And finally, charge them with hypocrisy, in all their political acts and movements.

Or The Eagle heads an article, "The Taylor fever." The chill will come on about Tuesday evening, after which the editor should speak of Taylor shukes, as he will be certain to have one.

Because Senator Allen showed con CT Because Senator Alien showed con-clusively, on Wednesday, that Gen. Whiggery in the North.—Infamous sentiments of a candidate for Congress in Michigan. From an unknown hand, we have re-ceived a copy of the Detroit Daily Ad-cretiser of October 2nd, containing a law. vertiser of October 2nd, containing a let-ter from George C. Bates Esq., the whig nominee for Congress in the 1st congressional district in that State, to the com mittee appointed to apprize him of his nomination, from which letter we cut the following extract, which seems to emorace the summum beaum of his political treed at present, with the support of Gen. Under such a saute of things, can Kentucky whige expect anything better than the leases which they are containly suffering, in consequence of this suicidal policy? Can they, for a moment, suppose that their slaves will not abscond, when they take into consideration the confuct of their own party friends, in thus aiding in the dissemination of the very doctrine which is calculated to stimulate them to do as C. If any one thing, more than another, has characterized the conduct of the democratic party and governed the democratic party, during the controversy which is now about to close, it has been as avedance, on their part, is any sught, on relation to Gen. Taylor, that could possibly be contraed into anything like latender or abuse of that brave old solidier, and we are proud to say that we have seen, in no instance, anything of that sort in the democratic papers with which we exchange. Willis Hall, the great gan of New York city whisgory, is out with a letter declaring his unabstrable opposition to Gen. Taylor! This renunciation of whigeey by a man who has been their leading spirit—the life and soul of the whig party—will have a termendious effect on Toronton Williams of the Williams of the
