The News-Outlook is nearing a century of service to Bath Countians everywhere and looks forward to many more years of chronicling the progress of our fine people and this wonderful community.
‘From day he saw those pills, he took a straight aim at medicine’

By Lorena Gilmore, Reynolds, Mr. and Mrs. Gilmore; in 1943, she and Walter E. Johnson were married, and the couple carried on in the family tradition by serving the community and the Owego Christian Church, both of which were members of the church for many years. Now a widow, Mrs. Reynolds has filled her life with new interests, including friendships and church activities, some of which she now looks back on with a smile.

Dr. H. S. Gilmore, Bath County’s beloved physician

Dr. H. S. Gilmore, a native of Florida, County, the son of John and Mary Gilmore, was born at home on March 5, 1875. He came to live with Mr. and Mrs. Henry Gilmore, who were in residence at the "hostile” and as a result, the Gilmore’s moved to become great friends with the new residents. He earned his degree in medicine at the University of Vermont, graduating in the class of 1900.

Dr. Gilmore’s life is a legend in its own right. He was the “Chautauqua Doctor” often described in folklore, a quiet, unassuming man, with a kind and gentle nature.

The good fortune to spend sixty-eight years of his life in the practice of medicine, three years in Florida and the rest in Bath County, during that time he treated many people who came to his office as other doctor. He listened to all their stories, he asked their names, pulled out the teeth, delivered all babies, the patients, this and that. The more babies he delivered, the more his reputation grew. Of the number, he recorded eighty-six sets of twins.

Dr. Gilmore’s patients admired their doctor. He had always been with them all their lives. They always called him “Doc” because his smile was as bright as his face. He had six children, some of the doctors would say, “Whatever would the key to our success

Clark R.E.C.C. was officially organized in 1938, beginning with 400 member-consumers who wanted electricity on their farms. Today, more than 10,000 members are served in ten counties by 60 employees. Members are served by offices in Winchester, Stanton and Franklinton with servicemen also stationed in Madison and Montgomery Counties.

We share in the pride

In this Centennial year we share in the pride of accomplishment and look forward to more productive growth in the future.

ABOUT THE AUTHOR

Lorena Gilmore Reynolds, who wrote the above story about her parents, Dr. and Mrs. Gilmore, was educated in the White Oak High School and then went on to graduate from the College of Medicine at the University of Texas, where she was licensed to teach in 1940.

Mrs. Gilmore was a teacher for three years in the Teacher in the Bath and Montgomery County schools, a career which was interrupted for three and a half years by the war. She was one of the first women to be trained in nursing at the University of Texas during the war, where she served with the Red Cross. After the war, she resumed her teaching career and was a teacher in the local schools.

NIGHT OF THE RIDERS...

By LILA ROBERTSON LESCH

On a Friday, late summer night in Bethel, 1948, twenty men or so gathered in the barbershop, then drifted into the night and out of town. The news of the meeting spread like wildfire through the village, but with few details or an exact time, just a place and a purpose.

The riders were expected to ride long distances, often through remote areas, and their activities could be dangerous. The riders' motives were speculated to be a combination of thrill, rebellion against authority, and a desire for freedom and adventure.

The riders' nightly meetings were a source of fear and concern for the village's residents, who often spoke of the "duh horsemen" or "night riders" as gutters and troublemakers.

The villagers were not alone in their担忧, as the riders were a common phenomenon in rural areas during that time. They were organized into groups and operated in secret, often seen as a form of rural protest against the establishment.

The village of Bethel, known for its rural and agricultural roots, was not immune to the influence of the night riders. The riders' presence was a reminder of the tension between the old and the new, between tradition and change.

In the end, the riders were eventually dispersed, their numbers dwindling as the village grew and modernized. The fear and fascination with the night riders faded, replaced by a sense of relief and a return to normalcy.

The village of Bethel, once again, was left to its peaceful nights, the riders' memory lingering as a tale of the past, a footnote in the history of the village.

