

# THE ROWAN COUNTY NEWS

VOLUME NO: OLD SERIES NO. 39; NEW SERIES NO. 17

MOREHEAD, KENTUCKY, THURSDAY, NOV. 22, 1934

NUMBER FORTY FIVE

## About Town With The "NEWS"

### COURT DISTURBANCE

All was quite in the court of County Judge Charles E. Jennings last week.

A case was being tried and all eyes were centered on the bar, when a great commotion came from overhead and everyone started for the doors thinking an earthquake had struck. The plaster cracked down and a hole appeared in the ceiling. Through that hole came a foot.

It was only one of the Carpenters who was repairing the roof who lost his balance and almost fell through.

Judge resumed proceedings a few minutes later and no one was fined for contempt.

We don't know why but the incident reminds us of the general free for all in a courtroom here last year when the witness and judge and several spectators went round for awhile.

### RABBIT HUNTING BY NIGHT

Roland Armstrong seems to have hit upon the easiest way of killing rabbits.

The other night Roland went out in his automobile and spotted six rabbits with a spotlight. He blinded the rabbits and it was no trouble at all to get out and knock them in the head.

### RUBY SPEAKS AGAIN

Moreheadians who made the trip to Washington to see President Roosevelt speak were somewhat disappointed with the brevity of this executive's speech.

The day was not a complete loss from an oratorical viewpoint, however, for Governor Ruby Luffton gave one of the flowery addresses about as long as the list of Kentucky Colneis.

### MARRIAGE LICENSES

Morehead lawyers should be casting an eye on the large number of marriage licenses that have been issued this year from Rowan Clerk's office. More couples have procured the road to happiness benedicts here this year than at any time since the depression let in.

The lawyers can reliably set down a larger figure in anticipated revenue from divorces for the next year than ever before.

Yes sir, this New Deal is sure booming business.

### "ATTRACTIVELY SITUATED"

The Midland Trail Hotel, which is under the management of the popularly known K. B. Lykins has adapted the slogan, "Attractively Situated" in the Cumberland Foothills.

If other Morehead places would start advertising this advantageous location on the verge of the mountains there ought to be more tourist business coming this way.

## Morehead P. T. A. Will Meet Tonight

The Morehead Parent Teachers Association will hold its regular November meeting in the High School gym. tonight at 7:30.

Miss Grace Crosthwaite, chairman of the program committee announced that a pantomime, "And The Lamp Went Out" would be presented by the Morehead High Dramatic Club. The Club is sponsored by Anna Jane Day, English teacher at the High School.

The Association will also discuss plans for a Community Christmas tree and make plans for feeding daily over 70 children at the schools. Funds for this feeding project were made available through the F. E. R. A. D. D. Caudill, Principal announced this week.

## State Starts On Widening Main Street In Town

Thoroughfare To Be Thirty Six Feet In Narrow Place When Completed

### WORKS STARTED MONDAY

Actual construction of the repair and widening of the Main Street of Morehead was begun on Monday morning of this week, under the supervision of the highway engineers, headed by Mr. Warwick. Construction work was started on the block occupied by the Midland Trail Hotel, the Eagles Nest and the Midland Trail Garage extending to the corner of the A. and P. Store. This block will be entirely repaved with concrete slab forty feet wide, which will make this particular block a delight both to the traveler and to the business man whose store is located there.

The contract for the construction of the street was awarded to the Carey-Reed Construction Company of Lexington, Kentucky. They are a firm of wide experience in this type of work, a fact which is insurance of a workmanlike job.

In order to eliminate the spongy sub soil that has in the past caused considerable trouble in the pavement of this block, a complete drain system of tiles will be laid under the pavement which will prevent the gathering of water in the sub soil and the ruining of the pavement.

In most instances the deeds to the necessary rights-of-way have been given voluntarily to the highway department. A few have not yet been executed, but the majority of these have signified their intention of doing so before the time they are to be used. The following names are those of the owners: W. Stewart, Joe Caudill, Cornelius Caudill, Worley Hall, Chas. Proctor, Alvin Caudill, W. E. Proctor, Winfield Kinney, Ethel Patton, Dan Parker and Mrs. Edith Proctor. The fact that these deeds have not yet been signed does not mean in any sense that they will not be executed, as in the majority of cases, the property owners have indicated their intention of signing as soon as a few little details are worked out.

As soon as the work on this block is now under construction, it is her block so it is planned to go to another block by turning up one block and widening with concrete to a total width of 36 feet.

The plans call for the construction of a storm sewer to take care of excess flood water. Two courses have been surveyed but have not been definitely decided on. Consequently the rights-of-way for this

### Continued On Page Twelve

### ROBERT HUSTON OPENS NEW ELECTRICAL SHOP

In this issue of the News is contained the announcement of the opening of the Morehead Electrical and Plumbing Shop. The shop opened its doors this week, under the management of Robert E. Huston.

Mr. Huston, a graduate of the engineering school at Purdue University, will be in a position to do any kind of wiring, electrical repairs and plumbing. He will carry an up-to-date line of electrical and plumbing fixtures, but stresses the repair service the shop will be in a position to offer.

### ROWAN RESIDENT IS BITTEN BY MAD DOG

The local Health Department is giving hydrophobia shots to Elza Cornette, son of J. W. Cornette who lives on the Midland Trail west of Morehead.

Elza was bitten by a dog believed to be mad. Several cases of mad dog bite have been reported in the county this year, but they have not resulted fatally.

### Buy Christmas Seals

### Help Fight Tuberculosis

## DR. SMITH IS SPEAKER HERE

Speaks At College Training School, High Schools And Civic Clubs

Dr. L. E. Smith, executive secretary of the Kentucky Tuberculosis Association, gave eight addresses here this week under the auspices of the Department of Health, and in the interest of the sale of tubercular seals.

Dr. Smith spoke twice at Morehead College, twice at the Breckinridge Training School at Halde-man, Morehead High School, Morehead Men's Club and the Morehead Woman's Club.

Dr. Smith said they were primarily concerned in preventing the disease rather than curing it, since there are few permanent cures after it has taken a firm hold. He set out that Kentucky had the highest death rate of any state except Tennessee from this disease, and that more persons died from it each year than from any other.

The sale of the seal will start this evening. The Morehead Woman's Club has taken charge of the sale in Rowan County. Mrs. Taylor Young and Miss Ernestine Troemel were appointed to head the sales force.

### Continued On Page Twelve

## Great Picture At Cozy Theatre

Three Academy of Motion picture Arts and Sciences Award winners head the cast of "The Barretts of Wimpole Street," to be shown Wed. and Thurs. at the Cozy.

Norma Shearer, in the role of the orphaned girl, is starred opposite Fredric March, as the eccentric Robert Browning, the same team which broke all records in "Smilin' Through". Charles Lughton, most recent Academy Awards winner, appears in the grim and powerful role of the elder Barrett, his first American picture since the international hit, "Henry The Eighth."

Sidney Franklin, director of many of Miss Shearer's greatest successes, including "Smilin' Through," was the genius behind the megaphone in filming the famous stage play.

## Maysville Corn And Tobacco Festival Will Continue Thru Next Week

Opening Wednesday the Maysville Tobacco Festival offered a program of entertainment for old and young alike and a pagentry of exhibits unequalled by any tobacco fair in the Burley Belt.

Business, industry and agriculture have combined to insure success for the festival, which is being sponsored jointly by the Leslie H. Arthur Post, No. 13, American Legion, and the Maysville Chamber of Commerce. Merchants have given their wholehearted cooperation in the contribution of \$1,000 for premium awards.

The feature of the four day festival are many. There never will be a dull moment and people will be rushing from downtown to the festival center at the Burley Warehouse to keep pace with the swift moving events. Daily free attractions will be offered downtown and at the warehouse. Door awards will

### Continued On Page Twelve

## Rural Route To Be Established In This County

Will Go By Way Of Hila And Farmers For Distance Of Twenty-Nine Miles

### MAIL DELIVERY SPEEDED

At last it begins to look like Morehead is to have a rural mail carrier service on at least one rural route. This news should be regarded especially by those who live along the proposed route as the big news of the day. The proposed route will start at Morehead thence to Hilda, East of Farmers, from Sharkey to Morehead and will include a distance of approximately 29 miles.

