MOREHEAD, KENTUCKY, THURSDAY, AUG. 30, 1934.

NUMBER THIRTY-FIVE

ABOUT TO V.N. with The News

A Golden Spider

The small town of Bluestone, in Rowan county, is coming in for its share of publicity and visitors in the last few days, and it's all because of a spider that spins a golden web.

A spider made its home in an abandoned building and wove a web that is golden tinted. The web is several feet in circumference and the spider, a large one, is always found sitting in the middle of the web.

Old residents say it is the first golden spider seen in this country since McKinley went off the gold standard.

On Birthdays

Sometimes when ye editor seeks solitude, and thinks his road is hard and his load heavy he might find solace in the following little verse:

For landrests, the soapstone;
For architects, the cornerstone;
For cooks, the puddingstone;
For soldiers, the bloodstone;
For politicians, the blarneystone;
For borrowers, the tuncstone;
For stock-brokers, the curbstone;
For policemen, the pavingstone;
For shoemakers, the cobblestone;
For burglars, the keystone;
For tourists, the yellowstone;
For beauties, the peachstone;
For motorists, the milestone;
For lovers, the moonstone;
For pedestrians, the tombstone;
For editors, the grindstone.

The Heavens Filled

Many are the stories that come from the American Legion convention. Those who have attended an American Legion meeting can appreciate this one.

The telephone at Mayor Hager's home, in Ashland, rang Sunday night, and a ubiquitous woman's voice came over the wire.

"I wish you would have something done immediately about this 'twidnam and noise, I can't sleep a wink," the voice said.

"Well," said the Mayor, "The German's tried to stop it, and failed, so you know there's not a thing I or the police department can do."

The Petty Violators

Last week, during a trial in Judge Chas. E. Jennings court the defendant in no nice manner "cussed" one of the witnesses, much to chagrin of both the court and witness.

"That will cost you ten dollars and costs," Judge Jennings said.

The only place we feel that the court was wrong was not in making the fine bigger. For past few years because of our smaller courts have allowed the culprit, to "cuss" near talking charge.

Judge Jennings announces a campaign to rid the county of these continual nuisance makers who are round. More power to you, Judge.

CONFERENCE OPENS

The 114th annual state meeting of the M. E. Church, South, opened Tuesday night at Winchester.

OSTER LAW APPEAL FILED

Appeal from the ruling of the Franklin circuit court upholding the constitutionality of the oyster law authorizing the governor to dismiss officials at will, was filed with Frank Owens, clerk of the court of appeals this week by attorneys for Ben Johnson, chairman of the state highway commission.

Choral Club Broadcasts Over Two Largest Hookups At World's Fair

After a four day sojourn in Chicago, the members of the Foster Choral club and their party have returned to Kentucky with a very happy record of experience. Among the outstanding features of this trip was a broadcast over both national radio chains, presented a concert on Sunday evening, August 19, in the Court of the Hall of States at a Century of Progress Exposition, participated in the Chicago Music Festival, traveled over 850 miles, sang in four states and visited the exposition and toured the city of Chicago.

The broadcast over the Columbia System was given splendid publicity by Kentucky papers, and, as a consequence, we have many friends of the college, the chorus and its director throughout the country, the broadcast being over a national hook-up. The chorus thanks the kind efforts of Mr. Cedric Harris, manager of station WLAS, for the very splendid arrangement.

INITIAL PLANS IN HOME BUILDING ARE ANNOUNCED

Government to Lend Assistance through Housing Administration

APPLIES TO ALL OWNERS

The Federal Housing Administration this week issued its first information for publication on the building program, sponsored by the Government, and made possible through private credits devoted to housing and modernization. The first part to be covered by the bulletin now ready for distribution.

Briefly the Federal Housing Administration sets out the program and its benefits as follows:

The Federal Housing Program, sponsored by the United States Government under the National Housing Act, is everyone's program. No matter what your business, it will put money in your pocket if you accept the opportunity it presents.

Money spent for repairs, remodeling and property improvements increases the value of the property to the architect, supply dealer, contractor, realtor, painter, plumber, electrician, and every man with services or goods to sell. The benefits of the program will be felt by the entire community. Merchants in every business—furniture, carpets, department stores, hardware stores—every business and professional man will feel the effects of new money in circulation, re-employment and a pick-up in business generally. Substantial profits will come to everyone in the community where the program is made a success. You can share and speed recovery by doing your part.

A complete campaign organization will be set up in Morehead in the near future.

The only security the government asks on loans for improving your home is that you have an adequate regular income and a good credit record in your community. The term of the loans extend to three years, and the amount loaned from \$500 to \$2,000. No down payment is required. The interest paid cannot exceed five per cent on loans of one year or more.

KERA Projects To Start Soon

Projects scheduled to be started on Friday of the KERA approved were temporarily held up for lack of funds in the local office. The county's allotment of \$5,230 has been exhausted.

Local KERA officials hope to have the projects started Monday. They include the North Fork Road and the Big Perry Road giving part-time employment to 89 men.

The relief offices at Prestonburg, Floyd county, were ordered closed this week by Thornton Wilcox, state director, following a fire, said to be of incendiary origin which destroyed all relief records.

Mr. Wilcox said there appeared to be irregularities and graft in the Floyd office.

LOCAL OFFICERS TO SHARE IN \$150 REWARD

Sheriff Mort May and Deputy J. J. Caudill, are expected to share in the reward of \$150 offered for the capture of Harlan Pettit of Bath county. The Rowan county officers assisted Sheriff Walter Shroust and deputy in the capture of Pettit on Licking river in Bath county.

Pettit is charged with a number of felonies in Bath county. He recently escaped from the Owingsville jail, and Governor Laffoon ordered the state to offer the \$150 reward. Pettit has been taken to Winchester for safe keeping.

INFANTILE PARALYSIS IS DREADED IN BLUEGRASS

Infantile paralysis has spread of Kentucky until it is nearing the stage of an epidemic. Scott county, around Georgetown, where there are nine cases, appears to be the center of the paralysis. The state health department is taking steps to curb the spread of the disease, but so far there has been little let up.

Brown Cottrell, 24 year old barber of Georgetown, was stricken yesterday. He could not recall all the children's hair that he has cut, but all that he could, have been placed under quarantine. Cottrell was given the curative serum and responded well, according to attending doctors.

FOURTH GRADE BOOKS GIVEN

Instead of the predicted three grades, the state will buy textbooks for. Superintendent Richmond has authorized the purchase of reading, writing, arithmetic, and language books for the fourth grade.

FISCAL COURT MEETS FRIDAY

The Rowan County Fiscal Court will meet at the courthouse Friday, August 31. The question of road construction under the Kentucky Emergency Relief Administration will form the principal portion of the meeting.

The court is also expected to take up routine claims.

DUNK FISHER ARRESTED AT PARIS THIS MORNING

Dunk Fisher, formerly of the county, was captured at Paris this morning by the Bourbon county sheriff and will be transferred to Morehead tonight to answer a charge of shooting and wounding Linker Brown on North Fork last March.

Sheriff Mort May, learning of Fisher's being in Paris, went there with the warrant for his arrest Tuesday, but did not find him, although they located where he lived. The warrant was left in the Bourbon officer's hands and they placed Fisher under arrest.

Brown was seriously shot, and for a time it was thought that he would die.

