The Optimist Club of Morehead has scheduled its charter party for Friday, Sept. 18. The party will be held at the home of Walter Sebastian, Lexington, former vice-president of Optimist International. Toastmaster will be Al Alfano, immediate past governor of the Kentucky-West Virginia District.

4-H Members Visit Missouri Counterparts

Nineteen area 4-H club members returned from a five-day stay with their counterparts in Shelby County, Miss., last week. The group was accompanied by Miss. State Trooper James Easley.

On USS Columbus

Billy C. Evans, boatwain's mate first class, USN, son of Mr. Curtis Evans of Route 4, Morehead, has departed for duty in the Western Pacific aboard the guided missile cruiser USS Columbus.

Employment Office To Move

The Employment Service section of the Kentucky Department of Economic Security will move to a new office building on Bradley Avenue, it was announced this week.

Tells Resolutions Committee

The most important area of concern in any war on poverty should be a "war on ignorance" through education, Dr. Adron Doran, president of the National State Colleges, said in Washington, D.C. Tuesday.

Doran Urges War on Ignorance

Dr. Doran, who is a member of the 11-man NEA legislative commission, appeared before the committee on Resolutions and Educational Programs of the NEA with its more than 900,000 members. The Kentucky educator said "because the tax resources of our States and localities are

Sticker Sales Reported 'Slow'

Sales of City of Morehead auto stickers were reported "slow" this week by City Clerk Minnie Preston. "We are having a slow start, in order to avoid the last minute rush. Present licenses expire Sept. 1. Council last week added a penalty for purchase of the permits any later than 30 days following expiration. Stickers cost \$10.

Chloe Hall, 78, Taken By Death

Chloe Hall, 78, a native of Rowan County, died Saturday in Shirley, Ky. A daughter of the late Patience and Phoebe Ingram Hanes, she was born Aug. 18, 1886. Mrs. Hall had been a member of the Primitive Baptist Church 50 years.

Four Bands Set Mass Concert Here Saturday

Four high school bands from the Louisville area will present a massed-band concert Saturday afternoon in Hard Music Building on the Morehead State College campus. Representing Seneca, Fern Creek, Durrett and Southern high schools, the four musical groups are spending the week on the MSC campus as part of their pre-school training for the coming year.

John Brown Rites Held On Aug. 10

Funeral services were held here Aug. 10 for John Brown, an Elliott County native, who died Aug. 7 in Mansfield, O. He was born May 15, 1883.

Death Claims John Fisher In Cincinnati

A Rowan County native, John H. Fisher, died Aug. 5 in Cincinnati, he was 70. Fisher was born Feb. 25, 1891, a son of the late Henry and Cinda Fisher.

L Eldridge, 41, Stricken In Dayton

A Holdeman native, Lloyd Eldridge, died suddenly Monday at his home in Dayton, O. He was 41.

Religion Discussion

A state-wide conference on religion and the schools held at Louisville last Thursday and Friday revealed that for the most part administrators do not understand the Supreme Court's decision on prayer in the classroom.

Large Bypass New Point System; Says Governor Should 'Run Own Slow'

Rowan County Judge W. C. Flannery Wednesday blasted Gov. Edward T. Breathitt's executive order increasing point system penalties and leveled a sharp personal attack at the chief executive. Flannery said he would continue to hear each case on its merits, regardless of the new order, and indicated that he feels the governor has "overstepped his authority" in decreeing stepped-up penalties for drivers who violate traffic laws.

\$7 Million Requested For Cave Run Dam

More than \$100 million in Federal water development funds was asked by Congressman Carl D. Perkins this week for flood control protection in the Seventh Congressional District of Kentucky. Perkins is appearing with other members of the Kentucky delegation before the House of Representatives to urge the constant threat of floods blocked industrial development throughout the Eastern Kentucky Appalachian area.

John Brown Rites Held On Aug. 10

Funeral services were held here Aug. 10 for John Brown, an Elliott County native, who died Aug. 7 in Mansfield, O. He was born May 15, 1883.

Death Claims John Fisher In Cincinnati

A Rowan County native, John H. Fisher, died Aug. 5 in Cincinnati, he was 70. Fisher was born Feb. 25, 1891, a son of the late Henry and Cinda Fisher.