The move was started by Mrs. Mattie Burns, Postmaster, in cooperation with the residents of the territory indicated in the proposed route. Petitions were circulated by Carl Johnson and signatures of practically every citizen on the route were obtained. It is thought that even more would have signed had they not run out of paper.

Mr. W. L. Farrell, post inspector for this district was in Morehead Wednesday investigating the proposed route and measuring the proposed route and measuring the proposed route and measuring the proposed route.

Mr. Farrell's report will depend in large measure whether or not the route will be established. However, he stated to a News reporter that he had little doubt but that the route will be established in the very near future.

One of the effects of the establishment of the rural route will be the discontinuance of the post offices at Hilda, Sharkey and Blue Springs. The post office at Farmers will be continued as it is.

Howeve, the citizens along the route feel that they are entitled to the better mail service which the establishment of such a route will

### Continued On Page Twelve

## Dramatic Club To Give Plays Series

The Play Production class of the Morehead State Teachers College will present their first plays in the auditorium next Tuesday, Nov. 27.

"The Tangled Web," a comedy portraying an episode in an absent of those given, Katherine Jackson plays the role of a girl found in his room, but wants to go straight in the dutiful sister who becomes duly acted over her brothers predicament played by Marjorie Martin. June Malone takes the part of the "know all" detective.

Another drama is "The Rescue," by Stevens. It is the story of a girl (capably played by Helen Saxson) who does not believe life worth living because of her ancestry. Gladys Stevens will play the part.

## SMALL SON PASSES AWAY AFTER SHORT ILLNESS

Funeral services for Jimmie Jerome Gullett, two months old son of Mr. and Mrs. Watham Gullett who died Tuesday morning, were held yesterday from the home. Burial was made in the Lee Cemetery. The child had been taken to a hospital for a minor operation but after he was returned home he developed pneumonia which resulted in death.

The funeral services were conducted by Rev. B. E. Kasee. Surviving besides the child's parents are two sisters, Majorie and Eleanor Jane, and grandfather, J. A. Anglin, of Morehead.

## SHAWN HERE DECEMBER 10

Company Has New Repertoire Of Tricks With Three Added Dancers

Ted Shawn and his company of dancers are scheduled to return to Morehead, December 10 with an entirely new program. Professor Horton announced last week. Shawn will be remembered by many for his dazzling exhibition here last spring and no one can afford to miss this return engagement.

Stage personalities have glamour. But how would they stand the strain of everyday life? The eight young men who form Mr. Ted Shawn's company of dancers are an interesting and novel study in their relationship of art to life. No two are the least alike. They hail from nearly as many different states of the Union, not chosen for that reason but set chosen by their own fitness and by the powerful attraction of the dance as an art form to these individual talents.

They are trained to control every thing from their muscles to their dispositions. Their minds and characters are disciplined as well as their bodies. Strenuous as their lives in summer of necessity are, their lives in winter are equally strenuous as they farm up among the Berkshires in Massachusetts, are equally strenuous up at six, breakfast at seven, on the studio dancing floor at eight, a "cigarette-pause" at ten, at it again until twelve; they tray luncheon on the sun platform where Shawn reads aloud while they eat and sun bathe. These young men are not only

## MOREHEAD STORE OPENS WITH CHRISTMAS SALE

Christmas is coming to you early this year, at least in this issue of the News appears the first Christmas Message from the Morehead 5c, 10c, and \$1.00 Store. We call the attention of our readers to Mr. Bruce's ad in this issue. He has assembled for your enjoyment one of the largest stocks of Christmas goods ever brought together in Morehead and now has it on display. He invites you to come to his store and look over his line.

### Continued On Page Twelve

## DR. N. C. MARSH HONORED IN CHIROPRACTORS MEET

Dr. N. C. Marsh attended the meeting of the Central District of the Chiropractors Association Saturday evening when he was awarded the honor of being elected as Lieutenant Governor of the Central Kentucky Association of Chiropractors. Dr. Marsh has been located in Morehead for several years and in that time has built up a large practice as well as a large circle of friends.

## SPEAKER FROM INDIA TO MAKE ADDRESS HERE

Miss F. J. M. Moody, daughter of Rev. J. M. Moody, missionary in India, will speak at the morning service at the Christian church next Sunday.

Miss Moody was born and reared in the Central province of India. She was educated in the schools of India. She is at present in Hamilton College, Lexington.

## Gas Franchise Is Advertised For Sale Here

Several Good Wells In North Fork Section Are Available

### WILL BE SOLD DEC. 22

A franchise for the piping of natural gas into Morehead was advertised for sale this week by the City Council.

The franchise will be sold by City Clerk Roy E. Holbrook on December 22.

Following are the rates that will be charged for gas as set out in the franchising:

First 1000 cubic feet or less \$1.00  
Next 2000 cubic feet @ .55  
Next 2000 cubic feet @ .55  
Add cubic feet at .45

The franchise was passed unanimously on motion of councilman W. H. Rice and the second S. P. Caudill.

One of the bids, and possibly the only one that is expected to be offered will be from production in the North Fork section of Rowan County. This will insure a supply, which drillers say is ample, almost at our back door. Several good gas producing wells have been brought in recently in the North Fork section, and further drilling operations are anticipated.

For some time local residents have been seeking a supply of natural gas, but until the wells were drilled on North Fork there was little likelihood of immediately getting it.

The drilling of these wells opens a new industry in the large natural resources of Rowan.

The franchise that will be sold will be good for twenty years, provided the successful bidders provide satisfactory service. The gas is expected to be piped into the town within a few months.

### Continued On Page Twelve

## Suffers Burns In Explosion Of Gas

N. S. Worth, of Ashland gas shovel operator for the construction work on the highway at Haldeman, was painfully, but not seriously burned when the gasoline which he was washing the clutch exploded in his face and over his chest setting fire to his clothing. In his frantic efforts to stop the fire, he also burned his hands badly.

Mr. Worth was operating the machine at the time the accident happened. The clutch was slipping and he had taken gasoline to wash it. As the gasoline touched the hot clutch, it vaporized and exploded.

The injured man was rushed to Morehead, where he was given medical attention. Later he was taken home where he will rest a few days.

### Continued On Page Twelve

## P. T. A. TO HAVE TURKEY DINNER AT HALDEMAN

The Haldeman Parent Teachers Association will give a turkey supper at the Haldeman gymnasium next Wednesday evening from six until eight o'clock.

Entertainment will be offered after dinner. A single plate will be 30 cents and 2 plates 50 cents.

## F. E. R. A Project Nearly Finished

All skilled labor has been withdrawn from the F. E. R. A. job of remodeling the Rowan County Courthouse, and the work will be completed within a week, officials said.

The building has been papered and plastered all over and every room remodeled. There was created several new offices in the basement of the courthouse.

Practically all federal work in the county is at a standstill.

More jobs are expected to be started in Rowan as soon as the new relief organization at Louisville, which functioning recently, begins functioning.

### Continued On Page Twelve

# Basketball Practice Begins At College

## Open Schedule Against Grads Here Dec. 15th

Morehead College's basketball team this year will resemble in many respects the five that last year represented the Eagle institution last season.

The team will be small but fast. It was their alertness and ability to get down the floor faster than most of their opponents last year. The Eagles probably held the distinction last year of being the fastest breaking college quintet in the state.

Coach Downing released his almost complete schedule this morning. The Teachers will play four team games with seven S. L. A. A. teams, and meet the alumni once. There is also a possibility that they will play Georgetown, who is not on the schedule.

Dates for games with Centre and the University of Louisville have not been definitely decided on, but the schools have agreed to home and home games.

Besides these teams, the Eagles will play Eastern, Union, Transylvania, Kentucky Wesleyan, Berea and Louisville.

There are fifteen out for the team. Only two players, Wooten, a substantial guard who saw four years service and Combs, high scoring forward, were lost by graduation. All the rest of last year's team are back, while there is considerable material coming up from the freshmen.

There are ten men around whom the team will be built. They are Oxy, Ryan, Rossin and Fred Caudill, forwards; Roy Caudill and Parsley, centers; and Shuey, Adams, Francis and Johnson, guards.

Ryan played guard last year, but has been moved forward as a running mate for Oxy to fill the shoes of Combs.