REGISTRATIONS FOR RELIEF IN AREA INCREASE

815 Aids for Aid in Red Cross; Rebuilding of Homes to Begin This Week

OFFICERS ARE NAMED

Local registrations for relief have now reached 815 and it was announced by the Red Cross workers that Saturday will be the last day applications for help from the Red Cross will be received. Registrations usually close within a week or ten days following the date of the disaster, but because of the poor condition of the roads and bridges, the date was extended in this instance.

When a family receives Red Cross relief it is not in the form of cash, but instead, the family receives orders on its local merchant for whatever it has been awarded, so that the storekeeper will be helped.

at Possible Cost

Business men have all been instructed to forward their orders to Red Cross headquarters office, post office box 151, Ashland, where they will be filled.

(Continued On Page Four)

Pool Has Been Popular At School

In a report issued by Miss Ernestine Troemel, director of women's physical education at the Morehead State Teachers college, the activities and work carried on at the Senft Natatorium, new swimming pool has been set out.

The pool has been in operation for more than a year. More than 150 college students, the majority of them girls, have learned to swim in the elementary swimming classes. Swimming developed into the most popular sport of the summer and the beautiful new pool, without equal in Kentucky, has been the scene of considerable athletic activity.

The physical education departments offer elementary, intermediate and advanced swimming and advanced swimming and diving and Red Cross life saving courses. There were approximately 200 enrolled in these classes last term.

Christine Williams and Martha Hall were the first feminine aquatic artists to receive their Red Cross certificates, which qualifies them for life guards at pools and bathing beaches any place.

TRANSFERRED FOR KEEPING

Orie Tussey, brought here by officers from West Virginia, after his capture Saturday, was taken to the Lexington jail for safe keeping, Monday by county officers.

LABOR DAY MONDAY

It has been decreed that all should lay down the plow Monday in celebration of the annual nation-wide holiday Labor Day, which falls on the first Monday of September each year.

No celebration is planned for Morehead on this day. There will be a baseball game at Jayne Stadium at 2:30 p. m.

GOVERNMENT MAY SEND STRICKEN CATTLE HERE

Non here this week from the Agriculture Department in charge of the distribution of cattle from the stricken stricken area, said the Alto Carter of Christy Creek, who probably receive 250 head of cattle for wintering. The government ships these cattle out of the district region where there is not enough food to keep them alive, and pay one dollar per head each month carrying them through until spring.

Mr. Carter has approximately 1,000 head of cattle on what he put the cattle. The government ordinarily requires four acres of each head.

Rail Officials Ask For Higher Rates

The larger railroads of the country and the Interstate Commerce Commission this week announced an \$17,000,000 increase in the nation's freight bill. The proposed increase touches all manufactured products, every commodity and class of freight, major farm products, which are to be exempt from the increase and products of forest and mine.

The railroads cited general operating costs in their plea for the increase. The roads ask an increase of three cents per one hundred pounds on grain; 3 to 30 cents a ton on coal and 2 to 45 cents on coke; 10 per cent on cotton; 10 per cent on tobacco, with a maximum of 5 cents and other products in proportion.

BARBER SHOPS RAISE PRICES

Following a meeting of managers, the prices of haircuts, shampoos and plain massages were raised from 25 to 40 cents. Shops that announce the price jump are: Sanitar Barber Shop, Orville Martin Barber Shop, City Barber Shop, Park Barber Shop, and Davy Johnson's Barber Shop, and Davy Barber Shop. The prices went in effect Monday.

The barbers pointed out that the raise was in keeping with similar ones in all neighboring towns.

LEGISLATORS GET JOBS

Senator Thomas C. Ferguson, Smiths Grove, and Representative Rudy Ferguson, La Center, supporters of the sales tax, have been added to the State Tax Commission payroll as fixed agents at salaries of \$150 a month each, records in the Auditor's office disclosed this week.

Senator Ferguson formerly was liquidating agent for several Southern Kentucky banks. His son-in-law, Jesse Stone, is now liquidating agent for two Nelson county banks.

Weed Production Expansion Is Checked; Supply Meets Demand

In a review of the 1934 acreage and probable production, Prof. Dan G. Card of the markets department of the College of Agriculture, University of Kentucky, says that the Agricultural Adjustments Administration and lower prices last year apparently have checked the upward trend in burley tobacco production, but that there probably will be a plentiful supply of tobacco for next year.

Burley acreage this year is estimated at 30 per cent under that of 1933 and 25 per cent under that of the last five years. However, production in each of those years was more than consumption and a decline of 30 per cent in acreage promises to leave enough land to produce about 280,000,000 pounds, which Professor Card says is about equal to the annual disappearance in recent years.

Professor Card also points out that stocks of burley in the hands of dealers and manufacturers on April 1 this year were the largest on record and were nearly 40 per cent larger than the average of the last five years. He says that total supplies of burley tobacco this fall will be no smaller than those of last year, even though the current crop is about 100,000,000 pounds smaller. If a smaller crop than an opportunity would be afforded to use up a part of the existing heavy stocks, he adds.

Stocks of flue-cured tobacco, which is a competitor of burley, are higher than last year and slightly higher than the five-year average, but production this year promises to be 200,000,000 pounds less than in 1933 and 400,000,000 pounds less than the disappearance last year, as well as below the average disappearance of the last five years. Total supplies of this type are about 100,000,000 pounds less than they were at this time a year ago.

GRIE TUSSEY IS RETURNED HERE BY DETECTIVES

Fugitive is Captured Saturday in West Virginia at Home of Sister

FACES FOUR CHARGES

Orie Tussey, 25 years old, wanted in connection with an alleged gang of thieves who operated out of Rowan county and in all sections of Eastern Kentucky, was arrested at the head of Mud River, Lincoln County, W. Va., at the home of his sister, Ethel Adkins, by Chesapeake and Ohio Railway detectives and West Virginia officers Saturday.

Tussey is under indictment in this county on the separate charges of stealing from a common carrier. Officers said he was implicated in the robbery of a Carter County post office and assault on the postmaster who was badly beaten and robbed. A charge of escaping lawful custody may be placed against him, if he ever stands trial in Carter county.

The entire gang of four were cleaned up about five months ago with Rowan constables making the capture, following the attack on the Carter county postmaster. They were taken to Grayson to stand trial. As the officers reached the jail three women drove up in a car, and jumped out. It is alleged that Mrs. Tussey drew a gun and started shooting, hitting the jailer in the finger. The women and men, except Tussey, were captured at the jail.

SEEING AMERICA

Several filling station operators, and people in a position to know, have been asked if traffic of U. S. Highway 6 through Morehead has increased this year over last. With the exception the answer has been yes, and in nine of ten places that depend on their transient trade, say that their 1934 sales have been better than the previous years.

There are many explanations, but most of them lead to the government. In the first place money is more plentiful and times are better than they were a year ago. The government is behind the recovery program, and although there may be many who feel that the Democratic Administration has done little on the road to better times, there are many more who know that business has improved.

Tourists this year have been attracted to the advantages of seeing America first. A huge governmental drive towards national parks, game preserves and advertising of America's vacationing advantages, has put more tourists on the road.

The World's Fair at Chicago continues to bring in thousands from all parts of the country. The Century of Progress is now assured of two years of success.

Railroads report a forty per cent pick-up in the number of passengers riding trains. No doubt, the bus lines are doing better than last year.

It is all sure indications that good sound business is returning.