About the author

Lesch, a native of Bath County, early years and then at the age of twenty-four, went to Lexington, Kentucky, for her teaching certificate at Stanford College. In 1937 she married her husband, Charles H. Lesch, a civil engineer. The couple lived in Louisville, Kentucky, until her death in 1974.

A dream come true for the owners of the Sew-It Shop in Owingsville. Never in the history of their small town had there been a fabric shop. Mrs. Doris Hoch and Mrs. Viola Biffle opened the shop February 1, 1973.

They needed a person in the store who knew how to handle material. Mrs. Lorraine Lyons was the perfect answer. She had recently sold her Dry Cleaning Business. They held sewing classes to help the customers in basic sewing and short cuts with kits. They spread their help to adult classes in Montgomery County School.

For those without time to create for themselves, the store begins custom sewing. Recently they have added four more ladies to help in the sewing and though they are small, a dream is coming true.

Wonderful selection of fine fabrics for every use...

They struck terror in Bethel

NIGHT OF THE RIDERS

Three young ladies ready for a night on the town

Dolls in it. Even if their house burned and everything is in it, their dolls would be safe.

Certain incidents that were told and retold and carried down through the years are as believable to the Peters family as the events of recent years. In the years that they look back on them, they seem as real as the laughter.

The Peters family is one of the most respected in the community. They have lived in the same house for generations. The Peters have never been without food or shelter.

THE SEW-IT SHOP
Main St., Owingsville

Dream come true for Sew-It Shop owners

A dream come true for the owners of the Sew-It Shop in Owingsville. Never in the history of their small town had there been a fabric shop. Mrs. Dora Kincade and Mrs. Viola Ridge opened the shop February 15, 1937.

They needed a person in the store who knew how to handle material. Mrs. Lorraine Lyne was the perfect answer since she had recently sold her Dry Cleaning Business. They held sewing classes to help the customers in basic sewing and short cuts with cloth. They spread their help to adult classes in Montgomery County School.

For those without time to create for themselves, the three began custom sewing. Recently they have added four more ladies to help with the sewing and though they are small, a dream is coming true.

Restoration of our old family cemeteries can be done

"It really can be done," she explained, "and that people can even make their own headstone markers if they so desire."

The family of course had been helping the project to cut down the graves for a long time. The family was also helpful in the process. They planted new headstones and helped with the new fence as well.

The first task involved cutting of the headstones and the clearing of the accumulated trash. Next came the cleaning and resetting of the graves. This was a job that no one would care to do.

A large enough patch was made, in the family plot, for the graves. The stone was then set in and the grass was mowed.

Restoration of the monuments involved much more than fencing and the clearing away of brush. It took in addition involved research among available documents and search for other documents. To enable this, the family had started a business to provide these documents and search from these ones. They were able to obtain copies of maps from the family bible preserved by Ruth Pevris's mother. After she had found it, she identified the area in the East Fork region. Ruth who has been living here in Urban, Illinois, and her family were former Bath County residents. Some members of the family are also buried in the Hendrix plot, while the Hendrix family is also buried in the Hendrix plot, and the Hendrix family. Though deteriorated, was the source of data used by Ruth in the headstones which she and her family are planning. One of the interesting facts revealed during the process is that Ruth is a great, great, great grandmother of a famous writer, and another Theophils, maybe his son, fought in the Civil War on the Confederate side.

Twenty or more stones marked and arranged, were found in the plot. Many are unrecognizable and primitively all of them need to be cleaned and reset. In this they were helped by Ruth Pevris, who offered his help and valuable ideas on cleaning. The family also said that the county is full of people with the same names and that the early settlers here. They and Mildred Bey are the ones in the county to restore these and help locate others. The Hendrix family is famous in the area and the families associated with the work including Alvin Vice, Elgin Bailey, Frank Young, Clyde Bennett, Eugene Young, Sterling Young, Roy Stevens, Bill Carpenter and Claude Bailey.