Fred Caudill showed considerable promise last year and will be hard to beat out for a regular berth. Rossin is graduate from Lindsey-Walker Junior College and comes here with a good record, and will probably prove a good man next year and see considerable service on this year's team.

Roy Caudill apparently has the center berth sewed up. Caudill performed steadily all last season and improved greatly as the season progressed. Caudill is not a high scoring center, but has the ability to pivot shots in the goal circle.

Adams, Francis and Johnson all played on last year's team and earned letters. Shuey is one of the most promising to come up from the freshmen team. It is hard to choose between these men. Shuey and Adams are probably capable of scoring more points, but Johnson and Francis are the more stubborn on defense.

Coach Downing will not depend so much on a fast scoring team this year, but will stress defensive play more. As a general rule last year the Eagles were in the neighborhood of 35 to 40 points, but could not hold their opponents scoring down either. This year's team will also have to depend more on team work instead of the individual play of last year.

Morehead opens its schedule with the annual game against the alumni here December 15. They do not have a game scheduled until after the holidays besides the game with the freshmen team. It is hard to choose between these men. Shuey and Adams are probably capable of scoring more points, but Johnson and Francis are the more stubborn on defense.

The Schedule:  
Dec. 15 Alumni (Here)  
Jan. 7 Union (Here)  
Jan. 12 Transy (Here)  
Jan. 15 Centre (Here)  
Jan. 18 Eastern (Here)  
Jan. 21 Berea (Here)  
Jan. 24 Ky. Wesleyan (Hither)  
Jan. 28 Union (Here)  
Feb. 6 Berea (Here)  
Feb. 9 Ky. Wesleyan (Here)  
Feb. 15 Eastern (Here)  
Feb. 19 Centre (Here)

Dates for games with Louisville and possibly Georgetown have not been decided on.

### A Three Days' Cough Is Your Danger Signal

Don't let there be a cough like this. Fight them quickly. Consumption begins 1 year before it is powerful but harmless. Present it today. No narcotics. Your own doctor authorized to refund your money on the spot if you cough or cold is not relieved.

## Sport Splurges

The opening of the basketball season recalls the play of the Morehead College Eagles in the K. L. A. C. tournament at Louisville last year.

In their opening game the Morehead five disposed of Transylvania handily to go into the quarter finals. Morehead was conceded little chance against Western in their next game.

However the Eagles carried the fight into the "cekyur" Western team and outfigured them most of the way. It was case of some good big men: Western won the game in an overtime period, but Morehead fans will never be satisfied. Morehead was leading one point with a few seconds left to play. Gayle Mohney who was umpiring called a foul on Western, with Morehead privileged to take one shot. Dick Bray, the referee, came over and reversed Mohney's decision and gave the foul try to Western.

Those of you who remember how Hardin made that foul point and put the game into an overtime. Local fans have never quite gotten over Bray's reversal that decision when Mohney was in three feet of where it happened while Bray was on the other side of the floor.

In the overtime period Western made two foul points and Morehead missed a half dozen tries for field goals. The Hilltoppers then had easy picking in Wesleyan and defeated Louisville for the state championship. There is little doubt in the eyes of Morehead fans that Morehead would now be state champion. But not Bray reversed that decision, then they could have easily taken Wesleyan and ought to have beaten Louisville.

The sad part about it is that Western also won the Southern Championship.

There will hardly be a night during the basketball season that Moreheadians will not have a chance to see game. There will be at least five teams, maybe six, who will play here. Besides the Morehead varsity and freshmen there is Morehead High School, Breckinridge Training School and one or perhaps two independent teams.

The chances for a good season are bright for all of them.

Since the start of the Licking Valley Conference several schools are seeking membership. The latest is Bethel High School. Camargo and Frenchburg are also expected probably be given membership outside the loop. Schools that will side of these are Haldeman, Soldier Hitches, Sandy Hook, Ewing and Breckinridge Training School.

## Morehead Football Teams Suffered Disastrous Season With Only 4 Wins

Morehead football had its best Friday afternoon when the College freshmen scored a smashing victory over the Lieutenants of Centre.

The freshmen also had the best record of any local team with two lopsided victories, a two touchdown loss to the University of Kentucky and a tie with Transy.

The college team won two and lost four, beating Rio Grande 13-8, and East Tennessee Teachers 13-12, and losing to Centre 4-0, Transy 12-2, Eastern 7-0 and Union 15-8.

Morehead and Breckinridge High, both of whom are building for future years failed to break into the victory column.

The record of all Morehead teams: College Eagles: 0, Centre 47; Eagles 13, Rio Grande 8; Eagles 8, Union 15.

## Prospects Good For Fifteen Are Out! Net Game At Breck For Viking Team

The Breckinridge Training School stands a good chance of having a winning basketball combination this year. Their team should be especially good the second semester when several players, not inept, will become scholastically eligible at that time.

The following schedule has been announced for the Breckinridge boys: Flemingsburg (here) November 24; Owensville (here) December 1; Frenchburg (here) December 8; Sandy Hook (here) December 15; Olive Hill (here) December 18.

Home and games away from home have also been scheduled with Grayson, Boyd County, High, Soldier, and Olive Hill, but the dates haven't been decided. Negotiations for games are being carried on with Haldeman, Camargo, Ewing, and Ashland (B) team. The high light of the schedule is a game with the training school of Western State Teachers College at Bowling Green on February 15.

## Bird Season Opens Saturday, Nov. 24.

Quail season will officially open in Kentucky Saturday November 24 and will extend until January 1935, inclusive.

An abundance of Bob White have been reported by hunters out for rabbits. The rabbit season opened last Thursday and will close on December 31. There are plenty of rabbits, also, hunters report.

More hunting licenses have been sold this year in Rowan county than ever before. This is attributed to better times, and abundance of game, and stricter enforcement by game wardens.

Hunters should remember that it is necessary to have your license on you and that a federal duck stamp is required to shoot migratory game which includes duck, geese and jacksnipe, among others.

## Watson Wins Tennis Tourney

John Watson defeated Paul Holman 6-2, 6-8, 6-3 to win the fall Tennis Tourney. The match was well played and both players showed good form. The first set was won by Watson with comparative ease, but Holman came back to win the second set and square the match.

The third and deciding set was hard fought. Each player took his serve and another duce set was prevented when Watson broke through Holman's service when the count was 4-3 in his favor and then won his own service to end the set and match. Cold weather and high wind somewhat handicapped the players and prevented many people from viewing the match.

To enter the finals Holman defeated Caudill in a three set match 3-6, 6-3, 6-3. This was close match and Holman was rather lucky to pull through with a victory.

The tournament proved that there is a great deal of interest in tennis in this school. The spring tournament should bring out a larger field of entries and perhaps a cup will be awarded to the winner. Prof. Senff plans to have a tennis team next spring and play several of the schools in this locality. Most schools have such a team and the writer believes that there is enough interest here to warrant the establishment of tennis as one of the major sports of the school.

## Eaglets Score 31 to 0 Victory in Centre Tilt

The Morehead Eaglets' famed aerial attack functioned to perfection last Friday, and the highly-touted Centre Lieutenants went down to defeat, 31 to 0, here.

The 203 wares so effective by the aerial route that they picked up a total of two yards on passes, scoring three of their touchdowns in this manner, while passes placed the ball in position for the other times. The Lieutenants were stubborn on the ground but could not cope with the Eaglets in the air.

Surprisingly it was not Vinson, the freshman passing ace who tossed most of them Friday afternoon. "Mississippi" Dale, quarterback did a neat job of it and threw three of the scoring plays.

Morehead scored early when Stoble's punt was blocked on Centre 35 yard line. A pass completed for twelve yards and a first down on running plays put the ball on the eleven yard line. A minute later Vinson faked back and passed to Varney for the first touchdown.

In the second quarter Centre displayed its best brand of football when they held the Morehead eleven scores.

In the third period the Eaglets began clicking in a great fashion when they scored three touchdowns before the Lieutenants could recover from the barrage. Henderson, who played a great game as end, broke through and blocked a punt. He recovered on the 18 yard line. Dale then cut loose with one of his scoring yields to Mowery who ran twelve yards for a touchdown.

A minute later Taylor intercepted a Centre pass on the Loates 35. Dale faked an end run and again passed to Mowery who galloped 15 yards for a touchdown.