A DEMOCRATIC VICTORY

The landslide in the August Primary for Fred M. Vinson was not only a victory for the distinguished Kentucky Congressman but a deadening blow to the Republicans who hoped for Vinson's demise, believing their nominee might win against William J. Fields, whose political career was blasted when he took the Governor's seat, where the political highlight of the state takes its toll of men who might be great.

In a district that is decided Democratic, the Republican campaign has failed this fall. The Ashland Congressman cannot be

defeated. Vinson said little and got much. The vote would have shown a landslide for Vinson, no matter what kind of a campaign his opponents preferred or what man they put up for opposition.

It is a Vinson year, and another victory for the New Dealers. The election also spelled the finish to the ambitions of a former governor, just as it did in the Tenth District, where Ex-Governor Morrow was defeated.

FAIR RATES ESSENTIAL

The stock fire insurance industry takes justifiable pride in the fact that its rates have been steadily descending during many years past, even while all costs were rising and when it was consistently improving its services to the public. However, spokesmen for the industry warn against attempts to force rates down too fast.

The greatest assets a fire insurance company can have are stability, safety, permanence. Those are what the policyholder buys when he obtains a policy. No sensible man would imperil these assets at a saving of a few cents on the hundred dollars of risk. And it is a fact that the stock fire insurance industry has not been able to generally earn fair underwriting profit for a long time. Its main return has come from its investments, not from the operation of the business of underwriting. But every business is entitled to a fair operating profit separate and apart from earnings, from reserves which it maintains to preserve its financial strength unimpaired.

Stock fire insurance has a magnificent record. It will make further attempts to reduce rates, and citizens can aid by helping to prevent fires—in the long run, premium rates are determined by the fire loss in the community. But un-economic rate decreases, which arbitrarily force companies to do business at an operating loss, are inimical to the public interest.

The last legislature passed one bill that Senator Allie W. Young has always favored and fought for. It was the one which consolidates the office of jailer and sheriff in Kentucky's 120 counties.

This law will prove to the Fiscal Courts, already in dire circumstances in most counties, to be more of a help than any that a recent legislature has enacted.

BANDIT ROBS FILLING STATION OF \$575

After knocking Mrs. Merton Patterson unconscious, a well-dressed bandit Monday robbed the Woodlawn gas station, 10 miles west of London of \$575 and sped north in an automobile on highway 25. Merton Patterson, proprietor of the camp, who had been in London,

NEWS FLASHES OF INTEREST

Daniel Boone Celebration To Begin Labor Day

Arrangements have been practically completed by the Daniel Boone Bicentennial Commission for the biggest celebration of the bi-centennial observance in Kentucky, to be held at Booneboro on Labor Day and climaxed a series of events already held this year in commemoration of the Kentucky pioneer's 200th birthday.

The observance will conclude with a national celebration on November 2, the anniversary of the birth of Boone, and 33 governors of the union have signified their intent in participating in the national program under the auspices of the Kentucky commission.

Although heralded as a "homecoming" for Kentuckians, the Booneboro celebration will have as guests of honor distinguished citizens from many other states, notable the states contiguous with Boone's career. An old-fashioned picnic with basket lunches spread beneath the oaks at Booneboro will be a feature of the outdoor affair and it is probable that some of the stirring episodes of the pioneer history will be re-enacted by the younger generation as part of the entertainment.

Million Cotton Workers To Go on Str. Sept. 4

Secret instructions for a general walkout in the cotton textile industry on September 4 have been sent to sectional chairmen by the national strike committee of the United Textile Workers.

The order, which will be announced officially this week, will affect nearly 500,000 cotton mill workers. An additional 300,000 they said may subsequently be added from the mills in the silk, rayon and woolen industries.

Attempt Quiet Election In Louisiana Political Battle

The citizens who have stood in between the Long and Walmisley factions are expected to take a hand in the proceedings in Louisiana.

Forming a "determined but peaceful" group, 100 leading men in the community, prominent in social, civic and professional affairs, but who ordinarily take no prominent part in politics, called their fellow citizens to join with them in preserving orderly procedure at the polls during the Long and Walmisley factions go to the mat in the congressional primary on September 11.

Black Spider and Large Scorpion In Battle to Death

A black spider and a large scorpion are fighting in California a battle of death with the web of the spider gradually ensnaring the knife-like pincers of the scorpion.

Four days ago the spider encountered his prey in the dimly lighted corner of a garage. Instead of the deadly venom which it carries, the spider resorted to its web to ensnare its enemy. The scorpion, also a carrier of poison, fought back with its pincers.

As the hours passed, the battle resolved itself into something akin to a gully-bound in filipitum struggle. A steady stream of spectators was crowded into the garage to watch the fight.

Conserving its energy, the spider works in regular shifts, going out to do battle every few hours and then retiring for an equal length of time to gain new strength.

BLACK-DRAUGHT

"Such a Good Laxative," Says Nurse
Writing from her home in Feby, Mo., Mrs. Anna L. LaFayette says: "I am a practical nurse and I recommend to some of my patients that they use Black-Draught. It is such a good laxative. I took it for constipation, headache and a dull feeling that I had so decided a few doses of Black-Draught—and I felt just fine."
Beware of cheap imitations. Black-Draught is a real, pure vegetable, millions of packages, of its use every day.

Bank Deposits Are Increased Since Last Year

Deposits in the state banks of Kentucky increased \$12,352,420 within the last year, advancing from a total of \$144,328,272.72 on June 30, 1933 to \$156,680,692.74 as of last June. It is revealed in a composite statement reflecting condition of the state banking department, and given out by the Banking Commissioner James R. Dorman.

While deposits were showing an increase banks reduced their loans. Total loans and discounts of state banks totalled \$120,138,738.00 at the end of the fiscal year June 30, 1934, contrasted with \$135,177,720.00 one year ago.

Yet another indication of improved conditions in state banks is revealed in the fact that they now hold more than their assets. United States government bonds worth \$20,221,196.41 as compared with \$10,000,000.00 one year ago. Government securities worth \$12,521,911.50 one year ago. \$15 payable of redemptions, which represent money borrowed from other banks, decreased within the year \$5,939,416.85, being reduced to banks paid off their obligations which last year totalled \$6,531,937.96 last year. Overdrafts totalled \$50,047.78 less this year than last having been reduced from \$177,639.83 to \$1,584.31.

and part of the state banking system is now improved over that of a year ago," said Banking Commissioner James R. Dorman. This is construed by the Banking Commissioner as reflecting great improvement in general business conditions as well as the restoration of confidence among the people. Much hoarded money has been returned to the banks, he is opinion.

"In addition to the considerable increase in bank deposits it will be noted that the people who have hoarded money from state banks have reduced their indebtedness to the banks by a sum greater than the increase in deposits," Mr. Dorman pointed out. "The effect of this is to increase liquidity of the banks, which together with the strengthening of capital structure that has taken place in the year, has brought about a highly stable and secure banking condition. The improvement that has taken place within the year has been remarkable and is very gratifying," the Banking Commissioner said.

Total resources of banks under supervision of the state department have increased \$7,834,565.18, rising to \$229,412,470.67 this year as compared with \$221,577,905.49 last year. The condensed statement was compiled from statements of 38 banks submitted as of June 30.

Men, Said to Be Friends

Shoot Each Other Sunday
A roadhouse on the Pikeville-Williamson highway at Toler, Ky., 27 miles northeast of Pikeville, was the scene of a gun battle Sunday in which Joe Fleming, 27, an employe there, and Stallard Dye, 28-year-old Pikeville mechanic were shot to death.

