owingsville. Day had three for five for Morehead and Praley, Carter, Charles and Rhoades two each.

After one of the most perfect pitcher's battles that either Raymond Rhoades, or Feedback have engaged in, Edwin Charles, playing his last game for the Pirates, rapped out Morehead second hit, the afternoon with a home run that went over the center field fence.

In the sixth frame the Pirates set in on Feedback in earnest doing all their damage with two outs, Farley, leading off in the inning, singled, but Oxley and Staggs grounded out. Rhoades came through with a rap to center field. Day and Carter singled and Charles tripled. Charles scored on an overthrow. Feedback stayed on the mound retiring the side as Spence popped out.

In the seventh a double by Rhoades a single by Carter and a two-bagger for Day brought Feedback back from the box and left Morehead leading, 8 to 0.

Owingsville tallied their half of the seventh on Sternberg's triple and McFadden's single. The Bath Countians came back in the eighth to make six runs and chase Rhoades from the mound. Gilb, Sternberg, McFadden, Redden, and Golden singled and Ellington and pinch batsman Weaver tripled during the inning. "Red" McKenzie relieved Rhoades and did not allow a hit during the remainder of the game.

Morehead gathered two more runs in the ninth as Fraley walked, Day cracked out his third double and scored when Sternberg dropped Carter's fly to the outfield.

The Pirates made fourteen hits, which included a home run, triple, and four doubles. Owingsville had ten hits, three of them triples.

The game, billed as a probable pitcher's duel was just that for six innings, with the teams getting but

Head Coach G. D. Real Feature Is Presented by Cozy

A dizzy mélange of stars, beautiful girls, catchy tunes and gorgeous settings fill the screen of the Cozy Theater, August 22 and 23 when "Hollywood Party" attracts Goldenrod "Kiss" moviegoers. Foremost an excellent spread of entertainment.

"Hollywood Party" is a far-reaching, suspenseful political thriller set in the mansions of the aristocracy and Hollywood's palaces and is set in a hilarious story through which runs a romance. Thrills of escaped wild animals blended with the comedy antics of Laurel and Hardy, Jimmy Durante, Polly Moran, Charles Butterworth and others.

The rivalry between two "Juni" stars" each trying to cheat the other out of a cargo of lions; the appearance of Mickey Mouse, Walt Disney's cartoon, actually working with human players—these are a few of the striking novelties in the picture. The "Musical Wall," a great orchestra mounted on a perpendicular wall, the side-splitting "Reincarnation" of Jimmy Durante and other elaborate details, all for laughing purposes only, grace the different episodes of the fast-moving play.

Five numbers, interpolated into the picture as integral parts of the plot, include "Hello," sung by Jimmy Durante, Jack Pearl and dancing chorus; a duet sung by Durante and Polly Moran; "I've Had My Moments," a love duet with Jane Goddard and Eddie Quillan; Mickey Mouse and "Hot Chocolate Soldiers"; "Hollywood Party" and "I'm Feeling High."

A stellar aggregation scores in the picture, including Laurel and Hardy, Jimmy Durante, Charles Butterworth, Polly Moran, Jack Pearl, Frances Williams, Jane Goddard and Ted Holly and his stagecoaches.

Mr. and Mrs. Chas. Wagner of Logan, W. Va., were visiting friends in Morehead and Triplett, Sunday.

State Budget Is Released

(Continued from Page 1) amounts outstanding July 31, 1934, amounted to \$10,437,317.58. The additional amount shown was \$889,977.58, but still carried on the books of the state auditor as a liability.

The statement showed that the warrants issued against the balance on hand in the general expenditure fund as of July 31, 1934, were \$1,463,975.20, leaving a net deficit of \$14,980,702.25.

The statement showed that the warrants issued against the balance on hand in the general expenditure fund as of July 31, 1934, were \$1,463,975.20, leaving a net deficit of \$14,980,702.25.

The report shows that the maximum amount of appropriation to be paid from the General Expenditure Fund in the fiscal year ending June 30, 1935, is \$29,555, which necessitates a maximum income of an equal amount to balance the budget. Upon this basis, the maximum amount of...