When Vinson was forced to punt on the next series of plays the Eaglets were soon in scoring distance again on running plays. Dale again scored a long pass which Vinson received and galloped to the 3 yard line. Wyant made the score on a reverse.

Vinson tossed a pass in the fourth yard line. Burton plucked over for the final score.

Morehead made 11 first-downs to 7 for Centre, and completed 12 of twenty three passes for 201 yards. Centre completed 9 passes for 56 yards.

## WIDENING MAIN STREET

The City Council's negotiations for a wider street through the center of Morehead appears to have borne fruit. This week the Kentucky State Highway Department began construction on widening Main Street through the town, so that at the narrowest place it will be 36 feet or more. Hereafter the state will also maintain the street, thereby taking a heavy burden from local taxpayers.

Just when the work will be completed is indefinite. All that can be said now is that the construction has begun and in the common vernacular, "Will be speeded towards completion."

While the work is going on it will probably work a hardship on many people, especially places that depend on tourist business for much of their proceeds. However, unlike most cities where street construction is going on, there will be no detour here, and although traffic may become congested at times there will always be ample room without detouring the traffic around Main Street.

Some sections of Morehead have always been a traffic nuisance. The red lights eliminated part of this, but the only lasting plan was the wider streets.

The beauty that the new streets will lend the city cannot be underestimated. Instead of a Main Street that at places narrowed down to almost a lane, the city will now have a wide thoroughfare for all through traffic that will be ample wide enough for safety. Although the street widening may cut off part of your lot, it will mean vastly more to the value of the property.

Most of the credit for this work should be given to the City, without any indebtedness paid for itself more than going over the street.

And while giving all due credit to the City Council, let us not forget that it was largely through the efforts of Judge Allie W. Young, who succeeded in having the law placed on the statute books, and who worked untiringly with members of the Highway Commission, that the work now being done was made possible. Hon. A. P. Plumer, Highway Commissioner from this district, also deserves credit. And last but not least, Mr. Warwick, resident engineer, has worked untiringly and unceasingly to obtain the rights-of-way to make this great improvement a reality.

## MOREHEAD'S MUNICIPAL WATERWORKS

The argument of private versus public utilities has been one of the many controversies in big business that have started since the war.

It is agreed in most places that the private utilities can actually can, for the most part, successfully compete with the municipal plants.

It is certainly true that in many cities the private utilities can actually provide their products cheaper than a publicly owned plant.

The Morehead Municipal Waterworks is a fine example of the public utilities succeeding probably much better than would the private. This waterworks which is owned by the city, without any indebtedness has paid for itself more than once, besides giving the consumer water rates that are anything but exorbitant. This low rate has been combined with very satisfactory service, and water that has generally come up to every sanitation test.

A study of the existing rates in most neighboring towns and in Morehead reveal that with but two exceptions Morehead provides the cheaper water.

Perhaps you have had a voucher on the City of Morehead. They are worth exactly one hundred cents on the dollar. Through the Municipal Waterworks this has been made possible. The waterworks is a money-making proposition for the Morehead taxpayer.

## ADVERTISING — A TOOL

Declaring that "advertising comes third not first," President H. T. Ewald of the well known advertising firm of Campbell-Ewald, throws out these thoughts that every merchant can well think about, early and often.

Advertising does not assume to be a cure-all for business ills, nor is it entitled to such a name. It does not presume to outweigh the advantages of sound product and sound merchandise. But when it is put on the same side of the scales with them, it moves the indicator the right way.

No complete business success was ever created by advertising alone. Advertising is an effective tool—that is constant being demonstrated, in the widening markets it helps to establish and hold. But it is only a tool. Unless there is a product of merit, marketed by proven methods, it is a tool that might as well never be taken from the tool-kit. Or, it is a tool that fails to do the job properly.

It is impossible to advertise successfully a poorly made piece of merchandise. To succeed, even with the best adver-

tising, the goods must measure up to what the buyer has a right to expect. Next to good product comes better sales management with adequate and economical distribution.

## NEWS FLASHES OF INTEREST

### SEEK FUNDS FOR PARK IMPROVEMENT IN STATE

Kentucky agencies interested in improvement of the States mileage of the Eastern National Park to Park Highway, have joined in an effort to obtain allocation of Federal relief funds for the project.

Data is being assembled on the cost of bringing Kentucky's 600 miles up to standard set by the Eastern National Park-to-Park Highway Association. These specifications call for a three lane modern highway, with four lanes through congested areas.

Maurice H. Thatcher, president of the association and ex-officio chairman of its executive committee, is serving as contact officer in synchronizing efforts of the association and allied agencies bound together by their common goal of immediate improvement of the great route.

### PRESIDENT OF L & N DIES ENROUTE TO LOUISVILLE

Whiteford R. Cole, president of the Louisville & Nashville Railroad, died unexpectedly at 9 o'clock Saturday afternoon aboard his private car on the Pan American train between Rocky Hill and Cave City, Ky., while on his way from Nashville to his home.

Mr. Cole has been in ill health recently and consulted with his physician at Nashville during the morning. After he left Nashville at 12:19 o'clock in the afternoon, his condition grew worse.

The only person with him was J. H. Jones, negro porter, who has been in charge of the president's private car for thirty-five years. The porter caused the train to be stopped near Cave City and a physician was summoned.

### NEGRO, WHITE WOMAN HELD FOR KILLING HUSBAND

A white farmers wife and a negro farm hand were held without bail after the negro was alleged to have confessed he killed the woman's husband on her promise of a home and a job the rest of his life.

The negro, James Childers, 19, was taken in custody as a material witness after his employer, James C. Woodruff, was found mortally wounded. Childers said a white man whom they found taking corn killed Woodruff in a pistol duel.

### TWO HELD IN CONNECTION WITH PERRY MURDER CASE

Cric Couch, 50, and his son-in-law Clarence Smith, 25, were placed in the Perry county jail Sunday afternoon in connection with the death of James M. Stanley 50, whose lifeless body was found near the tipple of the Suddly Coal Company this morning.

Stanley's skull had been crushed presumably with a coal pick. Stanley was formerly employed by a coal company at Verda, Harlan county.

### MAN DIES WHILE IN CHURCH AT LEXINGTON

An attack, suffered while he was in the choir loft of the First Methodist Church during the morning service Sunday, caused the sudden death of Isaac R. Hollon, 57, Sunday at Lexington.

Mr. Hollon after he was stricken was moved to a room adjoining the church auditorium and he succumbed within a few minutes to the death.

Mr. Hollon was employed as a foreman by the R. J. Reynolds Tobacco Company of Lexington. He had been a member of the choir of the first Methodist church for years.

### LONG MAY BE CANDIDATE FOR PRESIDENT IN 1936

Hayey Long plans to run for the presidency in 1936 on a third party ticket.

He does not believe President Roosevelt's popularity can survive two more years and considers he will have a chance to win his way to the White House on 3rd and Roosevelt platform.

### TWO KILLED IN PLANE CRASH IN WEST VIRGINIA

An airplane crashed at the Beckley, W. Va., airport, killing the pilot, W. W. Wells, 44, and W. O. Lay, 35, the one passenger aboard.

Witnesses said the plane went into a spin 600 feet up as Wells circled for a landing. The ship was badly wrecked. The two men had flown from their homes at Mullens to Beckley, arriving over Polley field this evening. Mechanical trouble developed as Wells banked prior to landing, and the plane streaked to earth.

### SAN FRANCISCO HIT BY HEAVY WIND AND RAIN

Wind and rain lashed the California coast, causing at least five deaths while heavy snows in the northern Sierra Nevada mountains disrupted highway and air traffic.

Trees were uprooted in the San Francisco bay region, power lines were damaged and basements were flooded in some sections as storm sewers failed to carry away the downpour of rain.

Two of the deaths were in an automobile accident attributed to slippery pavement and three were drowned in San Francisco bay after their light fishing boat capsized.

Joseph Duarte, 40, C. G. Silva, 36 and Johnny Costa, 30 of San Leandro, Calif. were the victims of the boat "tragedy." Duarte's 14 year old son, Walter, clung to the overturned craft for more than three hours and was rescued.