Investigating officers were unable to learn the cause of the shooting. The two men, said by acquaintances to have been good friends, had planned to go to Pikeville together.

Fleming was unmarried, and Dye was estranged from his wife.

What Your Kidneys Do

What you ever have thought about your kidneys, and yet—
These kidneys keep you alive. People have lived without kidneys, but if your kidneys quit work you would die quickly of the poison and impurities that must constantly take out of your system. This is the great work your kidneys do. It filters the blood, with some help from the stomach, and keeps this great work. It is to be done regularly and thoroughly, or your body will not purify itself of these poisons, or toxins, if must have help.

Thousands in America have found in Cray Water Crystals a simple, natural way to get this help—victims of self-sore, aching joints and muscles; of constantly upset stomachs; of headaches and headaches, and the many other common disorders that are often result when the body fails to eliminate these impurities as it should. They have found in Cray Water Crystals this help in the form of a cleansing, purifying mineral water—which they can make at home for just a few cents a gallon.

The help must be something more than just moving the bowels. It must clean the system—not just the digestive tract. Drinking this mineral water increases "elimination"—helps this purifying process—through the kidneys, as well as the bowels. With the ease of the trouble corrected, soon Nature has a chance to get rid of the man.

Cray Water Crystals are not some human being's idea of how this purifying ought to be done. Old Mother Nature, who knows the life-giving substance and the fresh pure water, has provided these minerals in her own laboratories on the earth. Cray Water Crystals are simple minerals, obtained from this natural mineral water, filtered in a way that is different from any other water crystals. They will not only help you, but they will help your family, by doing what Nature has intended. They are not a medicine, or a drug, or a chemical, or a "miracle" of any kind. They are simply the natural minerals and ions of the earth, which are the same as the minerals that are in the water of the world.

CRAY WATER CRYSTALS
They will not only help you, but they will help your family, by doing what Nature has intended. They are not a medicine, or a drug, or a chemical, or a "miracle" of any kind. They are simply the natural minerals and ions of the earth, which are the same as the minerals that are in the water of the world.

were visiting Mr. Earl Withrow, Sunday.

COAL BIDS

Sealed bids for coal at schools in Rowan county for the below named schools will be received at the office of the County Superintendent of

Schools in Morehead. Coal must be larger than egg size with no slack or slate and must be delivered. Bids will be accepted for serving coal to the following schools: Clearfield, Dry Creek, Gayheart, Haldeman, Farmers, Blue Stone, Razor, Copewell, Bradley, Seas Branch, Openwood, Old House Creek, Rothburn,

Moore's, Little Perry, and Morehead. Bids are received on the price per ton.

The Board reserves the right to reject any and all bids. All bids must be in by Sept. 3.

Roy E. Cornette
Supt. Rowan Co. Schools.

The Kentucky Power & Light Company has reduced its rates from time to time in the past. This is another step in our usual policy of offering electric service to the public at lowest possible cost. Our aim will be always to continue this policy.

Announcing a 2¢ RANGE STEP!

Electric Cooking at Lowest Possible Cost

ANOTHER great event in the lives of the thrifty folk of this community!

Electricity has removed the preparation of food from an uncertain art to an exact science.

Now these new low rates also switch electric cookery from what *has been* considered a luxury — to a downright necessity for thrift and common-sense economy.

Mark well these advantages of electric cookery over any other method:

- MODERNITY
- CLEANLINESS
- HEALTHFULNESS
- ECONOMY
- COOLNESS
- SIMPLICITY
- CONVENIENCE
- ACCURACY
- SPEED .. SAFETY

Above all, you can taste the difference.

Hand in hand with this announcement of the new 2c range step comes the news that you may now enjoy the advantages of a modern electric range in your home for only a small cash initial payment—balance on easy monthly terms.

Please come to our showrooms soon — and inspect the newest models now on display.

Choral Broadcasts On Two Networks

(Continued From Page One)

In a letter this week to Prof. L. H. Horton, director of the Foster Choral club, Mr. Joel Jacy, who is the Exposition's Supervisor of Musical Events, says, "We have endeavored to maintain a high standard of performance in all our musical events, and comments from many sources show that the public is delighted with the music of the 1934 World's Fair. It is a real pleasure, therefore, to assure you that your program helped us materially to establish this good reputation."

The broadcast on Tuesday afternoon over a hook-up of the National Broadcasting company, was heard by not few Morehead people from all reports.

SMILE NEWS

Mr. and Mrs. Warner Reeves and children and Mr. Emmett Reeves of Glendale, Ohio, visited relatives here last week.

Mr. Cecil Fryman and three daughters of Mt. Healthy, Ohio, visited his parents, Mr. and Mrs. Geo. Peiffer, over the week end and attended the Association at Waltz.

Mr. and Mrs. Harve Mabry and children of Ohio, visited Mr. and Mrs. Chas. Egan, and Mrs. Dorothy Hanzel last week, and attended the Association at Waltz, Saturday and Sunday.

Mr. and Mrs. Russell Fryman and children of Newtown, Ohio, visited his parents here last week.

Miss Lillian Harris and three daughters of Muncie, Ind., visited friends and relatives here last week.

Miss Quincy Redmond returned to her work in Flemingsburg, Monday after a week's visit with her parents here.

Mr. and Mrs. Wilford Fennell and baby of West Virginia visited his parents, Mr. and Mrs. J. C. Peiffer, over the week end.

WEST MOREHEAD NEWS

Mr. and Mrs. Wallace Keeton, Mr. and Mrs. Howard Ferguson, Mr. and Mrs. George Steele, all attended a meeting in Fleming county Sunday. A large crowd was there and a basket dinner was served, and being enjoyed by Mrs. Keeton's old friends and relatives, they had a good time.

Mr. Morton Lane of Morgan Fork, who was operated on a few days ago in a Huntington hospital is getting along nicely and will be home in a few days.

Mr. and Mrs. Frank Maxey and family of Swift Addition were in Owingsville Saturday night shopping.

Mrs. Dalph Giljam spent the week end with friends and relatives in Morgan county.

Mr. Frank Steele of West Liberty is visiting his brother, Mr. S. S. Steele.

Mr. Frank Maxey is spending his vacation on the river fishing and hunting. He was accompanied by his father, Mr. O. A. Maxey and his brother, Mr. Sherman Maxey of Clearfield.

Miss Fannie J. Egan of Clearfield was the guest of Miss Frances McGuire of West Morehead, Tuesday afternoon.

Marriage Licenses

Marriage licenses were issued by County Clerk Vernon Alfrey during the past week as follows: Vincell Holbrook, 23, single, farmer, and Alma Barker 17 single both of Soldier Ky.

Bett Salyers 22, single, brick yard worker and Ester Evans 21, single, both of Soldier, Ky.

Jim S. Daulty 23, single farmer, and Lottie Cooper, 23, single, both of Waltz Ky.

Earl Caskey, 21, single, chauffeur, and Reba Fouch, 21, single, both of Morehead.

Louana Shepherd, 25, single, sand plant worker, of Enterprise, Ky., and Edith Thelma Estep, 16, single, of Triplett, Ky.

Harold A. Burton, 22, single, laborer, of New London, Wis., and Elizabeth Winkelman, 22, single, of Wyatt, Ky.