L Eldridge, 41, Stricken In Dayton

A Holdeman native, Lloyd Eldridge, died suddenly Monday at his home in Dayton, O. He was 41.

Religion Discussion

A state-wide conference on religion and the schools held at Louisville last Thursday and Friday revealed that for the most part administrators do not understand the Supreme Court's decision on prayer in the classroom. Dr. Doran pointed out that nontaxable persons and taxpayers with insufficient tax liability to take full advantage of the tax allowances would obtain little or no benefit and large families with low income would receive a little or no benefit.

North Carolina Woman Stricken At Motel Here

An Enfield, N. C. woman, Mrs. Ruby Walker Futrell, died Sunday morning in a Morehead motel after suffering a heart attack.

Grid Drills To Begin Thursday

Full football practice will begin Thursday afternoon for the Thurgood Marshall High School football team.

Castro's Peace Overtures Have Hollow Ring

Action still speak louder than words. It is in that context that there seems much to be said and little to be feared in making overtures of Cuba's Premier Fidel Castro.

The aid is not surprising if evidence can be attached to reports of unrest and economic troubles on the island. It is quite understandable that the Cuban government, in the face of outside pressures being exerted by both this country and some of the neighboring Latin American nations who oppose his regime.

But understandable as it may be, the Cuban people are not deserving of serious consideration by the citizens of any nation because the aid was made for other than completely self-serving purposes.

There is no evidence the Cuban dictator has had any real change of heart that he intends to expand Communism, terrorism in neighboring countries or that he plans to loosen the reins of his own power.

Until there is some indication this country would be ill-advised to accord his "peace" proposal serious consideration.

'K' Never Stops His Threats

Russian Premier, Nikita Khrushchev said recently in Norway he "would not object" to a Soviet group of bombers being re-commissioned planes over Cuba with Soviet-based missiles on the island.

Fidel Castro said he would aid the Cuban dictator should this country retaliate.

Such statements are another warning to the United States to stop the overflight of Soviet bombers over Cuba.

Such utterances by the Russian Premier must be read with some skepticism and logic.

It is all too probable a Castro attack on our planes—which might be answered — is not desired by the Soviet leader at this time.

The warning is uttered perhaps primarily to gain a propaganda advantage in a situation where we are regularly violating the air space of another country. We are, of course, doing this contrary to generally accepted international law.

Unfortunately, this situation is one the Communists can exploit among the peoples of the world who are regularly violating nations—and there is nothing we can do about it.

Press Faces A Challenge

In the last few decades the working press in this country has become the servant of the helmsman—namely because the majority of social reformers is always considered to be a legitimate part of the working press.

It has tended to give prominent place to every charge of discrimination from every source, and to give every charge a "dubious" picture of all that was ever done by the minorities.

In the United States some still suffer from the idea that the press should discriminate and give more space to the "underdog" than to the "establishment."

The Law Should Be Flexible

Katherine Goveaux was hounded to death on the street near her home in New York City last March. Thirty-eight neighbors saw the attack from their windows or heard her cries for help but did nothing.

Arlene Del Fava, a New York secretary, was so shocked by that that she decided to be ready to help herself. She bought a switch-blade and carried it with her wherever she had to be alone at night.

On a hot day in June, while returning from the World's Fair, she was grabbed by a would-be rapist. Miss Del Fava drew her knife, stabbing the man in the groin and the neck.

Exercise Lack Is Killer

One of the greatest unrecognized killers in our time is lack of exercise and sports. Many people are guilty of after they begin to work in the office.

The American male has more often dies of heart attack than any other cause in the world. This is because American men work harder and faster, also because many of them do not get regular and proper exercise.

Hay Fever Fans Start Agony

Those who have their annual trouble with the sniffles and sneezes in the late summer and fall can get ready for a bumper hay fever season. The annual peak of the hay fever season is approaching.

Hay fever is not a disturbance to be sneezed at and it is estimated that several people out of each hundred in the United States suffer from its effects each year.

AUGUST

Claig Sprout . . . And His Friend, TIMOTHY TUGMUTTON . . . Sez

DEAR MISTER EDITOR:

I see by the papers where they were building some Army barracks at Fort Jackson in South Carolina and the low bid contractor from a large local town.