### ANOTHER TEXTILE STRIKE THREATENS TO BREAK OUT

Labor leaders representing all divisions of the textile industry served notice this week upon the Textile Labor Relations Board that strikes would soon be ordered in 200 mills unless satisfactory adjustments are made of cases involving alleged discrimination against union men.

The union officials, after delivering their blunt ultimatum to the labor board then sat in a six hour session to determine whether requests for local strikes should be granted immediately. It was decided that no strike action should be taken within the next few days.

### U. S. TREASURY'S EXPENSE LESS THAN EXPECTED

Despite the rapid rate of government spending, the Treasury was shown this week to be hundreds of millions of dollars behind President Roosevelt's estimate of expenditures for this fiscal period.

In his message on January 5, the Chief Executive made provisions for the expenditure of \$14,500,000,000 in the two fiscal years ending June 30, 1925.

While Treasury figures showed that \$2,603,977,000 had gone out of Federal coffers in the four and a half months since June 30, experts figure that about \$6,800,000,000 would have to be spent in the remainder of the fiscal year to fulfill Mr. Roosevelt's estimate.

### ROOSEVELT VISITS NORRIS DAM AND OTHER WORKS

President Roosevelt circulated the Tennessee Valley, convinced from his two days inspection of the practicability and feasibility of early extension of this power and human welfare development to the other three corners of the Nation on a broad scale.

Secretary Ickes, advocating a huge new public works programme, termed the Tennessee Valley experiment a magnificent success, and he and the president talked about plans for the future tonight aboard train. However, there was no sign of the Presidential attitude toward the size of next year's expenditure for public works.

In this connection Senator Barkley of Kentucky, a member of the finance committee a member of the finance committee, and Representative Bryns, House Democratic floor leader, left the train late today, stating a belief there would be no revenue raising bill, although perhaps some of the emergency levies would be extended.

## HOW'S--- BUSINESS??

Here And Everywhere

Evidently the depression is just about over. Leastwise, we do not hear the word so often.

Time was, when seventy-five percent of all conversation was about the depression.

As a matter of fact, no real depression ever hit locally. True, there was a great letdown in business, and people watched their pennies closer than they had their dollars, but we had no knowledge of starving families and people raiding the garbage cans for enough food to subsist on.

### MONEY MANAGEMENT

The National movement for the saving of money management in the public schools of the country appears to be growing by leaps and bounds, and seems to be a healthy indication and natural consequence of the recent world wide depression.

Money management has been a successful part of the curriculum of the Brookline, Massachusetts, public schools for six years, and now the Minnesota Congress of Parents and Teachers has gone on record in favor of teaching money management in the Minnesota public schools and Investors Syndicate, which sponsored "Living Protection," has aligned itself wholeheartedly behind the movement. Massachusetts, Minnesota and Investor Syndicate are to be heartily congratulated on this forward movement, which undoubtedly will continue to spread until it blankets the country. Now that the ice has been broken, indications are that the teaching of money management will be pushed by the National Parent Teachers Association, and by many of the various state PTA's.

Reports from Brookline show that savings accounts in Brookline banks are larger and consistently growing, that financial obligations were regarded more seriously, and that there is less haphazard spending.

### "NEW DEAL" FAITH

Faith in business as carried on by president Roosevelt in his "New Deal" plan was expressed by the voters all over the nation in the November election, the first time that the administration has won a victory in an off year election since the Civil War.

Kentucky swung right in with all the rest in endorsing the program

by electing eight Democratic Congressmen to one for the G. O. P. and making the Court of Appeals wholly Democratic. All the Democrats had to do was to announce their major platform as whole heart ed support for the New Deal.

Roosevelt's policies may not be finding a warm spot with the big business men, but it has certainly found a hot place in the voter's eye.

### ROAD BUILDING—IN ROWAN

Perhaps more people have earned a living during the lean years from work on road building than any other thing. In the midst of the economic crisis hundreds found jobs on roads. Rowan County never knew an era of road construction that equalled that of the past three years.

### "DOUGH BOYS"

When the American bankers came to Washington for their national convention they had "blood in their eyes." They were going to tell Roosevelt—"now, wavy, yes, they would! But he appeared before their association and "talked turkey" and flashed his presidential smile. After that the Olive branch was extended by Jackson E. Reynolds, president of the first National Bank of New York, as spokesman for the banking forces of the country.

Believe it or not, it looks as though the new union of government and bankers is a good match. For the sake of the public let us hope that the twin "may live happily ever afterwards".

### CHICAGO PICK-UP

A combination of the "New Deal" and the two years "World's Fair" apparently has worked wonders for the business in the windy City that the people are actually paying their taxes, and there appears the possibility of making a substantial payment on their federal loans, with which they paid off more than 50 thousand school teachers, who had not received their salary checks for almost three years.

Business is not at its best in Chicago, but it is good considering the low level to which it sunk during the depression years.

# Kentucky Farm News

FROM UNIVERSITY OF KY. EXPERIMENT STATION

A ruling effective Nov. 1 relieves farmers of liability for paying the processing tax on hogs which they sell to commercial buyers or dealers, but makes such dealers liable for the tax.

As a result of this new ruling, says a statement from the College of Agriculture, farmers are liable for the processing tax only with respect to hog products sold direct to consumers, in excess of the exemption allowed under the tax regulation.

No tax is required to be paid by producers who slaughter their own hogs and sell direct to consumers

not more than 300 pounds of meat. If more than 300 pounds are sold, then there is a tax on the excess up to 600 pounds. If more than 1,000 pounds are sold in one year, the 300 pounds exemption is lost and the tax must be paid on all hogs slaughtered.

The 300 pound exemption does not apply to farmers who slaughter hogs not of their own raising.

Tax forms are obtainable from the Collector of International Revenue, Hog Progression Division, Custom House, Louisville.

## Farm for Sale

A farm known as the W. P. Cogswell farm on Christy Creek, on improved highway, 5 miles from Morehead. Containing 100 acres, more or less, for sale at a reasonable price. For further information see or write,

**Clarence Crouch**

Route No. 1 Owingsville, Ky.

they planned to raise, since testing because general they often raise 95 percent of the chicks obtained from tested flocks.

Eggs from tested flocks are in demand by hatchery operators, who pay to 15 cents a dozen above market prices.

Farmers desiring to have their flocks tested should confer with hatchery men to

write to the college of Agriculture for further information.

Good pasture simplifies the feeding of good breeding hogs. Where it is not available, alfalfa hay makes a good substitute. The second or third cutting, cured green and with fine stems, is best. Gilts do well on a pound and a half of hay and 5 pounds of grain or less daily, depending on their size.

Grady Sallards of the College of Agriculture, suggests the following rations for bred sows: Pasture, or alfalfa hay self fed in a rack, and corn, or a mixture of ground corn with 2 parts of wheat shorts, 12 parts of grain and one part of tankage, all by weight. They also should have before them a mineral mixture of 30 pounds of ground limestone or wood ash, 40 pounds of bone meal and 20 pounds of salt.

Sows should have exercise. This should be brought about by feeding them at a distance from their sleeping quarters. Water is important, and it should be slightly warmed in cold weather.

The Henderson County Homemakers Club gave a program of music, dances and skits depicting mountain life, before the Henderson Music Club. Attired in appropriate costumes, the women sang ballads and other mountain songs, accompanied by banjos, guitars and violins, performed in folk dances and staged skits, musical dialogue to the delight of a large and enthusiastic audience.

The number of turkeys to be marked this year is only about 93 percent as large as last year, according to the bureau of Agricultural Economics.

This fact, together with the reduced supply of other poultry and the higher prices of meats and foodstuffs generally, should make prices higher than last year, says a statement from the College of Agriculture, University of Kentucky.

Shortage of feed in many sections may result in a greater proportion of the crop than usual being sold at Thanksgiving time. If this does occur, turkeys may bring better prices at Christmas and later in the winter.

The greatest reduction in turkey raising occurred in the Dakotas and Minnesota, where there are less than 75 per cent as many of the big birds as were produced in 1933. In Texas, there are about 90 percent as many birds as a year ago. In some of the central states, where turkeys are of secondary importance, production is somewhat larger than in 1933.

Storage holding of turkeys are a little larger than last year but smaller than three five year average.