LEGAL NOTICE

This advertisement, under Section 2072 of the Kentucky Statutes Statutes (Carroll's Edition, 1916 and 1929), as amended by the Act of the General Assembly of Kentucky, Chapter 70 of the Acts of 1922, approved March 23, 1922, is to comply with the law and set forth the following: On the 10th day of January, 1930, by commitment order of the County Court (Juvenile Session) of Rowan County, Kentucky, an infant named both Oliver, of female sex, and five (5) years of age, was committed to said Society as a neglected and dependent child, and said Society will, in conformity with said Section as amended, proceed in due course of law to adopt and consummate the adoption of said infant by an adopter and accord to such Adopter the parental control of the infant. This advertisement is inserted and published once a week for four weeks in the Rowan County News, a newspaper published in Rowan County, Kentucky, and the newspaper prescribed by said Section as amended.

CHILDREN'S HOME SOCIETY

T. R. Ewing, President.

BIDS ON BUS ROUTES

At a regular meeting of the County Board of Education, held at Morehead, Ky., August 6, 1934, bids for the following school bus routes were rejected and the County Superintendent ordered to re-advertise same:

Route from intersection of Shar-

key road on Allie Young Highway to Morehead Consolidated School and return carrying all students eligible for High School from these and intervening points to the line of the Morehead Consolidated School District.

Route from Ramey Ky., to Farmers School and return carrying all students there and intervening points to the line of the Farmers District that are eligible for High School.

School bus insurance will be required on accepted bids.

The Board reserves the right to reject any or all bids.

Bids will be received by County Superintendent Roy E. Cornette up to September 3, 1934 at 10 a. m.

ROY E. CORNETTE, County Superintendent.

NOTICE OF BIDS

Sealed bids will be received by the Rowan County Board of Education on or before September 3, 1934, for wood to be furnished in the following schools as fuel:

Holly, Clark, Wes Co.; Craney, Slab Camp, Lower Lick Fork, Oak Grove, Clarity, Pine Grove, Waltz, Carey, Three Lick, Roseade, Sharkey, Bratton Branch, Upper Lick Fork, Ramey, Haldeman, Bull Fork, Alfrey, Mr. Hope, McKenzie, Sand Gap, Foglar Grove, Minor, Little Brashy, Big Brashy, Johnson, Ponds, Lick, Cranston, Clear Fork, Rock Fork, Island Fork, Adams Davis.

This wood must be delivered at the school. It must be good sound wood and of the proper length for use in the stoves in each school.

ROY E. CORNETTE,

Registrations Are Increased In Area

(Continued From Page One)

will be paid from the general relief fund.

Those who expect to see big trucks full of relief supplies dashing about the country probably would be disappointed at the quiet way the Red Cross help is given. There is nothing "showy" about it. In each family comes in quietly, explains what it needs and receives help in a systematic, efficient manner.

Six barrels of garden seed have been received and are rapidly being distributed. They contain the following: turnips, turnip greens, mustard, kale and beans. One man certainly must be optimistic if they expected beans to mature this late in the season. He was told that the beans were being furnished by a very small cost to the Red Cross, and that experienced farmers in this section as well as the Agriculture Department of the University of Kentucky stated that if the first frost comes as late this year as it did last year that they would mature if planted in good soil immediately.

Where the family lost the ground on which to grow such a garden, it is planned to ask more fortunate neighbors to lend a garden plot for this fall planting.

The local chapter, headed by D. C. Caudill, is gratified at the response of the town people in offering their help in this country. The greatest handicap to the work, however, has been the shortage of transportation, which is preventing the workers from visiting the homes in the distant points of the county as quickly as usual. There have been several offers of automobiles, however, within the past day or two and visiting will go forward more promptly now.

Miss Helen Wade, area supervisor for the whole area, will spend one day in Morehead this week assisting the workers in the planning of general routine and advising in special problems of the cases.

Mrs. N. L. Wells, chapter secretary-treasurer, and Mrs. Joe Caudill, chairman of volunteer, are continuing to be responsible for registrations and are assisting with the relief in many other ways. Miss Lillian Harris, Mrs. Luther Clark and other volunteers are helping very greatly with filing of records. Miss Kathleen Eaton has been typical of other work in the other stricken

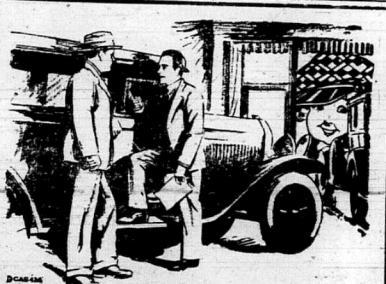

sections of the state has been divided into areas with the following trained workers in charge:

Area A: Mrs. Doris T. Shoemaker, Morehead; Area B: Miss Gertrude Smith, Olive Hill; Area C: Miss Phoebe Gregg, Grayson; Area D: Mrs. Wynne, Carter City; Area E: Miss Bess, Ashland; Area F: Miss Helen Hill, Gretna.

The rebuilding of homes and repairing of roofs and other damages will be commenced this week. While only 12 dwellings were completely demolished 732 were damaged. Some of these will require only minor repairs but others will require Red Cross aid in making the necessary large restorations.

Some of the losses reported to the Red Cross workers include 4,444 poultry, 11 bee colonies, 23 hogs, and only seven cattle. Total registration of families throughout the whole area has exceeded the initial estimates, having gone to 2,636 families, compared to original estimates of a probable 2,400 in all flooded counties.

Buy SAFETY WEEK

Buy Firestone

SAFEST TIRES IN THE WORLD!

PRICES REMARKABLY LOW!

Here's PROOF OF SAFETY

TWO BREATH-TAKING ENDURANCE RUNS LAST WEEK ON SAME TRACK—A DRAMATIC COMPANION OF SAFETY! READ BOTH LETTERS!

THE Proof of leadership in performance! Many claim it, but Firestone proves it. Never before have tires withstood such severe, continuous, grinding torture, breaking 17 speed records for 1,000 consecutive miles at 127.2 miles per hour. Not a Gum-Dipped cord loosened, not a tread separated, not one blowout.

Hour after hour, on through the scorching heat of the day and inky blackness of the night, with temperatures as high as 130 degrees—breaking record after record for speed, strength, safety and blowout protection—all in a stupendous demonstration of safety performance for the one owners of America. This was made possible by Gum-Dipping, which coats every cord fiber with liquid rubber.

For your holiday trip have the Firestone Service Dealer or Service Store equip your car with Firestone Tires and Spark Plugs, install a Firestone Battery and realize your best with Firestone. Acquaint Your Luggage, protect your life and the lives of your family with the safest tires in the world. Buy them, this week before prices get higher.

Ab Jenkins praises Firestone tires in toughest endurance run he ever made

Lake Roselle, Utah Aug. 12th, 1934

Mr. Harvey S. Firestone, Chairman, Firestone Tire & Rubber Company, Akron, Ohio

Dear Mr. Firestone:

Under A.A.A. supervision, I have just completed a 3,000-mile run on the hot salt desert at Lake Roselle, Utah, averaging 127.2 miles per hour, breaking 17 speed records, without any tire trouble. Firestone tires gave an almost perfect performance, with temperatures as high as 130 degrees.

Last year I made a similar run with a set of less expensive tires, advertising featured blowout protection. Yes, I had a blowout and a number of tire changes.

This year I also used Firestone Spent Tires and a Firestone Spare Tire Battery with your Gum-Dipped cord. Not a spare was needed and the history repeated at no time.

If every one could know what Firestone tires mean, how they would appreciate what the Firestone tires have ever made in my life as a road tester.