Davis Department Store has been serving the clothing and household needs of Bath Countians for over 28 years. We're looking forward to many more years of serving you!

Always Be In The Peak Of Fashion With The Latest Styles And The Proper Accessories

What's the Davis customer like? He probably shops at Davis' often. He knows he'll find the same quality merchandise day after day.

We probably appreciate fast, friendly service. It's our job to always be happy to help you make your buying selections, to never be short of stock, to always be ready to help you with your time to buy and choose the perfect gift, and to decide on just the right one to fit your needs.

Shop where you know you're getting the best for less.
Ison's shop became city's first florist in 20 years

August 1, 1973 was a very big day for Ison's Florist, for that is when they opened a new shop in Owingsville, the first florist in 20 years. Right from the first business was excellent since they were accepted graciously by all Bath Countians. In a month or so another florist joined them in Owingsville, but so far they have had plenty of business for both. Fall activities included Fall Harvest Days, a grand opening and a Christmas preview. It has all been exciting and fun and so they round out their first year they feel business has far exceeded their expectation and hope that their future here will be even more promising.

Ison's Florist, located in the Richard Hill building in the corner of Herty and Court Streets, is operated by Ray Ellis, who came to Owingsville from Morehead. Ray has had over seven years experience as a florist and for several years operated his own large florist shop in Florida. He is especially adept at funeral arrangements and trees to do in weddings, which he has been doing for the last 10 years. He is also offering the wedding to make sure that no detail is overlooked. In this business, in addition to cut flowers of all types and dried arrangements Ison's main

Started as Owingsville Farmers Supply

The Owingsville Farmer Supply was started February 8, 1961, when the Opening Post Room is now located. The following year 1962 the business was moved to where Doctor Cameron's office is now located. January 1, 1966 it moved again in the building where Miller Furniture is presently located. In January 1, 1966 it opened in a new building for business where the present store is now located on Brooke Street. Melvin Carter was made manager and since December 1, 1966 it was sold Southern States Coop., Inc.

We Are Very Proud To Be A Part
Of the Growth Of Our County
Owingsville has its own concert band in 1920s

In 1926-28, there was an Owingsville Concert Band and some of the old ladies still remember that musical group with fond memories. W. C. "Bill" Lacy remembers the group and furnished the News-Outlook with its roster of members. They include: O.B. Thompson, bass and solo trumpet; Earl B. Thompson, Eunice Morgan and Lee Heneke, trombone; C. Frank Doster, Dr. J. W. Landis, Charles Heneke and Arnold Thompson, clarinet; J. Luther Hess and Elzie Huse, altos; Ed D. Thompson and J. B. Day, tenor; Joe "Fut" Shodan and E. W. Morgan, alto saxophone, tuba and E. flat tenor; T. Herbert, baritone; W. C. Lacy, bass and second baritone; George T. Young, drums, bells and xylophone; Charles W. Britton, bass drum and cymbals.

The band was augmented on special occasions by guest musicians. Some of these were: Carl Johnson, soft lips; Bobb Hensley, alto horn; Mr. McKinney, soft lips alto horn and sax; C. L. Wilson, trumpet while here and as a guest musician while at West Liberty.

The band was trained by Wright Bass, decking, Lovelady, by Prof. Wright, Prof. M. Coleman, Prof. Cohran, a professional trumpeter played with several circus bands, chattaggin' and street bands; and every wind and woodwind instrument, including flutes, violin and guitar. W. C. Coopert directed and performed with the band, playing flute and piccolo.

By Mildred Wom

Owingsville's concert band played at Grand Jury Day at Morehead and dedication of the Owingsville Cemetery. It played at the Kentucky State Fair Band Contest at Louisville and the Owingsville Concert Band performed at the Kentucky State Fair. It played at the Owingsville Spring Festival at the Owingsville Community Center.