The second lowbid was from a small contractor in another state and it was \$97,000 higher than the low bid.

The clerk in one of them Goveaux's was named the Small Business Administration threw out the low bid and paid the \$97,000 difference to the next bidder.

The low bidder was too big for the bidding. The taxpayers lost \$97,000. What a racket, Mister Editor, it ain't nothing but money and don't belong to nobody but us.

Then I was reading this piece where the U. S. Treasury said they could save \$3 million in a year on their printing bill if folks didn't object to \$2 billion.

Personal, I think the taxpayers would stand for a heap of objection to saving \$2 billion.

Furthermore, a \$2 bill would come in mighty handy these days for buying a dollar's worth of anything.

I'm over to the place where I'm working for the women to take down the Government and try running it for a spell. They need it so worse.

The fight at Morgantown was not a success. It was a failure. We've got me bang to the ground five years ago, but winners has been coming along fast.

I wouldn't mind if they boy would say a fellow about "commit matrimony," and you'd better hear that a fellow had put on the "matrimony."

COX IS NAMED Democrat Fund Raising Chief

Frankfort attorney Louis Cox has been named chairman of the newly-established membership drive to raise funds for the Democratic Party in Kentucky.

Announcement of the appointment was made by State Democratic Chairman Foster Coleman, who also said drive chairmen would be named for each county.

Cox will direct the campaign to encourage citizens to join the newly-formed Democratic Club of Kentucky with memberships being offered under two plans — annual membership of \$10 or sustaining membership of \$25.

Funds from the drive will be used to finance President Lyndon B. Johnson's reelection campaign in Kentucky.

Cox, noting that the plan is a new method of raising campaign funds, said he intended to carry on a "vigorous drive" because this campaign is vitally important to the very lifeblood of Kentucky.

Cox, 37, is a member of the State Racing Commission and a past president of the State Senate in 1962, 1963 and 1964.

He was elected to the General Assembly in 1961 and resigned for Army service as an officer, during World War II. He returned to Frankfort, he was reelected in 1964.

Cox has been a member of the University of Kentucky Board of Trustees and the State Board of Election Commissioners.

Baptists Name Student Aides At Two Schools

The Kentucky Baptist Convention has named two men to work with Baptist students on college campuses.

Wayne S. Welch will serve at Western State College in Bowling Green, and Ernest J. Smith at Morehead State College at Morehead.

Welch is a graduate of Georgetown College and Southern Baptist Seminary, and has served the past two years as youth director of Deer Park Baptist Church in Louisville. He did student work in Oregon and Washington in 1960, and attended the Baptist World Youth Conference in Beirut, Lebanon in 1962.

Smith, a native of Louisiana, is a graduate of Louisiana College and the New Orleans Baptist Theological Seminary. He completed his undergraduate studies at Union Theological Seminary in New York in the summer of 1962.

Both men will work under the direction of J. Chester Durk at Middletown, who is the state secretary of Baptist student work.

100 YEARS AGO THIS WEEK

The Civil War In Kentucky
Negro church and arrested all of them. The next day those found physically fit for military service were inducted into the United States Army. The officers were put to work on fortifications still being built on Jeffersonville, and some were discharged.

Federal authorities continued their campaign against guerrillas in the mountains and by Jerry-Weber's company of the officers near the scene of crimes. Brig. Gen. Alvin P. Hovey of Indiana was killed in action.

Residents of Morgantown opposed saying the money would be used to remunerate the government for losses sustained by frequent guerrilla raids by choosing Morgantown for his Confederate headquarters. Col. Johnson perhaps had created a suspicion that the community was sympathetic to the rebels.

Justice of the Indiana Supreme Court, J. distinguished himself at Spots and in the Westburg campaign. In 1862 he had been directed to recruit 20,000 men and in July he had successfully completed the assignment. He selected only unmarried men, who were known as "Hovey's Babies."

Ramin' Thru Willibo Ohio People Are Pore But Not Like Willibo

BY CLENNIE HOLLON

We got this news from Robert Spivey, a Willibo man who writes "I like to read the paper. I see names of people that I want to know and I want to see their pictures sooner but it took a long time for me to see for enough pop bottles to pay for it."

"People as pore over here in Ohio too. But I must know Fillmore and Willibo always was the poorest place in the world. When I was back there you being given away—anybody didn't have anything to give away or keep either."