At least 1,000 Kentucky farmers will attend the national convention of the American Farm Bureau Federation in Nashville, Tenn., Dec. 10-12, according to Ben Kilgore, executive secretary of the Kentucky Farm Bureau Federation. Several western counties will be represented by 100 delegates each, and the program and other sections will send a large number of farmers.

The convention's program will be of world wide interest, and it will set forth policies as they affect agriculture, industry and business. The Hon. Cordell Hull, secretary of

state, will make an address on the subject, "The American Farmer and Reciprocal Trade Treaties," in which he will discuss the tariff barriers and their subjects follow.

Henry A. Wallace, secretary of agriculture, "The American Farmer of Today and Tomorrow," Chester C. Davis, administrator of

in adjusting the program of 4,000,000 acres.

H. R. Tolley, assistant administrator of the AAA, "Marketing Program of Land Utilization and Conservation," John G. Winant, governor of New Hampshire, "Social Problems of Today,"

W. M. Myers, governor of the Farm Credit Administration, Proper Financing of the Farmer. Dr. George R. Warren, Cornell University, "The Monetary Situation."

Kentucky farmers are eligible enter a national contest being conducted by the Northern Nut Growers association, Geneva, N. Y., in which cash prizes are offered for the best black walnuts, hickory nuts etc. The association is endeavoring to discover and perpetuate the best native nuts.

Clovers are especially affected by age, and all old seed should be well tested before sowed.

Plans are announced for a census of agriculture, to be taken by the Bureau of Census, U. S. Department of Commerce, next year in accordance with the law which provides for a farm census every five years.

The census will be one of the most important and complete ever taken, according to the announcement. It will include information on farm tenure, farm acreage, crop land, pasture land, vegetables and fruits; number and value of all animals; number and eggs; farm population, etc.

Dr. Gustav Eglhoff, noted scientist and authority on oil production, will lecture before the Lexington section of the American Chemical Society at the University of Kentucky Nov. 26. All persons interested in oil, gas and related industries are invited to hear him.

Dr. Eglhoff has been granted 184 patents on processing of oils, coals, shale oils and chemical derivatives from hydrocarbons, has written the oil industry, and lectured at numerous articles and books on universities here and abroad. He has given a certificate of appreciation for his services at the Century of Progress.

Chilling is an important part of home hog butchering, points out Grady Stellard of the College of Agriculture. Killing should be done when the temperature is near or below freezing. Proper curing and preservation of pork cannot be had unless the carcass is completely freed of animal heat. Well finished hogs weighing around 200 pounds is most satisfactory for home butchering. They have consumed less feed per pound of pork produced and are easier to handle than heavier hogs.

Lee county farmers bought 850 tons of ground limestone in October, the largest amount ever used in the in one month. Much of the corn-hog money received from the Government is being used to lime and fertilize the soil and make other farm improvements.

## CAMPUS CLUB TO VOTE ON NEW MEMBERS

The Campus Club men's honorary organization, held a special business meeting Monday, November 21, 7:30 p.m. in the Recreation Room of Field's Hall. President Wait Priskard called this meeting and presided.

The purpose of this meeting was to draw up plans for taking in new members at the next regular meeting. This club has a large number of prospective members but only few are taken in each year so it is necessary for the club to weed out all undesirable candidates and decide which of the desirable ones will be admitted to membership.

## CADUCEUS CLUB GIVES FREE MOVIE FOR CLUBS

The Caduceus Club, pre-medical organization, sponsored a scientific picture show Thursday, November 15, at 6:30 p.m. in room three of the Administration building.

The Caduceus Club had as its guests the recently organized Mathe matics and Chemistry Club and the Beta Zeta Club. The picture they sponsored dealt with scientific subjects that were of interest to all of these clubs since the work and interest of these clubs are related.

## Geography Council Meets At M. S. T. C.

Delegates From State Schools Here For Discussion Of Geography Problems

The State Council of Geography Teachers held their fall session at Morehead State Teachers College on November 16-17. This council of geography meets bi-annually for study and discussion. This meeting was the Fall Session which is held at one of state teachers colleges. Misses Catherine Braun and Ella Wilkes presided over the session.

The council opened its session with an address by Professor W. E. McConnell, Head of the Department of Geography of Miami University, which was delivered at college convocation Friday morning. Mr. McConnell spoke on "Why We Americans are different from other peoples."

This, he said, was due to three factors. 1. The isolation of America. 2. Selected immigration (Only the active, restive element of Europe came.) 3. The bigness of the country. He pointed out that these factors had made us the greatest nation on earth. Man has always been motivated by two things, what to do to get a living? and what does life mean? So far this country has combined these two things, we must continue to do so if we are to endure.

At another morning session Dr. J. D. Falls, Dean of M. S. T. C., spoke on "Some Specific Qualifications and Training Essential to the Geography Teacher." He emphasized the importance of knowing the facts and being able to point out the different relationships of facts. He stated that geography should be connected with all the other subjects of the curriculum.

In the afternoon session various phases of the subject were discussed. Mr. McConnell spoke again, this time on "The Interpretation of Geography." Miss Bita Mae Paulson, Morehead S. T. C., spoke on "Applied Field Work in the Elementary Grades." "Applied Field Work in College" was the subject of Mr. J. B. Griffin of Western S. T. C. The afternoon discussion was closed by Miss Ruth Clemmen, Former Asst. Superintendent of Schools, Streator, Illinois, who gave a talk on "New Concepts of Study Methods in Geography."

The guests were entertained at a tea in Thompson Hall, given by President and Mrs. Payne. Mrs. J. D. Falls served as Acting Hostess. This was followed by a buffet supper in the college cafeteria.

The meeting was a success and was enjoyed by the many students in attendance in the institution. It is hoped that Morehead may be the site of another such meeting in the near future.

**FOR THANKSGIVING**

Why, there are lots of hardware store things you need for Thanksgiving and Christmas, pots, pans, cups, kettles and, of course, nice table cutlery, now spoons, and a beautiful Carving Set.

Come in and look around; you will go with an arm-full of things for a little money.

Our Hardware is BEST; Stands the TEST

# Kennel Murder Case

BY S. S. VAN DINE

Copyright by W. H. Wright WNU Service

Well, that lets me out. He squinted at me in a peculiar way. I suppose you want to see my dog. I'll say so. The sergeant's head was enveloped in a cloud of cigar smoke. When can we get it? Tonight if you must have it. Doremus drew a sheet over the prone figure on the bed, and made out an order for the removal of the body. He shook hands cordially with every one and walked briskly toward the door.

Just a moment, Doctor. Markham's voice halted him. Any remote possibilities of suicide here? What! Doremus wheeled in surprise. Not a chance. That bird was stabbed in the back, couldn't possibly have done it himself. He died of internal hemorrhage caused by the stab. He's been dead eight to ten hours. Maybe longer. The bullet in his right temple don't mean anything he was already dead. Societal? Hub and I sat with a wave of his hand went out. Markham stood for a time looking unhappy at the floor. Finally he made a commanding gesture to the sergeant. Get the fingerprint men and the photographer. We're in for it. And you'll take charge of course. I hope, Sir, said a bit pleadingly to Markham, that you see nothing to step out on this case. I don't like the way things stack up. Almost anything might have happened here last night.

There, I shall remain and do all I can. He must be some simple explanation, and were sure to find it sooner or later. Don't be discouraged, he added, in a kindly tone. We haven't begun the investigation yet. Vance had seated himself in a low backed chair near the window, and was smoking peacefully, his eyes on the ceiling.

Yes, Markham, he spoke languidly yet with thoughtfulness, there's some explanation, but I doubt if it will prove to be a simple one. Let us summarize, for the sake of clarity, before we proceed with our interviews of the family and guests. First Coe was struck over the head and rendered unconscious. Then he probably stumbled against some hard object and broke a rib. All this was evidently preceded by some sort of physical contact. Coe was, we may assume, in his street clothes at the time. Later on, how much later we don't know, he was stabbed in the back, through his coat and waist coat with a small peculiarly shaped instrument, and he died of internal hemorrhage. At some time subsequent to the stabbing, his coat and waistcoat were removed and carefully hung up in the clothes closet. His dressing gown was put on, buttoned and the belt neatly tied about him. Moreover, his hair was correctly combed, but his street shoes were not changed to bedroom slippers. Furthermore we found him sitting in a comfort-

# Speech Delivered By C. Van Antwerp

Increased Armaments Marked Among Leading Nations Of World

Professor Charles Van Antwerp, of the Training School, made an Armistice Day address at Convocation Monday morning, November 12th. He dealt with Wilson's Fourteen Points and the status of the world at present.