On September 25, 2010, the Owingsville Community Center held its annual Fall Festival. The Owingsville Community Band performed at the festival, entertaining the crowd with a variety of musical numbers. The band was led by W. C. Lacy, who served as the band's conductor for many years.

The concert band also performed at the Kentucky State Fair, where it was well received by the audience. The band's repertoire included a mix of classical and contemporary pieces, showcasing the talent of the band members.

During their performances, the band members were dressed in traditional concert attire, adding a touch of elegance to their performances. The Owingsville Community Band's dedication to music and community has earned them a loyal following, with many in the area looking forward to their performances each year.

The Owingsville Community Band is a testament to the rich musical heritage of the area. Their performances not only entertain but also educate the audience, teaching them about the history and evolution of music. The band's commitment to excellence and their passion for music make them a valuable asset to the community.

OWINGSVILLE SERVICE
Bath Masonic Lodge is 155 years old

Karricks recall good old days when operating a service station was uncomplicated, few taxes

Lewis Karrick and son, Don, now operate two modern Standard service stations in Outingville. One is at the U.S. 60 interchange on the southern edge of town, the other at the S-44 interchange east of the city.

Lewis Karrick began his service station career in 1944 when he was with Texaco for a year, then moved to the En直观 Tourist Camp in U.S. 60, where he started with Standard Oil and has been with them for about 40 years.

The picture was taken in 1946 at the Belle Sue Tourist Camp. Don was 6 years old at the time. If the station there sold 108 gallons a day that was a big day.

Don started with Standard Oil in 1960 at his present location and has been there ever since. He started learning the business on a hand pump. That was back in the days when very little bookkeeping was required in this business. There was no gas tax, no state income tax, no social security withholding from employees. "You just paid the boys who helped you at the pump and took the rest home," Lewis recalls.

But things are much different now. Modern service stations such as Karrick's give more service and more products and it is involved with more bookkeeping than ever before.

Along with regular station operation, Karrick's has also expanded its services in giving tuneups, radiator and air conditioning service, complete tune-up and battery service and 24-hour emergency service.

It has come a long way since those 108-gallon-a-day times back in 1946.

Lewis Karrick's first service station, 1946.

Out of calumity came three horsemen

By Phyllis Reba

During the nineteenth and twentieth centuries, horsemen and horse riders were among the most skilled of all athletes, often engaging in dangerous and exciting activities. This article explores the story of three horsemen who, through their efforts, were able to rescue a young woman who was in danger.

The story of the three horsemen begins in a small town where a young woman was being held captive by a group of criminals. The situation was危急, with no one able to save her. However, the horsemen, through their skill and daring, were able to rescue the young woman and thereby bring justice to those responsible for her capture.

The story is a testament to the bravery of these horsemen and the importance of their role in society. It is a reminder that, even in the face of danger and adversity, there are those who will stand up for what is right and fight to protect the innocent.

Read the full article for more details on the lives and adventures of these three horsemen, and how they were able to overcome the odds and bring about a happy ending.

SHERIFF LANE TAngLED WITH THE NIGHT RAIDERS

Sheriff Lane was a man of great experience, having served his community for many years. He was well respected and feared by those who knew him. But on this particular night, he found himself facing a new and unexpected challenge.

As the moon shone down on the small town of Appleton, Sheriff Lane was on the lookout for any signs of trouble. He had received a tip from a reliable source that a group of outlaws was planning to strike the town at night.

With his heart pounding in his chest, Sheriff Lane hurried to the scene of the planned attack. As he arrived, he saw a group of men dressed in black and brandishing guns. They were about to pounce on an unsuspecting victim.

Sheriff Lane knew that he had to act fast. He drew his pistol and called out to the outlaws, demanding that they surrender. But the outlaws were not so easily intimidated. They laughed and shot at the sheriff, forcing him to duck for cover.

Sheriff Lane was not deterred. He continued to fire back at the outlaws, determined to protect the innocent people of Appleton. He knew that the battle was far from over.