"Add it up like we always had a Republican president and a Republican Administration always, especially hard times I did think about joining the Vote Sellers Union but I don't think it will be very good business the way things are."

Democrats won't need to buy any votes and Republicans won't spend money even for votes.

Well, I guess Robert is about right. When they're a Republican president, we are standing hard times for the death and when they're a Democrat president we all that is able to go to school or to farm or to get a job and get out of the country and get out of the Democratic wars with other nations. Us Republicans prefer to stay at home to death. It takes so much long.

Of course these days the Democrats and the Liberal Republicans and the Moderate Republicans is practically the same thing. A fellow stands the chance of getting a death under either one or getting to go to some jugged African work of land on get killed and not know what he'll have over there to get killed.

Of course all of us Republicans care for a man like Goldwater.

And of course Fillmore and Willibo are still about the poorest places in the world. No doubt we would starve to death if it weren't for the commodities and the food from the big villages from away off.

The Vote Sellers Union has failed to make arrangements to compete with the notes of Federal Reserve Notes to be given away by Mr. Washington De O. C.

George Lee Denton told us just a few days ago, I believe it isn't I stayed out there in Cincinnati, Ohio a few more weeks, I would have might have been in the hospital, but I ain't taking them butts. Fellars come pick up bad habits away from here. They wanted me to take a bath ever day and I ain't leaving there in that good clean of the Horseshell. Weren't no federal school could have got dirty hardly.

Chester Denton is a truthful and honest man most of the time and you can't hear everything he tells you. He told us that Anderson and Rose weren't but boys and they wouldn't get the feed. Chester Denton is slipping up the hog pen and slipping the hoos with that yaller meal at a time when nobody ain't likely to see him.

Cheslers are awful bad this year. They keep a fellow reaching for a better time. And cheslers are mighty particular where they take up. Just too cheslers can't hardly be a yaller meal. You was younger, we could allow rub a yaller mealskin over the match and get rid of the hateful things. Cheslers get up all them most skins like they do tater skins and sell them. They ain't no yaller meal. We doubt if they is yaller mealskin anyplace near here. Looks like they will have to get a federal school to get cheslers or if you have got a grossy, salty meat you can't like to borrow it.

Cheslers are like them tourists. Its easy for a chesler to get on a tourist. He told us that Anderson no bibbles, Arkansas yet and they nearly wear bottomless ones. Cheslers can just hop on a yaller meal and have a picnic nearly any place. It looks like the snakes and black them spinners would devour them. Cheslers are so hardy ever miss one of the things.

FARM BUREAU in Action

Terens Bonnett
Kentucky farm Bureau Fed.

netic allotment, additional price support and export acreage. It's the policy development that will expire with the 1965 crop.

"The law which permits the lease and transfer of acreage allotment for certain types of tobacco production will expire with the 1965 crop."

In addition to the issues that are critical periods in agricultural legislation, the Congress may well be asked to consider legislation with respect to dairy products and to commodities. The result could be either a major omnibus bill or a series of bills covering the commodities. In either case, it is clear that 1965 will be "a year of decisions" on farm policy.

Farm Bureau has a means of defining an important agricultural matter. What is the policy development procedure. Federal policy is one of the major parts of the program. With out policies, it could not be a sound organization. But with them, we have guidelines that would aid in the operation, community, state and nation.

"The present feed grain program will expire with the 1965 crop."

"The provisions of the Agricultural Act of 1964 which permits the Secretary of Agriculture to enforce the certificate plan without a referendum, apply only to 1964-65."

The present International Year of Agriculture is due to expire on July 31, 1965.

The domestic subsidy, 1964-65.

LETTERS TO THE EDITOR

Haldeman Once 'Boomed,' Agricultural Income Should Center of Sports

EDITOR, THE NEWS
The recent reference in the Publishers' Pen column to the sale of the old red brick school building at Haldeman, stirs some memories of the late-20's and early 30's at Haldeman.

park supervisor and in his spare (?) time taught night class in math to interested adults.
The Morehead basketball team practiced on the indoor court at Haldeman. The Morehead starting five included Vernon Dillion, Dixon Shouse, Hendrix Tolliver, Henry Peck, Prichard and Oval (Peck) Robinson.

humming sound.
"The clubhouse", home of Mr. Haldeman and visiting company officials, spotted a model "A" station wagon, which was used primarily to transport passengers from the railway station.
The town of Haldeman had a park with formal gardens and a full time gardener--and street light.