The Congressional elections of 1918, which did not support the president, weakened Wilson's position and made his Fourteen Points ineffective. Wilson was forced to sacrifice his principles for the sake of a treaty of peace but he hoped that the League would iron out the differences of the several nations. Despite the formation of the League of Nations, the situation today is more appalling than that of 1918. The nations of Europe have been a steady retrogression since 1918. The nations of Europe and the world are coming to the tacit pact of any force. There has been an increase in armaments over those of 1914. This is a 25 per cent increase in Great Britain to a 130 per cent in Japan.

The agency behind this increase in armaments, has been the armament manufacturers. They work unceasingly for war. They have agents in every country to stir up trouble and to sell their products of destruction. It is peculiar that while the German nation is not able to pay its debts, it is able to carry out a huge military program. Van Antwerp quoted a passage from one of Fiedick's addresses concerning the "Unknown Soldier." This Unknown Soldier asks us today "What is the great new era? What is his place and prosperity you spoke of in 1918? Did you not say that this was a war to end war?" Fiedick condemns war in no uncertain terms. The results are the same for victors and vanquished. Starvation, suffering, dictatorship are the results of war.

Van Antwerp concluded his address with the plea that we make Armistice Day a day when we pledge ourselves that there shall be no more war, thrust the pretences of false leaders aside, subvert the schemes of armament manufacturers, and enter into a period of peace such as the world has never known.

# Lloyd Debate Club Plans Programme

Invitations To Two Tournaments Received By Club This Fall

Resolved: "That the Nation should agree to prevent the international shipment of arms and munitions," has been selected by the Lloyd Debating Club as the principal subject of debate for the year, according to Dr. A. Y. Lloyd, sponsor of the organization. Numerous invitations have been received for engagements with representative teams from this section of the country. The Lloyd Debating Club has been asked to participate in the mid-south tournament at Conway, Arkansas. This series of matches will be sponsored jointly by Hendricks College and Arkansas State Teachers College, both located at Conway.

The team has been also invited to enter the South Atlantic States forensic tournament, at Hickory North Carolina. This tournament will be sponsored by the North Carolina Intercollegiate Forensic Association. Tentative schedules have been made with the following colleges: Asbury Davis and Elkins, Morris Harvey, Salem, Ohio Wesleyan, University of Cincinnati, and Washington and Lee.

As minor subjects the club will use, resolved: "That the Federal Government Should Make Annual Grants in Aid to Public Elementary and Secondary Education."

# What Vocation Shall My Boy Choose?

By A. B. Clements, Director, Mechanical Schools, International Correspondence Schools.

We live in a changing world. Opportunities for success in the future will differ from those of the past. A young man's wise choice of his life work may do much to determine success or failure. How shall he choose?

Ground Aviation  
For every aviation pilot in the air there are four to six men on the ground who are necessary to keep the pilot aloft. These are the men who build the engines and planes, who check them and keep them in condition.

Through good years and bad, air mileage has steadily increased. What the limits of this progress will be no one can now foresee, but as progress continues there is the need for skilled men on the flying fields and in the factories where the planes and engines are constructed. Few lines of work offer better opportunities to the young man starting on his career. To be an aviation technician requires both experience and technical knowledge. License requirements and other government regulations make it impossible for any but highly skilled men to succeed. These requirements, however, are the opportunities for the young man willing to work, to study and to learn.

The most direct start toward success in this field would be getting a job as a helper or apprentice where planes or engines are built, or in a shop at a flying field. If it is impracticable, the young man can get a start toward the ultimate goal by obtaining a similar job in a shop where almost any type engine is built, assembled, or repaired. The job itself, whether in aviation or a field allied to it, will supply valuable experience, while the necessary technical knowledge can be obtained through reading and study during spare time.

# NOTICE: RURAL TEACHERS IN NEED OF BOOKS

Rural school teachers in eastern Kentucky who are in great need of books can secure without charge a limited number of books for the use of their classes by following the instructions below.

Write to Ralph M. Hudson, instructor in Art, Morehead State Teachers College, giving the following information: name, address, name and location of school, list of books most needed, reason for lack of books, type of school, number of children, where teachers receive training, and name of county superintendent. This information is being requested to enable those in charge of the distribution to select the cases most deserving of attention. From the letters received, recommendations will be made to the member of the staff of the University of Kentucky who is sponsoring this commendable distribution service.

# Dr. Hoke Talks At Convocation

"What Is Good For The Swarm Is Good For The Bee" Is Subject

Dr. Rex Livingston Hoke, Associate Professor of Education, delivered the principal address at Convocation Wednesday morning, November 7 His speech, the second of a series concerning National Education Week which was November 5, 10 this year.

Dr. Hoke spoke on this question, "Can education produce an individual who can operate without a profit motive?" with a subtitle "What is good for the swarm is good for the bee." He said that a college audience always gave him the "jitters" but that he had to do his duty. He pointed out that a speech must contain yarns and then a serious part during which the audience should put on the after-dinner speech face.

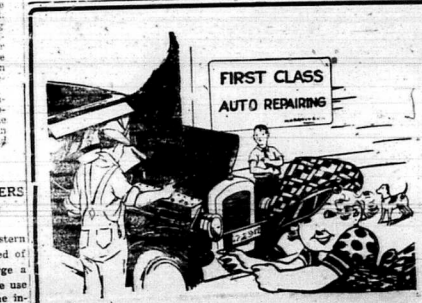

Dr. Hoke gave a brief synopsis of the present conditions existing in the United States, which he termed the "Present National Crisis." The crash of 1929 was the result of an unequal distribution of wealth, 95 percent of the wealth being in the hands of 5 percent of the people. He stoutly defended the N. E. A., concluding that the great work of this system was not relief but social reconstruction. Business should be non-profit and for the general

# Student Senate To Hold Session

Harry Davis, State Legislator, Side By Group

Despite the fact that the 1934 general assembly definitely decided that the gross receipts tax would be imposed upon the citizens of Kentucky, a senate composed of members of the Lloyd debating club and Dr. Lloyd's political science classes has been elected on sales tax and anti-sales tax platforms to throw out the question in an informal assembly during the next two weeks.

Harry Davis, himself a member of the assembly which decided the question in the extraordinary session of the state legislature last summer, has been elected to preside over the senate. Mr. Davis is qualified in every respect to conduct proceedings but we regret to discover that the clerk's record shows that he voted against the bill last summer and he therefore cannot render a fair hearing on the bill and still remain of the same mind that prompted him to vote "unpinned" times to kill the measure.

# If Your Motor Could Talk

If your motor could talk would it complain of the many long tiresome hours that it has run without any attention? You may injure your motor by neglecting some little thing that will eventually result in an unnecessarily large repair bill.

# City Gas Ordinance

On motion of W. H. Rice, seconded by S. P. Caultill, the following franchise was offered for public sale:

1. That there is hereby created and established a franchise or privilege and authority to construct, operate and maintain a main gas pipe line and distributing pipe lines for natural gas along, across, and under any and all the public streets and alleys of the city of Morehead, said pipes to be laid and constructed underground, at a reasonable depth, of not less than three to eighteen inches, and laid and constructed so as not to interfere with the travel and traffic upon said street and alleys, nor to interfere with the drainage of said city; said pipe line, or lines so constructed as to be used by the purchaser or his or its assigns, for the purpose of carrying natural gas through and about the City of Morehead, and distributing the services to the Citizens and inhabitants of Morehead and community and to other points either far from or near the City of Morehead, but no obligation is assumed by the said City outside of the city limits; and it is further ordained that a right is hereby created to lay and construct one pipe line for oil through said city in a place for marketing, and said oil pipe lines, as well as gas lines, to be constructed and laid underground as aforesaid, so as not to interfere with the free use of any of the public streets, and to be connected in a good and workmanlike manner, and to be operated and maintained by the purchaser or its assigns in a suitable and presentable manner, and the privilege is granted to erect a building somewhere on the outer edge of the city for the purpose of reducing the power of gas before it enters the city for distribution and use, and to be a house suitable for such a business, the same to be erected by the purchaser of this franchise or its assigns at the expense of same.