Sincerely yours,
Ab Jenkins

Kentucky Farm News

FROM UNIVERSITY OF KY. EXPERIMENT STATION

From the Farmers of the State.
 R. E. Nite, commercial fruit grower of Jefferson county, is raising 5,000 turkeys in his apple and peach orchards. The turkeys are corralled among the trees for several days, and then moved to new quarters. "The turkeys are the biggest help I have found for the success of the orchards," says Mr. Nite.

Luke Hopper, a Bell county farmer, sells an average of 12 gallons of milk per week from three cows at 20 cents per gallon, making a \$10 weekly profit. He also sells 50 dozen eggs from 148 hens at 20 cents a dozen, making \$42.28 profit. Mr. Hopper believes that poultry and cows give the greatest asset for a farmer.

Henry DeKen of Campbell county compared the yield of certified and uncertified Irish Cobbler seed potatoes and found that every dollar spent for certified seed returned \$13. There was a difference of 37 one-half bushels in yield of certified compared to common seed. The best grade of certified seed produced \$1 per bushel, and the best grade of uncertified brought 50 cents, making a difference of \$0.9 per acre.

Boyd county farm leaders displayed their interest in extension work by organizing a Farm Bureau, with 103 members, and procuring funds from business houses that realized the value of farm and home improvement to the county.

County Agent M. H. Sasser of Casey county reports that there is more interest in raising horses and mules than at any time during the past 10 years. A committee has been formed to purchase breeding mares of good stock. Some farmers are investing in brood mares.

County Agent Notes
 Knott county farmers have the best crop of soybeans produced for several years.

Many purebred rams are being bought in Jessamine county to head flocks of newly purchased ewes.

Arthur Abner, of Lee county, has a good hillside field of corn on limed and phosphated soil.

A Leslie county 4-H club boy earned his Junior Woodworker award by building a garden, and obtained vegetables and supplies for a club camp.

Many Green county farmers are reporting good Korean lespedeza pastures.

In Harlan county, 125 CWA canning leaders were present at demonstrations given by the home demonstration agent.

Banks at Cynthiana are lending money to 45H club members to buy pure bred dairy stock.

Homemakers in Menifee county canned corn and beans according to Experiment Station Circular No. 220, and report good results.

The demonstration orchard of Dr. E. M. Howard of Harlan county has 300 high-producing fruit trees, 1,000 strawberry plants and 2,200 grape vines.

Franklin county homemakers are not using acid in canning, in order to help eliminate spoilage.

Emmett county is getting an increasing quantity in Union county for soil improvement.

A. C. Burnett, agent in charge of Negro work, reports that two 4-H club boys of Jessamine county have a garden valued at \$75, raised by improved methods.

weed patches with certainly better looking green growth, which, if it is washed and parsnip leaves, serves as green feed for chickens, and if not needed for that purpose, furnishes vegetable matter to turn under. Besides the root system operates to break soil washing through the winter.

The greens are kale and turnips; besides, though they are not strictly greens, fall turnips and winter radishes may be included in the program. Their soil requirements are the same, so is the manner of their sowing. Rape may also be included, an excellent plan is to combine seed of all five and sow the mixture broadcast in any place that offers, from now on until October 1. The proportions should approximately be: Sibirian kale, one part; Swiss Chard, one part; Dwarf Eggplant, two parts. An ounce of this mixture should cover a space two feet wide and 100 feet long.

Another fall green is spinach. It is into a category different from the others just named in that it is sown in drills rather than broadcast. Spinach seed is larger than the others and should accordingly be sown somewhat deeper; one-half inch is about right. If seed of Denmark is used, sowings made as late as October 15 may mature, for spinach requires, but six weeks and is quite cold-resistant to survive the weather we usually have up to Thanksgiving. It may, in fact, persist all the winter, thus furnishing early spinach in the spring to follow.

Inasmuch as the normal fall season is unfriendly to insects, the pests are not much troubled, though sometimes just as the seedlings emerge, the weather being hot, fleabeetles may prove annoying. To guard against them a spraying with Bordeaux mixture, 4-4-50, is recommended just as the seedlings are in their leaf stage. It is sometimes a second when the first true leaves appear.

If exceptionally warm weather continues, the plant may come to control them, spraying with tobacco, using either the commercial preparation or the homemade tobacco plant is indicated by the curling downward of the leaves. If control is given as soon as the first signs are seen, much trouble may be avoided later, for the plant lice are exceedingly prolific.

Twenty-three Todd county farmers who keep business records in 1933 made their first profit for three years, analysis by R. E. Proctor, of the Experiment station shows. The total investment was \$300,000; loss in 1931 was \$8,000, and in 1932 it was \$4,000. During the first year 5 per cent was paid on the investment and \$24,000 was realized.

All corn demonstration fields where the soil was limed and phosphated give indications of a large increase in production, reports the county agent of Powell county. The crop appears to be the best raised for the past 10 or more years. Farmers who have watched the demonstrations are using more lime-son, and last month spread 713 tons.

A surplus of potatoes has been produced in Bell county for the first time, due to use of good or certified reports that 927 families planted 1,860 bushels of seed potatoes, which will yield at least 18,000 bushels. Other families and commercial growers estimated a similar or higher production from their crops.

Leonard Carpenter and Earl McGowan, Jackson county 4-H club co-operators, are raising poultry on a 50-50 basis with their parents. Culling methods and the proper feeding of laying hens are receiving special attention now. A new poultry house has been built, and another one started.

Let's All Go To The KENTUCKY STATE FAIR
 Kentucky's Great Annual Get-Together in Louisville SEPTEMBER 10-15

THE FARM AND HOME

In making clothes for school girls should select materials that are durable, and for garments worn next to the body, cloth of loose weave to permit evaporation and air circulation. Merized cotton, Peter Pan gingham, light weight muslin, cambric, and long cloth are advised. White undergarments are attractive and healthful and may be economical.

Shoes for ordinary use should be large enough for comfort. A straight inner line and broad, low heel are characteristics that add to the serviceableness of the shoe. Dark leather oxfords of black or brown are satisfactory for sports wear. Shoes should be shaped so as to fit the contour of the foot.

Buyers often pay premium prices for clean, well-shaped eggs. In order to have clean eggs, hens should be kept in the laying house until 1 or 2 o'clock in the afternoon when the ground outside is muddy. Most of the eggs will be laid by then and the flock will have ample time to range.

Painting is the best preventive of decay of buildings, as rotting is due largely to lack of protection against weather and fungi growth. The wood becomes rough, small fissures appear and cupping, warping and twisting follows. Paint, whether ready-mixed or made at home, should be of good quality and applied carefully for permanent results.

The health and attitude of the family is better if mealtimes is made pleasant. Only pleasant experiences should be discussed and teasing, quarreling, or mention of unpleasant incidents should never be allowed. If children make some error, they should not be corrected until later, as excitement may seriously impair digestion.

2062 Boys and Girls Attend

12 District 4-H Clubs Camped A total of 2,062 farm boys and girls and 257 local volunteer club leaders attended the 12 district 4-H club camps in Kentucky this summer. Eighty counties were represented.

In addition to programs of recreation and inspiration, the boys learned how to make terraces and studied land measurements as used in the national agricultural adjustment work and the rural studied room improvement and social studies. The camps were held at Russellville, Bardonia, Junction City, Wallingford, Eminence Boone county, Union county, Paintsville, Quicksand, London, Paducah, and Frankfort.