Farm Facts

KENTUCKY'S INCOME PROBLEMS, ALL Kentuckians should be concerned about the direction that the state's farm income will take during the years ahead.

The \$269,000,000, more or less, annual cash receipts for farm commodities generates a \$3,000,000 business economy and that's a lot of money in anybody's state.
The big advantage of tobacco to Kentucky's farmer is its high per acre income. With average yields running well over 2,000 pounds per acre and the price near 60 cents per pound, gross acre income averages about \$1,300.

Trumble is a noticeable exception and, as one drives through that county between May and October, he is impressed with the roadside markets and productive orchards and truck farms.
Trumble County extension agent, says that over 100 farmers are producing peaches, apples, and strawberries for market and most of it is sold through 12 attractive roadside stands.

"Emotions are thought and are only faintly indicated by facial expressions," declares a psychologist. Learning to read these indications, however, is highly profitable to a poker player.

Louisvillians Escape Injury When Vehicle Overtakes

Five passengers in a station wagon driven by a Louisville woman escaped injury here Tuesday when the vehicle went over a wall and ventured on the CSO Railway tracks at Brady Curve.

Slus indicated that the Conner vehicle was being driven too fast for road conditions.
A pickup truck driven by Paul Marion Love, 35, of Morehead slammed into the rear of a passenger car being driven by Lorenzo D. Skaggs of Morehead, Ky. Tuesday afternoon.

Alternate high income crops are few and consist mainly of fruits and vegetables in which Kentucky farmers have shown little interest during the past 10 years.
Extensive grain crops such as corn, soybeans, and small grain offer little opportunity for increased acreages because of the hilly nature of our farms and the small percentage of plow land.

and daughter, Carla were Tuesday visitors in Lexington.

Mr. and Mrs. Williams entertained Saturday evening

AVERAGE EXPENDITURE OF \$158.47

Camping Big Kentucky Business

How much will that family of yours meet on the high-country in Kentucky? According to a survey by Louisa, the research firm, the average expenditure of \$158.47 per day for groceries to 64 cents for personal services (doctors, dentists, barbershops, beauty shops, etc.).

"Surprisingly was the \$4.91 per group daily average for fees and dues to certain parks, facilities and to neighboring communities' museums, zoos, movies and other attractions." Louisville was surprised by the \$4.01 daily average per group for gifts, novelties and souvenirs.

Cost of tents purchased ranged from a \$75 guitar and \$45 recliner bought in London to 100 toys. Purchase of drug store and clothing store items were frequent.

The survey included campers chosen at random in mid-July at Levi Jackson State Park near London and at General Burnside Island State Park at Burnside. Comments included pride in facilities for Kentucky State Park, clean, modern camping facilities and attractive camping areas and for the courtesy of park personnel.

Many campers reported that they made parks their home base from which to explore all over the nearby county.

In addition to statistics, the survey tracked up an observation or two on the trends of the times.

"The vast majority of those interviewed said they chose a camping vacation to 'get out in the fresh air' and 'to get away from everything'."

A number had brought books to read but many volunteered they were purposely not listening to or reading any news reports.

Interviewers were uncertain how to list at least one reported purchase:

During an interview with a couple from a Southern state, the wife noted the cost of a sweater she had bought as \$10. As the interviewers departed, the lady followed a little way and said, "I really paid more for that sweater, but I haven't broken the news to my husband yet."

Interviewers saw the lady on the golf course.

"I'm pretty sure my wife paid more than 10 dollars for that sweater," he said. "You know how women are on a trip."

Last year, a record total of 1,000 campers at 50 states, 12 foreign countries, and the District of Columbia enjoyed Kentucky State Park camping sites.

Camping Area Needed in Parks

Gov. Edward T. Breathitt declared in a speech dedicating the new \$666,000 lodge at Buckhorn Lake State Park that some additional space should be developed for camping areas at all State parks before the 1965 season starts.

The governor estimated in his speech last July that total attendance at all State parks this year will reach the record figure of 15 million, which would be 2 million more than the previous record set last year.