2. The said franchise or privilege may continue for a period of not

exceeding twenty years, to commence immediately upon and after the confirmation of the sale of the same.

3. The purchaser of said franchise is granted the right to sell, assign and transfer same.

4. Said gas and oil pipes shall be laid, constructed and maintained in a good, workmanlike manner, as relates to private property, and so as not to interfere with any legitimate entrance to or upon and adjacent private property, and so as not to obstruct the free use of any private passway in, or to upon any private or public property.

5. The purchaser of this franchise or his or its successors or assigns shall have the right upon all public streets and alleys of said city, to dig and excavate in the usual and necessary way, to lay, construct and remove said pipe line, but they shall promptly and substantially replace and make good all paving and replace said dirt, excavation, debris, or macadam, that may be disturbed or torn up or dug up in the construction of, or laying of said pipe line, and will put same back in as good condition as it was before any disturbance; all work to be done under the supervision of the city council or some one it may designate, but such supervision by said city is to be done without cost or expense to the purchaser of this franchise, or its successors or assigns, and the purchaser of this franchise shall have the right at any time to repair lines connecting with main when necessary.

6. The said city will not grant any other franchise of like nature or kind so as to interfere with the free use and operation of the pipe lines herein mentioned, nor the rights and privileges herein contained; and will not grant a privilege to any other person or persons to lay gas and oil pipes along and under the said streets and alleys closer than within ten (10) feet of any of the pipes laid under the authority of this franchise.

7. The purchaser of this franchise or its successors or assigns shall have the right to sell, market, and furnish gas for any and all legitimate purposes to the citizens and inhabitants of the City of Morehead, and the said citizens shall have the right to contract with the purchaser or his or its assigns for the use of said gas for any and all legitimate purposes, and to any ex-

cept that said purchaser or its assigns may be able to furnish; subject, however, to the amount of gas power that may be available and said citizens may by consent of the owner of owners of said gas, direct same by tapping the main gas line and conveying same to their respective places of business and to their residences, the holder of the franchise not to be required to carry to lay consumer lines for more than two hundred (200) feet beyond the consumer's cot. The price for said gas to the consumer will be not to exceed the following rates:

- (1) 1,000 cubic feet or less, \$1.00 per 1,000 ft.
- (2) Next 2,000 cubic feet . \$0.60 per 1,000 ft.
- (3) Next 2,000 cubic feet . \$0.55 per 1,000 ft.
- Next 5,000 cubic feet or more \$0.45 per 1,000 ft.

8. Should the purchaser of this franchise, or his or its successors or assigns, fail to comply with and to use and exercise the rights and privileges under this franchise with in a reasonable time, say one year, then the right herein shall be forfeited by the city council, giving ten (10) days notice of its intention to declare said forfeiture.

9. When the bid of the purchaser of this franchise shall have been accepted and approved by the city council, it shall be and become a binding and continuous contract between the City of Morehead, as grantor, and the purchaser, as grantee, and his or its successors or assigns.

10. No bids for gas supply to be considered where bidder does not have an adequate supply of gas within ten (10) miles of the City of Morehead.

11. It is, therefore, ordered by the City Council of Morehead that the above and foregoing established franchise shall be sold at public outcry to the highest and best bidder at the front door of the city hall, in the City of Morehead, Kentucky, and that said sale shall be advertised for at least thirty (30) days prior to day of sale, by posting up at least three (3) written or printed notices in the most public places in the said city and by advertising same in the Rowan County News, a paper in general circulation published in said city, at least three (3) times weekly, prior to day of sale; said advertisement shall set out in full the description of said franchise, stating

its terms and privileges as set out and created herein, and any property to bid on said franchise is hereby required to put up a certified check in the hands of the city clerk for Fifty (\$50.00) dollars, to insure the cost of advertising; and the successful bidder shall have credit on the purchase price for said sum, and the unsuccessful bidder will have same returned to him and the terms of the sale shall be for cash in hand.

The franchise, ordained by the city council that Roy E. Holbrook, City Clerk, be and he hereby appointed and authorized to make said franchise for and on behalf of the City of Morehead, and he will advertise same for sale on Saturday, December 22, at the front door of the City Hall in Morehead Kentucky at 1:00 P. M. or thereabouts.

## BETA ZETA PLANS BIRD FEEDING PROJECT

At a regular meeting of the Beta Club, an organization of biology majors, held in the biology laboratory rooms, held on Tuesday evening, October 30, two projects for this semester were decided upon. These projects are: first, a bird feeding and banding station, and second, nature photography for the grades of the training school.

The committees appointed to outline the club's work for this semester have not yet submitted their reports, but they have already completed their plans and the club will soon start putting these plans in action.

The president of the Beta Zeta Club, Miss Clara Lane, invites all those students who are interested in the activities of the club to confer with her.

## What Your Kidneys Do

You may never have thought much about your kidneys, and yet— Those kidneys keep you alive. People have lived without stomachs; but if your kidneys quit work you would die quickly of the poison which would be constantly taken out of your system. This is the great work of your kidneys. The kidneys and bowels, with some help from the pores of the skin, share this great work. If it is done regularly and thoroughly, to keep you well.

When your body won't purify itself of these poisons, or toxins, it must be helped.

Thousands in America have found in Crazy Water Crystals a simple, natural way to get this help—victims of stiff neck, aching joints, and migraines; of constantly upset stomachs; of headaches and dizziness, and of other common disorders that so often result when the body fails to eliminate these impurities as it should. They have found in Crazy Water Crystals this help in the form of a cleansing, purifying mineral water—which they can make at home for just a few cents a gallon.

This help must be something more than just moving the bowels. It must cleanse the system—not just the digestive tract. Drinking this mineral water increases "elimination"—helps this purifying process—through the kidneys, as well as the bowels. With the cause of the trouble corrected, then Nature has a chance to get rid of the pain.

Crazy Water Crystals are not magic. They will not help every case of the human body. If it is suffering muscles or joints (you may call it "Rheumatism," or "Arthritis," or "Neuritis")—or if severe headache, or extreme nervousness and loss of sleep, or a badly tired and worn-out Crazy Water Crystals a few times through a month, at least. Then you can be the judge.

RURAL ROUTE

(Continued From Page One)
bring-it will mean that they will be able to get their mail daily at their door, without waiting several days and without making a trip to the post office.
If the present proposed route is established plans are already on foot for the establishment of at least one and possibly two additional routes out of Morehead. Such routes will serve the purpose of bringing Morehead closer to the citizens of the rural sections of the country.
The Rowan County News has agitated the establishment of rural mail service for several years, and is delighted to see its effects bearing fruit.

TED SHAWN

(Continued From Page One)
gentlemen in private life, but also on their way to become scholars, if indeed not already there. On tour, the strains on their energy are severe and often excessive. The comradeship which exists among them suggests a blend of the seasoned college football team with the loyalty of a military organization; and the stage is marked by their personality. In watching Mr. Shawn's young men, the spectator can have the assurance that the distinction and manliness of their appearance on the stage is matched by their performance on the stage of private life.

CLASS PLAYS

(Continued From Page One)
Allen plays the stately aunt, "Katy" the cook who saves the girls life, is portrayed by Nancy Bots.
Closing the program is the play "You". Sadie W. Waters, plays the character, "Life". Leola Caudill, Penelope and Jack is represented by John Paul Nickell. The play is an inside of life as it is lived today with the theme of "Love Is No Money" The Direct Object - it is longer.

MAIN STREET

(Continued From Page One)
project are more or less in advance. Funds for the construction of the street and sewer comes directly from the federal government through the highway commission. It is taken from the funds set aside for the construction of federal highways through cities and towns.
The project when completed will give Morehead one of the finest streets of any city in Kentucky of ample width for traffic for years to come.

INDIA SPEAKER

(Continued From Page One)
The women of the Women's Missionary Society, will attend in a body. Young people and college students are invited to hear Miss Moody. The Christian Endeavor Society of the church will attend the Vesper services at the College at 5:30 at which time Miss Moody will be the guest speaker. There will be no Endeavor meeting at the church. The public in general is invited to these services to hear something first hand of the life of the elephant, the man eating tiger and the Brahman.