College of Agriculture Has Five Graduates at Commencement

Home economics students who were graduates from the College of Agriculture, University of Kentucky, at the end of the summer term were Anna Sue Ammerman, Cynthiana; Fannie Mildred Brummett, Harrodsburg; Patricia Ruth Johnson, Lexington; and Winnie Flora Sinclair, Campbellsville. Hamill A. Travis, of Little Cypress, was graduated in agriculture.

Circular Describes Ridge Ventilator for Tobacco Barns

The importance of ventilation in curing tobacco and the construction of the ridge ventilator on barns are discussed in a circular which the extension division of the College of Agriculture, University of Kentucky, has distributed to more than 6,000 farmers.

In addition to general information about curing, the circular gives plans and specifications for the ridge ventilator, which has been found of material help in curing on many farms. A plan of ventilation is described which provides for horizontal bottom doors and vertical side ventilators for intakes and for a side roof ventilator as the ridge, heavier air enters at the ground or side of the barn, passes up through the tobacco where it accumulates moisture and leaves the barn at the opening in the ridge. This opening provides a means of removing the water that is evaporating from the leaves of the curing tobacco. The effectiveness of the ridge ventilator is based on the fact that it provides complete circulation of air throughout the barn.

The circular, which was written by Russell A. Hunt, extension field agent in agronomy, is called "The Ridge Ventilator in Tobacco Barns and the Importance of Ventilation in Tobacco Curing."

Master Recipes.
DO YOU have favorite recipes upon which you build, to produce a variety of baked foods that all belong to the same class? If you use these so-called master recipes you belong to a very sensible group of homemakers. With practically no effort at all you can change your every day cake or muffin so that they take on a party air and still you have no need to run around trying to find new unusual formulas.

Naturally, when you find and learn the key recipe it wants to be laid that is perfectly balanced in its combination of ingredients, and one that calls for supplies that stay close to the home. Of course, from month to month to week, and there is little variation in the sugar, butter, and eggs, but there is a great difference in flour and leavening agent. There are a number of these master recipes that are based on a perfect flour and leavening combination. These are the recipes that have been developed around self-rising flour, and can be depended upon always to give splendid results. The products made with this self-rising flour are unusual.

Master Muffin Recipes.
 2 cups self-rising flour
 2 eggs
 1 cup milk
 1/2 cup sugar
 1/2 cup shortening
 1/2 tsp. salt
 1/2 tsp. baking powder

Sift together flour and sugar, and mix in the shortening. Add the milk and eggs, and mix together. Mix all together. Half fill greased muffin tin and bake in moderate oven (400° F.) Makes 14 muffins.

You can take this standard recipe and make many variations such as: huckleberry, ginger date, poppy seed, chocolate, coconut, jam, pecan, potato, and rice muffins.

THE HOUSEHOLD CORNER

DINING GETS JUST DESSERT!

In a world famed luscious cake, what could be more appropriate than an upside down cake? And if it's made with luscious slices of canned pineapple, set in a firm goodness, browned to a golden whole, it's enough to rick the appetites of any family.

Beat the pineapple upside down cake has much more than its more golden goodness and simplicity of preparation to recommend it. Now that nutritional studies have found canned pineapple to be a valuable source of essential vitamins and minerals, an important aid to digestion, housewives and hostesses are seeking new ways of including pineapple in some way daily on the menu.

PRINCIPLE UPSIDE DOWN CAKE
 3 cups of butter
 1 cup of brown sugar
 1/2 cup of shortening
 1/2 cup of salt
 1/2 cup of baking powder
 1/2 cup of pineapple
 1/2 cup of flour
 1/2 cup of milk
 1/2 cup of eggs
 1/2 cup of vanilla
 1/2 cup of nuts (if possible)

MARINE ENLISTMENTS ARE ASKED FOR IN SEPT.

Macon, Ga., August 29 — High school graduates interested in serving in the U. S. Marine Corps and capable of passing the physical examination are accepted during September at the Marine Recruiting Headquarters, Municipal Auditorium, Macon, Ga.

The Marine Corps is the only branch of American military service having the educational standard of graduation from high school or superior education. Having an authorized strength of only 16,000, this organization selects its applicants with care, requiring all who are admitted to present evidence of educational qualifications and of good character before they are accepted.

Their duties are performed at Marine Barracks and Navy Yards in many sections of United States and in several foreign countries. And aboard battleships, cruisers, and airplane carriers both in home and foreign waters.

Thirteen Games Are Carded In State Loop

A busy week is in prospect for all Kentucky State League baseball teams, with doubleheaders scheduled on all parks for next Sunday, followed by games on Labor Day, Monday. Thirteen games, in all will be played.

The leading Morehead Pirates hold the spotlight again on Sunday as they journey to Maysville for a twin bill with the Selets, who have their eyes on the second half bunch. Although slightly favored, Morehead is bound to have a hard time in the Maysville fracas. A split would not do so badly for the local club, but Manager Dan Parker says his boys are ready to take them both.

Raymond Rhoades, the league leading hurler of the second half will pitch for the Pirates in the opener at Maysville, while "Red" McKenzie, the old warhorse and victor in many a conflict, and rated as one of the top-notchers of the circuit, will see service in the night cap. Kentucky who shut the Pirates out 1-0 in the first skirmish will pitch the first game for Maysville.

There is little to choose between Morehead and Maysville in many respects, but the local outfit has stamped themselves as a real murderers row at the plate. The averages show that every regular on the Morehead team is batting better than .300.

The Paris Merchants play two games at Vanceburg. Vanceburg is not as much an underdog as the standings might indicate and may show the faltering Bourbon team further down in the loop standings. The Vanceburg management is preparing for another bumper attendance in a town suddenly gone baseball minded. Steidel and Felix will hunt for Vanceburg against Terry and Lancaster of Paris.

Perhaps the keenest rivalry in Sunday's matches will be at Mt. Sterling where Sam Estill's second place Owingsville club hopes to take both ends of a twin-bill. Mt. Sterling has been strengthening up considerably and ought to make a fight

Squirrel Hunting Prospects Good

Squirrel hunting has been a tough racket so far this summer. However, with the advent of hickory nut time things are expected to pick up considerably. The sad part about our squirrels is that they are subjected to year round hunting and it is a wonder there are as many as there are. Dove season opens September 1, and they may be hunted from then until December 15 from 12 noon until 6 p. m. Morning shooting is banned so that the doves cannot be ganged on their feeding grounds. It will not be necessary to have migratory bird stamp to hunt doves. They are not classed as a migratory water fowl which of course is right. The duck stamp bill is meant to raise money to put back breeding grounds for waterfowl and this would not affect doves.

The Game and Fish Association is going to probe deep into the quail raising problem next year and will be busy gathering data on the subject this winter. The American Field has been running a great series of articles on quail raising and this will be studied carefully.

In the other game, Brookville of it. Cherer will hurl one of the match's for Mt. Sterling while Feeback and Taylor of Ellis will pitch the other.

In the other game, Brookville comes to Flemingburg. The Fleimmers are picked over the last place Brookville nine, but they shouldn't have the walk-away they might have had earlier in the season. Hock and Pignal will be Flemingburg's starters against Burke and Dodson of Brookville.

The Labor Day games find Vanceburg at Morehead, Mt. Sterling at Paris, Flemingburg at Owingsville and a doubleheader between Brookville and Maysville at the latter's ball orchard. Of these the Flemingburg-Owingsville game is the top-notch.