Breathitt pointed out that the 11 million figure of a year ago was almost double that of 1960.

Emphasis was placed by the governor, however, on the pressing demand for camping space

in the various parks. He said 16 of the State parks have tent and trailer areas with one or more central shower and rest rooms.

Yet, the governor declared, the demand so far exceeds the need that night after night tents and trailers are strewn to crowd into these areas. The need, he said, is for 5,000 tent and trailer sites instead of the 1,200 available.

Breathitt said that the large majority of these campers do not seek the sites because of economy but because they like to camp.

They spend money in the local stores, they buy meals in the lodges at the various state parks and they are willing to pay the price for services furnished in the parks.

But they aren't being crowded together in areas inadequate to handle the demand.

Outline program with the Governor at dedication of the eighth new lodge to be completed in 1965 is to plan for expansion program--plus additions to two other lodges--were State Highway Commissioner Harry Ward; State Parks Commissioner Robert O. Bell; and former Governor Ben T. Combs.

Invited to the dedication last Friday also were these other members of the old parks commission: Hervey Evans, Lexington; Marvin Music, Prestonsburg; and John Ed Pearce, Louisville.

The new lodge was opened to guests July 15. It is built of native stone and wood to blend with the mountain scenery. It overlooks Buckhorn Lake and has a drive-in loading area for guests.

Each guest room has two double beds, either modern furniture, a telephone, television, a telephone, air-conditioning and room-controlled heating. On the first floor are a lobby, 200-seat dining room, meeting and recreation rooms, office and gift shop.

Buckhorn Lake State Park is located off Kentucky 28, near Buckhorn and is reached by a 3.4 mile access road. Facilities there include a boat dock, beach, bathroom, and picnic shelter building. There also is a new developed parking area for guests.

FATHER-IMAGE

"A baby first laughs at the age of about four months," says a pediatrician. By then baby can focus his eyes well enough to see what his father looks like.

Mr. and Mrs. Bill Brammell and children, Melinda and Pat left Wednesday for Fort Dix, N. J., where Mr. Brammell will be in the Army Reserve training for two weeks. They will also visit the New York World's Fair before returning home.

A number had brought books to read but many volunteered they were purposely not listening to or reading any news reports.

Interviewers were uncertain how to list at least one reported purchase:

During an interview with a couple from a Southern state, the wife noted the cost of a sweater she had bought as \$10. As the interviewers departed, the lady followed a little way and said, "I really paid more for that sweater, but I haven't broken the news to my husband yet."

Interviewers saw the lady on the golf course.

"I'm pretty sure my wife paid more than 10 dollars for that sweater," he said. "You know how women are on a trip."

Last year, a record total of 1,000 campers at 50 states, 12 foreign countries, and the District of Columbia enjoyed Kentucky State Park camping sites.

60 PERCENT OPEN OR BUILDING

Kentucky Will Have 462 Miles of Modern Roads By Season End

Kentucky has 60 percent of its paved interstate and highway system either open to traffic or under construction, Commission of Highways Henry Ward announced today.

By the end of the present construction season, Kentucky will have 462 miles of interstates open to traffic and 57 miles under construction. Also, 203 miles of highways will be in use and another 72 miles will be under construction, Ward said.

Ward presented the motorist with a list of completed modern highways and another 129 miles which will be ready for use.

Ward said he was pleased by the following facts about the state's modern highway program: Kentucky will have 95 miles of interstate open to traffic by the end of the season.

At present, 60 miles of I-65 is open from the Kentucky state line to south of Louisville. Included in this stretch are 40 miles of interstates in Hart, Warren, and

proval and Interstate 275, a 24-mile circular route around the Covington area, is in initial engineering.

The 70-mile Mountain Parkway is completed from 1-64 near Winchester to Salysville via Cambridge. And work is proceeding rapidly on the Mountain Parkway extension one stretch from Salysville to Pikeville and the other from Campton to Whitesburg.

In addition, 127 miles of Western Kentucky Parkway is completed from Elizabethtown to Princeton.

Under construction is the 72-mile Central Kentucky Parkway from Elizabethtown to Versailles.

By 1972 (target date for completion of the interstates and parkways) Kentucky will have 1,000 miles of the best highways in the world, Ward said.