Pirates Take Lead By Beating Paris 18 To 3

Owingsville Is Winner By 12-2

After seven innings of intercity baseball, Owingsville cut loose with a barrage of base hits in the eighth inning to score six runs and easily defeated Brookville at Brookville Sunday by a score of 12 to 2.

It all started when Taylor, Owingsville pitcher, smashed a terrific line drive to left center for a home run. Following Taylor's homer, Owingsville combined three singles, a double by Gibb, his fifth hit of the game, a home run by G. Ritchey and three walks to score six runs and put the game in ice.

Gibb and Sternberg were the batting stars for Owingsville the former having a perfect day at bat with a triple, double and three singles to his credit in five trips to the plate. Sternberg got two singles and a home run in five times at bat. G. Ritchey also had a good day at the plate, getting two triples and a homer in five trips to the plate.

For Brookville Rube Arnold was the whole show for his team, getting two of his team's four hits, on a home run, and the other a three-bagger. He scored both runs to his team.

Score by innings:
Owingsville.....200 000 360-12
Brookville.....000 101 000-2
Maysville Taker
Mt. Sterling
The Maysville Selets defeated Mt. Sterling in a Kentucky State League game at Mt. Sterling Sunday by a 9 to 5 score. The victory gave Maysville five victories and four defeats in league play and a first division berth. Mt. Sterling is in seventh place.

SPORT SPLURGES

"Schoolboy" Rowe, sensational hurler for Detroit of the American League has registered his sixteenth consecutive victory to equal the mark of three other hurlers, including Walter Johnson. Another victory for Rowe will give him the all-time record for consecutive victories.

Detroit stands at the top of the American League, four and one-half games ahead of New York, the pre-season favorite. Not a little of Detroit's success can be attributed to the effective pitching of Rowe, the greatest sensation of the 1934 season. The Tigers have a great habit of coming from behind to win ball games, and generally when one goes into extra innings they cop it.

Earl Combs, the Richmond, Ky., center fielder for the New York Yankees, who last month crashed into a fence which will at least lay him up for the rest of the season, believes he will come back, again next year. Physicians are dubious, but Combs points to his many previous injuries from which he recovered successfully in spite of dire forebodings of the doctors. Earl is also getting up in years, having already passed the age that most players let up.

Coach Downing, mentor of the Morehead College Eagles does not

have great hopes for the Teacher this fall. Downing will be working with only a very mediocre squad in both size and number. Most of the star players of last year will not return to school this fall. The state tax, which raised teachers salaries is blamed for keeping many of the boys away from college. Many of them are earning their bread and butter in the school room, instead of bruises and abuses on the football field.

Allie "Ducky" Carter has proved himself the spark plug in the Morehead baseball team. Carrying around second base, Ducky has been fielding flawlessly and at the same time knocking the cover off the ball.

Babe Ruth once said that the second baseman is the most important player on the team. Ducky has warranted such an opinion.

The Morehead Pirates are attracting customers in more numbers every game. They are playing a brand of ball that fans like to see. The old belief that Morehead must have a winner seems to be working out, for since their club has been showing their spurs to all the teams in the Kentucky State League. The fans are coming out to Jayne Stadium, besides following the team on the road.

For the first time since the second half fight in the Kentucky State League began, the Paris Merchants were out of first place, as the Morehead Pirates unleashed another hitting attack, which combined with four miscues of a temporarily demoralized Bourbon County nine and Raymond Rhodes' five-hit pitching gave the locals an 18-3 victory here Sunday afternoon. It was the worst drubbing that Paris has taken this year, and was characteristic of the batting attack of the Pirates the last half.

The victory gave Morehead first place by a half a game. Morehead gathered 14 hits, seven of which were for extra bases. The Pirates started scoring in the first on Fraley's single and Spence's triple. In the second frame the locals tallied five times, with two Paris errors figuring in the counting. On four consecutive hit singles by Stagg and Rhoades and Carter and Fraley's double, Morehead ran the count to 9-0. One base hit by Oley, Stagg and Fraley and Rhoades' three bagger and an outfield fly gave the Pirates five more in the fifth to make the count 14-0.

Haley Lancaster, starting pitcher for Paris, weathered the storm until the sixth when he was jerked in favor of Carr. Morehead brought their total to 18 in the sixth off Carr on two batters by Fraley and Oley and three base ball by Hilton Stagg.

Paris made three runs in the sixth as Stagg took first when hit by a pitched ball and Violet. Wilds and Williams followed with singles. The Morehead infield turned in another perfect performance with three double plays. The Pirates did not make an error and every man on the team, except the center-fielder, hit safely at least once.

Stagg led the day in hitting with three for five. Fraley, Oley, Raley and Rhoades had two each. Raley's five hits were scattered among as many players. Carter, alone in the field with a good performance.

| The lineups and summary: | |
|--------------------------|----------------|
| Paris | AB R H PO A E |
| Violet, 2b | 4 1 1 2 5 1 |
| Willis, rf | 3 1 1 1 0 0 |

TOTAL RECEIPTS, 2,341.

College Film Is Shown At Cozy

It was a new race, and not a football match, that brought "The Sweetheart of Sigma Chi" to a bright climax at the Cozy theatre last night. So much for originality! Not that this newest college spectacle needed this to prove its popularity in the field of light entertainment. Breezy and fast, it goes from start to finish, its frequent, rhythmic tunes and up-to-minute plot place it in a class itself; not to mention a cast which includes such celebrities of the entertainment and sporting world as Mary Carlisle, late star of "College Humor"; Buster Crabbe, internationally famous champion athlete; Major Goodsell, champion oarsman and crew coach; and Ted Flanagan, musical orchestra leader, and musical entertainers.

The plot centers around Vivian, pretty coed and flirt, who fascinates her affection on Bob North. Little most of his Sigma Chi brother, Bob, secretly loves the charmer, but her girl shy. Vivian fixes all that by staying a drowning scene, from which Bob emerges a hero and honestly in love. All goes well until North suspects Vivian of favoring a rival and takes back his fraternity pin. How a reconciliation is effected, and Bob strokes the crew to victory on homecoming day supplies action for the rest of the story.

M. I. Wilson ATTORNEY AT LAW City Building

Mrs. Carrie Bruce and daughters, Miss Clara and Carrie, and grandson, June Tussey are visiting Mrs. Bruce's daughter, Mrs. Leidman in Madisonville this week. Mrs. K. V. Lykins attended the American Legion in Ashland Wednesday. Mr. and Mrs. Walter Swift and Mr. Harlan Blair and family spent Tuesday in Mayville. Dean and Mrs. W. H. Vaughan and son, Billy, are visiting Mrs. Vaughan's mother, Mrs. Jim Woods, of Louisa.

The Citizens Bank of Morehead

DOLLARS are job creators—Cut off the daily flow of dollars, and man after man will be out of work—Business would be dead. A community is busy as money circulates, one of the primary functions of a bank is to circulate it—By banking your idle funds you give your money circulation, helping your town and county to be prosperous. Deposits in this bank are insured under the U. S. Government Insurance Plan.

The Citizens Bank

HAVE YOUR HAY BAILED. Hay will be higher this fall than ever before the Department of Agriculture and Experiment Station Reports. We bail your hay at the right price and guarantee satisfaction. We bail any amount whether it be large or small—anywhere—at any time you desire. See Or Write RUSSELL JOHNSON Morehead, Kentucky
